Derek Twigg: The MOD dispatches relatively little mail externally. Official mail within the Department is primarily distributed by the internal Defence Mail Service, provided by the British Forces Post Office, while mail for personnel serving overseas is usually distributed by RAF air transport. The cost of the mail service is monitored daily by the BFPO budget manager and evaluation meetings are held monthly with the Commander Defence Postal Services.

Most external mail is sent through the Royal Mail Group, or, exceptionally through other approved carriers, the cost of which is met and monitored by individual budget holders. These details are not held centrally and could be provided only at disproportionate cost.

Departmental Press

Mr. Hoban: To ask the Secretary of State for Defence how much was spent by his Department on subscriptions for magazines, newspapers and other publications in each of the last 24 months. [215212]

Derek Twigg: The Ministry of Defence has a central enabling contract with a journal supplier which all staff are encouraged to use to purchase discounted subscriptions to non-recreational periodicals in order to achieve best value for money. The contract is open to all MOD units, civilian and military, worldwide. It is primarily used for the purchase of medical, technical and academic journals in support of military health care, the equipment programme and education and training. Expenditure under the contract for the period June 2006 to May 2008 is shown in the following table:

Month	*Expenditure (£)*
2006	
June	16,900
July	13,167
August	7,130
September	36,572
October	[1]233,66
November	64,248
December	[1]329,737
2007	
January	61,683
February	32,829
March	28,053
April	59,569
May	62,797
June	17,288
July	[1]270,089
August	10,861
September	38,019
October	[1]180,107
November	25,091
December	33,859
2008	
January	12,847
February	[1]371,188
March	76,095
April	7,059
May	74,847

[1] Units may choose to pay by monthly or annual payment. Annual payments account for periodic cost variations.

As use of the contract is not compulsory, some units may be using alternative suppliers. Information on expenditure under such local arrangements is not held centrally and could be provided only at disproportionate cost.

Departmental Procurement

David Simpson: To ask the Secretary of State for Defence what his Department's policy is on requesting discounts from its suppliers in return for swift payment of invoices. [220437]

Mr. Bob Ainsworth: It is the Department's policy to meet its payment obligations promptly within agreed contract terms and acquisition teams are bound under HM Treasury rules to choose or negotiate payment terms that represent good value.

The Department is making greater use of e-tools to secure better deals and speed up the payment process in pursuit of better value for money.

Departmental Property

Mr. Hoban: To ask the Secretary of State for Defence which organisations have received *(a)* free and *(b)* discounted room hire from (i) his Department and (ii) its agencies in each of the last five years; and what the commercial value of the discount was in each case. [221585]

Derek Twigg: This information is not held centrally and could be provided only at disproportionate cost.

Departmental Public Expenditure

Mr. Gerald Howarth: To ask the Secretary of State for Defence if he will break down his Department's main estimate in *(a)* near cash and *(b)* non-cash terms on the same basis as in his answers to the hon. Member for Aldershot on 4 March 2008, *Official Report*, column 2346W and 5 March 2008, *Official Report*, column 2284W. [218334]

Mr. Bob Ainsworth: I will write to the hon. Member and place a copy of my letter in the Library of the House.

Substantive answer from Bob Ainsworth to Gerald Howarth:

I undertook to write to you in answer to your Parliamentary Question on 14 July 2008, *Official Report*, column 168W, requesting a breakdown of the Department's main estimate in near cash and non-cash terms on the same basis as previous replies on 4 March 2008, *Official Report*, column 2346W and 5 March 2008, *Official Report*, column 2284W.

I attach tables which provide a detailed breakdown of the Department's Main Estimates for 2008-09.

I am placing a copy of this letter in the Library of the House.

Breakdown of Main Estimates

TLB	Estimate type	£000
Total War Pensions and Allowances		1,015,090
MOD Total		42,398,015

Departmental Public Participation

Mr. Hoban: To ask the Secretary of State for Defence what *(a)* reviews and *(b)* public consultations have been initiated by his Department since 27 June 2007. [221377]

Derek Twigg: Information on the number of reviews and public consultations conducted by MOD is not held centrally and could be provided only at disproportionate cost.

Departmental Sick Leave

Jenny Willott: To ask the Secretary of State for Defence (1) how many staff in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility have taken sick days due to mental health and behavioural disorders in each of the last 10 years; what proportion of staff of each body this represented in each year; and if he will make a statement; [216090]

(2) what the average duration of single periods of sick leave taken by staff in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility who gave mental health and behavioural disorders as the reason for their absence was in each of the last 10 years; and if he will make a statement; [216093]

(3) how many sick days were taken by employees in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility due to mental health and behavioural disorders in each of the last 10 years; what proportion of sick days taken this represented in each case; and if he will make a statement. [216105]

Derek Twigg: The Department reports absences listed for mental health and behavioural disorders against the standard ICD 10 Code—Mental and Behavioural Disorders (PSD).

Data for staff in the Ministry of Defence are listed in the following table.

Sick days recorded against ICD 10: Mental Health and Behavioural Disorders (PSD)

	Personnel			Total working days lost	
12 months ending	Number	Percentage	Average days duration	Number	Percentage
31 December 2005	3,920	5.0	22.1	134,670	18.3
31 December 2006	3,980	5.3	21.9	128,030	19.4
31 December 2007	3,830	5.4	22.5	124,950	19.9

Sick days recorded against ICD 10: Mental Health and Behavioural Disorders (PSD)

	Personnel			Total working days lost	
12 months ending	Number	Percentage	Average days duration	Number	Percentage
31 March 2008	3,770	5.4	22.4	122,440	20.4

Notes:

1. Data exclude staff in Trading Funds, the Royal Fleet Auxiliary, and Locally Engaged Civilians for whom sickness absence data are not readily available.
2. Data presented reflect the current Cabinet Office definition, setting a maximum absence of 225 days per person in any one year, and exclude absence days that occurred on weekends, annual leave and bank holidays.
3. Totals have been rounded to the nearest 10, totals and sub totals have been rounded separately and so may not equal the sums of their rounded parts.
4. The percentage of working days lost is calculated as a percentage of the total working days lost due to sickness absence.

Information prior to calendar year 2005 is compiled on a previous definition for monitoring sickness absence which is not consistent with figures for calendar year 2005 onwards.

Data for the Ministry of Defence's agencies and non-departmental bodies are not held centrally, and could be provided only at disproportionate cost.

Mental health and behavioural disorders such as anxiety and depression are often stress-related and MOD classifies all such absences under the same code. MOD is committed to protecting the health, safety and well-being of its employees and has a number of procedures in place to reduce stress at work.

A stress management framework, based on the Health and Safety Executive's management standards, is available to all employees and gives easy to use advice on the successful prevention, recognition and management of stress at work. Online health promotion material on stress avoidance techniques is also available.

It is also MOD policy to seek the early advice of occupational health professionals in cases of sick absence due to stress-related illnesses.

David Simpson: To ask the Secretary of State for Defence how many staff in his Department have had five or more periods of sickness absence of less than five days in two or more of the last five years. [218965]

Derek Twigg: The number of MOD civilian personnel who have had five or more periods of sickness absence of less than five days in two or more of the calendar years 2005, 2006 and 2007, was 2,620 (rounded to the nearest 10).

Information prior to calendar year 2005 is compiled on a previous definition for monitoring sickness absence which is not consistent with figures for calendar year 2005 onwards.

MOD is totally committed to the effective management of sickness absence and consistently performs well in this area. This is achieved by a combination of methods including the setting and monitoring of absence reduction targets for business units and actively involving line managers in the process. Early referral of persistent absentees for occupational health advice is also encouraged as early referrals usually result in an earlier return to regular attendance.

Departmental Sick Pay

Jenny Willott: To ask the Secretary of State for Defence how many staff in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility have received sick pay for sick leave due to mental health and behavioural disorders in each of the last 10 years; what the average length of time was for which sick pay was paid in these cases; and if he will make a statement. [216092]

Derek Twigg: The information requested is not held centrally and could be provided only at disproportionate cost.

Jenny Willott: To ask the Secretary of State for Defence how much was paid in sick pay to staff in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility in each of the last five years; what proportion of the staffing expenditure of each body this represented in each year; and if he will make a statement. [216106]

Derek Twigg: The information requested is not held centrally and could be provided only at disproportionate cost.

Fuels

Dr. Fox: To ask the Secretary of State for Defence pursuant to the answer of 7 February 2008, *Official Report*, column 1492W, on fuels, (1) what percentage of the £80 million was paid for from the Treasury Reserve; [204557]

(2) how much his Department spent on fuel in each year from 2005-06 to 2007-08, broken down by type of fuel; [204558]

(3) what estimate his Department has made of the effect on the cost of British military operations abroad of each US $1 increase in the price of oil. [210640]

Mr. Bob Ainsworth: We are currently collating the necessary information. I will write to the hon. Member once this process is complete.

Substantive answer from Bob Ainsworth to Liam Fox:

I undertook to write to you in answer to your Parliamentary Question on 19 June 2008, (Official Report, column 1095W) about fuels. I apologise for the delay in replying, but the way we purchase and account for fuel is complex, and it has taken some time to assemble the information you requested.

In my reply on 7 February 2008 (Official Report, column 1492W) I stated that fuel price changes (predominantly affecting maritime and aviation fuel) were estimated to have added outturn costs of around £80 million over the period 2005-06 to 2007-08 to the Department's fuel bill. This figure was based on a costing model. More up-to-date information now available indicates, through this cost model, that the additional cost incurred by the Department over the period 2005-06 to 2007-08 through fuel price rises was some £[illegible]30M.

The table below provides the amount the MOD spent on fuel in each year from 2005-06 to 2007-08, broken down by type of fuel. The information is derived from Top Level Budget Holders' submissions to the overall Departmental Resource Accounts.

			£ million
	2005-06	*2006-07*	*2007-08*
Aviation fuel[1]	255	265	270
Fuels (non-utility)[2]	200	255	305
Total	455	520	575

[1] For 2005-06 and 2006-07, some aviation fuel expenditure was accounted for in the stock consumption line of the published departmental resource accounts for those years.

[2] Defined as petroleum-based liquid fuels meeting internationally recognised specifications that are used to power ships and vehicles.

I would stress that these figures cannot be comprehensive, as local purchase arrangements are not always visible at higher levels of accounting: for example, while systems are in place to ensure propriety by recording local purchase of fuel for military vehicles at commercial petrol stations, these do not feed into higher financial management systems. Additionally, the figures do not include utilities (for example, natural gas and heating oil used to heat buildings), which are accounted for separately. There may also be other, smaller elements of fuel expenditure which Departmental financial management systems do not enable us to identify.

Assuming that volumes consumed in core Defence activity such as non-operational exercising have remained broadly constant or increased only marginally over the period, a large proportion—possibly around two-thirds—of the estimated outturn cost increase of £120-130M is likely to be attributable to Request for Resources 2 (RfR2—the Department's claim against the Reserve for operations). I would stress that this is an estimate, not an absolute measure of the impact of fuel price increases on either Defence or the Exchequer.

Where fuel prices increase, there will naturally be an impact on the cost of operations, depending on the volume of consumption at the time and the extent to which any local purchasing arrangements reflect global $ price increases: a broad estimate suggests that this effect could be around £1-2M for every US $1 increase in the price of crude oil.

I am placing a copy of this letter in the Library of the House.

General Staff Briefing Team

Dr. Fox: To ask the Secretary of State for Defence if he will place in the Library a copy of the Chief of the General Staff Briefing Team report of July 2008. [220661]

Mr. Bob Ainsworth: I refer the hon. Member to the answer I gave on 6 May 2008, *Official Report*, columns 832-33W. A copy of the most recently published report, for the second half of 2007, is available in the Library of the House. The next report is not expected to be finalised until later in the year for publication in early 2009.

Government Communications

Mr. Hoban: To ask the Secretary of State for Defence how many staff in *(a)* his Department and *(b)* its agencies (i) are classified as Government communicators and (ii) have access to the Government Communication Network. [215103]

Derek Twigg: As at 30 June 2008 there were 115 staff working in communications roles directly employed by the Department's Media and Communications Directorate.

The Department does not retain central lists of communicators employed across the wider Department and its agencies.

Additionally, other civil servants may have communication as a core part of their role as good communication is integral to supporting the Department.

The GCN is open to all civilian and military staff in the Department performing communications work to register. As at 1 May 2008, the total number who has self-registered to the GCN in MOD was approximately 270.

HMS Ontario

Mr. Gordon Prentice: To ask the Secretary of State for Defence whether the Government has ownership of the wreck of HMS Ontario; and if he will make a statement. [212600]

Mr. Bob Ainsworth: I will write to my hon. Friend.

Substantive answer from Bob Ainsworth to Gordon Prentice:

I undertook to write to you in answer to your Parliamentary Question on 3 July 2008 (Official Report, column 1040W), about the ownership of HMS ONTARIO, whose wreck has apparently been discovered by a Canadian dive group at the bottom of Lake Ontario on the US-Canada border.

HMS ONTARIO, a 22 gun sloop, foundered in a storm on Lake Ontario on October 31 1780 during the American Revolutionary War—it is uncertain how many lives were lost (estimates range from 88 to over a 120) as the ship may have been carrying some American prisoners of war in addition to British soldiers and her British and Canadian crew. There were no survivors. The dive group, who located the wreck using side-scanning sonar and an unmanned submersible, say that it is virtually intact, it is thought that the cold, fresh water of the lake has acted as a preservative with the lack of light and oxygen slowing decomposition of the ship's timbers. In addition to being effectively the last resting place of those who perished in the sinking, the remains of the ONTARIO undoubtedly represent an important item of underwater cultural heritage. The dive group apparently have no plans to attempt to raise the wreck or remove artefacts from it and have not publicised its position.

The ONTARIO was launched from Carleton Island shipyard on Lake Ontario in May 1780. A King's Ship, she was part of the Provincial Marine, a coastal protection service on the Great Lakes operated and staffed by the Royal Navy. This service with the Provincial Marine complicates the question of ownership as it is possible that rights to the wreck may have transferred to Canada when she became an independent nation and the assets of the Provincial Marine were made over to it. This issue is being investigated but as you can appreciate, it is likely to take some time to resolve.

That said, the issue of who actually owns the wreck may, in this case, be moot. The remains of HMS ONTARIO appear to lie in United States territorial waters and the United States have already indicated that they are willing to use US legislation to protect the wreck from unauthorised interference—a stance that the United Kingdom is entirely comfortable with. The United Kingdom is unlikely to object to appropriate archaeological investigation of the find—however, any such investigation would be a matter for the Canadian and United States authorities in the first instance given that these two countries control access to the site. We shall of course continue to monitor developments and liaise with our Canadian and United States counterparts, but it seems clear that all State parties involved are united in their wish to see the wreck of HMS ONTARIO properly protected.

HMS Superb

Mr. Hancock: To ask the Secretary of State for Defence what plans he has for the future deployment of HMS Superb. [220473]

Mr. Bob Ainsworth: HMS Superb will be conducting a series of tests and trials prior to her planned Decommissioning date in October 2008.

Horsea Island Dive Centre

Mr. Hancock: To ask the Secretary of State for Defence for what reasons the Horsea Island diving facilities have been closed to the public; whether they will be re-opened to the public; and if he will make a statement. [220136]

Derek Twigg: The decision to close the Horsea Island facility to regular commercial use is the result of an increased training requirement for both Army and Royal Navy personnel, and a security review of the site which concluded that an armed security presence was required. Organised commercial diving activity is therefore no longer compatible with the operational and security arrangements required at this site.

Iraq: Armed Forces

Nick Harvey: To ask the Secretary of State for Defence (1) how long it took to train and mentor the 10th division of the Iraqi army; [220316]

(2) how long on average it has taken to train and mentor each division of the Iraqi army; [220317]

(3) how long he estimates it will take to complete *(a)* training and *(b)* mentoring of the 14th division of the Iraqi army. [220318]

Des Browne: UK forces trained and mentored the 10th Division of the Iraqi army from the establishment of its Headquarters in Basra in May 2005 until its move to Dhi Qar province in September 2007. Since then, our Coalition partners have performed a residual mentoring role with the 10th Division.

The appropriate duration and shape of the training and mentoring support that the Coalition provides to the Iraqi army is determined by a range of factors specific to each Division. These factors include the previous military experience of the Division's recruits, the timing of the Division's formation, the security challenges it faces and the availability of equipment. The Coalition does not therefore seek to calculate an average period for the full training and mentoring of Iraqi army Divisions.

As the Prime Minister said in his statement on 22 July 2008, *Official Report*, columns 660-3, subject to conditions on the ground, our military commanders expect the 14th Division in Basra to be fully trained during the first months of next year. On completion of our remaining military tasks in Basra, we aim to make the transition to a long term bilateral relationship with Iraq, the details of which we will be discussing with the Government of Iraq over the coming months.

Iraq: Peacekeeping Operations

Nick Harvey: To ask the Secretary of State for Defence how many Mastiff vehicles have been blown up in *(a)* Iraq and *(b)* Afghanistan since 2003; and what the date was of each incident. [218445]

Des Browne: I am withholding the information requested as its disclosure would, or would be likely to, prejudice the capability, effectiveness or security of our armed forces.

Andrew Rosindell: To ask the Secretary of State for Defence what progress has been made in ensuring British armed forces in Iraq and Afghanistan are appropriately equipped. [219915]

Des Browne: Excellent progress has been made in ensuring British forces serving on operations are provided with world class equipment. We have delivered equipment valued at more than £10 billion to the armed forces in the last three years, with over £3.6 billion of Urgent Operational Requirements being approved for Iraq and Afghanistan since the beginning of operations, including for vehicles, personal protection and Electronic Counter Measures.

Adam Price: To ask the Secretary of State for Defence pursuant to the answer of 16 June 2008, *Official Report*, columns 623-4W, on Iraq: peacekeeping operations, whether it is the policy of the Government that a renewed mandate for coalition forces in Iraq should include a timetable for withdrawal of coalition forces. [220044]

Des Browne: We have always made clear that adjustments to UK force levels in Iraq are made on the basis of progress in fulfilling our main military tasks and the conditions on the ground, and not on arbitrary timetables.

As the Prime Minister set out on 22 July 2008, *Official Report*, columns 662-63, we expect—subject to conditions on the ground—to be able to make the transition to a long-term bilateral military relationship in the first months of 2009, following the completion of our main military tasks.

Assessments of progress in completing our tasks will form part of the ongoing discussions with the Iraqi Government and our coalition partners on the legal basis for our military presence after 2008.

Met Office: Telephone Services

Mr. Prisk: To ask the Secretary of State for Defence what income his Department received from the Met Office 0870 number in *(a)* 2007-08, *(b)* 2006-07 and *(c)* 2005-06. [217541]

Derek Twigg: No revenue has been received by MOD from the Met Office 0870 numbers.

Military Aircraft

Mike Penning: To ask the Secretary of State for Defence how many *(a)* aircraft, broken down by type and *(b)* tanks were withdrawn from service in each year since 1997. [165066]

Mr. Bob Ainsworth: The following table provides details of the number of main battle tanks withdrawn from service with the armed forces in each year since 1997:

Equipment	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*
Challenger 1 (CR1 MBT)	0	0	14	74	90	88	96	53	8	3	0
Challenger 2 (CR2 MBT)	0	0	0	0	0	0	1	0	0	[1]40	0

[1] 20 CR2 MBT are being used as a source of spares. A further 20 remain in storage pending a disposal decision.

I will write to the hon. Member with the corresponding information for aircraft and place a copy of my letter in the Library of the House.

Substantive answer from Bob Ainsworth to Mike Penning:

I undertook to write to you in answer to your Parliamentary Question on 29 November 2007, *Official Report*, column 580-781W, about the numbers of aircraft, broken down by type that were withdrawn from service each year since 1997. I apologise for the delay in replying.

Information on the numbers of aircraft withdrawn from service in each year is not held centrally in a consistent format. Nevertheless, determined efforts were made to collate available information. This exercise revealed a number of discrepancies in the data and despite a detailed and prolonged analysis, it was not possible to resolve these.

Definitive information is known to exist in the engineering files for individual aircraft; however, to extract this information would require the retrieval from archive and examination of several hundred files and this could be done only at disproportionate cost.

However, I am able to provide information on aircraft withdrawals for 2005-06 and 2006-07. This is shown in the table below.

Aircraft type	*2005-06*	*2006-07*
Sea Harrier	8	0
Harrier GR	0	1
Jaguar GR	0	19
Jaguar T	0	1
Canberra T Mk 4	1	0
Tornado GR4	0	1
Tornado F3	25	8
Hercules C-130J	0	1
Hercules C-130K	0	1
Tucano	30	0
Dominie	1	0
Nimrod MR2	0	5
VC-10 C1K	1	0
VC-10 K4	2	0
Puma Mk1	1	0
Gazelle AH1	0	6
Lynx Mk3	1	0
Lynx Mk7	4	4

Mr. Gerald Howarth: To ask the Secretary of State for Defence what the *(a)* unit cost and *(b)* in-service date of the (i) Harrier GR3, (ii) Sea Harrier FRS1, (iii) Tornado F3, (iv) Harrier GR5, (v) Jaguar GR1 and (vi) Tornado GR1 was. [218238]

Mr. Bob Ainsworth: The aircraft listed entered service between the mid-1970s and late 1980s. Because of the long period of time that has since elapsed, the unit cost

of these aircraft is no longer centrally recorded and could be provided only at disproportionate cost. Official in-service dates are similarly no longer centrally recorded. Such information as is available is provided in the following table:

Aircraft type	*Date entered service*
Harrier GR3	1976-77[1]
Sea Harrier FRS1	1979[2]
Tornado F3	July 1986[3]
Harrier GR5	1987-89[1]
Jaguar GR1	May 1973[3]
Tornado GR1	January 1982[4]

[1] Delivery dates for first tranche of aircraft.
[2] First squadron became operational.
[3] First aircraft entered service with Operational Conversion Unit.
[4] First aircraft entered service with No. 9 Sqn.

Mr. Hancock: To ask the Secretary of State for Defence which unmanned aerial vehicles in operation or on order have an attack capability; what weapons they are equipped to carry; and how much has been spent to acquire a munitions inventory for such vehicles. [220527]

Mr. Bob Ainsworth: Reaper is the only unmanned aerial vehicle (UAV) in operation or on order that has an attack capability. Reaper UAVs are capable of carrying 500 lb laser guided bombs and Hellfire air-to-surface missiles. Reaper's weapons are being procured from the United States Government through a Foreign Military Sales (FMS) case and the actual costs will depend on operational use.

Mr. Hancock: To ask the Secretary of State for Defence how much was spent on research into unmanned aerial vehicles in 2007-08; and how much is budgeted to be spent in 2008-09. [220528]

Mr. Bob Ainsworth: Approximately £34.7 million was spent on research into unmanned aerial vehicles during 2007-08. I am withholding further details as its release would prejudice commercial interests.

Mr. Hancock: To ask the Secretary of State for Defence what proportion of the programme cost of the Watchkeeper unmanned aerial vehicle is represented by *(a)* research and development, *(b)* the air vehicle, *(c)* the sensors package, *(d)* ground stations and *(e)* through-life support. [220529]

Mr. Bob Ainsworth: Information relating to the costs of the Watchkeeper programme is not held in the format requested. Where available, details of the programme costs are as follows:

The Watchkeeper Concept and Assessment Phases (equivalent to the latter stages of research) cost £65 million.

The total cost of Watchkeeper air vehicles (excluding sensors) is £50.99 million.

The total cost of sensors is £30.4 million.

Ground control stations are included in the overall costs of the demonstration and manufacture contract.

I am withholding information on expected costs for through-life support as its release would prejudice commercial interests.

Mr. Hancock: To ask the Secretary of State for Defence how many unmanned aerial vehicles of each type are *(a)* in service and *(b)* on order. [220530]

Mr. Bob Ainsworth: The information requested is shown in the table as follows:

Type of UAV	*In-Service*	*On Order*
Desert Hawk III	89	42
Hermes 450	10[1]	0
Watchkeeper	0	54
Reaper	2	1

[1] Hermes 450 UAVs are provided by Thales Aerospace under a service provision contract. The contract specifies monthly flying hours rather than numbers of air vehicles but the required service is typically achieved with 10 air vehicles.

Mr. Hancock: To ask the Secretary of State for Defence when the initial operating capability for Watchkeeper is expected to be achieved; and what the definition of that capability is. [220532]

Mr. Bob Ainsworth: Watchkeeper Initial Operating Capability is expected to be achieved no later than February 2011. The current programme forecast is December 2010. Initial Operating Capability is defined as 'one (Army) sub-unit trained and equipped to support a Medium Scale of Effort deployment'.

Military Aircraft: Helicopters

Dr. Fox: To ask the Secretary of State for Defence how many *(a)* helicopters and *(b)* armoured vehicles of each type are (i) under repair and (ii) redundant or not repairable. [214380]

Mr. Bob Ainsworth: The number of helicopters of each type under repair or redundant or not repairable as of 1 June 2008 was as follows:

Type	*Under Repair*[1]	*Redundant*[2] *or not repairable*
Apache	7	0
Chinook Mk2/2A	8	0
Lynx Mk3/8	16	8
Lynx Mk7/9	15	13
Merlin Mk1	9	4
Merlin Mk3	7	0
Merlin Mk3a	0	0
Gazelle	5	40
Puma	7	5
Sea King HAR Mk3	5	0
Sea King HAR Mk3a	1	0
Sea King HC Mk4	5	0
Sea King HU Mk5	1	0
Sea King HAS Mk6	0	13
Sea King Mk6c	0	0
Sea King Mk7	1	0

[1] Under repair refers to those aircraft in depth maintenance/repair excluding those on modification/upgrade.
[2] Redundant refers to those aircraft which are awaiting re-classification as surplus or those already declared surplus awaiting disposal.

The number of armoured vehicles of each type under repair or redundant or not repairable as of 3 July is as follows:

Type	Under repair[1]			Redundant or not repairable[2]	
	Undergoing repair	Awaiting repair	Undergoing conversion	Redundant	Hulls beyond repair
Challenger 2 MBT	9	11	0	38	0
Warrior	58	61	0	0	0
FV430 (including Bulldog)	74	88	42	0	7
CVR(T)	59	82	0	0	19
Vector	1	0	0	0	8
Mastiff	1	0	0	0	3

[1] Repair is defined as the equipment either undergoing base overhaul (programmed work) or specified work (work not possible in unit lines). Vehicles awaiting repair/collection or undergoing planned conversion are also included.
[2] Redundant vehicles are those over and above the total fleet requirement and 'not repairable' refers to those that are beyond economic repair.
[3] One hull awaiting a repair decision.

Military Corrective Training Centre: Young People

Nick Harvey: To ask the Secretary of State for Defence how many people under 18 years old have been detained with adults in the Military Correction Training Centre in Colchester in each of the last five years, broken down by *(a)* age, *(b)* sex, *(c)* ethnic origin and *(d)* disability. [220315]

Mr. Bob Ainsworth: The number of individuals under 18 years of age who have been detained at the Military Corrective Training Centre in each of the last five years, broken down by sex, is as follows:

1 April to 31 March each year	Number of detainees		
	Male	Female	Total
2003-04	7	2	9
2004-05	16	1	17
2005-06	3	0	3
2006-07	12	0	12
2007-08	4	1	5

All of these detainees were aged 17, and their ethnic origin was White British; none were disabled.

RAF Halton

Mr. Lidington: To ask the Secretary of State for Defence which customers purchased *(a)* spare capacity training and *(b)* spare capacity resources from RAF Halton in each year since 1998. [217587]

Mr. Bob Ainsworth: The RAF has had a contract with HORIZON to market spare training capacity at RAF Halton since 2001. I am withholding the list of HORIZON'S customers as its release would, or would be likely to, prejudice commercial interests. Details of customers for spare capacity at RAF Halton prior to 2001 are not held centrally and could only be provided at disproportionate cost.

Since financial year 2004-05, approximately 1,500 customers have purchased spare resource capacity from RAF Halton. I will write to the hon. Member with the names of these customers.

Substantive answer from Bob Ainsworth to David Lidington:

I undertook to write to you in answer to your Parliamentary Question on 14 July 2008, (Official Report, column 177W) that asked for a list of customers who purchased spare capacity training and spare capacity resources from RAF Halton in each year since1998.

The list of customers who have purchased spare resource capacity is detailed below, as promised. RAF Halton holds records of these customers from the beginning of Financial Year 2001-02.

However the IT system at the station was not working when I originally answered this question. Using this newly accessible information, officials have clarified that the number of different customers is in fact around 260 since 2001-02 rather than 1,500 since 2004-05 quoted previously. On further investigation, the information in the original answer turned out to be the number of enquiries the station received concerning spare resource capacity rather than the number of actual customers. I apologise for this error.

Included within these figures are some 80 individuals who have purchased spare resource capacity from RAF Halton whose names have been withheld from this list in accordance with the Data Protection Act.

Records before 2001-02 are not held centrally and could only be provided at disproportionate cost.

Customers who have purchased spare resource capacity from RAF Halton since Financial Year 2001-02

Around 80 bookings from individuals (Details withheld under the Data Protection Act)

RAF St. Athan

Mr. Dai Davies: To ask the Secretary of State for Defence pursuant to the answer to the hon. Member for Chesham and Amersham of 15 July 2008, *Official Report*, column 314W, on RAF St. Athan, whether it is planned to make the Defence Technical Academy available to military personnel from friendly foreign states; and what accommodation facilities are planned for the academy. [221331]

Mr. Bob Ainsworth: The armed forces have a long tradition of delivering military training to foreign students and it is likely that this arrangement will continue at the Defence Technical Academy at St. Athan. The Defence Training Review Package 1 project has a requirement to provide a full range of service accommodation for all entitled service personnel who are either attending courses or serving on the staff of the Defence Technical Academy St. Athan.

Wind Power

Dr. Whitehead: To ask the Secretary of State for Defence what planning applications for onshore wind turbines have been objected to by his Department in the period 1 January to 30 June 2008; and what percentage this represented of the number of onshore wind applications to which his Department had been invited to respond during that period. [217946]

Derek Twigg: Between 1 January and 30 June 2008 the Department objected to only 18 planning applications for onshore wind turbines (see following table). These represented 18 per cent. of the total number of onshore wind turbine applications about which we were consulted during that time.

Site name	*Consenting authority*	*Reason for MOD objection*
South Denes	Great Yarmouth Borough Council	Holding objection issued as awaiting details of proposal from Council
Dusty Drum	Angus Council	Interference with Air Traffic Control (ATC) radar
Hawthorn	District of Easington Council	Interference with Air Traffic Control (ATC) radar
Waun Garno	Powys County Council	Interference with Low Flying
Sedborough	Torridge District Council	Interference with National Air Traffic Services (NATS) radar
Normanton	Wakefield District Council	Interference with ATC radar
Redland	Caradon County Council	Interference with ATC radar
Hook Moor	Leeds City Council	Interference with ATC radar
Kings Lynn Wind Park	Kings Lynn and West Norfolk Council	Interference with ATC radar
Glittering	South Cambridgeshire District Council	Interference with ATC radar
Gwyndy Quarry Gaia 1	Isle of Anglesey Council	Interference with ATC radar and Low Flying
Rothes Extension	Scottish Government	Interference with ATC radar
Shipping Hill Plantation	Pembrokeshire County Council	Interference with ATC radar

St. Fergus Wind Turbine	Aberdeenshire Council	Interference with Air Defence Radar (ADR)
Withernwick	East Riding Council	Interference with Air Defence Radar (ADR)
The Firs	Aberdeenshire Council	Interference with Air Defence Radar (ADR)
Brunel University	Hillingdon Council	Interference with ATC radar

Since 2001 the Ministry of Defence (MOD) has raised no objection to planning applications for almost 5,600 turbines (both onshore and offshore) which would, if all were consented and built, generate approximately 14.5 GW of electricity.

The MOD fully supports the Government's renewable energy policies and targets and considers every application received individually. We continue to work closely with the Department for Business, Enterprise and Regulatory Reform, the British Wind Energy Association and other stakeholders in seeking solutions to problems.

The MOD is one of the signatories to the recent Memorandum of Understanding between the wind energy industry and Government and we were also heavily involved in producing the recent BERR sponsored Aviation Plan which sets out a structured way forward for addressing the need to try to find solutions for the effects of wind turbines on radar and other aviation interests. We are also represented on the newly formed Aviation Management

Board and Aviation Advisory Panel which will oversee the work contained within the Aviation Plan.

Written Questions: Government Responses

Dr. Fox: To ask the Secretary of State for Defence when he plans to answer question 190452, tabled on 26 February 2008, on theft of military supplies in transit from Pakistan to Afghanistan. [220122]

Mr. Bob Ainsworth: I refer the hon. Member to the answer I gave on 22 July 2008, *Official Report*, columns 1051-52W.

TREASURY

Departmental Ministerial Policy Advisers

Mr. Hoban: To ask the Chancellor of the Exchequer how much was claimed in reimbursable expenses by special advisers in his Department in each of the last 10 years. [215223]

Angela Eagle: Since 1999 the Government have published, on an annual basis, the total costs of all ministerial overseas travel and a list of all visits by Cabinet Ministers costing in excess of £500. Copies of the lists are available in the Library of the House. The cost of expenses for advisers travel for their travel in the company of Ministers is included in the annual list of overseas travel by Cabinet Ministers.

Information regarding special advisers' expenses for domestic travel could be provided only at disproportionate cost. All travel by special advisers is undertaken in accordance with the guidelines set out in the "Ministerial Code" and the "Civil Service Management Code".

Departmental Responsibilities

Mr. Hoban: To ask the Chancellor of the Exchequer which projects his Department has commissioned from *(a)* think tanks and *(b)* charities in each of the last two years for which figures are available; what the aim of each project was; which think tank or charity was commissioned; and how much was paid. [221605]

Angela Eagle: As there is no clear definition of what constitutes a "think tank" it is not possible to answer the first part of the hon. Gentleman's question. Information relating to project work done by charities could be provided only at disproportionate cost.

Departmental Transport

Mrs. Villiers: To ask the Chancellor of the Exchequer when each of his Department's and its agencies' green transport plans were introduced; and if he will place in the Library a copy of each such plan. [209238]

Angela Eagle: HMRC's green travel strategy is contained within the Department's Sustainable Development Action Plan, which was published in 2007. HMRC also encourages the development of regional green travel plans that are administered on a local level and can be tailored to suit local staff and business needs. HMRC is in the process of updating its plan to reflect revised baselines and new actions in support of Sir Gus O'Donnell's recent response to feedback from the Sustainable Development Commission. I am willing to place a copy of this revised plan in the Library.

The Valuation Office Agency (VOA) does not have a separate transport plan. The VOA is included in HMRC's Sustainable Development Action Plan (SDAP), which includes a green transport strategy, published in 2007.

The Royal Mint introduced its green transport plan in 1999. A copy has been deposited in the Library of the House.

Office of Government Commerce, OGC Buying Solutions, Government Actuaries Department, National Savings and Investments do not currently have a green transport plan.

HM Treasury does not have a green transport plan, but has included detailed information on transport in the 2007-2008 Annual Report.

Departmental Visits Abroad

Anne Main: To ask the Chancellor of the Exchequer what the cost was of overseas visits made by members of staff in his Department in each of the last three years. [221408]

Angela Eagle: In 2007-08, overseas travel and subsistence costs for the Treasury were £1,420,000. In respect of total cost for earlier years, I refer to the answer given to the right hon. Member for Maidenhead (Mrs. May) on 25 July 2007, *Official Report*, column 1186W.

Mortgage Interest Relief at Source Scheme

Mr. Love: To ask the Chancellor of the Exchequer how much his Department spent on tax relief under the Mortgage Interest Relief at Source scheme in each of the last 20 years; and if he will make a statement. [221262]

Kitty Ussher: Information on the cost of mortgage interest relief is published in table 5.1 "Mortgage Interest Relief" on the HM Revenue and Customs website at:

http://www.hmrc.gov.uk/stats/mir/menu.htm

Motor Vehicles: Rural Areas

Mr. Drew: To ask the Chancellor of the Exchequer if he will develop policies to assist rural motorists who have no alternative to car transport in areas where petrol prices are particularly high. [219135]

Angela Eagle: The Government recognise the pressure that record high fuel prices are placing on motorists, particularly those in rural areas. It is for this reason that the UK continues to lead international efforts to address inefficiencies in the international oil market and increase oil price stability.

In addition, it is for this reason that the Chancellor has announced that the planned 2p per litre increase in fuel duty has been postponed for this year. Fuel duty therefore remains at 50.35p per litre, 17 per cent., lower in real terms than in 1999, when the fuel duty escalator was abolished.

National Income

Jo Swinson: To ask the Chancellor of the Exchequer what estimate he has made of the annual cost to the Exchequer of calculating the UK's gross domestic product. [220692]

Mr. Watson: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated 1 September 2008:

As National Statistician, I have been asked to reply to your recent parliamentary question concerning the annual cost to the Exchequer of calculating the UK's Gross Domestic Product. (220692)

GDP is just one output of the process to compile UK National Accounts, and is based on a large number of data sources. It is compiled according to three approaches—the production, income and expenditure measures—each of which uses different methods and sources. The three approaches are balanced, so that a single estimate of GDP is published in both cash (current prices) and real (constant prices) terms. It is difficult, therefore, to estimate the cost of producing GDP figures alone, but, including the cost of its component sources, we estimate that GDP costs ONS around £10 million to produce.

Details of the full ONS operating costs are available in our annual report.

Oil: Prices

Robert Neill: To ask the Chancellor of the Exchequer what the assumed price of oil was, in dollars, on which the 2008 Budget was based. [211919]

Jane Kennedy: The oil price assumption at Budget 2008 can be found in box C1 of the Budget 2008.

Stamp Duty Land Tax

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to the answer of 14 May 2008, *Official Report*, columns 1625-6W, on stamp duties, (1) whether an energy performance certificate can be used to indicate compliance with zero-carbon status for stamp duty purposes; [218309]

(2) how many dwellings have been subject to stamp duty tax relief on zero carbon homes. [218417]

Kitty Ussher: Between October 2007 and June 2008 a total of 13 dwellings have claimed the stamp duty relief for a new zero carbon home. The purpose of the tax relief is to provide more new energy efficient technologies in homes. The Government expect the numbers of qualifying homes to be low in the first few years, but to rise as more properties eligible to claim the relief are developed.

The Energy Performance Certificates (EPC) level 6 and zero carbon home standards are related but not identical. Therefore, while an EPC itself does not specify whether or not the home meets the standard for a zero carbon home, in many cases the information it contains may be sufficient to demonstrate that the zero carbon homes standard has been met. In this case a further inspection of the building is not required for the purpose of the zero carbon home certification.

Tax Yields: Sustainable Development

Alan Duncan: To ask the Chancellor of the Exchequer what revenue accrued to his Department from *(a)* climate change levy receipts, *(b)* the non-fossil fuel obligation, *(c)* the auction of EU Emissions Trading Scheme allowances, *(d)* transport fuel duty, *(e)* the fuel duty escalator, *(f)* increased airport passenger duty and *(g)* other financial measures designed to effect a reduction in carbon dioxide emissions in (i) 2006 and (ii) 2007. [201593]

Angela Eagle: The Treasury routinely publishes the details of current receipts in successive pre-Budget and Budget reports. The latest information can be found in Table C6 of the 2008 Budget report at:

www.hm-treasury.gov.uk/budget/budget_08/report/bud_bud08_repindex.cfm

Unemployment

Mr. Jim Cunningham: To ask the Chancellor of the Exchequer what recent steps the Government have taken to reduce unemployment. [221330]

Angela Eagle: The Government's economic objective is to build a strong economy and a fair society, where there is opportunity and security for all. Since 1997 the Government have introduced a series of reforms, which have had a significant impact in tackling unemployment. As a result, the majority of JSA claimants move into work quickly—around three-quarters move off benefit within six months. For those who remain on JSA, the flexible New Deal will be introduced from October 2009, replacing the existing New Deal programmes with earlier, more intensive and personalised support.

On 21 July 2008, the Government published their Welfare Reform Green Paper, setting out a major package of welfare reform, with increased support in return for additional responsibilities.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Avian Influenza

Matthew Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the number of birds which have died from avian influenza in *(a)* Cornwall, *(b)* each constituency in Cornwall, *(c)* the South West region and *(d)* England in the last two years. [221680]

Jonathan Shaw: I assume the hon. Member means both wild birds and commercial poultry. It is extremely difficult to give an accurate estimate of birds that have died as a result of avian influenza infection. Although some birds tested positive for avian influenza by laboratory tests, they may not have died as a result of the disease (e.g. wild birds may have died as a result of predation, cold weather or a number of other natural causes).

The following table shows the number of commercial poultry, by species, that were culled as a result of DEFRA's disease control policy, or, wild birds that were submitted as part of the Avian Influenza surveillance programme and that were positive for AI by laboratory

testing. In both cases, not all birds would have died from AI infection. Many of the commercial poultry that were culled would have been infected but alive and many not infected at the time of culling, but killed to manage the risk of disease spread because they were part of the same epidemiological unit and had been clearly exposed to infection. Many wild bird and water fowl species may act as carriers for the virus but do not show clinical signs of illness so it is not possible to provide or estimate the number which may be killed by the virus in the wild.

This information is based on the number of commercial poultry culled during outbreaks of Avian Influenza since July 2006 and the number of AI-positive wild birds submitted to the Veterinary Laboratories Agency for testing as part of the on-going AI surveillance programme.

Location	*Number of wild birds*	*Number of poultry*
Cornwall	0	0
Each constituency in Cornwall	0	0
South West region (Dorset)	11	0
England	14	Turkeys: 193,714 Peacocks: 3 Geese: 4,572 Ducks: 52,118 Laying hens: 24,895
Total birds culled in England in the last two years		275,302

Although the data in this table give an indication of the number of birds killed by AI in the last two years, this number represents a relatively low proportion of the commercial poultry industry. Due to the current high level of vigilance in the poultry industry, suspect Avian Influenza cases are notified very quickly, enabling a rapid response by DEFRA and Animal Health, so we have been able to control this disease quickly and effectively where it is identified in commercial poultry flocks.

Bovine Tuberculosis

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with the European Commission on his policy on bovine tuberculosis. [220058]

Jonathan Shaw: My right hon. Friend the Secretary of State has discussed the content of the recent bovine tuberculosis announcement with Commissioner Vasilliou. DEFRA officials also engage with the Commission regularly in discussions about control of the disease.

Bovine Tuberculosis: Disease Control

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effectiveness of the pilot badger cull in combating bovine tuberculosis; and if he will make a statement. [220020]

Jonathan Shaw: The ministerial decision in Wales allows Welsh Assembly officials to consider all the options for culling badgers as part of an 'intensive action area'. Final decisions on what this will involve are not expected before the end of the year. No discussions have been held.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with the First Minister in Wales on the effectiveness of the pilot badger cull in combating bovine tuberculosis; and if he will make a statement. [220328]

Jonathan Shaw: The Minister of Rural Affairs in Wales' decision allows the Welsh Assembly to consider all the options for culling badgers as part of an 'intensive action area'. Final decisions on what this will involve are not expected before the end of the year. No discussions have yet been held.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what powers the EU has in relation to the control of bovine TB in the UK. [221528]

Jonathan Shaw: The requirements under European law to control the spread of TB are set out in EU directive 64/432/EEC, a trade directive covering health requirements for cattle and pigs.

In addition, directives 77/391, (as amended by directive 82/400), and 78/52, set out the requirements for member states in relation to eradication plans for a number of endemic diseases, including bovine TB.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what representations he has received from Sir David King on his policy on bovine TB; and if he will make a statement. [221529]

Jonathan Shaw: Sir David King has not made any representations to the Secretary of Sate since the latest TB announcement. However, the Secretary of State met with him as part of the decision-making process leading up to the announcement.

Bovine Tuberculosis: Lancashire

Mr. Wallace: To ask the Secretary of State for Environment, Food and Rural Affairs how many outbreaks of bovine tuberculosis have occurred in Lancaster and Wyre constituency since 2005. [220651]

Jonathan Shaw: Bovine tuberculosis data are collated on a county or regional basis. It is not possible to break the data down to a constituency level.

A full county breakdown of TB herd and animal statistics is published on the DEFRA website.

Bovine Tuberculosis: Vaccination

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has to hold discussions with the European Commission to initiate a vaccination of cattle strategy against bovine tuberculosis. [220059]

Jonathan Shaw: My right hon. Friend the Secretary of State (Hilary Benn) has discussed vaccination of cattle in a phone conversation with Commissioner Vasilliou. They agreed to keep in touch on the issue but no further discussions are planned at this time. DEFRA officials have also had initial discussions with Commission officials on cattle vaccination and will continue to engage with the Commission as any cattle vaccination strategy is developed.

Carbon Emissions: Developing Countries

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make a statement on his policy on amending the Linking Directive of the European Emissions Trading Scheme to enable the inclusion, under the scheme, of carbon credits from forest projects in the developing world. [219540]

Mr. Woolas *[holding answer 17 July 2008]:* We are currently consulting on changes to the European Union emissions trading scheme (EU ETS) in light of the European Commission's proposed climate and energy package. Credits from reforestation and afforestation projects require a robust monitoring system, an understanding of the potential impact on the EU ETS allowance price, and assurance that non-permanent credits would not damage the environmental integrity of the scheme, before they can be included in the EU ETS.

It is not currently possible to credit projects that seek to avoid deforestation as this is not provided for within the scope of the Kyoto protocol. However, we recognise the importance of addressing this issue and we are working through the international climate negotiations for an agreement on reducing emissions from deforestation for post-2012. I welcome the provision contained in the European Commission's proposal for new crediting mechanisms under an international agreement which would give the flexibility to include credits from avoided deforestation and other land use activities in future phases of the EU ETS.

Climate Change: Research

Mr. Tyrie: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of spending from the public purse on research into climate science in the last three years. [221444]

Mr. Woolas: Government expenditure on research which relates to climate change in 2006-07 (latest available figure) was approximately £139 million. The majority of this amount was provided through the research councils. DEFRA's total expenditure on climate change research (including projects of a cross-cutting nature which are of relevance to climate change) over the last three years was £79.4 million (£23.7 million in 2005-06, £24.7 million in 2006-07, and £31.0 million in 2007-08). DEFRA's spend on climate science research over the last three years totalled £52.7 million (£15.7 million in 2005-06, £17.4 million in 2006-07 and £19.6 million in 2007-08).

The UK's leading role in delivering climate change policy has been built on its world-leading research and DEFRA is committed to continuing support in this area.

Departmental Computers

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of *(a)* the number of computer devices left on overnight in his Department when not in use and *(b)* the cost per year of leaving computer devices on overnight when not in use in each of the last five years; and if he will make a statement. [217867]

Jonathan Shaw: I refer the hon. Member to my earlier reply of 6 May 2008, *Official Report*, columns 721-22W, on departmental ICT.

Departmental Early Retirement

Mr. Redwood: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff in *(a)* his Department and *(b)* his Department's agencies have taken early retirement in the last two years. [217397]

Jonathan Shaw: The number of staff in DEFRA and its agencies who have taken early retirement in the past two years is shown in the following table.

	2006-07	*2007-08*
DEFRA	231	657
AH	0	6
CEFAS	6	9
CSL	2	1
GDS	0	0
MFA	3	1
RPA	5	14
VLA	2	0
VMD	0	0
Total	249	682

Departmental Planning Permission

Mr. Maude: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* planning applications and *(b)* licensing applications his Department has submitted in the last 24 months. [215537]

Jonathan Shaw: Departmental records show that the Department, including its executive agencies, has *(a)* submitted 30 planning applications and *(b)* made one licensing application in respect of its property holdings.

Departmental Public Expenditure

David Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent on *(a)* new furnishings, *(b)* art and *(c)* new vehicles by his Department in each of the last three years. [213525]

Jonathan Shaw: The information requested is given in the following table.

£

Financial year	Furniture expenditure	Art expenditure
2007-08	140,268.65	—
2006-07	90,347.49	—
2005-06	1,114,962.40	11,591.28

It is the policy of DEFRA, its agencies, non-departmental public bodies and, where appropriate, its sponsored organisations to make financial redress in accordance with the guidance set out in Chapter 4.12, Annex 4.14 of HM Treasury's publication 'Managing Public Money'.

The capital expenditure on vehicles, as disclosed in DEFRA's Resource Accounts, for the last three financial years, is as follows:

	Core Department—Vehicle Capital Expenditure (£000)
2005-06	770
2006-07	674
2007-08	97

As indicated, the expenditure is for vehicles purchased by the Core Department only. Information for DEFRA's Agencies and NDPBs is not held centrally by the Department, and could be provided only at disproportionate cost.

Departmental Retirement

Mr. Marsden: To ask the Secretary of State for Environment, Food and Rural Affairs whether his Department has a standard retirement age; and how many employees have been asked to retire on reaching 65 years of age in each year since 2000. [218217]

Jonathan Shaw: When the new age legislation came into force on 1 October 2006, the Department, along with all of its Agencies, changed its retirement policies. With the exception of Animal Health and the Central Science Laboratory, there is no longer a set retirement age for employees below the senior civil service. Members of staff can work as long as they wish subject to the normal performance, conduct and attendance requirements.

Animal Health and the Central Science Laboratory currently have a retirement age of 65. However, employees are entitled to request to work beyond 65.

The current retirement age for members of the senior civil service is 65. If an employee wishes to stay beyond 65 they can do so, provided it has been agreed by the Permanent Secretary or the relevant agency chief executive.

Three members of staff below the SCS in core DEFRA have retired on or on the day before their 65th birthday since October 2006, when new age legislation came into force. However, it is not possible to differentiate between those staff who have chosen to retire on reaching 65 years of age and any staff who may have been asked to retire.

Departmental Secondment

Mr. Cox: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff working in his Department were on secondment from *(a)* the British Wind Energy Association, *(b)* RWE and *(c)* AEA at the latest date for which figures are available; and what the (i) name, (ii) job title, (iii) primary function and (iv) remuneration is of each such staff member. [217717]

Jonathan Shaw: There are currently no staff working in DEFRA who are on secondment from RWE or AEA. Two individuals are on secondment from member organisations of the British Wind Energy Association (Shell and npower).

(i) We are withholding the names of the individuals as we consider that disclosure would not be fair and would, therefore, breach the first principle of the Data Protection Act 1998. (ii) and (iii) One individual works within the office of climate change at grade 6 and the other in the domestic climate change and energy directorate at grade 7. (iv) The individuals are not remunerated by DEFRA so we do not hold this information.

Departmental Security

Mr. Maude: To ask the Secretary of State for Environment, Food and Rural Affairs how many departmental identity cards or departmental passes have been reported lost or stolen by staff in *(a)* his Department and *(b)* each of its executive agencies in the last 24 months. [215608]

Jonathan Shaw: The following table shows the number of electronic passes recorded as lost and stolen from core DEFRA and its agencies between 1 January 2006 to 1 June 2008. The table has been compiled from information that was readily available. All electronic passes reported as lost or stolen are cancelled immediately on the access control system making them invalid. Losses of paper escorted and unescorted visitor passes (which are not able to activate access control points) are rare and are not recorded.

	Lost	Stolen
DEFRA Core Department	364	28
Centre for Environment, Fisheries and Aquaculture Science	20	0
Central Science Laboratory	16	1
Veterinary Laboratories Agency/ Veterinary Medicines Directorate	35	1
Rural Payments Agency	120	17

Note:
Losses and thefts relating to passes issued to the Marine Fisheries Agency, the Government Decontamination Service and Pesticides Safety Directorate are included in the figures for DEFRA core Department. Figures do not include Animal Health as information is not available.

Domestic Wastes: Contracts

Robert Neill: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the Answer to the hon. Member for Brentwood and Ongar of 9 May 2008, *Official Report*, column 1240W, on domestic wastes: contracts, when each of the projects will be placed in the Library. [211664]

Joan Ruddock: I can confirm that projects WR0107, WR0112, WR0512 and WR0601 were placed in the House Library on 9 May.

Projects WR0103 and WR0104 are now also complete and I am making arrangements for them to be placed in the House Library as well. WR0106 is in the final stages of peer review, while project WR0506 is still ongoing and unlikely to be ready for a few months.

Domestic Wastes: Waste Disposal

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs with reference to the answer of 19 June 2007, *Official Report*, column 1658W, on domestic waste: waste management, and 9 May 2008, *Official Report*, column 1239W, on domestic wastes: contract, on what date his Department received the report Potential health risks to humans from birds, mammals and insects associated with UK waste management operations: Final Report; and what steps he has taken in response to the evidence in the report on the links between fortnightly and weekly rubbish collections and public health risks. [217819]

Joan Ruddock: An early draft of research report WR0601 was submitted in December 2005. The report was completed in January 2006 and was published as part of the new science information system which went live on the DEFRA website in February 2007. This scoping report provided suggestions for further research, one area being further investigation of any health-related implications of changes to waste collection routines.

Further work was commissioned in 2006 by Wycombe district council with funding being provided by the DEFRA Waste Implementation Programme (WIP)[1]. This work reported in February 2007 and is available electronically on the contractor's website. It provides a review of the potential for health impacts to occur from alternate week waste collection schemes, principally in comparison with weekly collection schemes, using the scheme operated by Wycombe district council as a case study. The study was carried out to investigate any issues relating to odours, insects, rodents and the risks of disease. The research literature consulted provided no evidence that alternate week residual and biodegradable waste collection will cause any significant health impacts for residents, or that any health impacts are likely to be significantly greater than those associated with weekly collections. This is consistent with wider studies of the health effects of waste management, which indicate that all methods of waste management can have at most a minor effect on health[2]. The Wycombe study goes on to recommend some common-sense steps that can be taken to alleviate amenity issues (e.g. keeping containers clean, not shredding or chopping kitchen waste before disposal, keeping containers outdoors, avoiding shelter opportunities for rodents, waste wrapped or in containers etc.).

Subsequently, in July 2007, the Waste and Resources Action Programme (WRAP) published guidance for local authorities on the design and implementation of alternate weekly collection services, in order to provide practical advice for waste managers and elected members within local authorities[3]. This report references the Enviros 2007 report in commenting on health and amenity issues.

All further relevant research undertaken will be published on the DEFRA website.

Energy

Steve Webb: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many meetings he and his officials have had with representatives of *(a)* the nuclear energy and nuclear waste industry and *(b)* the combined heat and power industry since January 2007; who attended each meeting; when each such meeting was held; and what matters were discussed; [220583]

(2) what research his Department has commissioned on *(a)* nuclear energy and nuclear waste and *(b)* combined heat and power in the last two years for which figures are available; and what the budget was for each piece of research. [220584]

Mr. Woolas *[holding answer 21 July 2008]:* DEFRA Ministers and officials regularly meet representatives of the nuclear waste and nuclear energy industry, including the Nuclear Decommissioning Authority (NDA), its site operating companies and British Energy to discuss issues including radioactive waste management, radioactive discharges, legislation and regulation.

DEFRA Ministers and officials also regularly meet with representatives of the combined heat and power (CHP) industry, including the Combined Heat and Power Association (CHPA), to discuss a range of issues.

DEFRA has not commissioned any specific research on nuclear energy and nuclear waste in the last two years. We recently published the 2007 "UK Radioactive Waste Inventory" with the NDA and this was commissioned in 2005. The inventory is available on the NDA's website.

In the last two years DEFRA has commissioned five research studies on CHP, copies of which are available on the DEFRA website.

Fairtrade Initiative

Mr. Moore: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 6 March 2008, *Official Report*, column 2723W, on the Fairtrade initiative, what Fairtrade products are available for purchase in his Department's staff catering facilities; what value of Fairtrade produce was purchased in his Department's staff catering facilities in each of the last three financial years; and what percentage of total revenue this represented. [208701]

Jonathan Shaw: Fairtrade products available at Baxterstorey operated DEFRA staff restaurants, total value purchased as well as percentage of total revenue Fairtrade products represented from February 2005 to February 2008.

Products	Percentage	Value (£)
Fairtrade pulses	0.25	3,726
Fairtrade fruit and nuts	3.25	48,440
Fairtrade chocolate and snacks	2.25	33,536
Fairtrade fruit juice	0.75	11,179
Fairtrade tea and coffee	23.00	342,808
Fairtrade sugar	3.75	55,893
Fairtrade soft drinks	0.75	£11,179
Total Fairtrade	34	£506,759

Mr. Moore: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 6 March 2008, *Official Report*, column 2723W, on the Fairtrade initiative, how much his Department spent on refreshments for official departmental meetings and engagements in each of the last three financial years; and what percentage of this total was spent on Fairtrade products. [208708]

Jonathan Shaw: Total hospitality spent and percentage of Fairtrade.

	Hospitality spent (£)	Fairtrade percentage	Fairtrade value (£)
2005	199,863.00	58	115,920.54
2006	456,631.00	52	264,845.98
2007	492,804.00	55	285,826.32
Total	1,149,298.00	55	666,592.84

Farms

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made in discussions with farmers and farming organisations on cost-sharing. [221527]

Jonathan Shaw: Following the completion of the work of the UK Consultative Forum (comprising the main UK farming unions and Government representatives from the devolved administrations and DEFRA), the Government intend to consult this autumn on specific proposals for implementing responsibility and cost sharing for animal health and welfare.

Fisheries

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what measures he is taking to stop the practice of discards in fisheries; and if he will make a statement on the pilot scheme that has been undertaken for inshore vessels. [221423]

Jonathan Shaw: Under the EU's cod recovery programme, the UK is trialling a real-time closure mechanism designed to ensure vessels avoid significant concentrations of the species, particularly of spawning and juvenile fish—and thus reduce the need to discard. In addition, commercial trials are being undertaken to identify how certain gears can be made more selective. We will provide encouragement for the widespread deployment of those found to be effective amongst our fleet—and will press the Commission for them to be applied Community-wide.

The initial phase of the Irish Sea Data Enhancement Pilot was completed recently. Fisheries dependent data are being cross-checked against observer data collected from vessels in the same fishery. This validation process is essential to ensure that the estimates of discards that result from the project are both realistic and representative.

I announced in February 2008 an environmentally responsible fishing pilot research project. The aim of the 12-month project is to quantify all components of the environmental footprint of commercial fishing vessels targeting quota stocks in inshore waters of the North sea off England. The project will collect data across a range of indicators associated with the fishing operation, marketing and ancillary services and will make an important contribution to the implementation of Fisheries 2027, DEFRA's long-term vision for sustainable fisheries. Around 30 fishing vessels from Hartlepool, Lowestoft and the Thames estuary have been invited to take part. Training and installation of vessel monitoring equipment and is expected to start in July with all participating vessels operating under the scheme from August.

Flood Control: Somerset

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* capital and *(b)* revenue expenditure of internal drainage boards in the Somerset Levels and Moors has been since 1987. [219928]

Mr. Woolas: The following tables show a breakdown of *(a)* capital and *(b)* revenue expenditure of internal drainage boards in the Somerset Levels and Moors since 1999, the earliest period for which figures are available without incurring disproportionate cost.

Capital expenditure

£

Capital	1999-2000	2000-01	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07

[1] Information not collected.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* local environment agency plans, *(b)* catchment flood management plans, *(c)* water management studies and *(d)* other catchment studies have been undertaken by the Environment Agency and its predecessors in the Somerset Levels and Moors since 1987. [219930]

Mr. Woolas: I have placed the requested information in the Libraries of the House.

Marine Bill

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs which *(a)* Government departments and *(b)* stakeholders responded to the Marine Bill consultation. [221548]

Jonathan Shaw: The Department received 3,929 responses to the public consultation on the Government's draft Marine Bill. In addition, approximately 11,000 postcards were received from the Ramblers' Association supporting the coastal access provisions.

Of the 3,929 responses, 3,504 were campaign responses from the Royal Society for the Protection of Birds, the International Fund for Animal Welfare and Friends of the Earth. The remaining 425 responses were received from stakeholders including members of the public, public bodies and bodies representing environmental, fisheries, local government, ports, energy, heritage, shipping, aggregates and recreational issues.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Marine Bill will fully implement the provisions necessary to implement the EU Marine Strategy Directive. [221646]

Jonathan Shaw: The marine strategy framework directive sets the overall goal of achieving good environmental status for Europe's seas by 2020.

The directive entered into force on 15 July 2008 and member states have two years from that date to transpose it into UK law. The UK will transpose the directive to this timetable using regulations under section 2(2) of the European Communities Act 1972.

Although the Marine Bill will not be used as the legislative vehicle which transposes the directive, the draft Bill includes a range of specific measures and tools to better protect and manage UK marine waters. These will contribute to the directive's goal of achieving good environmental status. The two pieces of legislation can therefore be seen as complementary.

Personal Injury

Mr. Hayes: To ask the Secretary of State for Environment, Food and Rural Affairs what the highest 10 payments made by his Department in settlement of personal injury claims brought against it were over the last 12 months for which figures are available; which of those cases were *(a)* contested and *(b)* uncontested by the Department; and what the nature of the incident was in each case. [216682]

Jonathan Shaw: The highest 10 payments made by the Department for Environment, Food and Rural Affairs in settlement of personal injury claims brought against it over the last 12 months are as follows:

	£
1. Claim in relation to a fall from height during a cleaning and disinfection operation	135,500
2. Claim in relation to injury sustained from a falling object	48,000
3. Claim in relation to an injury sustained in handling livestock	40,000
4. Claim in relation to an injury caused by a slip on a wet floor	17,000
5. Claim in relation to an injury caused by a trip	5,600
6. Claim in relation to an injury sustained in an office	5,000
7. Claim in relation to an injury sustained in handling livestock	4,857.08
8. Claim in relation to an injury caused by a fall	4,133
9. Claim in relation to a hand injury	3,000
10.Claim in relation to repetitive strain injury	2,750

None of these cases were contested in court.

Poultry: EU Action

Kerry McCarthy: To ask the Secretary of State for Environment, Food and Rural Affairs (1) when he expects secondary legislation to be brought forward on the transposition of the EU Broiler Chicken Directive into UK law; [221260]

(2) if he will consider the case, when bringing forward secondary legislation to transpose the EU Broiler Chicken Directive into EU law, for setting the UK maximum stocking density at 30kg per square metre; [221269]

(3) what assessment he has made of the likely effect of the transposition of the EU Chicken Broiler Directive into UK law on the level of UK animal welfare standards. [221270]

Jonathan Shaw: We welcome EU directive 2007/43/EC setting out minimum standards for the welfare of broiler chickens, which was agreed in June 2007. The directive

will deliver real welfare benefits for broilers while balancing economic, social and environmental impacts.

Legislation to implement the directive into UK law will be produced to meet the directive implementation date of 30 June 2010.

There is no maximum stocking density for intensive meat chicken production currently set down in domestic law. A full public consultation will be undertaken early next year on the proposed legislation, including provisions on stocking density.

Recycling

Mrs. Riordan: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has to encourage recycling with the use of financial incentives. [220041]

Joan Ruddock: The Climate Change Bill includes powers for up to five local authorities in England to pilot waste incentive schemes, to encourage household waste minimisation and recycling.

It will be up to local authorities to decide whether they wish to apply to be a pilot and the form of their proposals, including whether for reward only or charge and reward schemes. All schemes must encourage householders to reduce the amount of waste they produce and increase the amount they recycle.

Rural Payments Agency

Rosie Cooper: To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations he has received on the fee imposed for stage 2 appeal applications against decisions taken by the Rural Payments Agency; and whether he plans to amend the fee structure for such appeals. [221741]

Jonathan Shaw: An appellant is required to provide a cheque for £100 if they proceed to stage 2 of one of the formal appeal procedures administered by the Rural Payments Agency (RPA). This fee is refunded if the appeal is fully or partially successful. The payment is enabled under the Statutory Instruments that support the appeal procedures.

RPA has occasionally been asked the reason for charging the fee.

There are no plans to amend the fee structure for such appeals.

Seas and Oceans: Nature Conservation

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how the impact on proposed UK offshore Special Areas of Conservation sites of fishing vessels from *(a)* the Netherlands, *(b)* Belgium, *(c)* Norway, *(d)* Denmark, *(e)* Germany, *(f)* Spain, *(g)* France, *(h)* Ireland and *(i)* Portugal is being assessed. [221637]

Jonathan Shaw: JNCC advise that a preliminary assessment of the sensitivity of proposed SACs habitats to a range of human activities, including fishing, was made in drawing up the draft Conservation Objectives and Advice on Operations for each site published with the public consultation documents.

This did not include an assessment of the impact of fishing vessels from individual countries.

If the proposed SACs are submitted to the European Commission and adopted as sites of Community importance a further assessment of the impacts of fishing vessels, along with all potentially damaging human activities, will be made in order to produce final Conservation Objectives and Advice for Operations for all adopted sites.

INNOVATION, UNIVERSITIES AND SKILLS

Learning and Skills Council: Finance

Mr. Davey: To ask the Secretary of State for Innovation, Universities and Skills what budget allocations have been made by the Learning and Skills Council for *(a)* schools and *(b)* further education colleges in each London borough (i) in each of the last three financial years and (ii) for each of the next two financial years; and if he will make a statement. [220248]

Mr. Lammy: The total LSC Adult Skills budget for London has increased as follows:

	£ million
2007-08	588
2008-09	603
2009-10	619
2010-11	672

Details of the budget allocations made by the Learning and Skills Council for each of the London boroughs, relating to the last three financial years and for the next two is not collected at this level of detail by my Department. This is an operational matter for the LSC; decisions are made following discussions with local providers, partners and other organisations. This ensures that the needs of the local communities are met and that the activity delivered supports the council's key priorities and targets. Mark Haysom, the Council's Chief Executive, will write to the hon. Gentleman with further information. A copy of his reply will be placed in the House Library.

Letter from Mark Haysom, dated 1 September 2008:

In response to your question to the Secretary of State for Innovation, Universities and Skills, I am able to provide information about the allocations made by the Learning and Skills Council (LSC) to school sixth forms and FE colleges in London.

The LSC makes annual allocations to schools and FE colleges on an academic year basis. Funding for schools is allocated through the parent local authority. I have enclosed two summary tables in response to your question. Table A sets out the academic year funding allocations for all local authorities with school sixth forms in London in 2008-09, and for the previous three years. Allocations are made on an annual basis, one year in advance, and so the allocations for 2009-10 will be made in February 2009.

The LSC does not fund academies, which are funded by DCSF directly, and these figures do not include academy funding. You will note that funding for School sixth forms in London has increased by over 9 per cent. in 2008-09 and has allowed us to fund over 5 per cent. more places.

Table B sets out the funding that FE providers have received in 2008-09, and the three previous years. It should be noted that this table classifies funding by provider borough: many FE providers operate across multiple boroughs and attract significant volumes of learners from other parts of London.

I hope that you find this information useful. Should you require further information, please contact:

Adult Education: Crafts

Miss McIntosh: To ask the Secretary of State for Innovation, Universities and Skills what funding his Department makes available for adult courses in craft work in North Yorkshire; and if he will make a statement. [220027]

Mr. Lammy: The Government are committed to ensuring that learning serves the needs of the whole community and that everyone can lead healthy and fulfilling lives by participating fully in work, education and society as a whole. Our recent consultation on Informal Adult Learning has been looking closely at learning that helps develop families and communities by meeting the basic human need for creativity and stimulation. It has started a discussion which will lead to a new vision of Informal Adult Learning for the 21st century and we will publish our response to the consultation in September.

The exact funding, makeup and distribution of learning provision at local level are matters for local Learning and Skills Councils and their partners in colleges and other providers, according to their assessment of local needs and priorities. Mark Haysom the LSC's Chief Executive will write to the hon. Lady with more detailed information. A copy of his reply will be placed in the Library.

Letter from Mark Haysom, dated 16 July 2008:

I am writing in response to your Parliamentary Question that asked; how many students received monies from Learning Skills Council funding in North Yorkshire in each of the last five years for which figures are available.

There are only a limited number of programmes where LSC funding is received directly by students and these are within the Learner Support range of programmes.

Education Maintenance Allowance (EMA) is an income assessed weekly allowance paid to learners from low income households to support them in learning undertaken beyond the statutory school leaving age. The allowance is paid on a 'something for something' basis and the learner may also receive bonuses where the learner remains on their learning programme, makes good progress and achieves the standards of behaviour and effort agreed with the learning provider. The table below shows the number of students who have received this allowance:

Education maintenance allowance

Area type	Area name	2004/05	2005/06	2006/07	2007/08[1]
National	England	297,259	429,627	527,319	542,710
LSC	North Yorkshire	2,684	5,161	6,219	6,293

[1] Year to date—28 August 2007 to 31 May 2008.

Adult Learning Grant (ALG) is, subject to a financial assessment, a weekly payment payable to adults aged 19+ undertaking full time studying towards their first full level 2 / 3 qualification. The table below shows the number of students who have received this grant:

Adult learning grant

Area	2003/04	2004/05	2005/06	2006/07	2007/08[1]
North Yorkshire	0	0	0	[2]225	300

[1] As at 21 May 2008.
[2] 1st year of national rollout.

Adult Education: Hemsworth

Jon Trickett: To ask the Secretary of State for Innovation, Universities and Skills how many people in *(a)* Hemsworth constituency and *(b)* Wakefield District have been enrolled in adult education courses in each of the last five years. [215876]

Bill Rammell: Our planned and continuing strategy is to realign funding from a high number of very short and low quality courses to qualifications such as Skills for Life, full level 2 and full level 3 that offer the greatest opportunity for adults to gain the skills for employability and further progression in learning.

The following table shows the total number of Learning and Skills Council (LSC) funded learners aged 19+ resident in *(a)* Hemsworth constituency and *(b)* Wakefield district from 2003/04, the earliest year for which comparable data are available.

Number of LSC funded adult learners resident in Hemsworth constituency and Wakefield district

Academic year	Hemsworth constituency	Wakefield district
2003/04	8,640	29,230
2004/05	8,600	28,750

Number of LSC funded adult learners resident in Hemsworth constituency and Wakefield district

Academic year	*Hemsworth constituency*	*Wakefield district*
2005/06	7,890	25,370
2006/07	7,650	25,500

Notes:
1. Numbers in the table have been rounded to the nearest 10.
2. Figures cover Further Education, Work Based Learning, Adult Safeguarded Learning and Train to Gain provision (TTG started in 2005/06, with full rollout in 2006/07).

Source:
Learning and Skills Council Individualised Learner Record.

We understand that as well as increasing skills, education is also about meeting the basic human desire for intellectual stimulation. That is why we have safeguarded £210 million each year through to 2010-11 to support informal adult learning. Through our recent consultation we have led discussion on a new vision for informal adult learning for the 21st century.

Apprenticeships

Mr. Dai Davies: To ask the Secretary of State for Innovation, Universities and Skills what recent steps he has taken to increase the scope and quality of apprenticeships. [221032]

Mr. Lammy: Expanding provision and raising quality are integral to our ambitious plans set out in World-class Apprenticeships. We are establishing the National Apprenticeship Service from April 2009 to ensure the growth of high quality provision of apprenticeships in England. The service will have responsibility for broadening the flexibilities of the Apprenticeship programme to enable employers to develop new apprenticeship frameworks, and to improve and encourage the range of frameworks available.

The Learning and Skills Council will assess performance against minimum levels of performance for apprenticeships; develop a new apprenticeship blueprint which defines the core elements of an apprenticeship and specific training requirements; and work with the new Learning and Skills Improvement Service to secure continuous improvement in the provision of apprenticeships.

Last week the Government published a draft "Apprenticeships Bill" to underpin and help sustain the improvements in the quality of the programme. This draft Bill will ensure that apprenticeships are a badge of quality skills for young people and adults and for employers. It will drive forward the provision of sufficient apprenticeship places to meet the entitlement for our young people to have an offer of an apprenticeship place by 2013

The Department and the Department for Children, Schools and Families look forward to receiving comments on the draft Bill from hon. and right hon. Members and all those committed to providing high quality skills for people and employers.

Departmental Computers

Mr. Peter Ainsworth: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of *(a)* the number of computer devices left on overnight in his Department when not in use and *(b)* the cost of leaving computer devices on overnight when not in use in each year since establishment; and if he will make a statement. [217870]

Mr. Lammy: DIUS is a new department which has been in existence for just over one year. All DIUS staff are issued with laptops which are turned off and stored securely when not in use; there are circa 950 such laptops across the DIUS estate.

The Department also has 50 modern energy saving desktops, primarily used by those individuals who, for a variety of reasons, cannot use their laptop on a particular day. Staff are advised to switch these off when not in use and by default these devices enter an energy saving mode when unattended.

The cost of devices left on overnight has not been calculated.

Departmental Paper

David Simpson: To ask the Secretary of State for Innovation, Universities and Skills what percentage of paper used *(a)* for photocopying and *(b)* in printed publications by his Department has been from recycled sources. [220737]

Mr. Lammy: The Department for Innovation, Universities and Skills was established on 28 June 2007 and as such can report only on one year of activity for which the Department has been in operation.

The percentage of paper from recycled sources used in the last financial years was:

	Percentage
Sheffield and London Reprographics	97
National floor copiers (all 4 sites)	100
Printed publications	75

Departmental Private Finance Initiative

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what the estimated total cost to the public purse will be of all private finance initiative/public private partnership contracts for which his Department is responsible. [216702]

Mr. Lammy: The Department does not have any private finance initiative contracts or public private partnership contracts. The cost to the public purse will be nil.

Departmental Public Expenditure

David Simpson: To ask the Secretary of State for Innovation, Universities and Skills how much was spent on *(a)* new furnishings, *(b)* art and *(c)* new vehicles by his Department in each of the last three years. [213529]

Mr. Lammy: The Department for Innovation, Universities and Skills was established under Machinery of Government changes in June 2007. Since the Department's creation the following has been spent on:

	£
(a) New furnishings	376,780
(b) Art	0
(c) New vehicles	0

Departmental Publications

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills what planned publication dates there are for *(a)* statistical and *(b)* other publications of his Department. [219339]

Mr. Lammy: Details of forthcoming National Statistics publications can be found in our publication schedule, which is available on the Research and Statistics Gateway via the following link:

http://www.dfes.gov.uk/cgi-bin/rsgateway/search.pl?cat=9&subcat=9&q1=Search

Details for other publications of the Department for Innovation, Universities and Skills are listed in the following table:

October 2008	Science and Innovation Investment Framework 2004:2014
Autumn 2008	Office of Government Commerce will be publishing a leaflet on innovation procurement which will be co-branded by DIUS and the Technology Strategy Board.

Departmental Reviews

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills what reviews are being undertaken by external experts on behalf of his Department; and what the expected completion date of each is. [219463]

Mr. Lammy *[holding answer 21 July 2008]:* The Government Chemist function will be audited by two external experts. The audit takes place every three years. This is part of the Government Chemist agreement between LGC Ltd and the Secretary of State for the Department for Innovation, Universities and Skills. The Government Chemist is the referee analyst under various Acts of Parliament and is appointed by DIUS Ministers. The forthcoming audit will begin in a few weeks and will probably report by the end of the year.

DWP commissioned Capgemini to undertake a review of the governance arrangements of the joint DWP-DIUS Integrating Employment and Skills programme during July. The formal three weeks review period is over, but they will be completing a small piece of work helping the departments to implement their findings in August.

Lifelong Learning UK, on behalf of DIUS, are in the process of selecting a tender to undertake a review of the impact and effectiveness (including vfm) of FE incentive schemes to recruit and retain FE teachers in the workforce. We expect a report to be produced by end October 2008 that will inform future policy in these areas.

A small scale qualitative survey of 25 FE providers and stakeholder groups is being carried out to gain insight into how they are responding to the FE reforms on simplifying processes and reducing burdens, such as developing proportionate audit and inspection. We expect the final report in early August.

Education: Rural Areas

Mr. Paice: To ask the Secretary of State for Innovation, Universities and Skills how many recommendations in the Commissioner for Rural Communities report England's rural area: steps to release their economic potential within his

Department's areas of responsibility his Department intends to implement; and if he will provide a timetable for implementation. [217703]

Bill Rammell: The Department is currently reflecting upon the Rural Advocate's Report on Strengthening England's Rural Economies. DEFRA is the lead Department across Government and I refer the hon. Member to the response given by my hon. Friend the Parliamentary Under-Secretary of State, Department for Environment, Food and Rural Affairs on 7 July 2008, *Official Report*, columns 1204-05W.

English Language: Bournemouth

Mr. Ellwood: To ask the Secretary of State for Innovation, Universities and Skills how many accredited schools there are in Bournemouth for teaching English as a second language. [220546]

Jim Knight: I have been asked to reply.

The information requested is not held centrally.

Further Education: Standards

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills if he will provide an updated list of organisations with a monitoring, inspection or improvement role in further education colleges on the same basis as Box 4 on page 27 of the 2005 Department for Education and Skills publication Realising the Potential: A review of the future role of further education colleges. [219478]

Bill Rammell: Since 1997 the Government have implemented major change to simplify the further education landscape and streamline national agencies. This includes reducing numbers of staff managing the further education and skills system from 10,000 in the TEC era to 4,700 as the Learning and Skills Council was established and further to 3,600 currently. We responded quickly to recommendations in Realising the Potential: A review of the future role of further education colleges by merging two major inspectorates, Ofsted and the Adult Learning Inspectorate, thereby simplifying inspection processes. More recently, the merger of the Quality Improvement Agency and the Centre for Excellence in Leadership, to form the Learning and Skills Improvement Service, will streamline processes further and drive quality improvement in the FE service through more direct influence from sector-leaders and practitioners. An updated list of organisations with a monitoring, inspection or improvement role in further education colleges is set out in the following list on the same basis as originally in the review report. This shows a reduction in the number of organisations with a monitoring, inspection or improvement role.

List of organisations with a monitoring/inspection/improvement role in FE colleges

Inspectorates

Ofsted

The Quality Assurance Agency (for HE in FE)

Funding/Monitoring/planning influence

The Learning and Skills Council

The Higher Education Funding Council for England

Job Centre Plus

Local Authorities

Regional Development Agencies

Sector Skills Councils/Commission for Employment and Skills

Improvement/Standards Setting

Local Learning and Skills Councils

The Learning and Skills Improvement Service (being formed from merging the Quality Improvement Agency and the Centre for Excellence in Leadership)

Lifelong Learning UK

Institute for Learning

The Qualifications and Curriculum Authority /Office of the Qualifications and Examinations Regulator

Awarding Bodies

GCE A-Level

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills how many people *(a)* at a maintained school, *(b)* at a sixth form college, *(c)* at a further education college, *(d)* at an independent school, *(e)* at another educational institution and *(f)* studying on their own gained an A level at grades A to E in (i) accounting, (ii) art and design, (iii) business studies, (iv) communication studies, (v) dance, (vi) design and technology, (vii) drama/theatre studies, (viii) film studies, (ix) health and social care, (x) home economics, (xi) information and communication technology, (xii) leisure studies, (xiii) media studies, (xiv) music technology, (xv) performance studies, (xvi) performing arts, (xvii) photography, (xviii) physical education, (xix) sports studies and (xx) travel and tourism in 2006-07. [209409]

Jim Knight: I have been asked to reply.

The information for parts *(a)* to *(e)* has been placed in the House of Commons Library. The Department does not hold information required to answer part *(f)*.

Government Communications

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how many staff in *(a)* his Department and *(b)* its agencies (i) are classified as Government communicators and (ii) have access to the Government Communication Network. [215108]

Mr. Lammy: The Department for Innovation, Universities and Skills has 36 permanent members of staff who work in the central communication directorate. Other civil servants may have communication as a core part of their role as good communication is integral to helping implement government policy.

The Department is responsible for two agencies, National Weights and Measures Laboratory and the UK Intellectual Property Office.

The UK Intellectual Property Office has four members of staff in the communication team who are classified as Government communicators.

National Weights and Measures Laboratory has approximately 2.5 members of staff in the communications team who are classified as Government communicators.

All civil servants who work in a communication role can access the GCN and the resources that it provides.

Higher Education: Admissions

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills how many people have been routed to higher education institutions by Train to Gain skills brokers. [219343]

Bill Rammell: Since it was rolled out nationally from April 2006, Train to Gain has grown quickly. It has now engaged 97,000 employers, supported 488,480 employees to begin learning programmes, and delivered 203,370 full level 2 and 26,720 Skills for Life achievements. Recent evaluations of the service show that both employer and employee satisfaction with their experience of Train to Gain is high.

Train to Gain helps employers identify and address their skills needs at all levels—including higher level skills, working with the HE sector.

To date, 492 employers have been referred to Higher Education Institutions (HEIs) by Train to Gain skills brokerage organisations; information on the number of learners engaged as a result of those referrals is not held centrally.

Three High Level Skills Pathfinders funded by the Higher Education Funding Council for England (HEFCE) in North West, North East and South West are helping to identify barriers to the HE sector engaging with employers and build Higher Education Institutions (HEIs) capacity to extend their work with employers, working alongside and through Train to Gain. The Pathfinders are now starting to fund truly demand-led proposals from HEIs and Further Education Colleges to develop HE-level provision attuned to workforce development needs.

This week we launched 'The Training Gateway', a national clearing house service that will help Train to Gain skills brokers to connect employers with the Higher Education Institutions that can best deliver the higher level skills training that will meet their business need.

Higher Education: Finance

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills when a decision will be taken on the funding rules for students studying for equivalent or lower qualifications in the years after 2010-11. [219462]

Bill Rammell *[holding answer 21 July 2008]:* Our ELQ policy is a balanced one. We are reinvesting resources to benefit those who have not already obtained a higher education qualification. Yet over two thirds of the current level of HEFCE grant for ELQ students will continue to be invested in supporting them in 2010-11. All we have asked HEFCE to do is to redistribute about £100 million a year by 2010-11 in order to fund over 20,000 extra new entrants to higher education. We have made no decisions to redirect further funding beyond 2010-11.

Future decisions will be taken as part of the next Spending Review, whose timetable has not yet been announced.

Higher Education: Greater London

Sarah Teather: To ask the Secretary of State for Innovation, Universities and Skills how many people in each London borough *(a)* enrolled on and *(b)* did not complete a higher education course in each year since 1997. [210467]

Bill Rammell: Student retention rates at higher education institutions in this country compare very well internationally. The UK ranks fifth in the OECD for first degree completion rates, out of 23 countries who report data in this area. A university education is now open to more students than ever before and the Government are totally committed to providing opportunities for all people to achieve their potential and to maximise their talent.

While there has been a slight increase in non-completion for the 2005/06 academic year, the proportion is lower than for most years for which data are available and is much lower than in the late 1990s.

This has been achieved and maintained during a period when the student population has increased and its diversity widened.

(a) The latest available information on entrants to higher education courses is shown in Table 1. Comparable figures for the 2007/08 academic year will be available in January 2009.

Table 1: Full-time and part-time entrants[1] to UK higher education institutions[2] by London local authority[3]—academic years 1997/98 to 2006/07

Academic years

Higher Education Statistics Agency (HESA).

(b) The standard measure of non-completion is the proportion of UK-domiciled full-time first degree starters of all ages who are projected to neither obtain an award nor transfer to another institution. The available information for higher education institutions in the UK and England are shown in Table 2. This figure is not disaggregated below national level.

Table 2: Proportion of full-time first degree starters who were projected to neither gain an award nor transfer to another institution—UK and English Higher education institutions—academic years 1997/98 to 2005/06

	UK	*Percentage England*
1997/98	15.7	15.8
1998/99	15.8	15.9
1999/2000	15.8	15.8
2000/01	15.0	15.0
2001/02	14.1	13.8
2002/03	14.4	13.9
2003/04	14.9	14.4
2004/05	14.2	13.8
2005/06	14.1	13.9

Note:
The projected outcomes for a cohort are based on the assumption that their patterns of progression will follow those of students currently in the system. A student is assumed to have left with no award if they have been inactive for two years.

Performance Indicators in Higher Education, published by the Higher Education Statistics Agency (HESA).

Higher Education: Student Wastage

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills pursuant to the answer of 2 July 2008, *Official Report*, columns 1000-01W, on student wastage, if he will place in the Library a copy of Table 3, broken down by course subject. [219317]

Bill Rammell: Non-continuation rates broken down by both institution and degree subject are not available.

Non-continuation rates broken down by subject are only available for the UK. The non-continuation rate is the proportion of entrants to full-time first degree courses who are no longer in higher education after one year of study. The rates for young entrants are shown in Table 1, and rates for mature entrants in Table 2.

Table 1: Proportion of young entrants to full-time first degree courses who are no longer in higher education after one year of study by degree subject: UK Higher Education Institutions—academic years 1999/2000 to 2005/06

Degree subject	1999/2000	2000/01	2001/02	2002/03	2003/04	2004/05	Percentage 2005/06

Subject rankings for non-continuation rates change over the years. However, medicine, dentistry and veterinary science consistently have the lowest non-continuation rates over the time series.

Student retention rates in this country compare very well internationally. The UK rank 5th in the OECD for first degree completion rates, out of 23 countries who report data in this area. A university education is now open to more students than ever before and the Government are totally committed to providing opportunities for all people to achieve their potential and to maximise their talent.

Olympic Games

Mr. Don Foster: To ask the Secretary of State for Innovation, Universities and Skills pursuant to the answer of 20 June 2008, *Official Report*, columns 1217-8W, on the Olympic games, what estimate he has made of the cost of sending Ministers and officials from his Department to the Beijing Olympic Games. [219472]

Mr. Lammy: There are no plans for any of the Ministers or officials from the Department for Innovation, Universities and Skills to attend the Beijing Olympic games in an official capacity. Therefore, there will be no cost to the Department.

Students: Fees and Charges

Dr. Kumar: To ask the Secretary of State for Innovation, Universities and Skills what the Government's policy is on variable university tuition fees. [219848]

Bill Rammell: The Government's policy is that it is right that students should bear a fair share of the costs of higher education. The variable fees regime that we introduced in 2006 will provide an additional £1.6 billion for higher education by 2010-11. At the same time we have ensured that there is strong support to meet students' personal financial needs. This has enabled us to make further progress in widening access to higher education, with the proportion of accepted applicants from England who are from the bottom four socio-economic groups has increased from 31.7 per cent. in 2006 to 32.1 per cent. in 2007.

The maximum fee that can be charged each year is capped at £3,000 (at 2006 prices) and no increase can be made to this until Parliament has considered an independent review of the first three years of the new system.

Students: Finance

Mr. Evennett: To ask the Secretary of State for Innovation, Universities and Skills how many students resident in the London Borough of Bexley received an *(a)* education maintenance allowance and *(b)* special support grant in 2007-08. [219056]

Bill Rammell: The part of the question on education maintenance allowance (EMA) is a matter for the Learning and Skills Council (LSC), who have operational responsibility for the EMA for the Department for Children, Schools and Families (DCSF) and hold information about payments made under the scheme. Mark Haysom, the LSC's chief executive, will write to the hon. Member for Bexleyheath and Crayford with the information requested and a copy of his reply will be placed in the House Library.

30 students from the London borough of Bexley received a special support grant (SSG) in academic year 2006/07. Complete figures are not yet available for academic year 2007/08.

Letter from Mark Haysom to David Evennett, dated 25 July 2008:

I am writing in response to your Parliamentary Question that asked; "How many students resident in the London Borough of Bexley received an (a) education maintenance allowance and (b) special support grant in 2007-08." As responsibility for the operation of the Education Maintenance Allowance (EMA) scheme lies with the Learning and Skills Council, your question has been forwarded for my attention.

Part (b) of your question was answered in Bill Rammell's written reply of Monday 30 June 2008.

Information on the number of young people who have applied, enrolled and received Education Maintenance Allowance (EMA) is available at Local Authority Level. EMA take-up is defined as young people who have received one or more EMA payments in the academic year.

In the first year of national roll out EMA was available to all 16 year olds across England and to 17 and 18 year olds in former pilot areas (young people who are 19 are entitled to receive EMA in certain circumstances). In 2005/06 EMA roll out continued and EMA was available to all 16 and 17 year olds nationally. In 2006/07 EMA was available to all 16, 17 and 18 year olds nationally.

EMA take-up for Bexley Local Authority area in the academic year 2007/08, up to 30 June 08, is 2,039.

EMA take-up data showing the number of young people who have received one or more EMA payments during 2004/05, 2005/06, 2006/07 and to date in 2007/08 is now also available on the LSC website, at the following address:

http://www.lsc.gov.uk/providers/Data/statistics/learner/EMA_take_up.htm.

Thames Gateway: Finance

Mr. Evennett: To ask the Secretary of State for Innovation, Universities and Skills how much funding was distributed by the Thames Gateway initiative to the London Borough of Bexley in each of the last five years; and to what uses the sums distributed to Bexley have been put. [213443]

Mr. Lammy: The Department has no record of funds distributed by the Thames Gateway initiative to the London borough of Bexley.

NORTHERN IRELAND

Immigration: Vetting

David Simpson: To ask the Secretary of State for Northern Ireland in what circumstances criminal records checks are carried out on *(a)* EU and *(b)* non-EU foreign nationals entering Northern Ireland. [215365]

Mr. Byrne: I have been asked to reply.

I refer the hon. Member to my answer to his question, Immigration: Criminal Records of 8 July 2008, *Official Report*, column 1445W.

In relation to the circumstances in which criminal records checks are carried out, as my earlier answer stated, our policy is that the documents of all foreign nationals at ports of entry are checked against the Home Office Warnings Index.

Vetting

Lady Hermon: To ask the Secretary of State for Northern Ireland (1) how many checks have been carried out on Northern Ireland residents by the Criminal Records Bureau in each of the last five years; and if he will make a statement; [220056]

(2) on how many occasions information provided by the Criminal Records Bureau in respect of Northern Ireland residents has proved to be erroneous in each of the last five years; by what means the errors were discovered in each case; and if he will make a statement. [220057]

Meg Hillier: I have been asked to reply.

The information sought by the hon. Member is not available. The Criminal Records Bureau (CRB) is unable to provide information on Disclosure applications based on geographical areas.

The CRB would need to perform a manual trawl, at disproportionate cost, of each application to ascertain whether the postcode falls within Northern Ireland, in order to identify how many checks have been carried out on Northern Ireland residents by the CRB and on how many occasions the information provided by the CRB has proved to be in error in each of the last five years.

JUSTICE

Young Offenders: Antisocial Behaviour Orders

Harry Cohen: To ask the Secretary of State for Justice of the children aged 10 to 17 years prosecuted for breaching an antisocial behaviour order (ASBO) in the period January 2004 to December 2007, how many *(a)* received a custodial sentence solely for the breach of the ASBO, where no other matters were dealt with by the court at the same time, *(b)* received a custodial sentence for breach of an ASBO, where other matters were dealt with at the same time but where these matters did not warrant a custodial sentence and *(c)* received a custodial sentence for breach of an ASBO, where other matters were dealt with at the same time and where the other matters did warrant a custodial sentence. [220867]

Mr. Coaker: I have been asked to reply.

Information on breach of an antisocial behaviour order (ASBO) is not routinely collected in the format requested. However, in 2005, a one-off analysis was undertaken when numbers of ASBOs were low.

A table showing figures for the period 1 June 2000 to 31 December 2003 is as follows.

The table covers all persons issued ASBO's, as reported to the Home Office, who breached their ASBO by the end of 2003. Age is determined by age at the date of appearance in court, on which the severest penalty for breach of an ASBO was received.

Number of persons receiving a custodial sentence for breaching an ASBO by age group and category

Age group	*Number of persons breaching their ASBOs by the end of 2003*	*Number of persons receiving a custodial sentence for breach of an ASBO*	*Category A: where a person received a custodial sentence for at least one other offence at the same court appearance (excludes persons in group B)*	*Category B: where a person received a consecutive sentence of custody for breach of an ASBO when being dealt with for other offences at the same court appearance (excludes persons in group A)*	*Category AB: persons both in category A and B*	*Category C: where the person was dealt with for a breach of an ASBO alone*
10-17	417	179	50	21	78	30
18+	376	258	32	31	91	104

Number of persons receiving a custodial sentence for breaching an ASBO by age group and category

Age group	*Number of persons breaching their ASBOs by the end of 2003*	*Number of persons receiving a custodial sentence for breach of an ASBO*	*Category A: where a person received a custodial sentence for at least one other offence at the same court appearance (excludes persons in group B)*	*Category B: where a person received a consecutive sentence of custody for breach of an ASBO when being dealt with for other offences at the same court appearance (excludes persons in group A)*	*Category AB: persons both in category A and B*	*Category C: where the person was dealt with for a breach of an ASBO alone*

All ages	—	55	19	12	39	31

HOME DEPARTMENT

Alcoholic Drinks: Misuse

Mr. Hoban: To ask the Secretary of State for the Home Department what discussions she has had with the Chancellor of the Exchequer on the effects of the changes to alcohol duty announced in the 2008 budget on *(a)* binge drinking, *(b)* general levels of alcohol consumption and *(c)* underage drinking. [214749]

Mr. Coaker: The Home Secretary has regular discussions with ministerial colleagues about all aspects of policy. However, taxation is a matter for the Treasury.

Alcoholic Drinks: Young People

Sandra Gidley: To ask the Secretary of State for the Home Department (1) how many *(a)* individuals and *(b)* establishments have been prosecuted for selling alcohol to under-age people in Hampshire in each of the last five years; [214372]

(2) how many people were prosecuted for selling alcohol to children in Hampshire in each of the last five years. [216573]

Mr. Coaker: The number of people and the number of others proceeded against at magistrates courts for offences relating to selling alcohol to under age persons in Hampshire police force area, for the years 2002 to 2006 can be viewed in the following table.

A Penalty Notice for Disorder (PND) can also be applied for the offence; the number of PNDs issued in Hampshire police force area was two in 2004, 67 in 2005, and 109 in 2006.

Number of persons and the number of others proceeded against at magistrates' courts for offences relating to selling alcohol to under age persons in Hampshire police force area, 2002 to 2006[1,2,3,4,5]

[1] These data are on the principal offence basis.

[2] Data include the following offence descriptions and corresponding statutes:

Holder of occasional permission or his agent knowingly selling to, knowingly allow consumption by or allowing any person to sell, intoxicating liquor to a person under 18. Selling etc. intoxicating liquor to person under 18 for consumption on the premises.

Licensing (Occasional Permissions) Act 1983 Schedule (Sec 3) para 4(1). Licensing Act 1964 Sec 169(1).

Sale of alcohol to a person under 18

Licensing Act 2003 S.146(1)

Wholesaler selling intoxicating liquor to a person under 18.

Licensing Act 1964 Sec 181A(1) as added by Licensing Act 1988 Sec 17.

Allow sale of alcohol to an individual under 18.

Licensing Act 2003 Sec 147(1) & (5)

[3] Every effort is made to ensure that the figures presented are accurate and complete.

However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, other agencies, and police forces.

As a consequence, care should be taken to ensure data collection processes and their Inevitable limitations are taken into account when those data are used.

[4] The Licensing Act 2003 came into force on 24 November 2005.

[5] Figures for Other includes: Public bodies, companies, organisations

Source:

Court proceedings data held by RDS—Office for Criminal Justice Reform—Ministry of Justice

Mr. Jenkins: To ask the Secretary of State for the Home Department how many *(a)* businesses and *(b)* individuals were prosecuted for supplying alcohol to those under the age of 18 years in (i) England, (ii) Staffordshire and (iii) Tamworth constituency in each of the last three years. [220129]

Mr. Coaker: The number of persons and the number of other defendants namely businesses, companies, and organisations proceeded against at magistrates' courts for offences relating to selling alcohol to under age persons, in Staffordshire Police Force Area, and England, 2004 to 2006 can be viewed in the attached table.

From the court proceedings database held by the Ministry of Justice, it is not possible to identify those defendants prosecuted in the Tamworth constituency, as the data are not collected at this level of detail.

A Penalty Notice for Disorder (PND) can also be applied for the offence; the number of PNDs issued in Staffordshire Police Force Area was 0 in 2004, 19 in 2005, and 75 in 2006. The number issued in England for the same offence was 112 in 2004, 1,839 in 2005 and 2,936 in 2006.

Number of persons and the number of other defendants proceeded against at magistrates' courts for offences relating to selling alcohol to under age persons in Staffordshire Police Force Area, and England, 2004 to 2006[1, 2, 3, 4, 5]

Alternatives to Prison: Ashford

Damian Green: To ask the Secretary of State for the Home Department what assessment she has made of the Alternative to Detentions project at the Millbank Centre in Ashford; and if she will make a statement. [208987]

Mr. Byrne: The UK Border Agency is currently making an assessment of the project. I expect to make decisions about its future as soon as possible.

Animal Experiments

Mr. Drew: To ask the Secretary of State for the Home Department pursuant to the Answer of 26 June 2008, *Official Report*, columns 442-43W, on animal experiments, whether licences that authorise procedures of such severity that death would ensue would require an animal to be euthanased immediately; whether the licences require 24-hour care so that euthanasia can be carried out immediately; whether severity limits are allocated to such licences; whether such licences fall within the band classified as substantial; for what purposes such licences are given; and if she will make a statement. [220608]

Meg Hillier: The Home Office does not authorise death as an experimental endpoint in project licences granted under the Animals (Scientific Procedures) Act 1986. Where an earlier endpoint has been set to ensure that animals are killed before death would occur, euthanasia would be applied as soon as the animal exhibits predetermined signs, such as abnormal behaviour, appearance, body weight changes, body temperature changes, abnormal clinical findings or observations or laboratory investigations. Monitoring arrangements would also be required to ensure that such signs were identified promptly. Where appropriate, these may include 24-hour care.

Severity limits for such procedures may be either moderate or substantial, depending on the point at which the endpoint is to be applied, and would be set in accordance with the guidance provided in paragraph 5.42 of the published Guidance on the Operation of the Animals (Scientific Procedures) Act 1986 (HC321).

Common examples of project licences of this nature include those authorising regulatory toxicology and safety evaluation studies, some vaccine efficacy tests, certain models of disease and major surgery.

Steve Webb: To ask the Secretary of State for the Home Department pursuant to the Statistics of Scientific Procedures on Living Animals 2006, for what specific purposes macaque monkeys were used. [220865]

Meg Hillier: Table 1 of the Statistics of Scientific Procedures on Living Animals: Great Britain 2006 identifies the primary purpose of the procedures in which macaques were used. Further information regarding target body systems, non-toxicological field of research, use for production of biological materials, toxicological purpose and type of toxicological test is provided, respectively, in tables 4, 6, 7, 9 and 11 of the publication.

Antisocial Behaviour

Mrs. Riordan: To ask the Secretary of State for the Home Department what recent steps she has taken to address antisocial behaviour in local communities; and if she will make a statement. [220050]

Mr. Coaker: Since April 2008, there has been a neighbourhood policing team in every area. These teams are now increasing their focus on working with local communities to identify and tackle local problems together, while continuing to provide high visibility policing, reducing antisocial behaviour and the fear of crime.

We have provided practitioners with a wide range of tools and powers to tackle antisocial behaviour, issued guidance on their use through a practitioner website and set up a free telephone advice line to provide specific support on individual problems. It is for local agencies to decide on the most appropriate interventions to tackle antisocial behaviour based on their knowledge of what works best locally.

Julia Goldsworthy: To ask the Secretary of State for the Home Department what regulations govern the use of ultra-sonic youth deterrent devices. [220091]

Mr. Coaker: There are no regulations that govern the use of ultra-sonic deterrent devices. However, the prolonged exposure to the noise emitted by a device may be a statutory nuisance. If an environmental health officer took the view that it affected the occupants of a property, action could be taken against the owner of the noise emitter. Inappropriate use of the device may also be classed as a harassment offence under the Public Order Act 1986 or the Protection from Harassment Act 1997.

Julia Goldsworthy: To ask the Secretary of State for the Home Department how many local authorities in England have applied to make *(a)* an Alcohol Disorder Zone, *(b)* a section 30 dispersal order and *(c)* a designated public place order in each year since each was introduced. [220168]

Mr. Coaker *[holding answer 21 July 2008]:* There are currently no Alcohol Disorder Zones (ADZs) that we are aware of. ADZs were only commenced on 5 June 2008 and require a number of steps to be taken before a full ADZ is implemented.

Between January 2004 and 31 March 2006, the police have used the power in section 30 of the Anti Social Behaviour Act 2003 to disperse unruly groups in over 1,000 designated areas. Figures are not available broken down by year. Figures for 1 April 2006 to 31 March 2007 are due to be published in the next few months.

The Home Office has been informed that 613 Designated Public Place Orders (DPPO)s have been implemented throughout England and Wales. This figure is broken down by year as follows; three in 2001, 68 in 2002, 78 in 2003, 98 in 2004,103 in 2005, 136 in 2006, 97 in 2007 and 30 in 2008.

A full list of the Councils which have implemented the orders can be accessed at the following internet link which includes commencement date.

http://www.crimereduction.homeoffice.gov.uk/alcoholorders/alcoholorders09.htm

Antisocial Behaviour: Greater London

Mr. Evennett: To ask the Secretary of State for the Home Department how many vehicles have been confiscated as a result of anti-social behaviour in *(a)* the London Borough of Bexley and *(b)* Greater London in each year since 2000. [220392]

Mr. Coaker: Information on the number of vehicles confiscated as a result of antisocial behaviour is not collected centrally by the Home Office.

Antisocial Behaviour: Tamworth

Mr. Jenkins: To ask the Secretary of State for the Home Department how many vehicles have been confiscated as a result of anti-social behaviour in Tamworth constituency since 2005. [220108]

Mr. Coaker: Information on the number of vehicles confiscated as a result of antisocial behaviour is not collected centrally by the Home Office.

Asylum

Jenny Willott: To ask the Secretary of State for the Home Department of the Legacy Casework Programme questionnaires completed and returned, how many recipients *(a)* were granted leave to remain *(b)* were not granted leave to remain and *(c)* are awaiting a decision; and if she will make a statement. [180227]

Mr. Byrne: The answer to parts *(a)*, *(b)* and *(c)* cannot be determined as these would entail disproportionate cost. Applicants in the backlog of asylum claims are only sent a questionnaire if the UK Border Agency determines it needs more up-to-date information on the case, for example, where an applicant has not been in touch with the Agency for some period.

Lin Homer wrote to the Home Affairs Select Committee on 23 July 2008 to update them on the progress of the work of the Case Resolution Directorate in line with the commitment she gave in her letter dated 17 December 2007 to provide updates every six months.

Mr. Clappison: To ask the Secretary of State for the Home Department pursuant to the answer of 16 January 2008, *Official Report*, column 1279W, on asylum, how many asylum claimants who have received leave to remain as a result of grant of *(a)* asylum, *(b)* humanitarian protection and *(c)* discretionary leave there were of each nationality in the categories (i) Europe other (ii) Americas other, (iii) Africa other, (iv) Middle East other and (v) Asia other. [196027]

Mr. Byrne *[holding answer 20 March 2008]:* The requested information is contained in the tables provided.

Information on asylum decisions is published quarterly and annually. Copies of asylum statistics publications are available from the Library of the House and from the Home Office Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html.

[4] Provisional figures.

Mr. Mudie: To ask the Secretary of State for the Home Department pursuant to the answer of 8 July 2008, *Official Report*, column 1429W, on asylum, (1) if she will clarify which parts of the letter of 7 July 2008 from the Minister of State, the hon. Member for Birmingham, Hodge Hill, to the hon. Member for Leeds East provide information relevant to *(a)* the targets set within her Department for processing applications for leave to remain at each stage and *(b)* the likely date for decision in the case of Mr Last Manzini (M1175940) whose application was lodged in February 2005; and if she will make a statement; [218853]

(2) when she expects the application for leave to remain made by Mr Last Manzini (M1175940) in February 2005 will be decided; and if she will make a statement. [218855]

Mr. Byrne: I wrote to my hon. Friend on 23 July 2008.

Mr. Davidson: To ask the Secretary of State for the Home Department how many immigration and asylum cases have been dealt with by legacy case teams in *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland to date; how many such cases remain outstanding; when she expects each such case to have been reviewed; and if she will make a statement. [221672]

Mr. Byrne: We do not hold this information in this format and to obtain it would entail work being carried out at a disproportionate cost.

Lin Homer wrote to the Home Affairs Select Committee on 23 July 2008 to update them on the progress of the work of the Case Resolution Directorate in line with the commitment she gave in her letter dated 17 December 2007 to provide updates every six months.

Asylum: Iraq

Damian Green: To ask the Secretary of State for the Home Department what progress she has made on the plans for a resettlement mission to Syria to discuss the cases of Iraqi former UK interpreters; and if she will make a statement. [218888]

Mr. Byrne: The practicalities of a resettlement mission in Syria remain under discussion. In the meantime, the Iraqis who meet the criteria for the Locally Engaged Staff scheme who are currently in Syria are in receipt of financial support and background checking which would be part of the assessment process of resettlement.

Borders: Personal Records

Damian Green: To ask the Secretary of State for the Home Department how much her Department had spent on the e-borders project in total by 31 January 2008. [195136]

Mr. Byrne: By 31 January 2008, £133.5 million had been invested in the e-Borders programme.

Mr. Evans: To ask the Secretary of State for the Home Department what recent assessment she has made of the effectiveness of the global roll-out of fingerprint visas under the e-Borders programme. [203940]

Mr. Byrne *[holding answer 7 May 2008]:* We delivered global roll out of our visa biometric programme in December, three months early and several million pounds under budget. To date, over 2.5 million enrolments have generated over 19,000 matches to data recorded in connection with a previous immigration or asylum matter in the United Kingdom and bringing to notice over 3,100 applications which have been lodged in a different identity.

UK Border Agency are now averaging 1,200 matches a month to visa applicants who have previously been fingerprinted in the United Kingdom in association with an immigration or asylum matter.

Philip Davies: To ask the Secretary of State for the Home Department (1) what percentage of UK passenger movements she expects will utilise passenger name record data in 2013; [215515]

(2) when her Department expects to complete the risk assessment for the routes which will capture other passenger information (OPI); and what plans she has to announce which routes will utilise OPI. [218412]

Mr. Byrne: The e-Borders Programme will check and screen against watch lists 60 per cent., of all passenger and crew movements in and out of the UK by December 2009, 95 per cent., by December 2010 and 100 per cent., by 2014.

We do not intend to publish details of those routes for which Passenger Name Record data will be captured as this is operationally sensitive.

British Crime Survey

Jo Swinson: To ask the Secretary of State for the Home Department what the annual cost of conducting the British Crime Survey was in each of the last five years. [220690]

Mr. Coaker: The Home Office commission an external survey research company to carry out the British Crime Survey on its behalf. The contract for this work is let every three years following a competitive tendering exercise. The cost of this contract in each of the years asked about was £3.1 million in 2003-04, £4.5 million in 2004-05, £4.6 million in 2005-06, £4.8 million in 2006-07 and £4.6 million in 2007-08.

British Nationality

Damian Green: To ask the Secretary of State for the Home Department whether the granting of full citizenship would be delayed for those granted probationary citizenship should *(a)* a family member be found guilty of an offence and *(b)* the individual lose a case in the civil courts. [190144]

Mr. Byrne: In the Government response to the consultation on the Green Paper 'the path to citizenship' we set out that we believe there is some value in supporting, and where necessary, challenging parents whose children offend. We recognise that there are sensitive issues which we need to consider carefully before proceeding and will establish a cross-Government working group to determine how to connect our proposals with other Government sanctions on youth crime.

British Nationality: Gurkhas

Chris Huhne: To ask the Secretary of State for the Home Department whether the three routes to citizenship and three stages in the journey outlined in The Path to Citizenship, will apply to Gurkha soldiers who completed their service *(a)* before and *(b)* after 1 July 1997. [195404]

Jacqui Smith *[holding answer 19 March 2008]:* The objective behind the proposals outlined by the Green Paper is to create a new clear framework for the journey to citizenship and clarify the routes to British citizenship/permanent residence via probationary citizenship.

The consultation period ended on 14 May and we published the Government's response document on 14 July.

We are continuing to assess how existing routes to settlement may fall within these proposals. As part of this work we will be considering in what way the new requirements might apply to all those non-EEA nationals who have obtained indefinite leave following their discharge from the armed forces.

We are also continuing in our discussions with the Ministry of Defence on various matters affecting the position of the armed forces with regard to immigration and citizenship issues. Although these considerations are ongoing there is no intention at this time to confer additional routes to citizenship for Gurkha soldiers discharged prior to 1 July 1997. The lawfulness of the immigration rules as they apply to Gurkha soldiers discharged prior to 1 July 1997 is subject to judicial review in September 2008 and it would not be appropriate to comment further at this time.

I am however pleased to have been able to agree to a number of important measures as part of the wider package of commitments across government to better support serving personnel, their families and veterans. Details of these can be found in the MOD Command Paper "The Nation's Commitment: Cross-Government Support to our Armed Forces, their Families and Veterans" (Cm 7424).

Burglary

Bob Spink: To ask the Secretary of State for the Home Department what percentage of reported house burglaries were investigated by each police force in each of the last 10 years. [220719]

Mr. Coaker: The information requested is not collected centrally. The Home Office collects statistics on the number of offences recorded and detected by the police but not on the number of offences investigated.

Citizenship

Damian Green: To ask the Secretary of State for the Home Department which benefits the Government considers to be mainstream benefits, as referred to in her Department's Green Paper, A Pathway to Citizenship. [190178]

Mr. Byrne: In the Government response to the consultation on the Green Paper 'the path to citizenship', we set out that migrants in the temporary residence and probationary citizenship categories will have no access to non-contributory benefits, social assistance, local authority housing or homelessness assistance.

Limited exceptions to this will be where we are meeting our obligations under international agreements and international law. Temporary residents and probationary citizens will have access to a limited number of national insurance based benefits but only once they have paid for them.

Refugees will continue to have access to benefits at all stages of the process.

Damian Green: To ask the Secretary of State for the Home Department how her Department plans to verify claims of active citizenship on the part of migrants granted probationary citizenship; and what discussions officials in her Department have had with *(a)* representatives of the voluntary sector, *(b)* local authorities and *(c)* other bodies on their roles in the verification process. [190182]

Mr. Byrne: At paragraph 178 of the Green Paper we have proposed that we will verify activities by written evidence from a referee. This would build on the current application process for citizenship, which

requires applicants to submit details of two referees who have known the applicant personally for three years. Knowingly making a false declaration can lead to a penalty of up to three months' imprisonment or a fine not exceeding £5,000.

Migrants who have contributed to their community would be required to provide a third referee to confirm personally the evidence of active citizenship provided by the applicant, with the same potential penalties applying. We consider that this represents a cost effective and 'light touch' regime, which nonetheless provides a clear deterrent for anyone seeking to abuse the process.

We will continue to discuss these proposals with relevant bodies including representatives from local government and the third sector to help us identify the most effective and practical way of implementing this proposal.

Crime

Mr. Ruffley: To ask the Secretary of State for the Home Department what percentage and how many violent incidences according to the British Crime Survey resulted in the victim needing *(a)* medical attention from a doctor, *(b)* some form of medical attention and *(c)* a hospital stay in England and Wales in each year since 1997. [220922]

Mr. Coaker: The percentage of violent incidents resulting in the victim needing *(a)* medical attention from a doctor, *(b)* some form of medical attention and *(c)* a hospital stay in England and Wales are published annually in the Home Office statistical bulletin Crime in England and Wales (copies of which are available in the House of Commons Library) and are included in the following table.

Comparable figures prior to 2001-02 are not available due to changes to question wording introduced in 2001-02.

Analysis of the number of violent incidents broken down as requested is not routinely produced and could be obtained only at disproportionate cost. Copies of the BCS datasets are made publicly available for secondary analysis at the UK Data Archive.

Medical attention in violent incidents[1], 2001-02 to 2007-08, BCS

Percentage

	2001-02	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
Some form of medical attention[2]	14	16	15	16	15	16	12
Medical attention from a doctor	n/a	11	11	11	11	12	9
Hospital stay[3]	2	2	1	2	2	2	1
Unweighted base	1,037	1,420	1,413	1,468	1,536	1,667	1,547

[1] From 1997 to 2005-06, 'All violence' included wounding, robbery, snatch theft, assault with minor injury and assault with no injury. In 2006-07 there were revisions to the BCS violence category and snatch theft was excluded. 'All violence' now includes wounding, robbery, assault with minor injury and assault with no injury. [2] Asked of victims where force or violence was threatened or used. [3] This question asks whether the victim stayed in hospital for at least one night and is asked of those who sought medical attention (excluding dentists); base is victims of all violent incidents.

Mr. Ruffley: To ask the Secretary of State for the Home Department (1) how many and what percentage of violent incidents occurred, according to the British Crime Survey, where the victim was classified by ACORN as *(a)* wealthy achievers, *(b)* in urban prosperity, *(c)* comfortably off, *(d)* moderate means and *(e)* in hard pressed in England and Wales in each year since 1997; [220930]

(2) how many and what percentage of *(a)* violent incidents, *(b)* burglaries, *(c)* vehicle-related thefts, *(d)* vandalism and *(e)* theft from the person occurred, according to the British Crime Survey, where the victim lived in (i) a semi-detached house, (ii) a detached house, (iii) a terraced house, (iv) a flat or maisonette and (v) other accommodation in England and Wales in each year since 1997; [220929]

(3) how many and what percentage of *(a)* violent incidents, *(b)* burglaries, *(c)* vehicle related thefts, *(d)* vandalism and *(e)* theft from the person occurred, according to the British Crime Survey, where the victim was a (i) owner-occupier, (ii) social renter and (iii) private renter in England and Wales in each year since 1997; [220928]

(4) how many and what percentage of *(a)* violent incidents, *(b)* burglaries and *(c)* vehicle related thefts occurred, according to the British Crime Survey, where the victim was (i) unemployed, (ii) employed, (iii) a student, (iv) looking after a family home, (v) long-term or temporarily sick, (vi) retired and (vii) other unclassified in England and Wales in each year since 1997; [220927]

(5) how many and what percentage of *(a)* violent incidents, *(b)* burglaries, *(c)* vehicle related thefts, *(d)* vandalism and *(e)* theft from the person occurred, according to the British Crime Survey, to a victim whose yearly income was (i) less than £10,000, (ii) between £10,000 and £20,000, (iii) between £20,000 and £30,000, (iv) between £30,000 and £40,000, (v) between £40,000 and £50,000 and (vi) £50,000 and above in England and Wales in each year since 1997; [220926]

(6) what percentage and how many *(a)* victims of burglary and *(b)* non-victims of burglary according to the British Crime Survey owned (i) a burglar alarm, (ii) a deadlock, (iii) an outdoor sensor, (iv) an indoor sensor, (v) window locks, (vi) window bars and (vii) a security chain on the door in England and Wales in each year since 1997; [220921]

(7) what percentage and how many *(a)* violent incidents and *(b)* burglaries occurred according to the British Crime Survey where the victim had (i) a long-standing illness or disability which limits activities, (ii) a long-standing illness which does not limit activity and (iii) no long-standing illness in England and Wales in each year since 1997. [220920]

Mr. Coaker: The annual Home Office Statistical Bulletin Crime in England and Wales routinely presents analyses of the British Crime Survey (BCS) showing the risk of being a victim of crime by the

various socio-demographic characteristics requested. Copies of these publications are available in the House of Commons Library (the most recent publication is Crime in England and Wales 2007-08).

Information on the number and proportion of incidents broken down as requested are not routinely produced could be obtained only at disproportionate cost. Copies of the BCS datasets are made publicly available for secondary analysis at the UK Data Archive.

Crime: Computers

Bob Spink: To ask the Secretary of State for the Home Department how many phishing incidents were *(a)* reported to and *(b)* investigated by police forces in each of the last five years. [220716]

Mr. Coaker: The Home Office does not keep of record of this information. However, figures from the Association for Payment Clearing Services (APACS) show that while the number of phishing attacks has increased, the overall losses are falling.

Phishing is an attempt to commit fraud and is therefore recorded as such. The public are encouraged to report phishing e-mail attacks to their bank by going to the website

banksafeonline.org

Crime: Per Capita Costs

Mr. Hollobone: To ask the Secretary of State for the Home Department what studies her Department has undertaken to establish the per capita cost of crimes in the last three years. [218213]

Mr. Coaker: The Home Office first published estimates of the costs of crime in England and Wales in 2000. A partial update of these estimates, covering crime against individuals and households only, was published in 2005. Both reports are available for download from the Home Office publications website. The Economic and Social Costs of Crime Against Individuals and Households (Home Office Online Report 30/05) can be found at: http://www.homeoffice.gov.uk/rds/pdfs05/rdsolr3005.pdf and The Economic and Social Costs of Crime (Home Office Research Study 217) can be found at: http://www.homeoffice.gov.uk/rds/pdfs/hors217.pdf.

The Department has not published any estimates of the costs of crime per capita.

Crime: Rural Areas

Mr. Harper: To ask the Secretary of State for the Home Department whether she has made an assessment of the potential relationship between rural crime and the use of ketamine. [220303]

Mr. Coaker: No assessment has been made between rural crime and the use of Ketamine.

Ketamine is controlled under the Misuse of Drugs Act 1971 and the Government's message is clear that it is harmful and should not be taken. All drugs are harmful and cause significant and wide ranging problems for individuals, families and communities from health harms (such as HIV or drug related deaths) to drug-related crime and associated antisocial behaviour and the fear that this causes. It is estimated that between a third and a half of all acquisitive crime is drug-related.

The Government's new Drug Strategy clearly sets out our aim that we want fewer and fewer people to start using drugs and that the Government want a society free of the problems caused by drugs.

Crime: Statistics

Robert Neill: To ask the Secretary of State for the Home Department what figures *(a)* her Department and *(b)* police services collate on (i) youth and gang-related nuisance, (ii) vandalism and damage to property, (iii) drug nuisance and drug dealing, (iv) prostitution and kerb-crawling, (v) dog and animal nuisance and (vi) harassment and intimidation; and what the lowest administrative unit is at which such figures are collated. [219063]

Mr. Coaker: The Home Office (HO), National Policing Improvement Agency (NPIA) and police forces collect data on the following areas respectively:

(i) youth and gang-related nuisance

a. The number of incidents of antisocial behaviour (ASB), as defined by the National Standard for Incident Recording (NSIR) (NPIA and forces).

b. The number of incidents of ASB which are 'youth-related' as defined by NSIR (NPIA and forces).

c. No information is collated centrally on 'gang'-related incidents. This may be collected by forces on a local level but the HO and NPIA do not collate this information.

(ii) vandalism and damage to property

d. Number of offences of criminal damage recorded by the police (HO and forces).

e. Additionally, the British crime survey includes estimates of criminal damage to property or vehicles belonging to private households.

(iii) drug nuisance and dealing

f. The number of (non-notifable crime) incidents where 'drugs' represent a characteristic or motivating factor behind the incident (NPIA and forces). Note that the Metropolitan Police Service (MPS) and City of London Police do not collate this information.

g. The number of drugs offences recorded by the police (HO and forces).

(iv) prostitution and kerb-crawling

h. Number of offences of 'soliciting for the purpose of prostitution' (commonly known as 'kerb crawling' recorded by the police) (HO and forces).

Number of incidents of 'prostitution-related activity' as defined by NSIR (NPIA and forces).

(v) dog and animal nuisance

i. The number of ASB 'animal problems' as defined by NSIR (this includes dogs) (NPIA and forces).

(vi) harassment and intimidation

j. Number of crimes of 'harassment' recorded by the police (HO and forces).

(vii) litter, rubbish and fly-tipping

k. The number of incidents of ASB 'environmental damage/littering' as defined by NSIR.

l. The number of crimes of 'fly-tipping' recorded by the police (HO and forces).

Forces and the NPIA collate incident data at force and basic command unit (BCU) level. Many forces collate this information at a lower level (CDRP/ward) but this will vary from force to force.

The HO collates notifiable crime at BCU, local authority and crime and disorder reduction partnership levels. Forces may collate these data at a ward level.

Full monthly crime and incident data at these reporting levels can be found on the Iquanta system at:

https://iquanta.net/

Crime statistics and the British crime survey results can be found at:

http://www.crimereduction.homeoffice.gov.uk/statistics/statistics074.htm

The MPS and City of London Police do not collate information on drugs-related incidents.

Crime: Tamworth

Mr. Jenkins: To ask the Secretary of State for the Home Department what estimate she has made of the levels of incidence of *(a)* violent crime, *(b)* car crime, *(c)* robbery and *(d)* burglary in Tamworth constituency since 2006; and if she will make a statement. [220132]

Mr. Coaker: The available information relates to offences recorded in the Tamworth crime and disorder reduction partnership area and is given in the following table.

A number of changes have been made to recorded crime in response to suggestions in the two reviews of crime statistics in 2007. One such change is that the term 'violent crime' is no longer used in connection with the recorded crime statistics and we now provide figures for violence against the person. In addition, a new offence group of 'offences against vehicles' has also been created. This group includes offences of theft of and from a vehicle, aggravated vehicle taking and interfering with a motor vehicle.

Specific offences recorded by the police in Tamworth

	Violence against the person	*Offences against vehicles*[1]	*Robbery*	*Burglary*
2006-07	2,214	965	77	838
2007-08	1,798	900	64	791

[1] Includes offences of theft of and from a vehicle, aggravated vehicle taking and interfering with a motor vehicle.

Crimes of Violence

Mr. Harper: To ask the Secretary of State for the Home Department what recent estimate she has made of the level of *(a)* knife crime and *(b)* violent crime against the person in each (i) county and (ii) constituency in England and Wales. [220306]

Mr. Coaker: From April 2007, police forces have been providing the Home Office with aggregate data on serious violence (attempted murder, GBH and robbery) involving knives and sharp instruments. These offences are centrally available at police force area and region level rather than County or Constituency level, and are given in Table (A) placed in the House Library.

Available data from the Homicide Index relate to offences currently recorded as homicide where the apparent method of killing was 'sharp instrument', as at 12 November 2007. Table (B) shows the number of such offences recorded by police force area and region in England and Wales in 2006-07 placed in the House Library.

Violent crime offences by police force area and Crime and Disorder Reduction Partnership areas for 2006-07 and 2007-08 are given in tables (C) and (D) respectively placed in the House Library.

Crimes of Violence: Halifax

Mrs. Riordan: To ask the Secretary of State for the Home Department how many violent crimes were committed in central Halifax in the last period for which figures are available. [220049]

Mr. Coaker: In response to the two reviews of crime statistics in 2007, the term 'violent crime' is no longer used in connection with recorded crime statistics and figures for violence against the person are now provided.

Recorded crime statistics are collected at crime and disorder reduction partnership (CDRP) level. Central Halifax comes within the Calderdale CDRP.

In 2007-08, there were 3,718 violence against the person offences recorded in the Calderdale CDRP. This represents a 5 per cent. fall compared with the previous year.

Criminal Records Bureau

Bob Spink: To ask the Secretary of State for the Home Department (1) on how many occasions the Criminal Records Bureau disclosed the personal history of one individual to another individual as a result of mistaken identity in each year since its inception; and how many complaints the Bureau has received as a result of such errors; [220700]

(2) how many applicants for Criminal Records Bureau checks were asked to supply fingerprint evidence to resolve cases of mistaken identity in each year since its inception; and what percentage of all checks this represented. [220836]

Meg Hillier: All the quality control procedures at the Criminal Records Bureau (CRB) are geared to achieving the highest levels of accuracy. In addition, the CRB carries out a post disclosure accuracy check that analyses all aspects of the disclosure application and its issue. This check was introduced in 2007 and is based on a statistical sample of disclosure applications and from that sample it can be ascertained that the accuracy rate for 2006-07 is 99.94 per cent. and for 2007-08 is 99.98 per cent.

Over the past 12 months the CRB have issued 3,457,424 disclosures and have used applicants' fingerprints 358 times to distinguish them from records held on the police national computer (PNC) to which they had originally been matched. Of these, 115 applicants were found to have been correctly matched to the record held on PNC. The number found to be incorrectly matched to a record on PNC following

fingerprints represents 0.007 per cent. of disclosures issued during the past 12 months.

No comparative data are available on either of these issues prior to the dates referred to.

Criminal Records Bureau: Standards

Mr. Ruffley: To ask the Secretary of State for the Home Department (1) how many and what percentage of record checks processed by the Criminal Records Bureau were completed within *(a)* 10, *(b)* 14, *(c)* 25 and *(d)* 60 days in each year since 2002, broken down by police force area; and how many checks were not completed within 60 days; [219040]

(2) how many *(a)* standard and *(b)* enhanced record checks were processed by the Criminal Records Bureau in each year since 2002, broken down by police force area; [219166]

(3) how many certificates have been requested in respect of *(a)* people wishing to work in the voluntary sector, *(b)* unemployed people and *(c)* disabled people in each year since the Criminal Records Bureau's inception; how many certificates were requested in each year; and if she will make a statement; [219168]

(4) what the average waiting time was for a police check to be completed through the Criminal Records Bureau in the latest period for which figures are available; [219170]

(5) what assessment she has made of variations in police forces' performance in supplying information to the Criminal Records Bureau within 14 days; [219171]

(6) how many Criminal Records Bureau checks have been carried out in each year since 2000. [219179]

Meg Hillier: The Criminal Records Bureau (CRB) has issued over 16 million disclosures since inception and operates to a set of public service standards (PSS) which are to issue 90 per cent. of standard disclosures within 10 days and 90 per cent. of enhanced disclosures within 28 days.

Data concerning the average time taken to complete a disclosure by police force area are not collated by the CRB.

Average figures do not give an accurate indication of performance, since any forces' performance can be affected by a number of factors; the volume of cases sent to a force to process in any given month, the number of staff available to process the checks and the IT resources on hand to forces. With these variables, performance can fluctuate within individual forces from one month to the next.

The CRB has been supporting those forces that have encountered problems in meeting their targets by a range of measures including the provision of additional resources, monitoring performance, providing demand forecasting data and assistance in introducing new IT initiatives.

The total number of standard and enhanced disclosures processed in each year since 2002 is shown in the following table.

CRB checks processed

Financial year	*Standard disclosures*	*Enhanced disclosures*	*Total*
2002-03	178,375	1,258,719	1,437,094
2003-04	285,130	1,999,558	2,284,688
2004-05	275,197	2,155,740	2,430,937
2005-06	313,368	2,456,897	2,770,265
2006-07	329,223	2,948,734	3,277,957
2007-08	294,592	3,028,659	3,323,251
2008-09[1]	96,751	808,933	905,684
Grand total	1,772,636	14,657,240	16,429,876

[1] April to June 2008

The CRB cannot provide figures broken down by police force area. This is because standard disclosures are processed without any requirement for the police forces to conduct checks and several different police forces may be required to conduct checks in order to produce one enhanced disclosure.

An internal service level agreement between the CRB and the Association of Chief Police Officers (ACPO) has been in place since April 2006. This SLA has been agreed by ACPO on behalf of the 43 local police forces in England and Wales and the time taken by each force to complete their part of the enhanced disclosure process is measured against targets of 10 days, 14 days, 25 days and 60 days. By meeting these targets the police forces directly affect the CRB's ability to meet the public service standard for enhanced disclosures.

The following table illustrates the number of enhanced disclosure checks completed by each police force in 10 days, 14 days, 25 days, 60 days and over 60 days during 2006-07 and 2007-08.

The CRB has developed the capacity to process in excess of 300,000 checks every month. Approximately 20 per cent. of applications are from volunteers and disclosures for volunteers continue to be processed free of charge.

The number requested in respect of individuals wishing to work in the voluntary sector is shown in the following table.

Financial year record	*Disclosures received*	*Volunteers*	*Total non-volunteers*	*Volunteers*
2002-03	1,651,134	241,211	1,409,923	14.6
2003-04	2,358,627	429,096	1,929,531	18.2
2004-05	2,532,451	521,144	2,011,307	20.6
2005-06	2,860,296	587,479	2,272,817	20.5
2006-07	3,252,640	665,420	2,587,220	20.5
2007-08	3,408,595	682,258	2,726,337	20.0

The CRB does not capture data on whether applicants are unemployed or disabled.

Curfews: Children

Mr. Ruffley: To ask the Secretary of State for the Home Department how many children in contravention of their curfew notices have been removed to their place of residence by *(a)* community support officers and *(b)* police officers under paragraph 4B of Schedule 4 to the Police Reform Act 2002 in each of the last four years, broken down by police authority area. [219156]

Mr. Coaker: Information is not collected in the form requested. Section 30 of the Anti-Social Behaviour Act 2003 provides the police with two powers to disperse groups of two or more people and to return young people under 16 who are unsupervised in public places after 9 pm to their homes. 1,065 areas were designated for the exercise of these powers between 1 January 2004 and 31 March 2006. Information on those removed to their place of residence for this period is not held. Information on numbers of designated areas and individuals removed to their place of residence for the period 1 April 2006 to 31 March 2007 will be published shortly.

Departmental Alcoholic Drinks

David Simpson: To ask the Secretary of State for the Home Department what purchasing process is used by her Department for the procurement of alcohol for hospitality purposes. [219955]

Mr. Byrne: The Department's Facilities Management partner, Ecovert FM, provides hospitality (including alcohol) for the Department's headquarters at 2 Marsham street. Similar arrangements are provided by approved suppliers at the other Home Office locations.

In exceptional circumstances, senior management are able to pay for an event and reclaim the cost from the Department.

The official purchase and provision of alcohol is recognised as being an extraordinary undertaking and

is incurred in accordance with the principles of Managing Public Money and the Treasury handbook on regularity and propriety.

Departmental Appeals

Andrew Mackinlay: To ask the Secretary of State for the Home Department on how many occasions her Department has instructed the Treasury Solicitor to seek leave to appeal to the House of Lords from *(a)* the Court of Appeal and *(b)* the House of Lords itself in each of the last 10 years; and on how many occasions the application was rejected. [220824]

Mr. McNulty: The information requested is not held centrally and could be provided only at disproportionate cost.

Departmental Aviation

Mr. Ruffley: To ask the Secretary of State for the Home Department on how many occasions she has used the Queen's Flight in each of the last five years; and how much her Department spent on chartering aircraft in each of the last five years. [219185]

Mr. Byrne: Travel by Ministers makes clear that special flights may be authorised when a scheduled service is not available, or when it is essential to travel by air, but the requirements of official or parliamentary business or security considerations or urgency preclude the journey being made by a scheduled service. In respect of overseas travel by Ministers, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The list published in 1999 covers the period 2 May 1997 to 31 March 1999. Where RAF/Private Charter aircraft are used this is shown in the list. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House.

A chartered aircraft was used to travel to Blackpool in 2007. The cost of this was £4,770. The Queen's Flight has not been used for any other internal flights in the last five years.

Departmental Buildings

John Battle: To ask the Secretary of State for the Home Department when her Department's centre in Waterside Court in Kirkstall, Leeds was first flooded; what *(a)* assessment she has made of the effects and *(b)* estimate she has made of the cost of repair; and if she will make a statement. [220766]

Mr. Byrne: Waterside Court was originally a water mill built over the River Aire in the 17th century and is a grade II listed building. The Home Office took up leased occupation of a refurbished Waterside Court on 19 May 2000 and flooding was first experienced on 30 October 2000. The estimated cost of damage to the Department was £300,000. In order to protect against subsequent flooding, a demountable flood protection barrier was installed in 2001 at an approximate cost of £120,000.

Departmental Complaints

Mr. Baron: To ask the Secretary of State for the Home Department how many complaints have been received by her Department's complaints officer in each year since 1997. [220069]

Mr. Byrne *[holding answer 21 July 2008]:* The information is as follows:

Home Office HQ

The Home Office does not record complaints separately from day to day correspondence. All incoming correspondence, including any complaints, is scanned onto the Department's correspondence tracking system and is dealt with by the appropriate unit. Complaints are not identified as such on the system and no specific data are available.

Criminal Records Bureau (CRB)

The CRB does not record complaints separately from day to day correspondence.

United Kingdom Border Agency

Data can be provided from 2000 for service delivery complaints and 2001 for misconduct complaints.

The number of complaints received from members of the public through the United Kingdom Border Agency's central complaints unit (the Customer Focus Team), broken down by category and year is as follows:

Misconduct complaints (relating to staff behaviour)

	Number
1 January 2001 to 31 March 2002	530
1 April 2002 to 31 March 2003	436
1 April 2003 to 31 March 2004	546
1 April 2004 to 31 March 2005	422
1 April 2005 to 31 March 2006	433
1 April 2006 to 31 March 2007	354
1 April 2007 to 31 March 2008	360

Service delivery complaints (relating to level of service)

	Number
1 April 2000 to 31 March 2001	2,747
1 April 2001 to 31 March 2002	3,943
1 April 2002 to 31 March 2003	3,402
1 April 2003 to 31 March 2004	11,788
1 April 2004 to 31 March 2005	13,008
1 April 2005 to 31 March 2006	13,618
1 April 2006 to 31 March 2007	12,594
1 April 2007 to 31 March 2008	13,585

The data do not include complaints which may have been received within correspondence managed through separate processes, for example letter from Members of Parliament.

Identity and Passport Service (IPS)

The information is not available save at disproportionate cost. IPS does not record all complaints centrally and it would be a major exercise to collate information from the seven regional offices as well as the 68 ION offices together with those escalated complaints that do come up to HQ.

Departmental Computers

Mr. Peter Ainsworth: To ask the Secretary of State for the Home Department whether she has issued guidance to staff in her Department to switch off personal computers when not in use; and if she will make a statement. [208168]

Mr. Byrne: The Core Home Office Security Operating Procedures, (which all users are automatically directed to read every six months) contain an instruction to "shut down and power off" at the end of each working day.

Bi-weekly notices on UKBA Horizon include the same instruction and that printers should be switched off too.

A Home Office Global notice, issued on 23 November 2007, reminds staff about saving energy by switching off equipment at the end of each day, including PCs, copiers, printers, lights, heaters and coolers.

A Home Office Today (HOT) news story on 27 September 2007 gave examples of CO_2 savings that could be achieved by switching off various pieces of equipment.

On the Home Office Horizon site, there is a link dedicated to the Sustainable Development team, which advises on switching off, as well as promoting the Carbon Trust.

Departmental Pay

Mr. Hoban: To ask the Secretary of State for the Home Department what the *(a)* average and *(b)* highest pay rise among civil servants in her Department was in each of the last five years. [189137]

Mr. Byrne: The information requested is as follows:

The following table details the average pay rise awarded to staff below the Senior Civil Service in Home Office Headquarters, the Border and Immigration Agency, and the Criminal Records Bureau. The figures include changes to the value of the pay scales (revalorisation) and for some years, additional progression through pay ranges beyond standard performance related progression.

Part A

	Average percentage increase: Home Office HQ and Border and Immigration Agency	*Average percentage increase: Criminal Records Bureau*
2003-04	1.25	n/a
2004-05	1.02	n/a
2005-06	1.02	1.25
2006-07	1.52	1.5
2007-08	1.02	1.52

Notes:

1. Figures for the Criminal Records Bureau are only available from 2005.

2 Information is not available for the Identity and Passport Service, as obtaining this information is possible only at disproportionate cost

3 Information is not available for the Prison Service, who were formally an agency of the Home Office prior to transferring to the Ministry of Justice on nine May 2007, as obtaining this information is possible only at disproportionate cost.

The average pay rises awarded to the Senior Civil Service were made in line with the recommendations of the Senior Salary Review Body (SSRB) which can be found at:

http://www.ome.uk.com/review.cfm?body=4.

The highest pay rises were awarded to the highest performing members of the Senior Civil Service (top 25 per cent.), in line with Senior Salaries Review Body recommendations and Cabinet Office guidance. The details of the highest pay rises are provided in the following table.

Part B

	Highest percentage increase
2003-04	9
2004-05	9
2005-06	9
2006-07	6
2007-08	3.5

Dan Rogerson: To ask the Secretary of State for the Home Department what the cost of *(a)* salaries for permanent Civil Service posts, *(b)* salaries for permanent non-Civil Service posts and *(c)* payments to temporary or agency workers in her Department was in each month since May 2005. [199547]

Mr. Byrne: The Home Office is unable to provide the information requested from current available sources and commissioning reports would incur disproportionate cost.

Mr. Redwood: To ask the Secretary of State for the Home Department what proportion of staff of her Department and its agencies did not receive the maximum bonus possible under a bonus scheme applying to them in the last two years. [217415]

Mr. Byrne: 95 per cent. of senior civil service employees in the Home Office and her agencies did not receive the maximum bonus payable for the 2006-07 annual appraisal cycle.

Within Home Office headquarters and the UK Border Agency, 67 per cent. of employees below the SCS did not receive an end of year performance bonus, and 33 per cent. received a flat rate bonus of 2 per cent. in 2006-07.

IPS employees are eligible for end of year corporate bonuses, and grades 6 and 7 are eligible for change agent bonuses. It is not possible to provide information on the proportion of employees who received the maximum bonuses permissible without incurring disproportionate costs.

Information is not yet available for the appraisal year 2007-08.

Special bonuses are awarded for exceptional outstanding achievements by staff in particular demanding tasks or situations. It is not possible to provide information on the proportion of employees who received the maximum special bonus permissible without incurring disproportionate costs.

Departmental Procurement

David Simpson: To ask the Secretary of State for the Home Department what her Department's policy is on requesting discounts from its suppliers in return for swift payment of invoices. [220433]

Mr. Byrne: The Home Department in line with other Government Departments requires payment to be made in accordance with the terms and conditions of the contract usually within 30 days of the receipt of the goods or services or of a valid undisputed invoice whichever is the later.

Agreement to requests for prompt payment terms of less than 30 days offer little to the Department unless tangible benefits in terms of discounted prices, better delivery times or service improvements are secured in return.

Where there is a tangible benefit to both the Home Department (e.g. discounted price) and the supplier (e.g. optimising their cashflow) a payment period of less than 30 days may be negotiated between the parties and incorporated into the terms and conditions of contract.

Departmental Public Participation

Mr. Hoban: To ask the Secretary of State for the Home Department what *(a)* listening exercises and *(b)* public forums her Department has held in each of the last two years; and what the (i) purpose, (ii) cost, (iii) private contractor and (iv) amount paid to the private contractor was in each case. [221355]

Mr. Byrne: Listening exercises and public forums were held on Citizenship, Immigration and Integration; "Tackling Drugs—Changing Lives"; Crime and Drugs Strategy; Counter Terrorism community visits; Drugs Consultation; Young People Consultation; and Schools Pack Conferences.

The purpose of these events was to gain public feedback to inform the Green Paper on "The Path to Citizenship"; to gain feedback for the next drug strategy; for Ministers to hear and learn from the concerns of community members they meet; to inform, support and mobilise stakeholders to deliver on new crime and drugs strategies; to listen to the views of young people on drug issues; and to disseminate Understanding Drugs pack and pupil booklet to educational practitioners responsible for delivery of school-based drug education lessons.

To gain the information on the costs, contractors, and amounts paid to private contractors for each event could be obtained only at disproportionate cost, as these data are not recorded separately on the Department's accounting systems.

Mr. Hoban: To ask the Secretary of State for the Home Department if she will list *(a)* the reviews and *(b)* public consultations initiated by her Department since 27 June 2007. [221375]

Mr. Byrne: The Home Office undertakes a wide variety of reviews on various issues. Where necessary these would be available from the Home Office website (www.homeoffice.gov.uk) under the specific review subject area. As noted in response to the hon. Member's earlier question on 21 November 2007, *Official Report*, column 948W, all public consultations that we have initiated can be found at the following Home Office websites:

www.homeoffice.gov.uk/about-us/haveyoursay/

http://www.bia.homeoffice.gov.uk/aboutus/consultations/

Departmental Sick Leave

Mr. Ruffley: To ask the Secretary of State for the Home Department how many days sick leave were taken on average *(a)* by staff in her Department and *(b)* in the Criminal Records Bureau in each of the last five years. [219047]

Mr. Byrne: The following table shows the number of days' sick leave taken on average by staff in Home Office headquarters and each of its agencies, including the Criminal Records Bureau, for the last five financial years.

Number of sick days taken by staff in the Home Office and CRB in the last five years

	Average number of working days lost				
	2003-04	*2004-05*	*2005-06*	*2006-07*	*2007-08*
Home Office HQ	6.1	6.3	5.2	5.4	6.74
UK Border Agency (UKBA)	n/a	n/a	9.92	10.23	11.2
Criminal Records Bureau	9.6	9.6	8.8	8.6	10.79
Identity and Passport Service	11.1	11.4	10.3	10.1	9.21

Notes:

1. Data for 2003-04, 2004-05, 2005-06 and 2006-07 have been referenced from a previous PQ response on 11 June 2008, *Official Report*, columns 339-40W. UKBA have provided updated figures due to an error in the previous figures. Figures for 2003-04 and 2004-05for UKBA are not available as this information is not recorded centrally.
2. In 2006-07 the Home Office HQ included the following departments; Communities Group, National Offender Management Service (NOMS) and Office for Criminal Justice Reform (OCJR). NOMS and OCJR left in May 2007 to join the new Ministry of Justice, and Communities Group transferred to Department for Communities and Local Government in May 2006.

Departmental Sick Pay

Jenny Willott: To ask the Secretary of State for the Home Department how much was paid in sick pay to staff in *(a)* her Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility in each of the last five years; what proportion of the annual staffing expenditure of each body this represented in each year; and if she will make a statement. [216100]

Mr. Byrne: We are unable to provide the information requested from current available sources and commissioning reports would incur disproportionate cost.

Departmental Vetting

Mr. Ruffley: To ask the Secretary of State for the Home Department what percentage of successful applicants for posts in her Department were subjected to a criminal records check in the latest period for which figures are available; how many *(a)* successful applicants and *(b)* criminal records checks there were in each of the last 10 years; how many successful applicants were found to have a criminal record after a criminal records check took place in each of the last 10

years; on what criteria an applicant for a post is required to undergo a criminal records check; and if she will make a statement. [219165]

Meg Hillier: The current position is that all staff recruited to posts within the Home Office and its agencies (the UK Border Agency, Identity and Passport Service and Criminal Records Bureau) are subject to criminal records checks as part of the National Security Vetting (NSV). Checks are not random. Vetting is reviewed at various times during service.

The following table shows the number of individuals subject to NSV. Machinery of government changes will have affected those to whom NSV applied over the last 10 years.

The figures also include renewal of security clearance; not all refusals of NSV will have been for reasons of criminality.

All figures include those HM Prison Service posts where the Home Office departmental security unit was required to complete the security clearance. HM Prison Service became an agency of the Ministry of Justice in May 2007.

1 April to 31 March each	*Granted NSV*[1]	*Refused NSV*[2]	*Total*
1998-99	10,708	240	10,948
1999-2000	12,829	303	13,132
2000-01	20,928	694	21,622
2001-02	26,079	767	26,846
2002-03	30,391	1,188	31,579
2003-04	27,237	2,251	29,488
2004-05	24,155	1,239	25,393
2005-06	26,592	1,305	27,897
2006-07	27,535	1,827	29,363
2007-08	21,151	1,018	22,169
Total	227,605	10,832	238,437

[1] Numbers include cases where a criminal record did not preclude granting of NSV.
[2] Numbers include applicants who withdrew or where a criminal record may have resulted in refusal.

Deportation

Mr. Clappison: To ask the Secretary of State for the Home Department further to the Prime Minister's Statement of 14 November 2007 on national security, how many of the 24 foreign nationals then subject to deportation proceedings on national security grounds *(a)* have been deported, *(b)* have not been deported following a decision by a court, *(c)* have been given the right to remain in the UK and *(d)* have cases which are outstanding. [206254]

Mr. Byrne: Since the Prime Minister's statement of 14 November 2007, of the 24 foreign nationals then subject to deportation proceedings on national security grounds:

Twelve are no longer the subject of deportation proceedings following the Court of Appeal's ruling on the test cases of two Libyan nationals. Of these 12, eight previously had the right to remain in the UK and continue to do so. All 12 of the cases are under review as to their future immigration status. Twelve others remain subject to ongoing deportation proceedings and are at various stages of the appeals process.

Domestic Violence

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what recent steps the Government has taken to reduce domestic violence. [221337]

Mr. Coaker *[holding answer 22 July 2008]:* We have a cross-Government national delivery plan which provides a strategic framework to address domestic violence.

The plan is a set of initiatives which includes the development of Specialist Domestic Violence Courts (SDVCs), establishing Independent Domestic Violence Advisors (IDVAs) and rolling-out Multi Agency Risk Assessment Conferences (MARACs).

We have recently increased the number of SDVCs to 98, provided funding to support IDVAs and are rolling out MARACs to achieve national coverage by 2010-11.

Domestic Wastes: Waste Disposal

Bob Spink: To ask the Secretary of State for the Home Department how many *(a)* physical and *(b)* verbal assaults on refuse operatives were recorded in each of the last five years. [220720]

Mr. Coaker: The information is not collected centrally in the recorded crime statistics. While the Home Office collects statistics on the number of offences of wounding and assault without injury, no information is available on the employment status of the victim.

Driving Offences: Disqualification

Lady Hermon: To ask the Secretary of State for the Home Department what discussions she has had with her EU counterparts on whether disqualification from driving ordered by a court in a member state should apply in other member states. [220052]

Mr. Coaker: The United Kingdom is signatory to the 1998 convention on driving disqualifications, which was signed by the then 15 member states of the European Union. The provisions of the convention were brought into the law of Great Britain by the Crime (International Cooperation) Act 2003 and for Northern Ireland by a corresponding Order in Council. The convention is intended to ensure that a driver resident in one country and disqualified in another country for a motoring offence committed there, should not escape the consequences of that disqualification when he or she returns home. The convention will take effect when all 15 signatory states have ratified it. So far as we are aware, only Spain of the original signatories has done so. As yet, no member state of the European Union has put this convention into practical effect.

However, the convention provides that a member state may meanwhile declare formally to the European Union authorities that it will recognise the driving disqualifications of any other member state which has made the same declaration. On 26 June this year the Parliamentary Under-Secretary of State for Transport agreed with his Irish and Northern Ireland colleagues that the United Kingdom and Ireland should aim to make parallel formal declarations to this effect as soon as practicable, with a view to instituting mutual recognition

of driving disqualifications between the United Kingdom and Ireland under the 1998 convention in the course of spring 2009.

I am not aware that any other Member State has plans to take a similar step in the near future.

Drugs: Crime

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what steps the Government plans to take to reduce levels of drug-related crime. [221336]

Mr. Coaker *[holding answer 22 July 2008]:* The new comprehensive 10-year drug strategy, Drugs: protecting families and communities and first three year action were published on 27 February. The strategy is focused on preventing the number of young people developing drug problems, targeting families at risk and intervening early through a whole family approach, protecting communities through robust enforcement by attacking drug supply at all levels and cutting drug-related crime and disorder.

Key actions to reduce drug-related crime include:

'Extending police powers to seize more of drug dealers' (and other criminals') assets, and further asset sharing agreements to allow seizure of assets sequestered overseas.

Continuing to present drug misusing offenders with tough choices to change their behaviour or face the consequences.

Managing offenders better at crucial times, such as on discharge into the community from prison, by reviewing and strengthening the links between prisons, local Criminal Justice Integrated Teams (CJITs)and probation services.

Responding to community concerns about drugs and through the Neighbourhood Policing approach, act on intelligence supplied and provide feedback to the community.

Drugs: Leeds

John Battle: To ask the Secretary of State for the Home Department how many people from *(a)* Leeds West and *(b)* Leeds Metropolitan District were (i) arrested and (ii) convicted of drug trafficking offences as a result of National Crime Squad operations in each of the last five years. [220710]

Mr. Coaker: The National Crime Squad did not retain information on where people arrested and/or convicted of drug trafficking offences were originally from. The Serious Organised Crime Agency, which was formed in April 2006, similarly does not collect this information.

Drugs: Misuse

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what recent steps the Government has taken to reduce levels of illegal drug consumption. [221335]

Mr. Coaker *[holding answer 22 July 2008]:* In February, the Government published the new 10-year drug strategy, Drugs: protecting families and communities, which sets out the action that will be taken to address the harms caused by drug misuse and to reduce levels of drug consumption. This strategy builds on the successes of the previous drug strategy, focusing action where it will generate the greatest benefit and extending the reach and effectiveness of our interventions.

Since the introduction of the previous strategy in 1998, we have seen significant falls in the self-reported use of illegal drugs. Data from the British Crime Survey show that in 2007-08, compared to 1997, the proportion of respondents aged 16-59 reporting the use of any illegal drug in the year preceding the survey fell from 12.1 per cent. to 9.3 per cent., while the proportion reporting the use of class A drugs remained stable. The same data show us that, compared to the previous year, there have been significant reductions in the use of cocaine, ecstasy, amphetamines and cannabis.

This pattern is repeated among young people. Data from the survey show that, among young people aged 16-24, class A drug use has fallen from 8.6 per cent. in 1997 to 6.8 per cent. in 2007-08, while the use of any illegal drug has fallen from 31.8 per cent. to 21.3 per cent. over the same period. Again, there have been falls in the use of individual drugs compared to the previous year, including cocaine, ecstasy, amphetamines and cannabis.

The drug strategy takes a comprehensive approach to reducing the demand for, and consumption of, illegal drugs. This approach spans:

prevention activity through more effective drug education and information, and through early targeted interventions with the families and young people who are most at risk of developing problems; interventions through the criminal justice system where problematic drug misuse has led to offending, coupled with tough enforcement action to tackle the supply of illegal drugs;

effective treatment and support, to help people to overcome problems with drugs and to re-establish their lives; and

communications activity, to support parents in preventing drug use among their children, and to increase the confidence and resilience of communities.

Copies of the drug strategy were placed in the Library at the time of its publication and I refer my hon. Friend to the actions in the strategy which are being taken to reduce the use of illegal drugs.

Drugs: Smuggling

Mr. Grieve: To ask the Secretary of State for the Home Department how many people were *(a)* arrested and *(b)* convicted of drug trafficking offences as a result of National Crime Squad operations in 2005-06. [219422]

Jacqui Smith: In 2005-06, the National Crime Squad reported 562 arrests in connection with the trafficking of Class A drugs. During the same period there were 309 convictions in connection with the trafficking of Class A drugs.

Mr. Grieve: To ask the Secretary of State for the Home Department how many people were *(a)* arrested on suspicion of and *(b)* convicted of drug trafficking offences as a result of operations by the Serious Organised Crime Agency in (i) 2006-07 and (ii) 2007-08. [219479]

Jacqui Smith: In 2006-07, SOCA recorded that there were 601 arrests and 236 convictions in operations where drug trafficking offences was the primary threat.

Similarly in 2007-08 there were 774 arrests and 243 convictions in operations where drug trafficking was the primary threat.

Damian Green: To ask the Secretary of State for the Home Department how many people have been *(a)* apprehended, *(b)* charged and *(c)* imprisoned for drug importation and dealing offences as a result of maritime operations carried out by (i) the UK Border Agency and (ii) other agencies involved in border patrols in each year since 1997. [220110]

Mr. Byrne: From April 2008, the UK Border Agency took on responsibility for maritime operations which had previously been undertaken by HM Revenue and Customs and were formerly the responsibility of HM Customs and Excise.

Arrest, prosecution and sentencing results arising from maritime operations are not distinguished from those arising from other border operations. Therefore, the information requested could be obtained only by the detailed examination of individual records at disproportionate cost to the business.

UKBA Maritime assets work regularly in support of operations by both the police and SOCA in order to provide the earliest possible interdiction of importation attempts and suspected attempts.

Damian Green: To ask the Secretary of State for the Home Department what estimate she has made of the value of drugs seized in maritime operations by *(a)* the UK Border Agency and *(b)* other agencies involved in border patrols, expressed in 2008 prices, in each year since 1997. [220111]

Mr. Byrne: From April 2008, the UK Border Agency took on responsibility for maritime operations which had previously been undertaken by HM Revenue and Customs and were formerly the responsibility of HM Customs and Excise.

Seizure results arising from maritime operations are not distinguished from those arising from other border operations. As a result of this, the information requested could only be obtained by the detailed examination of individual records at disproportionate cost to the business.

Emergency Calls

Mr. Holloway: To ask the Secretary of State for the Home Department (1) how many telephone calls made to emergency 999 telephone operators in which the caller wished to report a crime were not treated as an appropriate 999 call in *(a)* North Kent, *(b)* Kent and *(c)* England and Wales in the latest period for which figures are available; [215715]

(2) how many telephone calls reporting crimes were made to *(a)* the 999 emergency number and *(b)* local police stations in the latest period for which figures are available; and what estimate she has made of the average (i) cost and (ii) duration of such calls. [215716]

Mr. McNulty: The available data on 999 calls are given in the following table. The remainder of the information requested is not collected centrally.

Emergency call handling (provisional)[1] by force for 2006-07

	Local target time for answering calls (seconds)	Number of 999 calls received	Number of 999 calls answered within target
Avon and Somerset	10	281,336	241,038
Bedfordshire	15	97,357	91,611

Wiltshire[4]	10	80,712	71,904

[1] Data collected on behalf of HMIC who use them for inspection purposes only. These data are provisional, and have not been validated with forces.
[2] Data are not available for City of London for quarters 2 to 3.
[3] Data are not available for West Mercia for quarters 1 to 4.
[4] Data are not available for Wiltshire for quarter 4.

Entry Clearances

Andrew Mackinlay: To ask the Secretary of State for the Home Department pursuant to the answer of 11 July 2008, *Official Report*, column 343W, on entry clearances, on what date the applications for entry clearances submitted by applicants N214395 and N1102544 (CTS reference M13830/7) were first received by the Border and Immigration Agency; when the assigned case worker in the family casework team referred to in the answer began to deal with the case;

when work on the case was completed; when the substantive decision on the case was made; and if she will make a statement. [220845]

Mr. Byrne *[holding answer 21 July 2008]*: I wrote to my hon. Friend on 23 July 2008.

Entry Clearances: Overseas Students

Mr. Clappison: To ask the Secretary of State for the Home Department how many *(a)* student entry visas and *(b)* extensions to student visas were granted to non-EU students of each nationality in each year since 2001; and what proportion of applications for extensions to such visas were granted in respect of students of each nationality. [177397]

Mr. Byrne: The available figures on non-EEA students given leave to enter the United Kingdom and those granted an extension of leave to remain can be found in the yearly Command Paper "Control of Immigration: Statistics United Kingdom" This publication may be obtained from the Library of the House and from the Home Office Research, Development and Statistics website http://www.homeoffice.gov.uk/rds/immigration1.html.

The following table shows the proportion of applications for extension of leave to remain that were granted in respect of non-EEA students in 2006. Tables for previous years can be produced only at a disproportionate cost.

Decisions on applications for an extension of leave to remain[1] in the United Kingdom, excluding EEA and Swiss nationals, 2006[2]: Students

Number of decisions

Country of nationality	*Total decisions*	*of which: Grant of extension*	*Percentage of total*	*Refusal of extension*	*Percentage of total*
Albania	155	145	94.8	10	5.2
Algeria	200	195	98.0	5	2.0
Angola	165	160	95.8	5	4.2

[1] Excludes dependants of principal applicant and withdrawn applications.
[2] Provisional and subject to change.
[3] Those countries of nationality showing less than 100 decisions.
Note:
Data rounded to the nearest five, therefore the figures may not sum to the totals shown.

Damian Green: To ask the Secretary of State for the Home Department pursuant to the oral answer to the hon. Member for Ashford of 14 January 2008, *Official Report*, column 638, from which colleges and universities the Borders and Immigration Agency and its predecessor requested details of *(a)* non-attendance by overseas students and *(b)* the number of students not attending; and how many students (i) had their visas revoked and (ii) were deported from the United Kingdom as a result in each year since 2004. [180678]

Mr. Byrne: The UK Border Agency requested attendance records from 153 colleges and 48 universities since limited mandatory reporting was introduced in April 2007. Information on the number of people who have had their visas revoked as a result of such inquiries and who were subsequently deported could be obtained by the detailed examination of individual case records only at a disproportionate cost.

Entry Clearances: English Language

Mr. Clappison: To ask the Secretary of State for the Home Department what plans she has to introduce a further English language requirement for *(a)* non-UK nationals who wish to become UK citizens and *(b)* work permit applicants seeking leave to enter the UK; and what level of proficiency will be required in any such requirements. [162680]

Mr. Byrne: We set out in the Green Paper: 'The Path to Citizenship; Next Steps in Reforming the Immigration System' our proposals for migrants to earn citizenship, including the need to demonstrate a level of ability in English. We have also consulted on whether spouses seeking entry on marriage visas should demonstrate ability in English before coming to the UK. We will set out our response to these consultations shortly.

We published a statement of intent 'Skilled Workers under the Points Based System (Tier 2)' in May setting out our plans for skilled workers to demonstrate English.

Essex Police Authority

Mr. Amess: To ask the Secretary of State for the Home Department what guidance *(a)* her Department and *(b)* other agencies have issued to Essex Police

Authority in each of the last 10 years; how her Department monitors compliance with that guidance; and if she will make a statement. [218333]

Mr. McNulty: The information requested can be provided only at disproportionate cost.

Eurojust

Mr. Grieve: To ask the Secretary of State for the Home Department how much the UK contributed to the operation of Eurojust in each of the last five years. [219484]

Jacqui Smith: Eurojust is financed from the general budget of the European Union, except for the salaries and overseas expenses entitlements of the National Members, Deputy National Members and Assistants of each national desk, which are borne by their member states.

The breakdown of Government spending on the UK delegation over the last five years is as follows: £150,000 in 2004-05; £200,000 in 2005-06; £316,000 in 2006-07; £304,000 in 2007-08; and the estimate for 2008-09 is £308,000.

Family Intervention Projects

Mr. Grieve: To ask the Secretary of State for the Home Department how many families have been *(a)* temporarily and *(b)* permanently evicted from their homes under family intervention projects. [221382]

Beverley Hughes: I have been asked to reply.

Evidence from a recently published evaluation shows the effectiveness of Family Intervention Projects in improving the lives of families involved in persistent antisocial behaviour. Families are usually facing eviction due to their antisocial behaviour when a project begins to work with them. One of the first tasks the projects undertake is to improve behaviour to stabilise a families' tenancy. The recent evaluation data show reductions in housing enforcement action, so in the majority of cases the project helps them stay in their home.

We do not collect data on the number of families evicted from their homes (either permanently or temporarily) while a Family Intervention Project works with them. We know from contact with the projects, however, that eviction happens very rarely. A small minority of families (5 per cent. were identified in the recent evaluation) disengage from the projects and it is possible in a small number of these cases the LA would proceed with an eviction. But these are families who were facing eviction before they became involved with the Family Intervention Project.

Foreign Workers: Care Homes

Mr. Clappison: To ask the Secretary of State for the Home Department what her most recent estimate is of the level of illegal working by foreign nationals in care homes; what reports she has received on this subject; and what steps her Department has taken to deal with such illegal working. [198690]

Mr. Byrne *[holding answer 3 April 2008]:* The United Kingdom Border Agency (UKBA) carries out regular enforcement operations in the care home sector and has been building an intelligence picture on illegal employment in care homes based on regional and national reports. UKBA records show that over the last two years the agency has made 120 intelligence led visits and arrested 112 suspected illegal immigrants.

The data provided are management information. They may be subject to change and do not represent published national statistics.

The agency is working with the Commission for Social Care Inspectorate, Criminal Records Bureau and Department of Health to develop an action plan that will enable us to provide additional support to those seeking help in ensuring they only employ those with a right to work and allow us to take effective targeted enforcement and prosecution activity whilst ensuring those in receipt of care are not placed at risk. Further details will be published in due course.

Forensic Science Service: Chorley

Mr. Hoyle: To ask the Secretary of State for the Home Department what area and population the Forensic Science Service laboratories at Chorley cover. [220588]

Meg Hillier: Forensic Science Service Ltd.'s ("FSS") Chorley laboratory is one of the FSS' regional operational facilities, contributing to the FSS' delivery of forensic science services to the police forces of England and Wales and other law enforcement authorities. The FSS does not hold any data relating to the general population statistics for the Chorley region.

Mr. Hoyle: To ask the Secretary of State for the Home Department how much funding will be allocated to the Forensic Science Service laboratories in Chorley in each of the next five years; and if she will make a statement. [220589]

Meg Hillier: The Forensic Science Service is now a Companies Act limited company. This is a managerial decision and the responsibility of the board of the company.

Genetics: Cross Border Co-operation

Mr. Grieve: To ask the Secretary of State for the Home Department pursuant to the answer of 4 June 2008, *Official Report*, column 998W, on genetics: cross border co-operation, how the estimated implementation cost of £31 million breaks down between budget headings. [219494]

Jacqui Smith: The Prüm Implementing Agreement and Technical Annex were formally adopted on 23 June under the Slovenian presidency. A high level meeting with stakeholders across Whitehall met on 4 July to discuss UK implementation of the Prüm Council Decision pending publication. One of the actions arising was the commissioning of a detailed scoping study to identify solutions which will help establish a breakdown of costs.

Genetics: Databases

Grant Shapps: To ask the Secretary of State for the Home Department how many DNA samples on the DNA database are from children currently under the age of 18 years who have not been charged or cautioned with an offence. [198643]

Meg Hillier: Data on young persons aged under 18 were obtained from the National DNA Database (NDNAD) and the Police National Computer (PNC) on 9-10 April 2008. The NDNAD data indicate that, on 10 April 2008, there were 349,934 subject sample profiles relating to persons aged 10 to 17 on it. There are more profiles than individuals due to DNA samples being taken from some individuals on more than one occasion, that is, there is some duplicate sampling. It is estimated that the current rate of profile replication is about 13.3 per cent. Taking the replication rate into account, it is estimated that the 349,934 profiles are equivalent to 303,393 persons aged 10 to 17.

Data obtained from the PNC on 9-10 April indicate that, of those estimated 303,393 persons, 264,297 (87.1 per cent.) had a conviction, caution, reprimand or had received a final warning and 39,095 (12.8 per cent.) had not been convicted, cautioned, received a final warning/ reprimand and had no charge pending against them.

Mr. Ruffley: To ask the Secretary of State for the Home Department how many individuals in each police force area have records on the national DNA database. [200243]

Meg Hillier: The information requested is given in the table. The figures show the number of subject sample profiles retained on the National DNA Database (NDNAD) at 31 March 2008, which were taken by police forces in England and Wales. The number of subject profiles is not the same as the number of individuals. It is currently estimated that 13.3 per cent. of profiles held on the NDNAD are replicates, that is, that a profile for a person has been loaded on more than one occasion. The replication rate of 13.3 per cent. should, however, be applied only over the entire NDNAD, as the replication rate for individual police forces varies considerably. The table gives the number of subject profiles for each police force only, but gives a total estimated number of individuals for all English and Welsh police forces.

Force	*Subject profiles*
Avon and Somerset	101,352
Bedfordshire	45,460
British Transport	45,455

West Yorkshire	215,675
Wiltshire	49,310
Total	4,748,227
Estimated number of individuals	4,126,642

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department what the cost of maintaining the national DNA database has been in each year since its inception; and what it is estimated to be in 2008-09. [202013]

Meg Hillier: The National DNA Database (NDNAD) was established in 1995, when responsibility for the operational management of the NDNAD rested with the Forensic Science Service (FSS) on behalf of the Police Service. No central records of costs relating to the maintenance of the NDNAD are held prior to 2002, as cost data were incorporated in other costs incurred by the FSS.

In December 2005, the FSS was vested as a Government owned company and the NDNAD transferred from the FSS to the Home Office. On 1 April 2007, the NDNAD transferred from the Home Office to the National Policing Improvement Agency.

The costs relating to the maintenance of the NDNAD from 2002-08 and the estimated cost for 2008-09 are given in the following tables. The costs from 2006-07 are higher than for previous years, because of the complete separation of costs from the FSS, and because the increase in the number of forensic suppliers requires additional resources for accreditation and continuous monitoring.

Table 1

£

	2002-03	*2003-04*	*2004-05*	*2005-06*
NDNAD Services costs	774,304	904,385	1,276,823	1,245,151
Supplier Accreditation costs	320,507	388,047	433,828	459,192
Total	1,094,811	1,292,432	1,710,651	1,704,343

Table 2

£

	2006-07	2007-08	2008-09[1]
NDNAD Service delivery including delivery of IT Development projects	2,041,743	1,600,087	1,770,000
Custodian Accreditation	527,677	574,817	750,000
Total	2,569,420	2,174,904	2,520,000

[1] Estimate.

Hezbollah

Mr. Grieve: To ask the Secretary of State for the Home Department with reference to the proposed proscription of the military wing at Hezbollah, including the Jihad Council and all units reporting to it, including the Hezbollah External Security Organisation, which elements proposed for proscription are not covered by the existing proscription; and what assessment she has carried out of the differences between the level of threat under *(a)* the existing and *(b)* the proposed proscriptions. [219388]

Jacqui Smith: The Hezbollah External Security Organisation, a unit of Hezbollah's military wing, was proscribed as a terrorist organisation in the UK in February 2001 because of its involvement in terrorism outside of Lebanon. No other part of Hezbollah was proscribed at that time.

We now have evidence that further parts of the military wing are directly concerned in terrorism, including providing support for Shia militant groups in Iraq who have been responsible for attacks both on Iraqi civilians and coalition forces, and for Palestinian rejectionist groups in the Occupied Palestinian Territories including Hamas and Palestinian Islamic Jihad.

The Terrorism Act 2000 (Proscribed Organisations) (Amendment) (No. 2) Order 2008 therefore proscribes the entirety of Hezbollah's military wing in addition to the External Security Organisation.

Human Trafficking: Arrests

Mr. Steen: To ask the Secretary of State for the Home Department how many people of each nationality were arrested during Operation Pentameter II. [217972]

Mr. Coaker: The verification of the details of those arrested under Operation Pentameter 2 is being taken forward by the United Kingdom Human Trafficking Centre as part of its analysis of the operation.

Hunting Act 2004

Mr. MacDougall: To ask the Secretary of State for the Home Department what training on the provisions of the Hunting Act 2004 the police receive. [220795]

Mr. Coaker *[holding answer 21 July 2008]:* Training given to police officers on the provisions of the Hunting Act is an operational matter for Chief Officers. The police have made it clear that they will enforce the hunting ban and the Association of Chief Police Officers (ACPO) issued guidance for police forces on the practical aspects of enforcing the Hunting Act in 2005. ACPO are currently doing further work to draw out and disseminate best practice on enforcement of the Hunting Act across the police service ahead of the start of the next hunting season.

Identity Cards

Damian Green: To ask the Secretary of State for the Home Department how many consultation meetings the Parliamentary Under-Secretary of State for Identity has held on identity cards in the last six months; whether *(a)* these meetings were open to the public and *(b)* minutes were taken; where these events took place; where future meetings are planned to take place; which organisations and individuals attended each meeting; what form and agenda the meetings took; and what the cost to the public purse has been of this exercise. [203921]

Meg Hillier: Over the past six months I have hosted 11 events throughout United Kingdom, including London, Wales and Scotland. These events were held with key stakeholders representing the public, private and third sectors. The meetings were not open to the general public.

The format includes a presentation about the National Identity Scheme and a question and answer session with the stakeholders. Stakeholders are then invited to comment on the consultation points in the plan on the day or in writing at a later point. Officials note key points made and will publish a summary report of feedback in the autumn of 2008.

In line with the Data Protection Act, I cannot share the names of organisations or the individuals who attended each event. With consent from stakeholders, we will list organisations and individuals who attended the event in the published response.

To date, the total cost is £32,750 which includes venues, audio visual equipment and refreshments.

The schedule of future consultation events has yet to be finalised.

Identity Cards: Finance

Lynne Jones: To ask the Secretary of State for the Home Department for what reasons the funding allocation to projects common to both the identity card and the passport elements of the identity card scheme rose from £63 million in the November 2007 cost report to £275 million in the May 2008 cost report; and what percentage of the cost of the identity card scheme is associated with the minimum necessary upgrade for introducing biometric passports. [219769]

Meg Hillier: The Cost Report has set out those elements of the cost estimates that relate specifically to passports, those cost estimates specific to identity cards, and those cost estimates that are common to both. The cost of registering individuals for passports and ID cards is included in common costs because the same technology infrastructure and business processes will be used. In many cases, the same application will result in the issue of both a passport and an ID card.

The May 2008 Cost Report is based upon the roll-out and phasing of the 2008 Delivery Plan, whereas the November 2007 Cost Report is based upon the 2006 Strategic Action Plan. Therefore, the two reports are not directly comparable.

The estimated common costs are based upon a scale of operation that is delivering volumes of passports and identity cards. It would involve significant nugatory effort to define a split between these costs and it would be a largely theoretical exercise as current plans are for an integrated infrastructure. As such, it is not possible to identify the percentage of the cost of the identity card scheme that are associated with the minimum necessary upgrade for introducing biometric passports.

Identity Cards: Foreigners

Chris Huhne: To ask the Secretary of State for the Home Department (1) how many identity cards she estimates will be issued to foreign nationals in the first 12 months after their introduction; [217375]

(2) how many identity cards she estimates will be issued to foreign nationals in the first 12 months of the scheme's operation, broken down by type of visa giving entry to the UK. [217809]

Jacqui Smith: We expect to issue around 50,000 cards from November 2008 to April 2009 but this depends on volumes applying within the selected categories. Volumes will rise rapidly thereafter and will depend on the speed of implementation and the nature of the immigration categories brought into the scheme.

The issuing of cards is not correlated with the types of visas issued; this is because foreign nationals may be granted leave to remain in another category to their grant of entry.

Illegal Immigrants

Damian Green: To ask the Secretary of State for the Home Department pursuant to the oral answer of 21 April 2008, *Official Report*, column 1040, which constabularies have immigration crime partnerships; and what funding her Department has made available for them. [202572]

Mr. Byrne: The following constabularies have partnership agreements in place with UKBA (85 per cent.):

Strathclyde, Grampian, Lothian and Borders, Dumfries and Galloway, Police Service of Northern Ireland, Greater Manchester Police, Cheshire, Lancashire, Gwent, South Wales, Dyfed Powys, North Wales, Avon and Somerset, Devon and Cornwall, Dorset, Cleveland, Durham, Humberside, North Yorkshire, Northumbria, South Yorkshire, West Yorkshire, West Midlands, Warwickshire, Staffordshire, West Mercia, Cambridgeshire, Essex, Suffolk, Norfolk, Derbyshire, Leicestershire, Northamptonshire Nottinghamshire, Lincolnshire, Metropolitan, Surrey, Sussex, Kent, Thames Valley Hampshire.

It is intended that, by the end of 2008, all regions in England, Wales and Northern Ireland will have Immigration Crime Teams (ICT) in operation. It is also anticipated that Scottish police forces will also have a fully developed ICT in operation by the end of the year. UKBA has allocated £18 million to fund the partnership with the police service.

Illegal Immigrants: Employment

Damian Green: To ask the Secretary of State for the Home Department how many on-the-spot fines have been imposed on employers using illegal immigrant labour since February. [199847]

Mr. Byrne: Since the introduction of the new legislation on 29 February 2008, the United Kingdom Border Agency had served 221 Notifications of Liability for a Civil Penalty on employers of illegal migrant workers. This figure represents all Notifications served as of 6 June 2008.

This information is derived from provisional local management information which may be subject to change.

Imitation Guns

Rosie Cooper: To ask the Secretary of State for the Home Department what steps her Department is taking to reduce the availability and use of replica firearms. [221674]

Mr. Coaker: The Government recognise the importance of reducing the availability and use of replica firearms. That is why the Violent Crime Reduction Act 2006, which came into force during 2007, banned the sale, importation and manufacture of realistic imitation firearms.

We set up the Tackling Gangs Action Programme (TGAP) in September 2007 to tackle gangs in the four cities most affected by gun crime (Birmingham, Liverpool, London and Manchester). A TGAP day of action on 17 November 2007 resulted in the seizure of over 1,000 imitation firearms. In addition, 10 real firearms were seized and 124 arrests made. We are building on the work of the TGAP and continue to work with partners to further reduce the supply of firearms.

Immigration

Mrs. Maria Miller: To ask the Secretary of State for the Home Department how many times passenger queues at Heathrow Airport incoming immigration security checks have exceeded the designated maximum 10 minute waiting period in the last 12 months; and if she will make a statement. [182042]

Mr. Byrne: The UK Border Agency recognises that it has a responsibility to process genuine passengers without delay but the safety and security of the public remains a priority.

There are arrangements in place at most ports to benchmark performance. Heathrow Airport is among those airports that are currently using a 45 minutes (non-EEA) and 25 minutes (EEA) queuing time as such a benchmark. This is the maximum wait time in which we aim to process passengers and in turn informs staff deployment as well as informing considerations on further investment.

We are clear that the averages are well within these benchmarks but we will continue to work on reducing the occasions where those figures are exceeded.

Queuing times at London Heathrow from August 2007 until 11 July 2008

Non-EEA	*Minutes/Percentage*
Average queue length	12 minutes
Per cent. over benchmark	2 per cent.—160 out of 6,658 measures
EEA	
Average queue length	5 minutes
Per cent. over benchmark	<1 per cent.—43 out of 5,977 measures

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department how many representations she has received on the proposed withdrawal of the patrial concession which allows non-UK citizens to stay and work here if a parent or grandparent was born in the UK; and if she will make a statement. [217110]

Mr. Byrne: We published the Green Paper 'The Path to Citizenship: next steps in reforming the immigration system' in February in which we asked for public views on whether the UK Ancestry route should be retained. We received 529 responses to this individual proposal.

The consultation period ended on 14 May and we published the Government's response document on 14 July. Having carefully considered this proposal we believe it is right to retain a route to citizenship based on UK Ancestry.

Tony Baldry: To ask the Secretary of State for the Home Department when she expects a decision to be made on the immigration status of Mr Rajwant Karr (Ref 1583563). [220123]

Mr. Byrne: A decision on Mr. Karr's application for an entry clearance was made on 6 June.

Our high commission in New Delhi, which had referred the application to the UK for advice, were informed the same day. The decision was resent to the high commission on 21 July when it was realised that it had not been received originally.

Immigration Controls

Mr. Hancock: To ask the Secretary of State for the Home Department if she will liaise with the Secretary of State for Innovation, Universities and Skills to ensure that data stored by higher education institutions is compliant with, and accessible by, those operating the UK Border Agency database on introduction of Tier 4 of the new immigration system. [218153]

Mr. Byrne: The points-based system (PBS) requires all sponsors, including higher education institutions, to keep accurate, up-to-date and comprehensive data on the migrants they are sponsoring. To help sponsors meet this requirement, UK Border Agency (UKBA) is committed to working with key stakeholders to develop suitable IT and data capture arrangements.

We will involve representative higher education institutions and others in the elaboration of our IT requirements with our chosen supplier. This will ensure that the sector's existing systems and the exchange of data will be compatible with those of the UKBA.

Immigration Controls: Business

Damian Green: To ask the Secretary of State for the Home Department how many businesses had applied for licences to sponsor foreign migrants under the points-based system by 30 June 2008. [218892]

Mr. Byrne: The number of businesses which have applied for licences to sponsor foreign migrants under the points-based system is 210. This figure is rounded to the nearest five.

The figures quoted are not provided under National Statistics protocols and have been derived from local management information and are therefore provisional and subject to change.

Immigration Officers

Damian Green: To ask the Secretary of State for the Home Department how many assaults on immigration officers have occurred in the course of their duties in each year since 1997. [218890]

Mr. Byrne: The figures for the number of immigration officers who have been assaulted while on duty for the last five calendar years and 2008 are shown in the following table. The following data have been obtained from the UKBA Accident Reporting Database which records all accidents and other health and other safety related incidents.

	Physical assaults	*Verbal abuse*
2003	10	45
2004	19	112
2005	12	134
2006	8	82
2007	8	108
2008	20	18

Figures for 2003-07 have been provided previously in response to PQ 193127 which is given above but additionally includes figures from 1 January 2008 to 30 June 2008.

Damian Green: To ask the Secretary of State for the Home Department how many immigration officers were assaulted while on duty in each of the last five years. [193127]

Mr. Byrne: The figures for the number of immigration officers who have been assaulted while on duty for the last five calendar years are shown in the following table. The data have been obtained from the BIA Accident Reporting Database which records all accidents and other health and other safety related incidents.

	Physical assaults	*Verbal abuse*
2003	10	45
2004	19	112
2005	12	134
2006	8	82
2007	8	108

Immigration: Detainees

Alistair Burt: To ask the Secretary of State for the Home Department how much was spent, including on legal fees and compensation, in connection with the recent settlement of the case of the detainee who suffered a mental breakdown while at Yarl's Wood Detention and Removal Centre during 2005, the subject of previous correspondence with the hon. Member for North East Bedfordshire. [213662]

Mr. Byrne: I wrote to the hon. Member on 18 July 2008.

Immigration: Manpower

Mr. Clappison: To ask the Secretary of State for the Home Department how many *(a)* prosecutions and *(b)* convictions there were for employing a person aged 16 years and above subject to immigration control contrary to sections (8) and (6) of the Asylum and Immigration Control in each quarter since 1 January 2002. [177371]

Mr. Byrne: The latest information on persons proceeded against and found guilty of offences under Immigration Acts in England and Wales in each year from 2003 to 2007 will be available from Table 6.7 of the Control of Immigration: Statistics United Kingdom 2007 publication on 21 August 2008; information for 2006 and 2007 will be provisional. Information relating to 2002 has been published in Table 7.5 of the Control of Immigration: Statistics United Kingdom 2002 publication.

Copies of the 2002 publication are available from the Library of the House and from the Home Office Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html.

Copies of the 2007 publication will be available from 21 August 2008.

The UK Border Agency have implemented measures contained in the Immigration, Asylum and Nationality Act 2006 to tackle illegal migrant working, which provide a wider and more effective range of tools with which to tackle non-compliance. The 2006 Act introduced a system of civil penalties for employers who employ illegal migrants through less than diligent practices, alongside a tough new offence for those who knowingly employ illegal migrants, which will carry a maximum two year prison sentence and/or an unlimited fine. These new measures came into force on 29 February 2008.

Immigration: Skilled Workers

Mr. Clappison: To ask the Secretary of State for the Home Department what estimate she has made of the number of migrants on the highly skilled migrant programme given the right to remain in the UK following the High Court decision of 8 April 2008; how many migrants were subject to the points requirements dealt with in that decision; how many of them had had their cases considered; how many failed the requirement; and if she will give a breakdown by nationality of *(a)* those subject to the requirement, *(b)* those whose cases have already been considered and *(c)* those who have failed. [201157]

Mr. Byrne *[holding answer 24 April 2008]:* We estimate that the judgment will affect some 1,300 people.

Immigration: Tribunals

Damian Green: To ask the Secretary of State for the Home Department how many presenting officers for asylum and immigration tribunal cases were employed by her Department on 1st April 2008. [209078]

Mr. Byrne: On 1 April 2008 the Home Department employed the full-time equivalent of 271.5 presenting officers for Asylum and Immigration Tribunal cases.

Independent Police Complaints Commission: Complaints

Mrs. Maria Miller: To ask the Secretary of State for the Home Department which body handles complaints against the Independent Police Complaints Commission. [221380]

Mr. McNulty: The Independent Police Complaints Commission (IPCC) is an independent body. All complaints against the IPCC are initially managed internally. Any further complaint or challenge to a decision must be made through a court of law.

Members: Correspondence

Mr. Wilshire: To ask the Secretary of State for the Home Department when the Minister of State will reply to the hon. Member for Spelthorne's letter of 13 May 2008, on the planning application to convert 203-211 London Road, Staines into an administration and interview centre for the UK Border Agency. [216818]

Mr. Byrne: I wrote to the hon. Member on 23 July 2008.

Clare Short: To ask the Secretary of State for the Home Department when she plans to reply to the letter of 22 May 2008 from the hon. Member for Birmingham, Ladywood, regarding Amadou Wuri Jallow, Home Office reference J1162190, acknowledgement reference B18399/8. [221671]

Mr. Byrne: The UK Border Agency wrote to my right hon. Friend on 21 July 2008.

Metropolitan Police: Forensic Science

Susan Kramer: To ask the Secretary of State for the Home Department what assessment she has made of the future role of forensic medical examiners in the Metropolitan Police; and if she will make a statement. [219373]

Mr. McNulty: The future role of forensic medical examiners in the Metropolitan Police is a matter for the Commissioner of Police of the Metropolis.

National Identity Scheme Commissioner: Finance

Lynne Jones: To ask the Secretary of State for the Home Department what the budget for the Office of the National Identity Scheme Commissioner will be in each of the first three years of its operation. [219767]

Meg Hillier: The National Identity Scheme Commissioner, a key independent role established under the Identity Cards Act 2006, will provide oversight of the operations of those parts of the scheme defined in the Act and will report at least annually on his or her findings.

The precise definition of the role of his or her office is still being finalised and, as a result, the budget has yet to be finalised.

Offences Against Children: Internet

Margaret Moran: To ask the Secretary of State for the Home Department what assessment she has made of the trends in the number of prosecutions for possession of child abuse images arising from *(a)* websites and *(b)* peer to peer networks. [218821]

Mr. Coaker: The number of prosecutions for possession of child abuse images does not indicate the method used to obtain those images.

However the Child Exploitation Online Protection Centre (CEOP) have observed that in the past year the use of peer to peer networks by offenders to share and distribute images of child abuse has increased. Other more "traditional" methods of obtaining such images, including downloading from websites, are still continued to be used by offenders.

The Government are committed to the removal of all images containing child abuse images from the internet. We work closely with CEOP, the Internet Watch Foundation (IWF) and industry in order to achieve this.

Offenders: Deportation

Mr. Clappison: To ask the Secretary of State for the Home Department how many foreign offenders who received a community sentence were *(a)* deported and *(b)* subject to administrative removal in each of the last five years. [181847]

Mr. Byrne: The information requested can be obtained only through the detailed examination of individual casefiles at disproportionate cost. The chief executive of the UK Border Agency advised the Home Affairs Committee during her appearance of 15 January that, in most cases involving community sentences, the Agency would look to use administrative removal as the method of expulsion rather than deportation.

Offensive Weapons

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what steps the Government plans to take to assist local communities to reduce knife crime. [220627]

Mr. Coaker *[holding answer 21 July 2008]:* The Government take the problem of knife crime seriously and we are using a variety of measures encompassing legislation, enforcement, education and prevention to address it.

The Home Secretary announced on 13 July tough measures to deal with those involved in knife crime through greater police enforcement, targeted action and earlier intervention and support for parents. These new measures complement the Government's launch of the new £100 million Youth Crime Action Plan. The clampdown on knives reflects a triple-track approach of tough enforcement, intensive support and better prevention.

The Tackling Knives Action Programme is a targeted approach to addressing knife crime in specific areas: Metropolitan Police Service, West Midlands police, Greater Manchester police, Merseyside police, Lancashire police, Essex police, West Yorkshire, Thames Valley police, Nottinghamshire police and South Wales police. The programme will build upon the Tackling Gangs Action Programme that helped deliver a 50 per cent. reduction in gun injuries in hotspot areas in four areas across the country. The Government have asked Deputy Assistant Commissioner Alf Hitchcock, the ACPO lead on knives, to take on the role of head of the Tackling Knives Action Programme alongside his existing role as Deputy Assistant Commissioner of the Metropolitan Police.

This programme will include youth forums to encourage young people to stay on the right track in the first place; knife referral projects to ensure that people convicted of carrying a knife are confronted with the dangers of carrying knives; support for parents who are concerned about their children carrying knives by encouraging them to call parenting organisations such as 'Parentline Plus' to receive confidential advice; encouraging local authorities to provide Safer School Partnership officers to any school that needs one; Trading Standards prioritising test purchasing for the underage sales of knives; working with the Department of Health and local health partners to see what more we can do on knife crime in hotspot areas and supporting licensing authorities to crack down heavily on any establishment that allows underage drinking.

Mr. Clappison: To ask the Secretary of State for the Home Department how many offences of *(a)* possessing a bladed article, *(b)* possessing an offensive weapon, *(c)* robbery involving the use of a knife, *(d)* wounding with intent involving the use of a knife, *(e)* causing grievous bodily harm involving the use of a knife, *(f)* attempted murder involving the use of a knife and *(g)* homicide involving use of a knife were committed per 100,000 people in each (i) London borough and (ii) police force area in England and Wales in each year since 1997. [221204]

Mr. Coaker *[holding answer 22 July 2008]:* Information on *(a)* possessing a bladed article has not previously been available centrally. From April 2008, police forces have been using a new classification for possession of article with blade or point. Figures for 2008-09 are due to be published in July 2009. The *(b)* possession of offensive weapons can be recorded by the police in more than one offence category, so definitive figures cannot be given. Ministry of Justice collates figures for convictions of knife possession.

Statistics on certain serious violent offences involving the use of a knife or sharp instrument have been collected since April 2007. Figures are available for 2007-08. These offences include *(c)* robbery, *(d)* wounding with intent to do GBH, *(e)* wounding or inflicting GBH (i.e. without intent) and *(f)* attempted murder. These figures are at the police force area level.

Homicide data using a knife or sharp instrument are given in the following table. Figures are shown as per million population due to the low figures reported. The latest available figures are for 2006-07. Data for 2007-08 are scheduled for publication in January 2009.

Table 1: Sharp instrument offences per 100,000 population in each police force area for selected offences for 2007-08

Police force area	*Attempted murder*	*Wounding with intent to do GBH*	*Wounding or inflicting GBH*	*Robbery of personal property*
Avon and Somerset	0.19	5.45	1.73	14.61
Bedfordshire	0.68	11.34	2.37	33.69

Wiltshire	3.4	[2]—	1.7	[2]—	4.9	3.3	3.2	4.8	1.6	1.6
England and Wales	3.9	3.8	4.1	4.0	4.9	5.1	4.6	4.9	4.1	4.9

[1] Homicides currently recorded by the police, as at 12 November 2007, excluding cases where all suspects were acquitted or convicted of lesser offences by that date. The England and Wales totals are as published by the Home Office in January 2008 in 'Homicides, Firearm Offences and Intimate Violence 2006-07'. Figures are subject to revision as cases are dealt with by the police and by the courts, or as further information becomes available. Figures for 2007-08 will be published in January 2009.

[2] No sharp instrument homicides for given year.

[3] Metropolitan and City of London have been merged. The low resident population in the City of London means that per population rates are not useful for comparison purposes.

Offensive Weapons: Amnesties

Mr. Ruffley: To ask the Secretary of State for the Home Department how many knives have been recovered in knife amnesty initiatives in *(a)* England and Wales and *(b)* each police force area in each of the last five years. [219158]

Mr. Coaker: The Home Office does not collect centrally information on knife amnesty initiatives led by local police forces.

A national knife amnesty, which ran from 24 May 2006 to 30 June 2006, encouraged people to dispose of knives and other weapons in secure bins at police stations throughout England and Wales. A total of 89,964 knives were handed over during the programme, according to figures compiled by forces in England and Wales. A table of returns from each force follows.

Knife amnesty—total items surrendered 24 May-30 June 2006

Force	Domestic	Non Dom	Weapons	Of interest	Total
Avon Somerset	1,510	634	129	69	2,342

Total[3]	52,222	16,595	9,148	1,658	89,864

[1] MPS has supplied a total figure only.

[2] Breakdown figures for Norfolk relate to items surrendered in first week only.

[3] Breakdown figures do not equal final total due to footnote 2.

Offensive Weapons: Convictions

Mr. Clappison: To ask the Secretary of State for the Home Department how many *(a)* persons and *(b)* persons aged under 18 years have been convicted of an offence of possessing an offensive weapon in the form of a knife or bladed instrument since 1 April 2007; and how many have (i) received a custodial sentence and (ii) received a custodial sentence of two years or more, broken down by region. [219638]

Mr. Coaker *[holding answer 17 July 2008]:* Court proceedings data for 2007 will be available in autumn 2008.

Offensive Weapons: Crime Prevention

Sarah Teather: To ask the Secretary of State for the Home Department how many people have passed through search arches erected under Operation Blunt in each month since the scheme was initiated. [219385]

Mr. Coaker: To date no data are available on the numbers of people passing through such arches but monitoring of numbers, age and ethnicity is in place and data will be released at a later stage.

Sarah Teather: To ask the Secretary of State for the Home Department how many people have been found to be carrying a knife through the use of search arches under Operation Blunt in each month since the scheme became operational, broken down by *(a)* age, *(b)* gender and *(c)* ethnic background. [219386]

Mr. Coaker: These data are not currently available in relation to search arches.

Search arches have been deployed as part of search operations for a number of years in London. Since late 2006, this technology has been used more extensively as part of public place search operations, often in relation to the public transport system. From 13 May 2008, search operations involving the use of screening arches have been increased under Operation Blunt 2. To date no data are available about the numbers of people passing through such arches but monitoring of numbers, age and ethnicity is in place and data will be released at a later stage.

Sarah Teather: To ask the Secretary of State for the Home Department how many search arches have been erected in *(a)* schools, *(b)* colleges, *(c)* shopping centres, *(d)* transport hubs and *(e)* other locations under Operation Blunt in each month since the scheme was initiated; and how many knives have been discovered at each search point. [219387]

Mr. Coaker: Search arches have been deployed on some 305 occasions in London since the commencement of Operation Blunt 2 on 13 May 2008. Further data relating to the precise location of deployment are not available.

Offensive Weapons: North Yorkshire

Miss McIntosh: To ask the Secretary of State for the Home Department how many knife crimes were reported in North Yorkshire in each of the last five years for which figures are available. [219508]

Mr. Coaker: It is not possible to identify those offences that are knife-related from the data centrally collected on overall recorded crime. However, since April 2007, police forces have been providing separate aggregate data on serious violence (attempted murder, GBH and robbery) involving knives and sharp instruments. North Yorkshire police recorded 66 such offences during 2007-08.

Available data from the Homicide Index relate to offences currently recorded as homicide where the apparent method of killing was 'sharp instrument', as at 12 November 2007. The number of such offences recorded by North Yorkshire police each year between 2002-03 and 2006-07 is given in the following table. Figures for 2007-08 are scheduled to be published in January 2009.

Offences currently[1] recorded as homicide where apparent method of killing is sharp instrument[2]: North Yorkshire police, 2002-03 to 2006-07[3, 4]

Year offence initially recorded[3]	*Number*
2002-03	0
2003-04	1
2004-05	3
2005-06	2
2006-07	0

[1] As at 12 November 2007; figures are subject to revision as cases are dealt with by the police and by the courts, or as further information becomes available.
[2] Homicides involving any sharp instrument, including knives.
[3] Offences are shown according to the year in which the police initially recorded the offence as homicide. This is not necessarily the year in which the incident took place or the year in which any court decision was made.
[4] Data for 2007-08 are not yet published.

Offensive Weapons: Sales

Anne Main: To ask the Secretary of State for the Home Department (1) what recent representations she has received on the feasibility of restricting or controlling the sale of knives; and if she will make a statement; [221414]

(2) what plans her Department has for consultations on the restriction or control of the sale of knives; and if she will make a statement. [221437]

Mr. Coaker: The Government are committed to working with and listening to the representations from the public, community groups and law enforcement partners to tackle knife crime. The Government have taken measures to restrict and control the sale of knives. In the Violent Crime Reduction Act 2006 the Government made it illegal to sell knives to anyone under 18, and in April 2006, following a public consultation on offensive weapons, samurai swords were added to the 18 items on the Offensive Weapons Order which it is illegal to sell, hire, manufacture or import.

The Government will continue to keep all legislation on the sale of knives under constant review.

Offensive Weapons: Schools

Michael Gove: To ask the Secretary of State for the Home Department how many incidents involving a bladed weapon or firearm have been reported in schools in each of the last 10 years. [219567]

Mr. Coaker: The information requested is not collected centrally. The Home Office is responsible for the recorded crime statistics which includes data on the number of knife and sharp instrument offences recorded by the police for selected offences (since April 2007) and the numbers of firearms offences (excluding air weapons) since 1970. However, it is not possible to separately identify from these data whether an offence took place in a school.

Offensive Weapons: Sentencing

Mr. Clappison: To ask the Secretary of State for the Home Department how many persons convicted of an offence of possessing a knife were dealt with by way of

(a) a discharge, *(b)* a fine, *(c)* a community sentence, *(d)* a custodial sentence, *(e)* a custodial sentence of six months or more and *(f)* a custodial sentence of 12 months or more in (i) each of the last 10 years and (ii) each quarter in the last three years for which figures are available. [216725]

Mr. Coaker: The figures requested are set out in the following table.

Persons sentenced[1] for possession of a knife[2] 1996-2006

	Discharged	*Fine*	*Community sentence*	*Fully suspended sentence*	*Immediate custody*	*Otherwise dealt with*	*Total Sentenced*	*Custodial Sentence six months or more[3]*	*Custodial Sentence 12 months or more*
1997	992	1,181	759	9	375	44	3,360	34	17
1998	1,084	1,187	925	16	550	42	3,804	67	19
1999	958	1,032	970	7	536	61	3,564	48	11
2000	912	996	1,080	14	506	54	3,562	69	27
2001	1,030	1,164	1,509	8	592	61	4,364	82	24
2002	1,166	1,356	1,954	14	773	63	5,326	114	27
2003	1,237	1,289	2,033	16	761	63	5,399	136	46
2004	1,281	1,148	2,565	21	815	78	5,908	147	44
Quarter 1	324	313	580	5	208	19	1,449	44	15
Quarter 2	330	293	635	2	174	23	1,457	36	12
Quarter 3	327	285	625	7	206	17	1,467	31	10
Quarter 4	300	257	725	7	227	19	1,535	36	7
2005	1,050	953	2,832	113	970	84	6,002	136	35
Quarter 1	264	256	722	7	228	22	1,499	36	6
Quarter 2	261	237	714	15	256	24	1,507	39	16
Quarter 3	272	244	702	34	239	21	1,512	33	6
Quarter 4	253	216	694	57	247	17	1,484	28	7
2006	907	691	3,007	552	1,075	102	6,334	193	43
Quarter 1	286	220	751	90	275	23	1,645	54	9
Quarter 2	225	166	779	116	273	25	1,584	49	12
Quarter 3	198	150	754	175	289	22	1,588	51	11
Quarter 4	198	155	723	171	238	32	1,517	39	11

[1] Principal offence
[2] Possession of a knife in a public place, and possession of a knife in a school
[3] These figures include those persons sentenced for 12 months or more

Mr. Clappison: To ask the Secretary of State for the Home Department pursuant to the Oral answer of 14 July 2008, *Official Report*, columns 1-2, on sentencing guidelines, what the evidential basis was for her statement that someone is now three times more likely to end up in custody for possession of a knife. [220637]

Mr. Coaker *[holding answer 21 July 2008]:* Figures show that in 1996, of 890 offenders sentenced for having an article with a blade or point in a public place, 56 received an immediate custodial sentence, comprising 6.3 per cent. In 2006, of 6,284 offenders sentenced, 1,070 received an immediate custodial sentence (17.0 per cent.): almost achieving a three-fold increase compared to 1996 figures.

Offensive Weapons: Young People

David Howarth: To ask the Secretary of State for the Home Department what account she took of academic research into the effects of Scared Straight programmes in formulating her policy that young people at risk of involvement in knife crime should visit convicted offenders in prison; what research papers on the subject her Department has evaluated; and if she will make a statement. [219780]

Mr. Coaker *[holding answer 17 July 2008]:* The Government announced on 13 July new measures to tackle knife crime. Anyone under 16 years old convicted of possessing, but not using a knife, can expect to receive a warning coupled with referral to a knife education scheme to help them understand the dangers and consequences of carrying knives, and to reduce the chances of re-offending. These schemes for young people will make them understand the full consequences of their actions and will include weapons awareness sessions which provide detailed information on the risks and consequences of carrying knives; it may also include discussions with healthcare professionals and victims' organisations and offenders so that young people understand the full impact of carrying a knife and where it may lead.

The Government are aware of research on the impact of programmes such as Scared Straight. We have made it clear that meetings with offenders form part of this wider programme.

The Government are aware of research evidence on such programmes. This is based on a systematic review published by the Campbell Collaboration, by A. Petrosino, C. Turpin-Petrosino and J. Buehler (2003): "Scared Straight" and other juvenile awareness programmes for preventing juvenile delinquency. However, no UK evaluations were included in the Review.

Office of Surveillance Commissioners

Mr. Pickles: To ask the Secretary of State for the Home Department (1) what guidance *(a)* her Department and *(b)* the Office of the Surveillance Commissioner has provided to local authorities on

publishing inspection reports of the Office of the Surveillance Commissioner; [221256]

(2) if she will ensure that inspection reports of local authorities produced by the Office of the Surveillance Commissioner are published online. [221257]

Mr. McNulty: Statutory responsibility for the oversight of covert surveillance lies with the Office of Surveillance Commissioners (OSC) which is independent of Government. The question of online or any other publishing of OSC inspection reports for individual public authorities is a matter for the chief surveillance commissioner. The Home Office has not issued any guidance on this matter.

Organised Crime: Eastern Europe

Mr. Grieve: To ask the Secretary of State for the Home Department what estimate her Department has made of the number of organised crime gangs from *(a)* Poland, *(b)* Romania and *(c)* Bulgaria operating in England and Wales; what estimate she has made of the volume of criminal activity related to such gangs; and if she will make a statement. [219419]

Jacqui Smith: I would refer the hon. Member to the answer I gave on 10 June 2008, *Official Report*, columns 197-98W, to the hon. Member for Haltemprice and Howden (David Davis).

Passports: Newport Gwent

Hywel Williams: To ask the Secretary of State for the Home Department what percentage of Post Office deliveries have been diverted to other passport offices from the Newport office since January 2008. [220607]

Meg Hillier: As we do not hold that level of data on work transfers, we are unable to provide the percentage of Post Office deliveries that have been diverted to other passport offices from the Newport office.

Hywel Williams: To ask the Secretary of State for the Home Department how many passport requests were received by mail at the Newport passport office *(a)* in the latest year for which figures are available and *(b)* in each of the previous five years. [220609]

Meg Hillier: The postal intake for the Newport passport office (based on each of the financial years).

	Number
2007-08	913,067
2006-07	1,025,485
2005-06	1,140,169
2004-05	1,028,610
2003-04	1,053,958
2002-03	1,036,400

Personation

Matthew Taylor: To ask the Secretary of State for the Home Department what steps her Department plans to take to reduce the incidence of offences related to identity fraud. [221683]

Meg Hillier: We are involved in a variety of activity to reduce the incidence of offences related to identity fraud, including through collaboration with public and private sector organisations.

We have sought to ensure better co-ordination in prosecuting fraudsters. This has involved the establishment of a network of Single Points of Contact in all police forces and a range of Government Departments and agencies dealing with identity fraud investigations and prosecutions.

Legislation has also been strengthened. Tougher criminal penalties have been introduced for driving licence and passport offences, alongside offences in the Identity Cards Act 2006 to target those who possess and use false identity documents and genuine documents belonging to someone else.

More powers to share data to combat fraud have been enacted. Provisions in the Serious Crime Act 2007 allow for the targeted exchange of data between the public and private sector through an antifraud organisation to highlight potentially fraudulent applications for goods and services. Provisions in the Police and Justice Act 2006 allow for the release of information on the recently deceased to the private sector to help prevent those identities from being used by criminals.

We have introduced systems to confirm the validity of UK passports presented to other organisations and interviews for first time passport applicants over 16 years old now take place to verify the identity of individuals.

A leaflet and a website—www.identitytheft.org.uk—help to increase public awareness of the problem. The material advises on how to reduce the risk of becoming a victim of identity fraud, warning signs to look out for, and what someone should do if they do fall victim.

We have signalled our commitment to tackle fraud with the allocation of £29 million in new money over three years to implement the recommendations of the Fraud Review. A new National Fraud Strategic Authority will drive forward a comprehensive strategy for tackling fraud, bringing together the Government, criminal justice practitioners, business and the public. The money will also fund a new national lead force role for the City of London police and a National Fraud Reporting Centre which will equip law enforcement agencies with a powerful intelligence tool and help form the basis of better prevention advice and alerts to fraud threats for business and the public.

Finally, our plans for a National Identity Scheme will provide people with a highly secure means of protecting their identity and help citizens to prove their identities easily, quickly and with vastly improved security.

Photography: Regulation

Bob Spink: To ask the Secretary of State for the Home Department if she will issue guidance to chief constables on the prior notification to the public of implementation of local restrictions on photography; and if she will make a statement. [220701]

Mr. McNulty: No. Police officers have the discretion to ask people not to take photographs for public safety or security reasons but the taking of photographs in a public place is not subject to any rules or statute.

Police Stations: Courts

Mr. Bellingham: To ask the Secretary of State for the Home Department how many police stations have virtual court facilities. [220765]

Mr. McNulty: There are no active virtual court facilities in police stations at present.

At the end of 2008 a project will start to provide virtual courts facilities to 15 pilot police custody units in central and south-east London. If successful, the project will be expanded.

Police: Ethnic Groups

Keith Vaz: To ask the Secretary of State for the Home Department how many police forces in England and Wales are expected to reach their 2008 targets for the number of police officers employed that are from an ethnic minority. [218142]

Mr. McNulty: Around 20 forces are expected to reach their 2009 local targets. A 2008 target has not been set for forces.

Keith Vaz: To ask the Secretary of State for the Home Department what average percentage of applicants for the role of sergeant in police forces was from ethnic minority candidates in the latest period for which figures are available. [218146]

Mr. McNulty: The information requested is not collected centrally.

Applicants to the police service have to start as constables, and then officers achieve the grade of sergeant via promotion.

Keith Vaz: To ask the Secretary of State for the Home Department what steps her Department is taking to ensure that police forces monitor the number of officers from ethnic minority backgrounds in their force. [218147]

Mr. McNulty: As part of the Home Office Annual Data Requirement, police forces are required to record data on the number of officers broken down by ethnicity. Numbers are published annually in the Home Office Statistical bulletin and Home Secretary's Race Equality Employment Targets Report.

Keith Vaz: To ask the Secretary of State for the Home Department what records are kept by police forces in England and Wales on the *(a)* number, *(b)* distribution and *(c)* specialism of ethnic minority police officers; and what procedures are in place to ensure adequate records are kept. [218148]

Mr. McNulty: As part of the Home Office Annual Data Requirement, police forces record data on the number of officers broken down by ethnicity who are predominately involved in a particular function. These specialisms are based on the HMIC function list, which can be down loaded from:

http://police.homeoffice.gov.uk/publications/finance-and-business-planning/FLPdefinition.pdf

Procedures relating to the adequacy of record keeping are an operational matter for individual chief constables and police authorities.

Police: Manpower

Mr. Milburn: To ask the Secretary of State for the Home Department what estimate she has made of the change in police numbers in each basic command unit over *(a)* the last year and *(b)* the last five years. [221124]

Mr. McNulty: The number of police officers in each basic command unit has been centrally collected since 2002-03, and the number of police community support officers has been centrally collected since 2006-07; and this information has been published in the supplementary tables of the annual "Police Service Strength, England and Wales" statistical bulletin.

Previous years supplementary tables are available online from the following links and are in the Library of the House.

31 March 2007

http://www.homeoffice.gov.uk/rds/pdfs07/hosb1307add_tab.xls

31 March 2006

http://www.homeoffice.gov.uk/rds/pdfs06/hosb1306add_tab.xls

31 March 2005

http://www.homeoffice.gov.uk/rds/pdfs05/hosb1205add_tab.xls

31 March 2004

http://www.homeoffice.gov.uk/rds/pdfs04/hosb1304tabs.xls

31 March 2003

http://www.homeoffice.gov.uk/rds/pdfs2/hosb1103tabs.xls

Over the year to 31 March 2007 there was an increase of 369 in the total number of police officers, and over the five years to 31 March 2007 there was an increase of 9,383 officers.

Police: Young People

Mr. Harper: To ask the Secretary of State for the Home Department whether *(a)* police officers and *(b)* youth participation officers are trained in interacting with young people when on the beat. [219326]

Mr. McNulty: The information is as follows:

(a) All police officers undertake training as part of the Initial Police Learning and Development Programme; this includes training relating to interacting appropriately with all members of the community, including young people, for example to establish rapport, and/or to manage conflict. Subsequently, their interactions with members of the public, and appropriate use of police actions, are assessed against National Occupational and Professional Standards.

(b) The Department for Children, Schools and Families and the Ministry of Justice have confirmed that some local authorities have established the post of youth participation officer to oversee the delivery of services for young people in their area. We would expect such professionals, or any other person appointed to work with young people, to have the appropriate range of skills for the post, including the ability to interact effectively with young people.

Ports: Illegal Immigrants

Chris Huhne: To ask the Secretary of State for the Home Department what guidance is given to police apprehending suspected illegal migrants outside of port areas. [220172]

Jacqui Smith *[holding answer 22 July 2008]:* The United Kingdom Border Agency (UKBA) will respond to every police request where they encounter and arrest people who they have confirmed have been smuggled into the UK in lorries and take that person to immigration detention if appropriate. The UKBA have worked closely and in partnership with the Association of Chief Police Officers and have established immigration crime partnerships with 85 per cent. of constabularies in England and Wales with a target to increase this to 90 per cent. by 2008 and 100 per cent. by March 2009. The Government's plans, set out in "Enforcing the Deal" published on 19 June 2008, set a clear goal to target and remove the most harmful people first, working with local authorities and enforcement agencies to shut down the privileges of the UK to those breaking the rules.

Copies of this document are placed in the Library of the House. It is also available to view at:

http://www.ukba.homeoffice.gov.uk/sitecontent/documents/managingourborders/enforcementbusinessplan08_09/enforcementbusinessplan08_09.pdf?view=Binary

Prisoner Escorts

Rosie Cooper: To ask the Secretary of State for the Home Department what guidance she issues to police forces on liaison with court officials to ensure the presentation of defendants to court in due time. [220074]

Mr. McNulty *[holding answer 21 July 2008]:* Section 46 of the Police and Criminal Evidence Act (PACE) 1984 requires that a person who is detained at a police station and charged with an offence shall be brought before a magistrates' court in accordance with the requirements of that section of the Act. The person must be brought before the court as soon as practicable and no later than the first sitting after he is charged with an offence. If there is no sitting for the day on which the person is charged or the next day, the custody officer must inform the designated officer for a local justice area who shall arrange a sitting not later than the day next following the relevant day. Guidance for operational practitioners on how cases might be managed most effectively and efficiently from pre-charge through to conclusion is set out in the Criminal Case Management Framework issued by the Lord Chief Justice, the Attorney General, the Ministry of Justice and the Home Office.

Prisoners: Foreigners

Mr. Clappison: To ask the Secretary of State for the Home Department further to the letter from the Chief Executive of the Border and Immigration Agency to the Chairman of the Home Affairs Committee, of 18th February 2008, if she will break down the 250 sentence-expired foreign prisoners who have been detained under immigration powers for more than nine months by nationality; what the longest time spent by such a prisoner in detention is; how many sentence-expired foreign prisoners have been held in detention for more than nine months in each of the last 10 years; and what the average daily cost of holding such a prisoner in detention is. [193824]

Mr. Byrne *[holding answer 13 March 2008]:* In her letter of 18 February, the chief executive of the UK Border Agency advised the Home Affairs Committee that there are approximately 250 foreign national prisoners from countries where difficulties with enforcing removal is encountered and have been detained under immigration powers beyond nine months. She also advised in this letter that the countries that are relevant in this respect were covered during her appearance before the Committee of 15 January, which are Jamaica, Nigeria, China and Vietnam.

She has regularly updated the Home Affairs Committee with the most robust and accurate information available however, as she has explained in her letters, information prior to April 2006 is not available due to issues with the quality of the management information that is held therefore we are only able to identify the longest period an individual has been detained for through the examination of individual case files at disproportionate cost. The average cost to detain an individual within the UK Border Agency estate is £119 per night

Project Contest

Mr. Grieve: To ask the Secretary of State for the Home Department what recent assessment the Government has made of the effectiveness of Project Contest. [219485]

Jacqui Smith: Contest is the United Kingdom's long-term strategy for countering international terrorism and the violent extremism that lies behind it. Building upon Contest, public service agreement (PSA) 26 aims to reduce the risk to the UK and its interests overseas from international terrorism. To achieve this aim, the Government's specific objectives are to:

stop terrorist attacks;

where we cannot stop an attack, to mitigate its impact;

strengthen our overall protection against terrorist attack; and

stop people becoming terrorists or supporting violent extremism.

Developing and delivering the strategy involves Government Departments, local authorities, the police and other emergency services, the security and intelligence agencies, voluntary organisations, the business sector and partners from across the world. Effectiveness of the strategy is assessed against key outcomes, supported by performance indicators, included in the PSA delivery agreement on countering terrorism. A summary of the PSA was published in October 2007[1]. Progress in delivering the PSA will be reported directly to the Prime Minister on a bi-annual basis and, so far as it is possible and consistent with national security, scrutiny arrangements for this PSA, including parliamentary scrutiny, will mirror those in place for other PSAs with progress reports made public during the CSR period.

[1] http://www.hm-treasury.gov.uk/media/B/9/pbr_csr07_psa26.pdf

Regulation of Investigatory Powers Act

Mr. Pickles: To ask the Secretary of State for the Home Department if she will place in the Library a copy of the reports produced for the review of the Regulation of Investigatory Powers Act 2000. [221258]

Mr. McNulty: A copy of the report—with redactions to protect operational techniques—was placed in the House Library on 20 June 2007.

Religious Hatred: Crimes of Violence

Dr. Kumar: To ask the Secretary of State for the Home Department how many cases of religiously-motivated violence against *(a)* Muslims, *(b)* Jews, *(c)* Christians, *(d)* Sikhs, *(e)* Buddhists and *(f)* Hindus were recorded in each year since 1997. [219849]

Mr. Coaker: The information requested is not collected centrally. The Home Office collects statistics on recorded racially or religiously aggravated offences for some specific categories of offence. However, it is not possible to determine (a) whether an offence was of a racial or religious nature or (b) the religion of the victim.

Revenue and Customs: Shipping

Damian Green: To ask the Secretary of State for the Home Department how many and what proportion of ships arriving in the UK were searched by *(a)* HM Revenue and Customs and *(b)* the Immigration Service in each of the last five years. [218896]

Mr. Byrne: The number of ships searched in UK ports by HM Revenue and Customs (HMRC) specialist search teams in each of the last three years is as follows:

Year ending 31 March:	*Number*
2006	333
2007	385
2008	505

Security Industry Authority

Sir John Stanley: To ask the Secretary of State for the Home Department what assessment she has made of the *(a)* public accountability, *(b)* transparency, *(c)* competence and *(d)* compliance with statutory obligations of the Security Industry Authority; and if she will make a statement. [219461]

Mr. Coaker *[holding answer 21 July 2008]:* The Home Office works closely with the Security Industry Authority (SIA) to ensure that it meets its statutory and other obligations, including those relating to public accountability and transparency, and that it is fully competent to meet its aims and objectives.

The SIA's corporate and business plan is available on its website, as are the minutes of its board meetings. The SIA's annual report and accounts for 2007-08 were published on 28 July 2008.

I am aware that in recent months the SIA's customers have experienced regrettable delays in service following the introduction of a new processing system. The problems have been communicated by the SIA to its partners and stakeholders. It has also apologised for the delays which have occurred, and put in place a comprehensive recovery plan which has resulted in service levels reducing close to the SIA's published standards.

Serious and Organised Crime Agency: Information Officers

Mr. Grieve: To ask the Secretary of State for the Home Department how many press officers the Serious and Organised Crime Agency employs. [219426]

Jacqui Smith: SOCA has three full-time and one part-time External Communications Officers, as well as a full-time Head of External Communication. The officers' remit is not limited to media relations, but also encompasses internet and stakeholder communication.

Serious and Organised Crime Agency: Manpower

Mr. Grieve: To ask the Secretary of State for the Home Department how many *(a)* police officers and *(b)* police support staff have been reassigned to the Serious and Organised Crime Agency since its creation, broken down by the (i) region and (ii) organisation of origin. [219427]

Jacqui Smith: Since the formation of SOCA in April 2006 no police officer or member of police staff has been reassigned to SOCA. Any person joining SOCA from a police force after 1 April 2006 will have been appointed following a normal recruitment process.

Serious and Organised Crime Agency: Resignations

Mr. Grieve: To ask the Secretary of State for the Home Department how many members of staff resigned from the Serious and Organised Crime Agency in each quarter since its inception. [219431]

Jacqui Smith: The pattern of resignations of permanent SOCA staff over the eight quarters since the inception of SOCA is as follows:

	Number
Q1	7
Q2	10
Q3	28
Q4	30
Q5	36
Q6	46
Q7	29
Q8	45

The total loss of staff through resignations to date is 231 and represents less than 5.7 per cent. of SOCA's staffing complement at its commencement of operations.

Sexual Assault Referral Centres

Mr. Garnier: To ask the Secretary of State for the Home Department how many sexual assault referral centres there are in each criminal justice area. [220908]

Mr. Coaker *[holding answer 22 July 2008]:* There are currently 19 Sexual Assault Referral Centres (SARCs) in England and Wales. In addition, there is one SARC that is solely dedicated to children. A table showing the breakdown of SARCs by police force area is as follows.

SARCs by police area

SARC	*Police area*
Helen Britton House, Cleveland	Cleveland Police
Millfield House, Derbyshire	Derbyshire Constabulary
Meadowfield Suite, Durham	Durham Constabulary
Elm Tree House, Dyfed Powys	Dyfed Powys Police
St. Mary's SARC, Greater Manchester	Greater Manchester Police
Laburnum House, Gwent	Gwent Police
The Treetops Centre, Portsmouth	Hampshire Constabulary
The Renton Clinic, Dartford	Kent Constabulary
The SAFE Centre, Preston	Lancashire Constabulary
Juniper Lodge, Leicester	Leicestershire Constabulary
Haven Paddington, London	Metropolitan Police Service
Haven Camberwell, London	Metropolitan Police Service
Haven Whitechapel, London	Metropolitan Police Service
REACH Rhona Cross Centre, Newcastle	Northumbria Police
REACH Ellis Fraser Centre, Sunderland	Northumbria Police
The Topaz Centre, Nottinghamshire	Nottinghamshire Police
Willow House, Merthyr Tydfil	South Wales Police
Sheffield Children's SARC, Sheffield	South Yorkshire Police
Rowan Centre, Walsall	West Midlands Police
New Swindon Sanctuary, Swindon	Wiltshire Constabulary

Street Pastors Project

Sir Peter Viggers: To ask the Secretary of State for the Home Department if she will make a statement on the operation of the Street Pastor's project; how many schemes are operating; what assessment she has made of their effectiveness; what support from the public purse is provided; and what plans there are for future funding. [221514]

Mr. Coaker *[holding answer 22 July 2008]:* The Street Pastors is an interdenominational church initiative which engages with people on the street to listen to their concerns and offer support. They now operate in more than 60 locations around the UK including London, Manchester, Leeds, Birmingham, Wolverhampton, Nottingham and Plymouth. More information about the organisation and their work can be found on their website:

http://www.streetpastors.co.uk/Home/tabid/255/Default.aspx

From feedback and case studies, there is anecdotal evidence that the Street Pastors have made a significant impact on the lives of young people in urban areas. As part of the Tackling Gangs Action Programme (TGAP), the Home Office provided a one-off grant of £120,000 in 2007-08 to support the expansion of the organisation's activities in the TGAP areas.

The provision of Home Office grant funding for third sector organisations is currently under review.

Strip Clubs

Mr. Ellwood: To ask the Secretary of State for the Home Department pursuant to the Answer of 24 June 2008, *Official Report*, column 180W, on strip clubs, when the Government plans to make a statement on the outcome of its examination of measures necessary to support local communities in controlling lapdancing establishments. [215373]

Mr. Coaker *[holding answer 1 July 2008]:* The Government are consulting with local authorities on any concerns they have which they feel cannot be addressed by existing controls, including the Licensing Act 2003, and whether we need to do more to protect local communities. We recognise that people do not necessarily want lap dancing establishments in their neighbourhoods and we want to ensure local authorities have the powers to reflect the views of local people when considering applications and monitoring existing licenses. We will consider, for example, whether lap dancing clubs should fall under the category of Sex Encounter Establishments under the Local Government (Miscellaneous Provisions) Act 1982 and legislate if there is a need to do so.

Telephone Contact Centres

Julia Goldsworthy: To ask the Secretary of State for the Home Department when she will answer questions 166551 and 166552 on telephone contact centres, tabled by the hon. Member for Falmouth and Camborne on 15 November 2007. [190778]

Mr. Byrne: I replied to the hon. Member on 22 July 2008, *Official Report*, columns 1335-38W.

Terrorism

Mr. Grieve: To ask the Secretary of State for the Home Department how many points of the Government's August 2005 counter-terrorism plan have been implemented. [219486]

Jacqui Smith: The 12 point plan was announced by the then Prime Minister on 5 August 2005 following the London bombings on 7 July that year. Significant progress has been made on the plan. Of the 12 points, 10 have been actioned and the consultation has been completed on two. All counter-terrorism work has now been subsumed into the United Kingdom's long-term strategy for countering terrorism (the CONTEST strategy).

Terrorism: Convictions

Mr. Grieve: To ask the Secretary of State for the Home Department how many people were convicted of terrorist offences in each of the last five years, broken down by offence. [219436]

Jacqui Smith: The Home Office, Ministry of Justice and Attorney-General's Office are currently working with the National Co-ordinator for Terrorist Investigations to improve the quality of data relating to those arrested, charged and convicted under terrorist legislation and under other legislation but following a terrorist investigation. Once this is complete a statistical bulletin to cover information on arrests and convictions will be published.

This will include a greater breakdown of charges and convictions into offence categories by year.

Statistics compiled from police records are available on the Home Office website from 11 September 2001 to 31 March 2007.

http://www.homeoffice.gov.uk/security/terrorism-and-the-law/?view=Standard

These detail arrests under this Act and under other legislation where the investigation is considered terrorist related and the outcomes to those arrests, including convictions.

For this period, there were 41 Terrorism Act convictions. There were also 183 convictions under other legislation.

In addition to the aforementioned, statistics on the number of convictions in significant terrorist cases are collated for 2007 and 2008. In 2007, 37 individuals were convicted in 15 significant terrorist cases. 21 of those individuals pleaded guilty. So far in 2008, 33 people have been convicted in 10 significant terrorist cases. Of these 33, 12 individuals pleaded guilty.

Figures are compiled from police records and are subject to change as cases go through the system.

Terrorism: Crime Prevention

Mr. Grieve: To ask the Secretary of State for the Home Department how many major terrorist plots were disrupted in each of the last five years. [219448]

Jacqui Smith *[holding answer 17 July 2008]:* We are unable to provide a breakdown of terrorist operations for each year.

There have been 17 plots since 2000, 12 of which were disrupted.

Terrorism: Detainees

Mr. Grieve: To ask the Secretary of State for the Home Department pursuant to the Answer of 21 May 2008, *Official Report,* column 387W, on terrorism, how many of those detained were held for *(a)* fewer than seven days after arrest, *(b)* between eight and 14 days, *(c)* between 15 and 21 days and *(d)* between 22 and 28 days before charge or release. [219412]

Jacqui Smith: Of the six men arrested in the London/Glasgow incident, detention length before release or charge was:

(a) one individual fewer then seven days who was charged;

(b) four individuals between eight and 14 days, one was charged and three were released without charge;

(c) one individual between 15 and 21 days who was charged;

(d) 0 individuals between 22 and 28 days.

Terrorism: Stop and Search

Mr. Grieve: To ask the Secretary of State for the Home Department how many authorisations have been made to stop and search individuals taking photographs under section 44 of the Terrorism Act 2000 in each year for which figures are available. [219353]

Jacqui Smith: Section 44 of the Terrorism Act 2000 permits the authorisation of stop and search powers within a specialised area or place for the purpose of preventing terrorism. The authorisation does not restrict the power to any single identified behaviour; therefore I am unable to give you a figure for the number of people who have been stopped and searched for taking photos.

Theft: Metals

Lady Hermon: To ask the Secretary of State for the Home Department how many incidences of theft of metal have been recorded in each police constabulary area in each of the last 12 months; how many successful prosecutions have been brought as a result; and what penalty was imposed in each case. [220390]

Mr. Coaker: The information requested is not collected centrally. In terms of the police recorded crime statistic, it is not possible to identify the number of thefts where metal was stolen. Such offences are recorded in the 'Other theft' classification and cannot be separately identified from other items stolen. The same applies to the court proceedings data collected by the Office for Criminal Justice Reform.

Bob Spink: To ask the Secretary of State for the Home Department if she will assess the effect of trends in global scrap metal prices on trends in the levels of *(a)* opportunistic and *(b)* organised theft of metals from (i) public and (ii) private property. [220640]

Mr. Coaker: We are supporting the Association of Chief Police Officers led Scrap Metal Theft working group to address the problem of metal theft and will be working closely with all stakeholders and Government Departments to establish effective responses to the problem.

The ACPO working group have produced a problem profile which identified various levels of criminality from low level offenders to some evidence of organised crime groups starting to venture into metal theft. The police analysis shows increased criminal activity at low and organised ends are driven by increased price of scrap metal. The problem profile was used as the basis for the development of the working group's strategy to address the issue.

Regardless of the level of criminality it is clear that the consequences of metal theft can be significant for local communities, businesses and the national infrastructure.

UK Border Agency: Conferences

Damian Green: To ask the Secretary of State for the Home Department how much the UK Border Agency and its predecessor agencies have spent on conferences in each year since 1997. [218891]

Mr. Byrne: The information is as follows:

	£
2004-05	1,050,876.18
2005-06	3,075,721.94
2006-07	1,899,276.80
2007-08	1,431,719.69
2008-09[1]	374,201.13

[1] Three months April to June.

Figures for conference spend for years prior to 2004 can be obtained only at disproportionate cost as they are not held on the current Home Office accounting system.

UK Border Agency: Finance

Damian Green: To ask the Secretary of State for the Home Department what the *(a)* budget for and *(b)* expenditure on maritime border patrols and operations was by (i) the UK Border Agency and (ii) other agencies involved in border patrol in each year since 1997. [220115]

Mr. Byrne: The following table provides details of expenditure relating to these operations, for the financial years 2002-03 through to 2007-08. These costs include: staffing; travel and subsistence; vessel service and maintenance; running costs and depreciation. This information has been taken from management information reports from both HMRC and HMCE finance ledgers.

	£ million
2002-03	10.2
2003-04	9.0
2004-05	9.7
2005-06	10.3
2006-07	10.6
2007-08	12.2

UK Border Agency: Patrol Craft

Damian Green: To ask the Secretary of State for the Home Department how many operational hours were undertaken by boats and other marine craft operated by *(a)* the UK Border Agency and *(b)* other agencies engaged in border patrol in each year since 1997. [220116]

Mr. Byrne: From April 2008, the UK Border Agency took on responsibility for vessels which had previously been operated by HM Revenue and Customs and were formerly the responsibility of HM Customs and Excise.

UKBA estimate that from 2001 to 2008 these vessels undertook a total of 21,900 operational hours per year.

Due to fluctuations in the number of vessels in operation, and operating patterns, we do not have a record of operational hours undertaken before this date.

UK Border Agency: Powers

Damian Green: To ask the Secretary of State for the Home Department how many frontline officers serving in the UK Border Agency had been granted both immigration and customs powers by 30 June 2008. [218886]

Mr. Byrne: When the creation of the UK Border Agency was reported to the House on 3 April 2008, it was announced that by the summer we expected over 1,000 front-line staff to have cross conferred customs and immigration powers.

The UK Border Agency expected to exceed the 1,000 target by the end of June and I am pleased to confirm that is the case. As of 30 June, cross conferrals have enabled in excess of 1,020 UK Border Agency front-line officers to exercise both immigration and customs powers at the UK border.

UK Border Agency: Southampton

Damian Green: To ask the Secretary of State for the Home Department (1) how much her Department spent on the visit of the Minister of State for Immigration and the media to UK Border Agency operations off the coast of Southampton in the week commencing 7 July 2008; and from which budget this expenditure was met; [220112]

(2) what the purpose was of the border operations off the coast of Southampton in the week commencing 7 July 2008. [220113]

Mr. Byrne: As Borders and Immigration Minister I spend as much time as possible listening to front line staff about reform to the UK Border Agency.

On 8 July 2008, I visited the Maritime Forces in Southampton to listen and learn from UKBA officers in a routine patrol of a cutter. I met with UK Border Agency staff to discuss their local operations as part of the UK Border Agency's new combined force at the border. Four representatives from the media were present to capture and provide information to the public on the UK Border Agency's activity at the border.

The costs to the Home Office were negligible, comprising travel and subsistence for myself and three officials as well as light refreshments which were provided for myself and members of the press.

Vetting

Mr. Ruffley: To ask the Secretary of State for the Home Department what the differences between basic and enhanced Criminal Records Bureau checks are; and what guidance she issues to public authorities on which type of check should be commissioned. [219178]

Meg Hillier: A basic disclosure is the lowest level of disclosure. This would contain details of convictions considered to be unspent under the Rehabilitation of Offenders Act (ROA) 1974 or state that there are no such convictions. The Criminal Records Bureau (CRB) does not currently provide a basic check.

There are two levels of disclosures currently available from the CRB, known as standard and enhanced. The two checks are available in circumstances where an employer is entitled to ask exempted questions under the ROA. This includes any organisation whose staff or volunteers work with children or vulnerable adults.

Standard disclosures are available to anyone working with children or vulnerable adults, as well as certain other occupations and entry into professions as specified in the ROA. They show spent and unspent convictions, cautions, reprimands and warnings held on the Police National Computer. If the post involves working with children or vulnerable adults, the following may also be searched:

Protection of Children Act (POCA) List.

Protection of Vulnerable Adults (POVA) List.

Information that is held under Section 142 of the Education Act 2002 (formerly known as List 99).

Enhanced disclosures are available to anyone involved in regularly caring for, training, supervising or being in sole charge of children or vulnerable adults. They are also available for certain licensing purposes and judicial appointments. Enhanced disclosures contain the same information as the standard disclosure with the addition of any relevant information held by local police forces and disclosed at their discretion.

It is ultimately for each employer and not the CRB to determine what level of check is required for specific employment positions. Such determination is based on their legal and other responsibilities and subject to any statutory requirements as set by their own regulatory authorities.

Written Questions: Government Responses

Lynne Jones: To ask the Secretary of State for the Home Department when she plans to answer Questions 202448, 202449, 202450 and 202451, tabled on 24 April 2008, and Questions 202758, 202759, 202760 and 202763, tabled on 25 April 2008, on the national identity register. [208107]

Meg Hillier: My right hon. Friend the Minister of State for Security, Counter Terrorism, Crime and Policing replied to Question 202449 on 22 May 2008, *Official Report*, column 455W.

I replied to the hon. Member as follows: Questions 202759-60 on 4 June 2008, *Official Report*, column 1000W, Question 202763 on 17 June 2008, *Official Report*, column 835W, Question 202451 on 26 June 2008, *Official Report*, column 444W, Question 202450 on 2 July 2008, *Official Report*, column 912W, and Questions 202448 and 202758 on 10 July 2008, *Official Report*, columns 1768-9W.

Young Offenders

Mr. Ruffley: To ask the Secretary of State for the Home Department how many crimes were committed by juvenile offenders in each year since 1997. [219054]

Mr. Coaker: The information requested is not available from the recorded crime statistics collected by the Home Office.

Young Offenders: Wales

Mr. Dai Davies: To ask the Secretary of State for the Home Department with reference to paragraph 20 of the Youth Crime Action Plan 2008, what meetings have been planned to date with the Welsh Assembly Government to take forward the plan in Wales where appropriate; and whether additional resources will be committed to implementing the action plan in Wales. [220444]

Mr. Coaker: Officials in the three Departments leading on the Youth Crime Action Plan worked with their counterparts in the Welsh Assembly Government to develop the content and proposals in the Action Plan as they apply to Wales. Discussions will be on-going as we consult on and implement the Action Plan. The Government have committed almost £100 million to the Action Plan's implementation over the next two and a half years, including, where appropriate, its implementation in Wales.

Immigration: Criminal Records

David Simpson: To ask the Secretary of State for the Home Department in what circumstances criminal records checks are carried out on *(a)* EU and *(b)* non-EU foreign nationals entering the UK. [215366]

Mr. Byrne: I refer the hon. Member to my answer to his question, Immigration: Criminal Records of 8 July 2008, *Official Report*, column 1445W.

In relation to the circumstances in which criminal records checks are carried out, as my earlier answer stated, our policy is that the documents of all foreign nationals at ports of entry are checked against the Home Office Warnings Index.

CHILDREN, SCHOOLS AND FAMILIES

Academies

Mr. Jamie Reed: To ask the Secretary of State for Children, Schools and Families (1) how many academy schools there are in England; [219890]

(2) which local education authority has the highest number of academy schools. [219891]

Jim Knight: There are currently 83 academies open in 49 local authorities with 50 opening in the 2008/09 school year. We plan to open up to a further 80 in 2009 and 100 in 2010 bringing the total to over 310 academies.

There are three local authorities where a total of nine academies are either open or are planned—Kent where there are seven academies open and two are in feasibility; Southwark where there are also seven academies open with one in the implementation stage and one in feasibility; and, Manchester where two academies are already open and a further seven at the feasibility stage.

Mr. Jamie Reed: To ask the Secretary of State for Children, Schools and Families what assessment he has made of changes in levels of educational attainment resulting from the establishment of academy schools. [219892]

Jim Knight: We use a number of measures to assess the changes in educational attainment in academies.

In 2007, for the 36 academies with underperforming predecessor schools (i.e. not including former City Technology Colleges) the proportion of students gaining five or more GCSE at A*-Cs increased from 22 per cent. in 2001 to 43.7 per cent. in 2007 compared to a national increase of 12.2 points. Including English and Maths the increase is 11.2 percentage points from 14.0 per cent. to 25.2 per cent. compared to a national increase of 7.8 points.

Independent evaluations also recognise this trend. The National Audit Office report of 2007 found that GCSE performance is improving faster in academies than in other types of school. Taking account of students' personal circumstances and their prior attainment, academies' GCSE performance is substantially better, on average, than other schools. The 2007 PwC report also said that academies' progress in terms of student

achievement has generally exceeded corresponding Improvements at a national level and amongst similar schools.

Finally, Ofsted have now inspected 24 academies. One academy—Mossbourne—has been graded as outstanding in every single respect. In terms of their overall effectiveness, four have been graded as outstanding, seven good, with the remaining 13 graded as satisfactory. Key to the future success of the academies is their leadership and management. On this indicator, six academies have been graded outstanding, 17 good and one satisfactory. That means that 96 per cent. which have good or outstanding leadership, compared to 62 per cent. for secondary schools in general.

Mr. Jamie Reed: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effects of academy schools on *(a)* the primary school sector in the relevant catchment area, *(b)* the local community and *(c)* the local economy. [219893]

Jim Knight: We have not made a formal assessment of the effects on local primary schools, local communities and local economies. However, there is anecdotal evidence that academies do have a positive effect in these areas.

Many academies work closely with their feeder primary schools to help raise standards. For example, one sponsor is currently working on a joint programme between two academies and partner primaries, with involvement from the local authority and national strategies. This will involve joint training for primary and academy teachers, targeted interventions for pupils not performing at the expected level in writing, and teachers from year six of the primary schools and year seven of the academies meeting to discuss pupils' progress and jointly agree targets for individual pupils. We are also supporting 15 academy projects that are all-through schools. In this way the academies will be able to make an impact at an earlier stage of their students' education.

The PWC Academies Evaluation of 2007 noted that

"Independence appears to have given principals, staff and governors far greater confidence to explore new avenues of funding and new partnerships within the wider community".

We also have good anecdotal evidence that academies engage with their communities. For example, the Capital City Academy in Brent allows local supplementary schools to use their facilities, their professional library staff have worked closely with their local library service to set up reading events, and they have become central hubs for local sports and arts partnerships. They were recently named the specialist school which had made the greatest positive impact on its local schools. An award supported by their local family of schools.

We would expect academies to have a positive effect on their local economy. A number of academies are sponsored by local employers, and their contribution, alongside the rising standards in academies should lead to a more skilled workforce in local communities.

Mr. Jamie Reed: To ask the Secretary of State for Children, Schools and Families how many applications for academy school status his Department is considering. [219898]

Jim Knight: The information is as follows:

151 Academy projects are currently at various stages of development. This includes:

78 projects in feasibility

36 projects in implementation; and

39 projects for which a statement of intent has been issued, and which are now working towards the feasibility stage.

Paul Holmes: To ask the Secretary of State for Children, Schools and Families what the cost of his Department's Academies Unit is *(a)* per pupil and *(b)* per year of operation. [220231]

Jim Knight: The budgeted cost of Academies Group in this financial year is £4.5 million. In addition to the 83 academies already open, the Academies Group is actively engaged with developing a large number of academy projects, all of which are at different stages of development. It is therefore not meaningful to calculate a per pupil figure.

Academies: Lancaster

Mr. Wallace: To ask the Secretary of State for Children, Schools and Families when he last met Lancashire county council representatives to discuss academies in Lancaster. [220578]

Jim Knight: My right hon. Friend the Secretary of State for Children, Schools and Families has not had any meetings with Lancashire county council representatives to discuss academies in Lancaster since the department was created in June 2007.

Academies: Sponsorship

Mr. Jamie Reed: To ask the Secretary of State for Children, Schools and Families what minimum criteria academy school sponsors must meet. [219897]

Jim Knight: Sponsors come from a wide range of backgrounds, including universities, educational foundations, businesses, individuals and faith communities. The suitability of sponsors and their ability to make a significant contribution to the academies programme is assessed during the process of brokering a project before an expression of interest is agreed by the Secretary of State.

The Department carries out rigorous checks to establish the suitability of individuals and organisations wishing to become sponsors of academies. These include checking their financial viability to supply the funds pledged as well as their general suitability.

Potential sponsors should be able to demonstrate:

transparency of business arrangements (both in the EU and overseas) and ability to account for funds (including donations from other parties);

evidence of a successful business background including evidence of consistent and sustained trading (where appropriate);

a long-term commitment to the UK education sector and the aims of the academies programme;

potential to run a successful school and to contribute towards raising standards;

ability to enhance the reputation of the academies programme;

ability to promote community cohesion; and

financial status commensurate with academy sponsorship and/or evidence of ability to raise the necessary funds where appropriate.

Mr. Jamie Reed: To ask the Secretary of State for Children, Schools and Families how much funding is required from *(a)* private sector and *(b)* university partner sponsors of academy schools. [219899]

Jim Knight: Sponsors of the early academies were required to provide 10 per cent. of the capital costs of a new building, capped at a maximum of £2 million. These sponsorship funds were not payable "up-front", but over the lifetime of a building project.

In 2006, the endowment model of sponsorship was announced. All sponsors are now expected to establish an endowment fund.

A sponsor from the educational sector may bring value to an academy project through their reputation and expertise in the educational field, but have more restricted access to charitable funding. For this reason, sponsors with a successful track record of running educational institutions (including high performing schools and colleges, universities and sponsors of existing academies) are expected to establish an endowment fund, but are not required to commit any specific sum to the endowment.

Other sponsors joining the programme will, as the norm, establish an endowment fund worth £2 million, with a minimum of £500,000 payable in the first year. Payment of the endowment will normally be over five years.

The proceeds of the endowment are spent by the academy trust on measures to counteract the impact of deprivation on education in their local communities.

Arts: Education

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what recent steps the Government has taken to improve performing arts education in schools. [220600]

Jim Knight: There are now 494 specialist arts colleges. They are free to choose between the three broad areas of the arts, including the performing arts. They ensure that learning in the arts is marked by creative rigour and discipline, develop the skills of teachers and use new technologies to raise the quality of teaching and learning. They also work with other schools and the local community in sharing facilities and resources to develop learning opportunities in the arts, through partnerships with creative industries and arts institutions.

Last November we announced unprecedented funding of £332 million specifically for music to 2011—including £82 million per year direct to local authorities ring-fenced for music education. The work we are taking forward in music focuses on participation and performance. Building on this, in February 2008 we announced the "Find Your Talent" programme of 10 pathfinders that will trial ways of providing opportunities for children and young people to have a range of high quality arts and cultural experiences, including playing music or singing in ensembles and taking part in theatre and dance performances. We are also continuing to invest in the Creative Partnerships programme so that it can give more pupils the opportunity to develop creativity in learning by working with creative professionals and cultural organisations, including theatre companies, dance and recording studios and orchestras.

CAFCASS: Finance

Mr. Bellingham: To ask the Secretary of State for Children, Schools and Families if he will break down the £108.3 million CAFCASS budget for 2007-08 by category and sub-categories of expenditure. [220760]

Kevin Brennan: The total CAFCASS resource budget (including grant-in-aid) was £108.633 million and expenditure was £108.549 million. Information about expenditure by category is in the CAFCASS Annual Report and Accounts 2007-08 (HC 692) a copy of which is available in the House Library.

Children: Day Care

Mr. Milburn: To ask the Secretary of State for Children, Schools and Families how many children in Darlington constituency took up free nursery places in the most recent period for which figures are available. [219623]

Beverley Hughes: The available information is shown in the tables.

Table 1 provides information about the part-time equivalent number of free early education places filled by three and four-year-olds in Darlington parliamentary constituency area. Data is provided for 2007 only because parliamentary constituency data are not yet available for 2008.

Table 1: Part-time equivalent number of free early education places[1, 2] filled by three and four-year-olds Darlington Parliamentary Constituency: Position at January 2007

	Three-year-olds			*Four-year-olds*		
	maintained nursery and primary schools3	*other maintained and private, voluntary and independent providers*	*total three year olds*	*maintained nursery and primary schools4*	*other maintained and private, voluntary and independent providers*	*total four year olds*
2007	710	[5]330	1,000	930	[6]130	1,100

[1]. A place is equal to five or more sessions and can be filled by more than one child.
[2] Figures are rounded to the nearest 100 if they exceed 1000 and to the nearest 10 otherwise.
[3] Headcount of children aged three at 31 December in the previous calendar year from the School Census.
[4] Headcount of children aged four at 31 December in the previous calendar year from the School Census
[5] Part-time equivalent number of children aged three at 31 December in the previous calendar year from the Early Years Census and the School Census.
[6] Part-time equivalent number of children aged four at 31 December in the previous calendar year from the Early Years Census and the School Census.

Table 2 provides information for 2008 about the part-time equivalent number of free early education places filled by three and four-year-olds for Darlington local authority area

Table 2: Part-time equivalent number of free early education places[1, 2] filled by three and four-year-olds, Darlington Local Authority: Position at January 2008

	Three- year-olds			*Four-year-olds*		
	maintained nursery and primary schools[3]	*other maintained and private, voluntary and independent providers*	*total three year olds*	*maintained nursery and primary schools[4]*	*other maintained and private, voluntary and independent providers*	*total four year olds*
2008	810	[5]410	1,200	1,100	[6]140	1,200

[1] A place is equal to five or more sessions and can be filled by more than one child.
[2] Figures are rounded to the nearest 100 if they exceed 1000 and to the nearest 10 otherwise.
[3] Headcount of children aged three at 31 December in the previous calendar year from the School Census.
[4] Headcount of children aged four at 31 December in the previous calendar year from the School Census.
[5] Part-time equivalent number of children aged three at 31 December in the previous calendar year from the Early Years Census and the School Census.
[6] Part-time equivalent number of children aged four at 31 December in the previous calendar year from the Early Years Census and the School Census.

The latest figures on early education places for three and four year olds in England were published in Statistical First Release (SFR) 12/2008 "Provision for children under five years of age in England: January 2008", available on my Department's website:

www.dcsf.gov.uk/rspateway/.

Children: Homicide

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many children died as a result of homicide in each English local authority area in each of the last five years, broken down by age. [220689]

Mr. Coaker: I have been asked to reply.

Information held by the Home Office cannot be broken down to local authority area. Available data from the Homicide Index relates to offences currently recorded as homicide where the victim was aged under 16, as at 12 November 2007. Tables which have been placed in the Library show the number of such offences recorded by each police force area in England between 2002/03 and 2006/07. Full analysis of data for 2007/08 is not yet published.

Children: Public Participation

Jo Swinson: To ask the Secretary of State for Children, Schools and Families how much the TellUs3 survey cost. [220752]

Jim Knight *[holding answer 21 July 2008]:* Ofsted is responsible for the delivery of TellUs3. The Department for Children, Schools and Families has been working closely with them to support this important piece of work. Ofsted have advised us that it will cost them £139,500 to deliver TellUs3 with the set up costs for the survey having been met in delivery of TellUs2.

Departmental Appeals

Andrew Mackinlay: To ask the Secretary of State for Children, Schools and Families on how many occasions his Department and its predecessors instructed the Treasury Solicitor to seek leave to appeal to the House of Lords from *(a)* the Court of Appeal and *(b)* the House of Lords itself in each of the last 10 years; and on how many occasions the application was rejected. [220818]

Jim Knight: The Department for Children, Schools and Families does not hold centrally the specific information requested. The same was true of its recent predecessors, the Department for Education and Skills and the Department for Education and Employment.

Departmental Buildings

Pete Wishart: To ask the Secretary of State for Children, Schools and Families on which buildings occupied by his Department's agencies and non-departmental public bodies the lease will be due for renewal in the next four years. [214664]

Jim Knight: The Department has no agencies to report on.

The details of the buildings occupied by the Department's non-departmental public bodies where the lease is due for renewal in the next four years are given as follows.

Properties with lease renewals due before 30 June 2012

Occupier/address	*Date of expiry*
CAFCASS	
Brimington Road, Chesterfield	30 October 2008
Charter House, Ilford	24 December 2008
Edward House, Stockport	31 March 2009
Printing House Street, Birmingham	24 September 2009
87 Manchester Road, Rochdale	31 October 2009
Southway, Bedford	24 November 2009
Archway Tower, London	21 December 2009
Southgate, Chichester	1 February 2010
Gough Street, Wolverhampton	31 March 2010
Lathom Road, Southport	31 March 2010
Lesser Knowlethorpe	12 October 2010

Mr. Betts: To ask the Secretary of State for Children, Schools and Families what his Department's policy is on improving the energy efficiency of the buildings which it *(a)* rents and *(b)* owns; what changes there have been in the energy efficiency of such buildings in the last (i) five and (ii) 10 years; and whether his Department has adopted targets on energy efficiency

improvements in the buildings it occupies over the next (A) five and (B) 10 years. [221085]

Jim Knight: The Department for Children, Schools and Families is committed to meet the requirements of all environmental legislation; and continually improve its environmental performance through the regular review of its management system. The Department's energy efficiency policy does not differentiate between *(a)* rented and *(b)* owned properties.

Changes to energy efficiency:

(i) Since 2002/03 a reduction in energy efficiency of 7.5 per cent.

(ii) Since[1] 1999/00 a reduction in energy efficiency of 8.2 per cent.

[1] Data is not available prior to this period.

Information on energy efficiency has been taken from the latest published "Sustainable Development in Government Return" and covers the years 1999/00 to 2006/07. The information from this return is for the Department's buildings as a whole and cannot be split into individual buildings. Only buildings carrying out central Government business are included within this return.

The Department for Children, Schools and Families has adopted Sustainable Development in Government targets on energy efficiency and progress is monitored through the Department's environmental management system, encompassing current and any new *(a)* rented and *(b)* owned properties.

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families which organisations have received *(a)* free and *(b)* discounted room hire from (i) his Department and (ii) its agencies in each of the last five years; and what the commercial value of the discount was in each case. [221579]

Jim Knight: It is not departmental practice to hire out rooms in its buildings.

Departmental Computers

Mr. Peter Ainsworth: To ask the Secretary of State for Children, Schools and Families what estimate he has made of *(a)* the number of computer devices left on overnight in his Department when not in use and *(b)* the cost per year of leaving computer devices on overnight when not in use in each of the last five years; and if he will make a statement. [217861]

Jim Knight: In October 2004 the Department for Education and Skills, now the Department for Children, Schools and Families introduced software with the capability to power off computer devices remotely. Since the above date, this software has been configured (and runs nightly) to detect which computer devices are left on at a predetermined time in the evening and turn these devices off.

To answer part *(a)* of the PQ: the number of computer devices left on overnight in the Department when not in use is 0.

To answer part *(b)* of the PQ: the cost per year of leaving computer devices on overnight when not in use in the Department is 0.

Departmental Conferences

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families what the *(a)* scheduled date and *(b)* title was of each conference proposed to be hosted by his Department which was cancelled before taking place in each of the last 10 years; and what costs were incurred in respect of each. [215181]

Jim Knight: The Department of Children Schools and Families does not keep records centrally of conferences which were cancelled and therefore it is not possible to provide this information except at disproportionate cost.

Departmental Early Retirement

Mr. Redwood: To ask the Secretary of State for Children, Schools and Families how many staff in his Department have taken early retirement since the Department was established. [217379]

Jim Knight: The Department was established as part of the Machinery of Government changes of 28 June 2007. There have been 63 employees who have taken early retirement in the Department since it was formed.

The Department has no agencies.

Departmental Information Officers

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families what the average cost to his Department was of employing a press and media officer in 2007-08. [215199]

Jim Knight: The cost to the Department for employing a press and media officer in 2007-08 was in the range of £30,042 to £34,938.

Departmental Internet

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the average age of users of the Build Your Own PlaySpace on his Department's website; and if he will make a statement. [217675]

Jim Knight: The Department developed the 'Build your PlaySpace' interactive tool to engage children and young people in the Fair Play consultation in a fun and interactive way. The tool is one strand of a wider consultation strategy that includes an activity poster/competition for children and young people, live events to encourage local dialogue with children, young people, their families and practitioners and written consultation. Responses from all of these strands will be analysed as a whole.

We recognised that, in order to engage most effectively with children and young people, it was important to offer them a choice of how to share their views on play with us, and to do so in a fresh and creative way. The tool has been designed specifically for children and young people between the ages of eight and 13, and the vast majority of the responses received thus far (approximately 75 per cent.) have been from within this age group, although we have deliberately not limited responses solely to this group.

The tool was launched on 20 May and it has been supported by a cross channel advertising campaign with young people, parents and school workforce channels carrying animated banners with links to the tool.

Departmental Marketing

Mr. Philip Hammond: To ask the Secretary of State for Children, Schools and Families how much his Department spent on branding and marketing activity in 2007-08. [212036]

Beverley Hughes: The Department spent £36,295 on branding and £14,062,103 on marketing activity in 2007-08.

Pete Wishart: To ask the Secretary of State for Children, Schools and Families what the cost was of *(a)* internet and website design and hosting, *(b)* print media design and *(c)* broadcast media of each of his Department's public information campaigns since 1997. [214667]

Beverley Hughes: It is not possible to identify the cost of *(a)* internet and website design and hosting and *(b)* print media design, except at disproportionate cost. However, it is possible to separate the Department's spend on *(c)* broadcast media, as this is centrally placed through the Central Office of Information. The Department's advertising spend since 1997 is set out in the following table:

	£000
1997-98	9,992
1998-99	15,673
1999-2000	11,900
2000-01	29,110
2001-02	17,665
2002-03	13,790
2003-04	20,170
2004-05	11,088
2005-06	7,939
2006-07	6,265
2007-08	11,589

Departmental Official Cars

Stephen Hammond: To ask the Secretary of State for Children, Schools and Families (1) which make and model of car the Minister of State for Children, Young People and Families has chosen as his ministerial car to be provided by the Government Car and Despatch Agency; [217757]

(2) which make and model of car he has chosen as his Ministerial car to be provided by the Government Car and Despatch Agency. [217745]

Jim Knight: I refer the hon. Member to the answer given by my hon. Friend the Parliamentary under Secretary of State for Transport on 16 July 2008, *Official Report*, column 414W.

Departmental Official Hospitality

David Simpson: To ask the Secretary of State for Children, Schools and Families (1) what measures are in place in his Department to monitor expenditure on alcohol for hospitality purposes; [219605]

(2) what purchasing process is used by his Department for the procurement of alcohol for hospitality purposes. [219948]

Jim Knight: The Department does not keep a record of the amount spent on alcohol for hospitality purposes.

The following guidance is issued by the Department to staff on the provision of alcohol.

There is a general principle that alcohol should not be provided at public expense and never when only civil servants are present.

Moderate amounts of alcohol can be provided at public expense when entertaining non civil servants if not providing alcohol might be regarded as unusual or cause embarrassment. Examples of such events are hospitality from Ministers, at publicity events such as launches or the rare occasions when senior staff judge that official business can best be transacted by hosting a meeting over lunch or dinner. This policy is in accordance with the principles of Treasury guidance in "Managing Public Money" and "Regularity, Propriety and Value for Money".

Payment can be made by Government Procurement Card for Ministerial and other official hospitality where such use has been previously authorised. Otherwise, payment can be made at the time and reclaimed or the invoice sent to the Department for payment by the central payment team. If it is considered the occasion did not justify expenditure on alcohol the individual will be expected to meet the cost themselves.

Departmental Overtime

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families what the cost of overtime payments paid to staff in his Department was in each of the last 12 months, broken down by pay grade. [221301]

Jim Knight: The cost of overtime payments in my Department by grade is set out in the following table[1]. Overtime is not payable to members of the senior civil service.

[1] specialist grades are included in their grade equivalent. Grades 6 and 7 are entitled to an extra hours' discretionary payment for long hours working and a weekend attendance allowance subject to an overriding limit.

£

Month	*Executive assistant*	*Executive officer*	*Higher executive officer*	*Senior executive officer*	*Grade 7*	*Grade 6*	*Total*
June 2008	11,600	19,800	29,000	8,500	6,200	0	75,100
May 2008	12,200	18,900	27,300	6,800	9,000	2,500	76,700
April 08	13,300	24,700	26,200	14,100	9,200	4,300	91,800

Month	Executive assistant	Executive officer	Higher executive officer	Senior executive officer	Grade 7	Grade 6	£ Total
March 2008	11,300	19,500	31,700	12,000	5,300	2,700	82,600
February 2008	11,200	19,200	30,300	13,700	13,800	900	89,100
January 2008	6,200	9,700	12,800	8,400	4,400	800	42,400
December 2007	9,100	14,900	28,800	10,900	7,300	800	71,700
November 2007	13,500	21,000	23,600	11,400	11,400	500	81,300
October 2007	9,500	8,400	11,800	7,400	500	1,100	38,600
September 2007	6,200	6,600	10,400	4,900	7,400	600	36,100
August 2007	10,700	11,600	13,400	11,000	5,400	1,000	53,100
July 2007	10,300	14,600	15,400	6,500	6,100	4,700	57,500
Total	125,100	188,700	260,600	115,700	85,800	20,100	796,100

Departmental Procurement

David Simpson: To ask the Secretary of State for Children, Schools and Families what his Department's policy is on requesting discounts from its suppliers in return for swift payment of invoices. [220440]

Jim Knight: It is departmental policy to ask tenderers, through our standard invitation to tender letter, to provide details of discounts for prompt payments.

Departmental Public Participation

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families what *(a)* listening exercises and *(b)* public forums his Department has held in each of the last two years; what the (i) purpose and (ii) cost was in each case; and who the private contractor was and how much it was paid in each case. [221357]

Beverley Hughes: The Department for Children Schools and Families has regular engagement with its stakeholders, in addition to running formal consultation exercises, as a necessary part of its policy-making process. Over and above this, the more set piece listening events we have organised in the last two years are as follows:

The Department for Children, Schools and Families has conducted nine citizen's juries which provided an opportunity for a mix of stakeholders, including members of the general public, to engage with each other in small groups to debate important issues relating to the new Department's remit. The first jury was held in Bristol in September 2007 with a further four debates held in London, Leeds, Portsmouth and Birmingham. An additional four debates also took place in London, Leeds, Portsmouth and Birmingham in March 2008. The total cost of these was £820,000

The Department has run nine focus groups as part of the Time to Talk consultation in Sutton, Birmingham and Sheffield with children aged 11 to 16 to capture their views on the key issues and challenges. The total cost for the nine focus groups was £18,835.25 and this included the facilitation, analysis, and production of a short film of the events. Central Office of Information (on behalf of the DCSF) procured the services of Opinion Leader Research to design, recruit participants to, and facilitate all the events and procured Glasgows to arrange the locations, logistics and catering for events held in September 2007. All the agencies involved were appointed in line with standard Government practice on procurement.

The Department of Health and the Department for Children, Schools and Families jointly held deliberative events with children, young people and parents to discuss children and young people's health in June 2008. There were three strands to this piece of work:

focus group research with children aged between seven and 15;

a deliberative research event with 90 members of the public and 18 frontline health professionals; and

a deliberative workshop with parents/carers of children with long-term conditions/complex health needs.

The purpose was to inform the work on the Child Health Strategy, to be published this September and the total cost of managing and running the events was £217,743.75, shared between both Departments

The Central Office of Information (COI) project managed the exercise, and Opinion Leader were contracted to run the deliberative events themselves.

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families what *(a)* reviews and *(b)* public consultations have been initiated by his Department since 27 June 2007. [221376]

Jim Knight: The Department for Children, Schools and Families (DCSF) has initiated *(a)* 11 reviews and *(b)* 38 public consultations since 27 June 2007. These are listed in order of publication as follows.

Reviews initiated by DCSF since 27 June 2007

Byron Review—Call for Evidence Adult Version

Byron Review—Call for Evidence Children's and Young People's Version

Bercow Review of Speech, Language and Communication Needs

Call for Evidence—Youth Sector Support Arrangements

Safeguarding Children from Sexual Exploitation

Departmental Retirement

Mr. Marsden: To ask the Secretary of State for Children, Schools and Families whether his Department has a standard retirement age; and how many employees have been asked to retire on reaching 65 years of age in each year since 2000. [218216]

Kevin Brennan: The Department was established as part of the machinery of government changes of 28 June 2007. The Department has no mandatory retirement age for staff below the senior civil service and operate the civil service code policy at 65 for the senior civil service. No members of the senior civil service have been asked to retire at 65.

Departmental Sick Leave

Jenny Willott: To ask the Secretary of State for Children, Schools and Families how many sick days were taken by employees in *(a)* his Department and its predecessor and *(b)* the non-departmental bodies for which it has responsibility due to (i) stress and (ii) mental health and behavioural disorders in each of the last 10 years; what proportion of sick days taken this represented in each case; and if he will make a statement. [216094]

Jim Knight: Since the formation of the Department to 31 March 2008, the number of sickness days taken by employees due to mental disorder is *(a)* 5,407 days. 2,386 days were due to (i) stress and (ii) 3,021 days for other mental health illnesses which can be broken down into depression (2,139 days), anxiety (614 days) and other mental illnesses (268 days).

This amounts to a proportion of 27 per cent. of all sickness absence days due to stress and other mental disorder. The Department has a number of mainly small non-departmental public bodies *(b)* for which information on absences due mental disorders is not held centrally and this information could be obtained only at disproportionate cost.

The Department was set up as part of the machinery of government (MoG) changes on 28 June 2007, so the percentage is based on figures from 1 July to 31 March 2008 (the latest information available). It is not directly comparable to the previous Department for Education and Skills (DFES) as many staff moved to the new Department for Innovation, Universities and Skills (DIUS) as part of the MoG changes.

The Department is committed to providing a safe working environment and has put in place a range of measures to support managers and employees on health and wellbeing issues, including the provision of professional counselling and support from the Department's Employee

Assistance Provider, Right Corecare, a pilot Health and Safety Executive (HSE) Stress Questionnaire and Individual Stress Risk Assessments for employees who require them.

Jenny Willott: To ask the Secretary of State for Children, Schools and Families how many staff in *(a)* his Department and its predecessor and *(b)* the non-departmental bodies for which it has responsibility have taken sick days due to (i) stress and (ii) mental health and behavioural disorders in each of the last 10 years; what proportion of staff of each body this represented in each year; and if he will make a statement. [216145]

Jim Knight: Since the formation of the Department up to 31 March 2008, 72 staff were absent due to stress, representing 2.6 per cent. of all staff. 66 were absent due to other mental disorders, representing 2.4 per cent. of all staff at 31 March. These figures do not include non-departmental public bodies as the information for them is not held centrally and could be obtained only at disproportionate cost.

The Department was set up as part of the Machinery of Government (MoG) changes on 28 June 2007, so the figures apply from 1 July to 31 March 2008 (the latest information available).

The Department is committed to providing a safe working environment and has a range of measures in place to support managers and employees on health and wellbeing issues.

David Simpson: To ask the Secretary of State for Children, Schools and Families how many and what percentage of staff in his Department have had more than two periods of sickness absence of less than five days in each of the last three years. [218726]

Jim Knight: Since the Department was formed in the 28 June 2007 Machinery of Government changes, 293 staff have had more than two periods of sickness of less than five days. This applies from the date of establishment of the Department to 31 March 2008 (the latest information available). This equates to 9.5 per cent. of staff in that period.

Departmental Sick Pay

Jenny Willott: To ask the Secretary of State for Children, Schools and Families how much was paid in sick pay to staff in *(a)* his Department and its predecessor and *(b)* the non-departmental bodies for which it has responsibility in each of the last five years; what proportion of the staffing expenditure of each body this represented in each year; and if he will make a statement. [216099]

Jim Knight: Due to the wide range of posts and salary points in the Department and its non-departmental public bodies, the actual cost of sick pay to staff in each of the last five years could be obtained only at disproportionate cost.

The Department's general policy for full-time staff is to pay sickness absence on full pay for up to 182 days, followed by sickness absence on half pay for up to 183 days. Sickness absence is unpaid once entitlement to full or half pay has been exhausted, unless HR approves payment of sick pay at pension rate.

Departmental Written Questions

David Simpson: To ask the Secretary of State for Children, Schools and Families how long on average his Department took to answer *(a)* ordinary written and *(b)* named day questions in each of the last three years. [215472]

Kevin Brennan: Information on the average number of days taken to answer parliamentary questions is not readily available in the format requested and could be provided only at disproportionate cost.

Disabled

Mr. Harper: To ask the Secretary of State for Children, Schools and Families how many and what proportion of staff in his Department are disabled; and what the average salary in his Department is of *(a)* full-time disabled staff, *(b)* full-time non-disabled staff, *(c)* part-time disabled staff and *(d)* part-time non-disabled staff. [220192]

Jim Knight: In the Department, the number of employees who have declared a disability is 187 (6.9 per cent.).

Records on the numbers of disabled staff are also solely based on voluntary, self-declaration of being a disabled person as defined by the Disability Discrimination Act; and not connected in any way to a formal register of disability.

Information about average salaries is set out in the following table:

Staff	*Salary (£)*
Full-time disabled staff	31,260
Full-time non-disabled staff	34,595
Part-time disabled staff	21,044
Part-time non-disabled staff	22,209

The Department has no agencies.

Disabled: Respite Care

Mr. Harper: To ask the Secretary of State for Children, Schools and Families pursuant to paragraph 3.11 of the Carers at the heart of 21st-century families and communities report, how much of the £150 million funding for breaks for carers of disabled children will be provided by his Department over each of the next two years. [220301]

Jim Knight: The £150 million mentioned in the report is to be provided by the Department of Health and paid to primary care trusts. Non of the £150 million referenced in paragraph 3.11 of that report will therefore come from the DCSF.

The DCSF is however providing £359 million to local authorities over the 2008-11 period to grow short break provision for disabled children. Funding allocations to local authorities can be viewed at:

www.everychildmatters.gov.uk/ahdc

Dyslexia

Dr. Kumar: To ask the Secretary of State for Children, Schools and Families how much has been allocated to provide further educational assistance to

those with dyslexia-related reading difficulties in 2008-09; and to how many people such assistance will be provided in 2008-09. [219856]

Jim Knight: Local authorities and schools are funded to provide special educational needs (SEN) services. The Education Act 1996 requires schools to use their best endeavours to make suitable provision available for all children with SEN, including those with dyslexia. Local authority and school planned spend on SEN (including for children with dyslexia) was £4.9 billion in 2007-08.

Latest figures for pupils in schools with specific learning difficulties (including dyslexia) show there are 77,090 pupils either with a statement of special educational needs (SEN) or supported at SEN School Action Plus. My Department does not collect data on the particular special educational needs of pupils at School Action, some of whom have specific learning difficulties.

In December 2007, the Government published the "Children's Plan" which announced we will spend £18 million over the financial years 2008-09 to 2010-11 to improve special educational needs provision. This includes £3 million for improving provision for children with dyslexia; the use of most of which will be decided in the light of Sir Jim Rose's recommendations on the identification and teaching of children with dyslexia. However, £150,000 is being provided over two financial years, to enable the British Dyslexia Association to develop their helpline, which provides advice about dyslexia to people including teachers and parents; and £250,000 is being provided over three financial years, to enable Dyslexia Action to run further Partnership for Literacy pilots.

In addition, we are providing around £1 million, over three years, to the No to Failure project.

No to Failure is trailblazing and evaluating the impact of specialist training for teachers and specialist tuition for children with dyslexia in some schools in three local authority areas. The final evaluation report will be published early next year.

Education Maintenance Allowance: Fraud

Jenny Willott: To ask the Secretary of State for Children, Schools and Families how many departmental staff were prosecuted for *(a)* attempting to defraud and *(b)* defrauding the education maintenance allowance system in each year since 2003; and if he will make a statement. [214510]

Jim Knight: No members of staff have been prosecuted for either attempting to defraud or defrauding the education maintenance allowance system in any of the years since 2003. The Department and its predecessor (former Department for Education and Skills) will not accept any level of fraud or corruption and any case will be thoroughly investigated and dealt with appropriately.

Education: Assessments

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) what proportion of *(a)* key stage 2 and *(b)* key stage 3 (i) English, (ii) mathematics and (iii) science test papers had been marked and results entered into the computer system on each day from 15 June 2008 to 7 July 2008; and if he will make a statement; [217693]

(2) what plans he has to impose financial penalties on ETS for the time taken to produce the key stage 2 and key stage 3 results in 2008; and if he will make a statement; [218161]

(3) how much is due to be paid to ETS for the administration and marking of the key stage 2 and 3 tests in (a) 2007-08, (b) 2008-09, (c) 2009-10 and (d) 2010-11; and if he will make a statement. [217697]

Jim Knight: The administration and marking of national curriculum tests is a function of the Qualifications and Curriculum Authority (QCA) that is delivered independently of Government. The National Assessment Agency (NAA) manages the marking process within QCA. I have therefore asked David Gee, Managing Director of the NAA, to write to the hon. Member. A copy of his letter has been placed in the Library.

Letter from David Gee, dated 15 July 2008:

The Secretary of State for Children, Schools and Families, Rt Hon Ed Balls, has asked me to write to you to answer to a number of parliamentary questions you recently asked.

The questions you have asked pertain to information that the National Assessment Agency either does not currently hold in the form you have requested or which relate to information that may be subject to an obligation of confidentiality or may be commercially sensitive.

Some elements of the information you sought may be available when the test delivery cycle is complete. If that is the case, I will write to you again as soon as possible.

The total value of the contract over 5 years is £156 million.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families whether staff from the National Assessment Agency have been seconded to work with ETS on the key stage tests in 2008; and if he will make a statement. [217695]

Jim Knight: The National Assessment Agency (NAA) have informed us that there are no NAA employees seconded to ETS Europe. There are, however, approximately 70 QCA/NAA staff actively working with ETS to ensure the delivery of results to schools.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many complaints about the marking of the key stage tests have been received by *(a)* his Department, *(b)* the Qualifications and Curriculum Authority, *(c)* the National Assessment Agency and *(d)* ETS in 2008; and if he will make a statement. [217698]

Jim Knight: By 16 July, the Department had received 204 letters and e-mails about national curriculum tests. Of the 82 that have received replies, 33 were about the administration of the marking process.

We are advised that, by 11 July, the Qualifications and Curriculum Authority (QCA) had received 58 complaints and the NAA 552 complaints.

Letter from David Gee, dated 9 July 2008:

The Secretary of State for Children, Schools and Families, Rt Hon Ed Balls, has asked me to write to you to answer parliamentary question 217698.

ETS Europe are not yet able to provide information on the number of complaints they have received as their resources are working to complete marking, data entry and communications to schools.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the cost of marking the key stage 2 and key stage 3 tests was in 2007; what he estimates it will be in 2008; and if he will make a statement. [217699]

Jim Knight: The administration and marking of national curriculum tests is a function of the Qualifications and Curriculum Authority (QCA) that is delivered independendy of Government. The National Assessment Agency (NAA) manages the marking process within the QCA. I have therefore asked David Gee, managing director of the NAA, to write to the hon. Member. A copy of his letter has been placed in the Library.

Letter from David Gee to Mr Laws, dated 15 July 2008:

The Secretary of State for Children, Schools and Families, Rt Hon Ed Balls, has asked me to write to you to answer parliamentary question 217699.

The contracts that govern the delivery of national curriculum tests do not explicitly separate the cost of marking from other delivery related activities. It is therefore not possible to fully disaggregate the cost of marking from other contract costs for either 2007 or 2008.

While I cannot provide exact figures, the NAA estimates that the cost of marking is in the vicinity of £14 million for both 2007 and 2008. This figure incorporates estimates for the cost of marker fees, marker training and venue hire.

More information on the cost of marking for 2008 will be available after the conclusion of the marking cycle including the completion of marking reviews. I will be happy to give you a further update at this time.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) when he was first informed of problems with the marking of the 2008 key stage 2 and key stage 3 tests; and if he will make a statement; [218004]

(2) when his Department was first informed that the key stage 2 and 3 national test results would not be sent to schools by 8 July 2008; and if he will make a statement; [218224]

(3) when his Department was first informed that delays were occurring in the marking of key stage national test papers; and if he will make a statement. [218226]

Jim Knight: The National Assessment Agency (NAA), the division of the Qualifications and Curriculum Authority (QCA) which delivers the national curriculum tests alerted the Department to a number of issues with delivery of national curriculum tests during the test delivery period. We sought and received consistent and regular assurances that the action being taken would resolve those issues and keep the NAA on track for release of results to schools on schedule.

The Department was alerted to more significant delivery problems on 1 July. Ken Boston, the chief executive of QCA, wrote to me on 2 July confirming that he expected there would be delays in publishing national curriculum test results, both because marking would not be complete by 8 July, and because of technical issues around data transfer.

Dan Rogerson: To ask the Secretary of State for Children, Schools and Families (1) how many emails have been received by ETS from *(a)* exam markers and *(b)* team leaders in the last 12 months; how many have been answered; and what the (i) average, (ii) longest and (iii) shortest period of time taken to respond was; [218083]

(2) what targets have been set in relation to the time taken by ETS to answer telephone calls from exam markers and their team leaders; and to what extent those targets have been met; [218084]

(3) what telephone numbers are provided to ETS exam markers in order to access assistance or advice; and how many telephone calls have been answered on each of those lines in each of the last 12 months. [218173]

Jim Knight: The administration and marking of national curriculum tests is a function of the Qualifications and Curriculum Authority (QCA) that is delivered independently of Government. The National Assessment Agency (NAA) manages the marking process within the QCA. I have therefore asked David Gee, Managing Director of the NAA, to write to the hon. Member. A copy of his letter has been placed in the Library.

Letter from David Gee, dated 1 September 2008:

The Secretary of State for Children, Schools and Families, right hon. Ed Balls, has asked me to write to you to answer to a number of parliamentary questions you recently asked.

The questions you have asked pertain to information that the National Assessment Agency either does not currently hold in the form you have requested or which relate to information that may be subject to an obligation of confidentiality or may be commercially sensitive.

Some elements of the information you sought may be available when the test delivery cycle is complete. If that is the case, I will write to you again as soon as possible.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families which organisation has been awarded the contract to mark key stage national test papers in 2009; and if he will make a statement. [218227]

Jim Knight: In 2007 the National Assessment Agency (NAA) awarded ETS Europe a five-year contract from 2008 to 2012, to provide external test delivery services for national curriculum tests.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families for what reasons the results of the key stage 2 and key stage 3 tests which had been marked as at 8 July 2008 have been withheld from schools; and if he will make a statement. [219215]

Jim Knight: The administration and marking of national curriculum tests is a function of the Qualifications and Curriculum Authority (QCA). Ken Boston, Chief Executive of the QCA, informed the Department of a potential delay to results on 1 July, and wrote to me on 2 July to confirm that he expected there to be delays in publishing the results of national curriculum tests. This was both because marking would not be complete by 8 July, and because of technical issues around data transfer.

Following extensive discussions between the Department and QCA and after further advice from Ken Boston,

including in a letter to me of 3 July, the Secretary of State wrote to Barry Sheerman, the Chairman of the Children, Schools and Families Select Committee, to inform him that Key Stage 2 results would be delayed by a week until 15 July, with Key Stage 3 results that are available to be released by the end of the week of 15 July.

QCA advised that the delays would enable the vast majority of Key Stage 2 marking to be complete. In the case of Key Stage 3, while it would take longer to complete results, the delay would ensure that as many schools as possible to receive results before the end of term. The decision to delay results to all schools was to enable the process to happen in an orderly fashion, minimising uncertainty for schools.

We understand that this delay will inconvenience many schools, and we share their frustration and disappointment. NAA is using every measure at its disposal to ensure that all results are delivered as quickly as possible.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what proportion of 2008 key stage 3 tests in English had been marked at the latest date for which figures are available. [220481]

Jim Knight: The administration and marking of national curriculum tests is a function of the Qualifications and Curriculum Authority (QCA) that is delivered independently of Government. The National Assessment Agency (NAA) is responsible for the marking process, which is managed by ETS Europe, their test delivery contractor.

We have been advised by NAA that 71 per cent. of pupils' key stage 3 English results have been released to schools on Friday 18 July 2008. NAA also advised that there are still some scripts remaining to be marked; other scripts have been marked but are awaiting data entry and technical issues have caused delays to this process.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) what criteria were used to assess ETS Europe during the procurement process for the contract to deliver standard assessment tests; [220493]

(2) from which organisations his Department sought references on ETS as part of the procurement process for the SAT contract. [220406]

Jim Knight: The administration and marking of national curriculum tests is a function of the Qualifications and Curriculum Authority (QCA) that is delivered independently of Government. The National Assessment Agency (NAA) is responsible for the marking process, which is managed by ETS Europe, their test delivery contractor. I have therefore asked David Gee, managing director of the NAA, to write to the hon. Member. A copy of his letter has been placed in the Library.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families when he was informed of problems with the standard assessment testing and marking systems and the particular problems with the ETS Europe contract. [220497]

Jim Knight: The National Assessment Agency (NAA), the division of the Qualifications and Curriculum Authority (QCA) which delivers the national curriculum tests alerted the Department to a number of issues with delivery of national curriculum tests during the test delivery period. We sought and received consistent and regular assurances that the action being taken would resolve those issues and keep the NAA and ETS Europe, their test delivery contractor, on track for release of results to schools on schedule.

The Department was alerted to more significant delivery problems on 1 July. Ken Boston, the chief executive of QCA, wrote to me on 2 July confirming that he expected there would be delays in publishing national curriculum test results, both because marking would not be complete by 8 July, and because of technical issues around data transfer.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families when the Qualifications and Curriculum Authority (QCA) first became aware that there were potential problems with the standard assessment testing and marking systems; and when the QCA informed Ministers of those potential problems. [220498]

Jim Knight: The administration and marking of national curriculum tests is a function of the Qualifications and Curriculum Authority (QCA) that is delivered independently of Government. The National Assessment Agency (NAA) is responsible for the marking process, which is managed by ETS Europe, their test delivery contractor. I have therefore asked David Gee, Managing Director of the NAA, to write to the hon. Member. A copy of his letter has been placed in the Library.

Letter from David Gee, dated 21 July 2008:

The Secretary of State for Children, Schools and Families, Rt Hon Ed Balls, has asked me to write to you to answer parliamentary question 220498.

The National Assessment Agency (a subsidiary of the QCA) has closely monitored the development of ETS marking systems since the company was first awarded the contract in early 2007.

The NAA alerted the Department to a number of issues with delivery of national curriculum tests during the test delivery period.

The NAA first formally challenged ETS on marking completion on 23 June 2008. ETS responded on the 26 June 2008.

The Secretary of State was alerted on Tuesday 1 July 2008 to these more significant delivery problems. Ken Boston, the Chief Executive of QCA, wrote to Jim Knight on 2 July confirming that he expected there would be delays in releasing national curriculum test results, both because marking would not be complete by 8 July, and because of technical issues around data transfer.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what meetings attended by Ministers and officials from his Department on the standard assessment tests and marking system were held between September 2007 and 26th June 2008. [220517]

Jim Knight: My right hon. Friend the Secretary of State and I have regular meetings with the Qualifications and Curriculum Authority (QCA), of which the National Assessment Agency (NAA) is a division. Recent meetings have included discussions on the administration and

marking of Key Stage tests in 2008, which are now the subject of an independent inquiry being chaired by Lord Sutherland.

Between September 2007 and 26 June 2008 my officials have met with NAA routinely to discuss national curriculum test delivery. The Department is represented on the QCA Board as an observer. Senior officers from QCA and officials from this Department meet every six weeks, to discuss QCA's core business, including national curriculum test delivery. A monthly Assessment Board, chaired by a senior official, was established in March 2008 to oversee the delivery of the Department's assessment policy.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families when Lord Sutherland's report into the delivery of the Department's policy by the Qualifications and Curriculum Authority and the National Assessment Agency will be published. [220518]

Jim Knight: We have agreed that Lord Sutherland's inquiry into the delivery of National Curriculum tests will report to both the Secretary of State for Children, Schools and Families and Ofqual in the autumn, and that those reports will be published. Lord Sutherland will confirm a date for publication of the final reports in the autumn.

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many key stage 2 pupils received a teacher assessment grading their performance at level six or higher in *(a)* 2007 and *(b)* 2006. [220784]

Jim Knight: The number of Key Stage 2 pupils who received a teacher assessment grading their performance at level six in 2007 is available in Table 3b of the Statistical First Release titled "National Curriculum Assessments at Key Stage 2 in England, 2007 (Provisional)" which is available at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000737/index.shtml

The number of Key Stage 2 pupils who received a teacher assessment grading their performance at level six in 2006 is available in Table 3b of the Statistical First Release titled "National Curriculum Assessments at Key Stage 2 in England, 2006 (Provisional)" which is available at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000673/index.shtml

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many Key stage 2 pupils achieved a level five result in at least one subject in 2007. [220785]

Jim Knight: The available information is contained in Table 4a of the Statistical First Release titled "National Curriculum Assessments at Key Stage 2 in England, 2007 (Revised)" which can be found at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000764/index.shtml

The table contains percentage of Key Stage 2 pupils who achieved a level five result in at least one subject in 2007.

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) what steps were taken by his Department to corroborate the evidence offered by the State Education Board of California in its role as referee for ETS's tender for the contract to mark Key Stage 2 and 3 examinations; [220787]

(2) what the difference was between the cost of the tender put forward by ETS for the contract to mark Key Stage 2 and 3 examinations and those put forward by other bidders. [220789]

Jim Knight: The administration and marking of national curriculum tests is a function of the Qualifications and Curriculum Authority (QCA) that is delivered independently of Government. The National Assessment Agency (NAA) is responsible for the marking process, which is managed by ETS Europe, their test delivery contractor. I have therefore asked David Gee, managing director of the NAA, to write to the hon. Member. A copy of his letter has been placed in the Library.

Michael Gove: To ask the Secretary of State for Children, Schools and Families if he will publish the Qualifications and Curriculum Authority's strategy in respect of the introduction of online systems for assessment run by ETS. [221040]

Jim Knight: The administration and marking of national curriculum tests is a function of the Qualifications and Curriculum Authority (QCA) that is delivered independently of Government. The National Assessment Agency (NAA) is responsible for the marking process, which is managed by ETS Europe, their test delivery contractor. I have therefore asked David Gee, Managing Director of the NAA, to write to the hon. Member. A copy of his letter has been placed in the Library.

Letter from David Gee, dated 21 July 2008:

The Secretary of State for Children, Schools and Families, Rt Hon Ed Balls, has asked me to write to you to answer parliamentary question 221040.

The NAA's invitation to tender for the procurement of test delivery services required bidders to offer proposals to improve the quality of marking and capture additional item and question level data from pupils. The successful bidder, ETS Europe proposed several on-line online solutions for the delivery of the 2008 test cycle, of which the following three were accepted:

1. On-line standardisation
2. On-line Mark capture
3. On-line benchmarking (Quality assurance during marking).

Michael Gove: To ask the Secretary of State for Children, Schools and Families what correspondence he has had with the Qualifications and Curriculum Authority since 30 March 2008; and if he will place in the Library copies of the correspondence. [221041]

Jim Knight *[holding answer 22 July 2008]:* The Qualifications and Curriculum Authority (QCA) publish a copy of all official correspondence between the Secretary of State and QCA on their website three times a year. A copy of the correspondence up until the end of April 2008 is currently available on QCA's website and this will be updated at the end of October 2008 to cover correspondence from May to August 2008. The QCA's website can be accessed at:

www.qca.org.uk.

Michael Gove: To ask the Secretary of State for Children, Schools and Families at what point the identified risks relating to the implementation of new online systems of assessment through ETS were entered on his Department's corporate risk register. [221042]

Jim Knight *[holding answer 22 July 2008]:* Risks and mitigations for the introduction of new delivery processes in 2008 for the end of the key stage tests were entered on the Department's high level risk register on 5 July 2007.

Education: Cumbria

Mr. Jamie Reed: To ask the Secretary of State for Children, Schools and Families how his Department plans to improve attainment levels amongst Cumbrian pupils following the transition from primary to secondary education. [219901]

Jim Knight: The Department's role is to support locally-led improvement strategies. Schools—governing bodies, heads and teachers—have the lead responsibility for raising standards, supported and challenged by local authorities who work closely with partners to bring together all the wider services that enable children to succeed and achieve.

There are a number of initiatives under way that will improve attainment for Cumbria's pupils. A joint Children's Performance Improvement Board for Cumbria has been in operation since February 2008. The Board's aim is to bring strategic drive to tackling the significant underachievement in the local authority's (LA) secondary schools as well as providing support and challenge to the LA's school improvement service. The Board is looking at how schools currently in Ofsted categories can be effectively supported to improve and how the LA can develop better mechanisms for identifying and challenging underperforming schools at risk of falling into failure.

The Academies programme is already acting as a catalyst to help transform secondary education in Cumbria. Carlisle will benefit from two Academies offering enhanced curriculum and extended schools facilities. Westlakes Academy and the planned Barrow Academy will improve the life chances of all young people in the area, and will help regenerate the local economies and offer co-located services.

The National Challenge programme launched on 10 June will provide intensive support for all secondary schools in England where fewer than 30 per cent. of pupils achieve five or more good GCSEs including English and mathematics. We are currently waiting for Cumbria to submit plans for their National Challenge schools, identifying what they intend to do to raise attainment above 30 per cent. and how much money they will need from the £400 million available nationally to carry out these plans. Every school will have a National Challenge Adviser as well as access to a range of bespoke school improvement solutions. Where appropriate, funding will provide for radical structural solutions such as Academies and Trusts, including new National Challenge Trusts.

English Language: Assessments

Michael Gove: To ask the Secretary of State for Children, Schools and Families what proportion of *(a)* deaf children and *(b)* all children failed to attain level 3 at key stage 2 English in the latest period for which figures are available. [220142]

Jim Knight: Table 73 of the Statistical First Release 'National Curriculum Assessment, GCSE and Equivalent Attainment and Post-16 Attainment by Pupil Characteristics, in England 2006/07' shows Key Stage 2 attainment by SEN stage and primary SEN type. This SFR is available at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000759/index.shtml

Table 73 can be found via the 9 Additional Information Excel link.

The table includes information on the attainment of children with a hearing impairment, as information on deaf children is not one of the types of SEN collected. These figures also only include those identified with a statement of SEN or with SEN at School Action Plus who have a hearing impairment as their primary SEN type.

Faith Schools

Paul Holmes: To ask the Secretary of State for Children, Schools and Families how many and which schools and academies have been designated as having a religious character since 1997. [220229]

Jim Knight: The table 8 of the Statistical First Release (SFR 30/2007) reports information about Maintained Primary and Secondary Schools and is available at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000744/index.shtml

This information will be updated for 2008, on Thursday 24 July and will be available on the Research and Statistics Gateway at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000786/index.shtml

The definition has been amended from 2008 and now includes maintained primary and secondary schools and academies.

Faith Schools: Teachers

Paul Holmes: To ask the Secretary of State for Children, Schools and Families how many teachers work in schools with a religious designation; and how many are in *(a)* voluntary aided, *(b)* voluntary controlled, *(c)* foundation and *(d)* academy schools. [220230]

Jim Knight: The following table provides the full-time equivalent number of teachers in publicly funded schools in England designated as having a religious character broken down by type in England, January 2008.

Full-time equivalent teachers with a religious character within publicly funded voluntary aided, voluntary controlled, foundation schools and academies. Year: January 2008—Coverage: England

	Number
Voluntary Aided[1]	66,530
Voluntary Controlled[1]	22,440
Foundation[1]	1,190
Academies[1]	1,650

Full-time equivalent teachers with a religious character within publicly funded voluntary aided, voluntary controlled, foundation schools and academies. Year: January 2008—Coverage: England

	Number
Total[1]	91,810
All Schools[2,3,4]	441,210

Source:
School Census[1] and Annual Survey of Teachers in Service and Teacher Vacancies, 618g[2]
[3] includes Academies and City Technology Colleges.
[4] Provisional.
Figures are rounded to the nearest 10.

Further Education

Mr. Hunt: To ask the Secretary of State for Children, Schools and Families (1) how many colleges listed sport as *(a)* a specialism, *(b)* a second specialism and *(c)* a combined specialism in each of the last three years; [218865]

(2) how many colleges listed design as *(a)* a specialism, *(b)* a second specialism and *(c)* a combined specialism in each of the last three years; [218866]

(3) how many colleges listed music as *(a)* a specialism, *(b)* a second specialism and *(c)* a combined specialism in each of the last three years. [218867]

Jim Knight: The following tables provide details of the numbers of schools that have been designated as sports, technology, engineering and music colleges in each of the last three years. Design is not one of the 10 specialisms for which schools can apply under the specialist schools programme. I have, however, provided details of the number of technology and engineering colleges as design and technology is one of the subjects which schools designated as technology or engineering colleges may focus on. I would also refer the hon. Member to my answer of 21 July 2008 which set out the number of arts colleges designated in each of the last three years. Arts colleges specialising in visual or media arts will have an element of design within their specialist curriculum.

	2005/06	2006/07	2007/08	Totals
Sports				
Specialism *(a)*	26	23	32	81
Second specialism *(b)*	7	12	2	21
Combined specialism *(c)*	5	9	0	14
Sports totals	38	44	34	116
Technology				
Specialism *(a)*	28	10	9	47
Second specialism *(b)*	1	0	0	1
Combined specialism *(c)*	3	4	1	8
Technology totals	32	14	10	56
Engineering				
Specialism *(a)*	7	7	4	18
Second specialism *(b)*	0	0	0	0
Combined specialism *(c)*	1	0	0	1
Engineering totals	8	7	4	19
Music				
Specialism *(a)*	5	4	6	15
Second specialism *(b)*	5	5	1	11
Combined specialism *(c)*	2	2	1	5
Music totals	12	11	8	31

General Certificate of Secondary Education

Mr. Hayes: To ask the Secretary of State for Children, Schools and Families what proportion of pupils left secondary school with *(a)* one, *(b)* two, *(c)* three, *(d)* four, *(e)* five, *(f)* six, *(g)* seven, *(h)* eight, *(i)* nine and *(j)* 10 or more GCSEs graded at C or above in 2007. [217993]

Jim Knight: In 2007, the following percentage of pupils at the end of key stage 4 obtained the following GCSEs and equivalents at grades A*-C.

GCSEs and equivalents at grades A-C*	Percentage
1 or more	82.5
2 or more	76.1
3 or more	71.1
4 or more	67.1
5 or more	62.0
6 or more	56.7
7 or more	51.5
8 or more	45.8
9 or more	38.4
10 or more	27.0

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils achieved five or more A* grades at GCSE in 2007. [220848]

Jim Knight: In 2007, 18,482 (2.8 per cent.) pupils achieved at least five A* grades at GCSE.

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils received A or A* grades in all their GCSE examinations in 2007. [220849]

Jim Knight: In 2007, 23,746 (3.7 per cent.) pupils achieved at least an A grade in all their GCSEs.

Ofsted: Industrial Relations

Mr. Drew: To ask the Secretary of State for Children, Schools and Families if he will intervene in the dispute between Ofsted and the trades unions Unison and PCS. [221537]

Jim Knight: This is entirely a matter for Ofsted. Ministers have no powers to intervene. Ofsted has developed a new pay model, in consultation with staff and the

trade unions to address some historic concerns about its salary structure. The new model is designed to be simple, fair and transparent, and has helped to secure an above average settlement of 3.8 per cent. from Her Majesty's Treasury. It is based on one salary rate for each grade and Ofsted considers it to be both competitive and affordable. I have been advised by Her Majesty's chief inspector, Christine Gilbert, that Ofsted has engaged in extensive discussions with the unions about the settlement. There is no further money available for pay and Ofsted is unable to respond to the trade union demands regardless of the actions they are taking or may take in the future.

Playgrounds: Disabled

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the proportion of local authority playgrounds which have facilities suitable for children who use wheelchairs. [220894]

Beverley Hughes: Provision of playgrounds is a local authority responsibility. In planning and providing playgrounds local authorities ensure that there is suitable access for all children and comply with the disability discrimination legislation.

In the Children's Plan we committed to invest an additional £235 million to fund up to 3,500 public play areas nationally by 2011. The £235 million investment will build on existing funding, and provide a real opportunity to transform play areas throughout the country. We have been clear that the additional play areas should be accessible by disabled children.

This Government are fully committed to improving the life chances of disabled children, through an ambitious programme for transforming services.

Pre-U Qualification

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many schools have applied for funding for the pre-U qualification. [219562]

Jim Knight: This information is not currently available.

Primary Education: School Meals

Rosie Cooper: To ask the Secretary of State for Children, Schools and Families what steps his Department is taking to increase the provision and take-up of healthy school meals in primary schools. [221728]

Jim Knight: The Department is taking a number of steps to increase the take up of meals served in primary schools and to ensure all children have access to healthy food whilst at school.

School lunch take-up is one of the indicators in the new Child Health PSA and is one of the indicators in the National Indicator Set. New food-based nutritional standards were introduced in September 2006 for school lunches and from September 2007 for other school food. Nutrient-based standards will be introduced for school lunches in September 2008 for primary schools and September 2009 for secondary schools.

We are investing over £650 million between 2005 and 2011 to help improve school food and keep school lunch prices down. This includes funding to help build kitchens in areas with no kitchen facilities and to better support the development of training centres for the school food workforce. We are also providing an extra £6 million over the next three years to promote healthy food to young people and raise take up.

Increasing school lunch take-up is also a priority for the School Food Trust. The Trust is supporting schools through its Million Meals Campaign and encouraging healthier eating through its Get Real media campaign aimed at young people. That work is having an impact as shown by the provisional findings from their third annual survey of take up of school meals, reporting on the 2007-08 financial year. In primary schools take up in 2007-08 was 43.6 per cent. an increase of 2.3 percentage points on the value reported for 2006-07 of 41.3 per cent. These figures illustrate that the number of primary school children eating school meals rose by roughly 88000 from 2006-07 to 2007-08.

Pupil Referral Units: General Certificate of Secondary Education

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many and what proportion of 15 year old pupils in a pupil referral unit sat a GCSE examination in 2007. [217200]

Jim Knight: Statistics on GCSE entries and achievement by pupils in pupil referral units are not available for 2007.

Pupils: Per Capita Costs

Mr. Laws: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 10 July 2008, *Official Report*, columns 1818-9W, on pupils: per capita costs, how the amounts per place for level 2 *(a)* engineering, *(b)* society, health and development, *(c)* IT and *(d)* creative and media were calculated; and if he will make a statement. [220878]

Jim Knight: Guidance was issued to local authorities and 14-19 Partnerships on the funding available, including how the grant has been calculated, and can be accessed through the 14-19 education and skills website at:

http://www.dfes.gov.uk/14-19/index.cfm?go=site.home&sid=43&pid=399&ctype=TEXT&ptype=Single

Qualifications and Curriculum Authority: Pay

Michael Gove: To ask the Secretary of State for Children, Schools and Families what salaries were paid to each board member of the Qualifications and Curriculum Authority in the last year. [221652]

Jim Knight: QCA board members do not receive a salary. They are however reimbursed for the cost of any travel and subsistence incurred in performing their duties for QCA.

Schools

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many school federations took place in each year since 2005; and how many federations are planned. [219563]

Jim Knight: Schools are not currently required to notify the Department when establishing or joining a federation so the Department does not keep a systematic record of this activity. As more schools become aware of the benefits of federation we expect numbers to grow over the coming years.

Schools: Admissions

Mr. Milburn: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the socio-economic profile of those parents appealing to get their children into the school of their choice. [220658]

Jim Knight: We commissioned Sheffield Hallam university, in conjunction with NatCen, to map the effectiveness of the admission arrangements in England in 2006, and to assess parents' experience of these arrangements.

The study found no significant association between parents' family characteristics and the likelihood that they would appeal against not getting a school of their choice.

Philip Davies: To ask the Secretary of State for Children, Schools and Families (1) how many applications for school places were found to have been made on a fraudulent basis in each of the last five years; [220918]

(2) what guidance is given to local authorities on the investigation of allegations of fraudulent activity in school preference applications. [220919]

Jim Knight: Information on fraudulent applications for school places is not collected centrally and we do not provide guidance to local authorities on investigating such applications.

Schools: Crimes of Violence

Mr. Jenkins: To ask the Secretary of State for Children, Schools and Families how many teachers in England have reported being the subject of violence perpetrated by *(a)* a pupil and *(b)* a parent or guardian of a pupil in each of the last five years. [220135]

Jim Knight: Data are not collected centrally on the number of teachers who have been subject to violence.

The Department does collect information on the number of exclusions from schools which occur following assault on an adult, this was collected for the first time for 2004/05. Information on the number of permanent and fixed period exclusions due to assault against an adult, broken down by local authority, and covering the academic years 2004/05 and 2005/06 has been placed in the House of Commons Library.

The latest information on the number of permanent and fixed period exclusions due to assault against an adult, broken down by local authority has been published at the following link:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000793/index.shtml

Schools: Finance

Mr. Drew: To ask the Secretary of State for Children, Schools and Families what reserves *(a)* primary and *(b)* secondary schools hold, broken down by local education authority. [221536]

Jim Knight: The latest available information on the revenue balances held by primary and secondary schools, broken down by local education authority, has been placed in the Library of the House.

Schools: Industrial Disputes

Sarah Teather: To ask the Secretary of State for Children, Schools and Families how many schools were closed in each London borough as a result of industrial action on 16 and 17 July 2008. [220125]

Jim Knight: Government Departments with responsibility for services delivered via local authorities were provided with data by Government Offices about service closures resulting from industrial action on 16 and 17 July. That data indicates that across all London boroughs around 140 schools in total were closed on each day of industrial action. However the Department has no means of validating the data, except by incurring disproportionate costs or burdens.

Schools: Safety

Mr. Ruffley: To ask the Secretary of State for Children, Schools and Families (1) what guidance his Department issues to schools other than that relating to the Criminal Records Bureau checking procedures on the steps schools should take to ensure safe school environments for children; [220916]

(2) whether employees of businesses offering work experience to diploma students will be required to undergo Criminal Records Bureau checks; and if he will make a statement. [221030]

Jim Knight: The Government issued comprehensive guidance for schools and other education institutions, "Safeguarding Children and Safer Recruitment in Education" in November 2006 and this came into force in January 2007. This sets out the responsibilities of all local authorities, Schools and Further Education Colleges in England, to safeguard and promote the welfare of children. This guidance includes arrangements for safe and responsible recruitment of teachers and other staff in schools and further education colleges and sets out background and other checks required on new members of staff. The guidance is available online at:

http://www.teachernet.gov.uk

and hard copies have been made available to schools and colleges.

In addition, the Department have made available on the Teachernet website a range of guidance on health and safety and school security issues. This can be found at:

http://www.teachernet.gov.uk/wholeschool/healthandsafety/

The relevant guidance to employees of businesses offering work experience to students at Key Stage 4 and to 16-18 year olds is contained in Annex A and Appendix 14 of the Department's guidance "Safeguarding Children

and Safer Recruitment in Education". In principle, any person whose normal duties will include regularly clearing for, training, looking after or supervising a child in the workplace should be vetted and subject to CRB disclosures to ensure he or she is not disqualified from working with children or otherwise unsuitable to be responsible for them. It is intended to apply to people who are specifically designated to have responsibility for looking after, supervising or directly training a child or children throughout the placement.

Schools: Standards

Jim Cousins: To ask the Secretary of State for Children, Schools and Families what proportion of children aged 16 years or under are attending the schools identified as part of the National Challenge in each local education authority. [219738]

Jim Knight: The proportion of students aged 11-16 attending a school where fewer than 30 per cent. of students achieved five or more good GCSEs including English and mathematics in 2007 as a percentage of total students aged 11-16 attending schools in that local authority is set out in the following table.

John Battle: To ask the Secretary of State for Children, Schools and Families which two regions had *(a)* the highest performing state schools and *(b)* the lowest performing state schools in the latest period for which figures are available; and what assessment he has made of the possible relationship between school performance and average house prices in an area. [220688]

Jim Knight: There is no single measure of overall school performance across the different key stages. The individual indicators for each key stage are published at school and local authority level in the achievement and attainment tables found in the House of Commons Library.

No assessment has been made of the possible relationship between school performance and average: house prices, in an area.

Schools: Uniforms

Mr. Evans: To ask the Secretary of State for Children, Schools and Families how many schools in *(a)* Ribble Valley, *(b)* Lancashire and *(c)* England have school specific uniform. [221202]

Jim Knight *[holding answer 22 July 2008]:* The Department for Children, Schools and Families does not collect this information. It is for the governing body of each school to decide whether to have a school uniform and set rules relating to appearance.

Secondary Education: Colchester

Bob Russell: To ask the Secretary of State for Children, Schools and Families on what dates Ministers in his Department have had meetings with the Leader of Essex County Council in respect of secondary school provision in Colchester constituency in the last 12 months. [214758]

Jim Knight: Our records indicate that, during the last 12 months, there were DCSF ministerial meetings with the Leader of Essex county council on 17 July 2007 and on 21 April and 4 June this year. Those discussions included matters relating to school improvement in the local authority, including the need for urgent action to be taken to improve educational provision for pupils attending some schools in Colchester.

Secondary Education: Consultants

Michael Gove: To ask the Secretary of State for Children, Schools and Families how much his Department spent on consultants working on the new 14 to 19 curriculum in each of the last 24 months. [219281]

Jim Knight: I cannot provide a month by month breakdown of this expenditure at proportionate cost, therefore, annual figures have been provided. To date, for 2006-07, 2007-08 and 2008-09 the Department has paid £1,428 million, £2.014 million and £319,000 respectively to consultants working on Diploma implementation.

Sixth Form Education: Collective Worship

Dr. Evan Harris: To ask the Secretary of State for Children, Schools and Families what information his Department has provided to sixth-formers about their right to opt in and out of collective worship. [221161]

Jim Knight: The right of sixth-formers to excuse themselves from collective worship, as set out in section 55 of the Education and Inspections Act 2006, was commenced in September 2007. We have updated guidance which is sent out to schools and governors, as well as guidance on our websites to reflect the position.

Special Educational Needs

Mr. Oaten: To ask the Secretary of State for Children, Schools and Families how much time it has taken on average for children to be placed in schools following the conclusion of special educational needs and disability tribunal appeals in each of the last three years. [219975]

Jim Knight *[holding answer 21 July 2008]:* This information is not collected centrally.

We place great importance in ensuring local authorities comply with orders made by SENDIST within statutory time limits. The Secretary of State will not hesitate to use his powers to direct an authority as to the action they should take where he is aware an authority is failing to comply with a statutory duty.

Specialised Diplomas

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how much his Department *(a)* spent on diplomas in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08 and *(b)* plans to spend on diplomas in (A) 2008-09, (B) 2009-10, (C) 2010-11 and (D) 2011-12, broken down by (1) development costs, (2) preparation costs, (3) direct and indirect delivery costs, (4) workforce development costs and (5) transport costs; and if he will make a statement. [216507]

Jim Knight: The Department does not collate costs in exactly the categories requested by the hon. Member, so I will write to him shortly with further information and place a copy of my reply in the Library.

Specialist Schools

Mr. Harper: To ask the Secretary of State for Children, Schools and Families (1) for what reasons the criteria for schools to become high performing specialist schools and entitled to a second specialism was changed; [220213]

(2) what estimate he has made of the number of schools that no longer qualify for a second specialism following recent criteria changes; and what assessment he has made of the effect this change will have on *(a)* school finances and *(b)* his Department's finances. [220220]

Jim Knight: In 2008 we maintained the fundamental aspects of the 2007 high performing specialist school (HPSS) criteria but raised minimum thresholds for GCSE 5+ A*-C including English and mathematics. The reasons for these changes were: to reflect the introduction of the national challenge and the Government's target that all secondary schools should have at least 30 per cent. of their pupils achieving five or more A*-C GCSEs including English and mathematics; to ensure that only the top third of re-designated schools qualify for the HPSS programme; and to make the best use of available resources.

We estimate that as at the end of June 2008, the changes to the criteria for HPSS introduced this year impact on eight existing HPSS. These schools still have the opportunity to maintain the status if their 2008 results are above the necessary threshold. Specialist schools receive an additional £60,000 to £90,000 per year depending on the HPSS roles acquired. Schools that do not meet the criteria will retain funding for these additional roles until August 2009 to plan for any loss in funding. The impact on the Department's budget is neutral as we continue to identify new HPSS and remain on schedule to identify a total of 30 per cent. of all specialist schools to take on an additional HPSS role by 2011.

Specialist Schools: Standards

Judy Mallaber: To ask the Secretary of State for Children, Schools and Families (1) how many schools have high performing specialist status; [221511]

(2) in what percentage of high performing specialist schools at least 65 per cent. of pupils have been awarded five or more A* to C GCSEs, including English and mathematics in all three of the last three years; [221512]

(3) if he will list, for each designated high performing specialist school *(a)* its school context indicator, *(b)* the percentage of pupils achieving five or more A* to C GCSEs including English and mathematics in each of the last three years and *(c)* the percentage of pupils achieving five or more A* to C GCSEs in any subjects in each of the last three years. [221513]

Jim Knight: There are currently 600 high performing specialist schools in operation. Of these schools, 26 per cent. achieved at least 65 per cent. 5+ A*-C GCSEs including English and maths in all of the last three years. The list which shows each high performing specialist school, the percentage of pupils achieving 5+ A*-C GCSEs and the percentage of pupils achieving 5+ A*-C GCSEs including English and maths for each of the last three years has been placed in the Libraries.

It also includes details of contextual value added scores and eligibility for free school meals, as indicators of school context.

Teachers' Pensions: Resource Accounting and Budgeting

Mr. Philip Hammond: To ask the Secretary of State for Children, Schools and Families when he will publish the 2007-08 resource accounts for the Teachers' Pension Scheme. [221173]

Jim Knight: The 2007-08 resource accounts for the Teachers' Pension Scheme will be laid after the summer recess.

Teachers: Costs

Mr. Jamie Reed: To ask the Secretary of State for Children, Schools and Families what estimate his Department has made of the average annual cost to local authorities of employing *(a)* supply teachers and *(b)* permanently employed teachers. [219900]

Jim Knight: The Department does not hold information centrally on the average cost to local authorities of employing supply teachers. However, from local authority Section 52 Outturn Statements submitted to the DCSF, local authority maintained schools in England spent

£872 million on supply teachers during the 2006-07 financial year (comprising of £433.3 million for directly employed supply teachers and £438.7 million for agency supply teachers).

The average cost per regular full-time qualified classroom teacher in England as at March 2006 was £38,400. This includes superannuation and national insurance. The average is for all regular full-time qualified classroom teachers in England except head, deputy and assistant head teachers.

Teachers: Pay

Mr. Jenkins: To ask the Secretary of State for Children, Schools and Families what the average *(a)* primary and *(b)* secondary school teacher's salary was in each local authority area in each of the last two years. [220133]

Jim Knight: The information requested has been placed in the House of Commons Library.

Teachers: Stress

Jo Swinson: To ask the Secretary of State for Children, Schools and Families what research his Department has conducted into the effect of stress on *(a)* teachers and *(b)* the academic performance of pupils. [220750]

Jim Knight [holding answer 21 July]: The Department has not commissioned research to examine the effect of stress on teachers or its effect on the academic performance of pupils. However, DfEE research on teacher absence published in 2000 "(Health Retirement and absenteeism Amongst teachers, Research Report 235)" found stress was the fourth most common reason for absence.

We are aware of other research conducted by other organisations, such as a review conducted by the Institute of Education in 2004 on the impact of assessments and tests on student's motivation for learning.

Technology: Secondary Education

Stephen Hesford: To ask the Secretary of State for Children, Schools and Families what allocation his Department has made for expenditure on technology training for secondary school teachers in 2008-09. [219924]

Jim Knight: Technology is part of the design and technology curriculum. The DCSF is providing funding of around £1.8 million in 2008-09 for a number programmes that specifically support design and technology related teaching and learning in secondary schools.

Welsh Language

Mr. Crabb: To ask the Secretary of State for Children, Schools and Families what recent assessment he has made of the level of demand for the services provided by *(a)* his Department and *(b)* its agencies and non-departmental bodies to be provided in the Welsh language; and if he will make a statement. [210549]

Beverley Hughes: The Department maintains a record of requests for its publications in the Welsh language. It has not made a further recent assessment of the level of demand for its services, or those of its non-departmental bodies, provided in the Welsh language.

Work Experience: Accidents

Mr. Rooney: To ask the Secretary of State for Children, Schools and Families on how many occasions the board of his Department and its predecessor discussed children's workplace accidents since 2002. [220900]

Jim Knight *[holding answer 22 July 2008]:* Since 2002, the Board of the Department for Children, Schools and Families and its predecessor has not specifically discussed children's workplace accidents.

Prevention of accidents has been given a new focus by this Government as it forms one of the key strands of work in Public Service Agreement 13 "Improve children and young people's safety." A cross Government priority review of accident prevention has also just begun which was a key commitment in the Staying Safe: Action Plan (February 2008). The review is likely to make recommendations to Ministers in autumn 2000.

Prior to a work experience placement a health and safety check will be carried out, either directly by a school or by an Education Business Partnership Organisation on behalf of a school. Advice, if it is needed, is given to the employer to help them take account of the young person's level of maturity. Health and safety of everyone on an employer's premises is the responsibility of the employer.

The DGSF Board regularly considers progress against the work set out in all its PSAs.

Mr. Rooney: To ask the Secretary of State for Children, Schools and Families (1) what use his Department makes of children's work experience accident data in terms of *(a)* accountability and ownership of risk and *(b)* appropriate reporting procedures; [220901]

(2) how many children under the age of 16 years have been involved in accidents while undertaking vocational work experience since 2002. [220902]

Jim Knight *[holding answer 22 July 2008]:* It is our policy that all young people have the opportunity to benefit from work experience and we estimate that around 95 per cent. do so, amounting to over half a million placements each year during key stage 4, the final two years of compulsory education. We have published a new standard for work experience which includes specific references to roles and responsibilities for the health and safety of young people. Records of accidents during school hours, including those occurring during work experience, are held by schools who have the primary duty of care. Employers are also responsible for everyone on their premises. The Department for Children, Schools and Families does not collect or hold such data centrally but anecdotal evidence suggests that, with such a massive volume of placements, the track record on safety is first rate and a credit to everyone involved.

Young People: Employment

David Simpson: To ask the Secretary of State for Children, Schools and Families how many and what proportion of people who left school in each region of England and Wales in 2007 *(a)* have secured full-time employment, *(b)* have secured part-time employment, *(c)* are on a training scheme and *(d)* are unemployed. [219926]

Jim Knight: Estimates of the number and proportion of 16-year-olds (that is, those in the academic year immediately following completion of compulsory education) participating in full-time education for each region in England at the end of 2007 are shown in the following tables, based on the Department's principal participation estimates, published in a Statistical First Release (SFR). Estimates from the Labour Force Survey from the first quarter of 2008 have then been applied to the SFR figures in order to estimate the number and proportion not in full-time education in *(a)* full-time employment, *(b)* part-time employment, *(c)* Government employment and training programmes, and *(d)* not employed. Participation rates for Wales are a matter for the Welsh Assembly.

Activity of young people of academic age 16 at end 2007, (Percentage)s

	Full-time education	*Full-time employment*	*Part-time employment*	*Government employment and training programme*[1]	*Not employed*
North East	74	8	3	7	9

South East	82	6	4	0	9
South West	78	6	6	1	10
England	78	7	3	2	10

Activity of young people of academic age 16 at end 2007, (Number)

	Full-time education	*Full-time employment*	*Part-time employment*	*Government employment & training programme*[1]	*Not employed*	*Population*
North East	24,600	2,500	900	2,200	3,000	33,500
North West	70,800	7,600	1,700	2,500	11,900	94,506
Yorkshire and Humberside	49,500	8,300	1,800	1,800	7,800	69,200
East Midlands	43,200	5,700	2,900	700	6,100	58,600
West Midlands	57,300	5,000	900	2,200	8,600	74,000
Eastern	57,200	6,000	2,500	—	6,900	72,600
London	75,300	1,700	600	1,400	7,200	86,200
South East	88,900	6,400	4,000	—	9,500	108,800
South West	52,400	3,700	3,800	400	6,900	67,200
England	519,100	47,200	19,000	11,600	67,600	664,500

[1] Note that young people on apprenticeships will be recorded as in full-time or part-time employment The Government employment and training programme category covers other work-based training and entry to employment.

Young People: Unemployed

Mr. Willetts: To ask the Secretary of State for Children, Schools and Families when he plans to publish statistics on those not in education, employment or training for the first quarter of 2008; what the schedule for publication of this statistical series is; and if he will make a statement. [220662]

Jim Knight: The labour force survey (LFS) NEET statistics for the first quarter of 2008 will be published on the Department's website at the same time as the quarter 2 figures, as part of the NEET quarterly brief. We intend to publish this by the end of August, following analysis of the raw quarter 2 LFS data, which will become publicly available on the 13 August.

The NEET quarterly brief is not a National Statistics publication and does not have a pre-arranged set of publication dates. It is published voluntarily by the Department, usually one or two weeks after the LFS data becomes available, in order that the public has access to NEET figures from a variety of sources. The latest published NEET quarterly brief, including data up until quarter 4 2007, is available at:

http://www.dfes.gov.uk/rsgateway/DB/STA/index.shtml

HEALTH

Abortion

Mr. Amess: To ask the Secretary of State for Health how many officials in his Department have responsibility for the *(a)* formulation and *(b)* implementation of policy on abortion, broken down by pay band; and if he will make a statement. [219711]

Mr. Bradshaw: There are seven officials in the Department who, as part of their duties, have direct responsibility for the formulation and implementation of policy on abortion.

	Number
Senior Executive Officer	1
Grade 7	1
Grade 6	1
Senior Civil Servant 1	1
Senior Civil Servant 2	1
Senior Civil Servant 3	1
Permanent Secretary (Chief Medical Officer)	1

Academic Health Science Centres

Mr. Lansley: To ask the Secretary of State for Health when he expects to have defined the criteria for becoming an Academic Health Science Centre, as referred to on page 57 of High Quality Care for All, Cm 7432. [221071]

Mr. Bradshaw: We are determined to enable the successful development of academic health science centres and will be working on the practical arrangements for the designation process in the coming months.

Mr. Lansley: To ask the Secretary of State for Health what discussions his Department has had with Monitor on proposals to develop academic health science centres; whether he expects such centres will apply for NHS Foundation Trust status; and if he will make a statement. [221072]

Mr. Bradshaw: The Department has discussed academic health science centres with Monitor.

As the NHS Next Stage Review sets out, a number of potential governance models have already emerged to suit local circumstances. The Government's approach will be broadly permissive; we are open to proposals for different forms of governance on a case-by-case basis, including, potentially, changing legislation where this would help an academic health science centre to achieve the optimal governance model to support its success. We will work with interested organisations on this.

Accident and Emergency Departments: Dental Services

Mr. Lansley: To ask the Secretary of State for Health what proportion of attendances at accident and emergency services were related to dental problems in each year since 1997-98. [220993]

Ann Keen: Information on the reasons for attendance at accident and emergency departments is not currently available centrally. Plans are in place for the Information Centre for health and social care to make an accident and emergency dataset available within hospital episode statistics in due course, which will include some information about reason for attendance. The publication is at an early stage of development and further work is ongoing to examine the level of detail and completeness of data. It is therefore unclear at the current time whether information on reasons for attendance will be part of the publication.

Mr. Lansley: To ask the Secretary of State for Health what proportion of admissions to hospital via accident and emergency departments were related to dental problems in each year since 1997-98. [220994]

Ann Keen: The information is as follows:

Total number of hospital admissions via Accident & Emergency (A&E), under the care of 'dental' consultants, as a proportion of all A&E admissions, for years 1997-98 to 2006-07, national health service hospitals England and activity performed in the independent sector in England commissioned by English NHS*

	Total A&E admissions under 'dental' consultants	All A&E admissions	Proportion of admissions to hospital via A&E which were under 'dental' consultants (percentage)
2006-07	17,736	3,484,367	0.51
2005-06	18,930	3,387,499	0.56
2004-05	17,309	3,148,996	0.55
2003-04	15,926	2,880,242	0.55
2002-03	14,289	2,603,820	0.55
2001-02	13,339	2,496,332	0.53
2000-01	12,963	2,380,985	0.54
1999-2000	12,998	2,315,986	0.56
1998-99	12,250	2,229,459	0.55
1997-98	12,478	2,124,198	0.59

Notes:
Main Consultant Specialty Used: 140 = Oral surgery 141 = Restorative dentistry 142 = Paediatric dentistry (available from 1999-2000) 143 = Orthodontics 145 = Oral and maxillo facial surgery (available from 2004-05). *Finished admission episodes* *The technical term for the data supplied is finished admission episodes. A finished admission episode is the first period of in-patient care under one consultant within one health care provider. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year. Admissions to hospital via A&E include admission methods 21 and 28 (21 = Emergency: via A&E service, including the casualty department of the provider/28 = Emergency: other means, including patients who arrive via the A&E department of another healthcare provider). *Data Quality* Hospital Episode Statistics (HES) are compiled from data sent by over 300 NHS trusts, and primary care trusts (PCTs) in England. Data are also received from a number of independent sector organisations for activity commissioned by the English NHS. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain. *Specialty* Care is needed when analysing HES data by specialty, or by groups of specialties (such as Acute). Trusts have different ways of managing specialties and attributing codes so it is better to analyse by specific diagnoses, operations or other recorded information. *Assessing growth through time* HES figures are available from 1989-90 onwards. During the years that these records have been collected by the NHS, there have been ongoing improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series. Changes in NHS practice also need to be borne in mind when analysing time series. For example a number of procedures may now be undertaken in out-patient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time. *Ungrossed Data* The data are ungrossed. This means no estimates (grossing factors) have been added to the data set to make up for any shortfalls or gaps in the data.

HES, The NHS Information Centre for health and social care.

Alcoholic Drinks: Health Education

Mr. Lansley: To ask the Secretary of State for Health what his Department has spent in *(a)* cash and *(b)* real terms in current prices on communications campaigns aiming to raise the public's knowledge of units of alcohol in each year since 2005-06; what national communications campaigns have been launched since 3 December 2007; how these campaigns will be evaluated; and if he will make a statement. [221149]

Dawn Primarolo: On 19 May 2008, the Government launched the first major advertising campaign to raise awareness about units. The Units Know Your Limits campaign is intended to help people to estimate how much alcohol they drink. The spend to-date is as follows:

Advertising costs (not including production) £2,670,000

Print costs £62,146

Research costs £165,755

Total: £2,897,901.

We have a number of tools in place to evaluate the effectiveness of the Units Know Your Limits campaign. They are:

Throughout the campaign development we have tested potential messaging in independent qualitative creative development research to ensure creative material engages and resonates with the target audience;

We have quantitative campaign tracking research in place which will measure pre to post shifts in awareness, understanding, attitudes and motivations towards alcohol consumption in response to the campaign and will continue to measure these factors throughout the campaign's life. We will be able to "benchmark these results against other Government campaigns when establishing targets; and

The campaign will also be evaluated in terms of how effectively it generates responses and requests for further information and advice through online, phone and face to face services. This data will again be benchmarked against other Government campaigns to aid target setting.

Alcoholic Drinks: Misuse

David Simpson: To ask the Secretary of State for Health what NHS assistance is available for *(a)* treatment of people with alcohol addiction and *(b)* families of those people. [215001]

Dawn Primarolo: There are four different types of treatment for alcohol addiction—structured counselling, community detoxification, with support from a GP, nurse or alcohol treatment worker, specialised residential services, for those who are not able to receive or not suitable for community based treatment, and self-help groups. The effectiveness of these treatments is dependent on the degree of motivation of the individual and the severity of their addiction.

On 1 November 2005, the Department published the 'Alcohol Needs Assessment Research Project' (ANARP) assessment of the alcohol treatment needs in England, with a main focus on the measurement of the gap between the demand for and provision of specialist alcohol treatment services in England at a national and regional level. Copies of this publication have been already placed in the Library.

ANARP conducted their research over a period of six months between September 2004 and February 2005 and concluded that there was a large gap between the need for alcohol treatment and access to alcohol treatment.

Aside from ANARP, data on those receiving alcohol treatment have not been routinely collected. However, on 1 April 2008 the National Drug Treatment Monitoring System, which collects data on people in structured drug treatment in England, was expanded to include the collection of alcohol treatment data.

Called the National Alcohol Treatment Monitoring System (NATMS) this system will, in time, allow the Department, strategic health authorities and primary care trusts (PCTs) to monitor alcohol treatment services in England. The latest data show that during the month of April 2008 there were 44,863 people receiving structured treatment for alcohol misuse.

A new national health service indicator has been put into place to measure the change in the rate of hospital admissions for alcohol related harm from April 2008—the first ever national commitment to monitor how the NHS is tackling alcohol health harms.

This indicator is expected to encourage PCTs to invest in earlier identification of people who drink too much, linked to advice and support from GPs or other health care staff—shown to be the best way of reducing the kind of 'everyday' drinking which over time leads to liver disease and other problems, including dependency.

From 2007-08 PCTs have received an extra £15 million of additional funding to improve alcohol interventions. The National Audit Office will carry out a value for money audit of NHS spend on alcohol interventions and specialist treatment, with a report expected this autumn.

In total 76 local authorities have chosen to set a target using National Indicator 31, rate of hospital admissions per 100,000 for alcohol related harm, of the National Indicator Set, as part of their local area agreement. The National Indicator Set allows progress against national priorities, agreed by Government, to be measured and strengthens the incentives for improved and closer partnership working.

Tim Loughton: To ask the Secretary of State for Health how many people who were *(a)* under 14, *(b)* 14 to 16 and *(c)* 17 to 18 years old died from alcohol-related causes in each of the last 10 years, broken down by (i) strategic health authority and (ii) primary care trust area. [218379]

Mr. Watson: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated July 2008:

As National Statistician, I have been asked to reply to your recent question asking how many people who were *(a)* under 14, *(b)* 14 to 16 and *(c)* 17 to 18 years old died from alcohol-related causes in each of the last 10 years, broken down by (i) strategic health authority and (ii) primary care trust area. (218379)

The tables attached provide the number of deaths with an alcohol-related underlying cause in persons aged *(a)* under 14 years (table 1), *(b)* 14 to 16 (table 2) and *(c)* 17 to 18 (table 3) in strategic health authorities in England, for 1997 to 2006 (the latest year available). Figures for alcohol-related deaths in these age groups are not available for primary care trust areas.

Table 1: Number of deaths with an alcohol-related underlying cause[1], persons aged under 14 years, strategic health authorities[2], England, 1997 to 2006[3]

Deaths (persons)

Strategic health authority	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006

[1] Cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) for the years 1997 to 2000, and Tenth Revision (ICD-10) for 2001 onwards. The specific causes of death categorised as alcohol-related, and their corresponding ICD-9 and ICD-10 codes, are shown in the boxes below. [2] Based on boundaries as of 2008. [3] Figures are for deaths registered in each calendar year.

Box 1: Alcohol-related causes of death—International Classification of Diseases, Ninth Revision (ICD-9)

Cause of death	ICD-9 code(s)
Alcoholic psychoses	291
Alcohol dependence syndrome	303
Non-dependent abuse of alcohol	305.0
Alcoholic cardiomyopathy	425.5

Box 1. Alcohol-related causes of death—International Classification of Diseases, Ninth Revision (ICD-9)

Cause of death	*ICD-9 code(s)*
Alcoholic fatty liver	571.0
Acute alcoholic hepatitis	571.1
Alcoholic cirrhosis of liver	571.2
Alcoholic liver damage, unspecified	571.3
Chronic hepatitis	571.4
Cirrhosis of liver without mention of alcohol	571.5
Other chronic non-alcoholic liver disease	571.8
Unspecified chronic liver disease without mention of alcohol	571.9
Accidental poisoning by alcohol	E860

Box 2. Alcohol-related causes of death—International Classification of Diseases, Tenth Revision (ICD-10)

Cause of death	*ICD-10 code(s)*
Mental and behavioural disorders due to use of alcohol	F10
Degeneration of nervous system due to alcohol	G31.2
Alcoholic polyneuropathy	G62.1
Alcoholic cardiomyopathy	I42.6
Alcoholic gastritis	K29.2
Alcoholic liver disease	K70
Chronic hepatitis, not elsewhere classified	K73
Fibrosis and cirrhosis of liver (excluding Biliary cirrhosis)	[1]K74
Alcohol induced chronic pancreatitis	K86.0
Accidental poisoning by and exposure to alcohol	X45
Intentional self-poisoning by and exposure to alcohol	X65
Poisoning by and exposure to alcohol, undetermined intent	Y15

[1] Excluding K74.3 to K74.5

David Simpson: To ask the Secretary of State for Health how many people were treated for alcohol-only misuse in each of the last three years, broken down by region. [220551]

Dawn Primarolo: Prior to 1 April 2008 there was no routine collection of data on numbers receiving alcohol treatment in England. The Department commissioned an Alcohol Needs Assessment Review Project, which reported in 2005 that approximately 63,000 alcohol dependent individuals access treatment each year.

On 1 April 2008, a National Alcohol Treatment Monitoring System begun operation to collect and report local and national information on the provision of alcohol treatment services in England. The first year's data will be reported in October 2009.

Ambulance Services: Standards

David Simpson: To ask the Secretary of State for Health what the average journey time was for ambulances in *(a)* each region and *(b)* England in each of the last two years; and on how many times in each case this time was exceeded by more than 50 per cent. [220522]

Mr. Bradshaw: The information requested is not collected centrally.

The ambulance response data that is collected centrally, and which reports on numbers of calls received and the degree to which each ambulance trust in England met the national response time targets, is contained in the annual statistical bulletin, "Ambulance Services, England". The latest version, covering data for 2008-09, was published in June 2008. Copies have been placed in the Library, and are also available on the Information Centre for Health And Social Care's website at

www.ic.nhs.uk/pubs.

The health service in Wales is a matter for the Welsh Assembly Government.

Arthritis: Drugs

Mrs. Riordan: To ask the Secretary of State for Health (1) what recent assessment he has made of the effectiveness of anti-TNF drugs for the treatment of rheumatoid arthritis; [220036]

(2) what plans are in place to make anti-TNF drugs more widely available for the treatment of rheumatoid arthritis. [220037]

Dawn Primarolo: The Department has not made any such assessment. In October 2007, the National Institute for Health and Clinical Excellence (NICE) published final guidance on the anti-TNF drugs adalimumab, etanercept and infliximab for the treatment of rheumatoid arthritis in which it gave a restrictive recommendation. NICE is currently undertaking an appraisal of the clinical and cost effectiveness of the sequential use of anti-TNF drugs for the treatment of rheumatoid arthritis. NICE issued its final appraisal determination on 21 July 2008. Published NICE guidance is underpinned by a statutory three month funding direction.

Breast Cancer: Screening

Mr. Lansley: To ask the Secretary of State for Health how many breast screening units there are in England; and how many of them had at least one full-field digital mammography set in the latest period for which figures are available. [220941]

Ann Keen: There are 83 breast screening units in England. Latest figures show that, as at July 2008, 11 units are using full-field direct radiography for digital mammography.

Mr. Lansley: To ask the Secretary of State for Health in which areas breast cancer screening has been extended to women aged between *(a)* 47 and 50 and *(b)* 70 and 73 years since April 2008, as referred to in paragraph 3.21 of his Department's Cancer Reform Strategy. [220942]

Ann Keen: Detailed planning for the expansion of the breast screening programme began in April 2008, and a stakeholder conference, including front line staff, was held at the Royal College of Physicians on 8 May 2008. The Cancer Reform Strategy stated that the necessary phasing of this expansion will be carefully considered to ensure that the most useful epidemiological data can be gathered to inform future decisions about the

programme. No consensus on the best way to achieve this was reached at the conference, so we hope to begin pilots in five breast screening sites in the autumn.

Mr. Lansley: To ask the Secretary of State for Health what proportion of eligible women were seen within the 36 month standard for breast cancer screening *(a)* in England and *(b)* by each breast screening unit in each quarter since June 2005. [220943]

Ann Keen: Information on breast screening coverage across England, broken down by breast screening unit for each quarter since June 2005, has been placed in the Library.

Coverage is the percentage of eligible women who have had a recorded screening result at least once in the previous three years.

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 14 June 2008, *Official Report*, column 987W, on breast cancer: screening, whether figures on the number of national interval cancers have been published. [221128]

Ann Keen: We expect the first national interval cancer figures to be published by the end of 2008.

Dr. Tony Wright: To ask the Secretary of State for Health what progress has been made towards achieving the target that each mammography screening unit has a full field digital mammography capability by 2010; what plans he has for local breast screening units to have access to such facilities; and if he will make a statement. [221722]

Ann Keen: I refer the hon. Member to the response I gave the hon. Member for Gateshead, East and Washington, West (Mrs. Hodgson) on 17 June 2008, *Official Report*, column 874W.

Cancer: Clinical Trials

Mr. Lansley: To ask the Secretary of State for Health what work his Department has undertaken with the National Cancer Research Network to encourage the inclusion of more older people in clinical trials; what steps he is taking to monitor progress in the involvement of older people in clinical trials; and if he will make a statement. [220972]

Ann Keen: I refer the hon. Member to the reply I gave my hon. Friend the Member for Norwich, North (Dr. Gibson) on 3 March 2008, *Official Report*, column 2094W.

Cancer: Drugs

Mr. Lansley: To ask the Secretary of State for Health when the National Cancer Director plans to publish his report on the uptake of cancer drugs approved by the National Institute for Health and Clinical Excellence, as referred to in paragraph 4.51 of his Department's Cancer Reform Strategy. [220958]

Ann Keen: Work on the report is now under way and it is anticipated that it will be published by the end of the year.

Mr. Lansley: To ask the Secretary of State for Health what steps have been taken by his Department with the *(a)* pharmaceutical and *(b)* biotechnology industries to monitor how use of anti-cancer medicines in the NHS in England compares to other European countries; what the results of this work have been; and if he will make a statement. [220962]

Mr. Ivan Lewis: As part of the innovation package arising from the negotiations on a new Pharmaceutical Price Regulation Scheme, the Government have committed to the development of new metrics for the uptake of clinically and cost-effective medicines starting with a number of medicines, including anti-cancer medicines, positively appraised by the National Institute for Health and Clinical Excellence, and to the publication of comparative international data.

Cancer: Health Education

Mr. Lansley: To ask the Secretary of State for Health what funding his Department *(a)* is providing in 2008-09 and *(b)* plans to provide in 2009-10 on the social marketing campaign to raise awareness of the symptoms of breast, lung and bowel cancers, as referred to in paragraph 3.53 of his Department's Cancer Reform Strategy. [220936]

Ann Keen: The Department has funded the Improvement Foundation to test local approaches to raising awareness of the symptoms of breast, lung and bowel cancers, and cardiovascular disease. Funding planned for 2008-09 is £1,132,000. There are no plans at this time for funding for 2009-10.

Mr. Lansley: To ask the Secretary of State for Health in what cancer areas the National Awareness and Early Detection Initiative intends to develop standardised messages to underpin awareness-raising campaigns, as referred to in paragraph 3.51 of his Department's Cancer Reform Strategy, published on 3 December 2007; and what progress has been made in developing these messages. [220937]

Ann Keen: Key messages have been developed for lung cancer and prostate cancer, and are being reviewed by stakeholders. Key messages for ovarian cancer are currently being developed.

In the immediate future, other areas to be considered are gynaecological cancers, lower gastro-intestinal cancers, skin cancer and head and neck cancers.

Mr. Lansley: To ask the Secretary of State for Health (1) when his Department plans to begin conducting regular national surveys of cancer symptom awareness, as referred to in paragraph 3.47 of his Department's Cancer Reform Strategy; [220938]

(2) what progress is being made in *(a)* developing measurement tools for cancer symptom awareness and *(b)* developing and testing new interventions to raise awareness of cancer as referred to in paragraph 3.44 of his Department's Cancer Reform Strategy. [220939]

Ann Keen: The awareness measurement tool being developed by researchers funded by Cancer Research UK is expected to be ready to test in the autumn 2008, and will provide the basis for the first national survey of public awareness of cancer symptoms.

Mr. Lansley: To ask the Secretary of State for Health what form the Football Foundation's pilot programme to raise awareness of the signs and symptoms of cancer, as referred to in paragraph 3.55 of his Department's Cancer Reform Strategy, will take; when he expects the pilot programme to begin; and if he will make a statement. [220948]

Ann Keen: Planning for this programme of work has begun and the specification is being drafted. The programme will run for approximately 12 months but we have not agreed start/finish dates at this time.

As detailed in paragraph 3.55 of the Cancer Reform Strategy an announcement will be made when this work begins.

Mr. Lansley: To ask the Secretary of State for Health for which pilot projects the National Awareness and Early Diagnosis Initiative is supporting the evaluation, as referred to in paragraph 3.54 of his Department's Cancer Reform Strategy. [220949]

Ann Keen: The Department is working with the National Cancer Research Institute and Cancer Research UK to develop an evaluation methodology.

Cancer: Health Services

Mr. Lansley: To ask the Secretary of State for Health whether his Department has provided guidance to commissioners on how to commission cancer genetic services, as referred to in paragraph 2.53 of his Department's Cancer Reform Strategy. [220934]

Ann Keen: As set out in paragraph 9.9 of the Cancer Reform Strategy, the Department is working with Macmillan Cancer Support to develop a chapter on commissioning cancer genetics services to be included in the "Guidance on Commissioning Cancer Services". The guidance is based on the evaluations of the jointly funded pilots of delivering cancer genetics services in the national health service in England. The guidance is due in the autumn, with the chapter on genetics services available shortly thereafter, as some evaluation data is still awaited. Data will also be included in the accompanying web-based commissioning toolkit.

Mr. Lansley: To ask the Secretary of State for Health when he plans to begin auditing all patients newly diagnosed with cancer, as referred to in paragraph 3.61 of his Department's Cancer Reform Strategy. [220950]

Ann Keen: The Royal College of General Practitioners has begun work on developing an audit methodology, which will be tested in late 2008/early 2009.

Mr. Lansley: To ask the Secretary of State for Health (1) what percentage of all *(a)* drug treatment and *(b)* surgical treatments were delivered to cancer patients within 31 days in the latest period for which figures are available; when the 31-day treatment standard for cancer treatments begins, as referred to in paragraph 4.8 of his Department's Cancer Reform Strategy; and what the milestones are for meeting the 31-day treatment standard for radiotherapy services by December 2010; [220951]

(2) whether his Department has provided guidance on how patients with suspected cancer detected through national screening programmes enter the 62-day pathway, as referred to in paragraph 4.8 of his Department's Cancer Reform Strategy; [220952]

(3) what progress is being made towards ensuring that all localities have implemented arrangements ensuring that patients highly suspected of having cancers are managed on the 62-day pathway, as referred to in paragraph 4.8 of his Department's Cancer Reform Strategy; [220953]

(4) pursuant to the answer of 8 July 2008, *Official Report*, column 1504W, on cancer: health services, if he will issue guidance to primary care trusts instructing them that all treatments for which funding is initially denied but then granted on appeal must be given to patients within the 31-day cancer waiting-time standard. [221140]

Ann Keen: The currently available performance figures, reflecting the current waiting times standards, are published quarterly. Performance data for the extended standards that come into force at the end of this year will be available for publication next spring.

Figures for the latest quarter available (January 2008 to March 2008) show that 99.5 per cent. of patients are first treated within one month of diagnosis. Thus the current standard has been met. This data is not currently broken down by treatment type, but the 99.5 per cent. achievement does cover all treatment types, including drug and surgical interventions. This data is available on the Department's website at:

www.performance.doh.gov.uk/cancerwaits/

An extension to the current cancer treatment standards, building on their success, was announced in December's Cancer Reform Strategy, with a timetable for delivery:

the extension of the 31 day standard to include all surgical and drug treatments comes into force from December 2008, and for radiotherapy and all other treatments from December 2010—this covers subsequent treatments (not just the first treatment, which is the current standard);

the extension of the 62 day standard, putting patients referred from screening programmes onto the 62 day care pathway, comes into force from December 2008;

the extension of the standard enabling consultant upgrades (of patients highly suspected of having cancers) onto the 62-day pathway comes into force from December 2008; and

the extension of the two weeks standard (to include all patients referred with breast symptoms) comes into force from December 2009.

The Department is developing guidance, in liaison with the NHS, on all of these new standards, which will be published shortly.

Mr. Lansley: To ask the Secretary of State for Health which cancer networks *(a)* have met and *(b)* are on target to meet the milestones contained in the National Institute for Health and Clinical Excellence's Improving Outcomes Guidance on supportive and palliative care for adults. [220963]

Mr. Ivan Lewis: All Cancer Networks have submitted plans which will meet the requirements for partial implementation by December 2008. The expectation is that they will be fully compliant by the end 2009 and progress will be monitored by the National Cancer Action Team and peer review.

Mr. Lansley: To ask the Secretary of State for Health what progress has been made towards developing a course on effective face-to-face communication skills for children and young people with cancer, as referred to in paragraph 5.14 of his Department's Cancer Reform Strategy; and when he expects the course to be launched. [220964]

Ann Keen: A working group has now been established to develop:

a group of course facilitators specialising in working with children and young people; and

specific materials and trigger tapes to support the training of those working with children and young people.

It is expected the first courses will run in spring 2009.

Mr. Lansley: To ask the Secretary of State for Health in which primary care trust areas clinical nurse specialist provision has been found to be insufficient, as referred to in paragraph 5.47 of his Department's Cancer Reform Strategy; what steps he is taking to encourage commissioners to address shortfalls in clinical nurse specialist provision; and if he will make a statement. [220966]

Ann Keen: Data on the number of clinical nurse specialists (CNS) are not collected centrally. It is for Cancer Networks to work in partnership with strategic health authorities, NHS trusts and postgraduate deaneries to put in place a sustainable process to assess, plan and review their workforce needs and the education and training of all staff linked to local and national priorities for cancer. Commissioners should benchmark their local CNS provision against similar primary care trusts and take action where the CNS workforce is found to be insufficient.

Mr. Lansley: To ask the Secretary of State for Health what recent assessment he has made of the extent to which the NHS is providing advice on returning to work for patients of working age with cancer. [220967]

Ann Keen: The Department has not made an assessment of the provision by the national health service of advice on returning to work for patients of working age with cancer.

The Cancer Reform Strategy, published in December 2007, set out a number of initiatives to improve patient support services for those living with and beyond cancer which includes ensuring that patients receive high quality personalised information throughout their cancer journey. As part of this, the strategy makes clear that commissioners should make sure that information for people who work and have cancer is made available to patients on diagnosis and that advice on returning to work should be available for all patients of working age.

Mr. Lansley: To ask the Secretary of State for Health if he will publish the report outlining the outcome of the event held in March 2008 on Making the Cancer Survivorship Initiative a Reality, as referred to in paragraph 5.61 of his Department's Cancer Reform Strategy, which priority workstreams have been identified as part of the National Cancer Survivorship Initiative; and what future work he expects the National Cancer Survivorship Initiative to undertake. [220968]

Ann Keen: Work on the National Cancer Survivorship Initiative (NCSI) is being co-led by the National Cancer Director, Professor Mike Richards, and the chief executive of Macmillan Cancer Support, Mr. Ciaran Devane, and the steering group held its first meeting in July.

A summary of the ThinkTank event held in March 2008 has been published on Macmillan Cancer Support's website at:

www.macmillan.org.uk/Documents/Support_Material/Get_involved/Campaigns/Survivorship/survivorship_report.pdf

We hope to launch the NCSI's work streams at the initiative's conference on 11 September 2008. The future work of the NCSI will be based around those work streams.

Mr. Lansley: To ask the Secretary of State for Health with reference to paragraph 5.73 of his Department's Cancer Reform Strategy, whether an NHS Cancer Patient Experience Survey Programme has been established; and when he expects the first annual patient experience survey will *(a)* take place and *(b)* be published. [220969]

Ann Keen: To support and advise on the development of the national health service cancer patient experience survey programme (NHS CPESP), an advisory group has been established, chaired by Professor Mike Richards, the National Cancer Director. The advisory group met for the first time on 29 May 2008. It is intended to hold the first annual patient experience survey in 2009-10. Experience from previous such surveys suggests that results will be made available 6 to 12 months after the survey takes place.

Mr. Lansley: To ask the Secretary of State for Health with reference to paragraph 6.9 of his Department's Cancer Reform Strategy, what specific goals have been agreed by his Department for reducing cancer mortality in each cancer network; and if he will make a statement. [220970]

Ann Keen: An advisory group has been set up to support and advise on the work of the newly established National Cancer Equality Initiative (NCEI). Work on agreeing challenging goals for reducing cancer mortality in every cancer network will be taken forward alongside the rest of the NCEI work programme.

Mr. Lansley: To ask the Secretary of State for Health what recent estimate he has made of the proportion of primary care trusts which have undertaken a local equality impact assessment, as referred to on page 86 of his Department's Cancer Reform Strategy. [220971]

Ann Keen: It is the responsibility of primary care trusts, working together with their strategic health authorities, stakeholders and local cancer services, including cancer networks, to undertake local equality impact assessments and take appropriate steps to address local issues.

Mr. Lansley: To ask the Secretary of State for Health which primary care trusts *(a)* have and *(b)* have not reviewed current bed utilisation by (i) tumour group and (ii) the split between elective and emergency use, as referred to in paragraph 7.37 of his Department's Cancer Reform Strategy. [220973]

Ann Keen: The electronic commissioning toolkit, which is currently being developed and is expected to be launched during autumn 2008, will enable primary care trusts to review current bed utilisation for cancer patients as set out in the Cancer Reform Strategy.

Mr. Lansley: To ask the Secretary of State for Health what progress has been made in developing an inpatient management programme for cancer patients, as referred to in paragraph 7.39 of his Department's Cancer Reform Strategy; and when he expects the programme to be implemented nationwide. [220974]

Ann Keen: We expect the steering group for the in-patient management programme to be established in the autumn. The steering group will agree the programme's work streams and begin work to take these forward.

The Cancer Action Team has held five events with cancer networks and primary care trusts to explore developing local programmes on in-patient management. These events have highlighted the following four potential work streams for the in-patient management programme to take forward:

Management of elective surgery

Management of elective oncology/haematology

Management of emergency in-patient treatment for patients with a cancer diagnosis; and

Management of emergency in-patient treatment for patients who are subsequently diagnosed with cancer.

Mr. Lansley: To ask the Secretary of State for Health what proportion of NHS trusts submit data to cancer registries in an electronic format; and what steps he is taking to ensure that all NHS Trusts do so by 2009, as referred to in paragraph 8.16 of his Department's Cancer Reform Strategy, published on 3 December 2007. [220975]

Ann Keen: All trusts are providing some data to cancer registries in an electronic format. However, few trusts are currently submitting their entire registry dataset in an electronic format.

The Cancer Reform Strategy's estimated date of 2009 for trusts to provide data in an electronic format has been affected by wider delays in the national programme for information technology. As a result of these delays, the National Contract for Acute Services now requires all trusts to provide data in an electronic format by March 2011. The Clinical Outcomes Programme Manager at the National Cancer Intelligence Network is currently leading on this work with the cancer registries, cancer networks and NHS trusts.

Mr. Lansley: To ask the Secretary of State for Health when he expects the first annual report of the National Cancer Intelligence Network to be published. [220977]

Ann Keen: The first annual report of the National Cancer Intelligence Network is scheduled for publication in spring 2009.

Mr. Lansley: To ask the Secretary of State for Health when he expects to publish the guide for cancer commissioners referred to in paragraph 9.9 of his Department's Cancer Reform Strategy; and if he will make a statement. [220978]

Ann Keen: The guidance on commissioning cancer services is currently in development and publication is expected during autumn 2008. The guidance will set out the appropriate level for the commissioning of different cancer services and identify key questions a commissioner should ask when assessing the quality of a service.

Mr. Lansley: To ask the Secretary of State for Health with reference to paragraph 9.9 of his Department's Cancer Reform Strategy, what progress is being made in developing *(a)* an electronic commissioning toolkit for cancer services and *(b)* service specifications for each cancer pathway; and when he expects to make each available for use in the NHS. [220979]

Ann Keen: A demonstration version of the electronic commissioning toolkit was launched to the NHS in June 2008. Following further development a final version of the toolkit is expected to be launched to the national health service during autumn 2008.

Service specifications for each cancer pathway are still in development. A model generic services specification for colorectal cancer has been shared with cancer networks and a model colorectal pathway placed on the Map of Medicine. Cancer networks are each leading on the development of a service specification/model pathway for different tumours. This work is being facilitated by the National Cancer Action Team who are ensuring appropriate guidance around the sign off of the model pathways with Map of Medicine.

Mr. Lansley: To ask the Secretary of State for Health whether he plans to ask the Care Quality Commission to undertake an improvement review of cancer services in 2009, as referred to in paragraph 9.25 of his Department's Cancer Reform Strategy. [220980]

Ann Keen: We are working with the Healthcare Commission on assessing whether cancer services are delivering the Improving Outcomes Guidance. We will in due course work with the Care Quality Commission and this might involve asking it to undertake an improvement review.

Mr. Lansley: To ask the Secretary of State for Health before which financial year he expects to include implementation of the Improving Outcomes Guidance in the national model contract, as referred to in paragraph 9.25 of his Department's Cancer Reform Strategy. [220981]

Ann Keen: The details have still to be agreed but the plan is to make appropriate changes to the standard contract from April 2009.

Mr. Lansley: To ask the Secretary of State for Health what recent estimate for benchmarking purposes he has made of the level of spending on English cancer services compared with the spending of other countries. [220982]

Ann Keen: As part of our work on the Cancer Reform Strategy we looked at the latest information published by other countries about their expenditure on cancer services.

This published information showed that England spends 5.6 per cent. of its public healthcare budget on cancer, compared to 7.7 per cent. in France, 9.2 per cent. in the United States and 9.6 per cent. in Germany.

As stated in the Cancer Reform Strategy, we will continue to monitor how spending on spending on English cancer services compares with other countries.

The Department regularly publishes information on cancer spend in the national health service in England through programme budgeting figures. Programme budgeting figures provide a breakdown by programmes of how NHS resources have been spent.

Mr. Lansley: To ask the Secretary of State for Health what progress has been made in developing a kitemark for good cancer facilities, as referred to in paragraph 11.18 of his Department's Cancer Reform Strategy; and when he expects it to be made available for use in the NHS. [220983]

Ann Keen: Following discussions with key stakeholders, it is anticipated that the kitemark for good cancer facilities will be made available by spring 2010.

Mr. Lansley: To ask the Secretary of State for Health when he expects publication of the National Cancer Research Institute's five-year plan to take place, as referred to in paragraph 11.25 of his Department's Cancer Reform Strategy. [220984]

Ann Keen: The National Cancer Research Institute's Strategic Plan 2008-13 was published on 28 April 2008 and is available on the Institute's website at:

www.ncri.org.uk

Mr. Lansley: To ask the Secretary of State for Health whether he has established a pilot training programme for laparoscopic surgery, as referred in paragraph 4.20 of his Department's Cancer Reform Strategy; and when he anticipates a training programme to be implemented nationwide. [220985]

Ann Keen: The pilot training programme for laparoscopic colorectal cancer was set up, following a tender exercise, by the national Cancer Action Team in January 2008. 10 training centres have been appointed, together with a national coordination centre, as follows:

Hull and East Yorkshire NHS Trust (Training Centre and National Coordination Centre);

Newcastle-upon-Tyne NHS Trust;

Bradford Teaching Hospitals NHS Trust;

Nottingham University Hospitals NHS Trust;

North West London Hospitals NHS Trust;

King's College Hospital And Guy's and St Thomas NHS Foundation Trusts;

Oxford Radcliffe NHS Trust;

The Pelican centre and Basingstoke and North Hampshire Foundation Trust;

Portsmouth Hospitals NHS Trust; and

The South West Laparoscopic Consortium (Bristol, Yeovil and Plymouth).

Imperial College London has been appointed to develop the underpinning educational and assessment materials. The pilot is due to run for a period of 18 months with an evaluation being carried out towards the end of the project.

Mr. Lansley: To ask the Secretary of State for Health what information has been submitted to his Department by the NHS Cancer Action Team in each month since 3 December 2007. [220986]

Ann Keen: A list of the information received from the National Cancer Action Team (NCAT) is not held centrally.

The NCAT supports delivery of the Cancer Reform Strategy and it is in regular communication with the Department. Information that it provides to the Department includes:

updates/progress reports on the areas of work it leads on;

draft and final copies of guidance, reports and other documents it produces for the NHS

feedback from cancer networks that might be of interest to the Department;

general advice on implementation strategies and ad hoc queries; and

information to contribute to parliamentary and ministerial business.

Cancer: Medical Treatments

Mr. Lansley: To ask the Secretary of State for Health how many cancer treatments *(a)* have and *(b)* have not been considered by the National Institute for Health and Clinical Excellence through the single technology appraisal process since 3 December 2007; and if he will make a statement. [220956]

Ann Keen: Since 3 December 2007, the National Institute for Health and Clinical Excellence (NICE) has published guidance on the cancer treatments shown in the table. Information on cancer treatments not considered by NICE is not available.

Treatment	*Condition*	*Process*	*Publication date*
Alimta (pemetrexed disodium)	Mesothelioma	Single technology appraisal	January 2008
Mabthera (rituximab)	Relapsed or refractory Lymphoma (follicular non-Hodgkin's)	Single technology appraisal	February 2008
Erythropoetin (alpha and beta) and darbepoetin	Cancer-treatment induced anaemia	Multiple technology appraisal	May 2008
Erbitux (cetuximab)	Head and neck cancer	Single technology appraisal	June 2008

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* new cancer treatments and *(b)* significant new licensed indications for existing cancer treatments have been referred to the National Institute for Health and Clinical Excellence (NICE) since 3 December 2007; and whether NICE (i) has and (ii) has not initiated a technology appraisal for each. [220957]

Ann Keen: The 15th National Institute for Health and Clinical Excellence (NICE) work programme was referred to NICE on 14 December 2007 and included the following six cancer technology appraisals:

lenalidomide in combination with dexamethasone for the treatment of multiple myeloma in people who have received at least one prior therapy;

lapatinib in combination with letrozole for the first-line treatment of metastatic hormone-sensitive breast cancer;

capecitabine for the treatment of advanced pancreatic cancer;

cetuximab for the first-line treatment of metastatic colorectal cancer;

cetuximab for the treatment of advanced non small cell lung cancer; and

ixabepilone for the treatment of metastatic or locally advanced breast cancer.

The 16th work programme was referred to NICE on 20 March 2008 and included the following five cancer technology appraisals:

cetuximab in combination with irinotecan-containing regimens for the treatment of metastatic colorectal cancer following failure of oxaliplatin-containing chemotherapy;

cetuximab in combination with platinum-based chemotherapy for metastatic and/or recurrent squamous cell carcinoma of the head and neck;

intensity modulated radiotherapy for the treatment of head and neck cancer;

intensity modulated radiotherapy for the treatment of breast cancer; and

intensity modulated radiotherapy for the treatment of prostate cancer.

The 17th work programme was referred to NICE on 11 June 2008 and included the following eight cancer technology appraisals:

sorafenib, within its licensed indication for the first line systemic treatment of advanced hepatocellular carcinoma;

eltrombopag within its licensed indication for the treatment of refractory chronic idiopathic (immune) thrombocytopenic purpura;

romiplostim within its licensed indication for the treatment of refractory chronic idiopathic (immune) thrombocytopenic purpura;

mifamurtide within its licensed indications as an adjunct to multi-agent chemotherapy for the treatment of osteosarcoma;

temozolomide within its licensed indication for advanced and metastatic melanoma;

dasatinib within its licensed indication for acute lymphoblastic leukaemia;

topotecan within its licensed indication for the second-line treatment of small cell lung cancer; and

dasatinib and nilotinib within their licensed indications for imatinib-resistant chronic myeloid leukaemia.

We are minded to refer the following nine cancer technology appraisals to NICE as part of the 18th work programme. NICE were asked on 20 March 2008 to consult stakeholders on the remits and scopes for these topics, and the results of that consultation are currently being considered.

bortezomib within its licensed indication for the first line treatment of multiple myeloma;

sunitinib within its licensed indication for the treatment of unresectable and/or metastatic malignant gastrointestinal stromal tumours refractory to imatinib;

topotecan within its licensed indication for the treatment of recurrent and carcinoma of the cervix;

trabectedin within its licensed indication for the treatment of advanced metastatic soft tissue sarcoma;

pemetrexed within its licensed indication for the first line treatment of locally advanced or metastatic non small cell lung cancer;

rituximab within its licensed indication for the first line treatment of chronic lymphocytic leukaemia;

rituximab within its licensed indication for the relapsed treatment of chronic lymphocytic leukaemia;

azacitidine within its licensed indication for the treatment of high risk patients with myelodysplastic syndrome and acute myeloid leukaemia; and

capecitabine within its licensed indication for advanced gastric cancer.

We have recently agreed revisions to the topic selection process to implement the Cancer Reform Strategy (CRS) commitments and NICE's 19 work programme will be the first to be referred to NICE under the revised arrangements. NICE is currently consulting on the remit and scope for the following 13 cancer treatments as part of the 19th work programme, following which Ministers will be asked to make a final decision on referral of these topics to NICE.

vorinostat for cutaneous T-cell lymphoma;

bevacizumab in combination with fluouropyrimidine for metastatic carcinoma of the colon and rectum;

sunitinib for metastatic breast cancer;

aflibercept for advanced chemo-refractory epithelial ovarian cancer;

arsenic trioxide for promyelocytic leukaemia;

temsirolimus for mantle cell lymphoma relapsed and/or refractory;

bevacizumab for breast cancer;

erlotinib in combination with bevacizumab for advanced or metastatic non-small cell lung cancer;

rituximab for follicular non-Hodgkin's lymphoma;

vandetanib for thyroid cancer;

vandetanib for non small cell lung cancer;

trastuzumab for gastric cancer; and

trabectedin for relapsed ovarian cancer.

NICE commences work on technology appraisals once a final referral has been made by the Department.

Mr. Lansley: To ask the Secretary of State for Health (1) when chemotherapy providers will begin returning an agreed dataset on all patients receiving chemotherapy, as referred to in paragraph 4.52 of his Department's Cancer Reform Strategy; what information is captured by the dataset; and if he will make a statement; [220959]

(2) when he expects the National Chemotherapy Advisory Group to have defined the information on chemotherapy to be submitted by NHS trusts to cancer registries. [220976]

Ann Keen: A small working group is currently scoping the requirements for chemotherapy data alongside a comparison of data items for chemotherapy that are already included within the National Cancer Dataset. Any dataset agreed will also include the requirements of the cancer registration dataset.

It is anticipated, subject to testing and approval by the NHS Information Standards Board, that implementation could begin by the end of 2009.

Mr. Lansley: To ask the Secretary of State for Health what assessment he has made of the robustness of chemotherapy cost data submitted as part of the 2007-08 NHS reference cost collection. [220960]

Ann Keen: No assessment has been made. 2007-08 NHS reference cost data has not yet been collected.

Mr. Lansley: To ask the Secretary of State for Health how many patients in each *(a)* cancer network and *(b)* strategic health authority area received (i) chemotherapy for small cell lung cancer and (ii) chemotherapy for non-small cell lung cancer in each year since 1997-98. [220989]

Mr. Watson: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated 1 September 2008:

As National Statistician, I have been asked to reply to your recent parliamentary question asking how many patients in each *(a)* cancer network and *(b)* strategic health authority area received (i) chemotherapy for small cell lung cancer and (ii) chemotherapy for non-small cell lung cancer in each year since 1997-98. [220989]

The latest year for which data are available on the national cancer registry database, which ONS operates on behalf of the Department of Health, is 2005. Tables 1 and 2 show the number of cases of small and non-small cell lung cancer, newly diagnosed in each of the years 1997-2005 in the specified geographical areas, initially receiving chemotherapy. In 55 per cent. of lung cancer cases in the database, either no treatment information was recorded or patients were recorded as having had no treatment. 10 per cent. of cases was recorded as receiving more than one treatment.

Office for National Statistics

Cancer: Screening

Mr. Lansley: To ask the Secretary of State for Health what work the NHS Cancer Screening Programme has undertaken since 3 December 2007 in sharing best practice in improving accessibility to screening for at-risk groups, as referred to in paragraph 3.10 of his Department's Cancer Reform Strategy, published on 3 December 2007. [220945]

Ann Keen: NHS Cancer Screening Programmes and the university of Leeds are currently working on a research project to provide guidance for communicating screening information to women from minority ethnic and low income groups. This guidance will be made available throughout both the breast and cervical screening programmes.

Cancer: Waiting Lists

Mr. Donohoe: To ask the Secretary of State for Health what percentage of people suspected of having cancer were treated within *(a)* two weeks and *(b)* one month of referral (i) in 2005 and (ii) in the last 12 months. [220569]

Ann Keen: In England during the year 2005-06, 99.7 per cent. of patients were first seen by a specialist within two weeks, following an urgent referral for suspected cancer from a general practitioner, and 95.8 per cent. of patients started treatment within one month of receiving a cancer diagnosis.

In the year 2007-08 (the most recent for which data is available), 99.9 per cent. of such patients were first seen by a specialist within two weeks, following an urgent referral for suspected cancer from a general practitioner, and 99.6 per cent. of such patients started treatment within one month of receiving a cancer diagnosis.

Cardiovascular System: Screening

Mr. Lansley: To ask the Secretary of State for Health when he plans to introduce vascular health checks as referred to on page 35 of his Department's document High Quality Care for All, Cm. 7432; if he will publish the projected number of people *(a)* being offered and *(b)* accepting vascular screening checks in each of the next five years; what funding he plans to provide centrally in support of the programme in each of the next five years; what contractual mechanisms he plans to use to encourage (i) GPs, (ii) pharmacies and (iii) community clinics to offer vascular health checks; and if he will make a statement. [219367]

Mr. Ivan Lewis: At full implementation, there will be 3 million invitations nationally for vascular checks. Assuming 75 per cent. uptake of invitations, this would lead to an estimated 2.2 million actual checks carried out. Existing data demonstrates that approximately 1.1 million checks are already done each year, leaving 1.1 million additional checks being performed each year. The programme will begin roll-out from 2009-10 and will be at full implementation by 2012.

Cost estimates of the programme can be found in the Technical Consultation. The cost estimates are based on scenarios fed into the economic evaluation model and should not be taken as final estimates of the cost of the policy. The final costs will depend on the delivery route for the programme and roll-out plans. These are being developed via engagement with stakeholders during the summer and autumn. We expect to carry out further modelling to support the choice of delivery and roll-out plans.

Implementing the proposals in the final report of the NHS Next Stage Review, "High Quality Care for All", is core business for the national health service. The NHS budget for England for 2008-09 is £96 billion and will rise to £110 billion by 2010-11. The proposals will be funded from within that settlement. Some proposals require central funding to ensure effective implementation. Central funding of £150 million in 2009-10 and £400 million in 2010-11 has been made available for this purpose.

The overall cost of the vascular checks programme is currently estimated to be from £180 million to £243 million per annum at full implementation.

There is a range of contractual mechanisms available and decisions on which will be most suitable will be taken on the basis of the discussions with the NHS and other stakeholders that are currently taking place.

Cataracts: Waiting Lists

Mr. Donohoe: To ask the Secretary of State for Health what the average waiting times for treatment of cataracts in NHS hospitals were in *(a)* 2005 and *(b)* at the latest date for which figures are available; and how many treatments were provided (i) in 2005 and (ii) in the last 12 months. [220566]

Ann Keen: The information is in the following table.

Median days waited for cataract operations and number of finished consultant episodes (FCEs) where a cataract operation was the main or secondary procedure in both 2005-06 and 2006-07 in NHS Hospitals England and activity performed in the independent sector in England commissioned by the English NHS

	Median days waited	*FCEs*
2005-06	68	302,876
2006-07	69	305,612

Source: Hospital Episode Statistics (HES), The NHS Information Centre for Health and Social Care.

Cervical Cancer: Screening

Mr. Lansley: To ask the Secretary of State for Health what steps his Department has taken to increase participation of women aged 25 to 35 years in the cervical screening programme, as referred to in paragraph 3.9 of his Department's Cancer Reform Strategy; and what his latest estimate is of the proportion of 25 to 35-year-old women participating in the cervical screening programme *(a)* in 2008 and *(b)* in the previous five years. [220935]

Ann Keen: NHS Cancer Screening Programmes is commissioning a £250,000 Improvement Foundation project to tackle the falling participation of women aged 25 to 35 in the NHS cervical screening programme. Five primary care trusts have been invited to participate in this project.

Information on the proportion of women aged 25 to 35 participating in the NHS cervical screening programme in 2008 is not yet available.

National policy for the NHS cervical screening programme is that eligible women aged 25 to 49 are to be screened every 3.5 years. The following table shows the percentage of eligible women aged between 25 and 34 years with a cervical screening test result in the previous 3.5 years for the last five years.

					Percentage
Coverage	*2003*	*2004*	*2005*	*2006*	*2007*
Women aged 25-29	65	64.1	62.5	60.8	59.8
Women aged 30-34	71	70.2	68.9	68.5	68.1

Note:
Coverage is the percentage of eligible women with a cervical screening test result in the previous 3.5 years.
Source:
ONS/The Information Centre, Cervical Screening Programme: England 2006-07, Table 1.

Mr. Lansley: To ask the Secretary of State for Health what recent estimate he has made of the average time taken to return cervical screening test results to women following a test; and what advice has been issued to the NHS on achieving the two-week turnaround time standard on cervical screening results, as referred to in paragraph 3.14 of his Department's Cancer Reform Strategy. [220946]

Ann Keen: The information requested for England in 2006-07, the latest year for which figures are available, is shown in the table for the 93 per cent. of local programmes where the result letter is sent by a primary care organisation:

Cervical screening programme: time from screening to availability of result in England, 2006-07

	Percentage
Up to 4 weeks	48
>4 weeks up to 6 weeks	26
>6 weeks up to 8 weeks	14
>8 weeks up to 10 weeks	7
> 10 weeks up to 12 weeks	4
Over 12 weeks	2

Source:
Cervical Screening programme England 2006-07 (National Statistics and The Information Centre).

Advice to the national health service (NHS, Gateway number: 9782) on achieving the new 14 day turnaround time for the results of cervical screening was issued in "The Week" (issue 42, 18-24 April 2008). The advice asked strategic health authorities to bid for their local cervical screening services to receive support in achieving the 14 day turnaround time from NHS Improvement: Cancer as part of a three year rolling programme. Nine local screening services have now been identified as part of wave 1 of the programme, and NHS Improvement: Cancer will begin working with them shortly.

Mr. Lansley: To ask the Secretary of State for Health what proportion of women he estimates participated in the cervical screening programme in the last year for which figures are available in each primary care trust area in England. [220947]

Ann Keen: I refer the hon. Member to the response I gave the hon. Member for Boston and Skegness (Mark Simmonds) on 31 January 2008, *Official Report*, columns 617-36W, which provides information on cervical screening coverage across England, broken down by primary care trust.

Coverage is the percentage of eligible women who have had a cervical screening test result in the previous five years.

Children: Domestic Accidents

Mr. Lansley: To ask the Secretary of State for Health how many children in each region were admitted to hospital for accidents in the home in each of the last five financial years, broken down by *(a)* age and *(b)* type of accident. [221012]

Mr. Bradshaw: This information is not collected centrally. Information on admissions to hospital for accidental injury is available but the number of admissions for accidents in the home cannot be reliably identified.

Colorectal Cancer: Screening

Mr. Lansley: To ask the Secretary of State for Health at which five sites an extension to the bowel cancer screening programme to men and women aged between 70 and 75 years is being piloted, as referred to in paragraph 3.32 of his Department's Cancer Reform Strategy. [220940]

Ann Keen: The five sites piloting the bowel cancer screening extension to men and women aged 70 to 75 are Wolverhampton, Hull, South Devon, St. Marks (London) and Norwich. The first of these pilots are due to begin in September 2008.

Deca-BDE

Lynne Featherstone: To ask the Secretary of State for Health whether he has held recent discussions on the human safety of Deca-BDE with the French Government; and if he will make a statement. [221184]

Dawn Primarolo: The Secretary of State has not held bilateral discussions about the human safety of Deca-BDE with the French Government in its capacity as Health Rapporteur. The assessment has been discussed at meetings of the European Competent Authorities for implementation of the Existing Substances Regulations. Officials from the Environment Agency and the Health and Safety Executive have represented the UK throughout the risk assessment process. The Department, through toxicology experts in the Health Protection Agency, is routinely consulted on human health aspects.

Further information is still being collected by the French rapporteur in relation to human health before a final conclusion can be reached. The European Union regulation concerning the Registration, Evaluation, Authorisation and restriction of Chemicals (REACH) is now in force; the risk assessment process has now been transferred to that system. In the meantime, monitoring by the Health Protection Agency continues to ensure that prompt action can be taken if new evidence suggests that human health may be at risk.

Dental Health: Children

Mr. Lansley: To ask the Secretary of State for Health what indicators his Department uses to measure dental health in children; and what the figures for each indicator were for each primary care trust in each year since 1997. [221005]

Ann Keen: We use the average number of decayed, missing and filled teeth (DMFT) in children resident in the area of each primary care trust. The information is collected from decennial national child dental health surveys and more frequent local surveys of five and 12-year-olds co-ordinated by the Public Health Observatory for the North West in collaboration with the British Association for the Study of Community Dentistry. Results from the last national survey conducted in 2003 are available on the National Statistics website at:

www.statistics.gov.uk/children/dentalhealth/

Information from the other surveys is available at:

http://www.bascd.org/annual_survey_results.php

Since 1993, levels of tooth decay have fallen in most age groups. The most significant change has been in older children with a reduction in DMFT in 12-year-old children from 1.4 to 0.7, which means that this age group now has the best oral health in Europe.

Dental Services

Mr. Lansley: To ask the Secretary of State for Health what internal *(a)* research papers and *(b)* reports his Department has produced or commissioned on NHS dentistry in the last 12 months. [221011]

Ann Keen: The information requested could be provided only at a disproportionate cost.

Mr. Brady: To ask the Secretary of State for Health how many *(a)* full-time equivalent dentists on primary care NHS lists in England and *(b)* people not registered with an NHS dentist there are in each strategic health authority area; and what the population is within each strategic health authority area. [221698]

Mr. Ivan Lewis: The information requested is not available in the format requested.

The numbers of dentists on open national health service contracts, in England, as at 31 March 2007, are available in Table E1 of Annex 3 of the "NHS Dental Statistics for England: 2006/07" report. This is the latest information available.

This report has already been placed in the Library and is available at:

www.ic.nhs.uk/pubs/dental0607.

The numbers quoted are headcounts and do not differentiate between full-time and part-time dentists, nor do they account for the fact that some dentists may do more NHS work than others.

Under the new dental contractual arrangements, introduced on 1 April 2006, patients do not have to be registered with an NHS dentist to receive NHS care. Instead the number of patients receiving NHS dental services, 'patients seen' over a 24-month period is monitored and reported regularly.

Information on the numbers of patients seen by an NHS dentist in England, in the 24-month period ending 31 December 2007, and the proportion of the population this represents is available in Tables C1 and C2 respectively of Annex 3 of the "NHS Dental Statistics for England: Quarter 3: 31 December 2007" report. Information is provided by strategic health authority (SHA) and by primary care trust (PCT).

This report has already been placed in the Library and is also available at:

www.ic.nhs.uk/pubs/dentalstats0708q3.

Both of the aforementioned reports have been published by the NHS Information Centre for health and social care.

The population within each SHA area is given in the following table. The figures have been rounded to follow Office for National Statistics' (ONS) guidelines.

Mid-2006 population estimates using the ONS' 2007 methodology (rounded to the nearest 100)

SHA	*Mid-2006 population estimate*
North East	2,555,700
North West	6,853,200
Yorkshire and the Humber	5,142,400
East Midlands	4,364,200
West Midlands	5,366,700
East of England	5,606,600
London	7,512,400
South East Coast	4,248,300
South Central	3,989,500
South west	5,124,100
England	50,762,900

Note:
The sum of the SHA figures does not equal the England total due to rounding.
Source:
ONS.

These are the latest ONS mid-year estimates currently available. They are the population figures used for the periods ending March, June, September and December 2007 in Table C2 of the "NHS Dental Statistics for England: Quarter 3: 31 December 2007" report aforementioned, but not the period ending March 2006, which also appears in that table. This is because each period is based on the latest population estimates available at the time for the respective period. Further details are contained within the footnotes. Note also that the figures in Table C2 are based on un-rounded population estimates.

Dental Services: Bexley

Mr. Evennett: To ask the Secretary of State for Health how many treatments in each treatment band were carried out by NHS dentists in the London Borough of Bexley in each of the last five years. [220393]

Ann Keen: Information is not available in the format requested. The classification of courses of treatment (CoTs) into bands was introduced with the new dental contractual arrangements on 1 April 2006. It is therefore not possible to provide the information requested prior to April 2006.

Information on the number of CoTs by treatment band, in England, for the first two quarters of 2007-08 is available in Tables A1 and A2 of Annex 4 of the report "NHS Dental Statistics for England: Quarter 3: 31 December 2007". Information is provided by strategic health authority (SHA) and by primary care trust (PCT). Information for quarter three of 2007-08 is available in Table A1 of Annex 3 of the aforementioned report. Information is provided by SHA and by PCT. This report, published on 5 June 2008, has already been placed in the Library and is also available at:

www.ic.nhs.uk/pubs/dentalstats0708q3

Information on the number of CoTs by treatment band, in England, for 2006-07 is available in Table A2 of Annex 3 of the report "NHS Dental Statistics for England: 2006-07". This shows the total number of CoTs for the year, by treatment band and is provided by SHA and by PCT. The report, published on 23 August 2007, has already been placed in the Library and is also available at:

www.ic.nhs.uk/pubs/dental0607

Information for the full year 2007-08, including updated quarterly information to account for CoTs reported late, will be available in the report "NHS Dental Statistics: 2007-08", which is due to be published by the Information Centre for health and social care on 21 August 2008.

Under the old dental contractual arrangements, in place up to and including 31 March 2006, information on the number of claims by treatment type is available in Annex D of "NHS Dental and Activity and Workforce Report, England: 31 March 2006". Information is provided for 2005 and 2006, by SHA. This information is not comparable with data collected under the new dental contractual arrangements. The report, published on 23 August 2006, has already been placed in the Library and is also available at:

www.ic.nhs.uk/pubs/dwfactivity

The aforementioned reports have been published by the Information Centre for health and social care.

Dental Services: Fees and Charges

Mr. Lansley: To ask the Secretary of State for Health how much NHS dental patients in each region paid in charges in each year since 1997. [221006]

Ann Keen: The National Health Service Information Centre for health and social care published "NHS Expenditure for General Dental Services and Personal Dental Services: England 1997/98-2005/06" on 26 March 2008. This report has already been placed in the Library and is also available at:

www.ic.nhs.uk/pubs/dentalexpend1997to2006

The report includes information on primary dental care expenditure by primary care trust (PCT) and strategic health authority (SHA) for 1997-98 to 2005-06 at tables A1 and B1 of Annex 3. Table A1 relates to 'gross' expenditure and table B1 relates to 'net' expenditure. 'Gross' expenditure refers to the full cost of the payments recorded; 'net' expenditure reflects the cost of these payments to the NHS after the deduction of income from NHS dental charges paid by patients.

This information is based on the old contractual arrangements which were in place up to and including 31 March 2006. Further notes to aid interpretation of the information are shown in the 'Contents and Notes' page of Annex 3.

Information on NHS patient charges in England in 2006-07 is available in table D3 of Annex 3 of the "NHS Dental Statistics for England 2006/07" report. Information is provided by PCT and SHA. This information is based on the new contractual arrangements introduced on 1 April 2006.

This report has already been placed in the Library and is available at:

www.ic.nhs.uk/pubs/dental0607

Patient charge data for 2007-08 is expected to be included in the NHS Information Centre report on "NHS Dental Statistics for England 2006/07", due to be published on 21 August 2008.

Dental Services: Lancashire

Mr. Wallace: To ask the Secretary of State for Health how many NHS dental practices in North Lancashire Primary Care Trust are accepting new NHS patients. [220650]

Ann Keen: Information is not collected centrally on the number of dentists taking on new patients. The hon. Member may wish to approach the chief executive of North Lancashire primary care trust which might hold this information.

Departmental Appeals

Andrew Mackinlay: To ask the Secretary of State for Health on how many occasions his Department has instructed the Treasury Solicitor to seek leave to appeal to the House of Lords from *(a)* the Court of Appeal and *(b)* the House of Lords itself in each of the last 10 years; and on how many occasions the application was rejected. [220822]

Mr. Bradshaw: The Department does not instruct the Treasury Solicitor in the appellate courts, preferring instead to conduct nearly all domestic litigation with the help of in-house lawyers.

Information on the number of times the Department itself has sought leave to appeal to the House of Lords, and on the number of times applications have been rejected, could be supplied only at disproportionate cost.

Departmental Arm's Length Management Organisations

Mr. Lansley: To ask the Secretary of State for Health how many arm's length bodies his Department *(a)* had at the beginning of 2008 and *(b)* will have at the end of 2008. [221055]

Mr. Bradshaw: The Department had 25 arm's length bodies on 1 January 2008 and there will be 24 on 31 December 2008.

Departmental Computers

Mr. Peter Ainsworth: To ask the Secretary of State for Health what estimate he has made of *(a)* the number of computer devices left on overnight in his Department when not in use and *(b)* the cost of leaving computer devices on overnight when not in use in each of the last five years; and if he will make a statement. [217869]

Mr. Bradshaw: The Department has not undertaken any formal study to estimate of the number of computer devices left on overnight in departmental premises and therefore cannot provide the cost of leaving these devices on overnight in each of the last five years.

Staff are instructed to shut down their personal computers (PCs) at the end of the day and this automatically switches off the power. The PC monitor has to be manually switched off but if this is not done, the monitor goes into very low power mode until the PC is switched on again. Printers and other shared peripheral

devices connected to the network are not switched off overnight but automatically go to low power mode after a short period of inactivity both during the day and overnight. The Department will shortly be deploying a network tool that identifies PCs left switched on outside office hours and forces the equipment to shut down safely.

All computer equipment procured by the Department meets or exceeds Sustainability Mandatory Standards ('Quick Wins') 2007. The 'Quick Wins' are a set of minimum environmental standards covering a range of commonly-purchased goods, including information technology equipment. The standards relate to characteristics such as energy consumption, recycled content, and biodegradability.

Departmental Correspondence

Mr. Lansley: To ask the Secretary of State for Health what categories are used by his Department to classify *(a)* ministerial and *(b)* other correspondence it receives; and how many letters were received in each category in the last 12 months. [221007]

Mr. Bradshaw: Ministerial correspondence is categorised as *(a)* letters and emails received from MPs and significant public figures; *(b)* letters and e-mails received from other members of the public and addressed to Ministers. Other correspondence consists of letters and e-mails addressed directly to officials. Between 1 July 2007 and 30 June 2008 we received 95,112 letters and e-mails categorised as ministerial correspondence. We do not collect centrally the amount of correspondence in the second category.

Departmental Disciplinary Proceedings

Mr. Redwood: To ask the Secretary of State for Health how many *(a)* officials in his Department and *(b)* employees of (i) agencies and (ii) other bodies reporting to his Department were (A) dismissed and (B) disciplined for matters related to their conduct in the last two years. [217603]

Mr. Bradshaw: The numbers of staff in the Department and its agencies who were dismissed or disciplined for matters related to their conduct in the last two years are presented in the following table:

	2007-08		*2006-07*	
	Dismissed	*Disciplined*	*Dismissed*	*Disciplined*
The Department	0	7	0	6
Medicines and Healthcare products Regulatory Agency	1	3	1	0
NHS Purchasing and Supply Agency	1	3	0	1

Providing information for other bodies reporting to the Department would incur disproportionate cost.

Departmental Freedom of Information

Mr. Amess: To ask the Secretary of State for Health pursuant to the Answer of 1 July 2008, *Official Report*, column 862W, on departmental freedom of information, if he will place in the Library a copy of the information provided where the request was *(a)* agreed to and answered in full and *(b)* agreed to and answered in part; and if he will make a statement. [219662]

Dawn Primarolo: Copies of the information requested by the hon. Member have been placed in the Library.

Departmental ICT

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether his IT *(a)* systems and *(b)* services conform to the ISO 27001 standard. [215856]

Mr. Bradshaw: The Department's IT systems and managed services conform to the principles of the ISO 27001 information security standard.

Departmental Industrial Accidents

Mike Penning: To ask the Secretary of State for Health what progress has been made by his Department towards its target of a 20 per cent. reduction in the incidence of accidents by 2010 from the 1996 baseline. [221031]

Dawn Primarolo: The Department, in partnership with stakeholders including other Government Departments, has been working to prevent accidental injury and to promote safety. For example, the national service frameworks for children and o' 'er people, through their standards for health and well-being, recognise the importance of unintentional injury and the need for prevention initiatives led by the national health service in partnership with local authorities. The Department has also asked the National Institute for Health and Clinical Excellence to develop a suite of guidance on the prevention of unintentional injury in children under 15 years old. It is also working with the Department for Children, Schools and Families on its cross-government public service agreement to improve children and young people's safety.

Departmental Marketing

Mr. Philip Hammond: To ask the Secretary of State for Health how much his Department and its agencies spent on branding and marketing activity in 2007-08. [212031]

Mr. Bradshaw: The Department and its agencies spent £33.09 million on branding and marketing activity in 2007-08.

The top three campaigns, in terms of expenditure, in this period were smoking—£12.7 million, tobacco legislation—£5.9 million and sexual health—£3.46 million.

Pete Wishart: To ask the Secretary of State for Health what the cost was of *(a)* internet and website design and hosting, *(b)* print media design and *(c)* broadcast media of each of his Department's public information campaigns since 1997. [214691]

Mr. Bradshaw: To calculate the costs of design and hosting for all public information websites from 1997 to date would incur disproportionate costs, as this information is not held centrally.

The Department does not record design costs separately from other aspects of print production for public information campaigns. Calculations to arrive at a separate design figure would incur disproportionate costs.

Total costs for broadcast media are as follows:

	£
1997-98	2,024,207
1998-99	7,608,024
1999-2000	14,981,014
2000-01	22,227,384
2001-02	17,270,643
2002-03	19,244,549
2003-04	35,418,249
2004-05	36,237,741
2005-06	29,700,128
2006-07	27,803,553
2007-08	28,358,908

Departmental Official Visits

Sandra Gidley: To ask the Secretary of State for Health how many official visits each Minister in his Department has made to *(a)* dental practices, *(b)* opticians, *(c)* pharmacies, *(d)* general practitioner surgeries, *(e)* care homes, *(f)* community hospitals, *(g)* genito-urinary medicine clinics, *(h)* ambulance trusts, *(i)* mental health trusts, *(j)* rehabilitation services and *(k)* stroke units since May 2007; and what the purpose of each visit was. [214969]

Mr. Bradshaw: The information requested has been placed in the Library. This also corrects the information given to the hon. Member for Eddisbury (Mr. O'Brien) on 25 February 2008, *Official Report*, column 1209W.

Departmental Public Expenditure

David Simpson: To ask the Secretary of State for Health how much was spent on *(a)* new furnishings, *(b)* art and *(c)* new vehicles by his Department in each of the last three years. [213527]

Mr. Bradshaw: The Department's central accounts for the last three years show the following expenditure on new furnishings and fittings:

	£000
2005-06	48
2006-07	2,887
2007-08	696

The Department has specified verifiable, legal and sustainable sources for the provision of timber and timber products purchased by this Department over the last five years, and will specify Forest Law Enforcement, Governance and Trade licensed timber products for future purchases when it becomes available.

The following was the net cost to the Department of leasing new vehicles in the relevant period:

	£000
2005-06	17
2006-07	37
2007-08	32

Expenditure on art is not separately identified in the Department's accounts.

Departmental Records

Mr. Lansley: To ask the Secretary of State for Health when he plans to establish mystaffspace, as referred to on page 71 of High Quality Care for All, Cm 7432; what the cost of establishing mystaffspace will be; what assessment he has made of the effect on the confidentiality of staff records of establishing mystaffspace; and if he will make a statement. [221057]

Mr. Bradshaw: Precise implementation timing and cost details associated with mystaffspace will be established in line with the experience of and lessons from developing the prototype. A programme is now being initiated and planning will include the business case, and the development and implementation plans that expect a staged roll-out over the next two years.

The security controls and safeguards to prevent unrestricted or uncontrolled access, via mystaffspace, to personal staff records will be at least as secure as those systems to which it might provide access.

Departmental Responsibilities

Mr. Hoban: To ask the Secretary of State for Health which projects his Department has commissioned from *(a)* think tanks and *(b)* charities in each of the last two years for which figures are available; what the aim of each project was; which think tank or charity was commissioned; and how much was paid. [221616]

Mr. Bradshaw: This information could not be procured without incurring disproportionate cost.

Departmental Retirement

Mr. Marsden: To ask the Secretary of State for Health whether his Department has a standard retirement age; and how many employees have been asked to retire on reaching 65 years of age in each year since 2000. [218303]

Mr. Bradshaw: The Department has a standard retirement age of 65, which was introduced on 1 October 2006. It works on the assumption that staff will not wish to work beyond the age of 65, but welcomes requests from those who wish to carry on working. Since 1 October 2006, no requests have been refused. The fairly recent introduction of a standard retirement age of 65 means that before 1 October 2006 staff were not asked or expected to retire on reaching 65.

Diabetes: Children

John Battle: To ask the Secretary of State for Health what estimate his Department has made of the average ratio of children to paediatric diabetes specialist nurses in *(a)* Leeds and *(b)* England. [220708]

Ann Keen: The information is not collected centrally. It is for local national health service organisations to deploy specialist nurses according to their local needs.

John Battle: To ask the Secretary of State for Health how many primary care trusts in Leeds have carried out a local needs assessment on the development of services for children and young people with diabetes; and if he will make a statement. [220783]

Ann Keen: This information is not collected centrally. Responsibility for developing services for children and young people with diabetes rests with the national health service, and it is for primary care trusts to commission services that meet the needs of their local population.

In April 2007, the Department of Health published 'Making Every Young Person with Diabetes Matter', the report of the Children and Young People with Diabetes working group, which looked at ways to improve diabetes services for children and young people. This report includes guidance to commissioners on the planning, design and provision of diabetes services for children and young people. A copy of this document has already been placed in the Library.

The Diabetes Commissioning Toolkit, published in November 2006, describes the importance of carrying out a health needs assessment for local diabetes populations.

Diabetes: Health Services

Mr. Sanders: To ask the Secretary of State for Health whether World-Class Commissioning will ensure that commissioners consider the rights and needs of children when developing appropriate diabetes services. [219501]

Mr. Bradshaw: The intent of the world class commissioning programme is to strengthen commissioners to improve health outcomes across all health needs and conditions in accordance with the needs of local populations. The vision is to achieve better health, better care and better value for all.

For children this means:

clear evidence-based decisions for the commissioning of children's services;

better targeting of services for children; and

the promotion of partnership working within commissioning.

Commissioners are required to engage with local patients and the public in order to ensure that services are being commissioned and delivered that best meet their needs. World class commissioning will therefore create services that are increasingly patient-led and customised to the needs of different groups and communities, including children.

Commissioners will be held to account on their commissioning performance through an assurance system that is intended to lead them towards world class commissioning of services.

In addition, the Department will be publishing a child health strategy and a joint commissioning framework in the autumn which will specifically support world class commissioning for children and young people.

Mr. Sanders: To ask the Secretary of State for Health what steps his Department is taking to tackle geographical differences in access to insulin pumps for children and young people with diabetes. [219503]

Ann Keen: In February 2003, the National Institute for Health and Clinical Excellence (NICE) published guidelines on the provision of insulin pump therapy to all people with type 1 diabetes, including children and young people. This is currently being reviewed, and the revised guidance is expected to be published shortly.

The Department is aware that access to pump therapy in England is variable. In March 2007, it published a joint report with Diabetes UK of the findings of the Insulin Pumps Working Group, a copy of which has been placed in the Library. The Working Group made recommendations about how local services can implement the NICE guidelines and address variation across the country.

Mrs. Gillan: To ask the Secretary of State for Health what plans he has to develop guidance for the *(a)* quality and *(b)* appropriate timing of hospital meals for people with diabetes; and if he will make a statement. [219611]

Mr. Ivan Lewis: There is published guidance on the quality and delivery of hospital food. An appropriate diet, based on acceptable standards, requires good food with the right nutritional content, properly prepared and available when patients need it (and this includes diets for patients with diabetes). The Food Standards Agency has published nutrient and food based guidance for major institutions, including hospitals. Guidance on nutritional information is available for all recipes in the National Dish Selector. To ensure that wholesome, high quality and value-for-money ingredients are used, the Purchasing and Supply Agency have developed specifications for ingredients.

Local national health service trusts are responsible for providing hospital meals at appropriate times. To help trusts devise their policies, including those around meal times, we have produced "Essence of Care" which sets benchmarks for screening and assessment to identify patients' nutritional needs in health and social care settings, and helps healthcare professionals form appropriate care plans.

Helen Southworth: To ask the Secretary of State for Health what measures are in place to ensure that people with diabetes receive a comprehensive medical review every 12 months. [219646]

Ann Keen: The Quality and Outcomes Framework rewards practices for the number of patients with diabetes who receive key care processes, including measuring blood pressure, HbA1c (blood glucose) and cholesterol.

Guidance on the management of type 2 diabetes from the National Institute of Health and Clinical Excellence recommends that key clinical and lifestyle interventions are carried out on a regular basis.

The Diabetes National Service Framework highlights the importance of people with diabetes having regular checks. This provides the opportunity for the results of key test and measurements to be discussed, and for any complications to be identified as early as possible.

Drugs: Rehabilitation

Anne Main: To ask the Secretary of State for Health how many prisons provide the integrated drug treatment system; how many prisoners are undergoing treatment within the system; whether his Department met its March 2008 target for the implementation of the system; and if he will make a statement. [220526]

Mr. Ivan Lewis: There was no departmental target for the implementation of the system. In 2008-09, the Department allocated funds to implement enhanced clinical treatment as part of an integrated drug treatment system (IDTS) in 91 prisons.

In 2007-08, good progress was made against implementation plans in the 53 prisons funded by the Department, in 2007-08 to implement enhanced clinical treatment as part of an IDTS. During this period, 25,519 prison drug clinical treatments were initiated in these 53 prisons.

Anne Main: To ask the Secretary of State for Health how much has been spent on the integrated drug treatment scheme in each year since its announcement. [221410]

Mr. Ivan Lewis: Departmental funding for the integrated drug treatment scheme in prison commenced in July, 2006. Funding for the remaining nine months of 2006-07 was £12 million, followed by £12.7 million in 2007-08 and £25.39 million in 2008-09.

Epilepsy

Mrs. Moon: To ask the Secretary of State for Health what funding his Department provides for *(a)* the Chalfont Centre for Epilepsy and *(b)* the National Centre for Young People with Epilepsy. [220857]

Ann Keen: We are not aware of any direct funding provided by the Department to either the Chalfont Centre for Epilepsy, or the National Centre for Young People with Epilepsy.

Mrs. Moon: To ask the Secretary of State for Health (1) what assessment he has made of the effectiveness of core training in epilepsy awareness on *(a)* neurologists, *(b)* nurses and *(c)* nurses working in accident and emergency departments; [220858]

(2) what assessment he has made of the effectiveness of the programme for provision of specialist nurses for epilepsy; [220859]

(3) what assessment he has made of the effect of core training in epilepsy awareness on levels of misdiagnosis for epilepsy. [220860]

Ann Keen: We have made no assessment of the effect on neurologists, nurses, and nurses working in accident and emergency departments of core training in epilepsy awareness.

We have made no assessment of the provision of specialist nurses for epilepsy.

We have made no assessment of the effect of core training in epilepsy awareness on levels of mis-diagnosis for epilepsy.

EU Employment Social Policy Health and Consumer Affairs Council

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the Answer of 3 July 2008, *Official Report*, columns 1109-10W, on the EU Employment, Social Policy, Health and Consumer Affairs Council, on which dates in each of the last five years senior officials have represented Ministers at the Council; and on which of these occasions Ministers were unable to attend owing to parliamentary commitments. [221391]

Dawn Primarolo: Under each presidency for the European Union, Ministers for Health from the 27 member states are invited to attend the Employment, Social Policy, Consumer Affairs and Health Council (EPSCO). From the period of 2003-08, there were two occasions where senior officials have represented Ministers at the EPSCO Council:

30 to 31 May 2007—Anne Lambert, Deputy Permanent Representative for UKRep; and

9 to 10 June 2008—Andy Lebrecht Deputy Permanent Representative for UKRep

General Practitioners

Mr. Lansley: To ask the Secretary of State for Health what the evidential basis is for the Minister of State's statement on his interview published with the BBC News website on 3 July 2008 that one GP practice in the south of England has only two patients. [218305]

Mr. Bradshaw: The evidence to support the existence of this practice—Burrswood Nursing Home is taken from the Exeter—Connecting for Health GP payment system, using latest available data on practice list size, Global sum payments and minimum practice guarantee correction factor payments.

Mr. Lansley: To ask the Secretary of State for Health which GP surgery has two patients. [219382]

Mr. Bradshaw: The Burrswood Nursing Home practice is recorded as having two registered patients.

Mr. Lansley: To ask the Secretary of State for Health which 10 GP surgeries have the lowest number of patients; and how many patients each of those surgeries has. [219383]

Mr. Bradshaw: The following table shows the 10 general practitioner (GP) practices with the lowest number of patients and the number of registered patients at each practice.

Practice	*Patients*
Burswood Nursing Home	2
Dyneley House	18
Dawcliffe Hall	19

Practice	Patients
The Surgery	39
The Windsor Centre	125
Cwll Health for Homeless	156
St. Margarets Health Centre	169
St. Weburgh's Medical	179
31 Monkgate	190
Nightingale House	226

The data are taken directly from the 2007 GP Census collection at 30 September 2007.

In addition, 28 practices have been identified that have no registered patients but who may nevertheless be continuing to provide primary medical care services to patients who are not registered with that practice.

Miss McIntosh: To ask the Secretary of State for Health when he expects to publish national figures on access to general practitioners. [220025]

Mr. Bradshaw: The 2007-08 national GP Patient Survey results were published on 16 July 2008, by the Information Centre for health and social care. The survey was conducted from January to March 2008 and shows improvements in patients experience of access during core general practitioner (GP) opening hours, but with more patients wanting to see a GP at convenient times, including, later in the evening or at weekends. This further confirms patient and public support for the Government's initiatives to secure additional and more flexible access to GP services.

The GP Patient Survey 2008 for access and hospital choice have been placed in the Library.

Miss McIntosh: To ask the Secretary of State for Health what recent assessment he has made of the level of morale amongst general practitioners; and if he will make a statement. [220026]

Mr. Bradshaw: Assessments of general practitioner (GP) morale are carried out by independent bodies such as the British Medical Association, the National Primary Care Research and Development Centre and the UK Medical Careers Research Group. The results indicate that job satisfaction among general medical practitioners is higher than it was before the introduction of the new GP contract in 2004-05.

Mrs. Riordan: To ask the Secretary of State for Health what plans he has to extend access to GP surgeries; and if he will make a statement. [220032]

Mr. Bradshaw: We have made three key commitments to improve patients' access to general practitioner services: to extend the opening hours of existing general practitioner (GP) practices, securing at least 50 per cent. of practices delivering extended opening hours to their patients; to establish over 100 new GP practices in under-or poorly-served areas; and to develop 152 GP-led health centres, one in each primary care trust (PCT), open 8 am to 8 pm, seven days a week, 365 days a year. To achieve this, we have secured an agreement with the General Practitioners' Committee of the British Medical Association on extended opening, with investment of £158 million available to general practices; guaranteed additional investment of £250 million to PCTs to provided additional general practitioner services and proposed a further investment of £50 million by PCTs to initiate further local improvements for patients in accessing local GP services.

Mr. Lansley: To ask the Secretary of State for Health with reference to paragraph 4.16 of his Department's Primary Care Strategy, whether *(a)* GP practice boundaries and *(b)* closed patient lists will be phased out. [221002]

Mr. Bradshaw: The Department has no plans to change the regulations that set out the procedures that relate to either a contractor's practice boundaries or their ability to seek permission to close their patient lists. The Department will work with primary care trusts to ensure the current arrangements work better for patients.

Mr. Lansley: To ask the Secretary of State for Health with reference to paragraph 4.16 of his Department's Primary Care Strategy, over what timescale he plans to remove the obstacles to people's choice of GP practices. [221003]

Mr. Bradshaw: We are supporting the local national health service to work with general practitioners (GPs) and other primary medical care providers to ensure the public have a greater and more informed choice of GP practice. The range of measures includes procuring new additional practices and services, expanding the capacity of existing GPs, making more information available to the public about the performance of providers, and delivering a fairer and more equitable funding system.

There is already work under way in some parts of England to promote choice of GP practice.

Mr. Lansley: To ask the Secretary of State for Health in what ways he plans to distinguish more clearly between the *(a)* commissioning and *(b)* provider role of GP practices, as referred to on chapter 7.10 on page 52 of NHS Next Stage Review: Our vision for primary and community care; and when he plans to do so. [221139]

Mr. Bradshaw: Practice-based commissioning has two elements, which when supported by appropriate governance arrangements, have the potential to improve-the range and quality of local services. Firstly, the multi-professional, collaborative work in commissioning better care for local populations. Secondly, the role of general practitioner practices in providing an enhanced range of services for their patients. For example by establishing a phlebotomy service in the practice so patients do not have to attend outpatients, or by employing an extra nurse to provide proactive care in the community in order to reduce the number of emergency referrals. The Department will provide further information on this later this summer as part of a package of measures to highlight the precise role and contribution of practice-based commissioning.

General Practitioners: Camden

Mike Penning: To ask the Secretary of State for Health (1) what discussions *(a)* he and *(b)* his officials had with Camden Primary Care Trust on the tendering

process on the alternative provider medical services contract to run Camden Road, King's Cross and Brunswick Centre GP practices; [208427]

(2) if he will call for a report from Camden Primary Care Trust on *(a)* the bids that were submitted, *(b)* the criteria used to select the successful bid, *(c)* the tendering process and timescale, *(d)* the bidder weighted score in each category and the overall total weighted score for each bid submitted and *(e)* the per patient cost estimates in each of the bids submitted, in respect of the alternative provider medical service contract to run Camden Road, King's Cross and Brunswick Centre GP practices. [208767]

Mr. Bradshaw: In March this year, I had a short conversation with the Chairman of Camden Primary Care Trust (PCT) in preparation for a local political meeting. During the conversation the Chairman briefly touched on the PCT's decision to award to United Healthcare Europe an Alternative Provider Medical Services (APMS) contract, for the management of the three GP practices. I understand that the PCT publicly announced this decision in January 2008.

The Department has not had any discussions with Camden Primary Care Trust (PCT) regarding the tendering process for the contract to run Camden Road, King's Cross and Brunswick Centre general practitioner (GP) practices. The Department does not collect information on locally managed procurements outwith the current procurements of new GP practices and health centres. Therefore we have no plans to call for a report from Camden PCT.

It is for PCTs in conjunction with their strategic health authorities (SHAs) and other stakeholders to plan and commission services to meet the needs of their local populations. The hon. Member may therefore wish to raise his concerns with the chief executive of Camden PCT.

General Practitioners: Finance

Miss McIntosh: To ask the Secretary of State for Health what the current average payment to GPs per registered patient *(a)* nationally and *(b)* in North Yorkshire is. [219783]

Mr. Bradshaw: The current general medical services (GMS) weighted capitation payment per registered patient is £54.72 but the protection of historic income by the Minimum Practice Income Guarantee means that most GMS practices receive more than this and there is wide variation in the payments that practices receive. If these protected payments were distributed fairly and equitably between GMS practices the average GMS weighted payment per patient nationally would be £66. In North Yorkshire and York Primary Care Trust the average GMS weighted capitation payments received by practices is £69. No information is held centrally on the level of similar payments made by primary care trust to PMS practices or other local contracted providers.

Miss McIntosh: To ask the Secretary of State for Health what estimate he has made of the effect on average levels of payment to GPs per registered patient of removing the minimum practice income guarantee. [219784]

Mr. Bradshaw: The Minimum Practice Income Guarantee is currently worth £325 million annually and is unevenly distributed between General Medical Services (GMS) practices on the basis of their historic income for core essential patient services. The table below sets out the distribution of additional payments being made to GMS practices in terms of £s per registered patient.

Distribution of additional payments to GMS practices

Correction factor payment per patient (£)	*Number of practices*
0	341
2	131
4	261
6	333
8	458
10	571
12	621
14	568
16	454
18	328
20	200
22	175
24	117
26	79
28	66
30	33
30+	86
Total	4,822

General Practitioners: Hemel Hempstead

Mike Penning: To ask the Secretary of State for Health what assessment he has made of the effect on the number of GP practices in Hemel Hempstead of the polyclinic proposed to be sited there; and if he will make a statement. [208765]

Mr. Bradshaw: West Hertfordshire Primary Care Trust (PCT) advises us it has no plans for a polyclinic in Hemel Hempstead. It does have proposals for a new general practitioner (GP)-led health centre to provide services in addition to existing GP surgeries and is currently considering the results of its recent consultation. The PCT advises that this will lead to an increase in capacity and additional choice for patients.

General Practitioners: Income

Mr. Lansley: To ask the Secretary of State for Health when he plans the minimum practice income guarantee will be phased out, as referred to on page 39 of High Quality Care for All, Cm 7432. [221019]

Mr. Bradshaw: NHS Employers are currently discussing with the British Medical Association's (BMA) General Practitioners Committee how best to achieve and implement a more equitable funding system for the provision of primary medical care services. These discussions include the possible timescale for phasing out the minimum practice income guarantee.

General Practitioners: Pay

Miss McIntosh: To ask the Secretary of State for Health what the average salary of a full-time general practitioner is. [219687]

Mr. Bradshaw: Information on general practitioners' earnings is collected annually as part of the GP Earnings and Expenses Enquiry and is based on general practitioners' tax self-assessment returns to HM Revenue and Customs. Both part-time and full-time general practitioners make these returns and it is not possible to separate them out to calculate an average earnings figure for full-time general practitioners only.

The latest available information from the GP Earnings and Expenses Enquiry is for the financial year 2005-06 and was published in "GP Earnings and Expenses Enquiry 2005/2006: Final Report" on 19 March 2008 and is available at:

www.ic.nhs.uk/pubs/gpearnex0506final

This publication has already been placed in the Library. The initial results from the 2006-07 Earnings and Expenses Enquiry are expected to be published in October 2008.

General Practitioners: Standards

Mr. Lansley: To ask the Secretary of State for Health whether he plans to mandate the adoption of the Royal College of General Practitioners' accreditation scheme for GP practices, as referred to on page 53 of High Quality Care for All, Cm 7432. [221119]

Mr. Bradshaw: The Department has no plans to make the Royal College of General Practitioners' accreditation scheme mandatory. Following the completion of the pilot, working with the profession we will consider how to secure widespread take-up by all primary medical care contractors so as to drive up the quality of their organisation and services they provide to patients.

General Practitioners: Working Hours

Mr. Lansley: To ask the Secretary of State for Health what the evidential basis was for his Department's decision to seek an extension of GP opening hours in England. [221231]

Mr. Bradshaw: There was a range of information that informed the basis for putting in place measures to improve patient access to general practice.

Responses to the 2007 GP Patient Survey indicated that 16 per cent. of people, around six and a half million patients, were unhappy with their general practitioner (GP) practices' opening hours.

The consultative event held in September 2007, which preceded Lord Darzi's interim report, showed that many people sought the opportunity to access routine primary care from a GP in the evenings or at weekends.

The British Medical Association's own survey of GPs in October 2007 showed that a majority of GPs would be willing to provide extended opening hours and agreed that patients wanted such a service.

Other surveys of the public carried out by Which? and other consumer representative organisations similarly show that patients want to have greater flexibility in opening times to be able to see a GP.

The 2008 GP Patient Survey results, carried out between January and March and published on 16 July 2008, showed that 18 per cent. of people—as many as seven and a half million patients nationally—want to see improvements in the opening hours of their local GP practice. This increase in dissatisfaction from the 2007 survey results reinforces the importance of primary care trusts working with local practices to deliver more flexible access for patients.

Government Communications

Mr. Hoban: To ask the Secretary of State for Health how many staff in *(a)* his Department and *(b)* its agencies (i) are classified as Government communicators and (ii) have access to the Government Communication Network. [215107]

Mr. Bradshaw: 118 staff work in the Communications Directorate. Another 21 staff are employed in the Department in an embedded communications role. All of these staff are eligible to register with the Government Communications Network (GCN).

Currently no staff within the Purchasing and Supply Agency or Medicines and Healthcare products Regulatory Agency are classified as Government communicators.

Hazardous Substances: Screening

Mr. Breed: To ask the Secretary of State for Health what tests for toxins are available on the NHS. [221036]

Dawn Primarolo: A wide range of tests for toxins is available on the national health service. These include tests for chemical compounds or other agents which cause illness or death when ingested, breathed in or injected; and testing for the presence in the body of toxins produced by microbes, in order to diagnose an infection or disease.

The Health Protection Agency runs the National Poisons Information Service, which provides information and advice to health professionals on the diagnosis, treatment and management of patients who may have been accidentally or deliberately poisoned, and supports NHS Direct and NHS 24 in providing advice to members of the public.

Health Centres

Mr. Donohoe: To ask the Secretary of State for Health how many *(a)* GP practices and *(b)* primary care centres were (i) opened and (ii) refurbished in the last 12 months; and how many of each are planned to be opened in the next three years. [220577]

Mr. Bradshaw: The NHS Plan, published in July 2000, set national targets to replace or significantly refurbish up to 3,000 general practitioner (GP) premises and create 500 one-stop primary care centres by 2004. Both targets were met. The target for one-stop centres was extended to create an additional 250 by December 2008.

In the 12 months to 31 March 2008 the number of one-stop primary care centres has increased by 27 to 719 in total. Information on the number of GP practises opened or refurbished and primary care centres refurbished is not collected centrally.

Mr. Lansley: To ask the Secretary of State for Health what estimate he has made of the number of patients who will register with new GP-led health centres. [220996]

Mr. Bradshaw: It is for primary care trusts to estimate the number of patients that will choose to register at a new general practitioner led health centre.

Mr. Lansley: To ask the Secretary of State for Health what estimate he has made of the number of primary care trusts that will not open a new GP-led health centre because to do so would be inappropriate given the health needs of their population. [220997]

Mr. Bradshaw: The Department expects each primary care trust (PCT) to secure a general practitioner (GP) led health centre during 2008-09. As the recent national GP Patient Survey demonstrates, patients across all parts of the country wish to have greater and more convenient access to GP services. It is for primary care trusts to develop models of primary care and community services that focus more strongly on promoting health, preventing illness and managing long-term conditions. PCTs may therefore chose to commission a wider range of responsive services that reflect local health need and maximise integration with other services such as diagnostics, dentistry, pharmacy and social care.

Mr. Lansley: To ask the Secretary of State for Health what plans his Department has made for the training of additional GPs to staff the new GP-led health centres. [220999]

Mr. Bradshaw: The Department has worked with strategic health authorities (SHAs) and the general practitioners (GP) postgraduate deans to expand GP training to ensure that there are sufficient training places to meet expected future demand. Since 1997 there has been an 85.4 per cent. increase in the number of GP registrars, qualified doctors in training for general practice, with 2,337 GP registrar posts being recruited to this year. The total number of doctors in training in the NHS has grown annually over the last 10 years at an average of 4.4 per cent. a year.

Mr. Lansley: To ask the Secretary of State for Health when a patient in treated in a GP-led health centre without being registered there, whether funding will be transferred from the GP where the patient is registered to the health centre to cover the cost of treatment. [221017]

Mr. Bradshaw: No.

Mr. Lansley: To ask the Secretary of State for Health whether primary care trusts that do not open a new GP-led health centre will receive the money they would have otherwise received within their allocations to fund the centre. [221233]

Mr. Bradshaw: The "NHS Operating Framework 2008-09" set out the Department's expectation that all primary care trusts (PCTs) will secure a new general practitioner led health centre using their share of the new and additional £250 million access fund and all PCTs are currently planning to deliver these extra services.

Health Centres: Finance

Miss McIntosh: To ask the Secretary of State for Health what the estimated annual GP-led average payment per registered patient will be in health centres. [220024]

Mr. Bradshaw: This is a local contractual matter for each primary care trust (PCT). However, we have advised PCTs to set a local equitable price per patient per year of care (i.e. a fair and equitable weighted capitation payment per patient); or to obtain a cost per registered patient through the procurement process. Where PCTs choose to set a local price, the payment mechanism should be calculated on a weighted capitation basis i.e. based on the expected age/sex/deprivation and demographics of the population to be covered. Where PCTs decide to ask bidders to bid on a price per registered patient, per year basis, a comparison should be made with the price per patient for existing practices with similar patient demographic characteristics.

In considering pricing, PCTs will also need to take into consideration the additional opening hours new health centre providers will need to deliver, any locally enhanced services being contracted for, or additional clinical or qualitative requirements being sought against which providers contracts will be performance management against.

Mr. Lansley: To ask the Secretary of State for Health how much *(a)* resource and *(b)* capital funding has been allocated to each primary care trust to build a new GP-led health centre. [221008]

Mr. Bradshaw: A £250 million access revenue fund was secured for the NHS through the Comprehensive Spending Review process to support the delivery of GP-led health centres in every primary care trust (PCT) and 100 new GP practices in the most poorly served PCTs. Collectively, £120 million of this is for health centres and will be included in PCT allocations using a weighted capitation formula to determine each PCTs target share of available resources. All revenue funding allocated to PCTs will be on the basis of continuing to meet recurrent expenditure.

No capital funding has been allocated specifically for the GP led health centres. Where capital investment is required to support the development of new GP facilities, they can use the funds available to them for local capital investment priorities. The Operating Framework for the NHS in England in 2008-09 stated that £400 million, £480 million and £565 million of would be available to fund the local investment priorities of the PCT sector, respectively, in this and the next two years. After careful consideration of local investment plans, to ensure the maximum possible investment in this sector, the budget for 2008-09 was increased to £500 million.

New health centre buildings may also be procured under NHS Local Improvement Finance Trust. There are currently 48 NHS LIFT schemes covering half of the country.

Health Centres: Hertfordshire

Mr. Heald: To ask the Secretary of State for Health how many polyclinics he expects will be established in North East Hertfordshire constituency. [219348]

Mr. Bradshaw: There are currently no plans to establish polyclinics in the North East Hertfordshire constituency. East and North Hertfordshire Primary Care Trust is in the process of procuring a general practitioner-led health centre.

Health Education

Mr. Lansley: To ask the Secretary of State for Health with reference to page 10 of the NHS Next Stage Review Final Report, how much money his Department has allocated to the Reduce your Risk campaign; and when this campaign will be launched. [219376]

Dawn Primarolo: Implementing the proposals in the final report of the NHS Next Stage Review, High Quality Care for All, is core business for the national health service. The NHS budget for England for 2008-09 is £96 billion and will rise to £110 billion by 2010-11. The proposals will be funded from within that settlement. Some proposals require central funding to ensure effective implementation. Central funding of £150 million in 2009-10 and £400 million in 2010-11 has been made available for this purpose.

We are confident all the commitments are affordable within this overall total, though precise funding for individual initiatives is still subject to further detailed planning work on implementation including whether they are taken forward nationally or by the NHS locally. The campaign will run alongside the introduction of vascular checks, which will begin from 2009-10 with full implementation by 2012.

Health Education: Public Participation

Mr. Lansley: To ask the Secretary of State for Health when he plans to begin work with *(a)* professional and *(b)* patient groups to provide better incentives in the Quality and Outcomes Framework for maintaining good health, as referred to on page 37 of his Department's document, High Quality Care for All, Cm. 7432; with which (i) professional and (ii) patient groups he plans to work; when he expects the agreed changes to the Quality and Outcomes Framework will come into effect; and if he will make a statement. [219362]

Mr. Bradshaw: Our vision for primary and community care—"High Quality Care for All" published on 3 July as part of Lord Darzi's national health service review proposes a new strategy for developing the Quality and Outcomes Framework, including an independent and transparent process for developing and reviewing indicators.

The report states our intention to:

discuss with the National Institute for Health and Clinical Excellence and with stakeholders including patient groups and professional bodies how this new process should work;

discuss how to reduce the number of organisational or process indicators, and refocus resources on new indicators for prevention and clinical effectiveness; and

explore the scope to give greater flexibility to primary care trusts to work with primary healthcare teams to select quality indicators (from a national menu) that reflect local health improvement priorities.

We will discuss with a wide range of professional and patient groups and other stakeholders how the new process should work. Further details will be announced later.

Health Services

Mr. Lansley: To ask the Secretary of State for Health when he plans primary care trusts (PCTs) to begin commissioning comprehensive well-being services, as referred to on page 35 of his Department's document High Quality Care for All, Cm. 7432; what the evidential basis is for focusing these services on *(a)* obesity, *(b)* alcohol, *(c)* drug addiction, *(d)* smoking, *(e)* sexual health and *(f)* mental health; what other areas were considered in assessing where to focus comprehensive well-being services; what national funding will be made available to PCTs to support them in commissioning comprehensive well-being services; what contractual mechanisms PCTs will use to commission comprehensive well-being services; in what settings he anticipates the comprehensive well-being services being provided; and if he will make a statement. [219364]

Dawn Primarolo: Implementing the proposals in the final report of the NHS Next Stage Review, "High Quality Care for All", is core business for the national health service. The NHS budget for England for 2008-09 is £96 billion and will rise to £110 billion by 2010-11. The proposals will be funded from within that settlement.

To support decisions on how to spend their allocated resource, primary care trusts have developed operational plans on the specific national requirements for all primary care trusts to deliver, alongside locally determined stretch targets which focus on local ambitions. To support this new approach the Vital Signs indicator set was published with the "Operational Plans 2008/09-2010/11".

Lord Darzi's review, "High Quality Care For All" foresees that in an NHS with a stronger focus on preventative healthcare, there will be large scale investment in wellbeing services, according to local needs. All of the areas highlighted by "High Quality Care For All" (obesity, alcohol, drug addiction, smoking, sexual health and mental health) appear in Vital Signs and the National Indicator Set, either as national priorities for local delivery (Tier 2 indicators), or local priorities which can be prioritised by primary care trusts in conjunction with local partners (Tier 3 indicators).

Improving preventative and wellbeing services was a priority in every strategic health authority vision document published as part of Lord Darzi's Next Stage Review of the NHS. Each vision document is based on an assessment of the evidence by over 2000 clinicians across England, and each one highlighted some or all of these areas (obesity, alcohol, drug addiction, smoking, sexual health and mental health) as requiring action, hence their inclusion in "High Quality Care For All".

The World Class Commissioning programme was launched in July 2007 by the Department in order to provide support and improve commissioning across the NHS. This programme will bring about a step-change in commissioning, with one aspect of this change being a stronger focus on long-term health issues.

Through stronger engagement of stakeholders, and strategic planning with a greater focus on the longer-term, we expect to see increased investment in wellbeing services throughout the NHS as a result of the World Class Commissioning programme and "High Quality Care For All".

Primary care trusts commission services from appropriate providers to deliver the services and care required. Services could be commissioned from a range of possible providers who are able to meet the service specifications identified by that primary care trust, in line with NICE guidance, where appropriate. It is up to primary care trusts to decide the appropriate settings for services as part of the commissioning process and the decisions are likely to take account of preferences of the target groups for that service.

Mr. Lansley: To ask the Secretary of State for Health in what ways he plans to work with third sector groups to reach those less able to access services, as referred to on page 35 of his Department's document High Quality Care for All, Cm. 7432. [219365]

Ann Keen: Third sector groups are part of the ongoing stakeholder engagement work that has been undertaken since vascular checks were announced in Putting Prevention First at the beginning of April this year. Regular meetings are held with the Cardio Vascular Coalition third sector group, as well as with individual third sector organisations. They provide vital information about their own work in reaching those less able to access services and we will continue to work closely with them through the development of the programme.

Mr. Lansley: To ask the Secretary of State for Health when he plans to bring forward legislation introducing a new right to choose, as referred to on page 10 of his Department's document High Quality Care for All, Cm. 7432; whether the legislation will be *(a)* primary or *(b)* secondary; whether he plans to consult on the legislation in draft; and if he will make a statement. [219369]

Mr. Bradshaw: The draft NHS Constitution proposes that the new right be underpinned by new statutory directions from the Secretary of State to primary care trusts (PCTs). This is subject to consultation. This could be done through directions under section 8 of the National Health Service Act 2006 by requiring PCTs to ensure choice. These could specify which services are covered and any exceptions. They will also require PCTs to provide information to enable choice, and to make arrangements to enable a patient to exercise choice if not offered by their general practitioner.

In addition, we propose to use the forthcoming National Health Service Reform Bill to place a legal duty on all NHS organisations to take account of the Constitution when performing their functions.

The draft NHS Constitution and the Government's proposals are open for public consultation until 17 October 2008. The details, including how to feed in views, may be found at:

www.dh.gov.uk/consultations

Mr. Lansley: To ask the Secretary of State for Health with reference to page 9 of the NHS Next Stage Review Final Report, which organisations are participating in his Department's coalition for better health. [219375]

Dawn Primarolo: The Government will build a Coalition for Better Health to work in partnership with the many other organisations outside Government that seek to promote healthier lifestyles. The Coalition for Better Health will first focus on tackling obesity and we expect partner organisations to include health, non-Government organisations, the food industry, the fitness industry, employers and others.

Mr. Lansley: To ask the Secretary of State for Health what assessment his Department has made of the level of rurality of different primary care trust areas. [221000]

Mr. Bradshaw: The Department has not made any assessment of the level of rurality of primary care trusts. However, the Department for Environment, Food and Rural Affairs did publish such a classification of the then 303 primary care and care trusts in England in 2005, based on research led by Birkbeck college at the university of London.

Mr. Lansley: To ask the Secretary of State for Health what information he plans to be included in the Patients' Prospectus, as referred to on page 40 of High Quality Care for All, Cm 7432; whether *(a)* professional, *(b)* patient and *(c)* other groups will contribute to the information included in the Patients' Prospectus; whether the information included in the Patients' Prospectus will be disease-specific; and if he will make a statement. [221021]

Ann Keen: The Patients' Prospectus aims to empower and support people with long term conditions to understand and exercise their choice around support for self care so that they can better control their condition and ultimately improve their quality of life. The Prospectus will be a national product, generic and will cover the four pillars of our existing policy on support for self care (information, tools, skills and support networks) together with healthy lifestyle choices. A wide range of stakeholders, including patients, clinicians, third sector representatives and staff from national health service organisations and local government are involved in developing the content, which will be launched first on NHS Choices in the autumn.

Mr. Lansley: To ask the Secretary of State for Health if he will publish the anticipated trajectory of the number of people *(a)* being offered and *(b)* accepting a personalised care plan over the next five years, as referred to on page 41 of High Quality Care for All, Cm 7432; how he plans to monitor uptake of personalised care plans; what information will be included in personalised care plans; and if he will make a statement. [221022]

Ann Keen: The Department is currently developing a range of options to measure and incentivise the delivery and impact of care planning including the use of patient surveys to monitor patient experience at a local level. Planned trajectories for the uptake of care plans will be decided locally. Information included in care plans will also be decided locally using recommended minimum standards.

Mr. Lansley: To ask the Secretary of State for Health when he plans to have developed the Commissioning for Quality and Innovation scheme, as referred to on page 42 of High Quality Care for All, Cm 7432, whether he will consult on a draft of the scheme; how often he expects to alter the incentives in the scheme;

whether the incentives in the scheme will be determined *(a)* nationally and *(b)* locally; which organisation will evaluate the scheme; what conditions will be prioritised in the scheme; whether the scheme will cover community services; and if he will make a statement. [221025]

Mr. Bradshaw: High Quality Care For All outlined the commitment to make payments to hospitals reflect the quality of care given to patients through a Commissioning for Quality and Innovation (CQUIN) scheme. Over the next few months, we will be working with stakeholders and national health service colleagues to develop a national enabling framework for the scheme. These discussions will include the scope of the framework, both in terms of services and specialties covered, and how the incentives will work. We will then clarify the framework later this year. The CQUIN scheme will commence from 2009 and evaluation will be subject to a competitive tender process.

Mr. Lansley: To ask the Secretary of State for Health for what reasons primary care trusts will have local discretion in choosing which Never Events to prioritise in their annual operating plans, as referred to on page 45 of High Quality Care for All, Cm 7432, when he expects the National Patient Safety Agency to publish a list of Never Events; whether he expects the National Patient Safety Agency to consult publicly on the list; and if he will make a statement. [221027]

Ann Keen: The National Patient Safety Agency (NPSA) will work with interested Primary Care Trusts (PCTs) and wider stakeholders (including patients and members of the public) to draw up a list of Never Events. This list will be published later in the year and will be available for PCTs to use in their operating plans from April 2009. The incidence of each of these events will vary between PCTs and therefore it will be important that PCTs have the flexibility to prioritise and select the events which will have the most impact on their own health population. The Department also anticipates that, over time, PCTs will expand their list of Never Events and the NPSA will keep under review the national list to incorporate more events that PCTs are able to use as we continue to learn from safety incidents and develop evidence-based interventions to prevent them happening again.

Mr. Lansley: To ask the Secretary of State for Health when he plans to introduce NHS Evidence, as referred to on page 49 of High Quality Care for All, Cm 7432. [221028]

Dawn Primarolo: The first release of the NHS Evidence Service is scheduled for April 2009.

Mr. Lansley: To ask the Secretary of State for Health (1) in what ways integrated care organisations will be rewarded for delivering better health outcomes amongst registered patients for groups of GP practices, as referred to on page 65 of High Quality Care for All, Cm 7432; [221062]

(2) what assessment he has made of the effects on competition in referrals to secondary care resulting from the creation of integrated care organisations, as referred to on page 65 of High Quality Care for All, Cm 7432. [221063]

Mr. Bradshaw: The Next Stage Review and the Primary and Community Care Strategy announced that the Department would pilot models of integrated care. A prospectus inviting pilots to submit applications against pre-agreed selection criteria will be published over the summer. This will also set out funding available for the pilots to support set up costs and project management.

The pilots will be evaluated and the criteria will include the delivery of better health outcomes, patient satisfaction, and the effects of competition and choice.

Mr. Lansley: To ask the Secretary of State for Health in what ways practice-based commissioning has not lived up to its aspirations, as referred to on page 65 of High Quality Care for All, Cm 7432. [221064]

Mr. Bradshaw: Practice-based commissioning (PBC) has the potential to transform healthcare services, allowing clinicians to develop better services for patients in local communities. However as noted by the Audit Commission's report on PBC, "Putting Commissioning into Practice" (November 2007), while there are examples of PBC thriving in a growing number of areas, the scale of service redesigns undertaken have been limited in comparison with the potential impact of PBC. "High Quality Care for All" signals the Department's intention to intensify its implementation programme and as PBC matures locally, we expect to see more ambitious redesign of local services undertaken.

Mr. Lansley: To ask the Secretary of State for Health whether the standard contract for community services, as referred to on page 64 of High Quality Care for All, Cm 7432, will be available for commissioners to utilise for the 2009-10 financial year; whether all *(a)* commissioners and *(b)* providers of community services will be required to use the standard contract for community services; and if he will make a statement. [221065]

Mr. Bradshaw: The standard contract for community services is being tested in all strategic health authority areas for implementation from April 2009. From this date all primary care trusts (PCTs) taking the lead role in awarding new contracts for community services will use the standard contract. The contract will apply to all relevant providers, including the third and independent sectors, and it will also be used as a service level agreement for PCT provider organisations. Where there is a legally binding contract in place which commenced prior to 1 April 2009, and is not due to expire until after this date, this agreement will remain in force until the expiry date unless otherwise agreed by both parties.

Mr. Lansley: To ask the Secretary of State for Health if he will place in the Library a copy of the work led by Sir Ian Carruthers on innovative delivery models, as referred to on page 63 of High Quality Care for All, Cm 7432. [221067]

Mr. Bradshaw: As part of the national health service next stage review process, Sir Ian Carruthers examined the drivers of change for delivery models with a particular emphasis on rural settings. This work will be published in due course.

Mr. Lansley: To ask the Secretary of State for Health when he plans to publish advice on the range of options for the governance of community health services, as referred to in paragraph 15, page 62 of High Quality Care for All, Cm 7432. [221068]

Mr. Bradshaw: We are developing a legal and governance framework for new organizational models, which we expect to issue later this year.

Mr. Lansley: To ask the Secretary of State for Health which primary care trusts have established arm's length provider organisations, as referred to on page 62 of High Quality Care for All, Cm 7432; and in which areas the NHS is exploring *(a)* community foundation trusts and *(b)* social enterprises for community services. [221069]

Mr. Bradshaw: The Department does not collect comprehensive information on arms length provider organisations or on primary care trusts exploring social enterprises as an organisational model for community services.

We are working with six community foundation trust pilots, covering Ashton, Leigh and Wigan, Middlesbrough, Redcar and Cleveland, Liverpool, Oldham, South Birmingham and Cambridgeshire

We are also supporting four social enterprise pathfinders that are primary care trust provider arms exploring the potential for separation and the development of a social enterprise model. These are Hull, Milton Keynes, Surrey and the Forest of Dean.

Mr. Lansley: To ask the Secretary of State for Health before which financial year he first expects to publish details of *(a)* the tariff uplift and *(b)* efficiency gains on a multi-year basis, as referred to page 52 of High Quality Care for All, Cm 7432. [221120]

Mr. Bradshaw: It is anticipated that projections for multi-year tariff uplift and efficiency gains will be announced later in the year, at the same time as the publication of the NHS Operating Framework for 2009-10.

Mr. Lansley: To ask the Secretary of State for Health what the expected timeframe is for *(a)* developing acceptable methodologies for drawing up information on clinical effectiveness, and *(b)* publishing this information, as referred to on page 51 of High Quality Care for All, Cm 7432. [221121]

Mr. Bradshaw: Clinical effectiveness is one of the principal elements of the quality of health services. Therefore, information on clinical effectiveness will form part of the full set of quality measures for acute patient care that are being identified by the Department. Officials have begun identifying measures from existing sources in the national health service, other health-related organisations and internationally. The first set of national quality measures will be assessed for robustness, accuracy and relevance and improvement will be supported by a National Quality Board and strategic health authority-based quality observatories.

Discussion with clinical staff and expert bodies on the initial set of measures identified by the Department will take place in the autumn. This will ensure that measures are drawn up in partnership with clinical and expert stakeholders prior to the announcement of the national set of measures alongside the next NHS operating framework.

In partnership with Royal Colleges and specialist associations, work will shortly commence to develop further generations of more sensitive and specific measures of care quality and outcomes. These will exploit new sources of data and research evidence, and will deliver better indicators for clinicians to use locally over coming years.

Mr. Lansley: To ask the Secretary of State for Health when he next plans to review the Quality and Outcomes Framework of the General Medical Services contract to be reviewed; whether he plans to bring forward proposals to make the process for developing and reviewing indicators in the Quality and Outcomes Framework more *(a)* independent and *(b)* transparent, as referred to on page 51 of High Quality Care for All, Cm 7432; what plans he has for the National Institute for Health and Clinical Excellence to lead on the (i) development and (ii) review of indicators in the Quality and the Outcomes Framework; whether he plans new indicators of prevention and clinical effectiveness to be added to offset the reduction in process and organisational indicators, as referred to on page 51 of High Quality Care for All, Cm 7432; and if he will make a statement. [221122]

Mr. Bradshaw: Our Vision for Primary and Community Care published on 3 July as part of NHS Next Stage Review proposes a new strategy for developing the Quality and Outcomes Framework, including an independent and transparent process for developing and reviewing indicators. The report states our intention to:

> discuss with the National Institute for Health and Clinical Excellence and with stakeholders including patient groups and professional bodies how this new process should work;
>
> discuss how to reduce the number of organisational or process indicators, and refocus resources on new indicators for prevention and clinical effectiveness; and
>
> explore the scope to give greater flexibility to primary care trusts to work with primary healthcare teams to select quality indicators (from a national menu) that reflect local health improvement priorities.

Some of these matters are subject to the outcome of negotiations with general practitioner representatives and therefore it is not appropriate to set out details in advance of those negotiations. We will discuss with professional and patient groups and other stakeholders how the new process should work.

Mr. Lansley: To ask the Secretary of State for Health what assessment he has made of the impact on competition in referrals to secondary care resulting from the integration of community providers with NHS acute trusts, as referred to on page 44 of NHS Next Stage Review: Our vision for primary and community care. [221132]

Mr. Bradshaw: We have reviewed the potential impact on choice and competition of arrangements where NHS foundation trusts hold contracts for list-based primary medical care and we issued guidance in "The NHS in England: The operating framework for 2008/9 Annex D—

Principles and rules for co-operation and competition" copies of which have already been placed in the Library. The guidance sets out the safeguards that primary care trusts, as commissioners of services, should apply both in considering whether to award primary care contracts to secondary care providers and through the contracts for such services. These principles and safeguards apply to any service that involves referrals from community providers to secondary care.

Mr. Lansley: To ask the Secretary of State for Health in what ways his Department plans to assess the prevalence of illness amongst the populations served by different GP practices, as referred to on page 40 of NHS Next Stage Review: Our vision for primary and community care. [221133]

Mr. Bradshaw: Our Vision for Primary and Community Care published on 3 July as part of NHS Next Stage Review states "we will work to ensure that QOF rewards better reflect the prevalence of illness amongst the populations served by different GP practices".

We are currently discussing with the British Medical Association changes to the prevalence formula which weights Quality and Outcome Framework payments according to prevalence of disease as measured through Quality Management System, which receives data extracted from general practitioner clinical systems.

Mr. Lansley: To ask the Secretary of State for Health what the planned timescale is for exploring the use of patient-reported outcome measures in the Quality and Outcomes Framework, as referred to on page 45 of NHS Next Stage Review: Our vision for primary and community care; whether he plans these patient-reported outcome measures to be disease-specific; and if he will make a statement. [221136]

Mr. Bradshaw: We will be exploring with the profession the feasibility of developing indicators based on Patient Reported Outcome Measures (PROMs) for the Quality and Outcomes Framework. These may include PROMs for specific disease areas depending on the evidence base for such indicators.

Mr. Lansley: To ask the Secretary of State for Health what greater freedoms he expects to provide to practice-based commissioners which can show they can take on increased responsibility, as referred to on page 52 of NHS Next Stage Review: Our vision for primary and community care. [221138]

Mr. Bradshaw: Greater freedoms in managing resources will become available to practice-based commissioners who can demonstrate an ability to undertake increased responsibility. The precise nature of these freedoms, including their application, will be developed this autumn in consultation with primary care trusts and practice-based commissioners.

Mr. Lansley: To ask the Secretary of State for Health in what ways he envisages the NHS Constitution encouraging open and transparent explanation by local NHS organisations if they choose not to fund a drug or treatment that a patient and clinician feels appropriate, as referred on page 44 of High Quality Care for All, Cm 7432; what elements of decision-making on the funding of new treatments and drugs he defines as irrational; and if he will make a statement. [221143]

Dawn Primarolo: The draft NHS Constitution (copies have already been placed in the Library) was published on 30 June 2008 and the Government's proposals are open for public consultation until 17 October 2008. The Government will consider these issues, including the principles to support NHS decision-making, following the consultation.

Mr. Lansley: To ask the Secretary of State for Health when he expects to have developed ways to *(a)* monitor uptake of new clinical technologies and *(b)* measure the uptake of clinically-effective and cost-effective medicines once introduced, as referred to on page 44 of High Quality Care for All, Cm 7432; what plans he has to repeat the National Cancer Director's report on the uptake of National Institute for Health and Clinical Excellence (NICE)-approved cancer medicines in future years; whether his Department will produce a report on the uptake of all NICE-approved medicines in future years; and if he will make a statement. [221144]

Dawn Primarolo: As part of the innovation package agreed through the Pharmaceutical Price Regulation Scheme negotiations, and in support of the objectives set out in "High Quality Care for All", the Government have committed to developing new metrics for the uptake of clinically and cost-effective medicines, starting with a number of drugs positively appraised by the National Institute for Health and Clinical Excellence (NICE) and to publishing comparative international data. Detailed arrangements for the publication of these metrics have yet to be finalised.

The National Cancer Director's latest report on the uptake of cancer treatments recommended by NICE will be published later in 2008.

NICE currently publishes information on the uptake of a number of treatments it has appraised on its website at:

www.nice.org.uk/usingguidance/evaluationandreviewofniceimplementationevidenceernie/niceimplementationuptakecommissionedreports/nice_implementation_uptake__commissioned_reports.jsp

Mike Penning: To ask the Secretary of State for Health what recent assessment he has made of the clinical effectiveness of pre-hospital care as carried out by *(a)* doctors, *(b)* consultants and *(c)* paramedics. [221315]

Mr. Bradshaw: We have made no such assessment. The Department recognises that a range of professionals have a role to play in the provision of safe, high quality pre-hospital care but that it is for the local national health service to plan and provide such services and that the particular mix of clinical staff in such services is a local matter. Consultants, doctors and paramedics undergo professional regulation to ensure that standards are maintained.

Health Services: Cumbria

Mr. Jamie Reed: To ask the Secretary of State for Health what plans he has for spending on primary care in *(a)* Cumbria and *(b)* Copeland constituency in the next three years. [219884]

Mr. Bradshaw: The Department makes revenue allocations to primary care trusts (PCTs) and not to constituencies. The revenue allocation made to Cumbria PCT for 2008-09 is provided in the following table.

Cumbria Teaching PCT	*2008-09*
Allocation (£000)	726,801
Cash increase (£000)	37,642
Percentage age increase	5.5

The 2009-10 and 2010-11 PCT revenue allocations will be announced in the autumn alongside the NHS Operating Framework for 2009-10.

It is the responsibility of individual PCTs to commission appropriate services to meet the needs of their local populations.

Mr. Jamie Reed: To ask the Secretary of State for Health how much has been spent on *(a)* primary and *(b)* acute healthcare in (i) Cumbria, (ii) West Cumbria and (iii) Copeland constituency since 1997. [219885]

Mr. Bradshaw: The information is hot available as requested. Information showing primary, general and acute health care by the Cumbria Primary Care Trust (PCT) and its predecessor organisations, from the earliest and latest dates available, is shown in the following table.

£000

	Total primary healthcare purchased	*General and acute*

Mr. Jamie Reed: To ask the Secretary of State for Health what steps his Department is taking to reduce inequalities of health outcomes and life expectancy within Cumbria. [219886]

Dawn Primarolo: This information is not held centrally.

The Department has put in place a number of measures to tackle health inequalities. On 9 June 2008, my right hon. Friend the Secretary of State launched the document Health Inequalities: Progress and Next Steps. The document highlights successes in reducing inequalities and identifies how effort will be increased to meet the health inequalities 2010. National Public Service Agreement target for life expectancy and infant mortality. The document also sets the direction of travel for tackling health inequalities. It commits the Government to work together to develop the structures, systems and actions to sustain long-term delivery on health inequalities.

The document also publicised an improved health inequalities intervention tool, jointly owned by the Department and the Association of Public Health Observatories. The tool is an interactive website to help local health services and councils improve life expectancy in local areas.

The Department has also established national support teams for health inequalities and for tobacco control to disseminate best practice across all spearhead areas and areas with high infant mortality rates, and to provide intensive support for those areas that need it.

Health Services: Finance

Mr. Lamley: To ask the Secretary of State for Health for what reasons health care providers not working for or on behalf of the NHS will not be required to publish quality accounts, as referred to on page 51 of High Quality Care for All, Cm 7432. [221115]

Mr. Bradshaw: The remit of Lord Darzi's Next Stage Review was to consider the future of the national health service, not health care in general. Independent health care providers who are currently subject to regulation by the Healthcare Commission are required to publish information about their services and, subject to passage in Parliament, similar regulatory requirements will be laid on all providers registered by the Care Quality Commission.

Health Services: North West

Mr. Lamley: To ask the Secretary of State for Health what the *(a)* structure and *(b)* objectives are of NHS North West's pay-for-performance scheme, referred to on page 42 of High Quality Care for All, Cm 7432. [221024]

Mr. Bradshaw: This information is not held centrally. Information about the national health service North West's Advancing Quality scheme is available on the Advancing Quality website at:

www.advancingqualitynw.nhs.uk.

Health Services: Royal Household

Andrew Mackinlay: To ask the Secretary of State for Health pursuant to the answers of 26 March 2008, *Official Report*, column 201W, on health services: Royal Household and 28 April 2008, *Official Report*, columns 149-50W, on general practitioners: Buckingham Palace, for what reasons his Department was not aware on 25 March 2008 of the arrangements for provision of primary health care service to staff of the Royal households; and if he will make a statement. [220846]

Mr. Bradshaw: Primary care trusts have a duty to secure primary medical services or secure their provision within what it considers necessary to meet reasonable requirements. That includes arrangement for the provision of primary health care services to staff of the Royal Household who live in the PCT area.

The Department does not monitor the individual performance of practices or registration of individual patients with the practice.

The arrangements for the provision of primary care services to the Royal Household predate this Government and it was not until after the 25 March 2008 that it was brought to the Department's attention the arrangement that has historically been provided under existing general medical services.

Health Services: Rural Areas

Mr. Jamie Reed: To ask the Secretary of State for Health what assessment his Department has made of the effect of public transport provision on accessibility of the health services in rural areas. [219883]

Mr. Bradshaw: The effect of public transport provision on the accessibility of local health services is a matter for consideration by the local commissioners and providers of those services.

Health Services: Telephone Services

Mr. Lansley: To ask the Secretary of State for Health (1) what the *(a)* costs and *(b)* benefits of a three-digit telephone number for urgent care which his Department is considering, as referred to on page 40 of High Quality Care for All, Cm 7432; which (i) officials and (ii) other parties are involved in the next phase of work on the matter; when he plans to set out further details on the next phase of work; whether his Department plans to encourage the development of local three-digit urgent care numbers ahead of its national review, as recommended in the visions documents of England's strategic health authorities; and if he will make a statement; [221020]

(2) what each of the options being considered by his Department for an urgent care number are as referred to on page 27 of NHS Next Stage Review: Our vision for primary and community care. [221049]

Mr. Bradshaw: The Next Stage Review set out that we are currently considering various options to introduce a new three-digit telephone number to help people find the right local service to meet their urgent, unplanned care needs. Part of this phase of work will include considering the costs and benefits of introducing a three-digit number.

Officials in the Commissioning and System Management Directorate are leading this project and working with others in the Department and stakeholders including from strategic health authorities (SHAs), primary care trusts, ambulance trusts, out of hours providers, clinicians and NHS Direct. Officials will be exploring with SHAs their plans for implementing a three-digit number to inform options development. Further details from this phase of work will be set out in the autumn.

Health Services: Voluntary Organisations

Mr. Stephen O'Brien: To ask the Secretary of State for Health what progress his Department has made towards implementation of the Government's commitment to introduce full cost recovery for the voluntary sector; and when the commitment will be fully implemented. [221430]

Mr. Ivan Lewis: The Department fully supports the principle of full cost recovery (FCR) for the voluntary sector. Its new Third Sector Investment programme, launched on 17 July 2008, has been designed so that Compact principles, including FCR, are embedded from the outset and reflected in the guidance for applicants for grant funding, to support applicants in submitting well costed proposals.

Policy supporting procurement activities for goods and services within the Department signpost staff to the Office of Government Commerce and the Home Office document "Think smart, think voluntary sector" on procurement from the voluntary and community sectors.

Guidance within the "Commissioning Framework for Health and Wellbeing" makes clear that Commissioners should adopt procurement practices that are fair and open—meaning neutral between different types of providers and transparent on pricing—minimising transaction costs and allowing providers to frame realistic economic tenders. We believe this is the most straightforward way to deal with the issue of 'full cost recovery'.

Heart Diseases: First Aid

Mrs. Riordan: To ask the Secretary of State for Health what steps are being taken to encourage people to learn resuscitation techniques for heart attack and stroke victims. [220013]

Mr. Bradshaw: No specific steps are being taken by the Government to encourage people to learn resuscitation techniques for heart attack and stroke victims.

The NHS Plan made a commitment to provide 3000 automatic external defibrillators (AED) in public places. This helps to save the lives of those heart attack sufferers who have a cardiac arrest. National Defibrillator Programme resulted in over 6,050 site personnel from public places such as airports, railway stations and bus stations receiving training in basic life support (BLS) and the use of an AED. By the end of 2006, a further

11,405 people had been trained and 10,642 re-trained. Current responsibility for training lies with the Ambulance Service Trusts.

The Department has been working with the Department for Children, Schools and Families and the Healthy Schools initiative to improve the information available to schools wishing to provide first aid and cardiac pulmonary resuscitation (CPR) training to their pupils. A number of first aid and CPR training providers have been involved in this work and it is intended to publish a package of information for schools shortly.

People with stroke also require urgent treatment initiated by a 999 call. At the launch of the National Stroke Strategy in December 2007 (copies of which have already been placed in the Library), £12 million of central funding was set aside for raising awareness of the signs and symptoms of stroke and the need to call 999. This work is in progress and will support a more urgent and timely response of the national health service and the public to stroke.

Heart Diseases: Waiting Lists

Mr. Donohoe: To ask the Secretary of State for Health what the average waiting times for heart operations in NHS hospitals were in *(a)* 2005 and *(b)* the last 12 months; and how many operations were carried out in each period. [220567]

Ann Keen: The information is in the following table:

Mean and median days waited for heart operations and the number of finished consultant episodes where a heart operation was the main or secondary procedure in both 2005-06 and 2006-07, NHS hospitals England, and activity performed in the independent sector in England commissioned by English NHS

	Mean days waited	*Median days waited*	*Finished consultant episodes*
2006-07	65	56	294,811
2005-06	74	60	287,215

Data quality Hospital Episode Statistics (HES) are compiled from data sent by over 300 NHS trusts, and primary care trusts (PCTs) in England. Data are also received from a number of independent sector organisations for activity commissioned by the English NHS. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain. *Finished admission episodes* A finished admission episode is the first period of in-patient care under one consultant within one health care provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year. *Finished consultant episode (FCE)* An FCE is defined as a period of admitted patient care under one consultant within one health care provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year. *Main procedure/intervention* The main procedure/intervention is the first recorded procedure or intervention in the HES data set and is usually the most resource intensive procedure or intervention performed during the episode. *Heart operations* K01-K78 *Secondary procedure* As well as the main operative procedure, there are up to 11 (three prior to 2002-03) secondary operation fields in Hospital Episode Statistics (HES) that show secondary or additional procedures performed on the patient during the episode of care. *Time waited (days)* Time waited statistics from Hospital Episode Statistics (HES) are not the same as the published waiting list statistics. HES provides counts and time waited for all patients admitted to hospital within a given period whereas the published waiting list statistics count those waiting for treatment on a specific date and how long they have been on the waiting list. Also, HES calculates the time waited as the difference between the admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical/social suspension. The IC have provided the mean (average) and median (middle in ranking) days waited where there was a main procedure of 'heart operation' in 2005-06 and 2006-07. The median figures are a better proxy to the average time waited as mean figures can cloud the real picture as some anomalies (long-waiters) may be artificially increasing the average. Ungrossed data Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Hospital Episode Statistics (HES), The NHS Information Centre for Health and Social Care.

Herbal Medicine

Mike Penning: To ask the Secretary of State for Health (1) how many applications under the provisions of the Traditional Herbal Medicinal Products Directive the Medicines and Healthcare products Regulatory Agency expects to receive for *(a)* single ingredient products and *(b)* more complex products; [221075]

(2) if he will list the principal quality and efficacy tests which must be met by manufacturers submitting products for registration under the Traditional Herbal Medicinal Products Directive; and if he will indicate in the case of each such test the costs of compliance assumed in the context of the regulatory impact assessment produced in connection with this legislation; [221076]

(3) what the requirements are under the Traditional Herbal Medicinal Products Directive for a qualified person to be employed to authorise the release of herbal products to the market; what purpose is served by this requirement; and what assessment he has made of the costs associated with this provision for a small manufacturer of specialist herbal remedies; [221077]

(4) what the outcome was of the recent review of the operation of the Traditional Herbal Medicinal Products Directive undertaken by the European Commission; what period was covered by the review; and whether he intends to make it his policy to press for the review to be repeated now that member states have had the opportunity to use the provisions of the Directive. [221079]

Dawn Primarolo: It is a commercial decision for individual companies whether to apply for a traditional herbal registration (THR) under the provisions flowing from directive 2004/24/EC. The Medicines and Healthcare products Regulatory Agency (MHRA) is not in a position to estimate how many applications will be submitted. So far, the MHRA has received 38 THR applications, of which 33 are for products containing a single active ingredient and five are for combination products. The MHRA expects that a high proportion of early applications will be for relatively simple products while companies become accustomed to meeting the regulatory requirements of the scheme.

There is normally no requirement for applicants to submit information on the efficacy of the product under the THR scheme. The quality requirements for herbal medicinal products and traditional herbal medicinal products are set out in detailed guidance documents following consultation with industry. The European Pharmacopoeia also sets out legally binding standards for herbal ingredients as well as excipients used in herbal medicinal products. The purpose of the quality tests is to ensure that the herbal medicinal product is safe for use and has a reproducible quality over its proposed shelf-life. Tests are required to ensure that the correct plant materials are used, free from potentially hazardous contaminants such as pesticide residues, fumigant residues, heavy metals/other toxic elements, mycotoxins, bacteria/fungi. Where herbal extracts are employed, tests are required on all materials used, including solvents and reagents used for extraction, to ensure that they are as intended and of acceptable quality. The herbal extract undergoes tests to ensure it is of reproducible quality and that it is free from hazardous levels of, for example,

residual solvents, micro-organisms or potential contaminants from the starting plant materials. The finished dosage form is tested to ensure that it contains the declared amount of herbal ingredients and that it will remain of suitable quality throughout the proposed shelf-life.

European and United Kingdom medicines legislation requires manufacturers and/or importers of registered traditional herbal medicines for human use to hold a manufacturer's licence. It is a condition of such a licence that the holder must have a Qualified Person (QP). The QP must either meet existing specific educational and vocational requirements or attain status through transitional arrangements. The QP has a personal responsibility for certifying that each batch of registered traditional herbal medicine, has undergone the appropriate tests, complies with its registered specification and has been manufactured in accordance with good manufacturing practice. The purpose of these requirements is to ensure that a safe quality traditional herbal medicine is placed on the market.

In its regulatory impact assessment of the THR scheme, the MHRA estimated that typically the costs of registering a product under the scheme could be several tens of thousands of pounds but that the figure would vary widely according to specific circumstances, not least depending on whether companies already had systematic quality control systems in place. This assessment has not changed.

The European Commission launched a public consultation in May 2007 on the review of the operation of directive 2004/24/EC. The consultation included data up to March 2007. It is the European Commission's responsibility to report on the findings of that review and, pending that outcome, we have no present plans to press for an early second review.

Mike Penning: To ask the Secretary of State for Health what the requirements are under the provisions of the Traditional Herbal Medicinal Products Directive for the certification of manufacturing premises; what charges are levied by the Medicines and Healthcare Products Regulatory Agency for inspections associated with such certification; and how many facilities have *(a)* been inspected and *(b)* been certified as meeting the necessary standards. [221078]

Dawn Primarolo: The Directive on Traditional Herbal Medicinal Products requires manufacturers of registered herbal medicines to be authorised by the national competent authority. In the United Kingdom, the Medicines and Healthcare products Regulatory Agency authorises and inspects manufacturers. The inspection fee is currently £1,496 for a full day and £920 for half a day. Manufacturers must meet certain conditions and employ a qualified person in order to be authorised. A number of manufacturers were already authorised to manufacture herbal medicines before the Directive came into force. Since the implementation of the Directive all of the small number of manufacturers who have applied specifically to manufacture registered herbal medicines have been authorised.

Kate Hoey: To ask the Secretary of State for Health how many applications for product registrations under the provisions of the Traditional Herbal Medicinal Products Directive have been received by the Medicines and Healthcare Products Regulatory Agency to date; and how many of those applications have been approved. [221691]

Dawn Primarolo: The Medicines and Healthcare products Regulatory Agency has so far received 38 applications from 14 companies to register products under the traditional herbal registration scheme. To date 17 registrations have been granted and the remaining applications are under assessment.

Kate Hoey: To ask the Secretary of State for Health what assessment he has made of the regulatory impact of the Traditional Herbal Medicinal Products Directive on *(a)* small and medium-sized specialist manufacturers of herbal remedies, *(b)* specialist retailers and *(c)* consumer choice. [221692]

Dawn Primarolo: In its regulatory impact assessment of the traditional herbal registration (THR) scheme the Medicines and Healthcare products Regulatory Agency (MHRA) estimated that typically the costs of registering a product under the scheme could be several tens of thousand pounds but that the figure would vary widely according to specific circumstances, not least depending on whether companies already had systematic quality control systems in place. This assessment has not changed. A steadily expanding THR scheme, alongside the availability of licensed herbal medicines, will offer consumers wide choice of over the counter herbal medicines made to assured standards of safety, quality and product information. The likelihood of increased consumer confidence in the standards of products, including the reliability of product information, could also be of benefit to responsible specialist manufacturers and retailers.

Kate Hoey: To ask the Secretary of State for Health what estimate he has made of the number of herbal products marketed under the provisions of Section 12(2) of the Medicines Act 1968 as medicines exempt from the need for a licence in the last 30 years; how many and what percentage of those products will need to secure registrations under the Traditional Herbal Medicinal Products Directive; and what steps he is taking to assist manufacturers with this process. [221693]

Dawn Primarolo: Companies are not required to notify the Medicines and Healthcare products Regulatory Agency (MHRA) of products marketed under section 12(2) of the Medicines Act 1968, therefore no estimates are available in relation to these products. Following the expiry of the transitional period permitted under Directive 2004/24/EC manufactured herbal medicines placed on the market will require either a marketing authorisation or a traditional herbal registration (THR). As now there will continue to be some herbal products that potentially can be placed on the market either as medicinal products or under other product regulatory regimes depending on their presentation.

The MHRA continues to provide a range of help to companies aimed at helping them to progress plans to register products including holding meetings with companies to discuss the progress of actual or prospective applications under the THR scheme and providing a range of detailed advice via the agency's website.

Kate Hoey: To ask the Secretary of State for Health by what date herbal products marketed under the provisions of Section 12(2) of the Medicines Act 1968 as medicines exempt from the need for a licence will need to secure a registration under the provisions of the Traditional Herbal Medicinal Products Directive; and whether he plans to ask the European Union to extend that deadline. [221694]

Dawn Primarolo: From 30 April 2011 no herbal medicine within the scope of Directive 2004/24/EC may be placed on the market or distributed by way of wholesale dealing without a traditional herbal registration. As now there will continue to be some herbal products that potentially can be placed on the market either as medicinal products or under other product regulatory regimes depending on their presentation. We have no plans to ask the European Commission to propose legislation extending the deadline in Directive 2004/24/EC.

Kate Hoey: To ask the Secretary of State for Health what charges are levied by the Medicines and Healthcare Products Regulatory Agency for processing applications for product registrations under the Traditional Herbal Medicinal Products Directive for *(a)* single ingredient and *(b)* complex products. [221695]

Dawn Primarolo: The current fees for registering applications for products under the traditional herbal registration scheme range from £555 for single existing ingredient to £7,480 for complex new products. The fees charged by the Medicines and Healthcare products Regulatory Agency (MHRA) are set at a level to reflect fairly the cost related to each activity. These fee levels and costs are reviewed closely every year. This is in line with HM Treasury guidance.

MHRA fees for registering herbal products are significantly lower than those levied on pharmaceutical companies for the registration of other medicines. The fees are based on an estimate of the amount of time it takes to undertake each of the activities and the costs of the relevant staff required to undertake these activities. Applications that are more complex take longer to assess and can require staff with more experience to undertake the work. These costs are reflected in the fee charged. The fee of £7,480 for processing applications for registration of complex herbal products containing two or more ingredients not previously assessed by the agency reflects the additional work necessary when assessing ingredients for the first time.

HIV Infection: Prisoners

David Howarth: To ask the Secretary of State for Health what the cost to his Department was of conducting the last Public Health Laboratory Service survey into HIV and hepatitis rates in prisons. [220098]

Mr. Ivan Lewis: The last Public Health Laboratory Service study of HIV, hepatitis B and hepatitis C prevalence in prisoners in England and Wales was conducted in 1997 and 1998. The cost to the Department at that time is not available.

Home Information Packs

Robert Neill: To ask the Secretary of State for Health how many home information packs have been commissioned by *(a)* his Department and *(b)* its agencies to market a residential property; for which properties; at what cost; and whether a voluntary home condition report was purchased as part of the packs. [219012]

Mr. Bradshaw: Neither the Department nor its agencies have commissioned a home information pack in respect of the marketing of a residential property.

Hospital Wards: Gender

Anne Milton: To ask the Secretary of State for Health if he will make a statement on the future of mixed sex accommodation in hospitals. [218514]

Ann Keen: We are committed to reducing mixed sex accommodation to an absolute minimum, and where possible eliminating it. To this end, "The Operating Framework. For the NHS in England 2008-09", requires primary care trusts to review the current situation in all trusts and agree, publish and implement stretching local plans for improvement in delivering single sex accommodation, with identified timescales and monitoring mechanisms. The framework specifically requires that patient survey results, where available, be used as the monitoring mechanism.

The need to treat and admit patients will on occasions need to take priority over provision of a single sex accommodation. We emphasise that under such circumstances, good standards of segregation can be achieved within a mixed ward, for example by using single rooms or single sex bays.

Hospitals: Admissions

Mr. Lansley: To ask the Secretary of State for Health what the evidential basis is for the statement on page 21 of NHS Next Stage Review: Our vision for primary and community care that rates of emergency hospital admissions for long-term conditions vary more than twofold across the country. [221050]

Mr. Bradshaw: The Department uses hospital episodes statistics data, which provides information on emergency hospital admissions in each primary care trust.

Hospitals: Cleaning Services

Mr. Lansley: To ask the Secretary of State for Health whether his Department plans to repeat its deep clean of all NHS hospitals in 2008-09. [221232]

Ann Keen: There are no plans for the Department to take part in planning a further national-level programme of deep cleaning hospitals in England. Rather, national health service trusts' strategic and operational cleaning plans are expected to make provision for ongoing deep cleaning activity.

Hospitals: Food

Dr. Kumar: To ask the Secretary of State for Health what guidance he provides to hospitals on reducing waste from the meals they provide. [219846]

Ann Keen: The Department issued 'Managing Food Waste in the NHS' in March 2005. This document provides best practice guidance for catering managers, nurses, ward housekeepers, doctors, dieticians and the ward-based teams in general. It identifies reasons why wastage occurs and provides guidance on reducing the volume of food that is supplied or cooked, but is not subsequently served. It also provides guidance on identifying the responsibilities for reducing waste and on the factors likely to be involved in wastage. A copy of this document has been placed in the Library.

Hospitals: Hertfordshire

Anne Main: To ask the Secretary of State for Health how many missed appointments there have been *(a)* at St. Albans City Hospital, *(b)* in West Hertfordshire Hospitals NHS Trust and *(c)* in East and North Hertfordshire NHS Trust in the last 12 months; and what the cost of missed appointments in each category was in that period. [221411]

Mr. Bradshaw: Information about missed appointments ('did not attends'—DNAs) is collected at national health service trust level, not at individual hospital level. The following table contains information about DNAs at West Hertfordshire hospitals NHS trust, which includes St. Albans City hospital, and at East and North Hertfordshire NHS trust in 2007-08. Information about the cost of missed appointments is not collected centrally.

DNAs in Hertforashire acute NHS trusts in 2007-08

	DNAs			
Organisation	*First out-patient attendances*	*Subsequent out-patient attendances*	*In-patient*	*Total*
West Hertfordshire hospitals NHS trust	6,939	25,570	725	33,234
East and North Hertfordshire NHS trust	8,950	18,414	561	27,925

Source:
Department of Health Form Quarterly activity return: provider-based.

Hospitals: Infectious Diseases

Mr. Hancock: To ask the Secretary of State for Health (1) what the average cost to the NHS is per in-patient of treating healthcare associated infections, including those who do not contract an infection; [216134]

(2) what the average cost to the NHS is of treating a patient with *(a)* MRSA, *(b)* clostridium difficile, *(c)* norovirus and *(d)* other healthcare-associated infections. [216135]

Ann Keen: The Department does not routinely collect this information and no single definitive cost figure exists. However, a study by the Public Health Laboratory Service (PHLS)[1] in 1999 estimated that hospital-acquired infections (HCAIs) cost the national health service £1 billion a year. This is still the best available estimate of NHS costs, although based on data from 1994-95. There were 11.4 million in-patient episodes in 1994-95. This suggests that the cost of HCAIs in 1994-95 was equivalent to £87 per patient. A cost of £87 in 1994-95 would be equivalent to £137 in 2006-07 prices (applying standard deflators).

Estimates of the cost of treating specific infections are not available. The Department published a 'HCAI productivity costing[1]' tool in May 2006, which suggested a cost of around £4,300 per HCAI case in 2003-04. This analysis was based primarily on the PHLS report and figures were uprated to 2003-04 prices using standard deflators.

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_4134551

Hospitals: Standards

Mr. Lansley: To ask the Secretary of State for Health what standards his Department expects NHS trusts to meet in relation to the privacy and dignity of changing facilities provided for patients. [221015]

Mr. Bradshaw: Health Building Note 12: 'Out-patients Department' (NHS Estates, 2004) recommends for consulting examination rooms, that there should be sufficient space within a curtained area for a patient to undress/dress in privacy, with assistance when required.

Health Building Note 10-02: Surgical Services' (Department of Health, May 2007) recommends the provision of individual changing rooms for admissions leading to either a dedicated individual waiting space for every patient or separate male, female and children's waiting provision.

Hospitals: Waiting Lists

Mr. Donohoe: To ask the Secretary of State for Health what the size of NHS waiting lists was *(a)* in 2005 and *(b)* at the most recent date for which figures are available. [220561]

Mr. Bradshaw: The waiting lists for in-patient admission and for first consultant led out-patient appointment following general practitioner referral are shown in the following table:

Period ending	*In-patient*	*Out-patient*
December 2005	784,316	1,190,637
May 2008	543,595	854,210

Note:
Figures are provider based, for NHS trusts in England.

Mr. Donohoe: To ask the Secretary of State for Health what average inpatient treatment waiting times were *(a)* in 2005 and *(b)* at the latest date for which information is available. [220562]

Mr. Bradshaw: The information is shown in the following table:

Period ending	Median in-patient waiting time (weeks)
December 2005	7.6
May 2008	4.3

Note: Figures are commissioner based collated from primary care trusts in England.

Mr. Donohoe: To ask the Secretary of State for Health whether the NHS Plan's target of a maximum six month wait for inpatient treatment has been achieved. [220563]

Mr. Bradshaw: The national health service continues to deliver the 26-week in-patient maximum waiting standard established in December 2005, with only a small number of breaches representing a tiny fraction of the total waiting list.

At the end of May 2008, 42 patients were waiting longer than the 26 weeks in-patient admission compared with 284,000 at the end of March 1997, a reduction of around 99.9 per cent. The average waiting time for an in-patient admission has fallen from 13 weeks in 1997 to 4.3 weeks in May 2008.

Mr. Donohoe: To ask the Secretary of State for Health what assessment he has made of the performance of NHS trusts in reducing accident and emergency waiting times to below the four hour target. [220564]

Mr. Bradshaw: National health service trusts in England are expected to meet the four hour accident and emergency (A and E) operational standard of 98 per cent. of patients being seen, diagnosed and treated within four hours of their arrival at A and E. This standard is set out as an existing commitment for the NHS to meet in The NHS in England: The Operating Framework for 2008-09.

The waiting experience for millions of patients in A and E has dramatically improved from just a few years ago. For two out of the last three financial years, trusts have exceeded the A and E four hour operational standard. For 2007-08 as a whole performance was just below the operational standard, however the overwhelming majority of trusts are still achieving the four hour standard. Performance against the standard is published on a quarterly basis and is available at:

www.performance.doh.gov.uk/hospitalactivity/data_requests/index.htm

The Healthcare Commission also uses A and E performance as part of its annual health check.

It is a local matter for NHS trusts to ensure that they meet the A and E four hour operational standard. In cases of underperforming trusts, the Department seeks assurances via the strategic health authority that NHS trusts have plans in place for improvement in A and E performance, in providing high quality, timely care to patients.

Mr. Donohoe: To ask the Secretary of State for Health how many *(a)* emergency and *(b)* elective admissions to NHS hospitals there were in each of the last three years. [220568]

Mr. Bradshaw: The following table shows the number of emergency and elective admissions to hospital in England during the last three years for which figures are available.

	Emergency admissions	Elective admissions
2006-07	4,700,017	6,225,149
2005-06	4,659,054	6,000,013
2004-05	4,429,121	5,700,347

Notes:
1. Finished admission episodes:
A finished admission episode is the first period of in-patient care under one consultant within one health care provider. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. Data Quality: HES are compiled from data sent by over 300 national health service trusts and primary care trusts in England. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. Whilst this brings about improvement over time, some shortcomings remain.
3. Assessing growth through time: HES figures are available from 1989-90 onwards. During the years that these records have been collected by the NHS, there have been on-going improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series. Changes in NHS practice also need to be borne in mind when analysing time series. For example a number of procedures may now be undertaken in outpatient settings and may no longer be counted in the HES data. This may account for any reductions in activity over time.
4. Ungrossed Data: Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Hospital Episode Statistics (HES), The NHS Information Centre for health and social care.

Human Embryo Experiments

Anne Main: To ask the Secretary of State for Health what recent consideration he has given to the development of a policy on single embryo transfer. [221732]

Dawn Primarolo: The Human Fertilisation and Embryology Authority (HFEA) has launched a strategy to reduce the number of multiple births following fertility treatment from 24 per cent. nationally to 10 per cent. over three years. The basis of the strategy is that the transfer of one embryo at a time, where this is clinically appropriate, will reduce the health risks of multiple births for mother and babies. The strategy is being implemented in partnership with professional bodies, patient groups and clinics. We have established an expert group on commissioning national health service infertility provision, which will take account of the HFEA's programme of work in this area.

Industrial Health and Safety: Nuclear Power Stations

Mr. Dai Davies: To ask the Secretary of State for Health whether his Department has *(a)* conducted and *(b)* commissioned an analysis of estimated radiation doses to members of critical groups living near nuclear power plants from (i) nuclide emissions averaged over one year and (ii) nuclide emissions over a few days resulting from reactor re-fuelling. [221035]

Dawn Primarolo: We have been advised that the Food Standards Agency conducts assessments of doses to

members of the public, including critical groups, living in the vicinity of licensed nuclear sites. These are based on both authorised annual and short term discharge limits to ensure they are within the dose limit of 1 millisievert. Actual doses to the critical groups are estimated from the findings of annual food and environmental monitoring surveys, published in the Radioactivity in Food Environment reports annually. The Environment Agency is responsible for the authorisation of radioactive discharges from nuclear power plants.

Infectious Diseases

Harry Cohen: To ask the Secretary of State for Health what the trend in cryptosporidium infections has been in the last five years; and what steps are being taken to combat the sources of this infection. [220881]

Dawn Primarolo: The number of cases of Cryptosporidium infections reported in England in each of the last five years is shown in the following table:

	Total
2003	5,540
2004	3,431
2005	4,075
2006	3,479
2007	2,881

Source:
Health Protection Agency

The Water Supply (Water Quality) 2000 (amendment) Regulations 2007 as amended require all water companies to assess their water supplies for the risk of Cryptosporidium and to take appropriate measures to ensure water is safe to drink.

Infertility: Medical Treatments

Anne Main: To ask the Secretary of State for Health whether he plans to extend the NHS co-payment scheme to infertility treatment. [221733]

Mr. Bradshaw: It is up to individual primary care trusts (PCTs) to commission infertility services, taking into account local health care commissioning priorities. We are working with the patient support organisation Infertility Network UK to help PCTs share best practice in the provision of these services and we have established an expert group on commissioning national health service infertility provision to provide advice to the Department and to PCT commissioners.

This is separate from the review that the Secretary of State announced on 17 June 2008, where he asked Professor Mike Richards, National Clinical Director for cancer, to review policy relating to patients who choose to pay privately for drugs not funded on the NHS and who, as a result, are required to pay for the NHS care that they would otherwise have received free. The review will report to the Secretary of State in October.

Injuries: Offensive Weapons

Chris Huhne: To ask the Secretary of State for Health pursuant to the answer of 25 June 2008, *Official Report*, columns 361-62W, on injuries: offensive weapons, how many people were admitted to hospital with *(a)* stab wounds and *(b)* gunshot wounds aged (i) under 16, (ii) between 16 and 18 and (iii) over 18 years (A) in each year from 1996-97 to 2001-02 and (B) in 2007-08, broken down by strategic health authority. [218256]

Mr. Bradshaw *[holding answer 16 July 2008]:* Information is collected on the number of finished admission episodes to hospital. A finished admission episode is the first period of in-patient care under one consultant within one health care provider. Admissions do not represent the number of in-patients, as a person may have more than one admission as part of an episode of care within the year.

Part (i) of this parliamentary question refers to "stab wounds" therefore the clinical code "X99—Assault by sharp object", has been used. This code includes cases where someone has been attacked using a sharp object of some kind (including but not exclusive to knives).

There is another code "W26"—contact with a knife, sword or dagger. This code is used for such diagnoses as accidental knife injuries and excludes assault. Therefore code W26 has not been used in this answer.

Information is not available for 2007-08 until December 2008. For this reason, 2006-07 data has been provided instead. The following three tables provide numbers by strategic health authority and age category; provides rates (number of admissions per 100,000 of the population) per strategic health authority; and summarises national data. When interpreting the data, reference should be made to the notes and clinical codes.

Total number of admissions to hospital for stab wounds** and gunshot wounds*** for 2006-07, broken down by age and strategic health authority (SHA) of Residence, national health service hospitals, England and activity performed in the independent sector in England commissioned by English NHS*

Notes:
* The technical term for what has been supplied is finished admission episodes.
Assignment of Episodes to Years
Years are assigned by the end of the first period of care in a patient's hospital stay.
Finished admission episodes
A finished admission episode is the first period of in-patient care under one consultant within one health care provider. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
Cause code—stab wounds** and gunshot wounds***
The cause code is a supplementary code that indicates the nature of any external cause of injury, poisoning or other adverse effects.
Hospital Episode Statistics (HES) has used the following ICD-10 external cause codes when referring to gunshot wounds and knife-related injuries.
** Stab wounds:
X99.—Assault by sharp object
*** Gunshot wounds:
W32.—Handgun discharge
W33.—Rifle, shotgun and larger firearm discharge
W34.—Discharge from other and unspecified firearms
X72.—Intentional self-harm by handgun discharge
X73.—Intentional self-harm by rifle, shotgun and larger firearm discharge
X74.—Intentional self-harm by other and unspecified firearm discharge
X93.—Assault by handgun discharge
X94.—Assault by rifle, shotgun and larger firearm discharge
X95.—Assault by other and unspecified firearm discharge
Y22.—Handgun discharge, undetermined intent
Y23.—Rifle, shotgun and larger firearm discharge, undetermined intent
Y24.—Other and unspecified firearm discharge, undetermined intent
Y35.0 Legal intervention involving firearm discharge
Y36.4 War operations involving firearm discharge and other forms of conventional warfare
Data Quality
HES are compiled from data sent by over 300 NHS trusts and primary care trusts (PCTs) in England. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
Assessing growth through time
HES figures are available from 1989-90 onwards. During the years that these records have been collected, the NHS there have seen ongoing improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series. Changes in NHS practice also need to be borne in mind when analysing time series. For example, a number of procedures may now be undertaken in out-patient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time.
Ungrossed Data
Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).
Low Numbers
Due to reasons of confidentiality, figures between 1 and 5 have been suppressed and replaced with "*" (an asterisk).
PCT and SHA Data Quality
PCT and SHA data was added to historic data-years in the HES database using 2002-03 boundaries, as a one-off exercise in 2004. The quality of the data on PCT of Treatment and SHA of Treatment is poor in 1996-97, 1997-98 and 1998-99, with over a third of all finished episodes having missing values in these years. Data quality of PCT of general practitioner (GP) practice and SHA of GP practice in 1997-98 and 1998-99 is also poor, with a high proportion missing values where practices changed or ceased to exist. There is less change in completeness of the residence-based fields over time, where the majority of unknown values are due to missing postcodes on birth episodes. Users of time series analysis including these years need to be aware of these issues in their interpretation of the data.

HES, The NHS Information Centre for health and social care.

Lasers

Mike Penning: To ask the Secretary of State for Health pursuant to the answer of 14 July 2008, *Official Report*, column 205W, on lasers, what further research and evidence was brought to light to support the proposals to deregulate class 3B and 4 lasers and intense light sources. [220471]

Mr. Bradshaw: The Department will shortly publish its response to the Private and Voluntary Healthcare Consultation. It will include an analysis of further research and evidence that has come to light and this will be fully taken into account when drawing up the final impact assessment regarding the proposals to deregulate class 3B and 4 lasers and intense light sources.

Learning Disability: Social Services

Mr. Stephen O'Brien: To ask the Secretary of State for Health how much income each local authority received in *(a)* fees and charges and *(b)* charges only from services for adults with a learning disability expressed as a percentage of total expenditure on such services over the last five years; and what such total expenditure was over this period. [221531]

Mr. Ivan Lewis: Data on fee and charges only and charges only is not collected centrally. However, data on sales, fees and charges is available.

A table which shows the gross expenditure and the sales, fees and charges of clients age 18-64 with learning disabilities as a percentage of gross expenditure on that client group from 2002-03 to 2006-07 has been placed in the Library.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what the total net expenditure on services for people with a learning disability under 65 years was for the last 10 years for each local authority for *(a)* assessment and care management, *(b)* nursing home placements, *(c)* residential care home placements, *(d)* supported and other accommodation, *(e)* direct payments, *(f)* home care, *(g)* day care, *(h)* equipment and adaptations, *(i)* meals and *(j)* remaining services. [221538]

Mr. Ivan Lewis: The information has been placed in the Library.

Data prior to 2000-01 is not held centrally.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what the total net expenditure on services for people with a learning disability over 65 years was for the last year for which figures are available, *(a)* excluding and *(b)* including expenditure on the Supporting People initiative. [221539]

Mr. Ivan Lewis: This data is not held centrally.

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) how many assessment reviews have been carried out for people with a learning disability in each local authority over the last 10 years; and what the outcome of such assessments were in each case; [221542]

(2) how many first time service assessments have been carried out for people with a learning disability in each local authority area in the last 10 years; and what the outcome of such assessments were in each case. [221563]

Mr. Ivan Lewis: Information has been placed in the Library.

In 2003-04 an assessment was re-defined as the first assessment for a new client. In the years prior to 2003-04 an assessment included the re-assessment or unscheduled review of need of a current service user. A review prior to 2003-04 was defined as an examination of the client's needs and services at or by a pre-determined date.

Therefore data from 2003-04 onwards is not comparable with previous years.

Lost Working Days

Mr. Hayes: To ask the Secretary of State for Health how many working days have been lost due to industrial action by employees for which his Department is responsible in each year since 1997. [218056]

Mr. Bradshaw: The number of working days lost due to industrial action in each year since 2003 are presented in the following table. The Department changed payroll provider contracts in 2003 and the cost of retrieving the required information for 1997 to 2003 would be disproportionate.

	Total	*Dates of industrial action*	*Number of staff days lost due to industrial action*
2008 (Up to 11 July)	0	—	0
2007	493	1 May	203
		31 January	290
2006	0	—	0
2005	0	—	0
2004	267	5 November	267

Lung Cancer

Mr. Lansley: To ask the Secretary of State for Health how many lung cancer patients there were in the latest year for which figures are available; and how many lung cancer patients there were aged *(a)* 49 years and under, *(b)* 50 to 59, *(c)* 60 to 69, *(d)* 70 to 79 and *(e)* over 80 years in each cancer network in that year. [220990]

Mr. Watson: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell dated, 1 September 2008:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking how many lung cancer patients there were in the latest year for which figures are available; and how many lung cancer patients there were aged (a) 49 years and under, (b) 50 to 59, (c) 60 to 69, (d) 70 to 79 and (e) over 80 years in each cancer network in that year.[220990]

The latest estimations of prevalence can be found in p19-20 of Cancer Trends in England and Wales 1950-1999, available at:

http://www.statistics.gov.uk/statbase/Product.asp?vlnk=4822

The most recent available figures for newly diagnosed cases of lung cancer registered in England are for the year 2005. Figures for patients diagnosed with lung cancer by specified age group and Cancer Network are given in the table below.

Table 1: Lung cancer[1] patients in 2005, by cancer network[2] and age group

Lung Cancer: Medical Treatments

Mr. Lansley: To ask the Secretary of State for Health how many lung cancer patients in each *(a)* cancer network and *(b)* strategic health authority area received (i) surgical resection, (ii) active, anti-cancer treatment and (iii) radiotherapy in each year since 1997-98. [220988]

Mr. Watson: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2008:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking how many lung cancer patients in each (a) cancer network and (b) strategic health authority area received (i) surgical resection, (ii) active, anti-cancer treatment and (iii) radiotherapy in each year since 1997-98. [220988]

The latest year for which data are available on the national cancer registry database, which ONS operates on behalf of the Department of Health, is 2005. Tables 1-3 below show the number of cases of lung cancer, newly diagnosed in each of the years 1997-2005 in the specified geographical areas, receiving (i) surgical, (ii) hormonal and other treatments and (iii) radiotherapy as initial treatments. In 55 per cent of lung cancer cases in the database during the period, either no treatment information was recorded or patients were recorded as having had no treatment. Ten per cent of cases were recorded as receiving more than one treatment.

Office for National Statistics

Malnutrition

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many people in *(a)* care homes and *(b)* hospitals were rated high risk by the malnutrition universal screening tool in each of the last 24 months; and what the (i) mean, (ii) range and (ii) distribution in terms of length of time rated at high risk was. [221558]

Dawn Primarolo: This information is not held centrally.

Medical Education England

Mr. Lansley: To ask the Secretary of State for Health for what reasons Medical Education England will not have a commissioning function in addition to its advisory role, as referred to on page 73 of High Quality Care for All, Cm 7432. [221053]

Ann Keen: The Next Stage Review document "A High Quality Workforce" sets out the role and remit of Medical Education England in more detail than "High Quality

Care for All". It clarifies and confirms the role of the strategic health authorities (SHA) as commissioners of education. They are best placed to translate the workforce plans submitted by providers into education commissions, taking a whole system approach rather than just focussing on individual professions.

The role of Medical Education England (MEE) in an advisory and scrutiny role will enable them to provide an overview of commissions at a local and national level and enable them to provide advice to the Department. This function could not be effectively performed if MEE were also commissioners of education.

Professor Sir John Tooke provides a response to "A High Quality Workforce" in the document, in which he states

"I am particularly pleased to see the creation of Medical Education England which will give a strong voice and the scrutiny function that it needs".

Medical Examinations: Males

Mrs. Riordan: To ask the Secretary of State for Health what steps are being taken to encourage men between the ages of 20 and 35 years to have regular medical check-ups. [220011]

Mr. Bradshaw: The Department has not targeted men in this age group specifically to encourage them to have regular medical check-ups. However, under the General Medical Services contract, general practitioner practices are required to invite all newly registered patients including men aged 20 to 35 years for a consultation within six months of registration and provide, on request, a consultation for patients aged 16-74 who have not had a consultation within the last three years.

Medical Records

Mr. Stephen O'Brien: To ask the Secretary of State for Health what data is currently being stored on the Summary Care Record. [221545]

Mr. Bradshaw: The information in the summary care record (SCR) is extracted from the general practitioner's record and, at present, is limited to basic information—personal demographic details, current medications, adverse reactions and allergies.

Whether additional information is added in the future will depend on decisions taken through the normal governance process to include clinical representations and patient preferences. Eventually, summaries of health problems and the care provided could be added and updated each time patients who choose to have a SCR receive national health service care. Clearly, the precise information stored on the SCR will differ from patient to patient.

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) how many detailed care records are currently held in data centres operated by each of the National Programme for IT's local service providers; [221552]

(2) whether National Programme for IT's local service providers plan to operate a data centre for the detailed care records of each NHS care provider; [221559]

(3) how many data centres each of the National Programme for IT's local service providers plans to hold detailed care records; [221560]

(4) how many detailed care records are currently held in data centres operated by each of the National Programme for IT's local service providers. [221561]

Mr. Bradshaw: All national programme for information technology systems which are able to be deployed to the national health service via a hosted solution from a secure, resilient, reliable, enterprise standard, data centre are supported through that means with appropriate business continuity and disaster recovery arrangements in place. By exception, there are some existing systems or additional services provided through local service providers that do not lend themselves to this technical approach at present.

Currently the number of data centres used by local service providers (LSPs) is as follows:

CSC: 4;

BT LSP: 2;

Fujitsu: 2; and

Accenture: 2, for its Picture Archiving and Communications Service.

There are no current plans to increase or decrease this number.

Information is not held centrally on the number of detailed care records currently held in data centres.

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) how much the independent evaluation of the care record system commissioned from UCL cost; [221555]

(2) what plans he has to fund further independent evaluation of the Connecting for Health programme; [221556]

(3) when he will publish a response to the independent evaluation of the care records system commissioned from UCL. [221557]

Mr. Bradshaw: The contracted cost of the independent evaluation of the summary care record (SCR) early adopters programme, carried out by a team from the Department of Primary Care and Population Sciences at University College London, was £272,204.

We have no current plans to publish a formal response to the evaluation team's findings. NHS Connecting for Health is considering and discussing the important issues raised in the evaluation report with key stakeholders, and the summary care record advisory group was asked to consider urgently the report's findings and to advise on how these will inform the future roll out of the SCR. As we have stated consistently, the findings and recommendations of the independent review will be taken into account in planning further roll out of the SCR.

Under its Health Evaluation Programme, NHS Connecting for Health has commissioned a number of further projects to evaluate aspects of the national programme for information technology. The University of Birmingham has been commissioned to manage the evaluation programme. Further information on the programme, including details of current projects and on-going work, together with final reports and publications,

is on the NHS Connecting for Health evaluation programme website, run by the university of Birmingham, at:

www.pcpoh.bham.ac.uk/publichealth/cfhep/

Mr. Stephen O'Brien: To ask the Secretary of State for Health which NHS care providers will maintain their own electronic patient records once the National Programme for IT's local service providers roll-out their strategic solutions on a national basis. [221562]

Mr. Bradshaw: All clinicians are required by their professional bodies, and for clinical governance and medico-legal reasons to keep clear, accurate, legible and contemporaneous patient records, and to keep these secure and confidential. This is most often likely to be in electronic form. This is irrespective of the national programme for IT and systems implemented by local service providers. Patients are able to opt out of having their clinical information uploaded to the "spine", the national database of key information about patients' health and care within the national health service care records service, by choosing not to have a summary care record.

Medical Records: Data Protection

Mr. Lansley: To ask the Secretary of State for Health what assessment he has made of the risks to patient confidentiality of publishing patients' care records to HealthSpace, as referred to on page 41 of High Quality Care for All, Cm 7432. [221023]

Mr. Bradshaw: While it is never possible to eliminate all risk, stringent security controls and safeguards have been put in place to prevent unrestricted or uncontrolled access to personal information accessible through HealthSpace. Authentication of patients seeking a HealthSpace account has been designed to operate within the specified e-Government Interoperability Framework (e-gif) requirements and industry best practices. In due course, when the technology to do so becomes available, registration requirements will be uprated to the next highest level.

In addition, the HealthSpace system has been subjected to exhaustive penetration testing to demonstrate its resilience to unauthorised attempts by third parties to access data held within it. This testing will be repeated on a regular basis.

Users will also be advised that securing confidentiality of their information accessible through HealthSpace is also in part a personal responsibility. The safeguarding of access controls, including PINS and passwords, is an example of personal responsibility, along with not choosing to access records at a time or location where others may see them. Users will be supported in this by means of standard technical measures used widely in secure electronic transactions, for example by the setting of a 'timeout', so that after a given period of inactivity the user is automatically logged off the system.

Mr. Lansley: To ask the Secretary of State for Health what assessment he has made of the impact on the security of confidential data of increasing the scope of access to the NHS Care Records Service to *(a)* social care, *(b)* voluntary sector, *(c)* private sector, *(d)* pharmacy and *(e)* other organisations, as referred to on page 50 of NHS Next Stage Review: Our vision for primary and community care. [221135]

Mr. Bradshaw: The vision for the NHS Care Records Service (NHS CRS) is that it will support the delivery of care across all the settings where national health service patients may present for that care, including services provided by the private and voluntary sectors and in social care, pharmacy and other organisations. We have set out clearly in the Care Record Guarantee precisely what security and confidentiality standards must be met by all organisations that have access to the NHS CRS and all such organisations are required to provide assurance that they are meeting these standards. Compliance will be audited.

Mr. Stephen O'Brien: To ask the Secretary of State for Health how legitimate relationships are established for determining access to the NHS care records service. [221550]

Mr. Bradshaw: Legitimate relationships are a form of access control that prevent those who are not working in a team that is involved in providing national health service care to an individual from accessing that individual's clinical information. NHS organisations will determine which of their staff work within which teams for this purpose.

A new legitimate relationship is normally created when a patient is referred to a team for care. This referral may be from a different part of the NHS or may be a self-referral by a patient, for example when attending a minor injuries unit, or when registering with a general practitioner's practice.

Some clinicians, particularly those working in emergency care environments, are also able to establish a legitimate relationship with a patient when this is needed to support emergency care. These "self-declared" legitimate relationships generate an alert to staff responsible for ensuring that the facility is not misused.

Mr. Stephen O'Brien: To ask the Secretary of State for Health which applications will have access to data stored in the NHS care records service; and which applications do not require a valid smartcard in order to access data in the NHS care records service. [221551]

Mr. Bradshaw: The NHS Care Record Service links patient information from different parts of the national health service electronically so that authorised NHS staff and patients have the information they need to make care decisions. It comprises a number of national services, and compliant local applications, for example trust patient administration systems, and general practitioner systems. These local applications hold their own data and interact through messages with national services such as choose and book, the summary care record, and the personal demographics service. All local applications that interact with the national services require a valid smartcard.

A number of interim stand-alone local systems have been deployed to support the NHS. These do not interact with the national services and may not use smartcards.

Medical Records: Databases

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the Answer of 26 March 2008, *Official Report*, column 206W, on medical records: databases, whether *(a)* private sector suppliers, *(b)* third sector suppliers and *(c)* providers under the Framework for Procuring External Support for Commissioning will have access to patient data through the Secondary Uses Service. [221447]

Mr. Bradshaw: The current proposals for pseudonymised data extracts from the Secondary Uses Service are that these will be available for any supplier who agrees the terms and conditions. The terms and conditions are being agreed but include, for example, limitations on the disclosure of data to third parties and the copying of data, and termination and liability clauses in the event of unauthorised disclosure of personally-identifiable information. There will also be a right of audit to verify adherence to the terms and conditions, which will be the key condition determining permission to access for those wishing to use the service.

Once finalised, the terms and conditions will be published.

Medical Records: Lost Property

Keith Vaz: To ask the Secretary of State for Health (1) who will be responsible for the investigation aimed at finding lost patient NHS records in Leicester; [218138]

(2) what information was contained in the patients' NHS documents recently stolen in Leicester; and what investigation is taking place to retrieve the documents. [218139]

Mr. Bradshaw: The police and Leicestershire County and Rutland primary care trust are responsible for the investigation.

The East Midlands strategic health authority reports that a print out containing details of approximately 233 home oxygen patients; including name, address, national health service number and general practitioner details; and a laptop computer, containing the names, dates of birth and oxygen levels of three patients, were stolen from the boot of a nurse's car.

Medical Treatments

Mr. Lansley: To ask the Secretary of State for Health (1) how many treatments referred to the National Institute for Health and Clinical Excellence and assessed through its single technology appraisal process *(a)* have and *(b)* have not received a final appraisal determination within six months of receiving a product licence; [221141]

(2) what improvements he anticipates making to the National Institute for Health and Clinical Excellence's appraisal process, as referred to on page 44 of High Quality Care for All, Cm 7432; [221142]

(3) whether he plans to introduce a maximum time period in which the National Institute for Health and Clinical Excellence must undertake technology appraisals; and what proportion of treatments he expects will receive their final appraisal determination within *(a)* three and *(b)* six months of receiving their product licence following the changes announced in High Quality Care for All, Cm 7432. [221147]

Dawn Primarolo: As at 21 July 2008, the National Institute for Health and Clinical Excellence (NICE) has published final guidance for 21 single technology appraisals (STAs). NICE issued a final appraisal determination for four of these within six months of licensing.

The Government are exploring with NICE options for further improving the topic selection and technology appraisal processes to support rapid appraisal of significant new drugs.

We have no plans to introduce a maximum time period in which NICE must undertake technology appraisals as the time taken to develop guidance on a treatment depends on the individual circumstances of each case. NICE'S Guide to the Single Technology Appraisal (STA) process sets out the expected timescales for the development of guidance through the STA process, and is available on NICE'S website at:

www.nice.org.uk/media/8DE/74/STA_Process_Guide.pdf.

Medical Treatments: Lasers

Mike Penning: To ask the Secretary of State for Health pursuant to the Answer of 9 July 2008, *Official Report*, column 1708W, on medical treatments: lasers, if he will ensure that his Department's response to the Private and Voluntary Healthcare: Care Standards Act 2000 consultation will include, in addition to an identification of organisations and individuals that responded, a list of those respondents who *(a)* supported and *(b)* opposed the Government's proposals for the deregulation of class 3B and 4 lasers and intense pulsed light sources. [219474]

Mr. Bradshaw: The Department's response to the Private and Voluntary Healthcare Consultation will include a full list of all the respondents and whether they supported or opposed the various proposals, including those relating to class 3B and 4 lasers and intense pulsed light sources.

Mental Health

Jo Swinson: To ask the Secretary of State for Health what his Department's definition of well-being is. [220695]

Mr. Ivan Lewis: The Department's Commissioning Framework for Health and Wellbeing, 2007, defines wellbeing as:

> "The subjective state of being healthy, happy, contented, comfortable and satisfied with one's quality of life. It includes physical, material, social, emotional ('happiness'), and development and activity dimensions."

MRSA

Mr. Lansley: To ask the Secretary of State for Health on what dates changes to the measurement of his Department's target to halve MRSA rates by March 2008 were agreed; and on each date *(a)* what change was made and *(b)* which Minister approved the change. [221009]

Ann Keen: The target to halve meticillin-resistant Staphylococcus aureus infections by March 2008 was announced in November 2004. The measurement period was not set at that point. However, the Department worked with strategic health authorities from 2005 on the assumption that achievement of the target would be judged by performance in the first quarter after the target date, i.e. in the quarter April to June 2008. This position was formally agreed with Ministers in February 2007. At no point have we changed how we are measuring the target. It is being measured in the same way as other national targets.

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 14 May 2008, *Official Report*, column 1653W, on MRSA, what examples of where a deep clean has had a demonstrable effect in improving patient care and experience have now been drawn up; and how these have been disseminated across the NHS. [221158]

Ann Keen: A number of national health service trusts have sent the Department case studies, which identify a range of activities undertaken as part of the deep clean programme. Trusts have also sent details of some of the initial benefits they have seen as a result of their deep cleaning activities. The Department is compiling a compendium of these case studies which will be published on the Department's website in due course.

MRSA: Screening

Mr. Lansley: To ask the Secretary of State for Health by what date he expects screening for MRSA for *(a)* elective and *(b)* emergency admissions to be introduced; and what assessment he has made of progress towards the objective in each case. [221010]

Ann Keen: We will introduce meticillin-resistant Staphylococcus aureus (MRSA) screening for all elective admissions by March 2009 and for all emergency admissions by 2011.

The Operating Framework, which was published in December 2007, set out the priorities for the national health service for 2008-09. It put cleanliness and health care associated infections as one of five national priorities that require particular and sustained attention from primary care trusts, working with every organisation that provides care to national health service patients.

As part of our ongoing discussions with the NHS, we are ensuring that the commitments set out in the framework are delivered.

National Institute for Health and Clinical Excellence: Finance

Mr. Lansley: To ask the Secretary of State for Health what the budget of the National Institute for Health and Clinical Excellence in *(a)* cash and *(b)* real terms at current prices (i) was in each year since 1999-2000 and (ii) will be in (A) 2009-10 and (B) 2010-11. [221145]

Dawn Primarolo: The information requested for the financial years between 1999-2000 and 2008-09 is shown in the table. Departmental funding for 2009-10 and 2010-11 has not yet been finalised.

Departmental funding[1] for National Institute for Health and Clinical Excellence (NICE) since 1999-2000

	Cash (£)	*Real terms (£)*
1999-2000	9,826,000	12,016,485
2000-01	9,280,000	11,189,351
2001-02	12,023,000	14,157,864
2002-03	14,510,000	16,568,088
2003-04	16,602,000	18,422,922
2004-05	18,215,000	19,669,564
2005-06[2]	27,000,000	28,541,528
2006-07	27,700,000	28,506,741
2007-08[3]	33,400,000	33,400,000
2008-09	32,415,000	31,470,874

[1] NICE has other sources of funding that are not included in the table.
[2] NICE took over the functions of the Health Development Agency on 1 April 2005. The step change in the NICE budget reflects this.
[3] Includes non-recurrent brokerage of £2.7 million from 2006-07.

NHS

Mr. Lansley: To ask the Secretary of State for Health pursuant to the Statement made by the Prime Minister on 14 May 2008, *Official Report*, column 1387, on the draft legislative programme, what minimum standards of *(a)* access, *(b)* quality and *(c)* safety he is considering incorporating in the NHS constitution; whether those minimum standards will differ from the registration requirements to be enforced by the Care Quality Commission; whether he plans to incorporate the minimum standards in legislation; and if he will make a statement. [216939]

Mr. Ivan Lewis: The draft NHS Constitution sets out a range of rights and national health service pledges relating to access, quality and safety.

It is our intention to legislate to provide a legal duty on NHS organisations to take account of the Constitution in the decisions they make. Similarly, the government of the day will be obliged by law to renew the NHS Constitution every 10 years.

Registration requirements will be set in regulations and will list the essential safety and quality requirements that providers must meet in order to be registered to provide health and adult social care services. The registration system will sit as a key part of a wider quality improvement framework that encourages excellent care.

The draft NHS Constitution and the Government's proposals are open for public consultation until 17 October 2008. The details, including how to feed in views, may be found at www.dh.gov.uk/consultations.

NHS Foundation Trusts

Mr. Lansley: To ask the Secretary of State for Health in what ways he plans to accelerate the rate at which existing NHS trusts achieve NHS Foundation Trust status, as referred to on page 61 of High Quality Care for All, Cm 7432; and whether it is his policy that all hospital trusts should be able to apply for NHS Foundation Trust status by the end of 2008. [221070]

Mr. Bradshaw: The Government want all acute and mental health trusts to attain the national health service foundation trust (NHSFT) standard at the earliest opportunity.

Good progress is being made. There are already 103 NHSFTs which account for over 45 per cent. of all eligible acute and mental health trusts. By the end of this financial year, we expect over half of all these trusts to become NHSFTs. Strategic health authorities are charged with delivering NHSFTs. Increasing the flow of strong applicants to Monitor (the statutory name of which is the independent regulator of NHS foundation trusts) is a priority and we are considering options for accelerating the rate of NHSFT authorisations.

Mr. Lansley: To ask the Secretary of State for Health what powers strategic health authority medical directors, as referred to in paragraph 29 of High Quality Care for All, Cm 7432, will have to direct service planning in NHS foundation trusts. [221117]

Mr. Bradshaw: The appointment of strategic health authority (SHA) medical directors does not alter the existing relationship between SHAs and national health service foundation trusts (NHS FTs). SHAs have no powers of direction over NHS FTs. SHA medical directors will provide medical leadership and oversee on-going work by the SHAs to implement their local clinical visions.

NHS Leadership Board

Mr. Lansley: To ask the Secretary of State for Health when he will establish the NHS Leadership Board, as referred to on page 67 of High Quality Care for All, Cm 7432; how many members the NHS Leadership Board will have; if he will place a copy of the terms of reference of the NHS Leadership Council in the Library; what powers the NHS Leadership Council will have; whether the NHS Leadership Council will have a role in determining the NHS Operating Framework; what the cost of the NHS Leadership Council will be in *(a)* 2009-10 and *(b)* 2010-11; and if he will make a statement. [221060]

Ann Keen: We are in the early stages of developing this work. Further information will be available in due course.

NHS Pensions Agency: Resource Accounting and Budgeting

Mr. Philip Hammond: To ask the Secretary of State for Health when he plans to publish the 2007-08 resource accounts for the NHS Pension Scheme. [221164]

Ann Keen: We expect the NHS pension scheme resource accounts for the 2007-08 financial year to be published after Parliament returns from the summer recess.

NHS Treatment Centres

Mr. Donohoe: To ask the Secretary of State for Health how many patients have used NHS walk-in centres in each region. [220576]

Mr. Bradshaw: Figures for attendances at NHS walk-in centres for the latest year for each strategic health authority are as follows:

2007-08

SHA	*Number of attendances at NHS walk-in centres*
East Midland	121,365
East of England	134,903
London	741,517
North East	135,994
North West	698,018
South Central	180,281
South East Coast	205,852
South West	154,714
West Midlands	171,931
Yorkshire and the Humber	132,626

Source:
Department of Health QMAE dataset

NHS Trust Boards

Mr. Lansley: To ask the Secretary of State for Health what the cost will be of developing a new development programme for NHS Trust boards, as referred to in paragraph 39, page 67 of High Quality Care for All, Cm 7432, 2008. [221059]

Ann Keen: We are in early stages of developing this work. Further information will be available in due course.

NHS: Advisory Bodies

Mr. Lansley: To ask the Secretary of State for Health when he plans to have established new professional advisory bodies, as referred to on page 73 of High Quality Care for All, Cm 7432; how many such bodies he plans to establish in total; what the *(a)* purpose and *(b)* function of each such body will be; what the cost of (i) establishing and (ii) running each body will be; and if he will make a statement. [221054]

Ann Keen: The Next Stage Review has recommended that three advisory functions are set up:

Medical Education England;

regional advisory boards; and

advisory boards for other professions.

Medical Education England will have the following core functions for doctors, dentists, health care scientists, pharmacists and low volume specialities:

bringing a coherent professional voice on matters relating to education and training and advising the Department on policy;

providing high level scrutiny of and advice on the quality of workforce planning at a national level;

providing professional scrutiny of and advice on the education and training commissioning plans developed at strategic health authority (SHA) level;

coordination of changes to postgraduate training pathways at a national level;

integration of service and professional perspectives into curricula development; and

liaison with other relevant bodies.

The main functions of the SHA advisory bodies are:

bringing a coherent professional perspective to advise the SHAs on education and training needs so that the workforce model that service providers need can be developed e.g. community based cardiology services;

engaging with higher education institutions to translate workforce models, based on clinical needs into training and education;

providing a professional high level overview and assurance of quality of the workforce plans created at SHA level; and

bringing a multi professional perspective and regional perspective in advising the national advisory boards on workforce plans.

The advisory boards for other professions have yet to be agreed. The Department will be working with professional bodies and other key stakeholders over the coming months to establish exactly which professional bodies should be set up. Consequently no timescale or specific costings have been prepared yet for this function.

We will also be working with SHAs to support the development of regional advisory groups. This will be funded from within existing budgets.

It is planned that Medical Education England will be in place by January 2009.

NHS: Apprentices

Mr. Lansley: To ask the Secretary of State for Health how many apprenticeships there are in the NHS; what the baseline year is for measuring adherence to the commitment contained in High Quality Care for All, Cm 7432, to double apprenticeships over the next four years; how much is being spent on apprenticeships in 2008-09; whether future spending will be ring-fenced; whether he expects that the doubling of expenditure on apprenticeships will lead to a doubling in the number of apprenticeships; and if he will make a statement. [221051]

Ann Keen: Information on the number of apprenticeships in the NHS is not available centrally. We are currently working with key partners to design apprenticeship policy that meets the needs of NHS staff, employers and above all, our patients. Decisions on ring-fencing and aspirations on numbers of apprentices will be considered as part of ongoing work.

NHS: Buildings

John Battle: To ask the Secretary of State for Health what funds his Department has received from the sale of former NHS buildings in *(a)* England and *(b)* Leeds in the last 10 years; and if he will make a statement. [220706]

Mr. Bradshaw: In the last 10 years, the total receipts from the sale of former national health service land and buildings by the Department were £2,047 million. Records indicate that, of that sum, £66 million was received from the sale of surplus NHS property in Leeds. These figures do not include sales made by NHS bodies themselves.

The receipts from the Department's sale of land and buildings are centrally reinvested as a part of the capital funding provided to the NHS.

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) what percentage of the NHS estate in England was not *(a)* fire safety and *(b)* health and safety compliant in each of the last five years; what the estimated cost of the works required to achieve such compliance was at year-end in each case; what the cost of the total general repair backlog on the NHS estate in England was in March (i) 2005 and (ii) 2006; and what the outstanding cost of related repairs is estimated to be as of the end of 2008-09; [221530]

(2) what the repair backlog was of the NHS estate, broken down by *(a)* high, *(b)* significant, *(c)* moderate and *(d)* low risk in each of the last five financial years; and what the overall risk adjusted backlog was; [221620]

(3) what estimate he has made of the cost of outstanding maintenance in the NHS in each year from 1997-98 to 2007-08 *(a)* in total and *(b)* broken down by NHS organisation; [221621]

(4) what estimate he has made of the cost of reaching *(a)* estate code condition B, *(b)* fire safety standards and *(c)* health and safety standards for all mental health trusts in England, broken down by trust; [221622]

(5) what targets he has set in relation to reducing disrepair on the NHS estate. [221625]

Mr. Bradshaw: Recent record levels of capital investment in the national health service estate have resulted in a quarter of the estate occupied by NHS trusts being replaced since 1997 and the proportion of the estate that predates the establishment of the NHS itself has fallen from 50 per cent. in 1997-98 to 20 per cent. in 2006-07.

NHS organisations are responsible for the provision and maintenance of facilities to support the delivery of high quality clinical services. Therefore the NHS will locally prioritise investment to reduce backlog maintenance based on risk assessment, reconfiguration planning and available resources. The majority of backlog maintenance relates to low priority work, which trusts will undertake through maintenance programmes. Where higher risks are present, work will be undertaken as a priority. While levels of backlog maintenance vary across the NHS, it is estimated that around 75 per cent. of the total costs to eradicate backlog maintenance is concentrated in 20 per cent. of organisations.

The backlog maintenance categorised according to its risk level is provided in the following table.

Backlog maintenance

	2004-05		*2005-06*		*2006-07*	
Risk level/definition	*£ million*	*Percentage*	*£ million*	*Percentage*	*£ million*	*Percentage*
High risk						
Urgent priority work needed to prevent catastrophic failure, major disruption to clinical services or deficiencies resulting in serious injury or prosecution	358.2	11.4	329.9	9.0	308.1	8.2
Significant risk						
Requires short-term expenditure but can be effectively managed to avoid risk to healthcare services or concern to enforcement bodies	778.2	24.8	982.2	26.6	943.5	25.2

	Backlog maintenance					
	2004-05		2005-06		2006-07	
Risk level/definition	£ million	Percentage	£ million	Percentage	£ million	Percentage
Moderate risk						
Requires close control and monitoring but can be managed in the medium term	902.1	28.7	1,219.4	33.1	1,231.5	32.9
Low risk						
Can be addressed through agreed maintenance programmes or through strategic plans	1,103.2	35.1	1,152.1	31.3	1,256.6	33.6
Total	3,141.7	100	3,683.6	100	3,739.7	100
Risk Adjusted Backlog Maintenance	1,342	–	1,744	–	1,542	–

The total backlog maintenance for England since 1997-98 is provided in the following table.

	Total backlog maintenance (£ million)
1997-98	2,836
1998-99	3,027
1999-2000	3,108
2000-01	3,242
2001-02	3,378
2002-03	3,517
2003-04	3,193
2004-05	3,142
2005-06	3,684
2006-07	3,740

The information for NHS organisations has been placed in the Library. Data relating to 2007-08 are currently being collected.

Information on the percentage of the total patient occupied floor area in the NHS estate in England that is not fire or health and safety compliant has not been collected centrally since 2003-04. At that time the figures were 7.1 per cent. and 8.8 per cent. respectively. The estimated cost of achieving compliance for physical condition, fire safety and health and safety, which in total represent the investment needed to reach Estatecode condition B, for 2003-04, the last available period, have been placed in the Library. This includes NHS mental health trusts. NHS organisations, including foundation trusts, remain responsible for compliance with fire and health and safety laws and regulations.

The data provided has not been amended centrally and the accuracy and completeness of this data is the responsibility of the provider organisation.

Mr. Stephen O'Brien: To ask the Secretary of State for Health which NHS trusts have been found to have asbestos in buildings within their responsibility. [221627]

Mr. Bradshaw: This information is not collected centrally. Responsibility for the identification, safe handling and disposal of asbestos found in any national health service property is a matter for local management. The NHS, along with all other industries has been alert to the risks associated with asbestos for many years, and managers are aware of their responsibilities under the Health and Safety at Work etc. Act 1974 and the Control of Asbestos at Work Regulations 2002.

NHS: Drugs

Mr. Lansley: To ask the Secretary of State for Health what recent estimate he has made of the proportion of NHS trusts which make use of the CPORT tool to plan for the safe introduction of new drugs. [220961]

Ann Keen: Currently around 63 trusts have access to C-PORT and are being trained to use the tool to assess the impact of drugs. Roll out continues across 20 Cancer Networks who are at various stages in learning how to use the tool.

Mr. Lansley: To ask the Secretary of State for Health what assessment he has made of the extent to which patients who have been denied funding for National Institute for Health and Clinical Excellence (NICE)-approved drugs by their primary care trust (PCT) are aware of the obligations on PCTs to fund NICE-approved drugs; what assessment he has made of the extent to which patients will become more aware of these obligations as a result of the inclusion of this right in the NHS constitution; and what proportion of patients who have been denied funding for NICE-approved drugs he estimates will have access to NICE-approved drugs following the changes proposed in High Quality Care for All, Cm 7432. [221137]

Dawn Primarolo: Our overall assessment is that compliance with technology appraisal guidance published by the National Institute for Health and Clinical Excellence (NICE) is high and that patients are not routinely denied treatments that have been recommended by NICE.

Research with patients and the public suggests that, while the perceived "postcode lottery" for access to drugs is a major concern, many people are unaware of the process for funding drugs and treatments and are not aware that primary care trusts already have a statutory responsibility to fund drugs and treatments that are recommended in NICE's technology appraisal guidance. The Government believe that the NHS Constitution can play an important part in addressing these issues.

The draft NHS Constitution was published on 30 June 2008 (copies have already been placed in the Library) and the Government's proposals are open for public consultation until 17 October 2008. The Government will consider these issues following the consultation.

NHS: Finance

Mr. Lansley: To ask the Secretary of State for Health (1) how much his Department has allocated to central capital budgets in *(a)* 2009-10 and *(b)* 2010-11; [219380]

(2) with reference to page 148 of his Department's Annual Report 2008, if he will provide a similar breakdown of the NHS capital settlement for *(a)* 2009-10 and *(b)* 2010-11; [219381]

(3) pursuant to the Answer of 24 June 2008, *Official Report*, columns 197-8W, on departmental public expenditure, how much his Department spent on each of its programme capital budgets for 2007-08; and what programme capital budgets have been planned for *(a)* 2009-10 and *(b)* 2010-11. [219384]

Mr. Bradshaw: The amounts allocated against each of the Department's 2007-08 programme capital budgets are shown in the table.

Other than the amounts (£480 million in 2009-10 and £565 million in 2010-11) announced in "The Operating Framework for the NHS in England 2008-09" (copies of this publication have already been placed in the Library) for the local capital investment priorities of primary care trusts, capital budgets for 2009-10 and 2010-11 have not yet been set. The Department cannot, therefore, for those years, issue information on central capital budgets, or programme capital budgets, or issue a breakdown in the format of page 148 of Departmental Report 2008.

£000

	2007-08		
	Budget	*Allocations issued*	*Funds unallocated at the year-end*
Community Hospitals Programme	75,000	33,591	41,409
Learning Disability—Grants to permit transfer of service users from NHS facilities to tenanted facilities in community	50,000	4,969	45,031
Healthy living centres for offenders	932	0	932
Iris recognition and desk-top analysis to support opium substitution in prisons	4,300	4,295	5
Dental Premises improvement grants	60,000	59,998	2
Choose and Book Capital Incentives	42,825	8,100	34,725
Drugs Misuse Treatment Strategy	64,895	24,067	40,828

Great Ormond Street 'Phase 2'	30,000	30,000	0
Funds for enabling works for major Private Finance Initiative schemes	144,579	91,199	53,380
Pilot project to evaluate nursing implications of 100 per cent. single rooms	800	800	0
Funds to support improved energy efficiency in national health service buildings	60,000	19,622	40,378
Local Implementation of Connecting for Health	97,174	93,714	3,460
Decontamination	50,800	20,669	30,131
NHS Direct	8,200	8,200	0
End of Life Care	600	0	600
Hazardous Area Response Team Equipment	2,200	0	2,200
Total	1,093,065	688,802	404,263

Andrew Gwynne: To ask the Secretary of State for Health when he plans to issue primary care trust allocations for *(a)* 2009-10 and *(b)* 2010-11. [219876]

Mr. Bradshaw: The 2009-10 and 2010-11 primary care trust revenue allocations will be announced in the autumn alongside the NHS Operating Framework for 2009-10.

Mr. Donohoe: To ask the Secretary of State for Health what the NHS budget will be in 2009-10. [220560]

Mr. Bradshaw: The total NHS plan expenditure for 2009-10 is £102,642 million. This is as set out in the NHS Departmental Report 2008 (Figure A1).

Mr. Lansley: To ask the Secretary of State for Health if he will place in the Library a copy of the full breakdown of each primary care trust's expenditure by programme budget category for 2007-08. [221001]

Mr. Bradshaw: Estimates of primary care trust (PCT) expenditure by programme budgeting category are not scheduled to be collected from PCTs until December 2008 and therefore are not currently available.

Mr. Lansley: To ask the Secretary of State for Health what NHS *(a)* capital and *(b)* resource expenditure in (i) cash and (ii) real terms at current prices (A) on end-of-life care was in (1) 2004-05, (2) 2005-06, (3) 2006-07 and (4) 2007-08 and (B) is planned to be in (x) 2008-09 and (y) 2010-11. [221004]

Mr. Ivan Lewis: We do not collect information on national health service expenditure on end of life care services centrally.

To support the development of the End of Life Care Strategy, a survey was undertaken on primary care trust expenditure on specialist palliative care services. The results of this survey were published on the Department's website on 16 July.

The End of Life Care Strategy published on 16 July sets out a clear direction for delivering and ensuring access to high quality, responsive services across all settings for all adult patients at the end of life irrespective of who or where they are. As set out in the strategy, we will be investing an additional £286 million in end of life services in the two years up to 2011.

Mr. Lansley: To ask the Secretary of State for Health whether moving away from block grant funding, as referred to in paragraph 24, page 64 of High Quality Care for All, Cm 7432, will entail the creation of a payment-by-results system for community services; and if he will make a statement. [221066]

Mr. Bradshaw: To ensure services are commissioned and provided on a high quality, cost-effective basis, the national health service is moving increasingly to a contractual structure where the level of funding is linked to the actual performance of providers.

To support the commissioning of community services on a more effective basis, we are working with the NHS to develop effective currencies (units of payment) for these services. Only when these currencies are developed, will we be able to evaluate their robustness and suitability to underpin any national tariff for community services. This staged approach is in line with our proposals in the consultation on the "Options for the Future of PbR 2008-09 to 2010-11", which has been placed in the Library.

Mr. Lansley: To ask the Secretary of State for Health whether it is his policy that the regional innovation funds held by strategic health authorities, as referred to on page 56 of High Quality Care for All, Cm 7432, will be ring-fenced; whether regional innovation funds will vary between each strategic health authority area; whether funding for the innovation fund will be additional funding from his Department's central budget; and if he will make a statement. [221112]

Mr. Bradshaw: The specific purpose of the regional innovation funds are to identify, grow and diffuse tomorrow's best practice. All local applications for awards will be subject to assessment by an independent expert panel to ensure that the funds awarded are deployed for that purpose. The fund monies will be additional funding from the Department's central budget, and will be apportioned equally between each of the 10 strategic health authorities.

Mr. Lansley: To ask the Secretary of State for Health whether it is his policy that best practice tariffs, as referred to on page 55 of High Quality Care for All, Cm 7432, should adjust prices *(a)* up and *(b)* down vis-a-vis the current equivalent tariff. [221113]

Mr. Bradshaw: There is no predetermined requirement for best practice tariffs to be either higher or lower than current equivalent tariffs.

Mr. Lansley: To ask the Secretary of State for Health what the estimate annual cost to the public purse the new *(a)* medical directors, *(b)* clinical advisory groups and *(c)* quality observatories will be in each strategic health authority area. [221118]

Mr. Bradshaw: Implementing the proposals in the final report of the NHS Next Stage Review, "High Quality Care for All", is core business for the national health service. The NHS budget for England for 2008-09 is £96 billion and will rise to £110 billion by 2010-11. The proposals will be funded from within that settlement.

NHS: Fires

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many fires there were on NHS premises in each of the last 10 years. [221544]

Mr. Bradshaw: The figures in the following table have been obtained from information contained in the database held by the Department. National health service trusts are required to report all outbreaks of fire to which the fire and rescue service attend.

	Number of incidents
1996-97	1,038
1997-98	1,136
1998-99	912
1999-2000	1,125
2000-01	1,045
2001-02	948
2002-03	809
2003-04	832
2004-05	1,194
2005-06	1,151
2006-07	1,089
2007-08	775

The figures may not be representative of the actual number of incidents attended by the fire and rescue services as, for example, NHS Foundation Trusts are not mandated to provide information in relation to fire incidents.

NHS: ICT

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 21 May 2008, *Official Report*, column 371W, on the NHS: IT, on which dates resets have been applied to the contracts with *(a)* Fujitsu, *(b)* BT and *(c)* CSC; and what the resulting total contract value was following each reset. [212213]

Mr. Bradshaw: The information requested is in the table. Where there are increases in the value of the reset contract when compared to the original contract value, this is due to changes or additional requirements that have been negotiated as part of the reset agreement and these have been approved through normal governance arrangements.

Contract	*Reset data*	*10 year contract value (£ million)*
BT Local Service Provider (LSP) London	May 2007	1,082
CSC LSP NE	January 2007	1,179
CSC LSP Eastern	January 2007	1,064
CSC LSP NW West Midlands	January 2007	1,110
Fujitsu LSP Southern	September 2005	1,182
BT National Application Service Provider: Spine	February 2008	1,000

Mr. Stephen O'Brien: To ask the Secretary of State for Health what the *(a)* current and *(b)* projected delays are in each of the NHS organisations assigned to Fujitsu's cluster under the NHS IT contract. [213323]

Mr. Bradshaw: Information about planned and actual deployments in the area covered by the Fujitsu contract at the point of termination of the contract are shown in the table that has been placed in the Library.

It is not yet possible accurately to predict the consequential impact on deployments as a result of the termination of the contract. However, it is possible that some services, such as systems to support mental health and community health services, may in the event be delivered more quickly than was originally anticipated through existing contracts with other suppliers.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what the maximum penalty that can be levied on Fujitsu as a result of the termination notice issued under the NHS IT contract is; and what the maximum Government liability is. [213325]

Mr. Bradshaw: Financial liability for performance under the contract with Fujitsu, terminated on 28 May 2008, will ultimately be determined by agreement between the parties, or failing that by arbitration, or by a court. The contract, which was reset in September 2005, provides for caps of liability. Fujitsu's liability to the Department is capped at £100 million per contract year, and an aggregate total of £500 million. The Department's liability is capped at £50 million per contract year. In both cases, the liabilities have potential to apply from the last contract reset.

Mr. Godsiff: To ask the Secretary of State for Health (1) what the installation cost of the new version of the Connecting for Health system is; and what additional costs NHS trusts have incurred as a result of its installation; [220863]

(2) whether the original allocation of funding for the *(a)* establishment and *(b)* running of the Connecting for Health initiative has been exceeded; and if he will make a statement. [220864]

Mr. Bradshaw: The information requested is contained in Figure 7 on page 26 of the National Audit Office report "The National Programme for IT in the NHS : Progress since 2006", which can be found at:

www.nao.org.uk/publications/nao_reports/07-08/0708484i.pdf.

The National Audit Office report confirms that the National Programme for IT remains within budget and there has been no change to the original contract costs except where new or additional requirements have been included. Information on expenditure by local NHS trusts on the national programme has not in the past been collected centrally. An annual survey has sought to establish local IT expenditure but the returns, published annually, have included all NHS IT expenditure. It is proposed to collect National Programme-specific information on a sample basis.

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 25 March 2008, *Official Report*, column 26W, on NHS: ICT, what timetable changes there have been which are not attributable to the transfer of ownership from iSoft to IBA; and to what they are attributable. [221153]

Mr. Bradshaw: As the National Audit Office has recently reported, although deployment by local service providers has started, the completion of deployment of systems to all hospitals is likely to take some four years longer than originally planned. This delay is regrettable and is related to the scale and complexity of the task. This is because the new systems have taken longer to be developed and because they are being installed into acute hospitals that already have between 20 and 40 existing systems, built to different standards over many years. The new systems need to be made to operate seamlessly and safely with these non-standard existing systems and interfaces, with associated data cleansing and data quality requirements.

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the Answer of 26 March 2008, *Official Report*, column 210W, on NHS: ICT, what the delivery timescales are for the Lorenzo solution to the NHS. [221154]

Mr. Bradshaw: I refer the hon. Member to the answer given on 12 March 2008, *Official Report*, columns 475-77W to the hon. Member for South Norfolk (Mr. Bacon). I understand that the supplier of the Lorenzo software remains confident that Release 1 will be deployed into the early adopters in the summer as planned. The deployment and timetable of subsequent releases will depend to some extent on the experience of the early adopters.

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the Answer of 12 March 2008, *Official Report*, column 476W, on NHS: ICT, where three early adopter sites are; whether release 1 of Lorenzo has been delivered; and whether development plans have been extended in light of the recent National Audit Office Report into NHS IT. [221155]

Mr. Bradshaw: The early adopter sites comprise University of Morecambe Bay NHS Trust, Bradford Teaching Hospitals Foundation Trust, and South Birmingham primary care trust.

Release 1 of the Lorenzo software was delivered into initial testing for the national health service in England in May 2008 and is currently being tested prior to go-live, at Morecambe Bay NHS Trust.

Development plans have not been extended in the light of the recent National Audit Office Report into the NHS IT Programme.

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the Answer of 7 January 2008, *Official Report*, columns 123-4W, on NHS: ICT, how much capital and revenue expenditure was made by *(a)* local NHS organisations and *(b)* central NHS organisations and Connecting for Health; and what the (i) capital and (ii) revenue expenditure on IT in the NHS was in each year from 1989-90 to 2004-05 expressed as a percentage of NHS expenditure in each year. [221263]

Mr. Bradshaw: All the information in the earlier answer relates to expenditure by NHS Connecting for Health. In the past, information on expenditure by national health service organisations on the national programme for information technology (NPfIT) has not been collected centrally. An annual survey has sought to establish local IT expenditure but the returns, published annually, have not been restricted to the National Programme for IT. It is proposed to collect the information, on a sample basis.

Information on total NHS capital and revenue expenditure on information technology is in the following tables. Information was not collected centrally for years prior to 2003-04 (capital) and 2002-03 (revenue).

Capital

	2003-04	*2004-05*
NHS Capital (£ million)	2,735.008	2,461.254
Local IT capital (£ million)	234.296	205.555
Local percentage spend	8.57	8.35

Revenue

	2002-03	*2003-04*	*2004-05*
NHS Revenue (£ million)	50,813.614	55,036.276	61,867.068
Local IT revenue (£ million)	832.020	914.232	1,046.259
Local percentage spend	1.64	2.16	2.44

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many contracts are held by *(a)* his Department and *(b)* Connecting for Health with suppliers to the National IT programme. [221439]

Mr. Bradshaw: Contracts under the national programme for information technology, held by NHS Connecting for Health on behalf of the Secretary of State, comprise local service provider (LSP) contracts with BT and CSC; contracts for the 'spine' and the new national broadband (N3) network, also with BT; for choose and book with Atos Origin; with Accenture for Picture Archiving and Communications systems; with Cable and Wireless for NHS Mail; and a contract with Fujitsu to cover transitional arrangements following termination of the company's original LSP contract. In addition, NHS Connecting for Health holds numerous enterprise wide agreements on behalf of the national health service and other contracts that relate to aspects of its work which are not a part of the national programme, and for its day-to-day operational needs, such as accommodation and staff.

Mr. Stephen O'Brien: To ask the Secretary of State for Health which hospitals *(a)* have and *(b)* do not have a national programme for IT patient administration system in place. [221554]

Mr. Bradshaw: As at 21 July 2008 NHS Connecting for Health had deployed patient administration systems in 138 NHS organisations, which are listed as follows. Information on which of the organisations concerned include a hospital site, and which may have more than one hospital site, is not held centrally.

Patient Administration System deployments as at 21 July 2008

NHS: Manpower

Mr. Lansley: To ask the Secretary of State for Health what plans he has for the Care Quality Commission to take account of staff satisfaction indicators in its evaluations of *(a)* NHS trusts and *(b)* other NHS organisations. [221058]

Mr. Bradshaw: The Care Quality Commission will take over from the Commission for Social Care Inspection, the Healthcare Commission, and the Mental Health Act Commission on 1 April 2009.

The 2008-09 Annual Health Check will include an assessment of national health service organisations against an indicator of NHS staff satisfaction.

The new Commission will consult on its assessment for 2009-10 in due course. However, this will need to reflect the national priorities including staff satisfaction.

In addition, from April 2010 the new Commission will move to a common system of registration for all providers of regulated health and adult social care. The Department recently consulted on what the essential requirements of safety and quality of care should be that providers have to meet in order to maintain their registration. The responses are currently being analysed and the Government's response will be published in due course.

Fiona Mactaggart: To ask the Secretary of State for Health how many *(a)* GPs, *(b)* dentists, *(c)* nurses, *(d)* midwives and *(e)* hospital doctors were employed in the NHS in (i) Slough, (ii) Berkshire and (iii) England in (A) 1997, (B) 2002 and (C) 2007. [221195]

Ann Keen: The information requested is shown in the following table.

Dental and Eye Care Team contribution to part (b) dentists

The number of national health service (NHS) dentists, in England, as at 31 March, 1997 to 2006 are available in Annex E and Annex G of the 'NHS Dental Activity and Workforce Report England: 31 March 2006'. Annex E provides information by strategic health authority (SHA) and by primary care trust (PCT). Annex G provides information by constituency.

This information is based on the old contractual arrangements, which were in place up to and including 31 March 2006. This report, published on 23 August 2006, is available in the House of Commons Library (deposited paper reference 07/1059) and is available on-line at:

http://www.ic.nhs.uk/pubs/dwfactivity.

The numbers of dentists on open NHS contracts, in England, as at 30 June 2006, 30 September 2006, 31 December 2006 and 31 March 2007, are available in Table E1 of Annex 3 of the 'NHS Dental Statistics for England: 2006-07' report. This information is based on the new dental contractual arrangements, introduced on 1 April 2006 and is not comparable to information collected under the old contractual arrangements. This information is provided by SHA and by PCT. Information by constituency is not available under the new dental contractual arrangements.

This report, published on 23 August 2007, is available in the House of Commons Library (deposited paper reference 07/1985) and is available on-line at:

http://www.ic.nhs.uk/pubs/dental0607.

Both reports have been published by the NHS Information Centre for health and social care.

The numbers quoted are headcounts and do not differentiate between full-time and part-time dentists, nor do they account for the fact that some dentists may do more NHS work than others.

The methodology for counting and reporting the NHS dental workforce is currently under review. The review, led by analysts at the NHS Information Centre and the statistical directorate of the Welsh Assembly Government, working in liaison with the Dental Services Division of the NHS Business Services Authority, aims to ensure that following the first year of the new dental contractual arrangements, the figures provide an appropriate measure of the workforce.

The consultation stage of this review ended on 11 July 2008. The intention is to publish workforce data in the 'NHS Dental Statistics for England, 2007-08' report, due to be published by the NHS Information Centre on 21 August 2008.

Until then the workforce data provided in the 'NHS Dental Statistics for England: 2006-07' report will remain the latest available.

GPs (excluding retainers and registrars) by selected area in England in 1997, 2002 and 2007

Number (headcount)

		1997	*2002*	*2007*
England		28,046	29,202	33,364
Berkshire[1]		427	487	524

5DN	Wokingham PCT	[1]—	88	[1]—

[1] Not available

Notes:

1. Berkshire consists of Berkshire East Teaching PCT and Berkshire West PCT in 2007 and the following PCTs in 2002: Slough PCT, Bracknell Forest PCT, Windsor, Ascot and Maidenhead PCT, Newbury and Community PCT, Reading PCT and Wokingham PCT. Prior to this, in 1997, there was Berkshire HA and no lower level breakdown available.
2. GP Data is available by SHA and PCT only, there are no GPs recorded in Acute Trusts or Ambulance Trusts on the GP Census Collection. This, as well as part-mergers of trust boundaries in recent years, can make comparability difficult between GP Data, non-medical staff data and medical and dental workforce data over a time-series at local trust level.

NHS Hospital and Community Health Services (HCHS)[1, 2]: All qualified nursing, midwifery and health visiting staff, and medical and dental staff[3, 4] within specified organisations. As at 30 September each year

[1] In 2002 East Berkshire Community NHS Trust was split to form Bracknell Forest PCT and Windsor, Ascot and Maiden PCT. Figures for 1997 are for this predecessor organisation. In 2006 Bracknell Forest PCT, Windsor, Ascot and Maiden PCT and Slough PCT merged to form East Berkshire PCT. Figures for 2002 are for these predecessor organisations.

[2] In 1998 Ashford Hospital NHS Trust and St. Peters NHS Trust merged to form Ashford & St. Peters NHS Trust. Figures for 1997 are for these predecessor organisations.

[3] Excludes medical Hospital Practitioners and medical Clinical Assistants, most of whom are GPs working part time in hospitals.

[4] HCHS Medical and Dental staff includes the following grades: consultant, associate specialist, dental hospital practitioners, dental clinical assistants, staff grade, registrar group, senior house officer, foundation year 2, house officer, foundation year 1 and other staff.

Note:

Over the last five years there's been a reduction in the use of bank nursing staff.

NHS: Private Sector

Mr. Burstow: To ask the Secretary of State for Health what guidance his Department provides to primary care trusts on contingency plans if private sector service suppliers to the NHS enter financial difficulties. [219331]

Mr. Bradshaw: The Department is introducing new standard contracts for national health service funded care to be used by Primary Care Trusts (PCT) for the services they commission from all types of provider, whether private or public. The contracts require private sector providers to have in place service continuity plans to ensure the continued availability of those services identified by PCTs as essential, in the event of any disruption of the provider's ability to provide them.

Mr. Lansley: To ask the Secretary of State for Health (1) pursuant to the answer to the hon. Member for Guildford of 16 June 2008, *Official Report*, column 763W, on NHS: private sector, what his definition of a complete package of care is; [221438]

(2) pursuant to the answer to the hon. Member for Guildford of 16 June 2008, *Official Report*, column 763W, on NHS: private sector, what definition of an episode of care is used for the purposes of collecting information in the Hospital Episodes Statistics database. [221632]

Mr. Bradshaw: There is no formal definition of 'a complete package of care'.

Generally, the definition of an 'episode of care' is a judgment made locally by clinicians and the local national health service. In terms of collecting information for the Hospital Episode Statistics, the main unit of data collection is referred to as the 'finished consultant episode'. The finished consultant episode is defined as a period of admitted patient care under a consultant or allied health care professional within an NHS trust.

NHS: Standards

Mr. Lansley: To ask the Secretary of State for Health when he plans to establish the National Quality Board, as referred to on page 54 of High Quality Care for All, Cm 7432; how many members the board will have; whether members of the board will be remunerated; and if he will make a statement. [221116]

Mr. Bradshaw: The National Quality Board will provide strategic oversight and leadership on quality, and will advise on priorities for clinical standards. The board will play a key role in ensuring that our efforts to improve quality are successful. We will be considering the membership and governance of the board over the summer.

Mr. Lansley: To ask the Secretary of State for Health when he plans to introduce a new measure of patient satisfaction with urgent care services, referred to on page 27 of NHS Next Stage Review: Our vision for primary and community care; whether this measure will be developed in consultation with *(a)* service users and *(b)* others; and if he will make a statement. [221134]

Mr. Bradshaw: The Department will introduce an indicator to measure patient reported access to out of hours care by 2009-10. Information will be collected through the new National General Practice Patient Survey.

The indicator will be developed in consultation with key stakeholders.

NHS: Training

Mr. Lansley: To ask the Secretary of State for Health when he plans to have replaced the Medical Professional Education and Training budget with a tariff-based system, as referred to on page 74 of High Quality Care for All, Cm 7432; whether the change to a tariff-based system will entail a change to a ring-fenced workforce training budget; whether the new budget will be held *(a)* centrally and *(b)* locally; and if he will make a statement. [221052]

Ann Keen: Work is in progress to develop a robust and equitable allocation methodology for future administration and use of the Multi Professional Education and Training (MPET) budget, including developing a tariff based system where funding follows the trainee.

Decisions on future arrangements for the funding of national health service education and training activity will be made in the light of this work.

Mr. Lansley: To ask the Secretary of State for Health when he plans to introduce the Leadership for Quality Certificate, as referred to on page 66 of High Quality Care for All, Cm 7432; which organisation he expects will design the requirements of the Leadership for Quality Certificate; what the cost to the public purse of developing the Leadership for Quality Certificate will be; and how much it will cost for NHS staff to train for a *(a)* level 1, *(b)* level 2 and *(c)* level 3 of the Leadership for Quality Certificate. [221061]

Ann Keen: We are in the early stages of developing this work. Further information will be available in due course.

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many NHS bursaries were available in each of the last 11 years; for which courses NHS bursaries were provided; what the total cost was in each year; what the average bursary was; and what the *(a)* mean, *(b)* median and *(c)* range of bursaries was (i) in financial terms and (ii) as a percentage of estimated tuition and living costs. [221386]

Ann Keen: Information on the number of students for whom a NHS bursary award was assessed, the number of NHS funded students, the amount of NHS bursary paid, the average amount of NHS bursary paid and the median bursary paid for income assessed bursaries and non income assessed bursaries in each of the last 10 years is shown in the following table.

NHS funded students on pre registration health professional courses

Academic year	*Number of students for whom a NHS bursary award assessed*[1]	*Number of NHS funded students*[2]	*Amount of bursary paid*[3] *(£)*	*Average bursary paid (£)*	*Median bursary paid (£)*
Income assessed awards[4]					
1997-98[5]	7,957	7,888	14,532,040	1,842	1,989
1998-99[5]	11,265	10,600	20,258,727	1,911	1,961

2006-07	39,657	38,600	126,273,938	3,271	2,935
Non-income assessed awards[6]					
1997-98[5]	n/a	n/a	n/a	n/a	n/a
1998-99[5]	n/a	n/a	n/a	n/a	n/a
1999-2000	16,267	15,926	65 678,860	4,124	4,741
2000-01	30,896	30,333	143,056,665	4,716	4,860
2001-02	45,478	44,715	240,556,255	5,380	5,448
2002-03	53,103	52,364	279,084,394	5,330	5,487
2003-04	54,999	54,175	293,778,507	5,423	5,617
2004-05	55,669	55,239	318,773,305	5,771	5,750
2005-06	56,001	55,322	334,132,328	6,040	5,892
2006-07	54,748	53,974	334,731,614	6,202	6,038

[1] The number of students for whom a NHS Bursary award assessed is shown rather than number of applications because:
Non income assessed award holders do not need to make an application for any other academic year other than the first academic year for their basic bursary entitlement, if the data showed the number of applications received, the number would be approximately one-third of the number of awards assessed which would inflate the figures when comparing with total amount of NHS bursary paid.
If an application is received and returned for more information, NHS Student Bursaries do not hold the data on the number received and returned.
If an application is received, and rejected on residency eligibility grounds, NHS Student Bursaries receive the application, but do not assess their entitlement as they are rejected before that assessment is made.
If an application is received, but NHS Student Bursaries need more information to determine if they are eligible on residency grounds, they have received that application, but do not assess their entitlement information until the student provides the additional information.
[2] Includes students in receipt of a Nil Bursary Award but whose tuition fee contributions are met by the NHS.
[3] Includes Basic Award and Allowances and all one-off payments
[4] Applicable to students on all health professional courses other than a diploma in higher education (DipHE) Nursing, Midwifery and Operating Department Practitioner.
[5] For these years Bursaries were administered by the Higher Education Institutions
[6] Applicable to students on DipHE Nursing, Midwifery and Operating Department Practitioner courses.
Notes:
1998-99—the first academic year the NHS Bursary Scheme was extended to cover courses leading to professional registration as a dietician, chiropodist, prosthetist and orthotist, speech and language therapist.
1998-99—the first academic year BSA Student Bursaries became responsible for the payment of Practice Placement Expenses.
1999-2000—the first year the NHS Student Bursaries unit became responsible for the administration of bursaries to new DipHE Nursing and Midwifery students. (Please see footnote 5 to the table explaining that HEI's were responsible for the processing of bursaries for earlier years).
2002-03—the first year the NHS Bursary Scheme was extended to cover courses leading to professional registration as a doctor, dentist, audiologist or operating department practitioner.
2005-06—the first academic year BSA Student Bursaries holds data on the amount of tuition fee contributions paid in respect of medical and dental students to Higher Education Institutions.
Source:
National Health Service Business Services Authority Student Bursaries Unit

Information prior to 1998-99 is not available.

The range of basic bursary rates for new degree level students (based on courses of 30 weeks) and for new diploma level students, in 2006-07 is shown in the following table.

£

	Basic bursary rate 2006-07	
If students are studying:	*Degree (income assessed)*	*Diploma (non income assessed)*
In London and living in student accommodation or their own home	0-2,908	7,030
Elsewhere in the UK and living in student accommodation in their own home	0-2,367	5,983
Anywhere in the UK (including London) and living with their parents	0-1,936	5,983

Source:
Financial Help for New Healthcare Students 2006-07

The courses for which NHS bursaries are provided is shown in the following table.

Course type	*Bursary category*
Nursing—DipHE Level (all branches)	Non-income Assessed
Nursing—Accelerated and Post-Graduate Diploma	Non-income Assessed
Operating Department Practitioner	Non-income Assessed
Audiology	Income Assessed
Chiropody/Podiatry	Income Assessed
Dental Hygiene (including postgraduate diploma level)	Income Assessed
Dental Therapy (including postgraduate diploma level)	Income Assessed
Midwifery—BSc Level	Income Assessed
Nursing—BN/BA/BSc Level	Income Assessed
Occupational Therapy (including postgraduate diploma level)	Income Assessed
Orthoptics	Income Assessed
Physiotherapy (including postgraduate diploma level)	Income Assessed
Prosthetics and Orthotics	Income Assessed
Radiography and Radiotherapy (including postgraduate diploma level)	Income Assessed
Speech and Language Therapy (including postgraduate diploma level)	Income Assessed
Medicine—undergraduate (in fifth and subsequent years) and graduate entry (in years two to four)	Income Assessed
Dentistry—undergraduate (in fifth and subsequent years)	Income Assessed

Source:
National Health Service Business Services Authority Student Bursaries Unit

The purpose of the NHS Bursary award is to support students with their day-to-day living costs. Those students who are eligible for NHS bursaries do not normally need to fund their own tuition fees as these are paid by the NHS through the Multi Professional Education and Training budget.

Nurses

Mr. Lansley: To ask the Secretary of State for Health what the baseline year is for the threefold increase in nurse and midwife preceptorships, as referred to on page 72 of High Quality Care for All, Cm 7432; how much was spent on nurse and midwife preceptorships in that year; in what year he expects to achieve a threefold increase in spending on preceptorships; whether he expects a threefold increase in spending on preceptorships to result in a threefold increase in the number of preceptorships; and if he will make a statement. [221056]

Mr. Bradshaw: £10 million has been allocated to strategic health authorities (SHAs) in 2008-09 to support the development of work based learning and post registration support for nurses, midwives and some other professional staff. This includes preceptorship support for newly qualified staff.

This funding will be increased to £20 million in 2009-10 and to £30 million in 2010-11.

It is too early to identify actual spend on preceptorship support by the local national health service in the 2008-09 financial year, or the actual number of preceptorships offered.

Nutrition

Mr. Stephen O'Brien: To ask the Secretary of State for Health what guidance he has issued to NHS organisations on obligations under the Human Rights Act 1998 to provide appropriate nutritional care. [212195]

Mr. Ivan Lewis: In March 2007 the Department of Health published "Human Rights in Healthcare—A Framework for Local Action" which raised awareness of human rights in general including the Human Rights Act 1998 and also addressed how national health service trusts could use a human rights based approach to improve service design and delivery, including the right to food.

Individual nutritional care is addressed at a local level, with each NHS trust setting its own policies of nutritional care in hospitals and out reach care. I launched the Nutrition Action Plan in October 2007, setting out a range of resources, guidance and best practice on how to improve nutrition delivered in health and social care settings. A Nutrition Action Plan Delivery Board has been established to steer implementation of the document, which is chaired by Gordon Lishman, Director General of Age Concern.

Obesity

Mrs. Riordan: To ask the Secretary of State for Health what steps his Department is taking to reduce levels of obesity. [220030]

Dawn Primarolo: In the six months since the £372 million Healthy Weight, Healthy Lives: a Cross Government Strategy for England was published there has been substantial progress. The forthcoming progress newsletter Healthy Weight, Healthy Lives: six months on, has been placed in the Library.

The newsletter highlights the steps forward for the next six months across all five themes of the Strategy: children, healthy growth and weight; promoting healthier food choices; building physical activity into our lives; creating incentives for better health; and personalised advice and support for all.

Palliative Care

Mr. Stephen O'Brien: To ask the Secretary of State for Health what measures he has set for the assessment of the *(a)* implementation, *(b)* achievement against objectives and *(c)* effect on end of life care of his Department's end of life care strategy. [221426]

Mr. Ivan Lewis: The number of deaths which occur in the home is one of the national indicators which have been agreed with the Department for Communities and Local Government. Local areas are required to report progress against these indicators. Supporting care provision in the community, and enabling more people to die at home, is a central component of the End of Life Care Strategy.

The Government are committed to delivering increased investment in end of life care services.

National quality standards are also being developed against which primary care trusts and providers can assess themselves and be assessed by regulators.

The Department will also undertake piloting work to develop a national survey of bereaved relatives, which will provide important information on the quality of care provision.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what estimate he has made of the cost of implementation of the end of life care strategy; and how it will be funded from the NHS and from *(a)* the voluntary and *(b)* the independent sectors. [221427]

Mr. Ivan Lewis: The impact assessment for the End of Life Care Strategy sets out the estimated costs associated with the implementation of the strategy.

The Government have made £286 million of funding available in the two years to 2011 to cover the costs of implementation. The majority of this funding will be made available to primary care trusts and strategic health authorities, who are responsible for commissioning services and education and training from local providers, including the independent and voluntary sector. The additional resources also include a capital fund of £40 million, to be made available in 2010-11, for the voluntary hospice sector.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what funding mechanisms his Department has examined for the facilitation of the flow of funds from the commissioners to the providers of end of life care services. [221428]

Mr. Ivan Lewis: Several local health economies are currently investigating Payment by Results (PbR)-type funding approaches for specialist palliative care and community services, as PbR "development sites". However, we currently have no timetable for including end of life care in PbR.

The End of Life Care Strategy sets out the importance of strong commissioning of services by both primary care trusts (PCTs) and local authorities (LAs). This will be informed by the Joint Strategic Needs Assessment that all PCTs and LAs are required to produce from April 2008.

The strategy also reminds PCTs and LAs of the need to comply with the Compact on Relations between Government and the voluntary and community sector in England, which should provide a fair playing field for all service.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what steps he plans to take to ensure that health and social care staff receive training in end of life care to enable them to deliver the objectives of the end of life care strategy. [221431]

Mr. Ivan Lewis: To underpin and support training for health and social care staff, the Department has commissioned Skills for Health and Skills for Care to develop end of life care competence frameworks. e-Learning for Healthcare are also being commissioned to develop end of life care e-learning modules that will provide free access to registered users across both health and social care.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what estimate he has made of the cost of training health and social care staff in end of life care to enable them to deliver the objectives of the end of life care strategy. [221432]

Mr. Ivan Lewis: The Impact Assessment for the End of Life Care Strategy sets out the estimated costs, and the rationale behind them, associated with training the health and social care work force to support the delivery of the strategy.

Patient Choice Schemes

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 20 May 2008, *Official Report*, column 204W, on patient choice schemes, which hospitals were affected by the system error; which specialisms the affected bookings were for; and how many cases were adversely affected. [221275]

Mr. Bradshaw: The systems error is known to have affected 272 bookings, between 11 April 2008 and 24 April 2008, out of some 180,000 bookings made during that period. To our knowledge, no patients had their treatment delayed as a result.

A list of the service providers which were affected by the system error, along with names of the services to which patients had been referred, has been placed in the Library.

Anne Main: To ask the Secretary of State for Health how many primary care trusts commission the patient choice service; and if he will make a statement. [221729]

Mr. Bradshaw: Free Choice was introduced on 1 April. The introduction of Free Choice has removed the requirement for primary care trusts to carry out local commissioning of elective care hospital-based services. Patients can choose to be referred to any clinically appropriate provider that meets national health service eligibility criteria. This will include NHS foundation trusts, NHS acute trusts and a large number of independent sector providers and their hospitals.

Anne Main: To ask the Secretary of State for Health which NHS foundation trusts put their services on the national menu under the patient choice scheme; which primary care trusts commission this scheme; and how his Department plans to monitor the effectiveness of the scheme. [221730]

Mr. Bradshaw: All new foundation trusts and existing foundation trusts whose contracts expired by 31 March adopted the standard national health service contract for acute services. The standard contract requires all signatories set out relevant services in Choose and Book through a Directory of Service. Foundation trusts whose contracts extended beyond this date were able to choose to adopt the standard contract or to retain their existing contracts until the required period of notice to change had expired. These foundation trusts are not legally obliged to set out their services on Choose and Book and to accept patients under free choice though, under payment by results, this would mean a possible loss of potential income. At the current time, all foundation trusts have published a Directory of Service on Choose and Book.

The introduction of Free Choice has removed the requirement for primary care trusts to carry out local commissioning of elective care hospital-based services. The Department monitors free choice services available through the Choose and Book system and also monitors the offer of choice through the bimonthly National Patient choice survey.

Anne Main: To ask the Secretary of State for Health whether he plans to extend the patient choice scheme to infertility services. [221731]

Dawn Primarolo: Since January 2006 most patients have had choice of where they are seen when they are first referred by their general practitioner for an out-patient appointment. This includes couples who are being referred to a specialist, either for tests to determine the cause of infertility or where the cause is known.

Patients: Safety

Mr. Lansley: To ask the Secretary of State for Health how many patient safety incidents of each type in each strategic health authority area have been reported to the National Reporting and Learning System since it was established. [221026]

Ann Keen: The following tables show patient safety incidents of each type in each strategic health authority (SHA) area that have been reported to the National Reporting and Learning System since it was established in 2003.

Incidents reported to the NRLS (1 Nov 2003 - 30Jun 2008) by SHA, broken down by incident type

Incident Category	*N/A*	*North East*	*North West*	*Yorkshire and the Humber*	*East Midlands*	*West Midlands*

Notes:
1. These incidents exclude duplicated incidents and incidents where the submitting organisation/individual did not consent to provide their details. Incidents where the data provided did not meet our minimum requirements were excluded from these results. Incidents from Welsh organisations, community pharmacies and NHS Direct were also not included.
2. As reporting to the NRLS is done on a voluntary basis, the figures provided should not be used as an indicator of national trends.
3. NRLS Reports Disclaimer Statement: NPSA Staff
The incidents summarised in this report have been drawn from the NPSA National Reporting and Learning System (NRLS). The NRLS supports the goal of the NPSA to make patient care safer. The NRLS is a confidential reporting system. The incidents are reported through a variety of routes, by individual NHS staff, including through local trust risk management systems and web based e-forms (including an open access e-form). The individual reports are not investigated or verified by the NPSA. Since these incidents are self-reported they are not necessarily representative of the NHS across England and Wales and therefore need interpreting with care.
4. Permission must be obtained from the NPSA before the information contained within the report it is published or passed on to a third party outside the NPSA. For help with interpretation please contact the statistics team on statisticsteam@npsa.nhs.uk.

Pharmacy: Rural Areas

Mr. Jamie Reed: To ask the Secretary of State for Health if he will ensure that people in rural areas who use GP practices for prescription dispensation will remain able to do so. [219882]

Mr. Bradshaw: The Government are committed providing the right services at the right time in the right place to meet patients' needs.

The White Paper "Pharmacy in England; Building on Strengths—Delivering the Future" (copies have already been placed in the Library) looks at aligning the future provision of pharmaceutical services and sets out proposals to look at the market entry criteria for doctors and pharmacists, but no decision has yet been taken on the criteria to be used in future for patients to receive pharmaceutical services from their general practitioner.

A consultation paper will be launched next month that will look at the options for the future and will provide everyone with an opportunity to contribute, healthcare professional and patient alike. I refer my hon. Friend to the written statement I made on 17 July 2008, *Official Report*, column 49WS.

Following that consultation, we will consider fully the impact of any proposals on patients, the national health service and contractors.

Plastic Surgery

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to his response to the report of the Expert Group on the Regulation of Cosmetic Surgery, what steps he has taken in response to each agreed recommendation. [221553]

Mr. Bradshaw: The information has been placed in the Library.

Primary Care Trusts: Statistics

Sandra Gidley: To ask the Secretary of State for Health what information each primary care trust is required to provide to his Department each *(a)* month and *(b)* year. [218652]

Mr. Bradshaw: Primary care trusts (PCTs) are required to provide the following data to the Department as approved, ongoing PCTs collections:

Biennially

Earnings survey; and

National capabilities survey.

Annually

Attribution data set;

Adult and older adult mental health finance mapping;

Adult Screening Programme: breast cancer (primary care trust (PCT) return);

Adult Screening Programme: breast screening (Screening Unit return);

Adult Screening Programme: cervical screening;

Adults and older adult mental health service mapping;

Annual health and community health services non-medical workforce census;

Annual medical and dental workforce census;

Annual national health service vacancy collection;

Annual statement of fire safety;

Audited PCT accounts summarisation schedules;

Average cleared balances;

Beds;

Childhood Immunisation Programme;

Collection of pneumococcal polysaccharide vaccine uptake in the 65 and

over population;

Consultants clinical excellence awards (consultant verification exercise);

Diagnostic departments: radiology, nuclear medicine and medical physics;

Emergency continuity business preparedness;

Estate return information collection;

Family health services complaints;

Workforce statistics: annual return of practitioners and premises;

Health and community services complaints;

Informal patients and patients detained under the Mental Health Act;

National survey of patient experience;

NHS information governance assessment;

NHS intellectual property data;

NHS pharmaceutical services;

Partnership intentions between health services and local authorities;

PCT financial returns;

Prison health performance indicators;

Programme budgeting: NHS trust apportionment reports;

Public health workforce collection;

Reference costs collection;

Seasonal flu vaccine uptake;

Summary of contraceptive services; and

Workforce collection: workforce turnover, bank staff, sickness/absence, recruitment.

Biannually

End Waiting, Change Lives communication evaluation (opinion survey);

General ophthalmic services: sight tests, vouchers and repairs;

Junior doctor's hours;

NHS Campus Closure Programme;

NHS staff engagement and attitudes towards the NHS; and

Primary care audience tracking research.

Quarterly

Childhood immunisation data;

Integrated drug treatment system for prisons clinical activity;

Monitoring revisions to new GP contract;

National child measurement programme;

NHS stop smoking services;

Pharmaceutical, dental and ophthalmic services;

Prevalence of breastfeeding at six-eight weeks;

Primary care access survey;

Prison health care performance monitoring: star ratings;

Quarterly monitoring of accident and emergency; and

Quarterly activity return.

Monthly

18 weeks referral to treatment (RTT) times;

Financial monitoring and accounts;

Collection of influenza vaccine update data: immunisation of poultry workers;

Collection of practice level GP referral data;

Human papillomavirus vaccine immunisation programme: vaccine monitoring

minimum dataset;

Information on dental contracts;

Monitoring extended GP practice opening hours;

Monthly activity flow;

Monthly smoking cessation return;

Monthly waiting times return;

Monthly waiting times return;

National direct access to audiology services; and

National Programme for IT: monthly deployment report.

Weekly

18 weeks RTT primary target list;

Chlamydia core dataset for national programme monitoring; and

Sitreps data (weekly and daily).

Ad-hoc

Fire incidents and unwanted fire signal data;

Health authority refunds;

Non-medical device defects and failures reporting system; and

Safety alert broadcast system.

Commissioning dataset information provided by PCTs to the secondary uses service (SUS)

Admitted patient care;

Outpatients;

Future outpatients;

Accident and emergency (including minor injury units and walk in centres);

Elective admissions lists; and

Mental health minimum datasets.

Notes:

1. Ad-hoc collections are reported as and when incidents occur.

2. Not all information areas provided for SUS will apply to all PCTs.

3. For 2008-09 PCTs have submitted their financial plans, and will be required to submit information on their financial position and forecast at the end of each quarter, with the fourth quarter being the submission of unaudited accounts. This is part of the Department's in-year financial monitoring of all NHS organisations that also includes NHS trusts and strategic health authorities. At the end of each financial year, PCTs have a statutory requirement to submit their audited final accounts.

Psychiatry

John Battle: To ask the Secretary of State for Health what resources the Government provided to support *(a)* cognitive behavioural and *(b)* other talking therapies in the latest period for which figures are available; and if he will make a statement. [220707]

Mr. Ivan Lewis: The Government are investing funding, rising to £173 million by 2011, for the provision of the National Institute for Health and Clinical Excellence evidence-based psychological therapies. This includes investment in cognitive behavioural therapy as well as other interventions.

Queen's Hospital Romford: Accident and Emergency Departments

James Brokenshire: To ask the Secretary of State for Health what the performance of the Queen's Hospital, Romford was in processing accident and emergency admissions within four hours in each month since January 2007. [205371]

Mr. Bradshaw: Information is not collected centrally in the format requested. Information on the percentage of patients attending accident and emergency (A&E) departments who were seen, diagnosed and treated within four hours of their arrival is collected at national health service trust level and published quarterly. This can be compared against the operational standard for A&E waits, which is set at 98 per cent. of patients seen, diagnosed and treated within four hours. The following table shows the available information for Barking, Havering and Redbridge Hospitals NHS Trust, which manages services at Queen's hospital, Romford.

I understand that the trust has recently achieved and is looking to sustain the required 98 per cent. standard.

Percentage of patients who spent less than four hours in A&E departments, minor injury units and walk-in centres from arrival to admission, transfer or discharge at Barking, Havering and Redbridge Hospitals NHS Trust, including activity at partner primary care trusts

	Quarter	*Percentage of patients who spent less than four hours in A&E*
2006-07	Q4	96.7
2007-08	Q1	95.6
2007-08	Q2	96.4
2007-08	Q3	90.8
2007-08	Q4	84.7

Notes:

1. The Department collects A&E data at trust rather than hospital level. The table shows the data for the relevant trust. The Queen's hospital, Romford is provided by Barking, Havering and Redbridge Hospitals NHS Trust.

2. From Q1 2007-08, the data includes services provided by the independent sector.

Department of Health dataset QMAE.

Radiography: Education

Mr. Stephen O'Brien: To ask the Secretary of State for Health which universities have offered NHS-funded radiography degree courses in each of the last five years; how many places each had; how many places were filled; what the ratio of places to applications was at each university; how many students at each institution failed to complete the course; what reduced rate student loan was available and how many students took it; how many students studied radiography to degree level without taking the NHS funded place; and what the terms and conditions of the NHS-funded place are. [221649]

Ann Keen: A list of universities that have offered NHS-funded radiography degree courses in each of the last five years and the number of students placed at each institution and numbers who failed to complete the course are shown in the table. Information on the number of places each university had available: the ratio of places to applications and the number of students who studied radiography to degree level without taking the NHS funded place is not held centrally.

The amount of reduced rate loan available in each of the last five years is shown in the table. Information on the number of students, who received it, is not available.

The eighth edition of the NHS Bursary Scheme outlines the terms and conditions of support arrangements for students in academic years starting on or after 1 September 2007 and before 1 September 2008. A copy has been placed in the Library.

Radiography: Manpower

Mr. Stephen O'Brien: To ask the Secretary of State for Health what estimate he has made of the numbers of radiographers *(a)* working in and *(b)* required by the NHS. [221648]

Ann Keen: The latest published workforce census showed there were 15,066 qualified therapeutic and diagnostic radiographers working in the national health service in England, an increase of 3,295 (28 per cent.) since September 1997.

Local NHS organisations are best placed to assess the health needs of their local health community and plan the work force they need.

Radiotherapy

Mr. Lansley: To ask the Secretary of State for Health how many fractions were delivered by radiotherapy centres in each year since 1997-98; how many fractions of radiotherapy he estimates are required to be delivered by the NHS in order to meet the 31-day treatment standard, as referred to in paragraph 4.24 of his Department's Cancer Reform Strategy; what the expected increase in the number of fractions is against which progress towards the aim of meeting the 31-day treatment standard in radiotherapy services by December 2010 will be measured; and if he will make a statement. [220954]

Ann Keen: The number of fractions delivered by radiotherapy centre since 1998 has been placed in the Library.

The National Radiotherapy Advisory Group recommended that the national health service delivers 40,000 fractions per million of population by 2010, rising to 54,000 by 2016. It is estimated that if the NHS meets these recommendations for increasing capacity they will be able to meet the 31 day treatment standard.

The National Cancer Action Team is producing guidance to support the NHS to identify gaps in fractionation and future service requirements.

Note:
Data taken from the radiotherapy equipment survey 2002, 2005, 2007 produced by National Cancer Analysis Team.

Mr. Lansley: To ask the Secretary of State for Health what progress has been made in developing a long-term workforce strategy for radiotherapy services, as referred to in paragraph 4.31 of his Department's Cancer Reform Strategy; and when he expects the strategy to be published. [220955]

Ann Keen: As set out in the Cancer Reform Strategy, it is for strategic health authorities (SHAs) to work with cancer networks, NHS trusts and postgraduate deaneries to develop a local long term radiotherapy work force strategy including an urgent review of work force supply, demand and skills mix to identify the investment needed in both staff numbers and types of training commissions. To help SHAs the national Cancer Action Team will shortly be providing guidance on developing a local response to the National Radiotherapy Advisory Group report.

Mr. Lansley: To ask the Secretary of State for Health what support he is giving to strategic health authorities to enable them to *(a)* commission radiotherapy services and *(b)* build radiotherapy capacity. [220992]

Mr. Ivan Lewis: In line with the recommendations of the National Radiotherapy Advisory Group's (NRAG) Report entitled 'Radiotherapy: Developing a World Class Service for England', the Cancer Reform Strategy (CRS) has recommended that local primary care trusts with their cancer networks may want to review their local radiotherapy service to ensure that recommended levels of fractionisation and linear accelerator productivity are achieved and that they have sufficient capacity to meet the extended 31-day waiting standard for all radiotherapy in 2010.

The NRAG Implementation Group has been set up to provide support to local clinical teams and commissioners as they review and develop their radiotherapy services. In addition, the National Cancer Action Team is also producing guidance by the end of the summer 2008 to support commissioners.

Rodents

Bob Spink: To ask the Secretary of State for Health what research he has commissioned on the effect on public health of rodent infestations in residential areas. [220641]

Dawn Primarolo: None.

Scanners

Mr. Donohoe: To ask the Secretary of State for Health (1) how many new CT scanners have been brought into operation by NHS trusts in the last 12 months; [220574]

(2) how many new magnetic resonance imaging scanners have been brought into operation by NHS trusts in England in the last 12 months. [220575]

Mr. Bradshaw: The Department does not routinely collect this data. However information supplied by the Health Protection Agency (HPA) relating to the English NHS as at 1 July 2008 indicated that in 2007, 28 new and replacement computerised tomography (CT) scanners and computerised tomography simulators (CT-Sims) were installed. In 2008 two CT scanners and CT-Sims have been installed to date. The HPA does not collect data on operational use.

Information supplied by the Health Protection Agency (HPA) relating to the English NHS as at 1 July 2008 indicated that in 2007 one new replacement magnetic resonance imaging (MRI) scanner was installed. In 2008 there have been no installed MRI scanners to date. The HPA does not collect data on operational use.

Screening

Mr. Lansley: To ask the Secretary of State for Health what plans his Department has for moving to an activity-based system for funding screening services. [220944]

Ann Keen: In order to develop a tariff for funding cancer screening services, discussions are taking place between National Health Service Cancer Screening Programmes, the National Cancer Action Team and departmental officials. Further details will be available in due course.

Skin Cancer: Health Education

Mr. Lansley: To ask the Secretary of State for Health what funding his Department has provided in *(a)* cash and *(b)* real terms in current prices to support campaigns to raise awareness of skin cancer in each year since 1997-98; what funding his Department plans to provide in 2008-09; and if he will make a statement. [220931]

Ann Keen: In 1997, the Health Education Authority (HEA) ran the Sun Know How campaign on behalf of the Department. Information on funding to the HEA for the specific campaign is not readily available at short notice. SunSmart is the national skin cancer prevention campaign, run by Cancer Research UK on behalf of the United Kingdom Health Departments. The Department of Health in England contributed funding of around £100,000 towards the launch of the SunSmart campaign in March 2003. The campaign has received further funding in the last four financial years.

The second column in the following table presents the amount of money provided for the SunSmart campaign in that year. The third column expresses that figure in constant 2004-05 prices, i.e. in real terms[1].

[1] Notes on the real-terms calculation:

Beyond 2004-05, the real terms value is less than the cash terms value. This is because inflation has eroded part of the cash value; prices have increased, so a given cash amount buys less than it did in 2004-05.

2005-06, 2006-07 and 2007-08 funding amounts have been more than the 2004-05 funding amount in both cash terms and real terms.

The GDP Deflator, available at

www.hm-treasury.gov.uk/economic_data_and_tools/gdp_deflators/data_gdp_fig.cfm,

has been used to calculate the real terms values.

£

	Funding amount	
	In cash terms	*In 2004-05 prices*
2004-05	72,000	72,000
2005-06	145,000	141,944
2006-07	150,000	142,953
2007-08	104,000	96,309

The amounts are given in cash and in real terms in current prices.

The funding for 2008-09 is £110,000, which is being paid on a quarterly basis. We keep funding for skin cancer awareness campaigns under review in the light of their merits and the overarching funding position of the Department.

Social Services: Cumbria

Mr. Jamie Reed: To ask the Secretary of State for Health what plans he has to encourage closer working between social services and primary care providers in Cumbria. [219887]

Ann Keen: Our Vision for Primary and Community Care, published on 3 July 2008 and already placed in the Library, sets out plans to promote services that are more joined-up and responsive to patient needs.

An integrated approach to health and wellbeing will require a step change in the relationship between local national health service organisations, local government, other relevant statutory services, employers, third sector and independent sector providers. The Department will provide support to those organisations that wish to go further in integrating health and social care services and will establish a Minister-chaired group to work with stakeholders and identify how government can best provide this support, including reviewing policy, financial and cultural barriers to integration.

The North West Strategic Health Authority reports that the Cumbria Primary Care Trust already engages with a wide range of partners to improve services and achieve better health outcomes for its local population, including its key partner the Cumbria county council.

Social Services: Training

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the Answer of 20 June 2008, *Official Report*, column 1236W, on social services: training, if he will place in the Library a copy of the expression of interest in becoming a national skills academy for social care submitted to the Learning and Skills Council. [221310]

Mr. Ivan Lewis: A copy of the expression of interest in becoming a National Skills Academy for Social Care has been placed in the Library. The expression of interest has been prepared by social care employers, facilitated and supported by the Department.

Social Services: Vetting

Mr. Stephen O'Brien: To ask the Secretary of State for Health what estimate he has made of the number of individuals working in the care sector who have not been subject to a full Criminal Records Bureau check in each of the last 10 years. [221666]

Mr. Ivan Lewis: No such estimate has been made.

The Criminal Records Bureau (CRB) started work in March 2002. CRB checks are generally discretionary, but in some instances are mandatory. CRB checks for staff working in regulated social care were phased in, starting in April 2002, and have been required for all staff since 31 October 2004. Since 26 July 2004, all staff working in regulated social care are required to be checked against the Protection of Vulnerable Adults (POVA) list. Anyone who is on the list is automatically barred from working in regulated adult social care.

People can start work in regulated social care before receiving their CRB check where this is necessary to ensure that the care provider has sufficient staff to meet the needs of service users. However, these staff must have applied for a CRB check, they must not be on the POVA list and they must have successfully fulfilled all the other pre-employment requirements. All new staff must undergo training and be adequately supervised.

In February 2005, Ministers decided that CRB checks should be mandatory throughout the NHS for all eligible new staff with access to patients in the normal course of duties. Full guidance on pre-appointment checks for national health service staff was issued by NHS Employers in May 2005. The NHS Employers guidance is mandatory by virtue of the Standards for Better Health which includes a standard for staff recruitment checks.

The Commission for Social Care Inspection and the Healthcare Commission are responsible for monitoring compliance. They will take appropriate enforcement action if they find a person who has not been appropriately checked.

Surgery

Mr. Donohoe: To ask the Secretary of State for Health how many operations were carried out in NHS hospitals in *(a)* 2005 and *(b)* the last year for which figures are available. [220565]

Mr. Bradshaw: The number of operations carried out in national health service hospitals is recorded as part of hospital episode statistics (HES) data, these data are collection annually.

	Number of operations carried out in NHS hospitals
2004-05	6,848,793
2005-06	7,216,643
2006-07	7,889,682

Source: HES

Figures supplied by the Information Centre for health and social care.

Take-away Food: Safety

Harry Cohen: To ask the Secretary of State for Health what plans the Food Standards Agency has to improve standards of hygiene in fast food outlets. [220883]

Dawn Primarolo: The Food Standards Agency (FSA) has a range of initiatives aimed at improving hygiene standards in retail and catering outlets. This includes the 'Safer Food, Better Business' programme to promote uptake of food safety management systems. Part of this programme has been a special grant scheme which, to date, has distributed over £9 million to over three-quarters of local authorities in England to provide direct support to over 50,000 small businesses.

The FSA is also currently consulting on proposals for a United Kingdom-wide 'scores on the doors' scheme to provide information to consumers about hygiene standards of individual food businesses so that they make informed choices about where they purchase food.

Details of these and other FSA initiatives are available on the FSA's website at

www.food.gov.uk.

Tomography: Waiting Lists

Mr. Donohoe: To ask the Secretary of State for Health how many CT scans were carried out by NHS trusts in *(a)* 2005 and *(b)* the last 12 months. [220570]

Dawn Primarolo: Numbers of computerised tomography (CT) and magnetic resonance imaging (MRI) scans undertaken by NHS trusts in England are set out in the following table.

Figures for 2007-08 are due to be published in September 2008.

		Number
	CT	*MRI*
2004-05	2,141,652	944,935
2005-06	2,481,571	1,118,487
2006-07	2,728,119	1,257,972

Source: Department of Health Central Return KH12.

Transplant Surgery

Mike Penning: To ask the Secretary of State for Health what recent representations he has received on the introduction of techniques for organ preservation which increase the time that can elapse between organ retrieval and transplant. [220402]

Ann Keen: Following representation about the organ care system, a new technology for preserving donor hearts for transplantation, the company TransMedics have been made aware that they could apply for funding to the Health Technology Assessment Clinical Trials programme to conduct an evaluation of the technology. Any application would be considered on its merits in competition with other applications.

Trauma: Health Services

Mike Penning: To ask the Secretary of State for Health (1) what recent assessment he has made of the adequacy of provision of pre-hospital care for people who *(a)* are severely injured and *(b)* have suffered trauma; [221316]

(2) what recent assessment he has made of the level of provision of pre-hospital care for trauma patients, with particular reference to those patients aged under 16 years; [221317]

(3) what assessment he has made of the effectiveness of secondary transfer for patients who have suffered severe trauma during the last five years; [221318]

(4) what assessment he has made of the number of patients requiring trauma care who were aged under 16 years in the each of the last five years. [221319]

(5) what assessment he has made of the number of trauma patients in accident and emergency departments not seen by a consultant in the last five years; and if he will make a statement; [221322]

(6) what his estimate is of the number of hospitals in England that do not have a formal trauma team but which admit severely injured patients. [221324]

Mr. Bradshaw: No such assessment has been made centrally. These are matters for the national health service to determine. Over the last year, as part of the Next Stage Review, each strategic health authority has set out its vision for improving health and healthcare based on the recommendations of clinically-led pathway groups including acute care. These visions identify the need for high quality trauma services and a common theme was the need for specialised centres for major trauma.

Mike Penning: To ask the Secretary of State for Health (1) what measures he has put in place to improve the treatment and survival rates of patients who have suffered head trauma; [221320]

(2) what steps have been taken by his Department to ensure the provision of adequate trauma teams in NHS health care settings where severely injured patients may be received. [221323]

Mr. Bradshaw: These are matters for the national health service to determine. Over the last year, as part of the Next Stage Review, each strategic health authority has set out its vision for improving health and health care based on the recommendations of clinically-led pathway groups including acute care. These visions identify the need for high quality trauma services and a common theme was the need for specialised centres for major trauma. It is now for primary care trusts to commission appropriate services, in consultation with their local populations, on the basis of the recommendations of the pathway groups.

Mike Penning: To ask the Secretary of State for Health (1) what evaluation he has made of the 2007 report of the National Confidential Enquiry into Patient Outcome and Death, Trauma: Who cares; [221325]

(2) what progress has been made by his Department in taking forward the recommendations of the 2007 report of the National Confidential Enquiry into Patient Outcome and Death. [221326]

Mr. Bradshaw: We welcomed the report of the National Confidential Enquiry into Patient Outcome and Death, "Trauma: who cares", on its publication in 2007. The clinical pathway groups who developed proposals for the best models of acute care as part of the "Next Stage Review: High quality care for all" (2008) will have considered the Enquiry's recommendations in their deliberations.

Vaccination

Mr. Lansley: To ask the Secretary of State for Health what steps his Department plans to take to ensure the NHS implements the recommendations for screening and vaccination programmes *(a)* the Joint Committee on Vaccination and Immunisation and *(b)* the National Screening Committee, as referred to on page 34 of his Department's document High Quality Care for All, Cm. 7432; for what reasons he does not plan to include people's access to screening and immunisation

services as a legal right in the NHS Constitution; for what reasons he does not plan the NHS to establish screening programmes as recommended by the National Institute for Health and Clinical Excellence; and if he will make a statement. [219368]

Dawn Primarolo: The draft NHS Constitution contains a pledge that the national health service will strive always to implement screening and vaccination programmes as recommended by the appropriate national advisory bodies, Joint Committee on Vaccination and Immunisation (JCVI) and the UK National Screening Committee (NSC). The draft NHS Constitution and the Government's proposals are open for public consultation until 17 October 2008. The details, including how to feed in views, may be found at www.dh.gov.uk/consultations.

The Department will continue to use a variety of tools to ensure that the NHS implements recommendations from the JCVI and the UK NSC.

When the Department introduces a new immunisation programme following a JCVI recommendation it is normally announced to the NHS through a letter from the Chief Medical Officer. Where appropriate, the Department provides guidance and additional funding to the NHS to implement the programme. In some cases, the requirement to offer a vaccine is imposed by or under legislation. 'Vital Signs', a key component of the NHS Operational Framework, prioritises immunisation. Strategic health authorities performance manage primary care trusts against their local plans. Vaccine uptake is monitored across the country to assist in this process.

When the Department introduces a new screening programme, following a UK NSC recommendation, the steps taken to ensure the NHS implements the recommendations vary depending on the individual screening programme. In the past, the Department has supported implementation by establishing UK NSC led national programme teams. The UK NSC will provide advice on implementation.

Clinical guidelines published by the National Institute for Health and Clinical Excellence are developmental standards for the NHS and the Government expect them to be fully implemented over time.

Xansa

Mr. Hoban: To ask the Secretary of State for Health what payments have been made by his Department to Xansa plc in each of the last five years. [215128]

Mr. Bradshaw: The following payments were made to Steria (formerly Xansa plc) in each of the last five years:

	£
2003-04	49,928.68
2004-05	81,057.39
2005-06	3,124,448.11
2006-07	620,878.54
2007-08	1,285,768.92

Young People: Social Services

Simon Hughes: To ask the Secretary of State for Health if he will place in the Library a copy of the peer review of the work undertaken by TRIBAL/Secta to develop the Young Adults' Personal Social Services formula. [220682]

Mr. Ivan Lewis *[holding answer 21 July 2008]:* No. The release of this information would breach the duty of confidence the Department has to the peer reviewer and to the authors of the relative needs formulae study for younger adults.

Written Answers to Questions

The following answers were received between Monday 1 September and Tuesday 9 September 2008

SCOTLAND

Departmental ICT

Mr. Philip Hammond: To ask the Secretary of State for Scotland what information technology projects initiated by his Department have been cancelled prior to completion in the last five years; and what the cost of each such project was to the public purse. [221706]

David Cairns: The Scotland Office shares an information technology system (SCOTS) with the Scottish Executive, which is responsible for the development, administration and maintenance of the system; consequently, the Office does not directly undertake IT projects.

Departmental Paper

David Simpson: To ask the Secretary of State for Scotland what percentage of paper used *(a)* for photocopying and *(b)* in printed publications by his Department was from recycled sources in each of the last two years. [220734]

David Cairns: The Scotland Office participates in a contract, let by the Scottish Executive, which allows for the purchase of photocopy paper from recycled sources. All areas with purchasing authority have been advised to procure recycled paper for the purpose of photocopying.

The Office obtains printed publications from a variety of sources. Figures are not held centrally of the percentage of recycled paper used in printed publications. However, the Office routinely requires that printers source paper that has a minimum of 75 per cent. recycled content.

Departmental Pay

Mr. Philip Hammond: To ask the Secretary of State for Scotland how much was claimed in reimbursable expenses by press officers in his Department in each of the last three financial years. [221187]

David Cairns: Direct payments to press officers in the last three financial years were.

	£
2005-06	2,738
2006-07	647
2007-08	1,006

Departmental Procurement

David Simpson: To ask the Secretary of State for Scotland what his Department's policy is on requesting discounts from its suppliers in return for swift payment of invoices. [220425]

David Cairns: In 2007-08, the Scotland Office paid 99.53 per cent. of its invoices within 30 days.

The Office has few directly negotiated contracts and endeavours to utilise existing contracts of other government departments whenever possible; the prices negotiated under these contracts take into account the obligation to make prompt payment.

Departmental Public Buildings

Mr. Hoban: To ask the Secretary of State for Scotland which organisations have received *(a)* free and *(b)* discounted room hire from his Department in each of the last five years; and what the commercial value of the discount was in each case. [221598]

David Cairns: The Scotland Office does not charge fees for the use of its premises for events held by external organisations. All events are held with the permission of the Secretary of State for Scotland. The external organisations meet all the catering and entertainment costs.

Departmental Public Participation

Mr. Hoban: To ask the Secretary of State for Scotland what *(a)* listening exercises and *(b)* public forums his Department has held in each of the last two years; what the (i) purpose and (ii) cost was in each case; and what the private contractor was and how much it was paid in each case. [221344]

David Cairns: The Scotland Office has undertaken two targeted and time-limited public consultations; one entitled "Scottish Parliament Elections May 2007: Ballot Paper Design", the other, "Sorting the Ballot". The Office also participated in a joint consultation with the Ministry of Justice and the Wales Office on "Fees for the Marked Register of Electors produced at UK Elections". The Office has undertaken no listening exercises or public forums in the last two years.

Hypothermia

Angus Robertson: To ask the Secretary of State for Scotland what his most recent estimate is of the number of deaths from hypothermia and related conditions which will occur in Scotland between October 2008 and April 2009. [223365]

David Cairns: The registration of deaths in Scotland is a matter for the General Register Office for Scotland, part of the devolved administration.

WALES

Departmental ICT

Mr. Philip Hammond: To ask the Secretary of State for Wales what information technology projects initiated by his Department have been cancelled prior to completion in the last five years; and what the cost of each such project was to the public purse. [221747]

Mr. Paul Murphy: None.

Departmental Official Hospitality

Mr. Philip Hammond: To ask the Secretary of State for Wales how much his Department spent on entertainment in each of the last five years. [219259]

Mr. Paul Murphy: My Department's records are held by financial year. Typically, since 2006-07, Wales Office will hold a St. David's day reception in London and summer and winter receptions in both London and Cardiff, for parliamentarians, Assembly Members and others prominent in Welsh affairs. No Cardiff receptions were held in 2003-04 and there was no summer reception in Cardiff in 2005. In each of the last five years, my Department has spent as follows:

	£
2003-04	4,565
2004-05	6,238
2005-06	8,528
2006-07	16,467
2007-08	12,052

Departmental Pay

Mr. Philip Hammond: To ask the Secretary of State for Wales how much was claimed in reimbursable expenses by press officers in his Department in each of the last three financial years. [221168]

Mr. Paul Murphy: Wales Office press officers are appointed to work in both London and Cardiff offices, and elsewhere with Ministers, as required. They will be reimbursed for travelling and subsistence expenses incurred in their duties. The sums paid in each of the last three years were as follows:

	£
2005-06	1,468
2006-07	1,931.44
2007-08	3,481.51

Additionally, depending where they are based on appointment, their terms and conditions may include civil service detached duty allowances to reflect costs incurred in living away from home.

Departmental Procurement

David Simpson: To ask the Secretary of State for Wales what his Department's policy is on requesting discounts from its suppliers in return for swift payment of invoices. [220421]

Mr. Paul Murphy: The Wales Office does not ask suppliers for discount, but aims to pay all invoices on time.

Departmental Public Buildings

Mr. Hoban: To ask the Secretary of State for Wales which organisations have received *(a)* free and *(b)* discounted room hire from his Department in each of the last five years; and what the commercial value of the discount was in each case. [221597]

Mr. Paul Murphy: In the last five years, the Wales Office has provided some very limited use of its premises to a number of organisations to host receptions. Records of this are not held centrally but include charitable and governmental bodies, such as the former Welsh Development Agency.

Departmental Public Participation

Mr. Hoban: To ask the Secretary of State for Wales (1) what *(a)* listening exercises and *(b)* public forums his Department has held in each of the last two years; what the (i) purpose and (ii) cost was in each case; and who the private contractor was and how much it was paid in each case; [221343]

(2) what *(a)* reviews and *(b)* public consultations have been initiated by his Department since 27 June 2007. [221361]

Mr. Paul Murphy: None.

Departmental Responsibilities

Mr. Hoban: To ask the Secretary of State for Wales which projects his Department has commissioned from *(a)* think tanks and *(b)* charities in each of the last two years for which figures are available; what the aim of each project was; which think tank or charity was commissioned; and how much was paid. [221624]

Mr. Paul Murphy: None.

Kurt Howard

Harry Cohen: To ask the Secretary of State for Wales if he will make a response to the jury's narrative verdict in the inquest of Mr. Kurt Howard. [220907]

Mr. Paul Murphy: Justice issues in Wales are not devolved and are matters for the Secretary of State for Justice. In the case of Mr. Kurt Howard's tragic death, reflecting on the narrative verdict, I am advised that since 2002 there have been significant developments in clinical guidance, training and audit in respect of the management of violence and aggression across the NHS in Wales. This includes developing strategies that focus on preventing situations that result in patients being subjected to physical interventions.

I understand that following the narrative verdict the ABM University NHS Trust will now be reviewing its original 2002 Action Plan to see if any additional work can be done to improve the service still further.

Olympic Games 2012

David Simpson: To ask the Secretary of State for Wales what discussions he has had with Ministerial colleagues in the last 12 months on securing benefits to Wales from the 2012 Olympic Games. [220552]

Mr. Paul Murphy: My hon. Friend, the Under-Secretary of State and I have had several discussions over the course of the last year with ministerial colleagues to highlight the world class facilities that Wales has to offer the 2012 Olympics.

Wales has already developed an international reputation as a nation capable of hosting, and winning, successful major sporting events. The Australian Paralympic Committee's has expressed its intention of coming to Wales and Wales has secured Olympic football.

The Olympic Delivery Authority and London Organising Committee of the Olympic Games and Paralympic Games expect to directly procure £6 billion worth of contracts. The Government and the Welsh Assembly Government have actively encouraged small and medium-sized enterprises to register and compete for these contracts through the CompeteFor programme.

LEADER OF THE HOUSE

House of Commons Members' Estimate Committee

Sir John Stanley: To ask the Leader of the House if she will place in the Library a copy of the full text setting out the responsibilities of the Accounting Officer for the House of Commons Members' Estimate. [223289]

Helen Goodman: The House of Commons: Members Resource Accounts 2007-08 (HC 975) contain a short statement of the Accounting Officer's responsibilities. This makes clear that the Accounting Officer is responsible for the House of Commons financial reporting arrangements and for safeguarding the assets, while Members are responsible for regularity and propriety of the claims submitted.

More detail on the duties of public sector Accounting Officers is set out in chapter 3 of HM Treasury's guidance document "Managing Public Money", which is available in the Library.

FOREIGN AND COMMONWEALTH OFFICE

Admiralty House

Robert Neill: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 17 December 2007, *Official Report*, column 1079W, on Admiralty House, whether the provision of the official ministerial residences in Admiralty House to Lord Malloch-Brown includes the supply of *(a)* linen and laundry services, *(b)* porters, *(c)* internal plants, *(d)* catering services, *(e)* telephones, *(f)* cable or satellite television and *(g)* internet access at (i) public expense or (ii) the resident's expense. [219041]

Phil Hope: I have been asked to reply.

No internal plants or linen and laundry service are provided to the flat. The charge paid by occupying Departments to the Cabinet Office includes the provision of in-hours porter services. Catering services can be provided by the Cabinet Office's facilities management provider on a re-charge basis. Neither the Cabinet Office nor the Foreign and Commonwealth Office is providing telephone lines, internet access or cable or satellite television.

PRIME MINISTER

Employment

Mr. Clappison: To ask the Prime Minister pursuant to the answer of 22 July 2008, *Official Report*, columns 981-2W, on employment, what change there has been in the number of *(a)* UK citizens and *(b)* foreign nationals in employment in the UK since 1997. [223150]

The Prime Minister: I have nothing further to add to the answer I gave the hon. Member on 22 July 2008, *Official Report*, columns 981-2W.

Written Statements

Norman Baker: To ask the Prime Minister what steps he took to ensure that his release of written ministerial statements on 22 July 2008 did not constitute a breach of section 9.3 of the Ministerial Code; and if he will make a statement on the application of the code to written ministerial statements issued on that date. [223258]

The Prime Minister: The information was published when it was ready.

DEFENCE

Afghanistan: Peacekeeping Operations

Mark Pritchard: To ask the Secretary of State for Defence how many UK nationals have been taken into custody following military operations as part of Op Herrick in Afghanistan. [223226]

Des Browne: As I stated in the answer I gave on 9 June 2008, *Official Report*, column 66W to the hon. Member for Chichester (Mr. Tyrie), the Ministry of Defence is undertaking a review of its detention records. I will write to the hon. Member when the review has completed.

Air Force: Training

Mr. Lidington: To ask the Secretary of State for Defence how many non-commissioned officers in the RAF have achieved the National Examining Board for Supervision and Management Award at diploma level since 1998 [217589]

Mr. Bob Ainsworth: I will write to the hon. Member with the information requested and place a copy of my letter in the Library of the House.

Substantive answer from Bob Ainsworth to Mr. Lidington:

I undertook to write to you in answer to your Parliamentary Question on 15 July 2008, (Official Report, column 299W) about the number of non-commissioned officers in the RAF who have achieved the National Examining Board for Supervision and Management Award at diploma level since 1988.

Since 2003, 5,273 RAF Non-Commissioned Officers have attained professional qualifications, equivalent to a diploma, in Leadership and Management, accredited to the National Examining Board prior to 2005 and the Institute of Leadership and Management (ILM) thereafter. Information prior to 2003 is not held centrally and could only be provided at disproportionate cost.

Notes:

RAF Halton offers ILM qualification, levels 2-5, broadly equivalent to BTEC First Diploma, BTEC National Diploma and Higher National Diplomas respectively.

RAF Halton transferred its accreditation scheme from the National Examining Board to the Institute of Leadership and Management (ILM) in November 2005.

The accreditation to ILM is broken down into 3 levels of qualification:

a. AMLC Level 5 Award in Management

b. IMLC Level 3 Award in First Line Management

c. JMLC Level 2 Certificate in Team Leading

I am placing a copy of my letter in the Library of the House.

Armed Forces: Cumbria

Mr. Jamie Reed: To ask the Secretary of State for Defence how many members of the armed forces recruited in the last five years from *(a)* Cumbria and *(b)* Copeland are on front-line duty in (i) Iraq and (ii) Afghanistan. [223200]

Mr. Bob Ainsworth: Information on recruitment to the armed forces by specific region is not held centrally. We could provide the figures for the number of personnel on front-line duty in Iraq or Afghanistan broken down by their UK Unitary Authority only at disproportionate cost.

Mr. Jamie Reed: To ask the Secretary of State for Defence how many personnel have been recruited into the armed forces from *(a)* Cumbria and *(b)* Copeland in the last five years. [223203]

Mr. Bob Ainsworth: Information on the UK residential location of personnel recruited to the armed forces is not held centrally. We could provide the figures for the number of personnel recruited from any specific Unitary Authority only at disproportionate cost.

Mr. Jamie Reed: To ask the Secretary of State for Defence what percentage of members of the armed forces recruited in the last five years from *(a)* Cumbria and *(b)* Copeland did not complete basic training. [223204]

Mr. Bob Ainsworth: Information on the UK residential location of personnel recruited to the armed forces is not held centrally. We could provide the figures for the number of personnel who were recruited from any specific unitary authority who did not complete basic training only at disproportionate cost.

Armed Forces: Training

Mark Pritchard: To ask the Secretary of State for Defence what the estimated total cost of the defence training review programme is. [223225]

Mr. Bob Ainsworth: The total cost for DTR Package 1 is currently estimated at around £12 billion, although this figure will continue to be subject to negotiations with Metrix and the ongoing review of assumptions related to the Project.

Package 2 of DTR has just commenced an Assessment Phase. During the course of this two year period, a variety of options will be investigated. This will then lead to the determination of the full cost of Package 2.

Armed Forces: Uniforms

Dr. Murrison: To ask the Secretary of State for Defence how frequently military uniforms are worn in his Department's main buildings; what guidance his Department issues on the matter; and if he will make a statement. [207281]

Mr. Bob Ainsworth: All service personnel are encouraged to wear uniform on duty and uniform is regularly worn in the Department's main building in line with this.

We do not instruct individuals to travel to and from work in uniform. That is a matter for personal choice and considered local threat assessment.

Armed Forces: Working Conditions

Mr. Jim Cunningham: To ask the Secretary of State for Defence what steps the Government has taken to improve the base conditions for personnel serving overseas. [216540]

Mr. Bob Ainsworth *[holding answer 9 July 2008]:* We are continually looking at ways in which we can improve conditions for UK service personnel deployed overseas.

I refer my hon. Friend to the answer I gave on 15 January 2008, *Official Report*, columns 1130-31W, which gives details of some of the welfare measures currently provided on operations. In the permanent joint operating bases (Cyprus, Gibraltar, British Falkland Islands and British Indian Ocean Territory) we seek, where practicable, for our personnel to have access to the same welfare provision as those who serve within the UK. Recent improvements include an increase in the Get You Home (Overseas) and Concessionary Travel allowances.

In terms of improvements to the bases themselves, we have undertaken substantial work over the last year to strengthen our defences and infrastructure. In Iraq, this ranges from building new facilities for our soldiers embedded with the Iraqi Army in Basra City to constructing individual overhead protection into each person's sleeping bay at Basra Air Station. In Afghanistan, this ranges from building new accommodation at Kandahar to improving conditions across our forward operating bases in Helmand Province.

Substantial investment has been made to improve the condition of both the single living and service family accommodation in Cyprus and Gibraltar, together with the construction of 12 new houses at Mount Pleasant in the Falkland Islands. Investment is also programmed for the ageing utilities infrastructure in both Cyprus and the Falkland Islands.

Army: Foreigners

Bob Russell: To ask the Secretary of State for Defence what his policy is on the recruitment of citizens of overseas countries to the Army; and whether that policy includes a maximum proportion of the Army consisting of recruits from overseas countries. [223290]

Mr. Bob Ainsworth: The Army welcomes recruits from Foreign and Commonwealth countries. Foreign in this case means British Overseas, British Overseas Territory

and Republic of Ireland citizens. The Army values the contribution such recruits make to the diversity and effectiveness of the service. The policy does not currently include a maximum proportion of recruits from these countries. We are, however, examining the implications of the rising levels of Foreign and Commonwealth citizens within the armed forces overall, not just the Army.

Army: West Indies

Bob Russell: To ask the Secretary of State for Defence how many people from the West Indies were recruited to the army in *(a)* each of the first eight months of 2008, *(b)* 2007, *(c)* 2006 and *(d)* 2005. [223299]

Mr. Bob Ainsworth: The following table shows how many people were recruited from Commonwealth countries within the Caribbean sea over the specified period.

	Bahamas	*Barbados*	*Dominica*	*Grenada*	*Jamaica*	*St. Lucia*	*St. Vincent*	*Trinidad*	*Total*
Total 2005	0	3	0	3	52	5	8	4	75
Total 2006	1	2	8	11	37	20	8	12	99
Total 2007	1	1	7	11	28	20	6	9	83

BAE Systems

Nick Harvey: To ask the Secretary of State for Defence how much BAE received from his Department in each year since 1998. [218401]

Mr. Bob Ainsworth: MOD payments made to BAE Systems plc as a holding company, for the latest five years where complete data are available, are detailed in the following table. All MOD contract payments data refer to extant contracts in the financial year in question. All expenditure is VAT exclusive and expressed at current prices, rounded to the nearest £10 million.

MOD payments to BAE Systems plc (at holding company level)

Financial year	*£ million*
2003-04	2,360
2004-05	2,450
2005-06	2,440
2006-07	2,730
2007-08[1]	3,320

[1] Please note figures for 2007-08 are provisional and subject to change. Final analysis will appear in "UK Defence Statistics 2008" due for publication on 24 September 2008.

The analysis is based on payments made by the MOD Financial Management Shared Service Centre and its predecessor which processes some 95 per cent. by value of all MOD payments to industry. It excludes, for example, payments made by the MOD Trading Funds and low-value local purchase transactions, for which records are not held centrally.

Data on a comparable basis relating to the years before 2003-04 are not available because we did not then collate spend with all divisions of the BAE Systems corporate structure and we could not retrospectively do so other than at disproportionate cost.

Departmental Marketing

Pete Wishart: To ask the Secretary of State for Defence what the cost was of *(a)* internet and website design and hosting, *(b)* print media design and *(c)* broadcast media of each of his Department's public information campaigns since 1997. [214724]

Derek Twigg: This information could be provided only at disproportionate cost.

Departmental Mass Media

Dr. Fox: To ask the Secretary of State for Defence how much media *(a)* training and *(b)* consultancy for Ministers and officials in his Department cost in each year since 1997. [216258]

Derek Twigg: This information is not held centrally and could be provided only at disproportionate cost.

Departmental Overtime

Mr. Hoban: To ask the Secretary of State for Defence how many hours of overtime were worked by staff in each pay grade in his Department in each of the last 12 months. [221245]

Derek Twigg: The amount of overtime worked by civil service staff in the period August 2007 to July 2008 is as follows:

	2007					2008						
000 hours	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Total
Band B1	1.1	0.8	0.8	0.9	1.0	1.0	1.1	0.9	1.2	1.3	1.3	1.6	13.4

These figures exclude trading fund agencies. (Figures include certain weekend premium payments relating to shift patterns as well as overtime, as these cannot readily be distinguished.)

Departmental Pay

Dr. Murrison: To ask the Secretary of State for Defence (1) what bonuses were paid to senior civil servants in his Department in 2007-08; [218510]

(2) what proportion of bonus payments to senior civil servants in 2007-08 was paid to officials in his Department; and if he will make a statement; [218511]

(3) how many senior civil servants in his Department are eligible for bonus payments in 2007-08; and how much is Department paid in bonus payments in that year. [218512]

Derek Twigg: We are not yet in a position to provide the information requested as this year's Senior Civil Service Pay Committee process for 2007-08 is not yet complete. I will write to the hon. Member when the information is available.

Substantive answer from Derek Twigg to Andrew Murrison:

I undertook to write to you in my answer to your question of 14 July 2008, *Official Report*, column 168W about bonuses paid to Senior Civil Servants.

It might be helpful if I begin by explaining the basis on which any MOD Civil Servant may be awarded a bonus. It is a key element of the Government's pay policy that a proportion of the pay of Civil Servants is performance related. MOD meets this requirement by awarding one off, non-consolidated and non-pensionable bonuses which very clearly reward performance in any given year rather than by increasing base pay which has a consolidated on-going effect even if performance later tails off. In

turning specifically to bonuses for Senior Civil Servants, the policy framework for awarding them to members of the Senior Civil Service is set by the Cabinet Office. MOD is responsible for implementing its own pay and bonus arrangements within this framework through an agreed pay strategy. Any bonus award is based on a judgment of how well an individual has performed against their peers and they are awarded to those individuals judged to have made the highest in-year contribution to MOD business objectives. There is no restriction on the nature of the contribution; the only requirement is that it benefits the Department or Defence more widely. Recommendations for bonuses—which are considered by moderation committees—must be linked to demonstrable evidence of delivery. Up to 70 per cent. of staff may receive a bonus and only 10 per cent. of those assessed as making the greatest contribution may receive a high category bonus.

Specifically, for reporting year 2007-08, the following amounts were available for Pay Bands 1, 2 and 3 and are shown under the permissible percentage of staff able to receive that level of award:

£

SCS pay band	*Related bonus awards*				
	High 10%	*Upper Medium 15%*	*Middle Medium 25%*	*Lower Medium 15%*	*Half Lower Medium 5%*
1	12,000	9,000	7,000	5,600	2,800
2	16,500	12,500	9,500	8,000	4,000
3	22,500	17,000	13,000	10,000	—

For 2007-08 there were 266 members of the SCS in Pay Bands 1-3 who were considered for a non-consolidated bonus. Money for these awards is taken from the allowable 8.6 per cent. of the MOD'S SCS pay pot, as recommended by the Senior Salaries Review Body in their Thirtieth Report published on 17 June 2008.

Of those considered for an award, 187 individuals (i.e. 70 per cent.) were assessed by our pay committee process as meeting or exceeding the eligibility criteria and were paid something from the range of awards shown in the table. No-one was awarded the High award at Pay Band 3. Payments totalled £1.5 million which is within our allowable ceiling, and were confined to the permissible percentage spread detailed in the table.

Pay and reward for Pay Band 4/Permanent Secretaries is considered by the Permanent Secretaries' Remuneration Committee and is subject to the same rules and regulations governed by the Senior Salaries Review Body and the Cabinet Office as the rest of the SCS. The range of awards paid to them for performance in 2007-08—expressed as a percentage of individual base pay—was 1.2 per cent.—12.8 per cent. and which was within the allowable ceiling. The MOD has two permanent SCS Pay Band 4s both of whom received a bonus.

The Department also employs a number of members of the SCS on Fixed Term Appointments. These individuals are recruited to fill specific roles where the Department does not already have the skills in-house. They are employed on individual contracts which allow them a base salary and the opportunity to earn performance related bonuses specifically linked to business objectives. They are expected to deliver substantial benefits to the Department both in terms of outputs, delivering change programmes and skills transfer. As with the rest of the SCS the bonuses paid to those on Fixed Term Appointments are non-consolidated and non-pensionable. To date, for 2007-08, not all Fixed Term appointees have been assessed for performance awards. I will write further with details of these awards when the assessment exercise is complete.

Dr. Murrison: To ask the Secretary of State for Defence what the salary of *(a)* a private soldier and *(b)* the Permanent Under-Secretary of his Department (i) was in each year since 1997 and (ii) will be in 2009-10. [218513]

Derek Twigg: Pay rates for the Permanent Under-Secretary and a private soldier are provided as follows:

£

From 1 April	*Private soldier pay range*		*MOD Permanent Under-Secretary salary in £5,000 bands as published in annual SSRB report appendix*	
	Minimum	*Maximum*	*From*	*To*
2007	15,677	24,328	165,000	169,999
2006	14,323	23,535	160,000	164,999
2005	13,866	22,849	155,000	[1]159,999
2004	13,461	22,185	160,000	164,999
2003	13,045	21,638	155,000	159,999
2002	12,578	20,911	145,000	149,999
2001	12,071	20,166	135,000	149,999
2000	11,640	18,374	125,000	129,999
1999	11,111	17,553	120,000	124,999
1998	10,720	16,947	115,000	119,999
1997	10,282	16,272	100,000	104,999

[1] This band was reported in the Senior Salaries Review Body's report as MOD PUS' salary but it should be noted that it reflects the salary of the then new PUS appointed in November 2005. The retiring MOD PUS' salary was in band £165,000—£169,999.

Pay rates for UK service personnel are recommended by the independent Armed Forces Pay Review Body (AFPRB). We do not yet know pay rates for 2009-10 for either the Permanent Under-Secretary or a private soldier.

Lasers

Mark Pritchard: To ask the Secretary of State for Defence if he will make it his policy to ensure the development of ground-based laser defence systems as part of the UK's counter-mortar and counter-rocket capabilities. [223224]

Des Browne: I can confirm that the Ministry of Defence continues to assess the potential of a range of technologies, including laser, to provide counter-indirect fire capability.

Military Aircraft

Mr. Hancock: To ask the Secretary of State for Defence for what reason the out-of-service date of the Tucano T1 basic training aircraft has been deferred from April 2010 to March 2014. [220531]

Mr. Bob Ainsworth: The out of service date (OSD) for Tucano has been changed to 2014 in order to match the timelines for the replacement programme which is part of the UK Military Flying Training System (UK MFTS). The aircraft is fully capable of providing capability up to and beyond the revised OSD.

RAF Halton

Mr. Lidington: To ask the Secretary of State for Defence, how many armed forces personnel have received recruit training at RAF Halton in each year since 1998. [217583]

Mr. Bob Ainsworth: The following table gives the number of armed forces personnel who have received basic trade training for supply, catering and administration roles at RAF Halton. Information is only available from financial year 2003-04.

Financial Year	Recruit training
2003-04	3,271
2004-05	1,556
2005-06	957
2006-07	1,075
2007-08	2,149

Substantive answer from Bob Ainsworth to David Lidington:

I answered a number of Parliamentary Questions you asked about training at RAF Halton on 14 July 2008 (Official Report, column 176W), 15 July 2008 (Official Report, column 312-3W) and 16 July 2008 (Official Report, column 450-1W). At that time information was not available prior to 2003-04 due to technical problems with a computer database. These technical problems have now been resolved and I am able to provide data for some of the missing years.

For ease I have listed below each question and answer with the additional information in italics.

Question Number 217590: how many armed forces personnel have received training from the Specialist Training School at RAF Halton for each year since 1998.

The table below gives the number of courses delivered by the Specialist Training School (STS) at RAF Halton. I regret that data prior to Financial Year 2000-01 are not available.

Financial Year	Armed Forces Personnel
2000-01	*4,218*
2001-02	*4,461*
2002-03	*4,053*
2003-04	3,687
2004-05	4,328
2005-06	4,841
2006-07	4,170
2007-08	3,616

Question Number 217584: how many armed forces personnel have received basic trade training at RAF Halton for (a) supply roles, (b) catering and (c) administration roles in each year since 1998.

The table below gives the number of armed forces personnel who have received basic trade training for supply, catering and administration roles at RAF Halton since 1998.

	Trade		
Financial Year	Catering	Administration	Supply
1998-99	*41*	*164*	*144*
1999-2000	*57*	*122*	*243*
2000-01	*71*	*56*	*166*
2001-02	*128*	*125*	*170*
2002-03	*193*	*147*	*217*
2003-04	201	120	159
2004-05	188	65	134
2005-06	51	—	50
2006-07	61	—	40
2007-08	44	—	45

Question Number 217583: how many armed forces personnel have received recruit training at RAF Halton in each year since 1998.

The table below gives the number of armed forces personnel who have received recruit training at RAF Halton since 1998.

Financial Year	Recruit Training
1998-99	*3,342*
1999-2000	*3,160*
2000-01	*2,884*
2001-02	*3,065*
2002-03	*3,597*
2003-04	3,271
2004-05	1,556
2005-06	957
2006-07	1,075
2007-08	2,149

Note:
Training numbers for financial year 2007-08 includes figures for the Royal Auxiliary Air Force.

Question Number 217585: how many armed forces officers have received initial specialist officer training for (a) caterers and (b) administrators at RAF Halton in each year since 1998.

The table below gives the number of armed forces personnel who have received initial specialist officer training at RAF Halton since 1998 in the categories requested.

	Officer Specialisation	
Financial Year	Catering	Administration
1998-99	*4*	*91*
1999-2000	*1*	*75*
2000-01	*9*	*38*
2001-02	*1*	*49*
2002-03	*0*	*45*
2003-04	8	75
2004-05	3	46
2005-06	6	19
2006-07	0	19
2007-08	0	22

Question Number 217588: how many non-commissioned officers have taken the (a) junior management and leadership course, (b) intermediate management and leadership course and (c) advanced management and leadership course at RAF Halton in each year since 1998.

The following table gives the number of non-commissioned officers who have taken courses at RAF Halton in the categories requested, since 1998.

Course	Financial year	Number of officers
Junior management and leadership course (Junior—on promotion to corporal)		
	1998-99	*1,179*
	1999-2000	*1,111*
	2000-01	*1,362*
	2001-02	*1,496*
	2002-03	*1,474*
	2003-04	1,565
	2004-05	2,035

I am placing a copy of my letter in the Library of the House.

Mr. Lidington: To ask the Secretary of State for Defence how many non-commissioned officers have taken the *(a)* junior management and leadership course, *(b)* intermediate management and leadership course and *(c)* advanced management and leadership course at RAF Halton in each year since 1998. [217588]

Mr. Bob Ainsworth: The following table gives the number of non-commissioned officers who have taken courses at RAF Halton in the areas requested, from financial year 2003-04 to present.

Course	Financial year	Number of officers
Junior management and leadership course (Junior - on promotion to corporal)	2003-04	1,565
	2004-05	2,035
	2005-06	1,201
	2006-07	1,210
	2007-08	1,182
Intermediate management and leadership course (Intermediate—on promotion to sergeant)	2003-04	974
	2004-05	1,521
	2005-06	903

Course	Financial year	Number of officers
	2006-07	812
	2007-08	875
Advanced management and leadership course (Advanced—on promotion to flight sergeant)	2003-04	273
	2004-05	475
	2005-06	279
	2006-07	256
	2007-08	253

Substantive answer from Bob Ainsworth to David Lidington:

I answered a number of Parliamentary Questions you asked about training at RAF Halton on 14 July 2008 (Official Report, column 176W), 15 July 2008 (Official Report, column 312-3W) and 16 July 2008 (Official Report, column 450-1W). At that time information was not available prior to 2003-04 due to technical problems with a computer database. These technical problems have now been resolved and I am able to provide data for some of the missing years.

For ease I have listed below each question and answer with the additional information in bold.

Question Number 217590: how many armed forces personnel have received training from the Specialist Training School at RAF Halton for each year since 1998.

The table below gives the number of courses delivered by the Specialist Training School (STS) at RAF Halton. I regret that data prior to Financial Year 2000-01 are not available.

Financial year	Armed forces personnel
2000-01	4,218
2001-02	4,461
2002-03	4,053
2003-04	3,687
2004-05	4,328
2005-06	4,841
2006-07	4,170
2007-06	3,616

Question Number 217584: how many armed forces personnel have received basic trade training at RAF Halton for (a) supply roles, (b) catering and (c) administration roles in each year since 1998.

The table below gives the number of armed forces personnel who have received basic trade training for supply, catering and administration roles at RAF Halton since 1998.

	Trade		
Financial year	Catering	Administration	Supply
1998-99	41	164	144
1999-2000	57	122	243
2000-01	71	56	166
2001-02	128	125	170
2002-03	193	147	217
2003-04	201	120	159
2004-05	188	65	134
2005-06	51	—	50
2006-07	61	—	40
2007-08	44	—	45

Question Number 217583: how many armed forces personnel have received recruit training at RAF Halton in each year since 1998.

The table below gives the number of armed forces personnel who have received recruit training at RAF Halton since 1998.

Financial year	Recruit training
1998-99	3,342
1999-2000	3,160
2000-01	2,884
2001-02	3,065
2002-03	3,597
2003-04	3,271
2004-05	1,556
2005-06	957
2006-07	1,075
2007-08	2,149

Note:
Training numbers for financial year 2007-08 includes figures for the Royal Auxiliary Air Force.

Question Number 217585: how many armed forces officers have received initial specialist officer training for (a) caterers and (b) administrators at RAF Halton in each year since 1998.

The table below gives the number of armed forces personnel who have received initial specialist officer training at RAF Halton since 1998 in the categories requested.

	Officer specialisation	
Financial year	Catering	Administration
1998-99	4	91
1999-2000	1	75
2000-01	9	38
2001-02	1	49
2002-03	0	45
2003-04	8	75
2004-05	3	46
2005-06	6	19
2006-07	0	19
2007-08	0	22

Question Number 217588: how many non-commissioned officers have taken the (a) junior management and leadership course, (b) intermediate management and leadership course and (c) advanced management and leadership course at RAF Halton in each year since 1998.

The following table gives the number of non-commissioned officers who have taken courses at RAF Halton in the categories requested, since 1998.

Course	Financial year	Number of officers
Junior management and leadership course (Junior—on promotion to corporal)		
	1998-99	1,179
	1999-2000	1,111
	2000-01	1,362
	2001-02	1,496
	2002-03	1,474
	2003-04	1,565
	2004-05	2,035
	2005-06	1,201
	2006-07	1,210
	2006-07	1,210
	2007-08	1,182
Intermediate management and leadership course (Intermediate—on promotion to sergeant)		
	1998-99	971
	1999-2000	802

Course	Financial year	Number of officers
	2000-01	888
	2001-02	898
	2002-03	515
	2003-04	974
	2004-05	1,521
	2005-06	903
	2006-07	812
	2007-08	875
Advanced management and leadership course (Advanced—on promotion to flight sergeant)		
	1998-99[1]	—
	1999-2000	121
	2000-01	239
	2001-02	237
	2002-03	251
	2003-04	273
	2004-05	475
	2005-06	279
	2006-07	256
	2007-08	253

[1] Course did not exist.

I am placing a copy of my letter in the Library of the House.

Mr. Lidington: To ask the Secretary of State for Defence how many armed forces personnel have received training from the Specialist Training School at RAF Halton in each year since 1998. [217590]

Mr. Bob Ainsworth: The following table gives the number of the courses delivered by the Specialist Training School (STS) at RAF Halton. Information is only available from financial year 2003-04.

Financial year	Armed forces personnel
2003-04	3,687
2004-05	4,328
2005-06	4,841
2006-07	4,170
2007-08	3,616

The figures exclude the 'road shows' training delivered by STS staff away from RAF Halton, as no nominal rolls are taken at these events.

Substantive answer from Bob Ainsworth to David Lidington:

I answered a number of Parliamentary Questions you asked about training at RAF Halton on 14 July 2008 (Official Report, column 176W), 15 July 2008 (Official Report, column 312-3W) and 16 July 2008 (Official Report, column 450-1W). At that time information was not available prior to 2003-04 due to technical problems with a computer database. These technical problems have now been resolved and I am able to provide data for some of the missing years.

For ease I have listed below each question and answer with the additional information in bold.

[1] Course did not exist.

I am placing a copy of my letter in the Library of the House.

Mr. Lidington: To ask the Secretary of State for Defence how many *(a)* Army, *(b)* Royal Navy and *(c)* RAF personnel have received training at RAF Halton in each year since 1998. [217594]

Mr. Bob Ainsworth: I will write to the hon. Member with the information requested and place a copy of my letter in the Library of the House.

Substantive answer from Bob Ainsworth to Mr. Lidington:

I undertook to write to you in answer to your Parliamentary Question on 15 July 2008, (Official Report, column 314W) about training at RAF Halton.

This information relating to the number of Service Personnel who received any training at RAF Halton in each year since 2000 is set out below.

Information prior to Financial Year 2000-01 is not held centrally and could only be provided at disproportionate cost.

	Royal Navy	Army	RAF	Tri-service
2000-01	139	847	10,918	—
2001-02	100	657	10,818	—
2002-03	94	744	10,848	—
2003-04	101	749	10,893	—
2004-05	292	1,437	10,970	—
2005-06	232	1,173	7,990	—
2006-07	184	813	5,934	1,994
2007-08	151	863	6,813	2,604

Notes:
The downturn in RAF numbers receiving training from 2004-05 onwards was due to drawdown measures taken by the RAF to reach its reduced target strength of 41,000 and was part of the Government's spending review.
For some training courses it has not been possible to differentiate between the actual numbers attending for each service; in this case the total number appears as tri-service.

In addition to the data supplied above, Defence Dental Services (DDS) training at RAF Halton is shown separately in the table below. Data for DDS prior to 2003 are not available and could only be provided at disproportionate cost.

	Royal Navy	Army	RAF
2003-04	21	77	21
2004-05	32	98	65
2005-06	24	79	28
2006-07	32	76	27
2007-08	30	95	28

I am placing a copy of my letter in the Library of the House.

Taliban

Mr. Ellwood: To ask the Secretary of State for Defence what estimate he has made of the number of members of the Taliban who were *(a)* killed and *(b)* captured in each of the last 24 months. [220403]

Des Browne: Regarding the number of Taliban killed in Afghanistan, I have nothing to add to the answer I gave on 6 May 2008, *Official Report*, column 832W, to the hon. Member for Romford (Andrew Rosindell).

As regards detention, I refer the hon. Member to my answer on 9 June 2008, *Official Report*, column 66W, to the hon. Member for Chichester (Mr. Tyrie).

The Ministry of Defence is undertaking a review of its detention records and I will write to the hon. Member when the review has been completed.

DUCHY OF LANCASTER

10 Downing Street: Utilities

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster how much was spent on *(a)* heating, *(b)* electricity and *(c)* water bills for (i) No. 10 Downing Street and (ii) Chequers in each of the last five years. [221193]

Phil Hope: The information requested for No. 10 Downing street is not held centrally and to obtain it would incur disproportionate costs.

Chequers was established under the Chequers Estate Acts 1917 and 1958 and is administered by independent trustees.

Charities: Closures

Mrs. Maria Miller: To ask the Chancellor of the Duchy of Lancaster how many charities closed down in each year since 1997. [223270]

Phil Hope: The information requested falls within the responsibility of the Charity Commission. I have asked the Chief Executive of the Charity Commission to reply.

Letter from Andrew Hind, dated 8 September 2008:

As Chief Executive of the Charity Commission, it falls to me to answer your question (223270) regarding how many charities have closed down, in each year, since 1997.

I attach below a table which sets out the number of charities added and removed from the register, in each year, since 1997. Charities are usually removed from the register because they have either ceased to operate or merged with other charities.

The table below does not, necessarily, represent all charities which have closed down but only those who, by law, were required to register with the Commission. The threshold for registration was an annual income of £1,000 until April of this year when that threshold was raised to £5,000.

	Registrations	*Removals*
1997	9,310	6,671
1998	6,373	4,400
1999	5,840	4,358
2000	5,669	9,987
2001	5,926	5,757
2002	5,490	4,621
2003	6,521	4,787
2004	6,609	5,630
2005	5,451	5,084
2006	4,949	4,096
2007	4,973	4,920

Charities: Finance

Mrs. Maria Miller: To ask the Chancellor of the Duchy of Lancaster what estimate he has made of the funding received by all charities from the Government in each year since 1997. [223271]

Phil Hope: Both central and local government spend significant sums of money on charities and other third sector organisations every year. The following amounts were received by the sector.

	Amounts received by sector (£ million)
1997-98	5,550
1998-99	6,080
1999-2000	6,620
2000-01	8,096
2001-02	8,504
2002-03	8,835
2003-04	9,165
2004-05	9,541
2005-06	11,050

Departmental Pay

Mr. Philip Hammond: To ask the Chancellor of the Duchy of Lancaster how much was claimed in reimbursable expenses by press officers in his Department in each of the last three financial years. [221170]

Phil Hope: Information on how much the Cabinet Office has spent on reimbursable expenses by press officers in each of the last three financial years is not separately recorded on the Department's accounting system and is therefore not available.

Departmental Postal Services

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster what steps the *(a)* Cabinet Office and *(b)* Prime Minister's Office have taken to monitor the cost of its mail services in the last 12 months. [221475]

Phil Hope: The Prime Minister's Office forms an integral part of the Cabinet Office estate. Mail services are predominantly provided by the Cabinet Office's facilities management providers who decide the most economical method of sending mail externally, unless instructed by the customer to use a specific service such as recorded or special delivery.

Departmental Property

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster which organisations have received *(a)* free and *(b)* discounted room hire from (i) his Department and (ii) its agencies in each of the last five years; and what the commercial value of the discount was in each case. [221577]

Phil Hope: This information is not held centrally and can be obtained only at disproportionate cost.

Departmental Transport

Sandra Gidley: To ask the Chancellor of the Duchy of Lancaster how many Ministerial *(a)* cars and *(b)* bicycles there are; and at what cost they were provided in each of the last three years in each category, broken down by department. [198175]

Phil Hope: I refer the hon. Member to the answer given to the hon. Member for Na h-Eileanan an Iar (Mr. MacNeil) on 30 June 2008, *Official Report*, column 576-78W and to the information published by the Secretary of State for Transport on 22 July 2008, *Official Report*, columns 116-18WS.

Population

Mr. Clappison: To ask the Chancellor of the Duchy of Lancaster what the Office for National Statistics' (ONS) most recent projections of population densities in *(a)* the United Kingdom, *(b)* England, *(c)* Scotland, *(d)* Wales and *(e)* Northern Ireland in (i) 2031, (ii) 2056 and (iii) the most distant date for which figures are available are; what population density in each such area is in 2008; and what recent comparison the ONS has made of population density in the UK and other EU member states. [223149]

Phil Hope: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated 10 September 2008:

As National Statistician, I have been asked to reply to your question asking what the most recent projections of population densities in (a) the UK, (b) England, (c) Scotland, (d) Wales and (e) Northern Ireland are for (i) 2031, (ii) 2056 and (iii) the most distant date for which figures are available; what population density in each such area is in 2008; and what recent comparison the ONS has made of population density in the UK and other member states (223149).

Population densities for the UK and constituent countries for 2008 are provided in table A. The population densities for the other years requested have not been updated since my previous responses to PQs 169303 (3 December 2007), 177466 (18 February 2008), 205787 (19 May 2008) and 207695 (2 June 2008).

Table A: Projected population density of the UK and constituent countries, 2008

	Persons/sq km 2008
United Kingdom	253
England	395
Wales	144
Scotland	66
Northern Ireland	131

Source:
2006-based national projections, ONS

There has been no recent update of the population densities of the EU member states. Therefore the most recent such figures are as calculated by the UN and provided in my reply to the PQ dated 3 December 2007 mentioned above (169303).

As previously advised in my replies to the earlier PQs from you, the underlying assumptions for the projections are demographic trend based and should not be seen as predictions.

INTERNATIONAL DEVELOPMENT

Africa: Conflict Prevention

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what the cost is of programmes operated under the Africa and Global Conflict Prevention Pool in 2008-09; what the programmes are and which countries they operate in; and how many of his Department's staff are working on the Africa and Global Conflict Prevention Pool. [220381]

Mr. Thomas: The Africa and Global Conflict Prevention Pools merged in April 2008. The combined Conflict Prevention Pool (CPP) has a budget of £112 million for 2008-09. There are eight programmes aimed at reducing the incidence and impact of violent conflict around the world. Six regional programmes cover 49 countries in Africa (£62.5 million), South Asia (£8.4 million), the Americas (£1.75 million), the Balkans (£7.85 million), the Middle East and North Africa (£4.9 million) and Russia and the Commonwealth of Independent States (£4.5 million). There are also two thematic programmes on security and small arms control (£9.5 million) and building the capacity of the international system to respond to conflict (£7.1 million).

The CPP is controlled jointly by the Department for International Development (DFID), the Foreign and Commonwealth Office (FCO) and the Ministry of Defence (MOD). Each Department contributes staff, although most individuals spend only a small fraction of their time on pool business. The total number of UK-based and locally engaged staff who spend any proportion of their time working on CPP is 455, of which only 23 work full time as conflict advisers, programme managers and the secretariat. Staff numbers by Department are 96 for DFID, 178 for FCO, and 181 for MOD.

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development how much funding his Department has allocated to the Africa Conflict Prevention Pool in 2007-08; and what programmes that funding will support. [220417]

Gillian Merron: In 2007-08 £64.5 million was allocated to the Africa Conflict Prevention Pool (ACPP). The ACPP overall approach to conflict prevention in Africa is focused on three broad objectives:

To support the building of African conflict management capacity.

To assist with conflict prevention, management and post-conflict reconstruction in a number of priority sub-regions and country conflicts.

To support pan-African initiatives for security sector reform, small arms control and to address the economic and financial causes of conflict.

The following table shows a breakdown of sector of activities supported in 2007-08 and how much of the budget was spent on each:

Sector of activity	*Percentage of Spend*
Reform of the Security Sector, including reform of the army, police and justice sector	37
Peace Support Operations Training for African troop contributing countries participating in peacekeeping operations	22
Peace Building—including support to grassroots peace initiatives, conflict prevention, and support to civil society	22
Disarmament Demobilisation and Reintegration of ex-combatants	12
Control and disposal of Small Arms and Light Weapons	3
Support to Peace Negotiations	2
Peace media: radio, television and print, outreach, awareness raising	1
Development of the African Union's Africa Peace Support Architecture	1
Conflict Analysis	<1

Ninety four projects were implemented by ACPP in 2007-08. Detailed information will be available in the forthcoming annual report which will be published in August 2008. Highlights from ACPP work in 2007/8 include:

Supporting Kofi Annan to lead African mediation efforts to end the post-election violence in Kenya following the disputed presidential elections of December 2007.

Training some 12,000 African peacekeepers since 2004-05.

Enabling the demobilisation of almost 300,000 combatants in the past five years in seven Central African countries[1] through support to the World Bank led Multi-country Demobilisation and Reintegration Programme.

Assisting the peace processes in Northern Uganda, Eastern DRC and Burundi which have helped lead to significant reduction in conflict in the region.

Fighting against sexual violence by working with the Rwandan armed forces to provide channels for reporting and acting on incidents.

Ensuring that rural voters had access to independent information on electoral choices in the March 2008 parliamentary and presidential elections in Zimbabwe.

Supporting the South African National Defence Force to open a peace mission training centre, providing a facility for both civilian and military personnel deploying on peace support missions.

Providing professional advice to the Sudan People's Liberation Army to enable transformation from a guerrilla army into a professional, disciplined armed force operating under democratic civil control.

Successfully mounting a highly visible 'Red Band' campaign against electoral violence around elections in Nigeria in April 2007.

Helping to ensure a safe and peaceful electoral process in Sierra Leone in 2007 by supporting the armed forces in remaining apolitical throughout the election process.

[1] Angola, Burundi, CAR, DRC, Republic of Congo, Rwanda and Uganda

Burma: Politics and Government

John Bercow: To ask the Secretary of State for International Development what response his Department has made to the humanitarian situation in Chin state, western Burma; what recent reports he has received on the *(a)* number of villages facing food shortages and *(b)* the number and proportion of the population of Chin state in need of food aid; and if he will make a statement. [220914]

Mr. Malik: The Department for International Development (DFID) is contributing £4 million over four years to the UN Development Programme (UNDP) Human Development Initiative, which is meeting needs across Burma, including in Chin State. Other projects underway in the State to address food security and rural livelihoods include a World Food Programme (WFP) food-for-work programme, which has been expanded in response to the rat infestation, and EC-funded NGO agriculture projects to work with communities to improve food security.

DFID has also kept in close touch with UNDP and WFP, as well as with non- governmental organisations including the Chin Human Rights Organisation and the Women's League of Chinland, about food shortages in Chin State brought about by this year's rat infestation. In July, a staff member from DFID's office in New Delhi visited Mizoram State, met Chin groups and other non-governmental organisations and collected information on needs in Chin State. WFP, UNDP and international and national NGOs working in the State are now urgently developing a response plan to provide affected communities with emergency rice supplies and agricultural inputs. DFID is ready to support such a plan when the details are finalised.

The remoteness of many of the affected areas makes it difficult to make an accurate estimate of the number of villages and people suffering food shortages because of the rat infestation. The Chin Human Rights Organisation has estimated that as many as 200 villages and 100,000 people (20 per cent. of the State's population) have been seriously affected by the crisis. On the basis of field assessments (including on foot to areas along the Indian border) in Paletwa, Matubi and Tanhtlang townships, UNDP has identified 80 villages housing around 27,500 people (6 per cent. of the total population of the State) that have been severely or partially affected by the rodent infestation. There is a risk that rodent infestation will spread further.

Children: Employment

Mrs. James: To ask the Secretary of State for International Development what recent discussions he has had with the United Nations in relation to child labour and children working in *(a)* heavy industry, *(b)* aluminium factories, *(c)* mining and *(d)* textile and clothing manufacturing. [213596]

Mr. Malik: The Secretary of State has not had direct discussions with the United Nations on the subject of child labour. The Department for International Development (DFID) relies on, and provides support to, the International Labour Organisation (ILO) within the UN system to help countries implement core labour standards that include the elimination of child labour. DFID is also working with the ILO and civil society organisations to promote efforts to remove children from all hazardous labour. DFID has a £20 million partnership framework for 2006-2009 with the ILO.

DFID has no direct involvement with issues of child labour in heavy industries *(a)* or aluminium factories *(b)*. With regard to mining *(c)*, DFID supports and currently chairs the Communities and Small scale Mining (CASM) initiative. This is a network that includes mining communities and artisanal miners themselves as well as international experts. The network is based in the World Bank HQ in Washington DC and is active in Africa, Asia-Pacific, and South and Central America. As one of the four central themes of its work, Communities and Small-scale Mining (CASM) includes a focus on children working in dangerous and hazardous conditions in small-scale mining. CASM fully recognizes the extent and nature of child labour and is committed to its elimination from the mining industry.

In textile and clothing manufacturing (d), DFID is supporting the Multi Fibre Arrangement Forum which brings together private sector (multi-national corporations and domestic industries) trade unions and national governments to support developing countries to adapt and benefit from changes in global trading regimes, developing productivity and responsible competitiveness, sustaining and promoting decent work, which includes not using child labour.

Democratic Republic of Congo: Overseas Aid

John Battle: To ask the Secretary of State for International Development what *(a)* type and *(b)* level of support is being given to the Democratic Republic of Congo by his Department to support the *(a)* humanitarian action plan, *(b)* the 2007 International Committee of the Red Cross national appeal and *(c)* non-governmental organisation programmes in 2008-09; and if he will make a statement. [220758]

Gillian Merron: The Department for International Development (DFID) is one of the largest humanitarian donors to the Democratic Republic of Congo with over £37.5 million provided in support of the 2007 Humanitarian Action Plan (approximately 10 per cent. of the £361 million ($686 million) Plan). DFID provided £30 million of this funding through the Humanitarian Pooled Fund, managed by the United Nations (UN), which funds priority humanitarian interventions by UN agencies and Non-Governmental Organisations (NGOs). In 2007, approximately 50 per cent. of the Pooled Fund was channelled directly or indirectly through NGOs. Our remaining funding under the Humanitarian Action Plan (£7.5 million) was provided as direct grants of £2 million to the 2007 International Committee of the Red Cross appeal and £5.5 million to NGOs.

In 2007, DFID provided £13.7 million of support through grants to NGO programmes working in non-humanitarian sectors in DRC. In total DFID provided £19.2 million of direct grants to NGOs in 2007.

Summary:

	Type	*Level of funding (2007) (£ million)*
Humanitarian Action Plan (HAP)	Contribution to UN Pooled Fund	30
	Direct grants to NGOs	5.5
	Direct grant to ICRC	2
DFID funding to NGOs working in non-humanitarian sectors	Direct grants for governance, education, health, HIV/AIDS and peace building	13.7

[1] of which 50 per cent. went directly or indirectly to NGOs

Departmental Buildings

Pete Wishart: To ask the Secretary of State for International Development on which buildings occupied by his Department's agencies and non-departmental public bodies the lease will be due for renewal in the next four years. [214692]

Mr. Douglas Alexander: None.

Departmental Expert Groups

Angus Robertson: To ask the Secretary of State for International Development what expert groups his Department set up in each year since 1999. [213268]

Mr. Malik: Details of formal, standing bodies set up by Government to provide independent, expert advice to Departments and Ministers are published annually by the Cabinet Office. These bodies, known as advisory non-departmental public bodies (NDPBs), are listed in the annual "Public Bodies" publication. "Public Bodies" also contains some details on short-term advisory groups and task forces. Copies of "Public Bodies" dating back to 1999 can be viewed and downloaded from:

http://www.civilservice.gov.uk/about/public/bodies.asp

Copies are also available in the Library for the reference of Members.

Departmental Overtime

Mr. Hoban: To ask the Secretary of State for International Development how many hours of overtime were worked by staff in each pay grade in his Department in each of the last 12 months. [221243]

Gillian Merron: The number of hours of overtime worked by the Department for International Development (DFID) staff in each pay grade in each of the last 12 months for which information is available is detailed in the following table.

	2007					
Grade	*July*	*August*	*September*	*October*	*November*	*December*
A1	31.66	69.66	57.34	20.98	154.38	40.25

Total	1,393.19	1,379.76	2,731.74	1,450.98	1,821.6	1,087.61

Departmental Paper

David Simpson: To ask the Secretary of State for International Development what percentage of paper used *(a)* for photocopying and *(b)* in printed publications by his Department was from recycled sources in each of the last two years. [220723]

Gillian Merron: All paper used for photocopying in the last two years has 100 per cent. recycled content.

The Department for International Development (DFID) does not hold the data regarding paper for printed publications centrally, and due to disproportionate cost we cannot supply this information. However, DFID routinely requires that the designers and printers under contract to produce DFID publications source paper that has a minimum of 75 per cent. recycled content.

Departmental Procurement

David Simpson: To ask the Secretary of State for International Development what his Department's policy is on requesting discounts from its suppliers in return for swift payment of invoices. [220431]

Mr. Malik: The Department for International Development (DFID) does not request discounts from suppliers in return for swift payment of invoices. We do however use other forms of payment mechanism to encourage effective delivery, such as milestone payments for clearly defined deliverables.

In line with the Late Payment of Commercial Debts Act and Office of Government Commerce (OGC) recommendations, DFID's standard terms and conditions reflect the requirement to pay suppliers within 30 calendar days. This is on the basis that work has been carried out to our satisfaction within the terms of the contract. We are also bound by HM Treasury (HMT) accounting rules in relation to advance payments. This option requires HMT approval and would only apply in exceptional circumstances where value for money could be demonstrated.

Departmental Public Participation

Mr. Hoban: To ask the Secretary of State for International Development what *(a)* listening exercises and *(b)* public forums his Department has held in each of the last two years; what the (i) purpose and (ii) cost was in each case; and who the private contractor was and how much it was paid in each case. [221354]

Gillian Merron: The information requested is not held centrally and would incur disproportionate costs to obtain.

Mr. Hoban: To ask the Secretary of State for International Development what *(a)* reviews and *(b)* public consultations have been initiated by his Department since 27 June 2007. [221362]

Gillian Merron: Since 27 June 2007 the Department for International Development (DFID) has launched 19 formal public consultations on its public website in order to inform the Department's policy development.

The consultations launched were:

UK's Development Plan for Bangladesh

DFID Yemen Country Plan

Working in partnership with the United Nations Development Programme (UNDP): New UK and Denmark Performance and Results Framework 2008-11

Working in partnership with United Nations Population Fund (UNFPA): New Institutional Strategy (IS) – UK and Denmark, 2008-09 to 2010-11

Working in partnership with the joint United Nations Programme on HIV/AIDS (UNAIDS). New Institutional Strategy, 2008-11

Uganda's medium term strategic direction

DFID Nigeria Country Assistance Plan

Working in partnership with World Health Organisation (WHO) – New Institutional Strategy (2008-13)

DFID Afghanistan Country Plan

DFID Zambia Country Assistance Plan

New Global Access to Medicines Research Network (ATM RN)

DFID Somalia country Plan

DFID Kenya Country Plan

Working with the European Union: Europe for Development

DFID Rwanda Country Plan

DFID Indonesia Country Assistance Plan (2008-11)

Environmental Stability: UN Economic and Social Council (ECOSOC)

DFID Mozambique Country Assistance Plan

Partnership Programme Arrangements – The Way Ahead

Departmental Retirement

Lynne Featherstone: To ask the Secretary of State for International Development what the standard retirement age in his Department is; and how many people worked beyond the standard retirement age in each of the last five years. [214125]

Gillian Merron: The Department for International Development (DFID) continues to observe the national default retirement age of 65.

Since the implementation of the Employment Equality (age) Regulations in October 2006, six requests to work beyond the default retirement age have been approved. Line managers are advised by the human resources department of staff approaching 65 years of age in time to implement the right to request procedure. To date no requests have been denied.

The number of staff working beyond the retirement age in each of the last five years is shown in the following table:

	Number of staff working beyond retirement age
2003	5
2004	4
2005	3
2006	4
2007	5

Records are not held centrally of staff appointed in country in our overseas offices who work beyond the age of 65 as they are subject to local rather than UK law on retirement age.

The impact of the age regulations continue to be monitored, particularly the right to request working beyond the age of 65, in preparation for the review planned for 2011.

Departmental Training

Mr. Hoban: To ask the Secretary of State for International Development how much his Department spent on training courses for staff in the last *(a)* 12 months and *(b)* five years. [210568]

Mr. Malik: It is not possible, without incurring disproportionate costs, to provide the amount spent on training courses by the Department for International Development (DFID) in the last 12 months, and previous five years.

Sub-departments and overseas offices within DFID are responsible for arranging and financing staff training. Information on the amount spent on training courses is not held centrally.

Developing Countries: Agriculture

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what the objectives are of the programme being jointly funded by his Department and the Biotechnology and Biological Sciences Research Council on sustainable agriculture research for international development; how much his Department will contribute to this programme in 2008-09; and what percentage of that expenditure will be on administration. [220520]

Mr. Thomas: The objective of the Programme on Sustainable Agriculture Research for International Development (SARID) is to produce and apply new scientific knowledge and understanding to increase agricultural productivity and food security, thus improving the lives of poor people in Africa and Asia. SARID was developed through a strategic partnership between the Department for International Development (DFID) and the Biotechnology and Biological Sciences Research Council (BBSRC). DFID is currently contributing £5 million and BBSRC £2.5 million over five years under SARID to fund 12 research grants in crop science. These grants were announced in January 2008 and the predicted total spend for 2008-09 is £1,706,390. The administration of the Programme is handled by BBSRC but funded from the DFID contribution. Administrative costs are currently estimated to be £108,898 for the whole five year Programme, which is 1.45 per cent., of the total budget or 2.18 per cent., of the DFID contribution.

Developing Countries: Climate Change

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what budget his Department has allocated for each of the two programmes being designed in co-operation with Canada's International Development Research Centre to help with climate change in poor countries in Asia and Latin America. [220495]

Mr. Thomas: The Department for International Development (DFID) is funding a design phase for the Climate Change Adaptation programme in Asia and Latin America. The planned level of contribution to the implementation phase of this programme is up to £50 million.

Developing Countries: Economic Growth

John Battle: To ask the Secretary of State for International Development what estimate his Department has made of economic growth in *(a)* Iraq, *(b)* Afghanistan, *(c)* the Democratic Republic of Congo and *(d)* Mozambique in (i) 2009-10 and (ii) 2010-11. [213337]

Gillian Merron: The information is as follows:

Mozambique

It is estimated that Mozambique will experience 7 per cent. real gross domestic product (GDP) growth per annum (2008-10).

Afghanistan

The International Monetary Fund (IMF) projections estimate that real GDP growth will be 9 per cent. in 2009-10 and 8 per cent. in 2010-11. This reflects a gradual decline in investment as a percentage of GDP.

Iraq

The IMF forecasts real GDP growth in Iraq of 7.5 per cent. in 2009, 10.4 per cent. in 2010, and 9.6 per cent. in 2011. Most of this growth will come from increased oil exports and continued high oil prices. Non-oil growth is expected to have a modest increase, with economic activity picking-up as a result of the reduction in violence.

The Democratic Republic of the Congo (DRC)

In September 2007, the IMF estimated that the percentage increase of gross domestic product for the Democratic Republic of Congo would be 8.3 per cent. in 2009, 8.3 per cent. in 2010 and 8.4 per cent. for 2011.

Developing Countries: Food

John Battle: To ask the Secretary of State for International Development what assessment his Department has made of progress in international efforts to insulate *(a)* Afghanistan, *(b)* Ghana, *(c)* the Gambia and *(d)* Eritrea from global food and energy price rises; and if he will make a statement. [220775]

Gillian Merron: The UK Government remain deeply concerned about the impact of higher food and energy prices on developing countries including Afghanistan, Ghana, the Gambia and Eritrea. The UK has been working at international level to ensure that effective and coordinated mechanisms are in place to support countries suffering from the impact of the global food and energy price rises.

The International Monetary Fund (IMF) is helping with balance-of-payments support. The United Nations (UN) High Level Taskforce on the Global Food Crisis has agreed a Comprehensive Framework for Action (CFA). The World Food Programme (WFP) extraordinary emergency appeal is fully funded. At the G8 meeting a $10 billion package for improved food security and agriculture output was agreed.

In Afghanistan the international community is working with the Government to combat the negative welfare impacts of these price increases. The first humanitarian appeal of £38 million was fully met. Support to food production through voucher schemes, rehabilitation of irrigation infrastructure, and the setting up of a safety nets programme are in process. A DFID Afghanistan humanitarian assessment is under way and will report by the end of August.

In Ghana, the World Food Programme (WFP) is leading a Comprehensive Food Security and Vulnerability Assessment which will measure the level of food and livelihoods security, and assess changes in nutrition.

At the request of the Gambian Government, an inter-agency team have conducted an assessment mission and are preparing a framework for international support to reduce the adverse effects of soaring food prices.

Eritrea has received just under £500,000 to finance agricultural provisions under the UN Central Emergency Response Fund (CERF). The Government of Eritrea do not permit relief agencies to distribute food aid. DFID experts will visit Eritrea this month to look at the humanitarian situation.

Fish Supplies

Mr. Peter Ainsworth: To ask the Secretary of State for International Development how much fish was procured by his Department and at what cost in each of the last five years, broken down by species; and what amount and value of such fish met the Marine Stewardship Council standard in each such year, broken down by species. [217886]

Mr. Malik: It is not possible to answer this question without incurring disproportionate costs.

Georgia: Humanitarian Aid

Mr. Moore: To ask the Secretary of State for International Development what assistance his Department has provided to Georgia in each of the last three years; what assistance has been provided to Georgia to alleviate the humanitarian situation following its recent conflict with Russia; and if he will make a statement. [223265]

Mr. Douglas Alexander: The UK Government Georgia bilateral programme expenditure over the last three years was: £2.4 million in 2005-06; £3.8 million in 2006-07; and £2.4 million in 2007-08. The programme allocation for 2008-09 is £3 million. Programme activities are focused on health, regional development, good governance and supporting the Government's European Union integration plans. Georgia also receives Department for International Development (DFID) support via the tri-departmental (FCO, MOD and DFID) Conflict Prevention Pool (CPP) for Russia and the former states of the Soviet Union. The total CPP allocation for 2008-09 is £4.4 million.

In response to the recent conflict, DFID has committed £2 million to humanitarian agencies providing assistance to affected civilians in Georgia and the Russian Federation (RF). Of this, £1 million was allocated to the International Committee of the Red Cross for their operations in Georgia and North Ossetia in the RF. £550,000 has been allocated to the United Nations High Commissioner for Refugees (UNHCR). Our support to UNHCR aims to ensure protection needs among internally displaced persons (IDPs) in Georgia are met. Further allocations have been made to the United Nations Office for the Co-ordination of Humanitarian Affairs (OCHA—£250,000) and to the Hazardous Areas Life-Support Organisation (HALO—£200,000). Our support to OCHA will help to improve co-ordination of activities among the humanitarian community. Our assistance to HALO will help facilitate the safe return of IDPs through the removal of unexploded ordnance from towns and rural communities affected by conflict.

Global Science and Innovation Forum

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what programmes his Department is taking part in through the Global Science and Innovation Forum (GSIF); what research his Department has undertaken for GSIF initiatives; and what percentage of his Department's budget for 2008-09 is allocated to GSIF projects. [220524]

Mr. Thomas: The Global Science and Innovation Forum (GSIF), chaired by the UK Government chief scientific adviser, is a vehicle for cross-government exchanges of information and ideas to improve coordination of the UK effort in international science and innovation. As such it does not run any programmes or projects. The Department for International Development is represented at GSIF by our chief scientific adviser.

Iran: Humanitarian Aid

Mr. Wallace: To ask the Secretary of State for International Development (1) what funding his Department has made available to *(a)* the UN and *(b)* the EU to assist Iran in dealing with Afghani refugees; [223333]

(2) what assistance his Department has given to Iran to deal with refugees from Afghanistan. [223332]

Mr. Douglas Alexander: The Department for International Development (DFID) does not provide bilateral development assistance to Iran. Support to Afghan refugees in Iran is channelled through multilateral organisations, namely the UN High Commissioner for Refugees (UNHCR) and the European Commission (EC). This approach allows for greater co-ordination of donor funding. The regional mandate of these organisations means they are best placed to prioritise, monitor and evaluate donor support not just to refugees in Iran, but also those in Pakistan and India.

UNHCR is currently prioritising five 'protracted refugee situations' around the globe, including Afghan refugees in Iran. In 2007, DFID gave £38 million in core funding to UNHCR of which approximately £3 million will go towards the protection and support of Afghan refugees in the region. The 2008-09 contribution is yet to be finalised.

Contributions to the EC development budget are disbursed at a national rather than departmental level. EC assistance to Afghan refugees for 2008 totals £20 million, of which the UK contributes 12.5 per cent. (£2.5 million). This helps provide health, education and shelter to refugees across the region, including in Iran.

Kenya: Malaria

John Battle: To ask the Secretary of State for International Development what assessment his Department has made of the factors contributing to a reduction in malarial mortality and morbidity in Kenya; and if he will make a statement. [220777]

Gillian Merron: Tackling malaria is a priority for both the Government of Kenya and its development partners. There is evidence that the scaling-up of new and more effective malaria control interventions in Kenya is having a positive impact on health. Factors contributing to reduction in mortality and morbidity include:

Implementation of the more effective Artemisinin-based Combination Therapy (ACT) as first-line treatment for malaria;

Better epidemic preparedness and response in epidemic prone areas e.g. a total of 860,000 households were protected through indoor residual spraying in 2007;

Increased awareness and personal protection by the most vulnerable groups through use of bednets. A total of 13.5 million insecticide-treated bednets were distributed between 2002-06, targeted at pregnant women and children under five years old; and

More health workers recruited to provide basic health care, including an additional 450 health workers for management of malaria.

Lost Working Days

Mr. Hayes: To ask the Secretary of State for International Development how many working days have been lost due to industrial action by employees for which his Department is responsible in each year since 1997. [218055]

Gillian Merron: The information requested is as follows.

	Days lost to industrial action
1997	0
1998	0
1999	0
2000	0
2001	0
2002	0
2003	0
2004	290
2005	0
2006	0
2007	630

Overseas Aid

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what international lesson-learning networks on health and education in fragile states have been established with his Department's support; and how much funding he is providing for such networks in 2008-09. [220379]

Gillian Merron: The Department for International Development (DFID) has played a pivotal role in setting up the Health and Fragile States Network which is hosted by the London School of Hygiene and Tropical Medicine (LSHTM); and the Education and Fragility Network which is part of the Inter-Agency Network on Education in Emergencies and is hosted by the United Nations Educational, Scientific and Cultural Organisation (UNESCO).

In 2008-09, DFID has provided £60,000 directly to the Health and Fragile States Network and £100,000 to the Inter-Agency Network on Education in Emergencies for a broad set of activities, a proportion of which will fund the Education and Fragility Network.

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what his Department's objectives are for the outcome of the September Millennium Development Goals meeting in New York. [220448]

Mr. Thomas: The Department for International Development is focusing on three overall objectives, on which we are working closely with partners, for the UN High Level Event in September in order to help accelerate action on the Millennium Development Goals. These are:

To build a common vision about what needs to be done—scaling up successes and identifying and addressing gaps in current work;

To harness efforts and mobilise not just governments but business, faith groups, NGOs, cities and professional groups and foundations to deliver the MDGs;

To identify milestones to both measure international progress towards the MDGs and inspire greater action to achieve them.

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what the objectives are of the programme being jointly funded by his Department, the UK Natural Environment Research Council and the UK Economic and Social Research Council on ecosystem services and poverty alleviation (ESPA); how much his Department will contribute to this programme in 2008-09; what percentage of this

expenditure will be administration costs; and which developing countries have used the results of the ESPA research. [220519]

Mr. Thomas: The Department for International Development (DFID), the UK Natural Environment Research Council and the UK Economic and Social Research Council are funding the scoping and design of the Ecosystem Services and Poverty Alleviation programme (ESPA). The objectives of the programme are to develop and change local, national and regional policies in developing countries affecting ecosystem management in line with recommendations from research.

DFID plans to contribute £500,000 this financial year towards this programme. Administrative costs will be determined by detailed design; it is estimated they will be 2-3 per cent. of the programme spend. The overall programme should be put to Ministers for their approval toward the end of 2008-09. Developing countries will be able to make use of the ESPA research once the programme is in operation.

Sub-Saharan Africa: Climate Change

Mr. Tom Clarke: To ask the Secretary of State for International Development how much funding provided to countries in Sub-Saharan Africa to help combat climate change was in the form of *(a)* loans and *(b)* aid in each of the last three years. [212397]

Mr. Thomas: The UK Government is stepping up its assistance to tackle climate change, helping countries adapt and build resilience to its impacts. In 2007-8 the Department for International Development (DFID) provided, for example, £4.5 million to support research and capacity development in Africa for climate change adaptation and approximately £0.75 million to develop other programmes that directly help Africa to tackle climate change. Comprehensive information is not readily available for earlier years. Many other DFID investments will have an impact on Africa's ability to adapt to climate change—for example in improving food production and security and strengthening river basin management.

None of the money that DFID provided as bilateral assistance to Sub-Saharan Africa over the last three years was in the form of loans. This included assistance to help combat climate change.

DFID also provides assistance through multi-lateral institutions and global funds to tackle climate change in developing countries, including in Africa. This includes United Nations Framework Convention on Climate Change funds, and the Global Environmental Facility. In addition, the new UK £800 million International Environmental Transformation Fund will help developing countries, including those in Africa, to respond to climate change. Part of the assistance provided by these institutions and funds will be in the form of loans.

UK Collaborative on Development Sciences

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what programmes his Department is taking part in through the UK Collaborative on Development Sciences (UK-CDS); and what percentage of his Department's budget is allocated to UK-CDS programmes in 2008-09. [220523]

Mr. Thomas: The Department for International Development (DFID) does not take part in programmes with the UK Collaborative on Development Science (UK-CDS). DFID has contributed £297,000, 27.5 per cent. of the UK-CDS total budget, towards the cost of its secretariat and activities over the three years from November 2007.

United Nations Millennium Development Goals Summit

Mr. Moore: To ask the Secretary of State for International Development what topics are on the agenda for the United Nations Millennium Development Goals summit on 25 September; who will represent the Government at the summit; what goals the Government has set for this summit; by what criteria the outcomes of the summit will be judged by the Government; and if he will make a statement. [223264]

Mr. Douglas Alexander: The UN Secretary General will issue a paper shortly for the UN High Level Event on the millennium development goals (MDGs). The overall aim of the meeting is to help galvanise international activity to get the MDGs back on track. The event will include round tables on Poverty and Hunger; Education and Health; and Environmental Sustainability along with a wide range of partnership events on key issues related to the MDGs.

The Prime Minister plans to lead UK representation at the UN High Level Event, supported by myself and the Under-Secretary of State for International Development, my hon. Friend the Member for Harrow, West (Mr. Thomas).

The UK Government would like to see an action-oriented plan emerging from the High Level Event, with specific deliverables, particularly on education, malaria, health systems and food security. As part of this the UK Government would also like to see the pledging of new financial commitments, including from new donors.

We will judge the outcomes of the UN High Level Event based on the UN Secretary General's letter of 17 July in which he stated the main objectives as reviewing progress and taking stock of the existing gaps at mid-point in the global effort to achieve the MDGs by 2015; help identify concrete actions needed to scale up effort; and help ensure the MDGs and international targets remain on track and momentum is maintained beyond 2008.

United Nations: Mediation

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what support his Department has provided to the Mediation Support Unit in the UN in the last 12 months; and at what cost. [220376]

Gillian Merron: The UK Government have committed £620,000 over two years to the UN Mediation Support Unit from the Conflict Prevention Pool (CPP), of which £155,000 has been disbursed in the last 12 months. The CPP is funded and managed jointly by the Department for International Development (DFID), the Foreign and Commonwealth Office (FCO) and the Ministry of Defence (MOD).

Voluntary Work

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what volunteer programmes his Department operates to recruit 18 to 25-year-olds to go overseas; how much was spent on such programmes in 2007-08; how many volunteers were recruited in that year; which countries they served in; and what activities each programme involved. [220416]

Mr. Malik: The Department for International Development (DFID) volunteering programme specifically aimed at young adults aged 18 to 25, "Platform2" was launched in February 2008. The costs incurred to the end of the financial year were £205,152.

The first group of volunteers departed in May 2008. Over the course of the next three years the programme aims to send 2,500 young volunteers overseas. The first countries to receive volunteers are Ghana, South Africa, India and Peru but the scheme will broaden out to include more countries over its duration. Volunteers will be involved in community projects to improve the livelihoods of people in the host communities.

The budget allocated to the programme is £10 million over three years. The scheme will also support efforts by the young volunteers to raise awareness of global poverty issues upon their return to the UK.

Zimbabwe: Overseas Aid

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what the administrative costs of the Protracted Relief Programme in Zimbabwe have been; how many private sector contracts have been awarded under the programme; and at what cost. [220380]

Gillian Merron: Phase 1 (2004-08) of the Zimbabwe Protracted Relief Programme (PRP) was administered by a managing consultant at a cost of £1.7 million (£1,731,548.10). This represented 4.8 per cent. of the total project expenditure of £36 million over a programme duration of just under four years. The administration costs are broken down into professional fees (£1,485,905.69) and reimbursable expenses (£245,642.56).

In addition to the cost of the managing consultant, two annual reviews were carried out by independent consultants at a total cost of £51,565.03. The annual reviews and the managing consultant contracts were the only private sector contracts awarded under the programme. All other funds were channelled to non-governmental implementing partners for programme activities.

CHILDREN, SCHOOLS AND FAMILIES

Academies: Lancaster

Mr. Wallace: To ask the Secretary of State for Children, Schools and Families when he last met Lancashire County Council to discuss academies in Lancaster. [223334]

Jim Knight: My answer has not changed—please refer to PQ 220578 of 1 September 2008, *Official Report*, column 1602W. I have not met personally with Lancashire county council to discuss their academy plans.

Children in Care: Clinical Trials

Tim Loughton: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 17 July 2008, *Official Report*, column 559W, on clinical trials, what the certain conditions are which must be met for minors to be allowed to be entered into a trial prior to consent having been obtained from a person with parental responsibility or a legal representative. [223346]

Mr. Bradshaw: I have been asked to reply.

On 1 May 2008 the Government, following a public consultation, amended The Medicines for Human Use (Clinical Trials) Regulations 2004 ('the Clinical Trials Regulations') to provide an exception to the general requirement that informed consent must be obtained from a minor's (a person under 16 years) parents or legal representative prior to his/her participation in a trial. Informed consent would still be a requirement of participation in the trial; but its absence would not preclude initial entry into a trial.

The specific conditions that apply in relation to a minor's participation in a clinical trial are set out in Part 4 of Schedule 1 of the Clinical Trials Regulations. Conditions 1 to 5 of the Clinical Trials Regulations outline requirements for obtaining informed consent prior to initial entry into a trial. Conditions 6-12 provide safeguards to ensure that the wishes of the minor are considered and there is an appropriate basis for the trial and its financial compensation. The amendments to the Clinical Trials Regulations, made in May 2008, provide an exception to the general requirement that conditions 1 to 5 are met before entry into a trial.

This exception is subject to the following: *(a)* treatment is being, or is about to be, provided for a subject who is a minor as a matter of urgency and, having regard to the nature of the clinical trial and of the particular circumstances of the case, *(b)* it is necessary to take action for the purposes of the clinical trial as a matter of urgency; but *(c)* it is not reasonably practicable to meet conditions (1) to (5) of the Clinical Trials Regulations and *(d)* the conditions specified in *(a)* to *(c)* above are carried out in accordance with a procedure approved by an ethics committee with paediatric expertise or in the case of an ethics committee opinion appeal, by an appeal panel. The exception only applies until it is reasonably practicable to obtain informed consent from a person with parental responsibility or legal representative, at which time conditions (1) to (5) must be met.

The exception is consistent with the position adopted by the International Conference on Harmonisation (ICH) guideline on Good Clinical Practice.

Children in Care: Health

Annette Brooke: To ask the Secretary of State for Children, Schools and Families what steps he is taking to ensure the national indicator set for local government reflects the health and well-being of looked-after children. [223354]

Beverley Hughes: "Care Matters: Time for Change" proposed a new indicator as part of the local government National Indicator Set focused on the emotional and behavioural health of looked after children to ensure

that their mental health is reflected in local authority performance management arrangements. From April 2008 all local authorities in England have been required to provide information on the emotional and behavioural health of the children they look after. These data will be collected by local authorities using the Strengths and Difficulties Questionnaire (SDQ) and a summary figure for each child (the total difficulties score) will be submitted to the Department through the SSDA903 return. The first data return for the 2008-09 financial year will be collected from 1 April 2009.

Departmental Buildings

Mr. Betts: To ask the Secretary of State for Children, Schools and Families what account his Department takes of the level of energy efficiency of buildings before entering into agreements to *(a)* rent and *(b)* purchase those buildings. [221101]

Kevin Brennan: When entering into leases for, or purchasing, buildings, the DCSF takes account of the environmental impact of its actions as far as possible.

For new buildings, the minimum requirement is that they must be constructed to the Building Research Establishment Environmental Assessment Method (BREEAM) "excellent" standard (2006). In addition, developers are encouraged to design their buildings to allow energy efficiency by:

- Minimising internal areas requiring mechanical ventilation
- Minimising direct solar gain, in order to avoid air conditioning.
- Maximising daylight factors
- Maximising the control and flexibility of the installations
- Achieving an air tightness test in accordance with CIBSE test methods
- Complying with the current requirements of the Building Regulations Part L2A 2006; and
- Promoting renewable energy and natural resources such as daylight and passive solar energy.

For existing buildings, the criteria for the selection of a property for rent or purchase will include the potential to achieve the award of BREEAM very good rating on a cost effective basis.

Departmental Disciplinary Proceedings

Mr. Redwood: To ask the Secretary of State for Children, Schools and Families how many staff in his Department have been *(a)* dismissed and *(b)* disciplined for their conduct since the Department was established. [217413]

Kevin Brennan: The Department was created in the machinery of government changes announced on 28 June 2007. Since then, two members of staff have been dismissed and 12 have been disciplined for their conduct.

Departmental Inquiries

Mrs. May: To ask the Secretary of State for Children, Schools and Families what independent inquiries have been commissioned by his Department in the last five years; what the *(a)* purpose and *(b)* cost was of each; and what steps were taken following each. [211123]

Kevin Brennan: The DCSF has been in existence since 28 June 2007, and since that time has commissioned two independent inquiries. Both of these are currently underway and it is not possible to fully cost these until they complete.

(1) The Lamb Inquiry: Special educational needs and parental confidence

The Lamb Inquiry was established as part of the Government's response to the House of Commons Education and Skills Committee Report "Special Educational Needs: Assessment and Funding". The Lamb Inquiry, under the chairmanship of Brian Lamb, the Chair of the Special Educational Consortium, will investigate a range of ways in which parental confidence in the SEN assessment process might be improved. The inquiry started its work in March 2008 and Brian Lamb will report in September 2009.

(2) The Sutherland Inquiry—Inquiry into 2008 national curriculum test delivery

The Sutherland Inquiry has been established because of problems that have arisen in the delivery of Key Stage 2 and Key Stage 3 national curriculum tests in 2008, leading to a delay in the release of results to schools. The inquiry will be led by Stewart Sutherland (Lord Sutherland of Houndwood), who will investigate what went wrong, the reasons for the problems experienced and what should be done to avoid a recurrence in future years. The inquiry was announced in July 2008 and Lord Sutherland will report to me and Ofqual in the Autumn of 2008.

Departmental Responsibilities

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families which projects his Department has commissioned from *(a)* think tanks and *(b)* charities in each of the last two years for which figures are available; what the aim of each project was; which think tank or charity was commissioned; and how much was paid. [221604]

Ed Balls: My Department's accounting records do not record information to this level of detail. To provide a response would be at disproportionate cost.

Departmental Secondment

Pete Wishart: To ask the Secretary of State for Children, Schools and Families what procedures his Department uses to ensure equal opportunities in relation to staff secondments to the Department. [214665]

Kevin Brennan: The Department aims to ensure that its diversity policies enable equal opportunities for inward secondment by following the Civil Service Commissioners' Recruitment Code which is available at:

http://www.civilservicecommissioners.org/web-resources/resources/71184faab07.pdf

Departmental Sick Leave

Jenny Willott: To ask the Secretary of State for Children, Schools and Families what the average duration of single periods of sick leave taken by staff in *(a)* his Department and its predecessor and *(b)* the non-departmental bodies for which it has responsibility who gave (i) stress and (ii) mental health and behavioural disorders as the reason for their absence was in each of the last 10 years; and if he will make a statement. [216140]

Kevin Brennan: The average duration of single periods of sick leave taken by staff in *(a)* the Department is 27 days due to stress and 35 days due to mental and behavioural disorders. The Department was set up as part of the machinery of government changes on 28 June 2007, so the figures apply from 1 July to 31 March 2008 only (the latest information available). Different recording systems were used in the predecessor Departments, the Department for Education and Skills (DfES) and the Department for Education and Employment (DfEE) over the past 10 years, so it is not possible to provide direct comparisons.

These figures do not include *(b)* non-departmental public bodies as the information for them is not held centrally and could be obtained only at disproportionate cost.

The Department is committed to providing a safe working environment and has a range of measures in place to support managers and employees on health and well-being issues.

Jenny Willott: To ask the Secretary of State for Children, Schools and Families what the average duration of single periods of sick leave taken by staff in *(a)* his Department and its predecessor and *(b)* the non-departmental bodies for which it has responsibility was in each of the last five years; and if he will make a statement. [216142]

Kevin Brennan: The average duration of single periods of sick leave taken by staff in *(a)* the Department is 6.4 days. The Department was set up as part of the machinery of government changes on 28 June 2007, so the figures apply from 1 July to 31 March 2008 only (the latest information available). Different recording systems were used in the predecessor Departments, the Department for Education and Skills (DfES) and the Department for Education and Employment (DfEE) over the past 10 years, so it is not possible to provide direct comparisons.

These figures do not include *(b)* non-departmental public bodies as the information for them is not held centrally and could be obtained only at disproportionate cost.

The Department is committed to providing a safe working environment and has a range of measures in place to support managers and employees on health and well-being issues.

Departmental Sick Pay

Jenny Willott: To ask the Secretary of State for Children, Schools and Families how many staff in *(a)* his Department and its predecessor and *(b)* the non-departmental bodies for which it has responsibility have received sick pay for sick leave due to (i) stress and (ii) mental health and behavioural disorders in each of the last 10 years; what the average length of time was for which sick pay was paid in these cases; and if he will make a statement. [216146]

Kevin Brennan: The Department was set up as part of the Machinery of Government (MoG) changes on 28 June 2007, so the figures apply from 1 July to 31 March 2008 (the latest information available). In the Department *(a)* 72 staff were absent due to stress, representing 2.7 per cent., of all staff. 66 were absent due to other mental disorders, representing 2.4 per cent., of all staff at 31 March 2008.

These figures do not include non-departmental public bodies *(c)* as the information for them is not held centrally and could be obtained only at disproportionate cost.

The Department has no agencies.

The Department is committed to providing a safe working environment and has a range of measures in place to support managers and employees on health and well-being issues.

Education Maintenance Allowance

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the performance of Liberata in administration of the education maintenance allowance. [223194]

Jim Knight: The Learning and Skills Council have operational responsibility for the Education Maintenance Allowance (EMA) and have contracted with Liberata to carry out the helpline, assessment and payment function for EMA.

There have been some unacceptable delays in notifying learners that they are eligible for EMA this year. My officials are receiving daily updates from the LSC and I am monitoring the situation very closely. My priority is to ensure that young people receive their EMA as soon as possible.

The LSC have assured me that they are working very closely with Liberata to ensure that the backlog is cleared quickly. All eligible learners who apply within 28 days of the start of their course will get all the payments for which they are eligible, even if the processing of their application form is delayed.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families how many education maintenance allowance payments have not been made on time in 2008; and what the average length of delay in those payments has been. [223195]

Jim Knight: This is a matter for the Learning and Skills Council (LSC), who have operational responsibility for the Education Maintenance Allowance (EMA) and hold the information about applications, payments and expenditure made under the scheme. Mark Haysom, the LSC's Chief Executive, will write to the hon. Gentleman with the information requested and a copy of his reply will be placed in the House Library.

Education Maintenance Allowance: South Gloucestershire

Steve Webb: To ask the Secretary of State for Children, Schools and Families how many applications for education maintenance allowances have been made by South Gloucestershire pupils for the 2008-09 academic year; how many such allowances *(a)* have been paid and *(b)* are outstanding; and if he will make a statement. [223393]

Jim Knight: This is a matter for the Learning and Skills Council (LSC), who have operational responsibility for the Education Maintenance Allowance (EMA) and hold the information about applications, payments and expenditure made under the scheme. Mark Haysom, the LSC's Chief Executive, will write to the hon. Gentleman with the information requested and a copy of his reply will be placed in the House Library.

Education: Assessments

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of the money paid to the ETS to administer the marking of the national standard assessment tests has been repaid; and if he will make a statement. [223457]

Jim Knight: The total paid to ETS to administer the marking of the national standard assessment tests was £34,971,060.65, of which £19,500,000.00 has been returned. This represents 55.8 per cent. of the total money paid to ETS.

In addition, the total value of amounts invoiced by ETS but unpaid and cancelled as part of the agreement is £3,400,000. The estimate of remaining contracted cycle 1 costs uninvoiced and cancelled as part of the agreement is approximately £1,200,000. This gives a total of cancelled outstanding and anticipated invoices of £4,600,000.

Exam Results

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) pursuant to the answer of 2 November 2005, *Official Report*, columns 1207-12W, on science, what percentage of students who gained *(a)* a GCSE, *(b)* an A-level and *(c)* an AS-level in (i) biology or human biology, (ii) chemistry and (iii) physics at each grade were educated in (A) the mainstream maintained sector and (B) the independent sector in each year since 1997; [223191]

(2) what percentage of students who gained *(a)* a GCSE, *(b)* an A-level and *(c)* an AS-level in (i) French, (ii) German and (iii) Spanish at each grade were educated in (A) the mainstream maintained sector and (B) the independent sector in each year since 1997. [223192]

Jim Knight: Figures for the past three years are given as follows. To produce the figures for earlier years would go over the disproportionate cost threshold.

Biological sciences	73.3	83.4	88.8	91.7	93.8	96.7	86.6	88.6	26.6	16.5	11.1
French	60.7	73.1	79.6	85.1	90.5	95.3	76.0	78.0	39.2	26.9	20.3
German	66.1	74.7	86.0	91.4	95.4	97.2	80.9	82.2	33.9	25.1	14.0
Spanish	55.6	65.2	70.3	81.9	88.0	94.3	70.6	72.9	43.8	34.6	29.4

Notes:
1. Figures relate to 16 to 18-year-olds (age at start of academic year, i.e. 31st August).
2. Mainstream maintained sector includes academies, CTCs, sixth form colleges and school sixth forms.
3. Numbers of AS levels recorded will depend on the extent to which pupils cash-in their AS levels. This may vary considerably from school to school.

Foster Care: Grandparents

Mr. Lancaster: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the merits of allowing grandparents looking after their grandchildren to become foster parents without the child being first placed in care. [223209]

Kevin Brennan: It is the general duty of every local authority to safeguard and promote the welfare of children in their area who are in need and to promote the upbringing of such children by their families as required by the Children Act 1989. It is for local authorities to assess the needs of such children in the context of parental capacity and wider family and environmental factors and to decide whether they meet the criteria for the provision of accommodation under section 20 or whether care proceedings should be taken under section 31 of the Children Act 1989. A child who is voluntarily accommodated or subject to a care order is looked after. Once this decision has been made the local authority

must decide on the most suitable way to fulfil its responsibilities by providing accommodation for the child which may include as the first consideration, placing the child with a relative who has been approved as a foster carer. The Care Matters White Paper set out our commitment to develop a new framework to support family and friends care which includes greater flexibility to provide financial and other support to relatives caring for children who are not looked after.

Fraud

Jenny Willott: To ask the Secretary of State for Children, Schools and Families (1) how many staff were prosecuted for *(a)* attempting to defraud and *(b)* defrauding his Department in each year since 2003; and if he will make a statement; [214506]

(2) on how many occasions staff employed by his Department have defrauded his Department in the last 10 years; and if he will make a statement; [214505]

(3) how many staff of his Department were responsible for each instance of fraud or attempted fraud in each year since 2003; and if he will make a statement; [214504]

(4) what estimate he has made of the losses to his Department from fraud committed by staff of his Department in each year since 2003; and if he will make a statement. [214507]

Kevin Brennan: The Department was formed on 28 June 2007. Cases of fraud against the Department are collected for the HM Treasury's annual fraud return. In this respect, there have been no cases submitted. There have also been no internal staff fraud cases reported.

My Department will not accept any level of fraud or corruption and any case will be thoroughly investigated and dealt with appropriately. The Department is committed to ensuring that the opportunities for fraud and corruption are reduced to the lowest possible level of risk.

Government Communications

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how many staff in *(a)* his Department and *(b)* its agencies (i) are classified as Government communicators and (ii) have access to the Government Communication Network. [215099]

Kevin Brennan: The information is as follows:

(a) The Department for Children, Schools and Families central Communications Directorate has 85.9 staff classified as Government communicators. Across the Department other civil servants may have communication as a core part of their role as good communication is integral to help implement Government policy.

(b) The Department do not have any agencies.

(c) All civil servants who work in a communication role can access the Government Communications Network (GCN) and the resources that it provides.

Health Education

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what recent steps the Government has taken to promote healthy living in schools and family homes. [220599]

Kevin Brennan: Promoting healthy living within families and in other children's settings such as schools is a priority for the Government.

The roll out of Sure Start children's centres, which provide access to services, including health services and advice on staying healthy in pregnancy and early childhood, for families with young children continues. There are now 2,900 children's centres with 3,500 planned for 2010, one for every community.

Our guidance for schools on their duty to promote pupil well-being, issued for consultation on 3 July, makes clear that schools have a key role to play in encouraging pupils to adopt healthy lifestyles and encourage healthy eating. In particular, the Government are promoting healthy lifestyles to children and young people through the national healthy schools programme. The programme uses a whole school/whole child approach to health. Schools achieving healthy schools status have to satisfy criteria under four core themes: Physical Activity; Healthy Eating; Personal, Social, Health and Economics education; and Emotional Health and Well-Being. Currently, 65 per cent. of schools have achieved healthy schools status and in total nine out of 10 schools are participating in this voluntary programme.

As the initial step in achieving our new ambition of being the first major nation to reverse the rising tide of obesity, in January 2008, the Government published "Healthy Weight, Healthy Lives: A Cross-Government Strategy for England". Through this comprehensive strategy we aim to enable everyone to achieve and maintain a healthy weight. Everyone has a part to play and the strategy sets out a vision of what this means for schools, the food industry, employers, health services, local authorities and central Government to play their part in helping children, young people and their families to make healthy choices in food and physical activity. The initial focus is on children, and by 2020 the Government aim to reduce the proportion of overweight and obese children to 2000 levels.

Fulfilling an important commitment in "Healthy Weight Healthy Lives", in March 2008 we published the updated Child Health Promotion Programme. This sets out the schedule of services to be offered to all families with young children and includes a range of health promotion topics to be raised with families such as safety in the home, nutrition, physical activity and smoking.

Another strong contribution to "Healthy Weight, Healthy Lives" is being made by the National PE and Sport Strategy for Young People. Already, 86 per cent. of school pupils are engaged in two hours of high quality PE and sport per week. Following the Prime Minister's announcement in July 2007, we have an increased focus on engaging all children and young people in PE and sport with an ambition of providing up to five hours of PE and sport a week for all five to 16-year-olds, and three hours for young people aged 16-19. This ambition includes a drive to secure full participation in at least two hours of PE or sport as part of the working school day, combined with effective signposting to further physical activity opportunities outside of school.

From 31 July we are moving from piloting parent support advisers in 20 local authorities to national expansion. These advisers have been working with parents

to improve children's behaviour and school attendance, offering advice with parenting, and providing support for families at the first sign a child or young person may be experiencing behavioural or emotional issues. In many cases they may be the first point of contact between parents and schools and where health issues are raised they are well placed to refer parents to the relevant specialist agencies.

In addition we are:

expanding the Family Nurse Partnership programme, in which health visitors provide intensive home visiting for vulnerable first time young parents, working with them from early pregnancy until the child is two years old. The programme is being expanded from 10 to 30 sites across the country; and

putting in place a proper dining culture in schools so that eating a healthy lunch is seen as normal by young people—particularly the 230,000 children eligible for, but not claiming, free school meals. Over three million children are now eating school dinners daily—an increase of around 30,000 extra pupils over last year.

In the autumn we will set out our strategy to further improve health outcomes for children and young people over the next 10 years.

Languages: Education

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of 15-year-olds took *(a)* a GCSE and *(b)* an A-level in (i) French, (ii) German, (iii) Spanish, (iv) Italian, (v) Mandarin Chinese and (vi) another modern foreign language in each year since 2001; and if he will make a statement. [223456]

Jim Knight: The available figures for GCSE are given in the table. The information for the remaining years can be provided only at disproportionate cost.

The Department does not hold information on the A level achievements of 15-year-olds.

GCSE attempts in Modern Foreign Languages

	1997	2003	2004	2005	2006	2007
French	52.2	48.9	45.0	38.2	32.1	28.7
German	21.7	19.4	18.1	15.5	13.0	11.5
Spanish	5.9	8.2	8.3	8.1	7.9	8.1
Italian	0.4	0.5	0.5	0.5	0.5	0.5
Mandarin	0.2	0.3	0.3	0.3	0.3	0.3
Other MFL	2.5	2.7	2.5	2.5	2.4	2.5

Note:
Figures relate to 15-year-olds (age at start of academic year, i.e. 31 August) in all schools.
"Other MFL" includes 'Arabic', 'Bengali', 'Dutch', 'Gujarati', 'Japanese', 'Panjabi', 'Persian', 'Polish', 'Portuguese', 'Russian', 'Turkish' and 'Urdu'.

National Curriculum Tests

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families in how many schools in *(a)* England, *(b)* Hampshire and *(c)* Basingstoke fewer than 65 per cent. of pupils achieved level 4 or above in mathematics and English in (i) 2006, (ii) 2007 and (iii) 2008. [223400]

Jim Knight: The information is shown as follows:

Number of schools where fewer than 65 per cent. of pupils achieved Level 4

	2006		2007	
	English	Maths	English	Maths
England	1,785	2,555	1,484	2,026
Hampshire	25	47	17	28
Basingstoke	3	4	1	3

2008 results are not available until after the publication of the Primary School Achievement and Attainment Tables.

The public service agreement (PSA) target is to reduce by 40 per cent. by 2008 the number of schools where less than 65 per cent. of pupils achieve level 4 in English and in maths (using the 2003 published figures as the baseline for measurement).

We have made exceptional progress to reduce low performance and are ahead of trajectory. In English the number of schools has reduced by nearly half (48 per cent.) with 1,484 schools below the target in English down from 2,849 in 2003. In mathematics the number of schools has reduced by 43 per cent. down from 3,570 to 2,026.

Oxford University: Disadvantaged

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many of those students who were offered places at either Oxford or Cambridge University in *(a)* 2006 and *(b)* 2007 were in receipt of free school meals. [215740]

Bill Rammell: I have been asked to reply.

Analysts in the Department are currently working on producing progression figures for FSM and non-FSM pupils, and we are planning to publish these by autumn. Information on the FSM background of higher education entrants in 2006 and 2007 is not currently available.

Parents: Alcoholism

Stephen Hesford: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the impact of alcohol dependency of one or both parents on family income; and what steps his Department is taking to protect the welfare of children in such circumstances. [219921]

Kevin Brennan: Department for Work and Pensions research on Public Attitudes to Child Poverty indicates an association between poverty and substance misuse that affects a very small minority of children. 4 per cent. of lone parents have alcohol dependency and 2 per cent. drug dependency and the respective figures for couples with children are 3 per cent. and 1 per cent. This is compared to the 22 per cent. of children living in poverty due to other factors.

The Government do not annually record the number of young people affected by parental alcohol misuse. However, the Interim Analytical report produced for the 2004, "Alcohol Harm Reduction Strategy for England" by the Prime Minister's Strategy Unit estimates that between 780,000 and 1.3 million children are affected by parental alcohol problems. The Government recognise that parental alcohol misuse is a serious problem in the family and has negative effects on a child's life chances.

This is why my Department is investing in targeted services for those families at risk that will help to reduce the risk of dependency on alcohol and break the cycle of problems being transferred between generations.

The drug strategy, "Drugs: Protecting Families and Communities", published in February 2008, identified families as a key priority and highlighted the need for support to prevent future problems for children. This proposed a programme of intensive support services to reach the most chaotic families through programmes, such as the Family Interventions Project and Family Pathfinders, to develop local systems and services that improve outcomes for families at risk. We are committing to further evaluating a number of programmes to better gauge their impact on reducing alcohol problems.

Secondary Education: Standards

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families which local authorities required to submit plans to his Department as part of the National Challenge did so before 1 August. [223193]

Jim Knight: In June we asked local authorities to review their existing plans for school improvement and consider the extra support that they and local partners would provide to lift schools above the floor by 2011. We asked local authorities to send us their plans, and their judgment on the support needed, by the end of July 2008.

All local authorities with schools below the floor target submitted their plans before 1 August, with the exception of local authorities in the Greater Manchester and Black Country City Challenge areas. These local authorities were asked to work on existing City Challenge time scales for agreeing support for schools.

Officials from the Department and the National Strategies are meeting with Directors of Children's Services throughout September to discuss these plans in more detail.

Special Educational Needs

Mr. Todd: To ask the Secretary of State for Children, Schools and Families what steps he plans to take to ensure that changes to special educational needs and disability tribunals do not add to costs for parents. [220893]

Bridget Prentice: I have been asked to reply.

Under the Tribunals, Courts and Enforcement Act 2007, new rules of procedure have been drawn up for the Health, Education and Social Care chamber. SENDIST's judiciary and members have been fully involved in their creation. Members of SENDIST and the Tribunals Service are working to put in place a system which remains consistent with the tribunal's aims.

None of the changes will result in an increase in costs for parents. There will be no changes to the hearing or how it is conducted. Appeals will continue to be held by the same panel of judges and members and in the same accessible and informal manner as they are now.

Specialised Diplomas

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many pupils have enrolled on diploma courses for *(a)* Construction and the Built Environment, *(b)* Engineering, *(c)* Society, *(d)* Health and Development, *(e)* Creative and Media and *(f)* Information Technology; and if he will make a statement. [223455]

Jim Knight: Learner numbers for all qualifications are still subject to change during the first weeks of the autumn term, as young people make their final decisions about the courses they want to pursue. We are gathering data from local authorities on Diploma learner numbers during this term, in order to make adjustments to the funding areas receive for Diplomas. We will publish this information before the end of the year.

Training and Development Agency for Schools: Finance

Mr. Graham Stuart: To ask the Secretary of State for Children, Schools and Families what the percentage change has been in the cost of administration at the Training and Development Agency for Schools since 2003-04. [223404]

Jim Knight: The Training and Development Agency's (TDA) administration grant in aid increased by 92 per cent. between 2003-04 and 2007-08 as shown.

Total administration expenditure trend

	£ million	Percentage
2003-04	13.0	36
2004-05	14.3	10
2005-06	21.3	49
2006-07	24.2	14
2007-08	25.0	[1]3

[1] year-on-year increase

The increase is as a result of the Education Act 2005 which created the TDA from the former Teacher Training Agency, increasing the Agency's remit to the whole school workforce in England. During the period TDA's programme expenditure increased from £501 million to £772 million, an increase of 54 per cent.

Mr. Graham Stuart: To ask the Secretary of State for Children, Schools and Families how much of the £4.09 million of efficiency savings made by the Training and Development Agency for Schools between 2005-06 and 2007-08 was cashable. [223405]

Jim Knight: The total Training and Development Agency SR04 efficiency savings are cashable.

Training and Development Agency for Schools: Manpower

Mr. Graham Stuart: To ask the Secretary of State for Children, Schools and Families what the average cost of each employee of the Training and Development Agency for Schools, including pension and social security costs, has been in each year since it was established. [223402]

Jim Knight: The following table shows the Training and Development Agency's (TDA) staff costs per employee; basic pay, national insurance and superannuation contributions for the period 1994-95, when the agency was established, to 2007-08 (31 March 2008).

Average cost per staff

	£000
1994-95	15
1995-96	28
1996-97	24
1997-98	25
1998-99	20
1999-2000	18
2000-01	18
2001-02	24
2002-03	28
2003-04	34
2004-05	33
2005-06	41
2006-07	46
2007-08	[1]46

[1] Net of staff cost related receipts.

The employee cost of £15,000 in 1994-95 is lower because it represents seven months of the financial year. The increase in costs seen in 2005-06 is due to the merger of two organisations where one had higher pay bands.

Mr. Graham Stuart: To ask the Secretary of State for Children, Schools and Families what percentage of the staffing costs of the Training and Development Agency for Schools were spent on temporary staff in 2007-08. [223403]

Jim Knight: As shown on page 53, note 6(b) of the 2007-08 accounts, the TDA staff numbers in 2007-08 totalled 334 (2006-07 = 308), of whom 45 were temporary employees (2006-07 = 22). The total permanent employed and temporary staff costs for the year were:

Temporary staff cost percentage

	2006-07	2007-08
Non temporary staff (£ million)	12.8	13.1
Temporary staff (£ million)	1.2	2.3
Temporary staff (percentage)	9	15

The increase in the number of temporary staff in 2007-08 compared to 2006-07 is due to a large number of new programmes that started in year.

HOME DEPARTMENT

Administration of Justice: Translation Services

Mrs. Gillan: To ask the Secretary of State for the Home Department if she will bring forward amendments to the Police and Criminal Evidence Act 1984 to implement the national agreement on arrangements for the use of interpreters, translators and language service professionals in investigations and proceedings within the Criminal Justice System, as revised in 2007; and if she will make a statement. [219875]

Mr. McNulty: The review of PACE has highlighted the need to consider revising PACE Code C on interpreters. We are currently working with the Association of Chief Police Officers and the Interpreters Working Group on determining how best to ensure that access to interpreting and translating services can be achieved at the police station. We hope to publish proposals by the end of 2008.

Departmental Sick Leave

Mr. Ruffley: To ask the Secretary of State for the Home Department how many working hours were lost in her Department due to sick leave in each year since 1997; and what information she holds on the number of working hours lost in the police service in that period. [199487]

Mr. McNulty: The Home Office is unable to provide sickness data in hours of its staff due to the way sickness is recorded on the personnel information management system. To provide data especially for the shift-working staff will require identifying shift patterns and manually counting sickness hours which would be disproportionate cost.

Essex Constabulary

Mr. Amess: To ask the Secretary of State for the Home Department what national police responsibilities are tasked to Essex Constabulary for 2008-09; and if she will make a statement. [217740]

Mr. McNulty: In common with all other police forces in England and Wales, Essex Constabulary has a duty to consider the Home Secretary's strategic policing priorities and to have developed policing plans with its police authority which include plans for delivering protective services.

Essex Police Authority: Data Protection

Mr. Amess: To ask the Secretary of State for the Home Department what mechanisms are in place to ensure that information kept by Essex Police Authority is *(a)* accurate and up-to-date and *(b)* kept securely; what recent discussions she has had with Essex Police Authority on this; and if she will make a statement. [218499]

Mr. McNulty: Such issues are a matter for the Police Authority in Essex.

Mr. Amess: To ask the Secretary of State for the Home Department how many people of each grade employed by her Department have *(a)* partial and *(b)* full access to data held by Essex Police Authority; what guidance her Department issues to persons seeking access to this data; and if she will make a statement. [218501]

Mr. McNulty: Staff in the Home Office Policing Statistics Group responsible for statistical data analysis have partial access to data held by the Essex police force rather than the Essex Police Authority as part of their responsibilities. Every police force in England and Wales is required to routinely submit statistical returns on a

variety of subject areas for which the Home Office Policing Statistics Group has, among other things, responsibility for quality assurance, producing statistical analysis and statistical outputs including police recorded crime. The Policing Statistics Group responsible for this statistical analysis is staffed as follows:

	Number
Grade 6	1
Grade 7	2
Senior Executive Officer	2
Higher Executive Officer	2
Senior Research Officers/Senior Statistical Office	5
Research Officer	1
Executive Officer	2
Research Trainee	1

The data from Essex police are transferred electronically to the Home Office Policing Statistics Collection Section which is headed by a Senior Executive Officer. In addition there is one Higher Executive Officer, one Executive Officer and four Administrative Officers involved in the data transfer and the initial quality assurance process.

All of these staff report ultimately to the Home Office Chief Statistician.

With the exception of data on homicides, all of the returns received involve aggregated data and no details of individuals are known. All published data are in aggregated form. In addition, staff within the Policing Statistics Group work to statistical disclosure procedures in accordance with the National Statistics guidance.

All of the datasets managed are password controlled. Staff new to the Policing Statistics Group are given instruction on how data should be handled and all of the staff involved are subject to the provisions laid out in the Data Protection Act 1998 and the Official Secrets Act 1989.

Forensic Science

Dr. Gibson: To ask the Secretary of State for the Home Department which police forces in England conduct preliminary forensic testing in-house. [201458]

Mr. McNulty: No police forces in England conduct preliminary forensic testing relating to DNA in-house.

Genetics: Databases

Mr. Wallace: To ask the Secretary of State for the Home Department what contingency plans she has in place in the event of large-scale losses of data from the DNA database. [201580]

Meg Hillier: The operation of the national DNA database is overseen by the custodian, who manages it both through his own staff and through a contract awarded to the Forensic Science Service (FSS), for operation and management of the NDNAD and its IT systems. The FSS is required to demonstrate compliance with specified security requirements, and the NDNAD system is subject to independent security accreditation.

Under business continuity planning arrangements for the NDNAD, the data held on it are backed up and could be recovered in the event of loss of data from the database.

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department how many convictions there have been where the guilt of the person was determined by reference to samples held on the national DNA database, broken down by category of offence. [201979]

Meg Hillier: Information on the number of convictions obtained by reference to DNA is not collected, as convictions are obtained by integrated criminal investigation not by forensic science alone. However, data have been collected since 1998 on detections in which a DNA match was available and/or played a part in solving the crime. It is estimated that over the period April 1998 to March 2008, there have been over 272,000 detections. A breakdown of this figure by year is given in table 1. A breakdown of detections in 2007-08 by crime type is given in table 2.

Table 1: Number of detections in which a DNA match was available or played a part, April 1998 to March 2008, England and Wales

	Detected crimes in which a DNA match was available	Additional detections arising from DNA match[1]	Total detected crimes in which a DNA match was available or played a part
1998-99	6,151	n/a	6,151
1999-2000	8,612	n/a	8,612
2000-01	14,785	n/a	14,785
2001-02	15,894	6,509	22,403
2002-03	21,098	12,717	33,815
2003-04	20,489	15,899	36,388
2004-05	19,873	15,732	35,605
2005-06	20,349	19,960	40,309
2006-07	19,949	21,199	41,148
2007-08	17,614	15,420	33,034
Total	164,814	107,436	272,250

n/a = Not available.
[1] Additional detections may result from the original crime with the DNA match due to the identification of further offences through forensic linkage or through admission by the offender.

Table 2: Detections, 2007-08, England and Wales

Crime type	Number
Homicide	83
Rape	184
Robbery	617
Other violent crime	849
Other sex offences	64
Drugs offences	321
Domestic burglary	3,443
Other burglary	3,888
Theft from vehicle	2,201
Theft of vehicle	1,379
Criminal damage	3,180
All other recorded crime	1,407
Total	17,614

Mr. Ruffley: To ask the Secretary of State for the Home Department how many requests for information on the national DNA database her Department has received from other countries in 2007-08. [219142]

Meg Hillier: There are three categories of information sought from the national DNA database (NDNAD) by other countries.

1. Searches carried out against the NDNAD of DNA profiles from outstanding serious crimes or for the identification of an unknown deceased person believed to be a United Kingdom national. Reports are issued directly to the United Kingdom National Central Bureau for Interpol (UK NCB), based at the Serious Organised Crime Agency (SOCA), as to the outcome of each profile search. There were 727 responses to profile search requests in 2007-08.

2. Requests for the DNA profile held for a subject on the NDNAD, where fingerprints have been provided to the country that the individual currently resides in. Again this is information provided to SOCA. There were 89 subject DNA profiles provided in 2007-08.

3. Database management information. This provides the number of subject and crime scene DNA profile records held on the NDNAD and the number of match reports generated. Countries who do not have a DNA database use this information to demonstrate the success of the United Kingdom Database, to support their case for legislation in their own country for a DNA database.

Requestors are directed to the most recent published NDNAD annual report, thus no figures are kept for the numbers of such requests.

Mr. Ruffley: To ask the Secretary of State for the Home Department what the cost to her Department of maintaining the national DNA database was in 2007-08. [219144]

Meg Hillier: I refer the hon. Member to the answer given to the hon. Member for Pendle (Mr. Prentice) on 14 August 2008, *Official Report*, columns 1566-67W.

Members: Correspondence

Mr. Paul Goodman: To ask the Secretary of State for the Home Department (1) when she plans to reply to question 198757, tabled by the hon. Member for Wycombe on 31 March 2008, on the role of statutory agencies in the Channel Project; [213421]

(2) when she plans to reply to question 198654, tabled by the hon. Member for Wycombe on 31 March 2008, on discussions with police forces on the setting up of the Channel Project to combat violent extremism; [213422]

(3) when she plans to reply to question 198758, tabled by the hon. Member for Wycombe on 31 March 2008, on areas selected under the Channel Project; [213423]

(4) when she plans to reply to question 198759, tabled by the hon. Member for Wycombe on 31 March 2008, on consultations on the Channel Project; [213424]

(5) when she plans to reply to question 198655, tabled by the hon. Member for Wycombe on 31 March 2008, on her Department's role in the development of the Channel Project. [213425]

Mr. McNulty: I replied to the hon. Member on 22 July 2008, *Official Report*, columns 1375-76W.

Mr. Paul Goodman: To ask the Secretary of State for the Home Department (1) when she plans to reply to Question 198751, tabled by the hon. Member for Wycombe on 31 March 2008, on the criteria to be used to determine the effectiveness of the Channel Project to combat violent extremism; [214018]

(2) when she plans to reply to Question 198753, tabled by the hon. Member for Wycombe, on 31 March 2008, on Channel Project expenditure on combating violent extremism; [214019]

(3) when she plans to reply to Question 198755, tabled by the hon. Member for Wycombe on 31 March 2008, on the cost of the Channel Project to combat violent extremism; [214020]

(4) when she plans to reply to Question 198754, tabled by the hon. Member for Wycombe on 31 March 2008, on local community groups that the Channel Project to combat violent extremism plans to fund; [214021]

(5) when she plans to reply to Question 198756, tabled by the hon. Member for Wycombe on 31 March 2008, on the numbers of people employed by the Channel Project to combat violent extremism. [214022]

Mr. McNulty *[holding answer 26 June 2008]:* I replied to the hon. Member on 22 July 2008, *Official Report*, columns 1375-76W.

Mr. Paul Goodman: To ask the Secretary of State for the Home Department when she plans to reply to question 198752 tabled by the hon. Member for Wycombe on 31 March 2008 on discussions with the Secretary of State for Communities and Local Government on the Channel project. [214766]

Mr. McNulty *[holding answer 30 June 2008]:* I replied to the hon. Member on 22 July 2008, *Official Report*, column 1376W.

Passports

Mrs. Laing: To ask the Secretary of State for the Home Department what the timetable is for the publication of draft legislation on the procedures for the issue and revocation of passports. [220479]

Meg Hillier: The Government have decided in principle to introduce such legislation but no timetable has yet been set.

Police: Bureaucracy

Mr. Ruffley: To ask the Secretary of State for the Home Department whether the Reducing Bureaucracy Awards scheme will continue in 2008; and if she will make a statement. [200386]

Mr. McNulty: The awards scheme will not continue in 2008. The National Policing Improvement Agency (NPIA) now leads the Government's work in this area and is working very closely with forces, authorities and frontline officers and staff to take this work forward.

Jan Berry will shortly take up a new post focussed on providing an independent voice to Government and the service to further improve performance in this area.

Mr. Ruffley: To ask the Secretary of State for the Home Department pursuant to the answer of 31 March 2008, *Official Report*, column 602W, on bureaucracy, what proposals were made by those who received awards; and which police forces have adopted each of those proposals. [200387]

Mr. McNulty: The information requested is as follows:

2003-04

1st place: Lancashire Constabulary—proposal related to officers no longer responding to requests from the DVLA to seize driving licenses.

Joint 2nd place: Metropolitan Police Service—proposal suggested bar coding prisoners' property when booked into a station.

3rd place: Thames Valley Police—proposal suggested improvements to exchange of data between officers and officials at DWP.

2004-05

1st place: Gloucestershire Constabulary—proposal suggested digitally recording interviews with suspects.

2nd place: Lancashire Constabulary—proposal suggested taking fingerprints on the street to confirm identity.

3rd place: Greater Manchester Police—proposal suggested detention officers issuing penalty notices for disorder (PND) in custody, under the supervision of a police officer.

2005-06

1st place: Metropolitan Police Service—proposal suggested automatic self population of originator personal details on electronic forms.

2nd place: Lancashire Constabulary—Proposal suggested the production of a PND direct from the police custody computer as a print out.

Special award: Chief Constable Martin Baker (Dorset Constabulary)—for his work on the .sorted intranet based initiative.

The Home Office does not hold central records for the number of forces which have adopted these proposals.

Mr. Ruffley: To ask the Secretary of State for the Home Department who the current National Bureaucracy Adviser on Police Reform is. [219116]

Mr. McNulty: The role of national bureaucracy adviser came to an end in the summer of 2007. The National Policing Improvement Agency (NPIA) now leads the Government's work in this area and is working very closely with forces, authorities and frontline officers and staff to take this work forward.

Jan Berry will shortly take up a new post focussed on providing an independent voice to Government and the service to further improve performance in this area.

Police: Ethnic Groups

Keith Vaz: To ask the Secretary of State for the Home Department what steps her Department is taking to encourage people from an ethnic minority background to join the police force. [218143]

Mr. McNulty: The Home Office proposal to develop an Equality, Diversity and Human Rights Strategy is set out in Cm 7448 "From the Neighbourhood to National: Policing Our Communities Together" at chapter 4 (4.16-4.24).

http://police.homeoffice.gov.uk/publications/police-reform/Policing_Green.pdf

Initiatives aimed at encouraging people from minority ethnic backgrounds to join the police force vary from force to force, but include: targeted advertising; mentoring; familiarisation days; and specific training to support candidates who may need assistance with language skills. The Government have encouraged the development of dedicated outreach posts to help forces build sustainable relationships with communities and encourage applications from those groups who are under represented in the service.

Keith Vaz: To ask the Secretary of State for the Home Department how many interview panels for police officer recruits in police forces in England and Wales include a person from an ethnic minority as standard practice. [218144]

Mr. McNulty: The National Policing Improvement Agency (NPIA) is responsible for the design and quality assurance of police officer recruitment across England and Wales. New police officers are selected against national recruitment standards using the Police SEARCH® Assessment Centre selection technique. The Assessment Centre is centrally designed and locally delivered by forces using nationally accredited assessors and interviewers. There are currently 236 (12.1 per cent.) minority ethnic assessors on the central database of accredited assessors.

Keith Vaz: To ask the Secretary of State for the Home Department what policies are in place to encourage police officers in England and Wales from an ethnic minority background to apply for senior positions. [218145]

Mr. McNulty: The Home Office proposal to develop an Equality, Diversity and Human Rights Strategy is set out in Cm 7448 "From the Neighbourhood to National: Policing Our Communities Together" at chapter 4 (4.16—4.24). Our general approach to leadership and senior appointments is set out at chapter3.

http://police.homeoffice.gov.uk/publications/police-reform/Policing_Green.pdf

Keith Vaz: To ask the Secretary of State for the Home Department (1) how many and what percentage of police constables in England and Wales are from an ethnic minority; [218154]

(2) how many and what percentage of police officers in England and Wales at a rank above police constable are from an ethnic minority; [218155]

(3) how many and what percentage of *(a)* special constables and *(b)* police community support officers in England and Wales are from an ethnic minority; [218156]

(4) how many and what percentage of chief constables in England and Wales are from an ethnic minority; [218157]

(5) how many and what percentage of police commanders in England and Wales are from an ethnic minority. [218158]

Mr. McNulty: The latest available information relates to 31 March 2008 and is given in the following table. Separate information for chief constables and police commanders is not collected centrally so figures for ACPO rank officers are provided instead.

Number of police officers and staff in post, England and Wales, 31 March 2008[1]

		Number in post		
	Measure[2]	*Total*	*Ethnic minority*	*Ethnic minority percentage of total*
Police Constables	fte	108,884	4,823	4.4
Officers above the rank of police constable[3]	fte	32,975	970	2.9
Special Constables	hc	14,547	1,351	9.3
Police Community Support Officers	fte	15,805	1,813	11.5
ACPO rank officers[4]	fte	202	7	3.5

[1] Figures relate to the 43 forces in England and Wales, and exclude British Transport Police and secondments to Central Service organisations.
[2] Measures are in terms of full time equivalents (fte), except for special constables where a head count (hc) measure is appropriate.
[3] Includes Sergeant, Inspector, Chief Inspector, Superintendent, Chief Superintendent and ACPO ranks.
[4] Includes Assistant Chief Constable, Deputy Chief Constable and Chief Constable; in the Metropolitan Police Service, Commander, Deputy Assistant Commissioner, Assistant Commissioner, Deputy Commissioner and Commissioner; in the City of London Police, Commander, Assistant Commissioner and Commissioner.

HEALTH

Abortion

Peter Bottomley: To ask the Secretary of State for Health how many terminations of pregnancies of women in each *(a)* age group and *(b)* region have taken place in each of the last 10 years. [223429]

Mr. Bradshaw: The information is shown in the following table.

Abortions by age and strategic health authority/region[1] of residence, England and Wales, 1998 to 2007

[1] There were changes in boundaries in 2006, 2002 and 1999. Strategic health authorities (SHA) are shown for 2006 and 2007. Government office regions are shown for 2002 to 2005. These are the same as the new SHAs, with the exception of the south east region, which equates to the combined area covered by the new South Central and South East Coast SHAs. Prior to 2002 data are shown for regional offices.

Note:
Age not stated are included in age group 20-24.

Blackpool Primary Care Trust: Cancer

Mr. Marsden: To ask the Secretary of State for Health what progress Blackpool Primary Care Trust has made towards achieving its cancer screening targets in each year since 1997. [223129]

Mr. Bradshaw: This information is set out in the following tables:

Breast screening programme: coverage of women aged 53-64 by specified organisations, at 31 March 1998 to 2007

n/a = not available
[1] This is the number of women in the registered population less those recorded as ineligible.
[2] Data for 2003 to 2006 have been aggregated to match current primary care organisation boundaries and need to be treated as estimates. Data before 2003 are for health authority areas and are not directly comparable.
Notes:
1. The coverage of the breast screening programme is the proportion of women resident and eligible that have had a test with a recorded result at least once in the previous 3 years.
2. Coverage of the screening programme is currently best assessed using the 53-64 age group as women may be first called at any time between their 50th and 53rd birthdays.
3. The breast screening programme covers women aged 50-64 but it was extended to invite women aged 65-70 in April 2001.
4. The last unit began inviting women aged 65-70 in April 2006 and full coverage should be achieved by 2008-09.

n/a = not available
[1] This is the number of women in the resident population less those with recall ceased for clinical reasons.
[2] Data for 2003 to 2006 have been aggregated to match current PCO boundaries and need to be treated as estimates. Data before 2003 are for health authority areas and are not directly comparable.
Notes:
1. National policy for the cervical screening programme is that eligible women aged 25 to 64 should be screened every three or five years (women aged 25 to 49 are screened every three years, those aged 50 to 64 every five years).
2. Data prior to 2002 are estimates, original data were based on last test with a result, not last adequate test (as used currently) and have been adjusted to allow for this.
3. Data prior to 1999 has been revised from published data, to not exclude from the eligible population (denominator) women whose recall was ceased due to age or other non-clinical reasons.

Cancer

Mr. Lansley: To ask the Secretary of State for Health what the *(a)* population, *(b)* five year cancer survival rate and *(c)* NHS spending on cancer was in each cancer network in the most recent period for which figures are available. [223358]

Mr. Bradshaw: The following table shows the latest estimated populations for each cancer network as of

January 2008 and the national health service spending by population expenditure on cancer in 2006-07 for each cancer network.

Cancer network name	Estimated population	Expenditure by network population—2006-07 (£000)
Lancashire and South Cumbria	1,513,734	133,275
Greater Manchester and Cheshire	3,026,670	274,357
Merseyside and Cheshire	2,013,727	187,023
Yorkshire	2,636,000	238,854
Humber and Yorkshire Coast	1,053,083	86,902
North Trent	1,772,905	148,830
Pan Birmingham	1,902,118	167,296
Arden	989,922	88,843
Mid Trent	1,622,313	160,503
Derby/Burton	694,250	58,756
Leicestershire Northants and Rutland	1,612,309	128,794
Mount Vernon	1,237,808	88,326
West London	1,829,803	117,649
North London	1,513,763	116,330
North East London	1,535,083	124,828
South East London	1,527,993	115,738
South West London	1,555,376	119,113
Peninsula	1,632,990	125,903
Dorset	698,684	67,531
Avon, Somerset and Wiltshire	1,879,525	145,581
3 Counties	1,035,537	76,604
Thames Valley	2,328,161	164,428
Central South Coast	1,950,651	151,874
Surrey, West Sussex and Hampshire	1,193,245	102,870
Sussex	1,154,727	89,722
Kent and Medway	1,624,863	124,839
Greater Midlands	1,882,323	151,263
North of England	2,995,948	270,834
Anglia	2,667,897	196,578
Essex	1,384,217	98,944

Source:
National Cancer Intelligence Network and the Department of Health

Collection and publication of one and five year survival rates is the responsibility of the Office for National Statistics and can be obtained from their website:

www.statistics.gov.uk/CCI/nugget.asp?ID=861&Pos=1&ColRank=1&Rank=374

A copy of these data have been placed in the Library.

It is not possible to provide the five-year cancer survival rates for each cancer network, as parts of this data may make it possible to identify individual patients.

Cervical Cancer: Yorkshire and the Humber

David Davis: To ask the Secretary of State for Health what the take-up rate for cervical smear tests was in *(a)* the East Riding of Yorkshire, *(b)* Hull and *(c)* North Lincolnshire primary care trust areas in each of the last 10 years. [223293]

Mr. Bradshaw: This information is set out in the following table.

	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007
East Riding Health Authority

Cholesterol

Mr. Marsden: To ask the Secretary of State for Health what steps he plans to take to reduce reported high exception rates to lowering cholesterol levels among patients in spearhead primary care trusts. [223131]

Mr. Bradshaw: The latest research by the National Primary Care Research and Development Centre shows that although practices in deprived areas have slightly higher exception rates for patients than practices in affluent areas, deprivation related variation in reported quality of care for measured activities reduced during the first three years of the quality outcomes framework resulting in more equitable delivery of health care for these activities.

Nevertheless, the average rate of exception reporting is just under 6 per cent. There are considerable variations between indicators and between practices. We propose to discuss with the profession how we can minimise exception reporting (as recommended by the National Audit Office) in order to ensure that all patients who would benefit from treatment have access to it.

Clostridium

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* deaths from and *(b)* cases of (i) clostridium difficile and (ii) MRSA there have been in each year since 1997, broken down by region. [223356]

Mr. Bradshaw: Death certificate data published by Office for National Statistics (ONS) covers all certificates where *methicillin-resistant Staphylococcus aureus* (MRSA) or *clostridium difficile* (*C. difficile*) is cited as a contributory factor to or an underlying cause of death. Death certificates do not record the place where an infection was acquired.

Many patients who become infected with a healthcare associated infection (HCAI) have other serious and

potentially fatal underlying medical conditions. Doctors do not record all diseases or conditions present at death, only those that contribute directly to it. It is a matter of individual professional judgment whether the doctor lists an HCAI as a contributory cause and this will depend, generally, on whether the doctor thinks that the patient would have survived significantly longer if they had not developed an infection.

There has been a number of initiatives to raise the profile of HCAIs and improve their acknowledgement as diagnoses in their own right. In July 2005 and October 2007 the chief medical officer reminded doctors of the importance of giving full and accurate information on the death certificate, particularly in recording HCAIs.

Table 1 provides regional data on the number of death certificates on which *C. difficile* was mentioned for 1999 and 2001 to 2007.

Table 2 provides regional data on the number of death certificates on which MRSA was mentioned from 1997 to 2007.

NHS acute trusts are required to report all *C. difficile* toxin positive faecal specimens and all MRSA positive blood cultures processed by their laboratories, whether clinically significant or not and whether acquired in that trust or elsewhere.

Tables 3 to 5 provide data on mandatory surveillance data for *C. difficile* and MRSA.

Mandatory surveillance of *C. difficile* infection for patients aged 65 years and over began in January 2004. Table 3 provides regional data on the number of recorded *C. difficile* cases for patients aged 65 years and over by calendar year 2004 to 2007.

Mandatory surveillance of *C. difficile* infection was extended to include data for all patients aged two years of age and over in April 2007. Table 4 provides regional data on the number of recorded *C. difficile* cases for patients aged 2-64 from April 2007 to March 2008.

Mandatory surveillance of MRSA bacteraemia (or bloodstream infections) began in April 2001. Table 5 provides regional data on the number of recorded MRSA bacteraemia cases by financial year from 2001-02 to 2007-08. There is no mandatory surveillance of non-bacteraemia MRSA infections, these present a significantly lower risk in terms of patient safety.

All tables have been placed in the Library.

Colorectal Cancer: Screening

Mr. Crausby: To ask the Secretary of State for Health what estimate he has made of the number of people participating in the bowel cancer screening programme *(a)* in Bolton and *(b)* nationally. [223379]

Mr. Bradshaw: As at 31 July 2008, uptake in the area covered by Bolton primary care trust is 50.02 per cent., with 16,252 invitation letters sent out and 8,130 testing kits returned since 12 February 2007, when the roll out of the NHS Bowel Cancer Screening programme commenced in Bolton.

Nationally, from 3 July 2006, when the first invitations to take part in the NHS Bowel Cancer Screening programme were issued, to 31 July 2008, uptake is 51.75 per cent. 1,203,015 invitation letters have been sent and 622,384 testing kits returned.

Dementia: Research

Angela Browning: To ask the Secretary of State for Health (1) how much his Department has spent on research into *(a)* dementia excluding DenDRon and *(b)* neurogenerative diseases since 2000; [223142]

(2) how much his Department has spent on research into non-Alzheimer's dementia since 2000. [223143]

Mr. Bradshaw: Both the Department and the Medical Research Council (MRC) support research into neurodegenerative disease and dementia. The expenditure information available is shown in the following table.

£ million

	Expenditure on dementia research		
	Department[1]	*Medical Research Council*	*Total*
2002-03	1.6	6.6	8.2
2003-04	1.1	7.4	8.5
2004-05	19	6.2	25.2
2005-06	18.3	6	24.3
2006-07	22.8	6.4	29.2

[1] Includes Dementia and Neurodegenerative Diseases Research Network spend of £0.4 million in 2005-06 and £1.8 million in 2006-07.

The Departmental figures for the years from 2002-03 to 2003-04 relate to national research programme expenditure on projects concerned with the diagnosis, treatment and care of people with dementia. They do not include the part of the research and development allocations made annually at that time to national health service providers and spent on dementia and other progressive neurodegenerative conditions research. That information was not collected prior to 2004-05.

The Department does not collect expenditure data at the level that would be required to provide details of spend on particular dementia types. Details of individual projects supported in the NHS in the period in question can be found on the archived national research register at:

https://portal.nihr.ac.uk/Pages/NRRArchiveSearch.aspx.

The MRC awarded over £150 million to support research on neurodegenerative diseases between 2002 and 2006. Details of annual expenditure in this area is not currently available.

Angela Browning: To ask the Secretary of State for Health what consideration his Department has given to funding research into off-patent drug treatments for dementia. [223144]

Mr. Bradshaw: A draft of a National Dementia Strategy was published on 19 June for consultation. The consultation closes on 11 September 2008 and we will carefully consider all the responses we receive before deciding the final shape of the National Strategy, and what resources are available to support its implementation. As part of this consultation we have invited views on a dementia research summit for funders, charities and industry to review how all parties can work together to deliver a programme of research into prevention, cause, cure and care and, separately, a review of the use of anti-psychotic drugs for people with dementia.

Mr. Spellar: To ask the Secretary of State for Health how much his Department has spent on research into

the causes and treatment of dementia in each of the last five years; and what the projected level of spending on such research is for the next three years. [223232]

Mr. Bradshaw: Both the Department and the Medical Research Council support research into dementia. Annual expenditure figures are shown in the following table.

Expenditure on dementia research

£ million

	Department	*Medical Research Council*	*Total*
2002-03	1.6	6.6	8.2
2003-04	1.1	7.4	8.5
2004-05	19	6.2	25.2
2005-06	18.3	6	24.3
2006-07	22.8	6.4	29.2

The departmental figures for the years from 2002-03 to 2003-04 relate to national research programme expenditure. They do not include the part of the research and development allocations made annually at that time to national health service providers and spent on dementia and other neurodegenerative conditions research. That information was not collected prior to 2004-05.

Implementation of the Department's research strategy Best Research for Best Health is being managed by and through the National Institute for Health Research (NIHR) and has resulted in an expansion of our research programmes and in significant new funding opportunities for health research. Awards are made after open, competitive, peer review. Future levels of expenditure on dementia will be determined by the success of relevant bids for NIHR funding. A number of those made over the last two years have already been successful.

Dental Services

Mr. Frank Field: To ask the Secretary of State for Health when he expects to publish his report on the future of NHS dentistry. [223318]

Mr. Bradshaw: In order to identify and spread good practice the Department will evaluate how local commissioning is working in terms of the patient experience—both access and quality of services, and the incentives it offers to increase access and encourage prevention and health promotion, as well as treatment. The Department will also set out a vision for national health service dentistry in five years time. The evaluation will take place over the next few months and will be completed by the end of the year.

Dental Services: Termination of Employment

Mr. Lansley: To ask the Secretary of State for Health what his latest estimate is of the *(a)* gross and *(b)* net number of dentists that have left the NHS since 1 April 2006. [223357]

Mr. Bradshaw: The information requested is contained in NHS Dental Statistics for England: 2007-08 which has been placed in the Library.

Following a recent consultation exercise on how to count the dental work force carried out by the NHS Information Centre, these figures are based on a revised methodology. The new measure of national health service dentists counts the number of dental performers with NHS activity recorded via FP17 claim forms in each year. The NHS Information Centre has published figures for the years ending 31 March 2007 and 2008.

Dentists who had activity recorded against them via FP17 forms in a year, but none the following year are recorded as a "leaver" in their last year of activity. Information on the numbers of leavers is only available at present for 2006-07. Information on the number of leavers for 2007-08 will be available only after the end of 2008-09.

The number of dentists who left the NHS in 2006-07 and those who joined the NHS in 2007-08 are available in Table 33 of the report. The numbers of dentists in 2006-07 and in 2007-08 and the difference between the two years are available in Table 32 of the report which is also available on the Information for Health and Social Care website at:

www.ic.nhs.uk/pubs/dental0708

Dental Services: Video Conferencing

Mike Penning: To ask the Secretary of State for Health if he will make an assessment on the potential of video-conferencing to *(a)* facilitate the deregulation of dental care and *(b)* allow dental hygienists to deliver a greater proportion of treatment with remote diagnosis by dentists. [223185]

Mr. Bradshaw: This is an interesting suggestion, which we will bring to the attention of the General Dental Council (GDC). The GDC is responsible for the regulation of dentists and dental care professionals (DCPs) including dental hygienists. The GDC's rules currently require that dental hygienists work to a treatment plan prepared by a dentist. However, in the spring, the GDC issued a consultation paper on the scope of practice of DCPs which invited comments on what additional training would be required to allow dental hygienists to see patients directly. The results of the consultation will be considered by a newly constituted GDC, which will be established in 2009.

Departmental Alcoholic Drinks

David Simpson: To ask the Secretary of State for Health (1) what measures are in place in his Department to monitor expenditure on alcohol for hospitality purposes; [219599]

(2) what purchasing process is used by his Department for the procurement of alcohol for hospitality purposes. [219954]

Mr. Bradshaw: The Department does not monitor expenditure on alcohol for hospitality purposes.

Departmental Buildings

Mr. Betts: To ask the Secretary of State for Health what his Department's policy is on improving the energy efficiency of the buildings which it *(a)* rents and *(b)* owns; what changes there have been in the energy efficiency of such buildings in the last (i) five and (ii) 10 years; and whether his Department has adopted targets on energy efficiency improvements in the buildings it occupies over the next (A) five and (B) 10 years. [221088]

Mr. Bradshaw: This Department supports and aims to meet the Government's targets to reduce carbon

emissions and improve the energy efficiency of the Government estate. While our energy efficiency (measured as consumption per m^2) has reduced over the period, to date largely due to our policy of closing buildings and concentrating more staff in our remaining estate.

We are committed to achieving the current Government targets to improve our energy efficiency by 15 per cent. by 2010, and 30 per cent. by 2020, relative to 1999-2000. We are working with the Carbon Trust to identify energy saving measures, and to implement a Carbon Management Programme throughout our core estate and in our arms length bodies.

(i) The changes in energy efficiency of our buildings (measured in kWh per m^2) since 1999-2000, which is the earliest year for which figures are available, are:

2006-07

	Percentage
Gas/fuel oil	-16
Electricity	+29
Total	+12

(ii) The change since 2002-03 is as follows:

2006-07

	Percentage
Gas	+0.5
Electricity	+31.7
Total	+20.9

Mr. Betts: To ask the Secretary of State for Health what account his Department takes of the level of energy efficiency of buildings before entering into agreements to *(a)* rent and *(b)* purchase those buildings. [221104]

Mr. Bradshaw: The Department has not entered into any rental or purchase commitments for any buildings where it is responsible for energy efficiency within the last 20 years.

In the event that the Department enters into any arrangements for a new purchase or rental, due diligence would be undertaken to ensure that the building and its fabric met criteria for energy efficient operation and that any Display Energy Certificate, DEC, (to be introduced from October 2008) was scrutinised.

Mr. Hoban: To ask the Secretary of State for Health which organisations have received *(a)* free and *(b)* discounted room hire from (i) his Department and (ii) its agencies in each of the last five years; and what the commercial value of the discount was in each case. [221582]

Mr. Bradshaw: The Department and its agencies have not given any free or discounted room hire to non public or commercial organisations in the last five years. Rooms are however made available to other Government Departments and organisations in the public sector.

Departmental Cleaning Services

John McDonnell: To ask the Secretary of State for Health which contractors his Department uses to undertake cleaning duties; and what the hourly rates of pay are for cleaners working in the Department. [223280]

Mr. Bradshaw: The Department uses Resource as its cleaning contractor. Current hourly rates of pay for cleaning staff are as follows:

	£ per hour
Cleaner part-time	5.52
Cleaner full-time	6.00
Supervisor part-time	6.30
Supervisor full-time	8.25

Departmental Compensation

Mr. Hayes: To ask the Secretary of State for Health what the 10 highest payments made by his Department were under property compensation cases brought against it over the last 12 months for which figures are available; which of the cases were *(a)* contested and *(b)* uncontested by his Department; and what the nature of each incident was. [216706]

Mr. Bradshaw: There have been two cases of property compensation made in 2006-07. This information has been extracted from the Department's Losses and Special Payments Register for which information was last available 2006-07 and shown in the following table.

Description	*Number of cases*	*Value (£)*
Compensation payment to a member of staff after monies were stolen on DH premises.	1	170.00
Compensation payment to a member of staff after damage to personal property on DH premises.	1	20.00
Grand total	2	190.00

Neither case was contested.

Departmental ICT

Mr. Philip Hammond: To ask the Secretary of State for Health what information technology projects initiated by his Department have been cancelled prior to completion in the last five years; and what the cost of each such project was to the public purse. [221711]

Mr. Bradshaw: This information could be obtained only at disproportionate cost.

Departmental Information Officers

Mr. Hoban: To ask the Secretary of State for Health what the average cost to his Department was of employing a press and media officer in 2007-08. [215191]

Mr. Bradshaw: The Department's media centre employs members of staff at various grades from executive officer through to senior civil service 1 (salary scales given in the following table). The average cost of employing a member of staff in 2007-08, including salary, allowances, pension and national insurance contributions was

£49,440.71. This is not an average salary figure, it is a figure that includes all of the extra costs to the Department on top of the salary.

	£	
	Minimum	*Maximum*
Executive Officer	21,579	28,290
Higher Executive Officer	26,781	35,687
Senior Executive Officer	32,357	43,844
Grade 7	42,755	58,982
Grade 6	53,074	71,470
Senior Civil Service 1	57,300	116,000

Departmental Internet

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 3 March 2008, *Official Report*, column 900W, on departmental intranet, whether the individuals pictured on the green banner headings of his Department's webpages *(a)* http://www.dh.gov.uk/en/index.htm, *(b)* http://www.dh.gov.uk/en/SocialCare/index.htm, *(c)* http://www.dh.gov.uk/en/Publichealth/index.htm, *(d)* http://www.dh.gov.uk/en/Publicationsandstatistics/index.htm and *(e)* http:www.dh.gov.uk/en/News/index.htm are employed by the NHS [221448]

Mr. Bradshaw: Images from the following pages of the Department's website have been sourced as follows:

(a) htttp://www.dh.gov.uk/en/index.htm—(NHS and social care staff and service users)

(b) htttp://www.dh.gov.uk/en/SocialCare/index.htm—(Social care staff and care home resident)

(c) htttp://www.dh.gov.uk/en/Publichealth/index.htm

(d) htttp://www.dh.gov.uk/en/Publicationsandstatistics/index.htm

(e) htttp://www.dh.gov.uk/en/News/index.htm

The final three web pages contain images sourced from a commercial photographic library.

We are unable to determine whether any of these individuals are employed by the NHS.

Departmental Managers

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 16 May 2008, *Official Report*, column 1818W, on departmental managers, on what dates meetings of the national clinical directors have taken place in the last 12 months; and if he will place in the Library copies of the minutes of each meeting. [209185]

Mr. Bradshaw: In the 12 months considered, the national clinical directors (NCDs) have had their monthly meetings on:

15 May 2008;
17 April 2008;
13 March 2008;
14 February 2008;
17 January 2008;
12 December 2007;
13 November 2007;
3 October 2007;
21 September 2007;
10 July 2007; and
19 June 2007

The NCDs did not meet during the month of August 2007.

The monthly meeting of the NCDs is primarily for the NCDs to update each other on their activities and for them to be kept informed on policy developments within the Department. The minutes serve to inform those directors not present of the issues that were discussed. Placing full copies of the minutes of these meetings in the Library would inhibit future free and frank discussion of the directors. Summaries of the minutes of each of the last 12 month's meetings have been placed in the Library.

Departmental Overtime

Mr. Hoban: To ask the Secretary of State for Health how many hours of overtime were worked by staff in each pay grade in his Department in each of the last 12 months. [221244]

Mr. Bradshaw: The hours of overtime worked by staff in the Department staff in each of the last 12 months broken down by pay grade, are presented in the following table.

	Grades								
	AO	*EO*	*HEO*	*FS*	*SEO*	*G7*	*G6*	*SCS*	*Total*

Departmental Paper

David Simpson: To ask the Secretary of State for Health what percentage of paper used *(a)* for photocopying and *(b)* in printed publications by his Department was from recycled sources in each of the last two years. [220725]

Mr. Bradshaw: For photocopying purposes the Department uses 100 per cent. recycled paper.

For printed publications use of recycled paper accounts for 50 per cent. of the paper used.

Departmental Pay

Mr. Philip Hammond: To ask the Secretary of State for Health how much was claimed in reimbursable expenses by press officers in his Department and its agencies in each of the last three financial years. [221178]

Mr. Bradshaw: The amount claimed in reimbursable expenses by Departmental press officers in each of the last three financial years is detailed in the following table.

	Amount claimed (£)
2005-06	5,046.98
2006-07	3,329.47
2007-08	2,495.45

Figures for the amount claimed by agencies are not held centrally.

Departmental Postal Services

Mr. Hoban: To ask the Secretary of State for Health what steps his Department has taken to monitor the cost of its mail services in the last 12 months. [221482]

Mr. Bradshaw: The Department monitors the cost of its email services using the Royal Mail Online Business Account.

Departmental Procurement

David Simpson: To ask the Secretary of State for Health what his Department's policy is on requesting discounts from its suppliers in return for swift payment of invoices. [220434]

Mr. Bradshaw: The Department's standard terms and conditions state that the contractor shall be paid monthly in arrears within 30 days upon receipt of a properly prepared invoice. The Department does not have a standard policy regarding discounts for early payments.

Departmental Public Participation

Mr. Hoban: To ask the Secretary of State for Health what *(a)* listening exercises and *(b)* public forums his Department has held in each of the last two years; and what the (i) purpose, (ii) cost, (iii) private contractor and (iv) amount paid to the private contractor was in each case. [221353]

Mr. Bradshaw: This information could be provided only at disproportionate cost.

Departmental Sick Leave

Jenny Willott: To ask the Secretary of State for Health what the average length of single periods of sick leave taken by staff in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility was in each of the last five years; and if he will make a statement. [215977]

Mr. Bradshaw: The average length of single periods of sick leave, in days, for the Department and its agencies in each of the last three years are presented in the following table.

Organisation	*2007-08*	*2006-07*	*Days 2005-06*
Department of Health	4.03	5.84	6.73
NHS Purchasing and Supply Agency	2.76	4.25	6.55
Medicines and Healthcare products Regulation Agency	4.55	3.83	4.00

Information is not available before 2005. Cabinet Office reporting changed from calendar years to financial years between 2005 and 2006.

Providing information for the other bodies reporting to the Department would incur disproportionate costs.

Departmental Sick Pay

Jenny Willott: To ask the Secretary of State for Health how much was paid in sick pay to staff in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility in each of the last five years; what proportion of the staffing expenditure of each body this figure represented in each such year; and if he will make a statement. [216143]

Mr. Bradshaw: Estimates of the amounts paid in sick pay to staff in the Department and its agencies in the last three years, and the proportion of staffing expenditure this represents for each body, are presented in the following table.

	Department of Health		*Medicines and Healthcare products Regulatory Agency*		*NHS Purchasing and Supply Agency*	
	Sick pay (£)	*Proportion (percentage) of staffing expenditure*	*Sick pay (£)*	*Proportion (percentage) of staffing expenditure*	*Sick pay (£)*	*Proportion (percentage) of staffing expenditure*
2007-08	2,386,000	2.36	1,166,000	3.07	212,000	2.09
2006-07	2,926,000	2.89	1,116,000	2.93	249,000	2.44
2005	3,151,000	3.11	490,000	1.29	701,000	6.89

Notes:
1. The figures for 2007-08 are based on the average number of working days lost per member of staff due to sickness absence in that year, the average salary of staff at the middle of the year (September 2007) and the number of staff at the middle of the year (September 2007). Figures for 2006-07 and 2005 use the same average salaries and numbers of staff, but actual working days lost for the year in question. The use of average salaries will overestimate payments and expenditure since more senior (more highly paid) staff take less sickness absence than more junior (lower paid) staff, based on analysis of absence by grade in 2007-08.
2. The change from calendar years to financial years between 2005 and 2006 represents a change in Cabinet Office sickness absence reporting periods. Information is not available for years before 2005.
3. Providing information for other bodies reporting to the Department would incur disproportionate costs.

Departmental Telephone Services

Julia Goldsworthy: To ask the Secretary of State for Health what *(a)* 0800, *(b)* 0845 and *(c)* 0870 telephone numbers for the public are in use by (i) his Department and (ii) agencies which report to his Department. [200127]

Mr. Bradshaw: The Department runs or supports the following lines, using the *(a)* 0800, *(b)* 0845 telephone numbers for the public. This corrects the information given in written answers to the hon. Member for Falmouth and Camborne (Julia Goldsworthy), on 17 December 2007, *Official Report*, column 1206W, and to the hon. Member for Wolverhampton, South-West (Rob Marris) on 28 January 2008, *Official Report*, columns 109-10W.

The Department ran the following non-revenue generating lines, using *(c)* 0870 numbers. While they were mainly for the use of national health service and social services professionals, there was some use by the public. Since May 2008, these services have been available via 0300 numbers but the 0870 numbers need to be maintained until the end of March 2009 to allow for the transition.

DH Publication Orderline minicom	08700 102 870

(a) 0800, *(b)* 0845 and *(c)* 0870 telephone numbers for the public administered by (ii) agencies which report to the Department.

The Department's Executive agencies, the Medicines and Healthcare products Regulatory Agency and the NHS Purchasing and Supply Agency have no 0800, 0845 or 0870 numbers for use by the public.

The Department has 25 arms length bodies and a number of national programmes e.g. NHS Employers. Information about telephone services for these bodies is not held centrally and cannot be provided except at disproportionate cost.

Departmental Visits Abroad

Anne Main: To ask the Secretary of State for Health what the cost was of overseas visits made by members of staff in his Department in each of the last three years. [221522]

Mr. Bradshaw: The total cost of overseas visits made by members of staff of the Department in the last three years have been:

	£
2006	1,044,298.67
2007	722,803.56
2008	699,189.50.

Disabled

Mr. Harper: To ask the Secretary of State for Health how many and what proportion of staff in *(a)* his Department and *(b)* the executive agencies for which he is responsible are disabled; and what the average salary in his (i) Department and (ii) executive agencies is of (A) full-time disabled staff, (B) full-time non-disabled staff, (C) part-time disabled staff and (D) part-time non-disabled staff. [220186]

Mr. Bradshaw: The numbers and proportions of staff in the Department and its agencies who are disabled are presented in the following table:

	Number	Proportion (percentage)
Department of Health	110	5.9
Medicines and Healthcare products Regulatory Agency	10	1.6
NHS Purchasing and Supply Agency (PASA)	—	<1.3

The figures in the table are taken from information published by the Office for National Statistics (ONS) as at 30 September 2007. They exclude people who have not declared their disability status. A number is not quoted for PASA because it was less than five; the proportion is therefore based on a maximum number of four.

The median salaries of full-time disabled staff, full-time non-disabled staff, part-time disabled staff and part-time non-disabled staff are presented in the following table:

£

	Full-time disabled	Full-time non-disabled	Part-time disabled	Part-time non-disabled
Department of Health	35,360	39,240	30,670	37,400
Medicines and Healthcare products Regulatory Agency	41,280	33,340	—	38,230
NHS Purchasing and Supply Agency	—	34,840	—	32,550

These figures are also taken from ONS information as at 30 September 2007. They exclude people who have not declared their disability status. Salaries are not quoted where there were less than five people in the category.

The civil service is committed to reflecting the society it serves, at all levels, including disabled people. The recently published "Promoting Equality, Valuing Diversity—A Strategy for the Civil Service" builds on what has already been achieved and sets out what the civil service wants to achieve in equality and diversity in employment over the next three to five years. It also provides a framework against which Departments and agencies will take actions.

Reward arrangements below the senior civil service (SCS) are delegated to individual Departments and agencies. For the SCS, Departments and agencies are responsible for their own reward arrangements within a framework set by Cabinet Office. Departments and agencies are responsible for equality proofing their own reward systems.

Due to the self-reporting nature of disability and the relatively large proportion of civil servants whose disability status is unknown or undeclared, care should be exercised when drawing conclusions based on these statistics.

Extreme care should also be exercised when making comparisons of salaries between part-time and full-time disabled and non-disabled staff. For example, a simple comparison of median salary by disability status and working pattern does not take account of the different responsibility levels of the individuals concerned. Therefore, any meaningful comparison should take account of these compositional differences.

Drugs: Misuse

Mr. Grieve: To ask the Secretary of State for Health (1) how many people were discharged from treatment for drug misuse in England categorised as *(a)* treatment completed drug free, *(b)* treatment completed not drug free, *(c)* dropped out, *(d)* referred to other treatment, *(e)* individual entered prison, *(f)* individual died and *(g)* reason not known in each year from 2003-04 to 2007-08; [223388]

(2) how many individuals discharged from treatment for drug misuse in England on the grounds that they completed treatment drug free in *(a)* 2003-04, *(b)* 2004-05, *(c)* 2005-06, *(d)* 2006-07 and *(e)* 2007-08 subsequently re-entered treatment for drug misuse. [223389]

Mr. Bradshaw: The following table shows the number of individuals discharged from structured treatment for drug misuse, by discharge reason, for the period 2004-05 to 2006-07.

	2004-05		2005-06		2006-07	
Discharge reason[1]	Percentage	Number	Percentage	Number	Percentage	Number
Treatment completed drug free	6.5	3,632	7.2	4,559	8.8	5,829
Treatment completed	13.8	7,656	16.8	10,662	19.7	13,022
Treatment completed—referred	8.1	4,516	10	6,348	13.1	8,662
Total successful discharges	28.4	15,804	33.9	21,569	41.6	27,513
Dropped out/left	43.1	23,955	41.1	26,136	35.8	23,646
Prison	4.4	2,441	5.5	3,486	6.2	4,069
Treatment declined by client	—	—	0.3	190	1.2	792
Treatment withdrawn/breach of contract	5.3	2,947	4.4	2,766	3.6	2,357
Moved away	2.6	1,448	2.4	1,521	2.7	1,772
Died	1.1	602	0.8	514	1.0	633
Inappropriate referral	—	—	1.2	759	1	646
No appropriate treatment available	1.3	695	6.1	3,863	4.3	2,816
Other	7.9	4,383	3.7	2,376	2.4	1,556
Not known	3	1,661	0.1	57	0.4	266
Not recorded (data missing)	2.9	1,624	0.5	297	0.1	57
Total discharged		55,560		63,534		66,123

[1] Discharge reasons are taken from the NDTMS statistical release 1 April 2006 to 31 March 2007. Data on individuals in structured drug and alcohol treatment are collected by the National Treatment Agency for Substance Misuse (NTA) via the National Drug Treatment Monitoring System (NDTMS), using the following definitions:

'Treatment completed drug free' refers to an individual, who the treatment provider believes has completed their treatment no longer dependent on their drug of misuse and is not using any other illegal drugs.

'Treatment completed' refers to an individual, who the treatment provider believes has completed their treatment no longer dependent on their drug of misuse, but who may be using drugs in a non-dependent way.

'Treatment completed—referred' refers to an individual who, on completion of a Tier 3 or 4 service, is transferred to a Tier 2 service or support services such as housing support or employment support.

Substance misuse treatment is grouped into four tiers by the NTA, which reflect the increasing intensities of the treatment. Tier 1 refers to services provide by non-specialist drug services, e.g. accident and emergency departments and social care agencies. Tier 2 refers to open-access drug treatment and does not always include a care plan. Tier 3 refers to treatment, with a structured care plan, taken in the community and Tier 4 refers to residential drug treatment.

Figures for 2003-04 have not been provided due to data quality reasons. The current NDTMS data collection began in April 2004 and although some data were collected retrospectively for the period 2003-04 they are thought to be incomplete. Figures for 2007/08 will be published later this year.

Information on the number of individuals who have re-entered structured treatment, after having been discharged from structured treatment for drug misuse on the grounds that they had completed their treatment drug free is not held centrally by the Department. A copy will be placed in the Library shortly.

Drugs: Rehabilitation

Anne Main: To ask the Secretary of State for Health how much his Department spent on the psycho-social element of the integrated drug treatment system in *(a)* 2006-07 and *(b)* 2007-08; and what the projected expenditure is expected to be in 2008-09. [221406]

Mr. Hanson: I have been asked to reply.

Psychosocial elements of the integrated drug treatment system (IDTS) are funded by the Ministry of Justice.

The following was spent by prisons on implementing psychosocial elements of IDTS:

(a) 2006-07: £865,000, with an additional £1 million spent on refurbishments/equipment upgrades prerequisite to the delivery of IDTS services.

(b) 2007-08: £4.785 million, with an additional £742,000 spent on refurbishments/equipment upgrades prerequisite to the delivery of IDTS services.

I anticipate that the full allocation of £6 million will be spent in 2008-09.

Family Planning: Yorkshire and the Humber

David Davis: To ask the Secretary of State for Health how many family planning clinics there were in the *(a)* Hull, *(b)* the East Riding of Yorkshire, *(c)* North Lincolnshire and *(d)* North East Lincolnshire local authority area for each of the last 10 years. [223292]

Dawn Primarolo: This information is not collected centrally. It is the responsibility of individual primary care trusts to decide upon the appropriate level of provision for the communities they serve.

General Practitioners

Mr. Lansley: To ask the Secretary of State for Health on which dates each Minister in his Department has met representatives of general practitioners in the last 12 months. [219378]

Mr. Bradshaw: Health Ministers met with general practitioner representatives during the last 12 months as follows:

Date	*Meeting*
Right hon. Alan Johnson MP—Secretary of State for Health	
17 July 2007	Met Dr. Hamish Meldrum, Chair of the British Medical Association
24 July 2007	Met Dr. Mike Dixon, Chair and Mike Sobanja, Chief Executive Officer, of the NHS Alliance
8 November 2007	Met Dr. Laurence Buckman, Chair of the General Practitioners Committee, British Medical Association
23 November 2007	Attended the NHS Alliance Annual Conference
7 February 2008	Met Dr. Hamish Meldrum, Chair of the British Medical Association
27 February 2008	Met Dr. Laurence Buckman, Chair of the General Practitioners Committee, British Medical Association
5 March 2008	Attended the launch of Healthcare Professionals' Consensus Statement at the Royal College of General Practitioners
13 May 2008	Attended the British Medical Association Dinner
19 June 2008	Met Dr. Hamish Meldrum, Chair of the British Medical Association
23 June 2008	Met Dr. Hamish Meldrum, Chair of the British Medical Association
Professor the Lord Darzi of Denham KBE—Parliamentary Under-Secretary of State	
4 July 2007	Meeting with stakeholders (including representatives from the British Medical Association and the Royal College of General Practitioners)
18 July 2007	Meeting with the Royal College of General Practitioners
19 July 2007	Meeting with the British Medical Association
26 July 2007	Meeting with National Stakeholder Forum (including the British Medical Association, the Royal college of General Practitioners and the NHS Alliance)
31 July 2007	Meeting with the British Medical Association
5 September 2007	Meeting of the Social Partnership Forum (including the British Medical Association)
6 September 2007	Meeting with the NHS Alliance
11 October 2007	Meeting with the British Medical Association
18 October 2007	Meeting of the Social Partnership Forum (including the British Medical Association)
26 November 2007	Dinner with the Royal Colleges (including the Royal College of General Practitioners)
29 November 2007	Meeting with the NHS Alliance
29 November 2007	Meeting with the National Stakeholder Forum (including the British Medical Association, the Royal College of General Practitioners and the NHS Alliance)
22 January 2008	Dinner with primary care colleagues (including the NHS Alliance, the Royal College of General Practitioners and the National Association of Primary Care)
6 February 2008	Meeting of the Primary and Community Care Advisory Board

Date	Meeting
7 February 2008	Meeting with the NHS Alliance
21 February 2008	Meeting of the Social Partnership Forum
4 March 2008	Dinner with the Royal College of General Practitioners
11 March 2008	Meeting with the British Medical Association
12 March 2008	Meeting with the Royal Colleges (including the Royal College of General Practitioners)
12 March 2008	Meeting of the National Association of Primary Care Members Forum
18 March 2008	Meeting with the British Medical Association
1 May 2008	Meeting with the British Medical Association
8 May 2008	Meeting with stakeholders (including the British Medical Association, Royal College of General Practitioner, NHS Alliance and National Association of Primary Care)
13 May 2008	Speech to the National Association of Primary Care Spring Conference
13 May 2008	Attended the British Medical Association Annual Dinner
21 May 2008	Meeting with the Royal Colleges (including the Royal College of General Practitioners)
11 June 2008	Meeting with the National Association of Primary Care
12 June 2008	Meeting with the Royal College of General Practitioners
12 June 2008	Meeting with the NHS Alliance
19 June 2008	Meeting with the British Medical Association
25 June 2008	Meeting with the British Medical Association
9 July 2008	Meeting with the National Association of Primary Care Members' Forum
10 July 2008	Meeting of the National Stakeholder Forum (includes the British Medical Association, the Royal College of General Practitioners and the NHS Alliance)
Mr. Ben Bradshaw MP—Minister of State	
3 July 2007	Dinner with GPs on Practice Based Commissioning
13 September 2007	Attended the launch of the NHS Alliance's document "Practice Based Commissioning—early success, early lessons"
11 October 2007	Meeting with the British Medical Association (with Lord Darzi)
18 October 2007	Attended the National Association of Primary Care Conference 2007
16 October 2007	Meeting with Primary Care Stakeholders—Dr. James Kingsland, Chair of the National Association of Primary Care
8 November 2007	Meeting with NHS Alliance Practice Managers
21 November 2007	Introductory meeting with Dr. Laurence Buckman, Chair of the General Practitioners Committee, British Medical Association
6 December 2007	Met Dr. Michael Dixon, Chair of the NHS Alliance
6 February 2008	Chaired Jointly with Lord Darzi the Primary and Community Care Advisory Board
7 February 2008	Attended the Prince's Foundation for Integrated Health (with Dr. Michael Dixon, Trustee of the Prince's Foundation and Chair of the NHS Alliance)
27 February 2008	Meeting with the National Association of Primary Care Practice Managers
1 April 2008	Meeting of the Primary and Community Care Advisory Board
14 April 2008	Joint visit with Alan Johnson to the College Surgery Partnership hosted by Dr. Michael Dixon, Chair of the NHS Alliance
13 May 2008	Meeting of the Primary and Community Care Advisory Board
13 May 2008	Attended the British Medical Association Dinner
21 May 2008	Attended the British Medical Association Spring Reception
2 June 2008	Meeting with Primary and Community Care Strategy stakeholders
19 June 2008	Visit to Sturminster Newton Practice meeting: Dr. Matthew Cripps, Senior Partner; Dr. Elizabeth Burton, Partner; Jane Dawes, Practice Manager; along with Anne Thomas, Chair of Dorset Primary Care Trust; Robin Smith, Interim Chief Executive of Dorset Primary Care Trust; and Claire Warner, Director of Communications and Corporate Affairs at Dorset Primary Care Trust
9 July 2008	Attended the Primary and Community Care Strategy Advisory Board reception
23 July	Meeting in Dan Norris' constituency with general practitioners to discuss their concerns about the future of General Practice from the hours issue. to Polyclinics
Right hon. Dawn Primarolo MP—Minister of State	
21 November 2007	Meeting with Stakeholders on New Infant Formula and Follow on Formula (Royal College of General Practitioners represented)
20 February 2008	Met Dr. Vivienne Nathanson, Director of Professional Activity at the British Medical Association
13 May 2008	Attended the British Medical Association Annual Dinner
Ms Ann Keen MP—Parliamentary Under Secretary of State	
—	Meets every month with the British Medical Association as part of the Social Partnership Forum
10 May 2008	Attended a dinner with Bangladeshi general practitioners
23 May 2008	Met general practitioners with the Prime Minister
Mr. Ivan Lewis MP—Parliamentary Under-Secretary of State	
30 January 2008	Meeting with the British Medical Association
12 March 2008	With Lord Darzi, met with all the Medical Royal Colleges to discuss the NHS Constitution (Royal College of General Practitioners were present)
22 April 2008	Meeting with the British Medical Association
13 May 2008	Attended the NHS Confederation and British Medical Association Annual Dinner

Norman Lamb: To ask the Secretary of State for Health what incentives there are for general practitioners to set up practices in deprived areas under each of the primary medical services contracts. [223458]

Mr. Bradshaw: Under the national General Medical Services contract general practitioner practices are intended to receive income based on a weighted capitation, needs-based formula. However, the impact of the minimum practice income guarantee negates much of the agreed equitable funding incentive that rewards practices based on patients needs. That is why we remain committed to delivering a fair funding system to all primary medical care contractors.

Under other local primary medical care contracts (Personal Medical Services, Alternative Provider Medical Services and Primary Care Trust Medical Services) PCTs have more flexibility to negotiate and agree locally funding arrangements that better match patient needs and resourcing to ensure the services provided meet those needs. Guidance to PCTs makes it clear however that they must contract with all providers on a fair and equitable basis.

General Practitioners: Finance

Norman Lamb: To ask the Secretary of State for Health how much the minimum practice income guarantee cost in *(a)* cash and *(b)* real terms in current prices in each year since 2004; what plans he has for the future of the guarantee; what assessment he has made of its effects on funding levels in deprived areas; and if he will make a statement. [223461]

Mr. Bradshaw: The table shows spend on the minimum practice income guarantee (MPIG) since 2004-05 in cash and at current year's prices.

Minimum practice income guarantee spend

£000

Financial year	*Cash*	*Real terms*
2004-05	327,978	364,777
2005-06	328,315	357,469
2006-07	322,291	341,628
2007-08	327,615	337,443

NHS Employers are currently discussing with the BMA's General Practitioners Committee how best to achieve and implement a more equitable funding system for the provision of primary medical care services. These discussions include the possible timescale for, and any funding that may be needed to support, the phasing out of the MPIG.

The impact of MPIG on funding levels in deprived areas has been considered within the assessment of general practitioner contract reform within the Primary and Community Care Strategy. This assessment has not been published as contract negotiations are ongoing. Moving to a fair and equitable weighted capitation formula will ensure more resources are allocated to practices based on the needs of the patients they are responsible for.

General Practitioners: Manpower

Norman Lamb: To ask the Secretary of State for Health what the average number of general practitioners per 100,000 population was in each primary care trust, in each of the last five years, broken down by index of deprivation decile. [223459]

Mr. Bradshaw: The average number of general practitioners per 100,000 population in each primary care trust in each of the last five years is in the table which has been placed in the Library. The information requested is not available broken down by index of deprivation decile.

General Practitioners: Pharmacy

Mr. Fallon: To ask the Secretary of State for Health if he will visit the village of Farningham in Kent to discuss with residents his proposals regarding dispensing doctors. [223251]

Dawn Primarolo: My right hon. Friend has no plans to visit Farningham.

The White Paper Pharmacy in England: Building on Strengths—delivering the future (cm 7341) promised to consult further on a number of proposals.

The consultation Building on Strengths—delivering the future—proposals for legislative change began on 27 August 2008 and provides everyone with an opportunity to contribute—patients, the NHS, contractors and healthcare professionals alike. Any final decisions will be taken in the light of the responses and the feedback received. The consultation, together with the relevant impact assessments, is available on the Department's website at

www.dh.gov.uk/LiveConsultations.

The consultation ends on 20 November 2008.

It would not be appropriate to discuss possible outcomes until that consultation has ended. However, I hope the residents of Farningham will contribute to the consultation process.

The hon. Member's constituents may also wish to know that the Department will be holding listening events in October and these will be announced shortly.

Sir John Stanley: To ask the Secretary of State for Health (1) whether it is his policy that GP practices with dispensaries will be required to re-apply for permission for their dispensaries to continue; [223286]

(2) if he will make it his policy to ensure that GP dispensaries with a pharmacy within one mile will be permitted to continue to have their dispensaries. [223288]

Kate Hoey: To ask the Secretary of State for health what assessment he has made of the likely effects of the removal of the one mile rule on the number of *(a)* dispensing doctors and *(b)* patients able to fulfil prescriptions at dispensing doctors' practices. [223377]

Mr. Bradshaw: The White Paper Pharmacy in England: Building on Strengths—delivering the future promised to consult further on a number of proposals. Building on Strengths—delivering the future—proposals for legislative change was published on 27 August 2008.

As part of this consultation, we have put forward options for possible reform of general practitioner dispensing arrangements on which we are seeking views.

We have no preferred option at this stage nor have we come to a view as to whether any reform of these particular arrangements is necessary. The accompanying impact assessments to the consultation document consider the likely effects of each of these options.

General Practitioners: Surgery

Ben Chapman: To ask the Secretary of State for Health what percentage of general practitioners are accredited to carry out minor surgery. [223219]

Mr. Bradshaw: This information is not held centrally.

Ben Chapman: To ask the Secretary of State for Health what percentage of general practitioners carried out minor surgery in the latest period for which figures are available. [223220]

Mr. Bradshaw: This information is not held centrally.

Hazardous Substances: Screening

Mr. Breed: To ask the Secretary of State for Health if he will consider introducing mandatory post-mortem tests for *(a)* carbon monoxide poisoning and *(b)* poisoning by toxins resulting from the products of combustion. [221037]

Bridget Prentice: I have been asked to reply.

Coroners, who are independent judicial office holders, are required to investigate all deaths where the cause of death is believed to be violent, unnatural or a sudden death of unknown cause. Coroners have the power, under the Coroners Act 1988, to order both post mortem examinations and special examinations (including histopathology and toxicology), as and when they consider it necessary, in order to establish the cause of death. It is for the coroner to decide whether tests for carbon monoxide poisoning and poisoning by toxins resulting from the products of combustion would be justified in the light of the available facts in each individual case.

Health Centres

Mr. Lansley: To ask the Secretary of State for Health when a patient is treated in a GP-led health centre without being registered there, by what mechanism the centre will be paid for that patient's treatment. [220995]

Mr. Bradshaw: This is a local contractual matter for each primary care trust, who have been advised to make payments on a similar basis to that whereby existing general practitioner practices receive funding for treating such patients e.g. based on the volume of patients treated at a fixed price.

Health Services

Mr. Lansley: To ask the Secretary of State for Health what the evidential basis is for the statement that there is significant variation in practice in care relating to *(a)* cataracts, *(b)* fractured neck of femur, *(c)* cholecystectomy and *(d)* stroke care, as referred to on page 55 of High Quality Care for All, Cm 7432. [221114]

Mr. Bradshaw: Evidence gathered by the NHS Institute for Innovation and Improvement and published as part of its "Focus on High Volume Care" series shows that there is a significant variation in practice in care for these four areas. A copy of the NHS Institute's latest report "Focus on High Volume Care: Update" has been placed in the Library.

Health Visitors

Mrs. Maria Miller: To ask the Secretary of State for Health what guidance his Department provides to primary care trusts on *(a)* the recommended caseload levels of health visitors and *(b)* the timing and frequency of visits made by health visitors to families with children under the age of five. [223401]

Mr. Bradshaw: There are no central recommendations for health visitor caseloads. While the updated Child Health Promotion Programme, launched on 17 March 2008, identifies health visitors as the lead practitioners in promoting the health of children below the age of five, it is for local commissioners to commission services according to local needs. There is no central guidance about numbers of health visitors or about the timing and frequency of visits in different circumstances.

Hearing Aids: Children

Anne Milton: To ask the Secretary of State for Health how many children were fitted with bone anchored hearing aids in 2007. [223228]

Mr. Bradshaw: The Department does not hold this information.

Hearing Aids: Kent

Mr. Fallon: To ask the Secretary of State for Health pursuant to the answer of 6 March 2008, *Official Report*, column 2734W, on hearing aids: waiting times, what the average waiting time for all audiological assessments, including assessment for digital hearing aids, has been in *(a)* West Kent and *(b)* Eastern and Coastal Kent Teaching Primary Care Trust area in the period since 1st January 2008. [223249]

Mr. Bradshaw: The following table shows the average (median) waiting times for all audiological assessments, including assessment for digital hearing aids, in West Kent Primary Care Trust (PCT) and Eastern and Coastal Kent Teaching PCT areas in each month from January to June 2008, which is the most recent information available.

Average (median) wait, in weeks, for audiological assessment, January to June 2008

PCT	January	February	March	April	May	June
West Kent	17.2	15.7	5.6	2.4	2.5	3.4
Eastern and Coastal Kent Teaching	48.8	41.2	4.3	2.6	4.1	3.4

Source:
Department of Health form DM01 - Diagnostic Monthly.

Hospitals: Parking

Mr. Brady: To ask the Secretary of State for Health what estimate he has made of the cost to the NHS of ending charges for car parking at all NHS hospitals in England. [223263]

Mr. Bradshaw: No estimate has been made of the cost to the national health service of ending charges for car parking at all NHS hospitals. In England, hospital car parking charges are decided locally by individual trusts to cover the cost of running and maintaining a car park. If charges were not imposed, such costs would need to be funded from resources currently used to provide healthcare to patients.

All trusts should have exemption and concessionary schemes in place to ensure that patients and carers who visit hospital regularly are not disadvantaged. They should also have sustainable public transport plans in place for staff and visitors.

Human Papilloma Virus: Vaccination

Mike Penning: To ask the Secretary of State for Health what breakdown in points allocation was awarded to *(a)* Gardasil and *(b)* Cervarix under the criteria and weighting system for evaluation of the contract to supply a human papilloma virus vaccine. [223187]

Mr. Bradshaw: The points allocated to Gardasil and Cervarix under the award criteria for the Human Papillomavirus vaccine are commercial-in-confidence. I refer the hon. Member to the written answer I gave my hon. Friend the Member for Norwich, North (Dr. Gibson), on 16 July 2008, *Official Report*, column 531W, which outlines the award criteria and their weightings for this contract.

Independent Reconfiguration Panel

Mr. Greg Knight: To ask the Secretary of State for Health how many reports his Department has commissioned from the Independent Reconfiguration Panel in the last 12 months; and in what percentage of these cases the Panel made recommendations which differed from the proposals being made by the relevant NHS trust. [223088]

Mr. Bradshaw: Between September 2007 and September 2008, the Secretary of State asked the Independent Reconfiguration Panel (IRP) to review the following referrals from local Overview and Scrutiny Committees:

Referral	*Date published*
Sandwell and West Birmingham	18 December 2007
West Kent	18 December 2007
West Suffolk	6 February 2008
North Oxfordshire	20 March 2008
Scarborough and North East Yorkshire	21 July 2008
Bridlington	4 September 2008
East Sussex	4 September 2008
Barnet, Enfield and Haringey	4 September 2008

Of these, the IRP supported proposals for changes in all cases with the exception of East Sussex and North Oxfordshire.

Mr. Greg Knight: To ask the Secretary of State for Health how many times he has not accepted a recommendation from the Independent Reconfiguration Panel since the panel's establishment. [223090]

Mr. Bradshaw: There have been no occasions where the Secretary of State has chosen not to accept the Independent Reconfiguration Panel's recommendations.

Ipsos MORI

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 9 July 2008, *Official Report*, column 1706W, on Ipsos MORI, if he will place in the Library copies of the *(a)* Stakeholder Research Programme, *(b)* Public Perceptions of the NHS July 2007, *(c)* Qualitative Research into Access to GP Practices, *(d)* GP Satisfaction Among Ethnic Minority Groups, *(e)* Senior Stakeholder Survey (Quantitative), *(f)* Long-term Health Conditions, *(g)* Public Perceptions of the NHS, December 2007, *(h)* Patient Experience Survey - Pilot Study and *(i)* Public Perceptions of the NHS March 2008 reports. [221129]

Mr. Bradshaw: The following reports have been placed in the Library:

GP Satisfaction Among Ethnic Minority Groups (title at publication: "Report on Self Reported Experience of Patients from Black and Minority Ethnic Groups");

Patient Experience Survey - Pilot Study; and

Long-term Health Conditions (title at publication: "Self Care": "A National View in 2007 Compared to 2004-05")

The Department will place a copy of the following reports in the Library in the next 12 months:

"Stakeholder Research Programme and Senior Stakeholder Survey" (Quantitative).

The reports "Public Perceptions of the NHS July 2007", "Public Perceptions of the NHS December 2007" and "Public Perceptions of the NHS March 2008" will be published as part of the Department's "Freedom of Information" publication scheme. These reports will be placed in the Library on publication.

The project Qualitative Research into Access to GP Practices was mistakenly listed as a report in the answer of 9 July 2008, *Official Report*, column 1706W. This was, in fact, a series of workshops delivered by Ipsos MORI.

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 9 July 2008, *Official Report*, column 1706W, on Ipsos MORI, how much was paid to Ipsos MORI for each report. [221130]

Mr. Bradshaw: The following amounts were paid to Ipsos MORI:

		£
Access to Primary Care Tracker Wave 18	June 2007	19,120
Stakeholder Research Programme	July 2007	39,680
Pandemic flu public engagement and research reports (total)	July 2007 - May 2008	118,000
NHS Desk Research Insight Project	August 2007	43,160
Public Perceptions of the NHS July 2007	August 2007	41,122
Qualitative Research into Access to GP Practices	September 2007	45,000
Access to Primary Care Tracker Wave 19	October 2007	27,400
Practice based commissioning: GP practice survey wave 1	October 2007	52,875
Choice Omnibus Survey	November 2007	7,300
GP Satisfaction Among Ethnic Minority Groups	November 2007	17,000
Senior Stakeholder Survey (Quantitative)	November 2007	51,959

		£
Long-Term Health Conditions	December 2007	40,666.67
NHS Choices evaluation - public tracker survey (benchmark and one tracker)	January 2008	121,000
Public Perceptions of the NHS, December 2007	January 2008	42,372
Practice based commissioning: GP practice survey wave 2	January 2008	45,355
Access to Primary Care Tracker Wave 20	March 2008	29,600
Patient Experience Survey - Pilot Study	March 2008	64,598
Practice based commissioning: GP practice survey wave 3	April 2008	45,300[1]
NHS Staff Survey Analysis	May 2008	49,960
Patient Choice Omnibus	May 2008	14,600
Public Perceptions of the NHS March 2008	May 2008	40,372

[1] Estimated

IVF

Anne Milton: To ask the Secretary of State for Health how many cycles of in vitro fertilisation treatments each primary care trust offered at the latest date for which figures are available. [223227]

Mr. Bradshaw: In autumn 2007, the Department carried out a survey of each primary care trust in England to establish the level of in vitro fertilisation (IVF) provision. A report of the survey was published on 23 June 2008 and a copy has been placed in the Library.

The report can also be found on the Department's website at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_085665

Lasers: Injuries

Tim Farron: To ask the Secretary of State for Health how many injuries were sustained from Class 3b and 4 lasers and intense light sources in each of the last five years. [223216]

Mr. Bradshaw: The following table represents adverse events from laser and intense light sources that have been reported to the Medicines and Healthcare Products Regulatory Agency (MHRA) between 1 January 2003 and the 5 September 2008

	Laser 3B	*Laser 4*	*Intense Light Source*
2008 (to date)	12	15	1
2007	18	21	1
2006	11	25	2
2005	16	8	0
2004	14	20	2
2003	7	14	3
Total	78	103	9

It is important to note that not all adverse events are reported to the MHRA. Whilst manufacturers are required to report an event if it falls under the definition of the Medical Devices Directives Vigilance, (i.e. an actual or potential injury either to a patient or the user) reporting of such events from the national health service or private healthcare facilities is voluntary.

Malaria: Greater London

Tom Brake: To ask the Secretary of State for Health how many cases of falciparum malaria were recorded in London in each year from 1997 to 2008. [223235]

Mr. Bradshaw: The number of recorded hospital admissions with a primary diagnosis of falciparum malaria for incidents recorded for the London strategic health authority (comprising five SHAs from 1997-98 to 2005-06 and one SHA from 2006-07) from 1997 to 2008 are given in the table as follows:

	Total admissions
2006-07	843
2005-06	821
2004-05	757
2003-04	823
2002-03	804
2001-02	892
2000-01	764
1999-2000	757
1998-99	517
1997-98	686

Note:
Hospital admissions and numbers of cases may differ since the same person may have been admitted on more than one occasion for the same illness/treatment episode. Data are not available on numbers of cases

Mass Media

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 30 April 2008, *Official Report*, column 449W, on mass media, if he will place in the Library the assessments made by press officers of media coverage of *(a)* departmental announcements and *(b)* major health stories in each week of 2008. [221442]

Mr. Bradshaw: The Department's Media Centre does not currently produce written weekly assessments of media coverage of departmental announcements and major health stories, and the Department do not employ any agencies to make such reports on its behalf.

Maternity Services

Mr. Lansley: To ask the Secretary of State for Health how many adverse events have been recorded in NHS maternity services *(a)* in England and *(b)* in each strategic health authority area in each year since 1997, broken down by type of adverse event. [223355]

Ann Keen: The information requested is being compiled by the National Patient Safety Agency. This will be placed in the Library shortly

National Strategy for England

Angela Browning: To ask the Secretary of State for Health what funding allocations his Department has made to support the delivery of its National Strategy for England in the next five years. [223145]

Mr. Bradshaw: A draft of a National Dementia Strategy was published on 19 June for consultation. The consultation closes on 11 September and we will carefully consider all the responses we receive before deciding the final shape of the Strategy, and what resources are available to support its implementation. Funding will be announced around the same time when the strategy is published.

NHS: ICT

Peter Bottomley: To ask the Secretary of State for Health (1) if he will estimate the extra costs incurred by the Worthing and Southlands Hospital Trust as a result of use of the CERNER NHS IT system in *(a)* 2007-08 and *(b)* 2008-09; and what the expected source of the funding of the additional costs will be; [223427]

(2) which other NHS acute hospital trusts have the version of the CERNER NHS IT system supplied to the Worthing and Southlands Hospital Trust; what assessment he has made of *(a)* present and *(b)* future costs and benefits of the system; and if he will make a statement. [223428]

Mr. Bradshaw: The implementation of a strategic hospital clinical IT system represents a major change programme. There is an inevitable initial increase in, primarily, staff costs both during preparation and during initial deployment, and then as the system is bedded in and staff familiarity with the new functionality develops.

The trusts' business cases for the change have recognised that these initial increased locally sourced costs are offset by the benefits realised by the trust over the life of the system. These will include, over time, a patient administration system with integration with other systems and sophisticated reporting; order communications and diagnostics reporting, including all pathology and radiology tests and tests ordered in primary care; and scheduling for beds, tests, and theatres.

Information on any additional costs incurred by Worthing and Southlands Hospital Trust arising from the deployment of Cerner software is not held centrally.

Of the NHS acute trusts which have to date received deployments of the Cerner Millennium system, as at 31 August 2008 the following had the same (R0.05) version as that currently being used at the Worthing and Southlands Hospitals NHS trust:

Weston Area Health NHS Trust;

Winchester and Eastleigh Healthcare NHS Trust;

Surrey and Sussex Healthcare NHS Trust.

The costs and benefits will be identified in the local business cases.

NHS: Finance

Norman Lamb: To ask the Secretary of State for Health how much has been *(a)* allocated and *(b)* spent on (i) general medical services, (ii) personal medical services and (iii) alternative provider medical services contracts in (A) cash and (B) real terms in current prices in each of the last five years. [223460]

Mr. Bradshaw: Allocations to primary care trusts for primary medical care services do not identify funding separately for general medical services, personal medical services and alternative provider medical services. The table shows actual spend in cash and at this year's prices for each of these contracting routes since 2004-05, the year that the new general practitioner (GP) contract was introduced and the first year for which this information is available.

Primary medical care services spend

£000

	General medical services		*Personal medical services*		*Alternative provider medical services*	
Financial year	*Cash*	*Real terms*	*Cash*	*Real terms*	*Cash*	*Real terms*
2004-05	3,180,086	3,536,892	2,769,671	3,080,428	59,459	66,130
2005-06	3,484,327	3,793,735	3,063,145	3,335,152	134,205	146,122
2006-07	3,527,927	3,739,603	3,113,131	3,299,919	153,114	162,301
2007-08	3,536,231	3,642,318	3,204,626	3,300,765	148,666	153,126

Separate to these arrangements primary care trusts who have been identified as having the poorest primary medical care provision, and who are taking part in a local procurement to commission new GP practices, will also receive additional funding in 2008- 09 and subsequent years to secure this additional GP capacity.

NHS: Re-organisation

Mr. Lansley: To ask the Secretary of State for Health (1) if he will place in the Library a copy of each submission to his Department's national review Our NHS Our Future; [219370]

(2) what the *(a)* commissioning and development costs, *(b)* publishing and printing costs, *(c)* distribution costs and *(d)* media costs were for (i) Lord Darzi's national review of the NHS in England and (ii) each of his regional reviews; [219371]

(3) how many staff in each pay band in his Department worked solely on Lord Darzi's review of the NHS in England; [219372]

(4) how much was spent on consultative events in each region as part of Lord Darzi's review of the NHS in England. [219374]

Mr. Bradshaw: The National Health Service Next Stage Review has been a year-long process, led by more than 2,000 clinicians and engaging with approximately 60,000 patients, public and staff. An analysis of the views and opinions gathered in this engagement process is available on the Review's website:

www.ournhs.nhs.uk

A final figure for the cost of the Review is not yet available. However, the costs to date to the Department of conducting the review itself is approximately £3.5 million.

The NHS Next Stage Review is core business for all civil servants in the Department.

The estimated costs of consultation undertaken by strategic health authorities (SHAs) as part of the nationwide NHS Next Stage Review is not held centrally.

NHS: Sick Leave

Jenny Willott: To ask the Secretary of State for Health what the average length of single periods of sick leave taken by NHS employees was in each of the last five years; and if he will make a statement. [215978]

Mr. Bradshaw: This information is not held centrally.

NHS: Video Conferencing

Mike Penning: To ask the Secretary of State for Health what guidance his Department provides on the *(a)* procurement and *(b)* use of video-conferencing technology for the delivery of healthcare in the NHS. [223184]

Mr. Bradshaw: The NHS Purchasing and Supply Agency (PASA) has a framework for the provision of voice, video and data products and services which includes the procurement of video-conferencing services. This framework is available to all NHS trusts in England providing for the supply, design, project management, maintenance and installation of video conferencing equipment for point-to-point or point-to-multipoint communication services.

There are 16 suppliers providing these services and NHS PASA provides procurement advice and expertise.

Implementation and the potential application of the technologies, especially in clinical areas is determined by trusts based on local needs.

Mike Penning: To ask the Secretary of State for Health whether he plans to enable the N3 network for video conferencing. [223186]

Mr. Bradshaw: The N3 network is already enabled to support video conferencing.

Patients: Fees and Charges

Mr. Lansley: To ask the Secretary of State for Health with reference to Table 9a of his Department's Memorandum to the Health Select Committee, entitled Public Expenditure on Health and Personal Social Services 2006, published in November 2006, what the equivalent figures on patient charges are for *(a)* 2006-07 and *(b)* 2007-08, broken down by type of charge. [223359]

Mr. Bradshaw: Latest information on NHS Income from Charges is given in table 1. 2007-08 NHS Accounts Data is not yet available.

Table 1: Breakdown of NHS income from charges by charge type for period 1996-97 to 2004-05

£ million

Charges	*1997-98*	*1998-99*	*1999-2000*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
Health Authority—fees and charges	67.7	90.1	92.0	113.8	65.8	3.5	4.7	6.4	11.9	12.4	
Road traffic accident income	—	—	30.0	75.8	98.3	105.0	105.6	117.5	121.5	128.2	
NHS Trusts—fees and charges	169.6	216.7	224.2	266.0	268.2	126.3	136.8	228.1	230.9	306.2	
NHS Trusts—private patients	273.2	290.8	304.8	316.6	540.8	366.7	383.9	349.0	364.7	379.6	
NHS Trusts—Local Authorities	—	—	—	—	—	259.8	394.9	516.4	683.3	690.0	
PCTs	—	—	—	1.5	24.5	61.6	72.2	105.1	105.5	104.4	
PCTs—Local Authorities	—	—	—	—	—	295.4	404.1	592.7	605.1	688.0	
NHS Supplies Authority fees	39.1	36.1	20.3	0.4	0.2	0.2	0.8	1.0			
Dental charges	388.4	419.6	431.2	453.1	472.1	486.7	483.6	425.9	409.8	479.5	
Prescription charges	320.9	341.3	366.7	386.9	413.1	423.0	428.3	424.6	426.9	433.5	
Nursing home inspection fees	4.8	8.8	9.5	9.8	6.2	—	—	—	—	—	
Subsidised dried milk	2.5	2.6	2.4	2.3	3.0	2.9	2.1	2.0	—	—	
Medicines Control Agency—licences and inspections	28.1	26.6	29.4	34.1	36.7	41.3	—	—	—	—	
Youth Treatment Service Income	4.5	4.7	4.6	0.1	—	—	—	—	—	—	
NHS Pensions Agency fees	2.3	6.2	2.2	1.8	1.6	0.9	0.5	0.6	—	—	
Medical Devices Agency Fees	0.2	0.2	0.2	0.3	0.4	0.4	—	—	—	—	

Table 1: Breakdown of NHS income from charges by charge type for period 1996-97 to 2004-05

£ million

Charges	*1997-98*	*1998-99*	*1999-2000*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
Human Fertilisation and Embryology Authority: licence fees	1.3	1.4	1.6	1.2	1.6	2.5	3.5	4.1	4.2	4.5	5.4
English National Board for Nursing (ENB): registration fees	—	1.6	1.6	1.6	—	—	—	—	—	—	—
Medicines and Healthcare Regulatory Agency	—	—	—	—	—	—	52.4	57.7	53.1	70.1	82.4
Total	1,302.6	1,446.7	1,520.7	1,665.3	1,732.5	2,176.2	2,473.4	2,831.0	3,017.0	3,296.4	

Notes:
1. The table has been restated to include NHS trusts private patients, NHS trust income from local authorities and primary care trust (PCT) income separately.
2. Health authorities were established on 1 April 1996 and strategic health authorities on 1 October 2002.
3. PCTs were established from 1 April 2000.
4. Figures from 2004-05 have been uprated (by expenditure) to estimate income to NHS foundation trusts.
5. Income from local authorities was separately identified for the first time in 2002-03.
6. From 2000-01 NHS Supplies Authority split into NHS Purchasing and Supplies Agency and NHS Logistics. All fees for forward years score against the NHS Logistics.
7. Dental and prescription charge income prior to 2001-02 drawn from cash data in appropriation accounts. 2001-02 and subsequent years' data drawn from resource data in summarised accounts.
8. From April 2002 the National Care Standards Commission regulated nursing homes.
9. Medicines and Healthcare Regulatory Agency formed in 2003-04—brings together work of Medical Device Agency and Medicines Control Agency.

Pedestrians: Accidents

Mr. Lansley: To ask the Secretary of State for Health (1) how many people in each region were admitted to hospital as a result of road accidents in each year since 1997, broken down by *(a)* age, *(b)* type of accident, *(c)* type of vehicle involved in the accident and *(d)* type of injury; [221013]

(2) how many pedestrians in each region were admitted to hospital as a result of traffic accidents in each year since 1997, broken down by *(a)* age and *(b)* type of vehicle involved in the accident. [221014]

Mr. Bradshaw: This information is not available in the format requested. Tables showing the number of people injured in all transport accidents and the number of pedestrians injured in transport accidents respectively have been placed in the Library.

Personal Injury

Mr. Hayes: To ask the Secretary of State for Health what the highest 10 payments made by his Department in settlement of personal injury claims brought against it were over the last 12 months for which figures are available; which of those cases were *(a)* contested and *(b)* uncontested by the Department; and what the nature of the incident was in each case. [216683]

Mr. Bradshaw: There have been no personal injury cases made in 2006-07. This information has been extracted from the Department's Losses and Special Payments Register for which information was last available, 2006-07.

Press

Sandra Gidley: To ask the Secretary of State for Health what the *(a)* staffing, *(b)* accommodation and *(c)* other overhead costs of his Department's press office were in each of the last five years. [216546]

Mr. Bradshaw: The cost of the Department's Media Centre staff, 2003-04 to 2007-08 is shown in the following table.

	Cost (£ million)
2007-08	1.369
2006-07	1.765
2005-06	1.772
2004-05	1.471
2003-04	1.284

Figures exclude social security and pension costs.

It is not possible to calculate the accommodation and overhead cost for the press office. The only figure available would be that for the whole of Richmond House, 79 Whitehall, where the press office is located.

Primary Health Care: Standards

Norman Lamb: To ask the Secretary of State for Health what assessment he has made of the impact of the Qualities and Outcomes Framework (QOF) on *(a)* reducing health inequalities and *(b)* supporting mental health provision in primary care; whether he plans to amend the QOF to increase funding for these priorities; and if he will make a statement. [223462]

Dawn Primarolo: The most recent research published by the National Primary Care Research and Development Centre (NPCRDC) suggests that the health gap between affluent and deprived areas is closing.

The Department has not commissioned any specific research on impact of the QOF on mental health provision. However, the most recent data indicates that achievement levels are high. Specific examples are shown as follows:

Indicator		Total points achieved percentage
MH9	The percentage of patients with schizophrenia, bipolar affective disorder and other psychoses with a review recorded in the preceding 15 months. In the review there should be evidence that the patient has been offered routine health promotion and prevention advice appropriate to their age, gender and health status	94.4
MH6	The percentage of patients on the register who have a comprehensive care plan documented in the records agreed between individuals, their family and/or carers as appropriate	94.0

The content of the Quality and Outcomes Framework for 2009-10 is currently being discussed between NHS Employers and the British Medical Association, advised by the independent expert panel. Those discussions are informed by "Our Vision for Primary and Community Care" published on 3 July that informed part of Lord Darzi's NHS review.

Queen Mary's Hospital Sidcup

Mr. Evennett: To ask the Secretary of State for Health what recent representations he has received on the future of services at Queen Mary's Hospital, Sidcup. [223123]

Mr. Bradshaw: Due to the way in which data is collected, the Department is unable to provide the exact number of letters received in relation to the future of services at Queen Mary's Hospital, Sidcup. However, a search of the Department's correspondence and parliamentary questions database shows that there were approximately 24 completed correspondence cases on Queen Mary's Hospital Sidcup between November 2007 to date, of which 14 were regarding the future of services at the hospital. No parliamentary questions specifically relating to the future of services at Queen Mary's Hospital Sidcup were found.

There have been no ministerial meetings with hon. Members or debates specifically on the future of services at Queen Mary's Hospital Sidcup between November 2007 to date.

The London borough council of Bexley's Health Overview and Scrutiny Committee, independently from the Joint Overview and Scrutiny Committee, formally referred proposals for hospital reconfiguration regarding A Picture of Health for South East London (which includes Queen Mary's Hospital, Sidcup) to the Secretary of State for Health on 28 August 2008.

Skin Cancer

Ben Chapman: To ask the Secretary of State for Health how many and what proportion of recurrences of basal cell carcinoma occurred in patients whose cancer had been removed by *(a)* GPs and *(b)* hospital consultants in the latest period for which figures are available. [223221]

Mr. Bradshaw: Information on recurrences of basal cell carcinoma in patients whose cancers have been removed is not collected centrally.

Ben Chapman: To ask the Secretary of State for Health how many and what proportion recurrences of skin cancer occurred in patients whose cancer had been removed by *(a)* GPs and *(b)* hospital consultants in the latest period for which figures are available. [223222]

Mr. Bradshaw: Information on recurrences of skin cancer in patients whose cancers have been removed is not collected centrally.

Ben Chapman: To ask the Secretary of State for Health what his Department's policy is on GPs undertaking procedures to remove skin cancer. [223223]

Mr. Bradshaw: The Department fully supports the guidance provided by the National Institute for Health and Clinical Excellence in its "Improving Outcomes for People with Skin Tumours including Melanoma", published in February 2006. This guidance states that different degrees of specialisation are required to treat the various types and stages of skin cancer.

Some treatments, for those groups of patients specified in the guidance, may be carried out in the community by a variety of clinicians, including general practitioners with a special interest in skin cancer. All health professionals who knowingly treat patients with any type of skin cancer should be members of a local hospital skin cancer multidisciplinary team or a specialist skin cancer multidisciplinary team.

Sunbeds

Mr. Milburn: To ask the Secretary of State for Health how many cases of sunburn arising from sunbed use have been reported to NHS Logistics in the most recent year for which figures are available; and how many such cases involved under-16 year olds. [220654]

Ann Keen: NHS Logistics has been disbanded and while operational did not collect information on cases of sunburn arising from the use of sunbeds.

Telemedicine

Mike Penning: To ask the Secretary of State for Health whether he plans to establish an English Centre for Telehealth. [223183]

Mr. Bradshaw: There are no current plans to establish an English Centre for Telehealth.

Trauma: Death

Mike Penning: To ask the Secretary of State for Health what the fatality rates of trauma patients were in each year from 1995 to 2007. [221327]

Mr. Bradshaw: The requested data are not collected centrally because there is no link between mortality data from the Office for National Statistics and the case data on trauma patients from Hospital Episodes Statistics.

Trauma: Health Services

Mike Penning: To ask the Secretary of State for Health how many *(a)* accident and emergency departments and *(b)* trauma centres have co-located cardio-thoracic facilities. [221321]

Mr. Bradshaw: No such assessment has been made centrally. These are matters for the national health service to determine. Over the last year, as part of the Next Stage Review, each strategic health authority has set out its vision for improving health and healthcare based on the recommendations of clinically-led pathway groups including acute care. These visions identify the need for high quality trauma services and a common theme was the need for specialised centres for major trauma.

Vioxx

Mr. Frank Field: To ask the Secretary of State for Health what estimate his Department has made of the number of people in England with increased cardio-vascular risk as a result of using Vioxx. [223303]

Mr. Bradshaw: Vioxx (rofecoxib) was one of a group of anti-inflammatory medicines known as COX-2 selective inhibitors. It was licensed in the United Kingdom and many other countries for the treatment of arthritic conditions—osteoarthritis and rheumatoid arthritis—and also for the short-term treatment of some painful conditions. COX-2 selective inhibitors are effective anti-inflammatory, pain-relieving medicines that are thought to have less risk of gastrointestinal side effects, for example stomach ulcers, than conventional anti-inflammatory medicines.

Since 2000, evidence from clinical trials had raised concerns about a possible increased risk of heart attacks and other cardiovascular conditions associated with Vioxx, and the Medicines and Healthcare products Regulatory Agency/Committee on Safety of Medicines (CSM) kept the cardiovascular safety of this drug under continual review since it was first licensed. The product information for healthcare professionals and patients, which lists all the known side effects of the medicine, was updated on a number of occasions to better reflect its cardiovascular safety, in accordance with CSM's advice.

Data are not available on which to base a valid estimate of the number of people with increased risk of heart attacks, strokes and other adverse cardiovascular effects that may have been associated with Vioxx and other COX-2 inhibitors. The underlying medical condition of many patients treated with COX-2 inhibitors means that they are already at higher risk of heart attack and stroke than the rest of the population, and it is not possible to calculate the impact of the COX-2 inhibitor on this risk. Furthermore, there is insufficient evidence to determine the rate at which cardiovascular risk reduces after cessation of treatment with Vioxx, but there is evidence from one study suggesting that the risk wanes after cessation of therapy, although the exact time course for the reduction in risk is uncertain, and it is not possible to exclude persistence of risk for several months after treatment has stopped.

Since Vioxx was voluntarily withdrawn by the manufacturer in 2004, the safety of other COX-2 inhibitors and traditional anti-inflammatory drugs—non-selective non-steroidal anti-inflammatory drugs (NSAIDs)—has been carefully and intensively assessed in the UK and Europe. The latest evidence suggests that both NSAIDs and COX-2 inhibitors are effective painkilling anti-inflammatory treatments but might pose a small increased risk of heart attacks or strokes, although the exact level of risk may vary between medicines. The MHRA has widely communicated the latest information and advice for healthcare professionals in letters and bulletins, and other publications through liaison with the British National Formulary and National Prescribing Centre. In addition, product information for healthcare professionals and patient information leaflets have been updated in order to support informed decision-making in relation to the choice of anti-inflammatory medicine.

Mr. Frank Field: To ask the Secretary of State for Health what discussions his Department has had with Merck in the United States on the effects of Vioxx on people in England; and if he will make a statement. [223304]

Mr. Bradshaw: The Under-Secretary of State, my hon. Friend the Member for Bury, South (Mr. Lewis), met with representatives of Merck Sharpe and Dohme UK Ltd on 10 July 2008 where he highlighted the concerns raised by hon. Members on behalf of their constituents. A representative from Merck and Co., Inc. was also present at that meeting.

INNOVATION, UNIVERSITIES AND SKILLS

Adult Education: Apprentices

Mr. Hepburn: To ask the Secretary of State for Innovation, Universities and Skills what steps he is taking to increase the number of people undertaking adult apprenticeships. [223117]

Mr. Lammy: 'World-class Apprenticeships' confirmed our commitment to making apprenticeships a top-quality option for both young people and adults and set out several steps to increase the numbers of people undertaking adult apprenticeships. Last year we abolished the upper age limit for apprenticeships and we are increasing apprenticeships funding to over £1 billion between 2007-08 and 2010-11, including funding to expand apprenticeships for older learners. Skills Accounts are soon to be trialled to empower individuals to take up and progress in adult learning, including apprenticeships. Expanding apprenticeships for adults will play a key role in helping us to deliver over 250,000 apprenticeship starts and 190,000 successful completions by 2020 in order to deliver the Leitch ambition of 400,000 apprenticeships in England.

Apprentices

Mr. Hepburn: To ask the Secretary of State for Innovation, Universities and Skills how many apprentices have *(a)* started and *(b)* completed (i) programme-led and (ii) work-based apprenticeships in construction in the last three years. [208795]

Mr. Lammy: In 2006-07 21,000 young people and adults started an apprenticeship in the construction sector, including 1,820 who started on a programme-led apprenticeship (PLA) in the workplace pending a move

to an employed apprenticeship with an employer. A further 1,630 people started a PLA based at a further education college. In the same year 12,560 people completed an apprenticeship framework in construction. Some of those completing an apprenticeship have been on a PLA in the workplace but there are no data currently available to track PLA learners through to completion of an apprenticeship.

The following table provides the available data for the last three years.

Number of learners on LSC-funded work-based apprenticeships and programme-led apprenticeships in construction

	2004-05	2005-06	2006-07
Programme-led Apprenticeships (FE-led learning)			
Learners	n/a	1,820	1,630
Programme-led Apprenticeships (work-based learning (WBL))			
Starts	n/a	970	1,820
Leavers	n/a	800	1,350
Work-based Apprenticeships			
Starts (including WBL PLA starts)	18,740	15,730	21,000
Completions	5,750	9,500	12,560

Notes:
1. Information on the number of programme-led apprentices (PLAs) in 2004-05 is not available on a consistent basis.
2. WBL Frameworks included are Construction (107) and Engineering Construction (116).
3. For FE-led programme-led apprentices, figures are based on learners in Construction, Planning and the Built Environment Sector Subject Area.
4. Information on the number of Leavers for programme-led apprenticeships includes learners who have completed their programme of study and learners who have left early.
5. Information on completions is not available for FE-led PLAs. Achievement information is available but for individual programmes of study and not consistent with learner numbers (a learner may be enrolled on more than one course)

Source:
Work-based learning ILR/FE ILR.

Mr. Hepburn: To ask the Secretary of State for Innovation, Universities and Skills how many people aged *(a)* 16 and 17, *(b)* 18 and over and *(c)* in total have enrolled on an apprenticeship in (i) Jarrow constituency, (ii) South Tyneside, (iii) the North East and (iv) nationwide in each year since 1997. [223118]

Mr. Lammy: Table 1 shows the number of people that have started on an apprenticeship from 1997. Information on individual age volumes is unavailable between 1997-98 and 2001-02. We have, however, provided a national figure for the number of apprenticeship starts over this period.

Table 1: Apprenticeship starts, by age at start of course.

	1997-98	1998-99	1999-00	2000-01	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07
Total apprenticeship starts, by age[1]										
16- year-old apprenticeship starts[2]	—	—	—	—	—	40,000	39,000	44,000	34,000	34,000
17 year old Apprenticeship Starts	—	—	—	—		41,000	37,000	38,000	33,000	36,000
18+ Apprenticeship Starts	—	—	—	—	—	122,000	117,000	108,000	108,000	115,000
Total Apprenticeship Starts	75,000	118,000	165,000	177,000	162,000	204,000	194,000	189,000	175,000	184,000
Apprenticeship starts in the North East[3], by Age[1]										
16-year-old apprenticeship starts[4]	—	—	—	—	—	3,800	3,600	3,800	3,000	2,900
17-year-old apprenticeship starts	—	—	—	—	—	3,600	2,900	3,300	3,000	2,900
18+ Apprenticeship Starts	—	—	—	—	—	8,300	7,300	6,900	7,500	6,800
Total apprenticeship starts in the North East	—	—	—	—	—	15,600	13,800	14,000	13,500	12,600
Apprenticeship Starts in South Tyneside[4], by Age[1]										
16-year-old Apprenticeship Starts[4]	—	—	—	—	—	300	360	280	260	210
17 year old Apprenticeship Starts	—	—	—	—	—	220	250	220	240	240

Table 1: Apprenticeship starts, by age at start of course.

	1997-98	1998-99	1999-00	2000-01	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07
18+ Apprenticeship Starts	—	—	—	—	—	470	460	420	540	450
Total Apprenticeship Starts - South Tyneside	—	—	—	—	—	990	1,080	920	1,040	890
Apprenticeship Starts in Jarrow[5], by Age[1]										
16-year-old Apprenticeship Starts[2]	—	—	—	—	—	160	180	160	140	100
17-year-old Apprenticeship Starts	—	—	—	—	—	150	140	120	110	120
18+ Apprenticeship Starts	—	—	—	—	—	250	240	220	280	220
Total Apprenticeship Starts - Jarrow	—	—	—	—	—	560	560	500	530	450

[1] Age is based on learner age at the start of the course.
[2] A small number of learners aged under 16 at the start of the course are included in this figure.
[3] North East Government Office Region, based on learner's home postcode.
[4] South Tyneside Local Authority, based on learner's home postcode.
[5] Jarrow constituency, based on learner's home postcode.
Notes:
1. Figures may not sum to totals due to rounding.
2. These figures represent learners starting an apprenticeship or an advanced apprenticeship. Additionally, there are a very small number of Higher Level Apprenticeships included in the 2006-07 total.
Source:
ISR/ILR Work-Based Learning data.

Mr. Hepburn: To ask the Secretary of State for Innovation, Universities and Skills how many people aged 18 and over at the outset of an apprenticeship have completed their apprenticeship in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* nationwide in each year since 1997. [223119]

Mr. Lammy: Table 1 shows the number of people aged 18 or over at the start of their apprenticeship. Framework completion data was not published in the pre-LSC era, so figures are not available for the period between 1997-98 to 2001-02.

Table 1: Full framework apprenticeship completions for learners aged 18 or over[1] at the start of their apprenticeship

	2002-03	2003-04	2004-05	2005-06	2006-07
Total Apprenticeship Completions	23,800	28,700	38,500	57,200	66,700
Apprenticeship Completions in the North East[2]	1,600	1,800	2,600	3,700	4,400
Apprenticeship Completions in South Tyneside[3]	60	110	150	220	290
Apprenticeship Completions in Jarrow[4]	30	50	90	120	150

[1]. Age is based on learner age at the start of the course.
[2]. North East Government Office Region, based on learner's home postcode.
[3]. South Tyneside Local Authority, based on learner's home postcode.
[4]. Jarrow constituency, based on learner's home postcode.
Note:
Figures may not sum to totals due to rounding.

ISR/ILR work-based learning data.

These figures represent learners starting an apprenticeship or an advanced apprenticeship. Additionally, there are a very small number of Higher Level Apprenticeships included in the 2006-07 total.

Biofuels: Research

Mark Williams: To ask the Secretary of State for Innovation, Universities and Skills what discussions he *(a)* has had and *(b)* plans to have with universities involved in biofuels research on the implications of the Gallagher review. [221387]

Ian Pearson: No specific meetings or discussions have been held between Ministers in this Department and universities about the Gallagher Review. The Research Councils are responsible for providing funding for research at universities, including energy related research and post graduate training. The councils are considering the outcome of the review and will use the review to guide the development and support for research related to biofuels. For instance, the Biotechnology and Biological Sciences Research Council (BBSRC) bioenergy strategy shares many of the conclusions of the Gallagher Review by placing importance on basic science underpinning second generation biofuels, such as those that can utilise marginal land or crop residues or non-food crops.

Carers: Disabled

Mr. Harper: To ask the Secretary of State for Innovation, Universities and Skills pursuant to paragraph 3.11 in the Carers at the heart of 21st-century families and communities report, how much of the £150 million funding for breaks for carers of disabled children will be provided by his Department over each of the next two years. [220299]

Bill Rammell: DIUS is not involved in making direct respite care payments to carers of disabled children. The Department of Health are the budget holders of the £150 million referred to therefore we would refer the hon. Gentleman to the response from the Under-Secretary of State, my hon. Friend the Member for Bury, South (Mr. Lewis) (220304).

Departmental Alcoholic Drinks

David Simpson: To ask the Secretary of State for Innovation, Universities and Skills (1) what measures are in place in his Department to monitor expenditure on alcohol for hospitality purposes; [219597]

(2) what purchasing process is used by his Department for the procurement of alcohol for hospitality purposes. [219956]

Mr. Lammy: Any expenditure on alcohol for hospitality purposes is made in accordance with guidance on financial procedures and propriety, based on the principles of Managing Public Money and the Treasury handbook on Regularity and Propriety.

Accordingly, alcohol is provided only as an exception. Where it is provided, it is generally purchased by the caterer for the event in question.

Departmental Buildings

Mr. Betts: To ask the Secretary of State for Innovation, Universities and Skills what his Department's policy is on improving the energy efficiency of the buildings which it *(a)* rents and *(b)* owns; what changes there have been in the energy efficiency of such buildings in the last (i) five and (ii) 10 years; and whether his Department has adopted targets on energy efficiency improvements in the buildings it occupies over the next (A) five and (B) 10 years. [221086]

Mr. Lammy: Estate services for the main office accommodation occupied by the Department for Innovation Universities and Skills are provided by the Departments for Business, Enterprise and Regulatory Reform, and Children, Schools and Families. Answers given by those Departments will therefore cover this Department as well.

The Department for Innovation, Universities and Skills also manages an estate in Teddington, occupied principally by the National Physical Laboratory. The majority of activities undertaken on the estate have recently moved to new and very different accommodation, so historical comparisons would not be meaningful. However a number of tasks are underway to improve the energy efficiency of the new NPL building such as night-time set-back of environmental control, filming of windows and installation of the infrastructure for a ground source heat pump system.

Mr. Betts: To ask the Secretary of State for Innovation, Universities and Skills what account his Department takes of the level of energy efficiency of buildings before entering into agreements to *(a)* rent and *(b)* purchase those buildings. [221102]

Mr. Lammy: The Department at present has not rented or purchased any building outside the current civil estate. If we were looking to occupy a new building we would seek to obtain a building with the highest BREEAM rating available.

Departmental ICT

Pete Wishart: To ask the Secretary of State for Innovation, Universities and Skills what the value of his Department's computer systems *(a)* was at the time of purchase and *(b)* is now. [214682]

Mr. Lammy: The Department compiles their accounts consistent with the Financial Reporting Manual (FreM). The value of the Department's computer systems are as follows:

	Value of computer systems (£000)
(a) At the time of purchase	953
(b) Now (as at 31 March 2008)	896

Mr. Philip Hammond: To ask the Secretary of State for Innovation, Universities and Skills what information technology projects initiated by his Department and its predecessors have been cancelled prior to completion in the last five years; and what the cost of each such project was to the public purse. [221709]

Mr. Lammy: DIUS is a new Department established in June 2007 substantially from parts of the former DTI and DfES. As far as we are aware, since June 2007 the Department has not cancelled any information technology projects.

No information technology projects were cancelled in the last five years for those functions brought over into DIUS from the former DTI.

It is not possible, without exceeding the disproportionate cost threshold, to determine if any information technology projects were cancelled in the last five years for those functions brought over into DIUS from the former DfES.

Departmental Overtime

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills what the cost of overtime payments paid to staff in his Department was in each of the last 12 months, broken down by pay grade. [221292]

Mr. Lammy: The cost of overtime payments in the Department by grade is set out in the following table[1]. Overtime is not payable to members of the senior civil service.

[1] Specialist grades are included in their grade equivalent. Grades 6 and 7 are entitled to an extra hours' discretionary payment for long hours working and a weekend attendance allowance subject

to an overriding limit. Figures include BERR grade pay ranges: range 4 (EA); ranges 5-6 (EO); ranges 7-8 (HEO); range 9 (SEO); range 10 (Grade 7); range 11 (Grade 6).

£

	Executive assistant (EA)	Executive officer (EO)	Higher executive officer (HEO)	Senior executive officer (SEO)	Grade 7	Grade 6	Total
June 2008	9,194	7,534	11,152	12,424	32,067	0	72,371
May 2008	11,540	6,754	8,827	15,301	29,293	155	71,870
April 2008	10,902	12,833	14,809	16,392	33,747	0	88,683
March 2008	5,368	6,604	17,057	12,644	15,976	0	57,649
February 2008	9,672	7,706	6,456	14,885	19,488	279	58,486
January 2008	9,972	16,464	10,809	13,737	27,218	0	78,200
December 2007	6,099	18,885	3,712	16,940	17,914	0	63,550

October 2007	13,878	17,951	10,291	19,452	18,677	0	80,249
September 2007	7,667	13,129	6,957	11,237	16,762	0	55,752
August 2007	8,333	25,572	7,280	7,783	6,819	0	55,787
July 2007	9,571	28,284	5,686	3,933	2,099	449	50,022
Total	114,441	183,511	105,846	161,212	241,591	833	807,481

Departmental Pay

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how much was claimed in reimbursable expenses by special advisers in his Department in each of the last 10 years. [215235]

Ian Pearson: Since the creation of DIUS in June 2007 Special Advisers have claimed £1,525.63 in reimbursable expenses.

Special advisers are temporary civil servants and are therefore entitled to claim expenses available to other civil servants. Guidance on claiming expenses can be found in chapter 8 of the Civil Service guide:

http://www.civilservice.gov.uk/iam/codes/csmc/online_report/8.asp

Mr. Philip Hammond: To ask the Secretary of State for Innovation, Universities and Skills how much was claimed in reimbursable expenses by press officers in his Department and its agencies in each of the last three financial years. [221176]

Mr. Lammy: The Department for Innovation, Universities and Skills was created as a result of machinery of government changes in June 2007. During the 2007-08 financial year £168.73 has been claimed by press officers for reimbursable expenses.

Departmental Procurement

David Simpson: To ask the Secretary of State for Innovation, Universities and Skills what his Department's policy is on requesting discounts from its suppliers in return for swift payment of invoices. [220432]

Mr. Lammy: The Department for Innovation, Universities and Skills was established under Machinery of Government changes in June 2007 and currently operates two ledgers. Science and Innovation and Higher and Further Education have the following policies regarding swift payment of invoices:

Business, Enterprise and Regulatory Reform (Science and Innovation)

The Department follows OGC best practice guidance in making payments to its suppliers within 30 days of a correctly submitted invoice. This is reflected in the provisions of our standard form of contract. The Department does not have a practice of requesting discounts in return for swift payment of invoices.

The Department is subject to the provisions of the Late Payments of Commercial Debts (Interest) Act 1998 which provides suppliers with rights to claim interest on late payments of a commercial debt.

Department for Children, Schools and Families (Higher and Further Education)

The Department follows OGC best practice guidance in making payments to its suppliers. The 'Model invitation to tender letter' states: "the successful tenderer should provide details of discounts for prompt payment".

Departmental Public Buildings

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills which organisations have received *(a)* free and *(b)* discounted room hire from (i) his Department and (ii) its agencies in each of the last five years; and what the commercial value of the discount was in each case. [221592]

Mr. Lammy: The Department for Innovation, Universities and Skills was established under machinery of government changes in June 2007. Neither DIUS or its agency hires rooms to other organisations. Rooms are not generally made available free to other organisations, but we do not keep a central record of whether this has ever occurred. It may sometimes be appropriate for events or meetings convened by DIUS-sponsored bodies to be hosted in DIUS rooms.

Departmental Public Participation

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills what *(a)* listening exercises and *(b)* public forums his Department has

held since establishment; what the (i) purpose and (ii) cost was in each case; and who the private contractor was and how much it was paid in each case. [221353]

Mr. Lammy: The Department for Innovation, Universities and Skills was created as a result of Machinery of Government changes in June 2007.

Since its establishment the Department has held the following listening exercises and public forums:

Listening exercise/public forum/consultations	*Purpose*	*Total cost (£)*	*Of which: Private contractor*	*Cost (£)*	*Service provided*
Informal Adult Learning (IAL) Citizen Summit x1 June 2008	Facilitate debate with members of the public around the key issues and aims of the consultation. Define the broad range of IAL activities. Develop proposal for the 'new vision' of IAL. Deliver qualitative and quantitative information on the experiences of the public.	[1]115,470.70	BMRB (British Market Research Bureau)	59,357.00	Event facilitation
			Hilton Paddington	9,270.52	Venue
			Stage Electrics	*4,600.00	Site production, lighting etc.
			Cheerful Scout	6,810.00	Voting and data capture
			Neal Display	*4,000.00	Set and staging
Informal Adult Learning Stakeholder Roundtable Discussions x7 May to July 2008	Engage the following sectors in the IAL consultation: broadcast and technology; families; older learners; the workplace; the voluntary and community sector. Plus a reconvened event to discuss the sector findings.	36,721.75	None		
Five student juries altogether in the financial year 2007-08	To capture the views of higher education students and feed them into the policy-making process.	20,000.00	SHM Productions Ltd.	20,000.00	
The European Research Area (ERA)—new perspectives.	To inform the UK Government's response to the Commission's Green paper 'The European Research Area (ERA)—new perspectives'.	4,686.30	Institution of Mechanical Engineers	4,686.30	Venue hire etc.
Raising Expectations: enabling the system to deliver—nine regional events relating to FE.	To raise awareness and understanding of the proposals set out in Raising Expectations: enabling the system to deliver and to capture views on them.	[2]201,924.56	None		
The Review Report 'World Class Apprenticeships: Unlocking Talent, Building Skills for All'.	Readers were asked to provide comments/views on future strategy for Apprenticeships set out in the document. The Central Office of Information strategy consultancy were engaged to produce an assessment report of the 104 responses received.	8,240.00	None		
Public consultation on the draft Apprenticeships Bill.	This is a joint consultation with DCSF. It is hosted by the DCSF consultation unit. Its purpose is to consult on the draft Bill.	[3]0	None		

Listening exercise/public forum/consultations	*Purpose*	*Total cost (£)*	*Of which: Private contractor*	*Cost (£)*	*Service provided*
Single Equality Scheme consultation event.	Single equality scheme consultation to gauge public opinion and input prior to publication of scheme.	32,324.00	Paul James Associates	32,324.00	Management and facilitation of event plus post event consultation with attendees and production of report.
Adult advancement and careers service.	Workshop held to share expertise and views on the development of new adult advancement and careers service.	22,000.00	CRAC: The Career Development Organisation and the National Institute for Careers Education and Counselling.	22,000.00	
Five regional innovation roadshow events in north-west, east of England, north-east, west midlands and south-west regions held between May and July 2008. Further events in east midlands, south-east, London and Yorkshire and Humber due to take place in September to November.	To promote the range of support available regionally to businesses for innovation and to facilitate discussion with a business audience on the main recommendations of the Innovation Nation White Paper.	[4]100,000.00	[5]	[5]	[5]

[1] Full final costs not yet invoiced by some suppliers—costs marked '*' based on budget.
[2] Contract delivered by the Central Office of Information.
[3] No external costs.
[4] The total costs of the nine events will be approximately £90,000-100,000. The costs will be split 50/50 between DIUS and the regional development agencies.
[5] Event arrangements such as venue hire, printing of materials etc. and any related private sector costs are procured by the regional development agency for each event. DIUS has agreed to meet 50 per cent. of total costs which may include costs for private contractors.

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills what *(a)* reviews and *(b)* public consultations have been initiated by his Department since 27 June 2007. [221365]

Mr. Lammy: The Department for Innovation, Universities and Skills was created as a result of Machinery of Government changes in June 2007.

The Department places the highest emphasis on effective review and consultations with public and stakeholders as vital elements of evidence based policy making and delivery.

The *(a)* reviews and *(b)* public consultations initiated by the Department have been detailed as follows.

(a) Reviews

Review of the Designing Demand programme run by the Design Council

Audit of the Government Chemist function by two external experts

The Review of Post 16 Learner Statistical First releases

Operation of the Government funded Apprenticeship programme in England (joint with DCSF)

Review of Investors in People UK's remit including services to help employers develop their business

The performance management arrangements for offender skills and employment delivery

Reform of Weights and Measures Legislation

(b) Consultations

Science and Society Strategy Consultation Innovation Nation Consultation

The PIUS Single Equality Scheme

Raising Expectations: Consultation on two new systems to deliver education and training for young people and adults (jointly with DCSF)

Focusing English for Speakers of Other Languages (ESOL) on Community Cohesion

Informal Adult Learning—Shaping the Way Ahead

The role of Further Education Providers in promoting community cohesion, fostering shared values and preventing violent extremism

The draft Apprenticeships Bill

Improvement in the Further Education Sector—a consultative prospectus for a new sector-owned organisation (joint with Quality improvement Agency (QIA) and Centre for Excellence in Leadership(CEL)

A formal time to train consultation

European IP Charter (Code) for the management of intellectual property by universities and other public research organisations

Fast track processing of Patents and Trade Marks

The Draft Patents (Compulsory Licensing and Supplementary Protection Certificates) Regulations 2007

Proposed changes to copyright exceptions

Modernisation and consolidation of the Trade Marks Rules.

Informal Consultation Paper on The Modernisation of the Trade Marks (International Registration) Order

The Artist's Resale Right: Derogation for Deceased Artists

Proposed changes to Copyright Exemptions in respect of Music Licensing

Informal Consultation Paper on The Patent Research Exception

Departmental Responsibilities

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills which projects his Department has commissioned from *(a)* think tanks and *(b)* charities in each of the last two years for which figures are available; what the aim of each project was; which think tank or charity was commissioned; and how much was paid. [221615]

Mr. Lammy: The Department's accounting records do not collate information to this level of detail. To provide a response would be at disproportionate cost.

Departmental Retirement

Mr. Marsden: To ask the Secretary of State for Innovation, Universities and Skills whether his Department has a standard retirement age; and how many employees have been asked to retire on reaching 65 years of age in each year since 2000. [218215]

Mr. Lammy: As part of the Machinery of Government changes of 28 June 2007, the Department has taken on board terms and conditions of staff transferred in from the former Department for Education and Skills (DfES) and Department for Trade and Industry (DTI). In DfES there was no set retirement age for the majority of staff. In DTI staff could retire at any time between the minimum retirement age of 60 and the maximum retirement age of 65. Staff also have a statutory right to request to continue working beyond 65. Careful consideration is given to such requests, but any offer to continue working beyond that age will be at the discretion of the Department.

A retirement age of 65 has been adopted by central Government for the senior civil service (SCS) but members of the SCS can request to work beyond that age.

Departmental Sick Leave

Jenny Willott: To ask the Secretary of State for Innovation, Universities and Skills (1) how many sick days were taken by employees in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility due to (i) stress and (ii) mental health and behavioural disorders since the Department's establishment; what proportion of sick days taken this represented in each case; and if he will make a statement; [216158]

(2) how many staff in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility have taken sick days due to (i) stress and (ii) mental health and behavioural disorders since the Department was established; what proportion of staff of each body this represented in each year; and if he will make a statement; [216159]

(3) what the average duration of single periods of sick leave taken by staff in *(a)* his Department and its predecessor, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility who gave (i) stress and (ii) mental health and behavioural disorders as the reason for their absence has been since the Department was established; and if he will make a statement. [216160]

Mr. Lammy: Sickness absence figures for the Department for Innovation, Universities and Skills for the year ending 31 March 2008 are available on its website:

www.dius.gov.uk/press/civil_sickness.html.

It is not possible to separate information on absence relating to stress and mental health and behavioural disorders as these are grouped together under 'mental disorders'. As the Department was not created until 28 June 2007, the sickness absence figures reported include the actual sickness absence for the period July 2007 to March 2008, with estimated figures given for the period April 2008 to June 2008. The figures include the Department's two agencies, the National Weights and Measures Laboratory (NWML) and the UK Intellectual Property Office (UKIPO), but they do not include the non-departmental public bodies as the information for them is not held centrally.

Absence management is a high priority for the Department. We are aware of the importance of tackling stress, mental health and behavioural issues and are taking positive steps to manage these issues.

Jenny Willott: To ask the Secretary of State for Innovation, Universities and Skills what the average duration of single periods of sick leave taken by staff in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility since the Department was established; and if he will make a statement. [216161]

Mr. Lammy: Sickness absence figures for the Department for Innovation, Universities and Skills for the year ending 31 March 2008 are available on its website

www.dius.gov.uk/press/civil sickness.html.

As the Department was not created until 28 June 2007, the sickness absence figures reported include the actual sickness absence for the period July 2007 to March 2008, with estimated figures given for the period April 2008 to June 2008. The figures include the Department's two agencies, the National Weights and Measures Laboratory (NWML) and the UK Intellectual Property Office (UKIPO), but they do not include the non-departmental public bodies as the information for them is not held centrally.

Absence management is a high priority for the Department. We are aware of the importance of tackling stress, mental health and behavioural issues and are taking positive steps to manage these issues.

Departmental Sick Pay

Jenny Willott: To ask the Secretary of State for Innovation, Universities and Skills how many staff in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility have received sick pay for sick leave due to (i) stress and (ii) mental health and behavioural disorders since the Department was established; what the average length of time was for which sick pay was paid in these cases; and if he will make a statement. [216162]

Mr. Lammy: Since the formation of the Department to 31 March 2008, 1,034 (52 per cent.) staff from the Department and its agencies have taken a period of sick leave and will have received sick pay but it is not possible to break this down to stress, mental health and behavioural disorders and other illnesses without incurring disproportionate cost. We do know that just under 21 per cent. of all days sickness absence in my Department are due to mental disorders, including stress, and that 958 staff (48 per cent.) have not taken any sick leave in the period described. These figures include the Department's two agencies, the National Weights and Measures Laboratory (NWML) and the UK Intellectual Property Office (UKIPO), but they do not include the non-departmental public bodies as the information for them is not held centrally.

My Department is aware of the importance of tackling stress, mental health and behavioural issues. Later this year we will be publishing a new stress prevention and management policy called 'building resilience'. We will also be providing learning and development for line managers and mental health awareness events from September.

Further Education: Student Wastage

David Simpson: To ask the Secretary of State for Innovation, Universities and Skills how many students in further education in England failed to complete their course in the last 12 months; and how many of them were in *(a)* the final year of their course and *(b)* the first year of their course (i) in total and (ii) broken down by region. [220139]

Bill Rammell: Table 1 shows the percentage and number of students that failed to complete their course in 2006/07 for FE colleges, Work Based Learning (WBL) and Train to Gain (TTG) separately. The figures are calculated using different methodologies and should not be used to compare performance between the sectors. Similar figures for Personal and Community Development Learning are not available.

Data on how many learners dropped out in the first and second years respectively are not available.

Table 2 shows the percentage and number of FE college students that failed to complete their course by region in 2005/06. Similar analysis for later years and for WBL and TTG is not available.

Table 1: Percentage and number of students that failed to complete their course in 2006/07 for FE colleges, WBL and TTG

Sector	*Starts (thousand)*	*Percentage early leavers*	*Number early leavers (thousand)*
FE colleges	3,567	12.6	449
WBL	181	32.7	59
TTG	93	40.2	37

Table 2: Percentage and number of FE college students that failed to complete their course by region in 2005/06

Sector	*Starts*	*Percentage early leavers*	*Number early leavers (thousand)*
East of England	325	13.0	50
East Midlands	363	12.7	53
Greater London	744	11.8	98
North East	244	12.1	35
North West	661	13.7	97
South East	608	13.2	86
South West	470	13.7	71
West Midlands	591	12.8	80
Yorkshire and the Humber	464	14.4	75
England	4,470	13.0	645

Higher Education: Blackpool

Mr. Marsden: To ask the Secretary of State for Innovation, Universities and Skills how much his Department and its predecessors spent on *(a)* higher education and *(b)* further education in Blackpool in each year since 1997. [223127]

Bill Rammell: Expenditure incurred by HEFCE, the Student Loans Company and the Learning and Skills Council is not collected by my Department at the level of detail requested. We will, however, work with HEFCE and the Student Loans Company to try to gain a detailed breakdown of the higher education expenditure and will write to the hon. Member with further relevant detail. Mark Haysom, the LSC's Chief Executive, will write to the hon. Gentleman with additional information on further education expenditure.

Personal Injury

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what the highest 10 payments made by his Department in settlement of personal injury claims brought against it were over the last 12 months for which figures are available; which of those cases were *(a)* contested and *(b)* uncontested by the Department; and what the nature of the incident was in each case. [216674]

Mr. Lammy: There have been no personal injury claims against the Department.

Students: Debts

Mr. Evennett: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the number of graduates who have not repaid any of their student loan in the latest period for which figures are available. [218521]

Bill Rammell: Borrowers are liable to begin repaying their student loans from the April after they finish or leave their course. Student loans borrowers with income-contingent loans, which were introduced in 1998, repay at a rate of 9 per cent. of earnings above £15,000 per year.

Those earning less than £15,000 are not required to repay. Repayments are collected through the tax system, usually by employers, in the same way as income tax and National Insurance contributions and are therefore automatically deducted. Therefore borrowers covered by the PAYE UK tax system are not able to get into arrears. Self employed borrowers make repayments through the self assessment system.

Borrowers with the older mortgage-style loans repay over a fixed term whenever their income exceeds the repayment threshold, usually through direct debits. The threshold for mortgage-style loans is 85 per cent. of national average earnings, £25,287 from 1 September 2007. Borrowers who demonstrate that their income is below the threshold and for whom the Student Loans Company (SLC) has agreed a deferment of repayment will not make any repayments.

Most of the following provisional information is taken from the Statistical First Release Student Loans for Higher Education in England, Financial Year 2007-08 published by the Student Loans Company in June 2008:

http://www.slc.co.uk/pdf/slcsfr022008.pdf

At the end of the 2007-08 financial year there were 1,237,300 income-contingent loan borrowers and nearly 341,100 mortgage-style loan borrowers past statutory repayment due date, i.e. due to repay loans if their income was above the relevant threshold.

Income-contingent loan borrowers[1] March 2008

Non-repayment categories (records being matched and information being collected)	71,100
Below earnings threshold not repaying	384,300
Living overseas—in arrears[2]	500
Not yet repaying subtotal	455,900
SLC awaiting first year HMRC return—repayment status not yet determined[3]	254,600
Above earnings threshold -repaying	374,700
Currently below earnings threshold but have made repayments via the tax, system during the last year[4]	152,100

[1] Excludes borrowers not yet required to repay because they are still in higher education or have recently left and those with accounts being fully repaid, written-off or closed.
[2] May have made repayments that did not bring their accounts up to date.
[3] Those for whom the first tax year return has not yet been received by SLC so their repayment status cannot yet be determined. This will include some borrowers who are repaying and SLC will be passed details of their repayments after the end of their first tax year of repaying.
[4] Those whose earnings have fluctuated during the year and who have therefore made repayments in some months but have earnings below the threshold at the end of the financial year.

The income-contingent loan scheme is still relatively young; the first cohort of borrowers completing three year courses became liable to begin repaying in April 2002 if their income was above the repayment threshold. Therefore a higher proportion of borrowers are new graduates, who will be new to the labour market, than will be the case in steady state. The figures also reflect the time delay of up to 18 months between graduates starting to repay, and when information on the repayments they have made is available to SLC. This is because repayments are made through the tax system. HMRC receives an annual P14 return from employers, setting out the deductions they have made in the past year, and passes on this information to SLC to update borrowers' accounts. Despite the inevitable time lags, collecting student loans through the tax system remains the most efficient and cost-effective method.

The vast majority of income-contingent borrowers who are not repaying (84 per cent. of those not repaying) earn below the £15,000 threshold and are not therefore required to make any repayments. Repayments for a further 16 per cent. have not yet started because details are still being matched with employer's records or other information that is being collected.

Borrowers living overseas who have not yet repaid the amount they were scheduled to repay represent 0.04 per cent. of income-contingent borrowers covered in the table and 0.1 per cent. of those not repaying. The Student Loans Company has arrangements in place for repayments to be scheduled from borrowers living overseas and these borrowers are made aware of the methods of repayment available to them. Effective collection across the EU is underpinned by EC regulation 44/2001, which allows the SLC to obtain judgements in UK courts, which can be enforced by courts in other EU countries.

Mortgage-style loan borrowers March 2008[1]

Deferring repayments until following year[2]	
Deferring repayments	133,800
Deferring repayments with arrears	6,500
In arrears (may have made repayments that did not bring accounts up to date)	
Owing less than 2 months repayments[1]	2,200
Owing 2 or more months repayments[1]	23,900
Overdue with no repayment schedule owing less than £100[1]	2,200
Overdue with no repayment schedule owing £100 or more[1]	53,500
Repaying	
Ahead with repayments	37,300
Up to date with repayments	87,100
Account closed	
Fully repaid since loans introduced	534,300
Cancelled/written-off since loans introduced	71,800

[1] Individual borrowers may be counted in more than one category if they have loan accounts in more than one status.
[2] Borrowers with mortgage-style loans who have income below the repayment threshold are entitled to apply for deferment of repayment for one year at a time.

Of those borrowers who have received mortgage-style loans since their introduction in 1990, 56 per cent. have fully replaced and a further 8 per cent. have had their loans cancelled or written-off for reasons such as age, death, or becoming disabled and permanently unable to work. Around 23 per cent. are currently deferring or have arrears. Mortgage-style loans were replaced by income-contingent loans from 1998.

Students: Fees and Charges

Mr. Rob Wilson: To ask the Secretary of State for Innovation, Universities and Skills what the Government's policy is on permitting medical students with a first degree from a UK institution to defer payment of up-front tuition fees. [213893]

Bill Rammell: Fee support has always been restricted for people who have already had a chance to experience higher education. Students with an honours degree from a UK institution are not eligible for tuition fee loans for a second undergraduate degree. For medical students who have already achieved a first degree, the position has not changed. The student support arrangements are designed to support one opportunity to take a full-time course of higher education.

However, graduate medical students are eligible for loans for living costs and supplementary grants for the second undergraduate degree, because of a special dispensation for students studying for a professional qualification.

The Department of Health supports medical students on the full undergraduate course in years 5 and 6. For graduates on the four-year accelerated courses these students have their fees paid and receive means-tested bursaries for years 2 to 4 of the accelerated course.

Ian Lucas: To ask the Secretary of State for Innovation, Universities and Skills how many and what percentage of students began undergraduate courses in England on fees varied from the statutory permissible maximum in each year since the introduction of the Higher Education Act 2003. [218782]

Ian Pearson: Variable fees were introduced in 2006/07. In that year new entrants to higher education could be charged up to £3,000. Increases are limited to the rate of

inflation until at least 2010. Universities charging variable fees have to have an access agreement with the Office For Fair Access (OFFA) and are required to provide bursaries to students receiving the full Maintenance Grant. Many offer considerably more than the minimum bursary required. Fees can vary by course as well as institution.

English domiciled full-time undergraduate entrants to English higher education institutions by fee status 2006/07

Fee status of institution	*New entrants*[1]	*Percentage of students*
Institutions charging full fee	277,200	93
Institutions not charging full fee	19,445	7

[1] Figures are on a HESA Standard Registration Population basis and are rounded to the nearest five.

Sources:
OFFA lists of institutions by fee status; Higher Education Statistics Agency (HESA) Student Record

Students: Loans

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills if he will break down the data in Tables 1, 2(ii) and 2(iii) of the Press Release entitled Student Loans for Higher Education in England, Financial Year 2007-08 (Provisional), issued on 17 June 2008 by *(a)* students domiciled in England, *(b)* students domiciled in the UK but not in England and *(c)* students domiciled in the EU but not in the UK. [212684]

Bill Rammell: The Student Loans Company (SLC) publication Student Loans for Higher Education in England Financial Year 2007-08 (provisional) covers loans to English domiciled students studying in the UK and EU domiciled students studying in England. SLC produces separate publications for the other home countries, in consultation with the devolved administrations.

EU domiciled students studying in England may apply for tuition fee loans, first introduced in September 2006. They are not eligible for maintenance loans. Table 2(ii) of the England publication which has been placed in the Library covers the older mortgage-style maintenance loans only, and is therefore covering only England domiciled students. Table 2(iii) which has also been placed in the Library shows EU domiciled students in separate columns, the remainder of the table covers England domiciled students.

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills how many live accounts are held by the Student Loan Company for which no repayment is currently being received, broken down by reason for the lack of repayment. [220225]

Bill Rammell: Borrowers are liable to begin repaying their student loans from the April after they finish or leave their course. Student loans borrowers with income-contingent loans, which were introduced in 1998, repay at a rate of 9 per cent. of earnings above £15,000 per year. Those earning less than £15,000 are not required to repay. Repayments are collected through the tax system, usually by employers, in the same way as income tax and National Insurance contributions and are therefore automatically deducted. Therefore borrowers covered by the PAYE UK tax system are not able to get into arrears. Self employed borrowers make repayments through the Self Assessment system.

Borrowers with the older mortgage-style loans repay over a fixed term whenever their income exceeds the repayment threshold, usually through direct debits. The threshold for mortgage-style loans is 85 per cent. of national average earnings, £25,287 from 1 September 2007. Borrowers who demonstrate that their income is below the threshold and for whom the Student Loans Company (SLC) has agreed a deferment of repayment will not make any repayments.

Most of the following provisional information is taken from the Statistical First Release Student Loans for Higher Education in England, Financial Year 2007-08 published by the Student Loans Company in June 2008:

http://www.slc.co.uk/pdf/slcsfr022008.pdf

At the end of the 2007-08 financial year there were 1,237,300 income-contingent loan borrowers and nearly 341,100 mortgage-style loan borrowers past statutory repayment due date, i.e. due to repay loans if their income was above the relevant threshold.

Income-contingent loan borrowers[1] *March 2008*

Non-repayment categories (records being matched and information being collected)	71,100
Below earnings threshold not repaying	384,300
Living overseas—in arrears[2]	500
Not yet repaying subtotal	455,900
SLC awaiting first year HMRC return—repayment status not yet determined[3]	254,600
Above earnings threshold -repaying	374,700
Currently below earnings threshold but have made repayments via the tax system during the last year[4]	152,100

[1] Excludes borrowers not yet required to repay because they are still in higher education or have recently left and those with accounts being fully repaid, written-off or closed.

[2] May have made repayments that did not bring their accounts up to date.

[3] Those for whom the first tax year return has not yet been received by SLC so their repayment status cannot yet be determined. This will include some borrowers who are repaying and SLC will be passed details of their repayments after the end of their first tax year of repaying.

[4] Those whose earnings have fluctuated during the year and who have therefore made repayments in some months but have earnings below the threshold at the end of the financial year.

The income-contingent loan scheme is still relatively young; the first cohort of borrowers completing three year courses became liable to begin repaying in April 2002 if their income was above the repayment threshold. Therefore a higher proportion of borrowers are new graduates, who will be new to the labour market, than will be the case in steady state. The figures also reflect the time delay of up to 18 months between graduates starting to repay, and when information on the repayments they have made is available to SLC. This is because repayments are made through the tax system. HMRC receives an annual P14 return from employers, setting out the deductions they have made in the past year, and passes on this information to SLC to update borrowers' accounts. Despite the inevitable time lags, collecting student loans through the tax system remains the most efficient and cost-effective method.

The vast majority of income-contingent borrowers who are not repaying (84 per cent. of those not repaying) earn below the £15,000 threshold and are not therefore

required to make any repayments. Repayments for a further 16 per cent. have not yet started because details are still being matched with employer's records or other information that is being collected.

Borrowers living overseas who have not yet repaid the amount they were scheduled to repay represent 0.04 per cent. of income-contingent borrowers covered in the table and 0.1 per cent. of those not repaying. The Student Loans Company has arrangements in place for repayments to be scheduled from borrowers living overseas and these borrowers are made aware of the methods of repayment available to them. Effective collection across the EU is underpinned by EC regulation 44/2001, which allows the SLC to obtain judgements in UK courts, which can be enforced by courts in other EU countries.

Of those borrowers who have received mortgage-style loans since their introduction in 1990, 56 per cent. have fully repaid and a further 8 per cent. have had their loans cancelled or written-off for reasons such as age, death, or becoming disabled and permanently unable to work. Around 23 per cent. are currently deferring or have arrears. Mortgage-style loans were replaced by income-contingent loans from 1998.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Inland Waterways: Property

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs how many lock-keepers' cottages his Department plans to *(a)* sell and *(b)* let in the next 12 months; and if he will make a statement. [223341]

Mr. Woolas: The Environment Agency has put on hold any changes proposed by its lock house review until the completion of a full review of Waterways staff roles and responsibilities, and terms and conditions on the River Thames.

No action will be taken to sell or rent lock houses until negotiations on the full review are completed. It is anticipated that negotiations will take six months but no action will be taken before 1 January 2009. The Environment Agency will then review the position on lock houses with lock-keepers and their representatives, and with concerned MPs.

Nitrates: Air Pollution

Susan Kramer: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the merits of a UK derogation from the nitrogen oxide provisions of the EU Air Quality Directive; whether he plans to meet the European Commission to discuss the matter; and if he will make a statement. [223243]

Jonathan Shaw: The UK is working to meet ambient air quality limit values in the shortest time possible. The UK Air Quality Strategy provides full details which can be found on the DEFRA website. The nitrogen dioxide limit values are extremely challenging and current projections indicate that despite these efforts, the UK, like most other member states, expects to report breaches beyond the 2010 compliance deadline. Subject to a full public consultation, the Government will therefore need to use the provision in the new Ambient Air Quality Directive which gives the possibility of a further five years to meet the limit values.

A successful application to the European Commission will need to demonstrate how compliance with the limit values will be achieved by 2015. The Government, with the devolved Administrations, are currently working to establish the extent and nature of the measures that will be required.

In the meantime, my officials are working closely with other member states and the European Commission in taking this issue forward.

Sewers

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs what timetable he proposes for the adoption of private sewers; and if he will make a statement. [223269]

Mr. Woolas: The Government announced in February 2007 their decision to transfer private sewers and lateral drains draining to the public sewerage system into water company ownership. We subsequently published a public consultation in July 2007 on implementation options for the proposed transfer. The consultation also posed questions on the scope of assets to be included in the transfer and ways in which the creation of new private sewers could be prevented.

A summary of responses was published in March 2008 and we are currently considering in detail the issues raised with the help of a steering group of key stakeholders. The work of the steering group will inform the decision on the timing of transfer and we expect to make an announcement later this year.

Steve Webb: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 22 May 2008, *Official Report*, column 404W, on sewers, when the steering group expects to complete

its work on the proposed transfer of private sewers; and when he expects to announce his decision on the timing of transfer. [223399]

Mr. Woolas: The steering group has almost concluded its work and we expect to make an announcement later this year.

Water: EC Action

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations his Department has received on the provisions of the proposed EU Water Performance Directive for Buildings. [223213]

Mr. Woolas: DEFRA has received no representations on a directive proposal but has been engaging with the European Commission regarding the communication on water scarcity and drought.

The communication identifies a wide range of policies to reduce water scarcity including a proposal for a study to consider the need for a directive similar to the energy performance directive on the water performance of buildings.

Weedkillers

Mr. Burstow: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons the Pesticides Safety Directorate has withdrawn its provisional authorisation for aminopyralid. [223172]

Mr. Woolas: The Pesticides Safety Directorate has amended the approvals of aminopyralid containing products to remove approval for sale, supply and use at the request of the approval holder.

Mr. Burstow: To ask the Secretary of State for Environment, Food and Rural Affairs on what date *(a)* (i) the Pesticides Safety Directorate (PSD) and (ii) the relevant Minister was informed that the manufacturers of aminopyralid had withdrawn it, *(b)* the PSD recommended that the provisional authorisation for aminopyralid should be withdrawn and *(c)* a Minister decided to withdraw the provisional authorisation. [223173]

Mr. Woolas: Following PSD calling the main approval holder for aminopyralid to a meeting, the approval holder asked on 21 July 2008 for their product approval to be modified to remove approval for sale, supply and use. PSD accepted this application and accordingly issued a notice amending the conditions of approval with effect from 23 July 2008.

WORK AND PENSIONS

Child Benefit

Mr. Harper: To ask the Secretary of State for Work and Pensions how many new child benefit claims have been made in each of the last 12 months; and how many and what proportion of those claims have been made by *(a)* UK and *(b)* EU citizens resident outside the UK. [223163]

Jane Kennedy: I have been asked to reply.

The information is not available in the format requested.

Child Benefit: Telephone Services

Jenny Willott: To ask the Secretary of State for Work and Pensions how much revenue the Child Benefit Helpline has generated in each of the last five years; and if he will make a statement. [223432]

Jane Kennedy: I have been asked to reply.

I would refer the hon. Member to the answer I gave on 6 July 2008, *Official Report*, column 827W.

Jenny Willott: To ask the Secretary of State for Work and Pensions how many and what proportion of callers to the Child Benefit Helpline whose call was logged with the promise of a call back within 24 hours received a call back in each of the last five years; and if he will make a statement. [223433]

Jane Kennedy: I have been asked to reply.

The information requested is not available.

Child Support Agency: Correspondence

Mr. Winnick: To ask the Secretary of State for Work and Pensions if he will arrange for a final reply to be sent to the hon. Member for Walsall North from the chief executive of the Child Support Agency (CSA) about a constituent of the hon. Member further to the CSA letter of 30 July 2008, reference PCO/177 431/CM/WOD. [223188]

Mrs. McGuire: The administration of the Child Support Agency is a matter for the chief executive. He will write to my hon. Friend with the information requested.

Letter from Stephen Geraghty to Mr. Winnick:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, if he will arrange for a final reply to be sent to the hon. Member for Walsall North from the Chief Executive of the Child Support Agency (CSA) about a constituent of the hon. Member further to the CSA letter of 30th July 2008 reference PCO/177 431/CM/WOD. (223188)

As details about individual cases are confidential, I have written to you separately about this case.

Child Support Agency: ICT

Angus Robertson: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of people who did not receive timeous payment as a result of the Child Support Agency's computer system failure in the first week of September 2008; what assessment he has made of the hardships likely to be caused to clients affected by the failure; what steps he plans to take to compensate those who have incurred bank charges and other financial penalties as a result of the failure; and if he will make a statement. [223364]

Mr. Timms: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what estimate he has made of the number of people who did not receive timeous payment as a result of the Child Support Agency's computer system failure in the first week of September 2008; what assessment he has made of the hardships likely to be caused to clients affected by the failure; what steps he plans to take to compensate those who have incurred bank charges and other financial penalties as a result of the failure; and if he will make a statement. [223364]

The Agency is not aware of a computer system failure in the first week of September 2008 which has affected payments to clients.

If you have any concerns relating to a particular case, I would be happy to investigate and respond accordingly.

I hope you find this answer helpful.

Children: Maintenance

Mr. Hepburn: To ask the Secretary of State for Work and Pensions (1) how many new scheme cases were handled by the Child Support Agency in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East *and (d)* the UK in each year since 1997; [223283]

(2) how many old scheme cases were handled by the Child Support Agency in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK in each year since 1997. [223284]

Mr. Timms: The administration of the Child Support Agency is a matter for the chief executive. He will write to my hon. Friend with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many new scheme cases were handled by the Child Support Agency in (a) Jarrow constituency (b) South Tyneside (c) the North East and (d) the UK in each year since 1997 [223283] and

How many old scheme cases were handled by the Child Support Agency in (a) Jarrow constituency (b) South Tyneside (c) the North East and (d) the UK in each year since 1997. [223284]

The Agency's Quarterly Summary Statistics contains information on its caseload in Table 1, and additional information at the geographical areas requested for the most recent quarter only in tables S1a and S1b. The latest copy is available in the House of Commons library or via the internet at:

www.dwp.gov.uk/asd/csa.asp.

The attached table contains the number of cases with a calculation or an assessment for each of the years and areas that you have requested.

I hope you find this answer helpful.

Child Support Agency caseload by scheme

	Great Britain Caseload		North East Caseload	
Month	*Old Scheme*	*New Scheme*	*Old Scheme*	*New Scheme*
May 1997	609,800	n/a	38,800	n/a
May 1998	785,500	n/a	50,700	n/a
May 1999	942,300	n/a	63,900	n/a
May 2000	1,040,000	n/a	72,100	n/a
May 2001	1,035,400	n/a	72,900	n/a
May 2002	1,077,000	n/a	75,400	n/a
June 2003	985,400	7,100	66,400	300
June 2004	893,500	123,500	58,200	6,300
June 2005	845,000	229,100	57,400	13,100
June 2006	788,200	364,700	53,800	20,600
June 2007	707,600	497,600	49,400	29,000
June 2008	635,100	612,300	44,500	35,800

	South Tyneside Caseload		Jarrow Caseload	
Month	*Old Scheme*	*New Scheme*	*Old Scheme*	*New Scheme*
May 1997	2,100	n/a	1,100	n/a
May 1998	3,000	n/a	1,400	n/a
May 1999	3,500	n/a	1,800	n/a
May 2000	4,200	n/a	2,100	n/a
May 2001	4,100	n/a	1,800	n/a
May 2002	4,200	n/a	1,900	n/a
June 2003	4,000	–	1,800	–
June 2004	3,600	400	1,600	200
June 2005	3,600	900	1,600	500
June 2006	3,500	1,400	1,600	700
June 2007	3,200	1,900	1,500	1,000
June 2008	2,900	2,400	1,300	1,200

Notes:
1. Figures include all cases with a calculation/assessment, including nil liability calculations and assessments.
2. Cases have been allocated to the North East, Jarrow Parliamentary Constituency and South Tyneside Local Authority by matching the postcode of the parent with care against the Office for National Statistics postcode directory.
3. Figures have been rounded to the nearest 100.
4. '–' indicates a figure less than 50.

Disability Living Allowance: Sight Impaired

Mr. David Hamilton: To ask the Secretary of State for Work and Pensions (1) what recent representations he has received on changes to the mobility component of disability living allowance for blind and visually-impaired people; [223453]

(2) what progress has been made in implementing changes to the mobility component of disability living allowance received by blind and visually-impaired people. [223454]

Mrs. McGuire: We have received a number of representations from hon. Members, organisations and members of the public on this issue.

We have been in long-term discussions with the Royal National Institute of Blind People and others on whether there is scope to extend the higher rate mobility component of disability living allowance to people with severe visual impairments. While we understand the force of the arguments put forward by the Royal National Institute of Blind People, and are sympathetic to their aims, we cannot at this time commit to amending the existing arrangements for the mobility component of disability living allowance.

The Green Paper, "No one written off: reforming welfare to reward responsibility" Cm 7363, published on 21 July, sets out our strategy to help greater numbers of sick and disabled people who want to work to fulfil their aspirations. Part of this strategy is the proposal to increase the access to work budget to help greater numbers of disabled people return to and remain in work. Currently, around one in four customers of access to work are people with a visual impairment.

Employment: Mothers

Tom Brake: To ask the Secretary of State for Work and Pensions what research his Department has conducted into the quality of the assistance and advice given to mothers seeking employment. [223237]

Mr. Timms: The Department for Work and Pensions conducts a wide range of research to inform the strategic development and operational delivery of its policies. This includes formal evaluations of employment programmes and pilots, as well as more strategic research on work-related and service delivery issues. Other research considers, more broadly, customer satisfaction with various aspects of Jobcentre Plus provision.

Given the importance of reducing child poverty, research on mothers' employment patterns and their experiences of and attitudes to work is a key strand of the Department's research programme. This includes a comprehensive programme of evaluation of employment programmes for which mothers are eligible, including the new deal for lone parents, work focused interviews for lone parents, and new deal for partners, as well as focussing on issues specific to mothers' employment such as child care.

A list of relevant recently published research has been placed in the Library.

Housing Benefit: Arrears

Lynne Jones: To ask the Secretary of State for Work and Pensions how many applications for 52 week backdating of housing benefit have been received in each of the last five years; and how many and what percentage of those applications were successful. [223367]

Mr. Timms: I refer my hon. Friend to the written answer the Parliamentary Under-Secretary gave the hon. Member for Cardiff, Central, (Jenny Willott), on 22 July 2008, *Official Report*, column 1173W.

Jobcentres: Location

Jenny Willott: To ask the Secretary of State for Work and Pensions what his Department's estimate is of the proportion of benefits claimants who live *(a)* within 10 miles, *(b)* within 20 miles, *(c)* within 30 miles and *(d)* further than 30 miles from a Job Centre Plus office; and if he will make a statement. [223431]

Mrs. McGuire: The information is not available.

Self-Employed: Parents

Tim Loughton: To ask the Secretary of State for Work and Pensions how many self-employed parents had children aged 15 years or under at the latest date for which figures are available. [223343]

Phil Hope: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 10 September 2008:

As National Statistician I have been asked to reply to your Parliamentary Question on how many self-employed parents had children aged 15 years or under at the latest date for which figures are available. (223343)

Estimates from the Labour Force Survey (LFS) household datasets for the period April to June 2008 show there were 1.26 million self-employed parents who had dependent children aged 15 years or under.

The LFS is a sample survey covering over 52,000 households in the United Kingdom in each three month period. As with any sample survey, estimates from the Labour Force Survey are subject to a margin of uncertainty.

TREASURY

Animal Products: Imports

Mr. Paice: To ask the Chancellor of the Exchequer (1) what resources HM Revenue and Customs and its predecessors deployed to control imports of products of animal origin in each of the last five years; [223337]

(2) how many checks designed to detect products of animal origin were conducted by HM Revenue and Customs at UK ports of entry in each of the last five years. [223338]

Jane Kennedy: All front-line customs detection staff are employed to tackle a range of risks at the border and most work on a multi functional basis. These working arrangements continue to operate following the transfer of these staff to the interim UK Border Agency's management structure with effect from 1 April 2008.

HM Revenue and Customs and before that, HM Customs and Excise deployed front-line enforcement staff to detect illegal products of animal origin (POAO) imports at points of entry into Great Britain as follows:

POAO resources

Financial year	*Detection FTE staff years used*	*Number of detector dogs*
2003-04	86.4	6
2004-05	105.5	10
2005-06	155.3	10
2006-07	250.9	11
2007-08	185.6	11

Front-line staff are supported by POAO detector dogs. The detector dog programme has expanded from two in April 2003 to 11 in 2007-08. The actual number available for deployment can differ according to the need to train new dogs and handlers and to replace dogs through retirements and ill health.

Resources were also deployed in each of the last five financial years to deal with storage and destruction of seized meat and other POAO, publicising the regulations to the travelling public, investigation and prosecution work supported by policy activities.

The information sought on detection checks is not available as HMRC central records do not include any statistics on the number of checks carried out by detection staff.

Child Care Vouchers

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer pursuant to the answer of 2 July 2008 on

child care vouchers, if he will publish his Department's analysis of the care vouchers scheme for carers sponsored by Accor Services UK, Busy Bees Ltd, Grassroots Group and Sodexho Pass. [221564]

Angela Eagle: HM Treasury have a contract with Accor Services UK for the provision of child care vouchers.

HM Treasury do not undertake a formal analysis of the child care scheme but do review take-up, budget and expenditure on a frequent basis.

Council Tax: Valuation

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to the answer of 6 May 2008, *Official Report*, column 818W, on council tax: valuation, what the cost of licensing the TENET mapping software is to the Valuation Office Agency each year. [218312]

Jane Kennedy: The information concerned is commercially sensitive

Mr. Pickles: To ask the Chancellor of the Exchequer with reference to the Valuation Office Agency Annual Report and Accounts 2007-08, HC 583, what assessment the Valuation Office Agency has made of the reasons for its failure to meet its target for providing a considered decision on council tax enquiries and proposals within two months of receipt in 98 per cent. of cases. [221281]

Jane Kennedy: The reasons are set out in the report and accounts at page 20.

Departmental Alcoholic Drinks

David Simpson: To ask the Chancellor of the Exchequer what purchasing process is used by his Department for the procurement of alcohol for hospitality purposes. [219937]

Angela Eagle: I refer to the answer given to the hon. member for Upper Bann (David Simpson) on 21 July 2008, *Official Report*, column 716W.

Departmental Cleaning Services

John McDonnell: To ask the Chancellor of the Exchequer what contractors his Department uses to undertake cleaning duties; and what the hourly rates of pay are for cleaners working in the Department. [223282]

Jane Kennedy: Services such as cleaning are provided in 1 Horse Guards Road as part of a PFI contract with Exchequer Partnership (EP). One Complete Solution (OCS) deliver the cleaning element of those services.

These services are currently being market tested by EP and it would be inappropriate to disclose details of pay rates at this time.

Departmental Disciplinary Proceedings

Mr. Redwood: To ask the Chancellor of the Exchequer how many staff in his Department and its agencies have been *(a)* dismissed and *(b)* disciplined for their conduct in the last two years. [217405]

Angela Eagle: Responses for HM Treasury, OGC, OGCbuyingsolutions and Debt Management Office are as follows.

Department	*Number of staff disciplined in last two years*	*Number of staff dismissed in the last two years*
HMT	13	Less than 5
OGC	Less than 5	Less than 5
OGCbuyingsolutions	Less than 5	Less than 5
DMO	0	0

Departmental ICT

Mr. Philip Hammond: To ask the Chancellor of the Exchequer what information technology projects initiated by his Department have been cancelled prior to completion in the last five years; and what the cost of each such project was to the public purse. [221748]

Angela Eagle: No IT projects have been cancelled prior to completion in the last five years.

Departmental Manpower

Chris Huhne: To ask the Chancellor of the Exchequer how many *(a)* UK citizens born in the UK, *(b)* UK citizens born abroad and *(c)* foreign nationals were employed as staff by his Department and its agencies in each of the last five years. [206547]

Angela Eagle: The information requested is as follows:

Number of staff employed each year

	2003-04	*2004-05*	*2005-06*	*2006-07*	*2007-08*
UK citizens born in the UK					
Royal Mint	1,124	985	1,088	1,008	893
NS and I	14	15	16	18	21
HMT	731	795	783	835	877
UK citizens born abroad					
Royal Mint	6	6	7	8	6
NS and I	0	2	0	0	0
HMT	79	77	77	92	85

	Number of staff employed each year				
	2003-04	2004-05	2005-06	2006-07	2007-08
Foreign nationals					
Royal Mint	1	0	1	1	3
NS and I	1	4	4	5	6
HMT	3	4	9	19	33

For HM Revenue and Customs (HMRC) the information is as follows:

HMRC	2007	2008
UK citizens	101,869	100,799
Non UK nationals	489	504

HMRC was created in April 2005. Data are not available for the three years prior to 2007. HMRC does not ask staff whether they were born in the UK.

Information for the Debt Management Office, the Valuation Office Agency, the Office of Government Commerce, OGCbuyingsolutions and the Government Actuary's Department is not available and could be obtained only at disproportionate cost.

Departmental Pay

Mr. Philip Hammond: To ask the Chancellor of the Exchequer how much was claimed in reimbursable expenses by press officers in his Department and its agencies in each of the last three financial years. [221167]

Angela Eagle: Total of reimbursable expenses claimed by press officers in the last three financial years by HMT and its agencies, OGC, DMO, OGCB is as follows.

	Reimbursable expenses claimed (£)
2005-06	6,706.62
2006-07	7,221.03
2007-08	1,967.78

Departmental Sick Pay

Jenny Willott: To ask the Chancellor of the Exchequer how many staff in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility have received sick pay for sick leave due to (i) stress and (ii) mental health and behavioural disorders in each of the last 10 years; what the average length of time was for which sick pay was paid in these cases; and if he will make a statement. [216101]

Angela Eagle: I refer the hon. Member to questions answered on 8 July 2008, *Official Report*, column reference 1478-1479W.

Actual sick pay costs can be provided only at disproportionate costs.

Equitable Life

Gordon Banks: To ask the Chancellor of the Exchequer (1) what plans he has to publish the advice he has commissioned on the Parliamentary Ombudsman's recent report on Equitable Life; [223439]

(2) what estimate his Department has made of the losses incurred by Equitable Life policyholders as a result of the company's collapse; [223440]

(3) what assessment his Department has made of the Parliamentary Ombudsman's recent report on Equitable Life; [223441]

Mr. Fallon: To ask the Chancellor of the Exchequer when he plans to respond to the recommendations of the Parliamentary Ombudsman in respect of Equitable Life. [223252]

Simon Hughes: To ask the Chancellor of the Exchequer what consideration he has given to the Parliamentary Ombudsman's report Equitable Life: A decade of regulatory failure; and what plans he has to respond to the recommendations made in the report. [223375]

Tim Farron: To ask the Chancellor of the Exchequer if he will establish a compensation scheme under an independent tribunal for policyholders in the Equitable Life Assurance Company. [223417]

Kitty Ussher: As I explained in my written statement to the House on 17 July, the ombudsman has looked at matters of considerable factual and technical complexity. I am giving her 2,800 page report very careful consideration and will give my response to the House in the autumn.

Frieght

Dr. Ladyman: To ask the Chancellor of the Exchequer how many winding-up orders of companies involved in road haulage have been requested by HM Revenue and Customs in *(a)* each month since April 2007 and *(b)* each financial year between 1990 and 2007. [223385]

Jane Kennedy: The information requested is not available.

HM Revenue and Customs

Hugh Bayley: To ask the Chancellor of the Exchequer pursuant to the answer of 10 July 2008, *Official Report*, column 1786W, on HM Revenue and Customs, what the estate costs of *(a)* Swinson House, *(b)* Hilary House, *(c)* Cherry Court, Hull and *(d)* Custom House, Hull were in the 12 months before each building was transferred to Mapeley STEPS Contractor Ltd. [221735]

Jane Kennedy: The transfer of properties to Mapeley STEPS Contractor Ltd. took place in April 2001. Expenditure details prior to April 2005 and the creation of HM Revenue and Customs are not available other than at disproportionate cost.

Members: Correspondence

Mr. Salmond: To ask the Chancellor of the Exchequer when he plans to reply to the letter dated 4 June 2008 from the right hon. Member for Banff and Buchan on his constituent, Mr. Rawles of Turriff. [218697]

Jane Kennedy: A reply has been sent to the right hon. Member.

Mr. Winnick: To ask the Chancellor of the Exchequer when he will reply to the hon. Member for Walsall North's letter of 10 July 2008 regarding a constituent, reference 1/59111/2008. [223190]

Angela Eagle: I have now done so and regret not being in a position to write to my hon. Friend earlier.

Mortgages

Gordon Banks: To ask the Chancellor of the Exchequer what recent steps his Department has taken on mortgage *(a)* access and *(b)* provision for potential house purchasers. [223442]

Kitty Ussher: On 2 September, the Government announced a series of measures to help first time buyers get on to the housing ladder, help homeowners in difficulty and support the house building industry. Information on these measures is available at H.M. Treasury website:

http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2008/press_88_08.cfm

and the Department for Communities and Local Government website:

http://www.communities.gov.uk/news/corporate/950558.

Personal Savings

Mr. Brady: To ask the Chancellor of the Exchequer what estimate he has made of the maximum monthly sum for investment into a Save As You Earn Sharesave Plan for employees if the £250 limit set in 1991 had been increased in line with the retail prices index. [223261]

Kitty Ussher: No such estimate has been made. The average monthly amount saved by most employees under SAYE is considerably less than the current limit.

Property: Valuation

Mr. Brady: To ask the Chancellor of the Exchequer what percentage of private dwelling sales were valued at £175,000 or less in the most recent year for which figures are available, broken down by *(a)* parliamentary constituency and *(b)* region and devolved Administration area. [223260]

Kitty Ussher: Data on property transactions up to 2007—the most recent year for which figures are published—can be found at:

http://www.hmrc.gov.uk/stats/survey_of_prop/index.htm

These data include property transactions by type of property and price as well as the number and value of property transactions broken down by parliamentary constituency.

Revenue and Customs: Labour Turnover

Jim Cousins: To ask the Chancellor of the Exchequer what the staff turnover rate was in each HM Revenue and Customs office in each of the last five years. [219796]

Jane Kennedy: HMRC does not hold resignation and other staff wastage data for individual locations for the years 2003-04, 2004-05, 2005-06, or 2006-07. Accurate data for 2007-08 is not yet available.

Stamp Duty Land Tax

Pete Wishart: To ask the Chancellor of the Exchequer what realignments have been made to the communities budget for England as a result of the Stamp Duty Land Tax (Exemption of Certain Acquisitions of Residential Property) Regulations 2008; and if he will make a statement. [223363]

Kitty Ussher: The Chancellor will publish a full update on the Government's fiscal plans in the pre-Budget report this autumn, in the usual way.

Dan Rogerson: To ask the Chancellor of the Exchequer what assessment his Department has made of the effect of a suspension of stamp duty up to £175,000 on house price affordability in *(a)* Cornwall, *(b)* the South West and *(c)* England. [223397]

Kitty Ussher: Stamp duty rates and thresholds apply uniformly throughout the UK. The temporary suspension of stamp duty on purchases of residential property of not more than £175,000 will mean that purchasers will save up to £1,750 on the transaction costs associated with moving.

Tax Credits

Mr. Gauke: To ask the Chancellor of the Exchequer (1) what the cost of distributing tax credit renewal packs was in the last 12 months for which figures are available; [223205]

(2) how many tax credit renewal packs were distributed in each of the last four years; [223206]

Jane Kennedy: The cost of posting the annual declaration and renewal packs for 2008 renewals was £2.95 million.

The number of tax credits annual renewal packs issued in each of the last four years is shown in the following table:

	Packs (Around)
2004-05	7.6 million
2005-06	8.2 million
2006-07	8.8 million
2007-08	9.0 million

Taxation: Aviation

Mr. Brady: To ask the Chancellor of the Exchequer what representations he has received from *(a)* airline operators, *(b)* airport operators and *(c)* overseas Governments on the proposed aviation duty; and which of these were (i) in favour and (ii) against the proposals. [223259]

Jane Kennedy: The consultation on the proposed aviation duty closed on 24 April 2008 and considered all aspects of the operation of the duty.

Responses to the consultation were received from airline operators, airport operators and overseas Governments, among others.

A summary of responses will be published in due course.

Taxation: Scotland

Pete Wishart: To ask the Chancellor of the Exchequer (1) what percentage of monies collected by his Department from local commission areas in Scotland is spent in Scotland; [223360]

(2) what criteria his Department uses to determine the percentage of monies raised in Scotland retained by the Government. [223361]

Jane Kennedy: The funding arrangements for the Scottish Executive are set out in the "Funding the Scottish Parliament, National Assembly for Wales and Northern Ireland Assembly: Statement of Funding Policy" published by the Treasury in October 2007.

Taxation: Welsh Language

Mark Williams: To ask the Chancellor of the Exchequer how many Welsh language inquiries have been processed by HM Revenue and Customs in each of the last five years. [223167]

Jane Kennedy: The information is not available in the format requested and could be obtained only at disproportionate cost.

Mark Williams: To ask the Chancellor of the Exchequer (1) which HM Revenue and Customs (HMRC) offices will be able to deal with Welsh language enquiries following the planned reorganisation of HMRC; [223168]

(2) what provision he plans to make for HM Revenue and Customs (HMRC) offices to deal with Welsh language inquiries as part of the planned reorganisation of HMRC; [223169]

Jane Kennedy: HMRC remains committed to providing services to its Welsh speaking customers, in accordance with its Welsh Language scheme.

The Welsh Language Contact Centre in Porthmadog and the VAT Helpline in Cardiff will continue, as now. Enquiries received by HMRC offices may need to be referred to the dedicated Welsh Language services based in Cardiff and Porthmadog.

The Welsh Language Contact Centre in Porthmadog will continue to provide direct services to Welsh speaking customers who telephone, visit or write.

The current arrangements for handling Welsh speaking callers to other Enquiry Centres will also remain in place.

Tobacco: Smuggling

David Taylor: To ask the Chancellor of the Exchequer (1) if he will make an assessment of *(a)* the track and trace system operated on tobacco and alcohol products in Turkey and *(b)* proposals to introduce a track and trace system for tobacco products in Germany; [223229]

(2) what assessment his Department has made of the effect of the voluntary anti-smuggling agreement amongst tobacco companies on the amount of illicit tobacco entering the UK in the last year; and if he will make a statement; [223230]

(3) whether all the tobacco companies supplying the UK market are party to the voluntary anti-smuggling agreement amongst tobacco companies. [223231]

Jane Kennedy: HM Revenue and Customs (HMRC) has no specific plans to assess the systems introduced in Turkey to track and trace alcohol and tobacco products, nor any proposed system to track and trace tobacco products in Germany. However, HMRC keeps abreast of developments in track and trace technology through its regular contacts with tobacco manufacturers and customs authorities in other EU member states.

The anti-counterfeit voluntary agreement between HMRC and tobacco manufacturers requires the incorporation of a covert security mark on packs of cigarettes and pouches of hand-rolling tobacco. The security mark was successfully incorporated onto packs of cigarettes for the UK market manufactured from October 2007, and it will be extended to cover pouches of hand-rolling tobacco manufactured from October 2008 as agreed. The intention of the security mark is to prevent counterfeit tobacco product from infiltrating the retail sector.

The four largest tobacco manufacturers, representing over 97 per cent. of the UK cigarette market and all brands that are commonly counterfeited, have introduced the anti-counterfeit security technology.

The Government have not made any estimate of the impact the agreement has had on the amount of illicit tobacco entering the UK in the last year.

Valuation Office Agency: Capgemini

Mr. Pickles: To ask the Chancellor of the Exchequer with reference to page 56 of the Valuation Office Agency Annual Report and Accounts 2007-08, HC 583, if he will provide a breakdown of the goods and services provided under the heading of Capgemini service charges. [221279]

Jane Kennedy: The goods and services provided under the heading of Capgemini service charges were:

Management of the Agreement

Charge for managing the Agreement.

Business Applications Support and Maintenance (BASM)

The maintenance and support of the VOA Business Applications.

Data Centre Operations

The service covers the housing, operation, maintenance and monitoring of all the hardware and software components that reside within the Data Centre.

Desktop Services

The service covers the activities related to managing, supporting and developing the VOA distributed computing environment—this covers desktops and laptops.

Wide Area Network

The service covers engineering, planning, provision and installation of all WAN hardware and software together with guidance, design, procurement and implementation of all new technologies and services.

Business Continuity and Disaster Recovery

This covers the requirement to have the appropriate level of continuity provision to ensure that the effects of an unexpected loss of services are minimised and that the restoration of the processes takes place within an acceptable and agreed time.

Other costs (including licences)

Valuation Office: Consultants

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to the answer of 20 May 2008, *Official Report*, column 211W, on Valuation Office: consultants, which each of the four consultancies are; and in which areas each is providing consultancy advice. [218246]

Jane Kennedy: Some of the information requested is commercially confidential. The work covered:

1. Brand Vista: Research in connection with public sector customers and satisfaction levels.

2. Two assignments: Assistance with the World Class delivery programme (set out in the Valuation Office Agency's Forward Plan 2008-11).

3. Nixon Brooke: Advice on development of an internally developed IT work planning and monitoring application.

Valuation Office: Manuals

Mr. Pickles: To ask the Chancellor of the Exchequer with reference to the answer of 18 October 2007, *Official Report*, column 1279W, on Valuation Office: manuals, if he will place in the Library a copy of the *(a)* rating support application valuation training support materials, *(b)* district valuer services caseworker support IT training support materials and *(c)* digital mapping user guide. [218411]

Jane Kennedy: These guidance manuals are technical instructions on the use of Valuation Office Agency internal IT applications and it would not be appropriate to make them public.

Valuation Office: ICT

Mr. Pickles: To ask the Chancellor of the Exchequer how much the Valuation Office Agency has spent on IT projects since January 2002, broken down by project. [218260]

Jane Kennedy: The information requested could be obtained only at disproportionate cost.

JUSTICE

Administration of Justice: Information and Communications Technology

Mr. Burrowes: To ask the Secretary of State for Justice what assessment he has made of the effects of malfunctions in the Libra computer system on the operation of the criminal justice system in the last 12 months. [221685]

Maria Eagle: The implementation of the Libra system has not had a significant impact upon overall performance in the criminal justice system over the last 12 months.

The introduction of any new IT system and standardised business processes for the courts will inevitably have an initial impact on performance as they come to terms with new ways of working. Libra implementation has impacted upon resulting performance in some courts.

Once fully implemented (by December 2008) the Libra system will provide a platform for greater efficiency and effectiveness in the magistrates court with positive benefits for other parts of the criminal justice system.

Criminal Records

Chris Huhne: To ask the Secretary of State for Justice how many and what proportion of *(a)* men and *(b)* women in Britain aged (i) under 16, (ii) 16 to 18 and (iii) 18 and over had a criminal record in (A) 1981, (B) 1991, (C) 1997, (D) 2001 and (E) 2007, broken down by police force area. [221665]

Mr. Hanson: Figures on the proportions of the population with a criminal history in England and Wales can be found in 'Criminal careers of those born between 1953 and 1978' at:

www.homeoffice.gov.uk/rds/pdfs/hosb401.pdf

The bulletin gives figures for offenders who have had a court conviction for a 'standard list' offence. 'Standard list' offences include all indictable and certain of the more serious summary offences. This publication follows those born in particular years to analyse the percentage of the population with a criminal history. The years followed are 1953, 1958, 1963, 1968, 1973 and 1978.

Departmental Buildings

Mr. Betts: To ask the Secretary of State for Justice what his Department's policy is on improving the energy efficiency of the buildings which it *(a)* rents and *(b)* owns; what changes there have been in the energy efficiency of such buildings in the last (i) five and (ii) 10 years; and whether his Department has adopted targets on energy efficiency improvements in the buildings it occupies over the next (A) five and (B) 10 years. [221084]

Mr. Wills: The Ministry of Justice is taking the Government's sustainability agenda seriously and is actively working to improve the energy efficiency of the buildings which it rents and owns. The Department published its Sustainable Development Action Plan in March 2008 and is working towards the Sustainable Operations on the Government Estate targets:

To increase the energy efficiency per m^2 by:

15 per cent. by 2010, relative to 1999-2000 levels

30 per cent. by 2020, relative to 1999-2000 levels, and

To reduce CO_2 emissions from the office estate by:

12.5 per cent. by 2010-11, relative to 1999-2000 levels

30 per cent. by 2020, relative to 1999-2000 levels.

As the Ministry of Justice was created in May 2007 and was previously subject to significant machinery of government changes there would be a disproportionate cost to establish the changes in energy efficiency of buildings over the last five and ten years.

Mr. Betts: To ask the Secretary of State for Justice what account his Department takes of the level of energy efficiency of buildings before entering into agreements to *(a)* rent and *(b)* purchase those buildings. [221100]

Mr. Wills: The Ministry of Justice is taking the Government's sustainability agenda seriously and is actively working to improve the energy efficiency of the buildings which it rents and owns. The Department published its sustainable development action plan in March 2008 and is working towards the sustainable operations on the Government estate targets:

To increase the energy efficiency per m^2 by:

15 per cent. by 2010, relative to 1999-2000 levels;

30 per cent. by 2020, relative to 1999-2000 levels; and

To reduce CO_2 emissions from the office estate by:

12.5 per cent. by 2010-11, relative to 1999-2000 levels;

30 per cent. by 2020, relative to 1999-2000 levels.

Energy efficiency is always considered when entering a new lease. However, the main consideration will fall on the location and suitability of the building for the purpose of the operation. Sustainability and energy efficiency measures were a key driver for the landlord refurbishment of 102 Petty France and have been reflected in the design and construction. It accords with the landlord's environmental policy guidelines and the project has received a BREEAM[1] 'Excellent' rating which is a significant achievement for a refurbishment scheme.

[1] For over a decade, BREEAM has been to assess the environmental performance of both new and existing buildings. It is regarded by the UK's construction and property sectors as the measure of best practice in environmental design and management.

Departmental Freedom of Information

Philip Davies: To ask the Secretary of State for Justice what proportion of requests under the Freedom of Information Act 2000 his Department's Open Government Unit has answered within the timescale prescribed by the Act in each of the last three years. [221131]

Mr. Wills: Figures for the proportion of requests which were answered in time, in that they either received a response within the standard deadline or were subject to a permitted deadline extension, in each of the last three years are as follows:

April 2005 to March 2006: 85 per cent;

April 2006 to March 2007: 91 per cent;

April 2007 to March 2008: 83 per cent.

Departmental Information and Communications Technology

Mr. Philip Hammond: To ask the Secretary of State for Justice what information technology projects initiated by his Department and its predecessors have been cancelled prior to completion in the last five years; and what the cost of each such project was to the public purse. [221746]

Mr. Wills: The National Enforcement Tracker System (NETS) project was cancelled in August 2007 following a detailed review which highlighted that the cost and scope of the project no longer provided value for money or met current business requirements. Expenditure to closure of the project was £4.328 million and this sum was reported in accordance with HMT accounting rules.

Departmental Paper

David Simpson: To ask the Secretary of State for Justice what percentage of paper used *(a)* for photocopying and *(b)* in printed publications by his Department and its predecessor was from recycled sources in each of the last two years. [220740]

Mr. Wills: The Ministry of Justice has contracts in place that provide for the supply of recycled paper. Under these arrangements the percentage breakdown of paper used for photocopying obtained from recycled sources in each of the last two calendar years is set out in the following table:

Calendar year	*Recycled paper percentage*
2006	62.20
2007	64.70

The Ministry of Justice obtains printed publications from a variety of sources. Figures on the percentage breakdown of paper used in printed publications from recycled stock over the past two years have not been held centrally and could be provided only by manually analysing records held locally. This could be provided only at disproportionate cost.

Departmental Pay

Mr. Philip Hammond: To ask the Secretary of State for Justice how much was claimed in reimbursable expenses by press officers in his Department and its agencies in each of the last three financial years. [221174]

Mr. Wills: Press Officers are able to claim reasonable expenses where these are essential in doing their job, mainly for travel and essential subsistence. Receipts must be produced and claims approved by senior managers. Any spending of public money is carried out in accordance with strict guidelines governing all Civil Servants.

The Ministry of Justice was formed on 9 May 2007. Therefore the figures in the list also include the former Department for Constitutional Affairs.

2007-08: £1,345.82

2006-07: £1,242.14

2005-06: £2,608.61

Her Majesty's Court Service (HMCS):

2008-09 (paid to date): £11.90

2007-08: £1,029.33

2006-07: £215.15

Judicial Communications Office:

2007-08: £372.10

2006-07: £297.75

2005-06: £101.55

Tribunal Service:

Before April 2007, the press office budget was part of a wider budget and figures are not attainable. Since April 2007, £367 has been paid.

National Archives:

2008-09 (paid to date): £22.20

2007-08: £219.38

2005-06: £319.60

Land Registry:

2007-08: £387.65

2006-07: £551.05

2005-06: £589.61

The Boundary Commission for England, the Boundary Commission for Wales and the Office of the Public Guardian do not have press officers. The Judicial Appointments Commission has not reimbursed any expenses to press officers.

Section 8 of the Civil Service Management Code provides departments and agencies with the authority to reimburse the expenses incurred by their own staff in connection with their employment, subject to the following conditions:

8.1.2 Departments and agencies must:

(a) reimburse staff only for expenses which they actually and necessarily incur in the course of official business;

(b) comply with the additional conditions on travel, relocation expenses, compensation for loss or damage to property, and overseas expenses set out in sections 8.2 to 8.6; and

(c) ensure that their rules provide for claiming recompense, including verification and authorisation.

The Civil Service Management Code can be viewed at:

www.civilservice.gov.uk/iam/codes/csmc/index.asp.

Departmental Procurement

David Simpson: To ask the Secretary of State for Justice what his Department's policy is on requesting discounts from its suppliers in return for swift payment of invoices. [220430]

Mr. Wills: In line with good commercial practice, The Ministry of Justice's policy is to pay undisputed invoices within contractual terms, which is generally set at 30 days.

In some circumstances it is practice to provide an opportunity for bidders to offer a discount in return for early settlement of invoices. The Ministry of Justice will consider the wider use of early settlement provisions, where that would provide value for money and be consistent with HM Treasury rules.

Departmental Public Participation

Mrs. Laing: To ask the Secretary of State for Justice how many citizens' juries his Department has held in the last 12 months. [220482]

Mr. Wills: The Ministry of Justice has not held any citizens' juries over the last 12 months. We have begun to engage the public in other ways, including through The Governance of Britain website and regional events. We have also produced a discussion document, A national framework for greater citizen engagement, which sets out the circumstances in which citizens' juries should be held and invites views on these proposals.

Mr. Hoban: To ask the Secretary of State for Justice what *(a)* reviews and *(b)* public consultations have been initiated by his Department since 27 June 2007. [221372]

Mr. Wills: The information requested is in the following table.

Reviews initiated by Ministry of Justice (MoJ) since 27 June 2007	*Notes*
Review of the use of restraint in juvenile secure settings	Independent joint review commissioned by MoJ and Department for Children, Schools and Families
Lord Goldsmith QC Citizenship Review	Independent review commissioned by the Prime Minister not MoJ; Review staff and funding provided by MoJ (Governance of Britain)
Lord Carter's Review of the Prison System in England and Wales	Independent review initiated in early June 2007. Lord Carter's report was published on 5 December 2007 in 'Securing the future Proposals for the efficient and sustainable use of custody in England and Wales'.
Fulton Review of the Forum For Preventing Deaths in Custody	Robert Fulton was appointed by MoJ to conduct this independent review
Sentencing Commission Working Group	'Sentencing Guidelines in England and Wales: an evolutionary approach' report published
Review of Voting Systems: the experience of the new voting systems in the United Kingdom since 1997	Part of 'Governance of Britain' programme
Review of Prison-Based Drug Treatment Funding	Independent joint review commissioned by Department of Health and MoJ
Data-sharing review	Review of the scope for sharing personal information and the protections that apply when personal information is shared in the public and private sectors. Conducted by Richard Thomas, Information Commissioner and Dr. Mark Walport
Review of the 30 year rule on when government records are made available to the public/opened for inspection in The National Archives	Independent review chaired by Paul Dacre appointed by the Prime Minister
Review of how more offenders with severe mental health problems can be diverted away from prison and into more appropriate facilities	Conducted by Lord Bradley who will report jointly to Department of Health and MoJ
Review of the Law of Homicide	As part of this review, a consultation exercise on proposals for reform on: partial defences to murder of diminished responsibility and provocation; the law on complicity in relation to homicide; and infanticide was published on 28 July 2008

Reviews initiated by Ministry of Justice (MoJ) since 27 June 2007	*Notes*
Review of failure to appear warrants withdrawn at Leeds magistrates court	Her Majesty's Chief Inspector of Courts Administration and Chief Inspectors for the Constabulary and the Crown Prosecution Service were asked by MoJ to conduct a thorough inspection and prepare a report to Ministers into the resulting and warrant processes at Leeds magistrates court.
Review of the Civil Justice Council	Independent review conducted by Dr. Jonathan Spencer in accordance with Cabinet Office Guidance for Public Bodies
Claims Management Regulation Annual Review 2007-08	Review of first year of formal regulation of the claims management sector
Review of measures to disrupt the supply of illicit drugs to prisons	David Blakey was commissioned to conduct the review by the Director General of the National Offender Management Service (NOMS)

Ministry of Justice consultations 27 June 2007 to 2 September 2008

1. Openness in the Family Courts—a new approach
2. Cremation Regulations
3. Referral to coroners
4. Quality Assurance Scheme for publicly funded criminal defence advocates
5. Review of Part 6 of the Civil Procedure Rules: Service of documents
6. Network Access Agreements—Appeal Rules for Adjudicator to Land Registry
7. Conditional Fee Agreements—Fixed Recoverable Success Fees in publication proceedings
8. Fees for the Marked Register of Electors produced at UK elections
9. Regulation of Claims Management Services - consultation on fee levels 2008-09
10. Charity Tribunal Draft Rules 2007
11. Criminal Defence Service (Recovery of Defence Costs Orders) Regulations 2001
12. Changes to the Penalty Notice for Disorder (PND) Scheme—de-prescribing the penalty notice form
13. The debt claim process: helping people in debt to engage with the problem
14. General Commissioners of Income Tax
15. Judicial Appointments: the Executive, Legislature and Judiciary
16. War-making powers and international treaties
17. Freedom of Information Act 2000: Designation of additional public authorities
18. Consumer Credit Appeals Tribunal
19. Asylum and Immigration Tribunal Rules
20. NOMS Strategic Plan on Reducing Re-offending
21. NOMS 3rd sector action plan
22. NOMS: Believing We Can
23. Transforming Tribunals
24. Forced Marriage—Third Party Applicants
25. Public law family fees
26. MoJ Third Sector Strategy
27. Improving the Criminal Trial Process for Young Witnesses (OCJR)

2008 consultations

1. Administration Orders and Enforcement Restriction Orders—setting the parameters
2. Forced Marriage Act—court procedure rules
3. Tribunals, Courts and Enforcement Act: Eligibility for Judicial Appointment
4. Enhancing procedural rights and judicial co-operation in the EU
5. Rome I—Should the UK opt in?
6. Best Value in Probation
7. Children and Adoption Act 2006 Procedure Rules
8. Certificate of Professional Competence—Amendments to the Transport Tribunal Rules 2008
9. Titan Prisons
10. Bail and murder
11. Reforming the Legal Aid Family Barrister Fee Scheme
12. Election Day—Weekend Voting
13. Pleural Plaques
14. Inspection powers and funding arrangements of the Information Commissioner
15. Pandemic influenza—guidance on the operation of the coroner system
16. Prison, probation and sentencing and reoffending statistics
17. Murder, manslaughter and infanticide: proposals for reform of the law
18. Proposal to close Nelson County Court
19. Claims Management Regulation—fee levels for 2009-10
20. Section 57 of the Criminal Justice and Immigration Act—draft regulations

Domestic Violence

Harry Cohen: To ask the Secretary of State for Justice what representations his Department has received relating to the risk of domestic violence arising in cases involving end of custody licence. [220869]

Mr. Straw: The Department has received two representations, both from the National Association of Probation Officers (NAPO).

Electoral Commission

Mr. Tyrie: To ask the Secretary of State for Justice what discussions he has had with the Electoral Commission on the transfer of the Commission's responsibilities for electoral boundaries to a separate body; and if he will make a statement. [221417]

Bridget Prentice: My officials and I have regular and frequent meetings with the Electoral Commission where we have discussed a range of issues, including the eleventh report of the Committee on Standards on Public Life in which this appeared as a recommendation.

Electoral Register: Sales

Mr. Pickles: To ask the Secretary of State for Justice what his Department's response is to the recommendations of the Information Commissioner on the sale of electoral roll data. [221267]

Bridget Prentice: The Government are carefully considering Recommendation 19 of the Thomas-Walport Data Sharing Review relating to sale of the edited version of the electoral register, together with the other recommendations made by the review.

Electorate: Overseas Residence

Mr. Dunne: To ask the Secretary of State for Justice how many British expatriates resident in each country outside the UK were registered to vote in UK elections at the most recent date for which figures are available. [223174]

Phil Hope: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated 10 September 2008:

As National Statistician, I have been asked to reply to your question asking how many British expatriates resident in each country outside the UK were registered to vote in UK elections at the most recent date for which figures are available. (223174)

The number of overseas electors registered to vote in UK parliamentary elections was 14,330 on 1 December 2007, this is the most recent date for which figures are available. We do not have information on which country they are resident in.

Fines: Surcharges

Mr. Burrowes: To ask the Secretary of State for Justice what expenditure his Department incurred in administering the victims' surcharge in 2006-07. [221684]

Maria Eagle: None. The victims' surcharge has only been levied since 1 April 2007. Furthermore, there is no separately identifiable cost for victims' surcharge receipts.

Fixed Penalties

Mr. Ruffley: To ask the Secretary of State for Justice pursuant to the answer of 22 April 2008, *Official Report*, columns 2023-25W, on fixed penalties, whether additional data are available for subsequent months. [221016]

Maria Eagle: For the most recent information on PNDs issued from 2004 to 2006, I refer the hon. Member to my answer to him on 18 December 2007, *Official Report*, columns 1287-88W.

Of the categories of fixed penalty notices collected by my Department, information is available for penalty notices for disorder (PNDs) and fixed penalty notices (FPNs) for motoring offences.

Data on the number of penalty notices for disorder (PNDs) issued and paid by police force area for each month from 2004 to 2006 are provided in tables, which have been placed in the Libraries of the House. The PND scheme began in all 43 police forces in England and Wales in 2004.

Motoring offences fixed penalty notices data are submitted to my Department on a calendar year basis from police forces. The data do not contain a month by month breakdown.

Available annual information on motoring fixed penalty notices can be found in the Ministry of Justice statistical publication "Offences relating to motor vehicles, England and Wales, Supplementary tables"—tables 20(a) to 20(c) refer. Copies of the publication are available in the Libraries of the House. The publication going back to 1980 can be accessed from the Ministry of Justice website at:

http://www.justice.gov.uk/publications/motoringoffences.htm

Data are collected on the disposal (i.e. paid, fine registration certificate issued etc.) and published in the following year's annual volume covering motoring offences.

Information on PNDs issued by month in 2007 will be available in November 2008. Data on FPNs issued do not contain a month by month breakdown.

George Kelly

Mr. O'Hara: To ask the Secretary of State for Justice if he will take steps to ensure that sufficient staff resources are applied to mediation in the case concerning George Kelly to achieve a resolution in the week commencing 28 July 2008. [220887]

Maria Eagle: Treasury Solicitors continue to liaise with the representative of the estate of the late George Kelly about possible mediation in relation to some of the issues that have been raised.

Governance of Britain White Paper

Mrs. Laing: To ask the Secretary of State for Justice what the cost of the consultation on the Governance of Britain White Paper has been since 3 July 2007. [220492]

Mr. Wills: The Governance of Britain (CM 7170) Green Paper was published on 3 July 2007. Since then five consultation papers have been published. Their production costs were:

Altering the current guidance on flying the Union Flag from UK Government buildings: £1,724.31 (estimate)—published and paid for by the Department for Culture, Media and Sport.

Role of the Attorney General (CM 7192): £2,243—published and paid for by the Attorney General's Office

War Powers and Treaties: Limiting Executive powers (CM 7239): £13,928—A joint publication by Ministry of Justice, Ministry of Defence and Foreign and Commonwealth Office. Publication costs were funded by Ministry of Justice.

Judicial Appointments (CM 7210): £15,837—published and paid for by the Ministry of Justice

Managing Protest Around Parliament (CM 7235): £5,532—published and paid for by the Home Office

The "Governance of Britain"—Constitutional Renewal White Paper (CM 7342-1, 7342-2, 7342-3) was published on 25 March 2008. It was published and paid for by the Ministry of Justice and its total production cost was £76,960.85

In addition a series of events to support the Governance of Britain programme as a whole is currently under way. Final costs will be available once the events are complete.

Information Commissioner

Anne Main: To ask the Secretary of State for Justice what steps his Department has taken to reduce the time taken by the Information Commissioner to process complaints; and if he will make a statement. [221399]

Mr. Wills: The Information Commissioner is an independent post created by statute. His responsibilities include handling complaints made under the Data

Protection Act 1998, Freedom of Information Act 2000, Privacy and Electronic Communications Regulations 2003 and Environmental Information Regulations 2004.

In response to business cases presented by the Commissioner to deal with his Freedom of Information workload my Department has increased the grant in aid available to his office for this financial year and the previous three.

In addition, the Ministry of Justice is promoting a scheme for staff from central Government Departments to second to the Commissioner's office in response to his request for additional staff.

Anne Main: To ask the Secretary of State for Justice how many complaints were referred to the Information Commissioner in each of the last three years. [221400]

Mr. Wills: The Information Commissioner's Office (ICO) is an independent body created by statute.

Its responsibilities include handling complaints made under the Data Protection Act 1998 (DPA), Freedom of Information Act 2000 (FOI), Privacy and Electronic Communications Regulations 2003 (PECR) and Environmental Information Regulations 2004 (EIR).

The following table shows the number of cases received by the ICO in the last three financial years.

April to March each year	*DPA and PECR*	*FOI and EIR*
2005-06	22,059	2,713
2006-07	23,988	2,592
2007-08	24,851	2,646

Information Commissioner: Finance

Anne Main: To ask the Secretary of State for Justice how much funding his Department gave to the Information Commissioner's Office in each of the last three years. [221401]

Mr. Wills: The Information Commissioner's data protection work is funded through notification fees paid to his office by data controllers under section 26 of the Data Protection Act 1998, which his office retains with the agreement of HM Treasury.

The Commissioner's freedom of information work is funded through grant in aid paid by the Ministry of Justice. The amount of grant in aid allocated in the last three financial years has been:

	£
2006-07	5,550,000
2007-08	5,[illegible]9,000
2008-09	5,500,000

Information Commissioner: Freedom of Information

Anne Main: To ask the Secretary of State for Justice what recent discussions he has had with the Information Commissioner on the backlog of Freedom of Information cases being processed by the Information Commissioner's Office. [221403]

Mr. Wills: There are regular discussions between my Department and the Information Commissioner's office about a range of issues, including workload.

In response to business cases presented by the Commissioner to deal with his freedom of information workload, the Ministry of Justice has increased the grant in aid available to his office for this financial year and the previous three.

In addition, the Ministry of Justice is promoting a scheme for staff from central Government Departments to second to the Commissioner's office in response to his request for additional staff.

Information Commissioner: Manpower

Anne Main: To ask the Secretary of State for Justice how many staff were employed by the Information Commissioner's Office in each of the last three years. [221402]

Mr. Wills: The number of staff employed by the Information Commissioner's Office as at 31 March in each of the last three years is as follows:

April to March each year	*Total staff (including part-time)*	*Full-time equivalents*
2005-06	261	239
2006-07	256	236
2007-08	275	256

Information Commissioner: Powers

Mrs. Laing: To ask the Secretary of State for Justice whether he plans to increase the powers of the Information Commissioner. [221234]

Mr. Wills: On 17 July 2008, the Government published a consultation paper on the Information Commissioner's inspection powers and funding arrangements under the Data Protection Act 1998, in response to the Data Sharing review published by the Information Commissioner Richard Thomas and Dr. Mark Walport on 11 July 2008.

The consultation paper proposes strengthening the inspection powers of the Information Commissioner's Office. The consultation ended on 27 August 2008. The Government will consider how best to take forward the recommendations of the Data Sharing review and the result of the consultation exercise and respond in detail in autumn 2008.

Legal Services Board: Pay

Mr. Spellar: To ask the Secretary of State for Justice what the rate of remuneration will be of the members of the new Legal Services Board. [221453]

Bridget Prentice: Members of the Legal Services Board will receive £15,000 per annum for approximately 30 days.

Legal Services Board: Public Appointments

Mr. Spellar: To ask the Secretary of State for Justice what the political affiliation or trades union experience is of each member of the new Legal Services Board where appropriate. [221451]

Bridget Prentice: We understand from the Legal Services Board that applicants were asked to declare any political activity within the past five years. Michael Napier QC, CBE made a recordable donation to the Labour party. No other members declared any political activity. Applicants were not asked about any trade union experience, as it was not considered relevant to the selection process.

Legal Services Commission: Complaints

Mr. O'Hara: To ask the Secretary of State for Justice (1) what guidance the Legal Services Commission has issued to *(a)* its staff and *(b)* the public on its complaints procedures since April 2004; [220885]

(2) what guarantee the Legal Services Commission provides to complainants on the treatment of their complaint; and what arrangements are in place to monitor the application of that guarantee. [220886]

Mr. Wills: I refer my hon. Friend to the answers of my hon. Friend the Parliamentary Under-Secretary of State for Justice the Member for Lewisham East (Bridget Prentice) to him on 4 June 2008, *Official Report*, column 1040W, and 22 May 2008, *Official Report*, columns 411-12W.

Mediation

Mr. O'Hara: To ask the Secretary of State for Justice what arrangements are in place in his Department to delegate authority for settling litigation claims by mediation; to what grade of official the authority is delegated; and if he will make a statement. [217295]

Maria Eagle: All Government Departments are covered by the pledge made in 2001 committing Government to the use of alternative dispute resolution in appropriate cases. Treasury Solicitor's Department and MOJ consider on a case by case basis whether mediation is appropriate. The decision to mediate will be taken by whoever within MOJ has responsibility for the litigation in question.

Offences Against Children

David Simpson: To ask the Secretary of State for Justice how many people in England and Wales were *(a)* prosecuted for and *(b)* convicted on charges relating to having sexual intercourse with an underage person in each of the last two years; what percentage of these cases resulted in a custodial sentence; and what the average length of prison sentence was (i) in total and (ii) broken down by region. [220548]

Maria Eagle: Information requested on court proceedings data for sexual offences with an underage person in England and Wales, by region, 2005 to 2006 is shown in the following table.

These data are on the principal offence basis. The figures given in the table on court proceedings relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Court proceedings data for 2007 will be available in the autumn of 2008.

Number of persons proceeded against at magistrates courts; found guilty, and sentenced at all courts for offences relating to having sexual intercourse with an underage person in England and Wales, by region, 2005 to 2006[1,2,3]

Year/Region	*Proceeded against*	*Found guilty*	*Immediate custody*	*Immediate custody as a percentage of those proceeded against*	*Immediate custody as a percentage of those found guilty*	*Average sentence (months)*[4]
2005						
North East	82	31	20	24	65	12.3
North West	206	114	96	47	84	16.2
Humberside	159	89	72	45	81	17.1
East Midlands	158	69	50	32	72	11.9
West Midlands	165	82	61	37	74	16.3
East of England	129	60	45	35	75	12.9
London	215	40	37	17	93	7.7
South East	171	89	65	38	73	13.7
South West	112	56	41	37	73	9.8
Wales	89	41	32	36	78	11.7
England and Wales	1,486	671	519	35	77	13.2
2006						
North East	84	54	37	44	69	11.3
North West	218	106	79	36	75	10.4
Humberside	136	100	68	50	68	16.9
East Midlands	124	71	52	42	73	11.4

East of England	103	90	75	73	83	13.9
London	204	61	54	26	89	10.3
South East	153	111	83	54	75	13.7
South West	108	84	69	64	82	17.2
Wales	85	51	41	48	80	12.8

Number of persons proceeded against at magistrates courts; found guilty, and sentenced at all courts for offences relating to having sexual intercourse with an underage person in England and Wales, by region, 2005 to 2006[1,2,3]

Year/Region	Proceeded against	Found guilty	Immediate custody	Immediate custody as a percentage of those proceeded against	Immediate custody as a percentage of those found guilty	Average sentence (months)[4]
England and Wales	1,386	848	642	46	76	12.7

[1] These data are on the principal offence basis.
[2] Includes the following statutes and corresponding offence description:
Sexual Offences Act 2003 S.1
Rape of a female aged under 16.
Rape of a male aged under 16.
Sexual Offences Act 2003 S.5
Rape of a female or male child under 13 by a male
Sexual Offences Act 2003 S.9(1a,b,cii)(2)
Sexual activity with a female or male child under 13—offender aged 18 or over—penetration
Sexual activity with a female or male child under 16 (offender aged 18 or over)—penetration
Sexual Offences Act 2003 S.9 (1,a,b,ci)(2) and S.13
Sexual activity with a female or male child under 16—offender under 18
Sexual activity with a female or male child under 16—offender under 18
Sexual Offences Act 2003 S25(1eii,2-4a,6)
Sexual activity with a female or male child family member—offender aged 18 or over at time of offence and victim under 13—penetration
Sexual activity with a female or male child family member—offender aged 18 or over at time of offence and victim 13-17—penetration
Sexual Offences Act 2003 S47(1a,b,cii) (2)(3)(6)
Paying for sex with a female or male child under 13—penetration
Sexual Offences Act 2003 S.47(1a,b,ci,2,4a,6)
Paying for sex with a male or female child under 16—penetration
Sexual Offences Act 2003 25(1)(e) (ii), (2), (5) and (6)
Sexual activity with a female or male child family member under 13—offender U.18—penetration of anus, vagina, mouth by penis/part of body
Sexual activity with a female or male child family member 13 to 17—offender U.18—penetration of anus, vagina, mouth by penis/part of body
[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[4] Excludes life sentences and indeterminate sentences for public protection (IPPs).

CJEAU—Office for Criminal Justice Reform—Ministry of Justice

Offenders: Rehabilitation

Lynne Jones: To ask the Secretary of State for Justice what assessment he has made of the effectiveness of theatre and drama participation in improving the behaviour of violent offenders; and if he will make a statement. [223369]

Mr. Hanson: No specific assessment has been made of the effectiveness of theatre and drama participation in improving the behaviour of violent offenders. However, there is anecdotal evidence on the beneficial impact of the arts more generally on offending. The small scale of many arts programmes for offenders can present difficulties for high quality evaluations.

We are supporting the development of an independent Arts Alliance which will provide a representative voice for the arts sector and improve understanding of how arts interventions can be used more effectively. An Arts Forum will be also set up to facilitate discussions between the Arts Alliance and other stakeholders such as Government Departments and the Arts Council, about the role and development of the arts in supporting offender management.

Offensive Weapons: Sentencing

Mr. Spellar: To ask the Secretary of State for Justice what recent discussions his Department has had with the Sentencing Guidelines Council on penalties for those charged with carrying knives. [221454]

Mr. Straw: There is a formal process of consultation in respect of draft Sentencing Guidelines Council guidelines. The Government offer comments to the SGC as part of this process. Oral discussions with the SGC and Ministers do not normally occur.

Political Parties: Finance

Mr. Tyrie: To ask the Secretary of State for Justice whether proposals in the White Paper on party finance and expenditure on increased transparency will apply to donations to political parties from trade unions; and whether proposals for a higher definition of campaign spending will include funding allocated directly by the trade unions to campaigning; and if he will make a statement. [221398]

Mr. Wills: The Political Parties and Elections Bill, (Bill 141), puts in place arrangements to improve the transparency of all donations of more than £200 to political parties and other recipients of donations that are subject to the requirements of the Political Parties, Elections and Referendums Act 2000 ('the 2000 Act'). The new arrangements will require all donors giving over £200 to declare whether or not they have received £200 from an individual in connection with the making of the donation. The requirements will apply to all such donations made by permissible donors, including trade unions.

The White Paper proposed

> "making the campaign expenditure limit introduced by PPERA more effective by re-examining the schedule of qualifying expenses"

('Party finance and expenditure in the United Kingdom' (CM7239) page 40). Those limits apply to spending by registered political parties on matters listed in the relevant schedule (schedule 8) in the 2000 Act. It is anticipated that any revision of the limits will be done in due course through secondary legislation.

The 2000 Act does not directly regulate trade union expenditure on campaigning. There is extensive statutory regulation of such expenditure in the Trade Union and Labour Relations (Consolidation) Act 1992. Expenditure

by domestic bodies other than political parties (including trade unions) is capable of being regulated if, through its activities, an entity becomes subject to the rules on third party election campaigning or participation in a referendum campaign. The White Paper also said that consideration would be given to bringing forward proposals to build on the current system for regulation of third party campaigning organisations.

Mr. Tyrie: To ask the Secretary of State for Justice (1) whether the triggering rules outlined in the White Paper on party finance and expenditure will apply to third party campaign spending by *(a)* trades unions and *(b)* charities; [221416]

(2) pursuant to the answer of 7 July 2008, *Official Report*, column 1310W, on political parties: finance, whether the new proposed trigger rules will apply to members of the devolved Assemblies and European and Scottish Parliaments; [221464]

(3) whether the new proposed trigger rules will apply to parliamentary by-elections. [221466]

Bridget Prentice: As set out in the White Paper, party finance and expenditure in the United Kingdom (CM7329), published on 16 June 2008, and in the Political Parties and Elections Bill (Bill 141), introduced on 17 July 2008, the proposals to reintroduce triggering will apply only to spending by candidates at a parliamentary general election. That is in line with the original position set out in the Representation of the People Act 1983, under which the original triggering rules only ever applied to Parliamentary candidates.

The triggering proposals will not apply to third parties, whose campaign spending is regulated over a period of 365 days up to the date of the election.

The triggering proposals will not apply to candidates at parliamentary by-elections, for which existing rules will remain in place. This is made clear on the face of the Bill.

The triggering proposals will not apply to members of the devolved Assemblies and Scottish Parliament. As set out in the White Paper, it is intended that the regulated period for candidate expenses for elections to the Scottish Parliament, Welsh Assembly and Northern Ireland Assembly will be set at four months. The Government intend to bring forward secondary legislation to give effect to this proposal in due course.

The triggering proposals will not apply to candidates for election to the European Parliament. Party candidates are not subject to individual election expenses limits at European Parliament elections. Expenditure incurred to promote party list candidates is treated as party campaign expenditure and is therefore regulated by the relevant provisions of the Political Parties, Elections and Referendums Act 2000 (PPERA).

Mr. Tyrie: To ask the Secretary of State for Justice whether he plans to introduce a compliance grant to assist with the costs of moving procedure and practice into compliance with the provisions of any Act resulting from the White Paper on party finance and expenditure. [221418]

Bridget Prentice: Sir Hayden Phillips' draft agreement, which he put to the inter-party talks in August 2007, proposed public funding to assist the parties with compliance with the new regulations. He proposed that this scheme be capped at a maximum of £1.5 million in total. Sir Hayden's proposed scheme was a more radical departure from current arrangements than the proposals set out in the Political Parties and Elections Bill. In particular he recommended a cap on donations and a significant enhancement of public funding. We have no current proposals for compliance grant but we are open to representations on this.

Mr. Tyrie: To ask the Secretary of State for Justice pursuant to the Answer of 7 July 2008, *Official Report*, column 1310W, on political parties: finance, (1) what assessment his Department has made of the compliance of introducing the new trigger rules in the middle of a Parliament with Article 7 of the European Convention on Human Rights; [221463]

(2) if he will make it his policy for any new triggering rules to commence at the start of the next Parliament; [221469]

(3) how the new triggering rules will affect parliamentary candidates who have already declared their candidature or incurred local campaign expenditure. [221470]

Bridget Prentice: The Government intend that the measures to re-introduce triggering set out in the Political Parties and Elections Bill (Bill 141), introduced on 17 July 2008, would come into force on the day on which the Bill received Royal Assent. The provision in the Bill on candidate spending will apply to all expenses for electoral purposes which are incurred after that date.

My right hon. Friend the Secretary of State for Justice and Lord Chancellor has made a statement under section 19(1)(a) of the Human Rights Act 1998 that, in his view, the provisions of the Political Parties and Elections Bill are compatible with the Convention rights.

Mr. Tyrie: To ask the Secretary of State for Justice pursuant to the answer of 7 July 2008, *Official Report*, column 1310W, on political parties: finance, whether the new proposed trigger rules will apply to hon. Members who are re-adopted as parliamentary candidates by their constituency association prior to the dissolution of Parliament. [221465]

Bridget Prentice: The Political Parties and Elections Bill (Bill 141), introduced on 17 July 2008, includes measures to reintroduce the 'trigger' for candidate spending limits. This is intended to ensure that all spending which is used for the purposes of the candidate's election will be regulated. Any spending used for such purposes by a readopted parliamentary candidate will therefore be regulated by the limit in the same way as other candidates, regardless of whether such expenditure occurs before or after the date of dissolution of Parliament.

Mr. Tyrie: To ask the Secretary of State for Justice pursuant to the answer of 7 July 2008, *Official Report*, column 1310W, on political parties: finance, what the timetable is for the publication of the impact assessments referred to. [221467]

Bridget Prentice: Impact assessments for the Political Parties and Elections Bill (Bill 141) were published alongside its introduction to the House on 17 July 2008. The five impact assessments can be found on the Ministry of Justice website:

http://www.justice.gov.uk/publications/political-parties-elections-bill.htm

or in the Vote Office.

Mr. Tyrie: To ask the Secretary of State for Justice pursuant to the answer of 7 July 2008, *Official Report*, column 1310W, on political parties: finance, whether the impact assessments will include a privacy impact assessment. [221468]

Bridget Prentice: The Government made their commitment to carrying out privacy impact assessments at the planning stage of policy development from July 2008 onwards. The policies set out in the provisions of the Political Parties and Elections Bill were beyond the planning stage at that time: the White Paper, Party finance and expenditure in the United Kingdom, which sets out the proposals given effect in the Bill, was published on 16 June 2008; and at the start of July the Bill was in near-final form. The impact assessments for the Political Parties and Elections Bill therefore do not include a full privacy impact assessment.

Privacy impact assessment guidance indicates that for some projects all that may be needed is a check on their compliance with privacy laws. Having reviewed the Bill's provisions I am satisfied that they are consistent with the principles set out in the Data Protection Act 1998 and with the common law of confidentiality.

Polling Stations: Disabled

Rosie Cooper: To ask the Secretary of State for Justice what recent steps the Government have taken to facilitate access to polling stations for those with disabilities. [221677]

Bridget Prentice: The Government are keen to ensure that the electoral process is accessible to all electors. The Electoral Administration Act 2006 extends the duty placed on local authorities to review polling places to ensure that as far as is reasonable and practicable they are accessible for electors with disabilities. Under the Act, local authorities must carry out a full review of polling places at least every four years, and representations can be made to the Electoral Commission in respect of reviews carried out by local authorities. Further, the returning officer for an election must now provide at every polling station an enlarged hand-held sample copy of the ballot paper for the assistance of voters who are partially sighted. The Government also provide grant assistance to local authorities of up to 50 per cent. of the cost of temporary ramps to improve access to buildings which may need them for the purpose of elections.

Prison Sentences

Mr. Garnier: To ask the Secretary of State for Justice what assessment his Department has made of the relationship between the length of custodial sentence and the re-offending rate. [220810]

Mr. Hanson: It is not appropriate to compare actual re-offending rates between custodial sentences of different lengths as both the sentence and the likelihood of re-offending are influenced by the criminal history of the offender and his or her offence.

For example, offenders sentenced to longer custodial sentences (over one year) have on average committed a more serious offence and have fewer previous offences. Thus, their re-offending rate is likely to be lower, but this does not mean that the sentence is more effective.

The re-offending rates for offenders released from custody, broken down by length of sentence are shown in the following table.

Frequency and actual (yes/no) re-offending rates with progress rates from 2000 by custodial sentence length

		Frequency			Binary (yes/no)	
		Number of offenders	*Number of re-offences per 100 offenders*	*Unadjusted progress from 2000*	*Actual re-offending rate*	*Adjusted progress from 2000[1]*
Custody	2000 Q1	15,727	245.5	0.0	51.4	0.0
	2002 Q1	15,578	288.2	17.4	55.0	2.1
	2003 Q1	14,358	279.1	13.7	53.9	-0.3
	2004 Q1	15,761	253.1	3.1	51.9	-4.8
	2005 Q1	14,595	228.5	-6.9	49.1	-9.3
	2006 Q1	14,380	208.4	-15.1	46.5	-12.5
Less than 12 months	2000 Q1	10,334	296.8	0.0	58.0	0.0
	2002 Q1	10,633	356.0	19.9	63.6	3.5
	2003 Q1	9,146	362.5	22.1	64.7	2.1
	2004 Q1	10,578	319.8	7.7	61.9	-1.9
	2005 Q1	9,688	294.3	-0.8	59.7	-5.0
	2006 Q1	9,103	282.7	-4.8	58.8	-6.7
12 months to less than two years	2000 Q1	2,480	179.2	0.0	43.6	0.0
	2002 Q1	2,271	180.7	0.8	43.4	1.6
	2003 Q1	2,280	179.7	0.3	43.4	0.8

Frequency and actual (yes/no) re-offending rates with progress rates from 2000 by custodial sentence length

		Frequency			Binary (yes/no)	
		Number of offenders	*Number of re-offences per 100 offenders*	*Unadjusted progress from 2000*	*Actual re-offending rate*	*Adjusted progress from 2000*[1]
	2004 Q1	2,130	154.1	-14.0	38.9	-8.5
	2005 Q1	2,046	133.7	-25.4	34.3	-15.8
	2006 Q1	2,028	101.9	-43.1	29.6	-25.3
Two years to less than four years	2000 Q1	1,941	142.3	0.0	40.1	0.0
	2002 Q1	1,763	129.4	-9.1	36.0	-9.9
	2003 Q1	1,889	108.0	-24.1	32.3	-15.3
	2004 Q1	1,993	109.8	-22.9	31.3	-20.3
	2005 Q1	1,863	82.0	-42.4	26.9	-32.2
	2006 Q1	2,013	80.5	-43.5	25.9	-32.9
Four years and over	2000 Q1	972	75.3	0.0	23.4	0.0
	2002 Q1	911	71.8	-4.7	21.3	-6.9
	2003 Q1	1,043	75.3	-0.1	21.2	-10.6
	2004 Q1	1,060	55.0	-27.0	17.9	-24.7
	2005 Q1	998	57.6	-23.5	17.9	-26.9
	2006 Q1	1,236	45.0	-40.3	17.3	-28.8

[1] Adjusted to take offender characteristics into account.

More work will be carried out in 2009 to test the feasibility of using more complex statistical techniques to enable comparison between custodial sentences of different lengths.

For more information on the latest adult re-offending statistics please consult:

http://www.justice.gov.uk/docs/re-offending-adults-2006.pdf

Mr. Garnier: To ask the Secretary of State for Justice how many prisoners serving indeterminate sentences for public protection do not have *(a)* an offender assessment or equivalent and *(b)* a sentence plan. [220909]

Mr. Straw: In August, the data base created to support management of offenders serving indeterminate sentences of imprisonment for public protection (IPP) indicated that, for those IPP prisoners with recorded tariff dates, where tariffs expired on or before 31 March 2008, *(a)* 4 - less than 1 per cent. of the total were recorded as not having an assessment; and *(b)* 29 - just over 4 per cent. of the total were recorded as not having a sentence plan. For those offenders serving an IPP sentence with a tariff expiry date between 1 April 2008 and 30 September 2008, the data base indicated that *(a)* 3 - less than 1 per cent. of the total—did not have an assessment and *(b)* 34 - just over 7 per cent. of the total did not have a sentence plan.

The data base is necessarily a large administrative system tracking a changing and moving population and it therefore may not be 100 per cent. complete on any one day. It is updated at intervals rather than being a real time record.

Prison Service: Ethnic Groups

Keith Vaz: To ask the Secretary of State for Justice what steps his Department is taking to increase the number of prison officers and prison staff from an ethnic minority background. [220870]

Mr. Hanson: The attraction of people with suitable competencies from ethnic minority backgrounds is a key element in all recruitment campaigns for prison staff. In particular, for operational staff, including prison officers and senior managers, the National Offender Management Service is using a range of methods for attracting ethnic minority staff such as targeted advertising, outreach and other recruitment procedures. The recent prison officer recruitment campaign has been successful in attracting 13 per cent. of applicants from a non-white background.

Keith Vaz: To ask the Secretary of State for Justice how many and what proportion of prison officers in England and Wales were from an ethnic minority background in *(a)* 2007 and *(b)* 1997. [220871]

Mr. Hanson: Information in the following table shows the total figures for public and contracted establishments.

The number and proportion of prison officers from an ethnic minority background[1, 2, 3]

As at 31 December each year	*Number of BME prison officers*	*Proportion prison officers recorded as BME (Percentage)*
1997	525	2.27
2007	1269	5.19

[1] Prison officers: Includes prison officers, senior officers and principal officers within the public sector Prison Service and custody officers and senior custody officers within contracted establishments, where available.

[2] Ethnic minority background has been classified as those staff from a black and ethnic minority background (BME).

[3] Per cent. as a proportion of those with known ethnicity.

Information is provided for four of the eleven contracted establishments as at the time of the request data were not available from three separate providers. In 1997 only four contracted prisons Altcourse, Doncaster, Parc and Wolds were open.

Prison Service: Females

Keith Vaz: To ask the Secretary of State for Justice how many and what percentage of prison officers in England and Wales are women. [220872]

Mr. Hanson: Information in the following table shows the total figures for public and contracted establishments.

The data are provided as a snapshot at the end of June 2008[1].

[1] Data for seven of the contracted establishments are provided as at the end of January 2008, as updated information was not available at the time of the request

	Number and proportion of female prison officers [1]
Number of female prison officers	6,557
Proportion prison officers recorded as Female (Percentage)	23.73

[1] Prison Officers. Includes prison officers, senior officers and principal officers within the public sector Prison Service and custody officers and senior custody officers within contracted establishments, where available.

Prisoners Release

Mr. Garnier: To ask the Secretary of State for Justice for what reasons the 110 prisoners who remain unlawfully at large have been recalled to custody while on end of custody licence. [223351]

Mr. Straw: 1,153 offenders had been recalled from the end of custody licence scheme during the period since the scheme began and until 31 July 2008. As of 15 August, 1,043 such offenders had been successfully apprehended and returned to custody. A subsequent check has confirmed that there were 109 offenders who were still unlawfully at large as of 15 August (not 110 as previously reported). A breakdown of the reasons for which these offenders were recalled is outlined in the following table.

Offenders may be recalled for more than one reason. A total of 123 reasons for recall have been recorded in respect of the 109 offenders reported as unlawfully at large.

Reasons for recall from ECL	*Number of offenders*
Alleged reoffending	22
Failure to live at an approved address	34
Out of touch with the probation service	58
Poor behaviour	9

Mr. Garnier: To ask the Secretary of State for Justice what estimate he has made of the number of prisoners who will be released early under the end of custody licence scheme between the commencement of the scheme in June 2007 and January 2009; and what proportion of the prison population this figure represents. [223352]

Mr. Straw: The ECL bulletin published on 29 August showed that between 29 June 2007 and 31 July 2008 34,175 prisoners were released under the ECL scheme. Around 2,500 prisoners are released each month on ECL. This figure is not expected to vary appreciably between now and January 2009. If the type of prisoner received into prison and the eligibility of those prisoners remains constant, we would expect around 15,000 prisoners to be released in the six months to the end of January 2009. This would bring the cumulative total since the scheme began to around 49, 000 releases.

The average ECL caseload is 1,350. This represents 2 per cent. of those in prison based on a population of 84,139 at the end of July 2008.

Information on numbers released under the scheme is published monthly in the statistics bulletin End of Custody Licence releases and recalls, available from the Library of the House and the Ministry of Justice website at the following address:

http://www.justice.gov.uk/publications/endofcustodylicence.htm.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners Release: Hertfordshire

Anne Main: To ask the Secretary of State for Justice how many people have been released on end of custody licence from prison in *(a)* St. Albans constituency and *(b)* Hertfordshire in each year for which figures are available. [221413]

Mr. Hanson: The available information on numbers released by establishment is published monthly, in Table 2 of the statistical bulletin End of Custody Licence releases and recalls, available from the Library of the House and the Ministry of Justice website at the following address:

http://www.justice.gov.uk/publications/endofcustodylicence.htm

The end of custody licence scheme was introduced on 29 June 2007. From 29 June 2007 to 31 July 2008 there were 17 prisoners released from The Mount prison, Hertfordshire, under the scheme. There are no prisons in the St. Albans constituency.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners: Ethnic Groups

Keith Vaz: To ask the Secretary of State for Justice how many and what percentage of *(a)* male and *(b)* female prisoners in England and Wales were of an ethnic minority background in (i) 2007 and (ii) 1997. [220873]

Mr. Hanson: Information on the size of the prison population, by sex, ethnic group, and nationality, is published in the annual volume Offender Management Caseload Statistics (Table 8.4), available from the Library of the House and from the Ministry of Justice website at:

http://www.justice.gov.uk/publications/prisonandprobation.htm

and (2007 data) in the publication Statistics on Race and the Criminal Justice System—2006-07 at the following link:

http://www.iustice.gov.uk/docs/stats-race-criminal-iustice.pdf.

At the end of June 2007, the latest published information, there were *(a)* 19,658 male ethnic minority prisoners held in all prisons in England and Wales, or 26 per cent. of the total male prisoner population (based on those with known ethnic group); and *(b)* 1,250 female ethnic minority prisoners or 29 per cent. of the total female prisoner population. The corresponding figures at the end of June 1997 were *(a)* 10,587 male ethnic minority prisoners, or 18 per cent. and *(b)* 659 female ethnic minority prisoners, or 25 per cent.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing. Prior to 2004 the 1991 census codes were used.

Prisoners: Food

Mr. Ruffley: To ask the Secretary of State for Justice when the amount allocated to the daily cost of food for a prisoner in a *(a)* prison cell and *(b)* police station cell was last increased. [220924]

Mr. Straw: The public sector Prison Service does not set a daily food allowance. Each Governor sets a food budget based on the establishment's requirements. The average daily food cost per prisoner in public sector prisons is around £2.

Under an agreement between NOMS and ACPO there is an upper limit to the amount the police may charge for the provision of meals for prisoners held overnight in police cells under Operation Safeguard. From 1997 to June 2006 the daily charge remained at £10. Since June 2006, when the figure was last increased to take account of rising costs, the police have been able to charge up to £12 for the provision of meals for a twenty-four hour period or part twenty-four hour period. This may be exceeded under exceptional circumstances.

The difference between costs under Operation Safeguard and in prison arises because the provision of food in prison can be planned with much greater certainty and prison establishments are able to make use of bulk purchasing.

Prisoners: Voting Rights

Paul Holmes: To ask the Secretary of State for Justice (1) what representations his Department has received from *(a)* the Council of Europe and *(b)* EU institutions following the European Court of Human Rights' judgment in the case of Hirst v. UK on voting rights for prisoners; [223436]

(2) what plans he has to launch a consultation on extending voting rights to prisoners in England and Wales. [223437]

Mr. Straw: The judgment of the European Court of Human Rights in the case of Hirst *v.* UK requires the Government to reconsider their policy of a blanket ban on the voting rights of convicted prisoners. That requirement is a consequence of a judgment in the European Court of Human Rights and is something that would need to be implemented in the UK even if the Human Rights Act was not in place.

In response, the Government undertook a first stage consultation which concluded in March 2007. However, since that point the context for the debate about the rights and responsibilities of citizenship, and in particular the exercise of the franchise, in the United Kingdom has changed significantly following the launch of the Governance of Britain Green Paper and publication of the Goldsmith review.

The Government remain committed to carrying out a second, more detailed public consultation on how voting rights might be granted to serving prisoners.

Since the judgment we have kept the Committee of Ministers updated on progress towards implementing the 'Hirst No. 2' judgment. During April 2008 we provided the Committee's Secretariat with a detailed note about implementation of the judgment and we have undertaken to submit further information in due course on the form and timing of a further consultation.

Prisons: Discipline

Mrs. Moon: To ask the Secretary of State for Justice what arrangements are in place to facilitate the transfer of enhanced status points awarded in recognition of good behaviour in young offender institutions and prisons between establishments. [223244]

Mr. Hanson: It is a requirement of the Incentives and Earned Privileges Scheme that young offenders and adult prisoners retain their enhanced status on transfer between prison establishments so that their good behaviour continues to be recognised. Paragraph 2.23 of Prison Service Order (PSO) 4000 (Incentives and Earned Privileges), explains this in greater detail. A copy of the full PSO has been placed in the Libraries of the House and at:

http://pso.hmprisonservice.gov.uk/PSO_4000_incentives_and_earned_privileges.doc

Prisons: Drugs

Peter Bottomley: To ask the Secretary of State for Justice if he will estimate the level of use of illegal drugs by prisoners in each of the last 10 years. [223430]

Mr. Hanson: The best measure of drug misuse in prisons is the random mandatory drug testing programme. The percentage of prisoners testing positive under the programme in each of the last 10 financial years is detailed in the following table. The data illustrate the success of the National Offender Management Service's drug strategy for prisons. This strategy has three key elements:

reducing supply, through security measures and drug testing programmes;

reducing demand, through targeted interventions for low, moderate and severe drug-misusers; and

establishing effective through-care links to ensure continuity of treatment post-release in order to safeguard the gains made in custody.

The Government have recently commissioned a report on drug use in prisons and accepted the recommendations.

Percentage of prisoners testing positive under the random mandatory drug testing programme in each of the last 10 financial years

	Positive rate (percentage)
1998-99	18.1
1999-2000	14.4
2000-01	12.2
2001-02	11.5
2002-03	11.7

Percentage of prisoners testing positive under the random mandatory drug testing programme in each of the last 10 financial years

	Positive rate (percentage)
2003-04	12.5
2004-05	11.8
2005-06	10.3
2006-07	8.8
2007-08	9.1
2008-09 year to date (April to July 2008)	8.3

Prisons: Racial Violence

Mr. Garnier: To ask the Secretary of State for Justice how many incidents involving violence or the threat of violence by prisoners have been recorded as motivated by racial or religious prejudice in each prison in England and Wales in each of the last 10 years for which figures are available; what the nature of the incident was in each case; and what measures he has put in place to reduce such occurrences. [223350]

Mr. Straw: Information on the number of incidents involving violence or the threat of violence by prisoners which have been recorded as motivated by racial or religious prejudice is not held centrally and can be obtained only at disproportionate cost.

Ministers and the National Offender Management Service are committed to ensuring that violence in prisons is not tolerated in any form. Since 2004, a national strategy has directed every public sector prison to have in place a local violence reduction strategy. This policy has recently been revised and from mid 2007 applied to both the public sector and contracted estate. A whole prison approach is encouraged, engaging all staff, all disciplines and prisoners in challenging unacceptable behaviour, problem-solving and personal safety.

The national Cell Sharing Risk Assessment measure was introduced in June 2002 in response to the death of Zahid Mubarek who was murdered by his cell-mate. The measure assists staff in assessing the risk a prisoner could pose to another prisoner in shared accommodation, based on the information that accompanies the prisoner and through a prisoner interview. The initial assessment will trigger a risk minimisation plan for those identified as high or medium risk followed by a review process.

Recovery of Costs

Mr. O'Hara: To ask the Secretary of State for Justice what guidance his Department's accounting office issues on the amount of costs that can be recovered by a litigant from an opponent ordered to pay costs in litigation; and what the duties of the accounting officer are in respect of cost recovery on his Department's behalf. [217294]

Bridget Prentice: The Ministry of Justice's debt management policy states that the Department must ensure that income owed to the Government is collected properly, and that outstanding claims are followed up at frequent and regular intervals. The role of the principal accounting officer is to ensure that the public funds for which he is responsible are properly and well managed and safeguarded.

Supreme Court: Costs

Mr. Spellar: To ask the Secretary of State for Justice what the *(a)* original and *(b)* most recent estimated capital cost for the Supreme Court was. [223234]

Mr. Straw: As announced on 14 June 2007 the estimated capital cost for the construction of the UK Supreme Court is £36.7 million. The capital construction costs will be met over a 30-year period through rental payments of £2.1 million per annum, increasing at a rate of 2.5 per cent. per annum. In addition to this figure, we have undertaken £2 million of repair work (as announced on 3 July 2008). This cost will be paid separately (not part of the rental payments). We will update the House on final costs at the completion of the programme.

Terrorism: Greater London

Norman Baker: To ask the Secretary of State for Justice what recent assessment he has made of the efficiency of the Criminal Injuries Compensation Authority in the time taken to award sums to those injured in the London bombings of 2005; how many claims for such compensation have been submitted; how many have been paid; what the average payment has been; what the average time taken for a payment to be made has been; whether he plans to make a further contribution to the London Bombings Relief Charitable Fund; and if he will make a statement. [223255]

Mr. Straw: The Criminal Injuries Compensation Authority (CICA) has offered or paid a full or interim payment to over 96 per cent. of eligible people who have applied for compensation for the 7/7 bombings. As at 4 September 2008, over £7.5 million has been paid out to those injured, with an average payment of £14,200, and an average time of 153 days to resolve the cases. The final total is expected to exceed £10 million.

CICA has received 647 applications for compensation and 585 cases have been resolved. The remaining 62 cases are awaiting full settlement. However, CICA has made a final offer in 16 of these cases and is waiting to see if the offers will be accepted. Of the remaining 46 cases, 31 applicants have either received, or been offered, an interim payment, and 15 cases require further information before a decision can be made.

CICA is aware that it has taken some time for all applications to be settled, but the decisions are among other factors dependent on the receipt of evidence from third parties, which can take time to provide as medical assessments are invariably required. CICA is striving to obtain the information and medical evidence needed to ensure that each applicant receives the full award to which he/she is entitled.

Victims of the London bombings also received substantial sums of money totalling £12 million from the London Bombings Relief Charitable Fund. The Government contributed £3.5 million. The fund has now closed, having completed the job for which it was set up: to distribute the money that was raised by others as quickly as possible to the victims of the 7 July attacks.

Valuation Office: Land Registry

Mr. Pickles: To ask the Secretary of State for Justice further to page 26 of the Valuation Office Agency Annual Report and Accounts 2007-08, HC 583, if he will place in the Library a copy of the agreement with the Land Registry on using information they hold on land transactions. [221268]

Jane Kennedy: I have been asked to reply.

The VOA do not have a separate agreement with Land Registry. The VOA are registered users of HM Land Registry's Land Registry Direct website 'Land Registry Direct Service', available at:

www.landregistry.gov.uk/direct/.

This is a secure site set up by the HM Land Registry for the public to have access to copies of registers of title.

Young Offenders

Julie Morgan: To ask the Secretary of State for Justice how many *(a)* qualified social workers, *(b)* primary teachers, *(c)* secondary teachers and *(d)* child psychologists are employed in (i) each young offender institution, (ii) each secure training centre, (iii) each local authority secure children's home and (iv) each immigration removal centre. [221574]

Mr. Hanson: The information is as follows:

Social workers

The Youth Justice Board (YJB) report that there are currently 15 social workers employed in the 17 Young Offender Institutions (YOIs) and dedicated Prison Service units for young women. There are 33 social workers employed across the four Secure Training Centres (STCs). Information is not held centrally on the number of social workers in Secure Children's Homes (SCHs). Children who are placed in SCHs on welfare grounds will have their own social workers who will visit them at the home.

There are three Immigration Removal Centres (IRCs) where families with children are detained. These are Tinsley House, Dungavel (Scotland) and Yarl's Wood. The main centre for the detention of families is Yarl's Wood. At Yarl's Wood there are two qualified social workers. For all three centres, the UK Border Agency works very closely with the local authorities. Where there is no full-time social worker presence, social workers visit detainees if this is required.

Primary and secondary teachers

Information on the numbers of primary teachers and secondary teachers employed in all juvenile custodial establishments is not collected centrally. However, the YJB report that across the four STCs, there are seven primary teachers, 64 secondary teachers and also 13 post 16 further education lecturers. In addition, Hassockfield STC employs 10 vocational teachers.

In IRCs where families with children are detained at Yarl's Wood there are two primary teachers and one secondary teacher. At Dungavel there is one teacher who covers primary and secondary curricula. At Tinsley House there is none of the above.

Child psychologists

Information is not collected centrally on the numbers of child psychologists employed in all juvenile custodial establishments. The responsibility for commissioning health services in YOIs in England has been fully devolved to national health service primary care trusts (PCTs) since April 2006. PCTs work with establishments to develop comprehensive health needs assessments of their populations and then commission on the basis of that need. Provision of treatment by child psychologists will therefore differ depending on the locality and on the specific needs of the individual concerned.

The YJB report the following information for the 4STCs:

Medway STC—receive the consultation services from a clinical child psychologist. In addition there are also clinics from a consultant psychiatrist and two full-time psychology assistants.

Rainsbrook STC—have one child psychologist along with three psychology assistants.

Oakhill STC—have one full-time forensic psychologist. In addition they have one full-time assistant forensic psychologist, one session counselling psychologist, one session consulting psychiatrist and, one full day mental health specialist nurse from the local CAMHS unit.

Hassockfield STC—receive sessional work from a consulting psychologist. In addition, they have two full-time assistant psychologists, two full-time assistant psychologists, two sessional counselling psychologists, one session consulting psychiatrist one sessional educational psychologist, and one half day mental health specialist nurse from the local CAMHS unit.

There are no child psychologists in the three IRCs which hold families with children. However, each IRC must ensure that arrangements are in place for detainees to have a physical and mental examination by the medical practitioner within 24-hours of their arrival at the removal centre.

Young Offenders: Restraint Techniques

Ms Keeble: To ask the Secretary of State for Justice (1) how many children *(a)* in secure accommodation and *(b)* who left secure accommodation in the last 12 months were interviewed as part of the review of restraint commissioned by his Department; [220925]

(2) how many children *(a)* currently in young offender institutions, secure training centres and local authority secure accommodation and *(b)* who left young offender institutions, secure training centres and local authority secure accommodation in the last 12 months were interviewed as part of the review of restraint commissioned by his Department; [221073]

(3) how many members of staff, at what level of employment, working in young offender institutions, secure training centres or local authority secure accommodation were interviewed as part of his Department's review of restraint in secure juvenile accommodation. [221074]

Mr. Hanson: We intend to publish the review's methodology when we publish the report of the review. We plan to do this by the end of October.

Young Offenders: Yorkshire and the Humber

John Battle: To ask the Secretary of State for Justice what steps are being taken in *(a)* Leeds and *(b)* Yorkshire and Humberside to reduce the number of offenders imprisoned under the age of 14 years; and if he will make a statement. [220703]

Mr. Hanson: Steps are being taken across the country to reduce the number of young people in custody. We have greatly strengthened and expanded the range of pre-court diversions and community sentences available for the police and courts, including those in Leeds and Yorkshire and Humberside, to use when dealing with young people who have offended. The Government's Youth Crime Action Plan, which was published on 15 July, builds on this by setting out cross-Government arrangements for tackling offending and re-offending by young people.

For a small minority of young people who commit serious offences, custody is the only appropriate response to what has occurred and the only means of protecting the public.

Any offender aged 14 or under who is sentenced to custody is accommodated in a secure training centre or secure children's home. These have high staffing ratios, a child-centred approach and a particular emphasis on education.

COMMUNITIES AND LOCAL GOVERNMENT

Bexley

Mr. Evennett: To ask the Secretary of State for Communities and Local Government whether she plans to visit the London Borough of Bexley. [223122]

John Healey: My right hon. Friend the Secretary of State has no current plans to visit the London borough of Bexley.

Council Tax

Robert Neill: To ask the Secretary of State for Communities and Local Government what assessment her Department has made of the practicality of establishing additional council tax bands in England in the absence of a revaluation exercise; and what advice she has received from *(a)* the Lyons inquiry team and *(b)* the Valuation Office Agency on the matter in the last two years. [223139]

John Healey: The report of the Lyons inquiry "Place-shaping: a shared ambition for the future of local government", discusses at Chapter 7 the practicality of establishing additional council tax bands in the absence of a revaluation exercise. A copy of the chapter is available at:

http://www.webarchive.org.uk/pan/15454/20070428/www.lyonsinquiry.org.uk/docs/final-07.pdf

No separate advice has been received from the Valuation Office Agency.

The Government made their position clear on this issue in their press notice of 21 March 2007, which responded to the Lyons inquiry report. A copy of the press notice is available at:

http://www.communities.gov.uk/news/corporate/government-welcomes-lyons

Robert Neill: To ask the Secretary of State for Communities and Local Government what powers of entry local authorities have to ascertain the validity of claims for council tax *(a)* exemptions and *(b)* discounts. [223140]

John Healey: The legislative framework governing the council tax system does not provide local authorities with powers of entry in order to validate claims for council tax exemptions or discounts.

Eco-towns: Leicestershire

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many hectares of green wedge designated land will be developed through *(a)* housing and *(b)* non-housing development in the proposed Pennbury eco-town site. [223414]

Caroline Flint: Information that has been provided to us by the promoter in relation to the Pennbury proposal does not set out how many hectares of green wedge designated land will be developed for housing and non-housing development. We have therefore written to the promoter to seek this information based on their current plans, and I will write to the hon. Member with this information when we have obtained it.

Empty Property: Kent

Mr. Fallon: To ask the Secretary of State for Communities and Local Government what estimate she has made of the number of commercial premises likely to be demolished in Kent as a result of the changes in empty property rates in 2008. [223250]

John Healey: An impact assessment detailing the likely effects of the empty property reforms was published by Communities and Local Government in May 2007 accompanying the introduction of the Rating (Empty Properties) Bill and a further assessment was laid before this House on the 26 February accompanying the Non-Domestic Rating (Unoccupied Property) (England) Regulations 2008—Number: 386.

Empty Property: Regeneration

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what recent representations her Department and its agencies have received from urban regeneration companies on the effect of increases in empty property business rates on regeneration. [223316]

John Healey: The Department is not aware of receiving any recent representations from the Urban Regeneration Companies regarding empty property rates.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what assessment her Department has made of the effect of the new empty property business rates tax on regeneration schemes. [223317]

John Healey: An impact assessment detailing the likely impact of the empty property reforms was published by Communities and Local Government in May 2007 accompanying the introduction of the Rating (Empty Properties) Bill and a further assessment was laid before this House on the 26 February accompanying the Non-Domestic Rating (Unoccupied Property) (England) Regulations 2008—Number: 386.

Home Information Packs

Mr. Oaten: To ask the Secretary of State for Communities and Local Government what plans she has to review the operation and effectiveness of the home information pack scheme. [223112]

Caroline Flint: We continue to keep the implementation of Home Information Packs (HIPs) under review in light of market conditions. An evaluation of the HIPs programme is currently planned for 2010 by updating "The HIPs Baseline Research Report", published in January 2007 and which is available on our website at:

http://www.communities.gov.uk/publications/housing/hipbaselineresearch

We will keep the timing of this evaluation under review in order that it should take place after the housing market has returned to more normal conditions and to enable the identification of the impacts of HIPs separately from wider housing market effects.

Homelessness

Ms Buck: To ask the Secretary of State for Communities and Local Government what proportion of households presenting as homeless were accepted as such in *(a)* England, *(b)* each region and *(c)* each London local authority in each of the last five years. [217138]

Mr. Iain Wright *[holding answer 14 July 2008]:* Information about English local housing authorities' actions under the homelessness legislation (part 7 of the Housing Act 1996) is collected quarterly at local authority level.

Under the legislation, authorities must secure suitable accommodation for applicants accepted as eligible for assistance, unintentionally homeless and in priority need (or take steps to secure that accommodation does not cease to be available if the applicant is likely to become homeless within 28 days). CLG's quarterly homelessness Statistical Release refers to these duties as "the main homelessness duties" and relevant applicants are recorded as "homeless acceptances".

Two tables have been placed in the Library. Table A shows the number of eligible applicants for whom a decision was taken, and the number and proportion where the applicant was found to be eligible for assistance, unintentionally homeless and in priority need, and therefore accepted as being owed a main homelessness duty, between 2003-04 and 2007-08, by local authority. Note that the decision figures exclude applications by households not eligible for assistance under the legislation.

Table B shows the same data for each Government office region and for England.

The following table contains extracts from these two tables and shows the proportion of applicants for whom a decision was taken where the outcome was that the applicant was accepted as being owed a main homelessness duty, between 2003-04 and 2007-08, by Government office region and London local authority:

[1] Data not reported
Source:
CLG PIE data

Regional and local authority level data on the outcomes of all decisions are published quarterly in the Supplementary Tables which accompany the quarterly statistical release on Statutory Homelessness. These are published on our website and placed in the Library. The latest release was published on 12 June 2008.

Simon Hughes: To ask the Secretary of State for Communities and Local Government what methodology her Department uses to estimate the number of *(a)* homeless people and *(b)* rough sleepers. [223376]

Caroline Flint: The information requested is as follows.

Statutory Homelessness

The Quarterly Statistical Release on Statutory Homelessness is a National Statistics product. National Statistics is a quality marker applied to official statistics that meet the highest statistical standards, and means that statistics have been produced in accordance with the arrangements and professional standards set out in the Code of Practice and associated Protocols.

Information about English local authorities' actions under the homelessness legislation is collected by Communities and Local Government, on the quarterly PIE housing return submitted by local housing authorities.

Data submitted include the number of households accepted by local housing authorities as eligible for assistance, unintentionally homeless and in priority need, and therefore owed a main homelessness duty (to secure that suitable accommodation is available). If a settled home is not immediately available, the authority must secure temporary accommodation until a settled home becomes available, and the data submitted include 'snapshot' information on the number of households in temporary accommodation at the end of each quarter. The PIE return does not include information on other forms of homelessness, for example rough sleeping.

All PIE returns submitted by local housing authorities undergo thorough validation, and late returns are pursued to ensure that overall response is as complete and accurate as possible. Anomalous data are highlighted and verified by contacting the local authority.

The data validation process typically takes around six weeks, after which estimates for missing data are calculated. The most recent published figures (January to March 2008) were based on full or partial returns from all 354 local authorities.

Published national and regional figures may include estimates for a small amount of missing data from individual local authorities. These estimates are calculated using a procedure based on changes observed in similar authorities.

Statutory homelessness statistics are published around 51 working days after the end of each quarter, on a pre-announced date in accordance with the National Statistics Code of Practice. The latest (12 June 2008) release and previous editions are available both in the Library and via the CLG website. The next Release is due to be published on 11 September 2008.

Rough Sleepers

Local authorities evaluate the extent of rough sleeping within their area in accordance with the methodology on street counts set out CLG's 'Guidance on evaluating the extent of rough sleeping—2007 revision'. Street counts are used to establish a robust annual estimate of the number of people sleeping rough on any given night, based on the sum of counts in areas where a known or suspected rough sleeping problems has been identified.

Housing: Energy Performance Certificates

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many *(a)* home condition reports (HCRs) and *(b)* energy performance certificates (EPCs) for domestic dwellings are entered on the (i) HCR Register and (ii) EPC Register respectively. [223410]

Caroline Flint: The number of home condition reports which have been entered on the Home Condition Report Register up to 4 September 2008 is 1,806.

The number of energy performance certificates, for domestic dwellings, which have been entered on the Energy Performance Certificate Register up to 4 September 2008 is 1,113,626.

Housing: Waiting Lists

Mr. Paice: To ask the Secretary of State for Communities and Local Government how many individuals were on social housing waiting lists in *(a)* urban and *(b)* rural areas in England in each year since 1997. [212904]

Mr. Iain Wright: The number of households on local authorities' housing waiting lists, split by urban and rural local authorities in England in each year from 1997 to 2007 is shown in the following table.

Number of households

	Urban local authorities	*Rural local authorities*	*England total*
1997	719,050	302,620	1,021,660
1998	720,290	299,940	1,020,230
1999	727,880	308,880	1,036,750
2000	737,780	300,940	1,038,720
2001	746,170	293,090	1,039,270
2002	792,970	300,370	1,093,340
2003	927,170	343,510	1,270,680
2004	1,053,860	383,880	1,437,740
2005	1,119,230	428,050	1,547,280
2006	1,173,300	461,000	1,634,300
2007	1,208,120	466,300	1,674,420

Note:
As reported by local authorities. Excludes households looking for transfers. Rounded to the nearest 10.
Source:
Communities and Local Government Housing Strategy Statistical Appendix return (HSSA).

Local authorities in England report the number of households on their housing waiting list as at 1 April in their annual Housing Strategy Statistical Appendix returns. Information on local authority waiting lists is collected in respect of households rather than individuals.

Where local authorities and registered social landlords operate a common register, households registered with the RSL will be included in the data. However, registered social landlords are independent bodies and can keep their own waiting lists. These data are not collected centrally.

A table has been deposited in the Library showing the number of households on local authorities' housing waiting lists and indicates whether each local authority is urban or rural.

Housing: Sales

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the average sale price was of the homes built in the former Deputy Prime Minister's Design for Manufacture £60,000 home competition. [223411]

Caroline Flint: Construction of the homes on the 10 sites included in the Design for Manufacture competition is ongoing. However, I refer the hon. Member to the answers given to the hon. Member for North-East Milton Keynes (Mr. Lancaster) on 6 March 2007, *Official Report*, column 1890W, the hon. Member for Brentwood and Ongar (Mr. Pickles) on 26 June 2007, *Official Report*, columns 628-29W, and the hon. Member on 15 October 2007, *Official Report*, columns 851-52W.

Local Authorities: Housing

Dan Rogerson: To ask the Secretary of State for Communities and Local Government how many homes she estimates will be bought by local authorities under the Ensuring a fair housing market for all programme; and how much money will be made available for such purchases in *(a)* Cornwall, *(b)* the South West and *(c)* England. [223398]

Caroline Flint: On 2 September, we announced a major cross Government package of new measures to respond to current conditions in the housing market. This includes offering up to 10,000 first-time buyers currently frozen out of the mortgage market the chance to get onto the property ladder through a new shared equity scheme worth £300 million; supporting up to 6,000 of the most vulnerable homeowners facing repossession to remain in their home through a mortgage rescue scheme of £200 million; and bringing forward £400 million in order to deliver up to 5,500 new social homes over the next 18 months on top of current assumptions.

Funding will be through the Housing Corporation's Affordable Housing Programme for 2008-11. Our intention is that it will be allocated broadly in line with existing allocations. The corporation will assess fit with regional and local strategies and will continue to work closely with regional assemblies.

We have opened up competition for Social Housing Grant to ALMOs and other wholly owned local authority special purpose vehicles pre-qualified to bid through the Affordable Housing Programme. We will invite local authorities who continue to directly manage their stock to compete for grant on the same terms as those with special purpose vehicles.

Local Government

Mrs. Riordan: To ask the Secretary of State for Communities and Local Government how many *(a)* White and *(b)* Green Papers on reforming the structure of local government have been published by her Department and its predecessors since 1997. [223095]

John Healey: Two such White Papers have included proposals for reforming the structure of local government. In 2002 "Your Region, Your Choice: Revitalising the English Regions" proposed that where a regional assembly was established local government throughout that region should become unitary. In 2006 "Strong and Prosperous Communities: The Local Government White Paper" recognised the weakness of the traditional two tier structure and announced that the Government would invite councils to make proposals for unitary local government.

There have been no such Green Papers.

Local Government: Reorganisation

Robert Neill: To ask the Secretary of State for Communities and Local Government if she will place

in the Library copies of the independent financial reports her Department has received on the most recent round of unitary local government restructuring. [223141]

John Healey: I have no plans to publish the independent financial reports we received relating to the current round of unitary local government restructuring. As I told the First Delegated Legislation Committee of the House on 25 March 2008, *Official Report*, column 5, this is advice to Ministers which is not generally released, although I have been quite clear about its conclusions on any restructuring when seeking the House's approval to it.

Mayor of London: Thames Gateway

Mr. Evennett: To ask the Secretary of State for Communities and Local Government what recent discussions her Department has held with the Mayor of London on regeneration in the Thames Gateway area. [223121]

Caroline Flint: There have been no discussions with the Mayor of London on regeneration in the Thames Gateway since the Mayoral elections in May.

Mayor of London: Thames Gateway Bridge

Mr. Evennett: To ask the Secretary of State for Communities and Local Government what discussions her officials have had with the Mayor of London on the Thames Gateway Bridge in the last 12 months. [223120]

Caroline Flint: There have been no meetings between Ministers or officials from Communities and Local Government Department with the current Mayor of London on the proposed Thames Gateway Bridge.

Non-Domestic Rates: Empty Property

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the Answer of 9 July 2008, *Official Report*, column 1637W, on non-domestic rates: empty property, what the addresses were of the properties where the four possible incidents took place; who the owner of each of the properties was; and whether her Department has been notified of any further cases since 20 June. [223381]

John Healey: The Government have asked local authorities to provide information about how reforms to the empty property rate are working. The information provided on evasion of empty property rates will be based on the informed judgment of individual officers and is being gathered as a broad indicator of the scale of possible avoidance activity and there is no suggestion the activity in question is unlawful. This is not a detailed survey. The Department has not collected the information requested. The Department has had further notifications and we will set out our general findings in due course.

Property Information Questionnaires

Grant Shapps: To ask the Secretary of State for Communities and Local Government which public sector bodies will have access to the information contained in property information questionnaires. [223412]

Caroline Flint: None. As set out in our consultation paper, the property information questionnaire would be completed by individual sellers and provided to prospective buyers as part of the HIP.

Religious Buildings

Robert Neill: To ask the Secretary of State for Communities and Local Government (1) how many *(a)* churches and *(b)* other places of worship were recorded on the Valuation Office Agency's 2005 Rating List in each region in the latest period for which figures are available; [223138]

(2) how many *(a)* churches and *(b)* other places of worship were on the Valuation Office Agency's 1995 rating list in (i) each government office region in England and (ii) Wales in 1997 or the closest periods to that for which figures are available. [223315]

John Healey: It is not possible to provide the number of churches and places of worship entered into the non-domestic rating lists for England and Wales.

Generally places of worship are exempt from rates and do not appear in rating lists providing they are places not just of religious worship but of public religious worship. Places of worship also exist in schools, hospitals, colleges etc. and these properties will appear in rating lists but no record is kept of the number of such properties that contain places of religious worship.

Right to Buy Scheme: Discounts

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the average right to buy discount *(a)* in cash terms and *(b)* as a percentage of the market value of the property was in (i) England and (ii) each Government Office region in England in each year since 1996-97. [223413]

Caroline Flint: Average Right to Buy discounts, and Right to Buy discounts as a proportion of market value of the property, for England and in each of the nine Government office regions for 1998-99 to 2007-08 are given in the following table. Information on the amount of discount and market value was not collected before 1998-99.

	1998-99	*1999-00*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*

Statistical Returns from Local Authorities (P1B)

Safeguarding Authorities Scheme

Mr. Drew: To ask the Secretary of State for Communities and Local Government if she will re-examine the appropriateness of the level of registration fee charged under the independent Safeguarding Authorities scheme; and on what basis the present fee was calculated. [221540]

Meg Hillier: I have been asked to reply.

The Independent Safeguarding Authority (ISA) Scheme is a new mandatory work force vetting scheme set up under the auspices of the Safeguarding Vulnerable Groups Act 2006 to improve protection for children and vulnerable adults.

This scheme, which replaces some existing work force checking procedures, will come into operation in October 2009.

The application fees referred to are additional to the existing Disclosure Service fees charged by the Criminal Records Bureau (CRB). It is envisaged that the total fee will be charged to users of the service by CRB, with a pass through of this element to ISA.

As a self-funding service, the proposed additional fee chargeable to users of the scheme has been calculated to recover the full economic costs of the service over the first 54 months of operation, based on the estimate of paying users. Fee levels have been calculated to fully fund the scheme but not to return a profit.

All employed applicants, whether in part-time or full-time employment and regardless of salary level, will be expected to pay to be checked to ensure that they do not pose a risk to vulnerable groups.

Applicants will be required to pay a one-off fee of £64 at point of initial application to join the scheme. This fee will cover the applicant's life within the scheme and they will not be required to pay for further or repeat checks.

However, applicants who work exclusively in unpaid voluntary capacities will not pay for the service but will be subsidised by the fees from paying users.

Stamp Duty Land Tax

Pete Wishart: To ask the Secretary of State for Communities and Local Government what changes to projects funded by her Department have been made as a result of implementation of the Stamp Duty Land Tax (Exemption of Certain Acquisitions of Residential Property) Regulations 2008. [223362]

Caroline Flint: I refer the hon. Member to the answer given by the Economic Secretary to the Treasury today. (PQ 223363).

Water Supply

Mr. Heald: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 12 June 2008, *Official Report*, columns 392-3W, on water supply, what the evidential basis is for the establishment of *(a)* the benchmark in the Code for Sustainable Homes of 80 litres of water per person per day at Level 5 and *(b)* the proposed building regulation design performance standard of 125 litres per person per day; what estimate she has made of the number of homes expected to achieve each target by 2021; and if she will make a statement. [217141]

Mr. Iain Wright: Average water consumption levels, which provide the basis for the two efficiency levels, were developed from a series of studies by Government, the Environment Agency and Industry which indicated

a current UK average water consumption of 153 litres per person per day. The three levels set in the code of 120, 105 and 80 litres per person per day were developed after various scenarios were tested by the Building Research Establishment (BRE) to illustrate the levels which should be achievable using various different combinations of technologies and approaches. The calculation for the scenarios is based upon usage assumptions within the Code Water Calculator, developed by the Water Research Council (WRC). The exemplary Code level 5/6 standard is demanding and requires significant change to specifications of fixtures and fittings.

The basis for the establishment of the 125 litres per person per day standard was the consultation undertaken by the Government in 2007 on water efficiency in new dwellings. Respondents strongly supported the introduction of a whole building performance standard within Building Regulations, which would allow flexibility in the choice of appliances, while still reducing water consumption. The 125 litres standard, which will be introduced through an amendment to Part G of the building regulation (Water Efficiency) in 2009, is in line with the Code Level 1/2 (120 litres per head per day) and uses a simplified version of the Code Water Calculator but includes a small allowance (five litres) for external water use.

Building to the Code for Sustainable Homes is not mandatory and the Government have made no assessment of the likely water efficiency levels of homes in 2021 as a result of its use. All new homes will need to meet the Part G water efficiency standard following its coming into force in 2009, subject to the relevant transitional arrangements.

TRANSPORT

Airports

Mark Pritchard: To ask the Secretary of State for Transport if she will meet representatives of airline operators to discuss the likely effects of airport ownership by airline operators. [223115]

Jim Fitzpatrick: The Secretary of State meets regularly with aviation industry representatives to discuss a range of issues.

The Competition Commission is currently undertaking an independent inquiry into the provision of airport services by BAA in the UK. This inquiry, due to conclude no later than March 2009, will consider airport ownership among other issues. The Secretary of State and I look forward to seeing its final conclusions in due course.

Airports: Luggage

Mrs. Villiers: To ask the Secretary of State for Transport (1) which UK airports restrict passengers to one item of carry-on baggage; [218844]

(2) which UK airports will not scan more than one item of carry-on baggage per passenger. [218845]

Jim Fitzpatrick: In November 2007, the Secretary of State announced that the Department for Transport would consider lifting the one-bag restriction from 7 January 2008 at UK airports where they were able to demonstrate to our satisfaction their ability to maintain security standards in the absence of the Government imposed restriction.

At present there are only two airports—Luton and Liverpool John Lennon—where the Department has to date been unable to grant permission to lift the restriction. Officials are working closely with those airports with a view to being in a position to lift the restriction soon. Where the restriction has been lifted airports and their airlines may however continue to apply their own commercial policies on the number of bags that may be permitted.

Aviation: Flight Cancellation

Mr. Weir: To ask the Secretary of State for Transport (1) how many flight cancellations there have been by airlines in respect of departures from UK airports in the last 12 months, broken down by *(a)* airline and *(b)* airport of departure; and what percentage of all such flights these figures represent; [223132]

(2) how many flight cancellations by each airline there were at each airport in Scotland between 1 January and 30 June 2008. [223133]

Jim Fitzpatrick: The Department does not hold this information.

Mr. Weir: To ask the Secretary of State for Transport how many complaints her Department has received regarding non-compliance with regulations on compensation to passengers for delayed or cancelled flights since 17 February 2005. [223136]

Jim Fitzpatrick: The Air Transport Users Council (AUC) has been designated as the complaints handling body for the UK under EC regulation 261/2004 on compensation and assistance to air passengers in the event of denied boarding, cancellation or long delays (EC 261/2004).

From 17 February 2005 until 31 August 2008, the AUC dealt with 11,920 written complaints and 7,508 phone inquiries in relation to this regulation. A written complaint or phone inquiry does not necessarily mean that the regulation has not been complied with.

Further details of AUC's activity in this area is in their annual reports, available through the following website:

http://www.caa.co.uk/default.aspx?catid=306&pagetype=90&pageid=917.

Aviation: Data Protection

Mr. Spellar: To ask the Secretary of State for Transport what arrangements her Department has put in place to monitor the purposes to which end users apply data provided by the UK on airline passengers travelling to the US. [220193]

Mr. Wills: I have been asked to reply.

In accordance with paragraph 4 of the agreement between the European Union and the United States of America on the processing and transfer of passenger name record (PNR) data by air carriers to the United States Department for Homeland Security (DHS), the Department for Homeland Security and the EU will periodically review the implementation of the agreement with a view to mutually assuring the effective operation and privacy protection of their systems.

Bus Services: Fares

Mark Pritchard: To ask the Secretary of State for Transport if she will meet bus operators' representatives to discuss return fare ticketing. [223114]

Ms Rosie Winterton: Since deregulation of the bus industry in the 1980s, the majority of services outside London are provided on a commercial basis by private operators. As such, decisions such as the ticketing options available to passengers and the level of fares charged are mainly a matter for the commercial judgment of the operator concerned.

Cycling: Accidents

Mr. Bone: To ask the Secretary of State for Transport how many children were *(a)* killed, *(b)* seriously injured and *(c)* non-seriously injured while riding a bicycle in each of the last five years. [223155]

Jim Fitzpatrick: The number of child pedal cyclist (aged 0-15) casualties reported in personal injury road accidents in Great Britain between 2003 and 2007 are given in the table:

Number of child pedal cyclist (aged 0-15) casualties: 2003-07

Number of casualties

Severity of casualty	*2003*	*2004*	*2005*	*2006*	*2007*
Killed	18	25	20	31	13
Serious	577	552	507	472	509
Slight	4,174	4,105	3,759	3,262	3,111
Total	4,769	4,682	4,286	3,765	3,633

Cycling: Safety Measures

Mr. Bone: To ask the Secretary of State for Transport what steps her Department is taking to promote the wearing of helmets by children whilst cycling; and if she will make a statement. [223156]

Jim Fitzpatrick: Our road safety communications aimed at adults and children are taken forward through the THINK! road safety campaign. Our approach is informed by research evidence and casualty statistics, which have led us to focus the majority of our communications activity aimed at children on pedestrian safety.

This has been delivered primarily through our "Hedgehogs" campaign (see—www.hedgehogs.gov.uk) and "Arrive Alive" (a Highway Code for young road users).

Our most recent cycling helmet promotion has been with the music channel MTV where we launched an innovative "Ad Idol" competition focusing specifically on road safety. Here, we ran a competition to engage teenagers giving them the opportunity to create road safety adverts. The winning advert was aired on MTV channels to help build wider awareness of cycling safety.

Currently we are developing a series of on-line films for a site called Videojug to provide best practice advice for parents on how to keep their children safe on the road, including a film about safety safe cycling which advises the wearing of cycling helmets. These films are due to appear in September and October 2008.

We shall continue to review our approaches going forward. Our aim is to continue to innovate and engage with children.

Mr. Bone: To ask the Secretary of State for Transport if she will support the Helmet Watch Initiative. [223157]

Jim Fitzpatrick: We are happy to support initiatives such as Helmet Watch which aim to increase cycle helmet wearing by children. I wrote to Angela Lee, Chief Executive of the Bicycle Helmet Initiative Trust, on 12 August, to advise her accordingly.

Mr. Bone: To ask the Secretary of State for Transport what discussions she has had with the Secretary of State for Children, Schools and Families on children wearing helmets when cycling to school; and if she will make a statement. [223158]

Jim Fitzpatrick: The Secretary of State for Transport discussed a number of child road safety matters with the Secretary of State for Children, Schools and Families late last year, but not specifically wearing helmets while cycling to school.

Mr. Bone: To ask the Secretary of State for Transport what progress her Department has made in its review of the wearing of cycle helmets by children; and if she will make a statement. [223159]

Jim Fitzpatrick: The Department has developed a new research project looking at a range of road safety and cycling issues. This will examine the following topics:

- Road user safety and cycling data
- Cycling infrastructure
- Attitudes and behaviours
- Bicycle helmets

The project has been commissioned from a consortium led by TRL.

The contract began on 21 August 2008 and will run for 24 months. Interim reports are due in March 2009 and the Department expects to publish the final reports in autumn 2010.

Mr. Morley: To ask the Secretary of State for Transport whether cyclists are required by her Department to have a bell or audible warning on their bicycles. [223347]

Jim Fitzpatrick: Bells are currently required to be fitted at the point of sale of a bicycle, but there is no legal obligation to retain the bell when the cycle is in use. However, Rule 66 of the Highway Code recommends the fitting and use of cycle bells.

DVLA: Databases

Jon Trickett: To ask the Secretary of State for Transport what procedure is undertaken by the Driver and Vehicle Licensing Agency to record each document received when multiple documents are received in a single envelope. [223273]

Jim Fitzpatrick: There is no single procedure that can be applied to all the variations of the contents of envelopes that DVLA receives. The common thread through all is that the letter, application or supporting document is sent to the right person to deal with it as quickly as possible. There are also stringent procedures in place to ensure that sensitive identity documents are returned securely to the applicant.

Mrs. Villiers: To ask the Secretary of State for Transport what estimate she has made of the proportion of records on the Driver and Vehicle Licensing Agency's road vehicle database which were accurate in each of the last five years. [223309]

Jim Fitzpatrick: DVLA records have been calculated as having the following levels of accuracy in the last five years:

	Percentage
2003-04	90
2004-05	92
2005-06	97.4
2006-07	97.5
2007-08	96.9

The improving accuracy of the database is the result of DVLA continuing to improve its systems and make them easier for the public to use, while also tackling non-compliance.

DVLA: Personal Records

Jon Trickett: To ask the Secretary of State for Transport how many instances have been reported of customers' paperwork being lost by the Driver and Vehicle Licensing Agency (DVLA) in each of the last five years; and how many complaints have been made to the DVLA about fines being imposed following such losses. [223274]

Jim Fitzpatrick: The information is not held in the form requested for the entire period. However, following the introduction of an improved complaints monitoring database, it is possible to provide the number of complaints received regarding fines being imposed as a result of the alleged loss/non-receipt of customer paperwork for the period July 2007 to September 2008. During this period a total of 820 complaints were received concerning customers paperwork, of which 568 resulted in a fine being imposed. This number of cases represents 0.0015 per cent. of the total paperwork handled by the DVLA during the period. The DVLA continues to investigate ways of improving the service it provides to its customers.

East London Line

Martin Linton: To ask the Secretary of State for Transport what recent discussions she has had with the Mayor of London on the completion of Phase 2 of the East London Line extension. [223416]

Ms Rosie Winterton: The Secretary of State meets regularly with the Mayor of London. Recent discussions have included an undertaking that any genuine savings to the Department that were generated by the East London Line extension would be made available to Transport for London (TfL) to offset its costs. It is now for the Mayor and TfL to decide whether the scheme is a sufficient priority to proceed.

Heathrow Airport: Public Participation

Mrs. Villiers: To ask the Secretary of State for Transport if she will make it her policy to publish all the responses to the consultation Adding Capacity at Heathrow Airport at the same time as the Government's official response. [223307]

Jim Fitzpatrick: When decisions are announced on the future of Heathrow we will publish a summary of the consultation responses and place a copy in the Library. All responses will also be made available for inspection at the same time unless confidentially has been specifically requested.

Heavy Goods Vehicles

Dr. Ladyman: To ask the Secretary of State for Transport how many weigh in motion sensors have been deployed; and what plans there are for further deployments. [223386]

Jim Fitzpatrick: The Vehicle and Operator Services Agency (VOSA) currently has four sites where weigh in motion sensors (WIMS) have been deployed. There are currently a further five sites in the process of having WIMS installed. In addition to this VOSA is currently planning another further site.

M25: Lighting

Mr. Peter Ainsworth: To ask the Secretary of State for Transport what assessment she has made of the effects of overhead lighting on road safety on the M25; and if she will make a statement. [223424]

Ms Rosie Winterton: When the M25 was originally constructed each section was assessed in accordance with the policy at that time and overhead lighting was implemented where it could be demonstrated to offer a cost effective safety feature.

As sections of M25 are widened an assessment is made in accordance with current Highways Agency standards. New lighting may be installed if the detailed analysis indicates a high number of night time accidents. Current Agency standards assume that the introduction of overhead lighting should result in a reduction of night time accidents in the order of 10 per cent. A recent example of the installation of lighting is the widening of the M25 between junctions 1b and 3 which followed the assessment process in the standard at that time. Other recent assessments have been carried out for the proposed widening schemes on the M25 16-23 and 27-30.

Audits are carried out 12 months after the installation of lighting and again after 36 months to review accident data and compare them against the data that supported the introduction of the scheme.

Motor Vehicles: Licensing

Jon Trickett: To ask the Secretary of State for Transport how many people were issued penalties due to the Driver and Vehicle Licensing Agency not receiving a vehicle disposal notice in the last 12 months. [223272]

Jim Fitzpatrick: Driver and Vehicle Licensing Agency issued 49,952 penalties to people who did not notify vehicle disposal in the last 12 months.

Jon Trickett: To ask the Secretary of State for Transport what the average cost of issuing a notification to individuals when the Driver and Vehicle Licensing Agency had not received a disposal notice was in the last five years. [223275]

Jim Fitzpatrick: The information is not held in the form requested.

Jon Trickett: To ask the Secretary of State for Transport how many recorded instances there have been of individuals not receiving an acknowledgement letter in regards to a vehicle disposal notification when the Driver and Vehicle Licensing Agency has received the notification in each of the last five years. [223276]

Jim Fitzpatrick: The information is not held in the form requested.

Olympic Games 2012: Transport

Mrs. Villiers: To ask the Secretary of State for Transport when she plans to publish her Department's further work on the Government's proposals regarding the challenges to be addressed in the 2012 transport plan. [223306]

Ms Rosie Winterton: I refer the hon. Member to the written ministerial statement that was laid before this House on 1 July 2008, *Official Report*, column 50WS.

Parking: Disabled

Justine Greening: To ask the Secretary of State for Transport how many people had a Blue Badge disabled driver's permit in each year from 2002. [223094]

Ms Rosie Winterton: The number of Blue Badges on issue in England, to the nearest 1,000, in the years from 2002 were as follows:

	Number
2002	2,019,000
2003	2,030,000
2004	2,054,000
2005	2,092,000
2006	2,224,000
2007	2,318,000

Public Transport: Access

Pete Wishart: To ask the Secretary of State for Transport what steps she is taking on access to public transport for parents and carers of infants and young children in prams; and if she will make a statement. [223137]

Ms Rosie Winterton: Many parents and carers with infants or young children now find it much easier to use public transport. This is largely due to the accessibility improvements introduced by the Department to help people with disabilities.

The introduction, for example, of the new generation of low floor buses has improved access not only to wheelchair users, but also to people with other mobility difficulties, people with small children in buggies, and people carrying heavy shopping or luggage.

However, the provision of public transport—in particular local bus services—is a matter for commercial bus operators and local authorities. Commercial operators have the freedom to decide on their operational systems and practices. For commercial operators, addressing these and other concerns are key factors to their potential for increased patronage and revenue.

Roads: Stonehenge

Norman Baker: To ask the Secretary of State for Transport what steps she plans to take to ensure that roads around Stonehenge are both adequate to deal with the level of visitor traffic and appropriate for the special nature of the location. [223254]

Ms Rosie Winterton: The performance of roads around Stonehenge is being considered as part of the review of the World Heritage Site Management Plan and consideration of alternative options for new visitor facilities currently being carried out by English Heritage. A Public Consultation is currently underway which will help to inform our decisions on the way forward.

Rolling Stock

Norman Baker: To ask the Secretary of State for Transport what railway rolling stock was off-lease as of 15 July 2008. [223256]

Ms Rosie Winterton: The Department for Transport does not maintain records of off-lease vehicles as this is a matter for the Rolling Stock Companies. However, indications are that there is a very little usable rolling stock which is not either already on lease or due to come back on lease in the coming months.

Norman Baker: To ask the Secretary of State for Transport pursuant to the answer of 14 July 2008, *Official Report*, column 8W, on rolling stock, how many train operating companies have had discussions with her Department on the provision of additional rolling stock since 2005. [223257]

Ms Rosie Winterton: The Department for Transport has had discussions since 2005 with all train operating companies. Those discussions typically cover a wide range of issues and it is likely that all operators will have raised existing and proposed rolling stock provision on one or more occasions.

Mrs. Villiers: To ask the Secretary of State for Transport what plans she has to change her Department's role in rolling stock procurement; and if she will make a statement. [223308]

Ms Rosie Winterton: We expect that train operators will continue to take the lead in procuring new rolling stock in most cases. This includes the 1,300 new carriages promised in the rail White Paper.

Exceptions will be the Intercity Express and Thameslink programmes, both of which are major strategic projects which have necessitated the Department for Transport taking the lead. The industry, and train operators and Network Rail in particular, will nevertheless continue to be closely involved.

Sea Rescue: Hope Cove

Mr. Steen: To ask the Secretary of State for Transport what the reasons were for refusing permission for the Hope Cove inshore lifeboat to launch in response to the recent incident which involved two teenagers in difficulty in the sea. [223444]

Jim Fitzpatrick: The decision to remove the Maritime and Coastguard Agency's (MCA) general purpose boat at Hope Cove from the water was taken before the incident in question and was made on the strength of the information collated from recent surveys of the boat, which highlighted concerns about the state of its hull and interior space. At the time of the incident concerned, the crew of the MCA's Hope Cove general purpose boat crew took the decision to launch the boat, before they had managed to establish contact with Brixham Coastguard.

Mr. Steen: To ask the Secretary of State for Transport how many people have been assisted by the Hope Cove inshore lifeboat since 2000; how many boats have been towed by the lifeboat in that period; how many animals have been rescued by the lifeboat in that period; and how many times the boat has been launched in that period. [223445]

Jim Fitzpatrick: The incident data involving the Hope Cove general purpose boat from 2004 to present day is detailed as follows:

	People rescued	*People assisted*	*Boats towed*	*Animals rescued*	*Total callouts*
2004	2	5	2	2	5
2005	2	8	1	0	8
2006	0	1	0	0	7
2007	2	3	2	0	6
2008	0	1	0	0	2

The MCA changed the basis on which it collects incident information in 2004, when work began on setting up a more robust statistical database. Officials are currently interrogating the older data sets from a pre-2004 database and I will write to the hon. Member with this further information as soon as it is available.

Mr. Steen: To ask the Secretary of State for Transport what recent discussions she has had with the Chief Coastguard and the Maritime and Coastguard Agency on the *(a)* role and *(b)* operational area of the Hope Cove inshore lifeboat. [223446]

Jim Fitzpatrick: Ministers have regular discussions with the chief executive and other senior managers from the MCA about all aspects of the Agency's business.

Mr. Steen: To ask the Secretary of State for Transport what the responsibilities and duties of the Hope Cove inshore lifeboat were until 2007; what they are now; and for what reasons they have been changed. [223447]

Jim Fitzpatrick: The MCA's Hope Cove general purpose boat was introduced in 1993 to provide a search and rescue asset covering Hope Cove and neighbouring Bigbury Bay areas. The role of the boat was to support first line assets in a waterborne rescue capacity. However, since the Salcombe RNLI lifeboat was installed in 2003, that role has changed. The Salcombe lifeboat operates extensively in the Hope Cove and Bigbury Bay areas and the need for the Hope Cove boat to fulfil a rescue support role has subsequently diminished. This is especially true now that the RNLI have upgraded their boat at Bantham to carry out rescues in the Hope Cove area. The Bantham boat is capable of reaching Hope Cove in less time (under six minutes) than the MCA's general purpose boat.

NORTHERN IRELAND

Departmental Appeals

Andrew Mackinlay: To ask the Secretary of State for Northern Ireland on how many occasions his Department has instructed the Treasury Solicitor to seek leave to appeal to the House of Lords from *(a)* the Court of Appeal and *(b)* the House of Lords itself in each of the last 10 years; and on how many occasions the application was rejected. [220823]

Paul Goggins: The information is not held centrally and could be provided only at disproportionate cost.

Departmental Buildings

Mr. Hoban: To ask the Secretary of State for Northern Ireland which organisations have received *(a)* free and *(b)* discounted room hire from (i) his Department and (ii) its agencies in each of the last five years; and what the commercial value of the discount was in each case. [221587]

Mr. Woodward: The information requested is not held and could be provided only at disproportionate cost.

Departmental Computers

Mr. Peter Ainsworth: To ask the Secretary of State for Northern Ireland what estimate he has made of *(a)* the number of computer devices left on overnight in his Department when not in use and *(b)* the cost of leaving computer devices on overnight when not in use in each of the last five years; and if he will make a statement. [217874]

Paul Goggins: All Northern Ireland Office staff have been issued with guidance on shutdown procedures for personal computers when they are not in use. From figures that are held we estimate that an average of 280 are left on at night. The cost analysis requested has not been completed. This work is, however, within the scope

of the green issues which will be incorporated in the ICT strategy update and green IT action plan to follow in September.

Departmental Overtime

Mr. Hoban: To ask the Secretary of State for Northern Ireland what the cost of overtime payments paid to staff in his Department was in each of the last 12 months, broken down by pay grade. [221287]

Paul Goggins: The following table shows the amount of overtime incurred by the Northern Ireland Office, excluding its Agencies and Executive NDPBs, in 2007-08, which is the latest audit approved 12 month period:

£

	Senior Management	*Middle Management*	*Executive Grades*	*Administrative/ Support Grades*
2007				
April	995	1,828	5,250	5,224
May	857	8,476	15,642	26,669
June	1,166	8,141	11,688	27,380
July	1,395	8,378	20,068	25,684
August	2,651	9,794	16,138	32,707
September	1,545	8,130	11,892	19,915
October	1,003	9,239	16,625	30,843
November	1,685	7,263	18,049	23,248
December	803	6,797	14,382	23,388
2008				
January	769	8,652	15,995	33,507
February	2,530	8,080	18,837	22,767
March	2,353	18,444	40,899	52,154
Total	17,752	103,222	205,465	323,486

Departmental Paper

David Simpson: To ask the Secretary of State for Northern Ireland what percentage of paper used *(a)* for photocopying and *(b)* in printed publications by his Department was from recycled sources in each of the last two years. [220730]

Mr. Woodward: This information is not recorded and therefore could be provided only at disproportionate cost.

The Northern Ireland Office policy is to use paper for photocopying, printing and publications which is derived from at least 70 per cent. post-consumer waste. Currently we purchase office paper for printing and photocopying that is derived from 100 per cent. post-consumer waste, in line with the mandatory 'Buy Sustainable—Quick Wins' minimum environmental product standards developed by DEFRA.

Departmental Pay

Mr. Philip Hammond: To ask the Secretary of State for Northern Ireland how much was claimed in reimbursable expenses by press officers in his Department in each of the last three financial years. [221188]

Paul Goggins: The following table shows the total reimbursable expenses paid to press officers in the Northern Ireland Office in the last three financial years:

	Amount paid (£)
2005-06	8,606
2006-07	9,515
2007-08	6,105

Departmental Postal Services

Mr. Hoban: To ask the Secretary of State for Northern Ireland what steps his Department has taken to monitor the cost of its mail services in the last 12 months. [221487]

Paul Goggins: The Northern Ireland Office uses both internal and external (predominantly Royal Mail) services to distribute mail. The internal mail distribution service is structured to deliver protectively marked material in an appropriate manner and, while costs are largely fixed, they represent good value for money.

Departmental Procurement

David Simpson: To ask the Secretary of State for Northern Ireland what his Department's policy is on requesting discounts from its suppliers in return for swift payment of invoices. [220428]

Mr. Woodward: The Northern Ireland Office's policy is that all suppliers should be paid within 30 days of receipt of a valid, undisputed invoice, as specified in the Department's model terms and conditions of contract or as agreed by both parties at the outset of each contract. The Department is also bound by the 'Late Payment of Commercial Debts Act'.

The Northern Ireland Office does not request discounts for early payment as part of the procurement process, however, if individual suppliers offer discounts for early payment, the Department will ensure that the discounted invoices are paid within the required timeframe if this offers value for money.

Departmental Public Participation

Mr. Hoban: To ask the Secretary of State for Northern Ireland what *(a)* reviews and *(b)* public consultations have been initiated by his Department since 27 June 2007. [221367]

Mr. Woodward: The following reviews and public consultations have been initiated by my Department since 27 June 2007:

Reviews

Review into Data Security Procedures in Public Inquiries

Public consultations

Proposed Draft Criminal Damage (Compensation) (Amendment) (Northern Ireland) Order 2008;

Test Purchase of Alcohol: Equality Impact Assessment and Guideline Principles;

Proposed Northern Ireland Criminal Injuries Compensation Scheme 2009;

Improving Administration of Elections to the Northern Ireland Assembly;

Anonymous Registration: Protecting Voters at Risk in Northern Ireland;

Mentally Disordered Offenders Victim Information Scheme;

Search Code of Practice issued under POCA 2002;

Investigation Code of Practice issued under POCA 2002;

Proposed Draft Criminal Justice (NI) Order 2007;

Policy Discussion Paper on Alternatives to Prosecution;

Draft Guidance Establishing New Public Protection Arrangements in NI;

Draft Sexual Offences (NI) Order;

Modernising Police Powers—Your PACE, Your Say;

Government's Proposals for the Safety of Older People.

Departmental Responsibilities

Mr. Hoban: To ask the Secretary of State for Northern Ireland which projects his Department has commissioned from *(a)* think tanks and *(b)* charities in each of the last two years for which figures are available; what the aim of each project was; which think tank or charity was commissioned; and how much was paid. [221618]

Mr. Woodward: In each of the last two years the Northern Ireland Office did not commission any projects from think tanks. The following table indicates the projects which were commissioned from charities.

	Project	*Charity commissioned*	*Amount paid (£)*
2006-07	Handyvan scheme—to provide safety locks for older people in Belfast.	Help the Aged	39,996.00
	To provide education, counselling and support to adjudicated offenders.	NI Community Addiction Service (NICAS)	35,000.00
2007-08	Facilitation of consultation on the 'Government's Proposal for the Safety of Older People'.	Age Concern and Help the Aged	3,578.37

Offensive Weapons

David Simpson: To ask the Secretary of State for Northern Ireland how many people in Northern Ireland were charged with offences relating to knife crime in each of the last three years. [219862]

Paul Goggins: The Chief Constable has provided the following answer.

The number of people in Northern Ireland cleared by means of Charge or Summons in Northern Ireland with offences relating to knife[1] crime in each of the last three years is as follows:

	Cleared by means of charge/ summons[2]
2005-06	321
2006-/07[3]	330
2007-/08[4]	397

[1] The figures relate to crimes where a knife was involved in the incident; the system does not record the detail of how the knife was used.

[2] It is not possible to disaggregate the figures between charged and summons

[3] It is not possible to compare figures year on year, as PSNI adopted a higher evidential standard in respect of non-sanction clearances (those where no further action is taken by the police, mainly due to the victim not wanting formal action taken by the police or due to no prosecution being directed) in April 2006, with farther changes made to the definition of "clearance "from 1 April 2007.

[4] A new crime record system, NICHE, was introduced on 1 April 2007. Under the old system, ISIS, the Modus Operandi would have been recorded as 'knife', with NICHE the MO would show 'instrument - knife/bladed'. Furthermore, within the new recording system, the instrument used is linked to an occurrence which may contain one or more crimes. This may lead to some inflation of offence levels from the NICHE system.

David Simpson: To ask the Secretary of State for Northern Ireland how many offences were committed in each police command unit in Northern Ireland in which a knife was employed by the perpetrator in each of the last three years. [219863]

Paul Goggins: The Chief Constable has provided the following answer:

The following table details the number of offences committed in each police command unit in Northern Ireland in which a knife was employed by the perpetrator in each of the last three years:

	2005-06	*2006-07*	*2007-08*
Antrim	31	16	35
Ards	39	24	41
Armagh	17	13	20
Banbridge	8	8	14
East Belfast	38	49	50
North Belfast	173	127	122
South Belfast	112	122	61
West Belfast	112	75	69
Ballymena	43	41	47
Ballymoney	5	8	2
Carrickfergus	13	8	34
Coleraine	56	38	46
Cookstown	2	4	9
Craigavon	61	48	90
Castlereagh	27	20	11
Dungannon and South Tyrone	10	3	18
Down	27	30	18
Fermanagh	22	15	23
Foyle	68	63	70
Lame	14	16	17
Limavady	22	12	45
Lisburn	29	23	53
Magherafelt	1	4	9
Moyle	5	3	2
Newtownabbey	67	55	88
North Down	43	50	20
Newry and Mourne	58	63	21
Omagh	19	21	11

	2005-06	2006-07	2007-08
Strabane	8	9	15
Total	1130	968	1061

The figures relate to crimes where a knife was involved in the incident; the system does not record the detail of how the knife was used.

A new crime record system, NICHE, was introduced on 1 April 2007. Under the old system, ISIS, the Modus Operandi would have been recorded as 'knife', with NICHE the MO would show 'instrument-knife/bladed'. Furthermore, within the new recording system, the instrument used is linked to an occurrence which may contain one or more crimes. This may lead to some inflation of offence levels from the NICHE system.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many knife crimes were recorded in Northern Ireland in *(a)* April 2007, *(b)* May 2007, *(c)* June 2007, *(d)* April 2008, *(e)* May 2008 and *(f)* June 2008. [220157]

Paul Goggins: The Chief Constable has provided the following answer:

The following table details the number of knife crimes that were recorded by the Police Service of Northern Ireland in April, May and June 2007 and April, May and June 2008:

	2007	2008
April	67	83
May	110	62
June	63	98
Total	240	243

The figures relate to crimes where a knife was involved in the incident; the system does not record the detail of how the knife was used.

Offensive Weapons: Detection Rates

David Simpson: To ask the Secretary of State for Northern Ireland what the police clear-up rate for knife crime in Northern Ireland was in each command unit in the last 12 months. [219859]

Paul Goggins: The Chief Constable has provided the following answer:

Clearance rates for recorded crimes where a knife was involved in an incident in Northern Ireland in each command unit from 1 July 2007 to 301 June 2008 is shown in the following table.

	Clearance rate (percentage)
Antrim	47.4
Ards	40.5
Armagh	59.1
Banbridge	40.0
East Belfast	38.6
North Belfast	43.4
South Belfast	33.3
West Belfast	29.2
Ballymena	58.3
Ballymoney	0.0
Carrickfergus	50.0
Coleraine	53.8
Cookstown	57.1
Craigavon	38.8
Castlereagh	100.0
Dungannon and South Tyrone	83.3
Down	44.4
Fermanagh	52.0
Foyle	34.8
Lame	26.7
Limavady	20.8
Lisburn	37.2
Magherafelt	71.4
Moyle	0.0
Newtownabbey	38.0
North Down	66.7
Newry And Mourne	50.0
Omagh	21.4
Strabane	46.7
Total	42.1

Note:
The figures relate to crimes where a knife was involved in the incident; the system does not record the detail of how the knife was used.

Police Service of Northern Ireland: Manpower

David Simpson: To ask the Secretary of State for Northern Ireland what the average number of police officers was in each district command unit in Northern Ireland in each of the last two years. [213604]

Paul Goggins: It is not possible to provide the figures for the last two years as the new District structure only commenced on 1 April 2007. The following table provides average actual police strengths for each District Command Unit for financial year 2007-08:

District	Regular	Full-time reserve	Part-time reserve
A District	543.5	87.25	52.25
B District	567.25	58.75	146.75
C District	548.38	55.75	134
D District	625	71.75	195
E District	629.5	106	89.5
F District	495.5	46	44.25
G District	544.56	67.25	63.75
H District	486.75	32.75	115.25

Theft: Metals

Lady Hermon: To ask the Secretary of State for Northern Ireland how many incidences of theft of metals were recorded in each Police Service of Northern Ireland District Command Unit area in each of the last 12 months; how many successful prosecutions have been brought as a result; and what penalty was imposed in each case. [220389]

Paul Goggins: The Chief Constable has provided the following answer:

The number of incidences of theft of metals which have been recorded in each of the PSNI district command unit areas for the period July 2007 to June 2008 is shown in the following table:

	2007					
	July	*August*	*September*	*October*	*November*	*December*
Antrim	0	1	1	1	0	0
Ards	0	0	0	0	0	0
Armagh	3	0	1	1	1	0
Banbridge	0	0	0	0	0	0
East Belfast	0	1	0	0	0	0
North Belfast	0	0	1	3	0	1
South Belfast	0	0	0	0	0	1
West Belfast	0	0	1	0	0	1
Ballymena	2	0	0	2	1	2
Ballymoney	0	0	0	0	0	0
Carrickfergus	1	0	2	0	0	0
Coleraine	0	0	0	0	0	1
Cookstown	1	0	0	0	0	0
Craigavon	1	0	0	1	1	0
Castlereagh	0	0	0	0	0	0
Dungannon and South Tyrone	2	0	1	2	0	0
Down	0	2	0	0	1	0
Fermanagh	1	5	2	9	9	10
Foyle	0	0	0	0	0	0

Total	18	25	35	25	25	55	280

Notes:
1. Metals include aluminium, brass, copper, ferrous, lead non-ferrous and scrap.
2. As there is not a specific offence of theft of a metal, it is not possible to provide an answer to the other parts of this question

Written Answers to Questions

The following answers were received between Wednesday 10 September and Friday 12 September 2008

DUCHY OF LANCASTER

Working Conditions

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster further to page 52 of the Cabinet Office Annual Report 2007-08, how many new reflection rooms have been established in *(a)* Downing Street and *(b)* the Cabinet Office in the last 24 months; and whether strategies to reduce workplace stress in these locations have been put in place. [223372]

Edward Miliband: The Prime Minister's Office forms an integral part of the Cabinet Office. The Cabinet Office is committed to the health and well-being of its staff, and has policies and support in place to manage and reduce workplace stress.

Within the last 24 months one multi-faith and reflection room has been established in the Cabinet Office building on Great Smith street to support our continuing efforts to introduce accommodation and working practices better-suited to the needs of a diverse work force.

CULTURE, MEDIA AND SPORT

Camelot: Cost Effectiveness

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much additional income he expects *(a)* UK Sport and *(b)* each of the other national lottery distributors to receive as a result of cost savings identified by Camelot. [223384]

Andy Burnham: Camelot, as lottery operator, always seeks efficiency and to maximise returns to good causes. However no specific exercise of this kind has been carried out by the operator. The National Lottery Commission has indicated that under the third licence recently awarded to Camelot, which will run from 2009, returns to good causes are likely to increase by between £600 million and £1 billion over the 10-year period of the licence, based on constant levels of sales at £5 billion per annum and comparing the third licence increase with the terms applicable to the remainder of the second licence.

Digital Broadcasting: Borders Region

Mr. Moore: To ask the Secretary of State for Culture, Media and Sport how much has been made available by Digital UK to the digital outreach scheme in the Scottish Borders area; and if he will make a statement. [223268]

Andy Burnham: This is a matter for Digital UK as the independent operator of the outreach scheme. Accordingly, I have asked the Chief Executive of Digital UK to reply directly to the hon. Member. Copies of the Chief Executive's letter will be placed in the Libraries of both Houses.

Digital Switchover Help Scheme: Borders Region

Mr. Moore: To ask the Secretary of State for Culture, Media and Sport how many people are eligible for assistance under the Digital Switchover Help Scheme in the area covered by the Selkirk television transmitter and its related relays on the grounds that they are *(a)* over 75 years, *(b)* in receipt of (i) disability living allowance, (ii) attendance allowance and (iii) constant attendance allowance and *(c)* registered blind or partially sighted; what the overall percentage take-up of eligible people is to date; and how many have opted for (A) the default option of Sky, (B) a Freeview digital box, (C) a Freeview playback digital television recorder, (D) a new television with digital built-in, (E) Freesat and (F) Top Up TV. [223267]

Andy Burnham: The Department for Work and Pensions has so far identified 17,692 people in the Selkirk transmitter area who are eligible for assistance under the Digital Switchover Help Scheme, 11,747 of whom are aged 75 or over. The remainder are eligible because they are in receipt of disability living allowance, attendance allowance, constant attendance allowance or mobility supplement, but a breakdown of numbers in receipt of each allowance is not available as this information is not needed for the purposes of the scheme. A further 233 people in the Scottish Borders local authority area (which broadly covers the Selkirk transmitter area) are eligible by virtue of being registered blind or partially sighted.

The Digital Switchover Help Scheme advise that the overall take-up of eligible people to date is 8.6 per cent. By the beginning of September, the scheme had received responses from about a quarter of those people who have received an application pack. About half of those eligible had opted to receive help and about half responded to opt out. Of those who have opted in (i.e. said they want help) 1,150 have made a choice and 375 have yet to choose. Of those who have made a choice:

About 60 per cent. have chosen the standard offer of a Sky satellite system, about 33 per cent. have chosen to have a simple Freeview digital box, and the remainder have chosen from a Freeview digital television recorder, integrated television, Top Up enabled digital recorder or Freesat from BBC and ITV.

It should be noted that this is early in the Help Scheme campaign, with two months still to go to switchover in Selkirk and some consumers yet to make up their minds, so the final picture will change.

Fast Track

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much his Department has paid to Fast Track for services related to the raising of £100 million in private sector sponsorship for elite sport; on what date a contract with Fast Track was signed; what the terms of the contract are; and what changes have been made to his Department's arrangements with Fast Track following the decision to reduce the target for private sector support for elite sport to £79 million. [223383]

Andy Burnham: The Department appointed Fast Track Sales Ltd. on 21 July 2008 to advise on ways to raise funds from the private sector to support the preparation of Britain's elite sporting talent. The Department has made no payment to Fast Track who are working on a commission only basis. The release of further information relating to the terms of the contract at this time would prejudice commercial interests. No changes have been made to this agreement in light of recent announcements.

Heritage Lottery Fund: Miners' Institutes

Mr. Touhig: To ask the Secretary of State for Culture, Media and Sport how many former miners' institutes applied for Heritage Lottery Fund grants in each year since 1997; and what percentage of such applications were successful in each of those years. [223324]

Andy Burnham: Information provided by the Heritage Lottery Fund regarding its awards made to miners' institutes, welfare clubs, social clubs and lodges is set out in the following table.

	Number of applications	*Value of awards (£)*	*Number successful*	*Number rejected*	*Success rate (percentage)*
1997-98	0	0	0	0	0
1998-99	1	0	0	1	0
1999-2000	0	0	0	0	0
2000-01	2	10,426	2	0	100
2001-02	0	0	0	0	0
2002-03	2	0	0	2	0
2003-04	1	17,200	1	0	100
2004-05	0	0	0	0	0
2005-06	2	4,300	1	1	50
2006-07	2	150,000	1	1	50
2007-08	2	0	0	2	0
2008-09	1	0	1	0	100

Since its creation, the Heritage Lottery Fund has awarded more than £87 million to over 300 projects related to the heritage of mining and miners.

Historic Buildings

Mr. Touhig: To ask the Secretary of State for Culture, Media and Sport what funding his Department provides for the upkeep of buildings relating to 20th century industrial heritage. [223320]

Andy Burnham: Funding for the upkeep of historic buildings in England is provided by English Heritage. English Heritage operates a number of grant schemes that can provide funding for the repair of buildings related to 20th century industrial heritage where such sites are scheduled monuments, or buildings listed at Grade I or II*, or situated in conservation areas or London boroughs.

Mr. Touhig: To ask the Secretary of State for Culture, Media and Sport what steps his Department is taking to improve and preserve buildings relating to working-class history. [223323]

Andy Burnham: Through its role as the Government's statutory adviser on the historic environment, English Heritage has recommended for listing many buildings associated with working-class life and work. English Heritage's grant schemes have ensured futures for many buildings relating to working-class history.

Horse Racing: Bookmakers

Mr. Walter: To ask the Secretary of State for Culture, Media and Sport what meetings there have been between his Department and the Racecourse Association on racecourse bookmakers since December 2007; and if he will place a copy of the minutes of each such meeting in the Library. [223408]

Andy Burnham: The Existing Betting Areas Working Party, chaired by an independent Chairman, Sholto Douglas-Home and containing representatives from the Racecourse Association (RCA) and the Federation of Racecourse Bookmakers (FRB) met seven times on 14 January, 22 January, 5 February, 18 February, 27 February, 27 March and 18 April 2008. DCMS officials provided secretariat for these meetings.

On 30 April, the Department published a table containing a final position statement summarising the agreed positions of the FRB and RCA on all the key issues discussed during the Working Party meetings. I am placing further copies of this position statement in the House Library. It can also be viewed on the DCMS website at:

http://www.culture.gov.uk/images/publications/Existingbettingareasworkingpartyfinal.pdf

It is intended that the position statement will be used to guide individual discussions that are taking place between racecourses and on-course bookmakers. I, therefore, do not believe it is necessary to place the full Working Party minutes in the House Library.

Leisure: Blackpool

Mr. Marsden: To ask the Secretary of State for Culture, Media and Sport what funding his Department has provided for *(a)* swimming pools and *(b)* other leisure facilities in Blackpool since 2005. [223130]

Andy Burnham: The Department does not fund swimming pools or leisure facilities directly, which are primarily a matter for local authorities. Lottery funding

to promote and invest in community sport facilities is allocated via Sport England. Sport England has advised that their total investment in grassroots and community sport in the Blackpool local authority since 2005 is £387,410. The majority of this funding was for revenue projects, such as coaching, but it includes £68,695 which was spent on facilities or capital expenditure. None of this capital funding was spent on swimming pools.

National Lottery Promotions Unit: Finance

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what the running costs of the National Lottery Promotions Unit have been in each year since its establishment; and how much and what proportion of such costs were met by *(a)* the national lottery and *(b)* the Government in each such year. [223110]

Andy Burnham: The National Lottery Promotions Unit (NLPU) was established in 2003-04 to promote the National Lottery Good Causes. It is not a grant giver and it is not possible to disaggregate its running costs from campaign costs. The total funding received by NLPU in each year since establishment is as follows:

	Amount (£)
2003-04	389,720
2000-05	4,088,406
2005-06	3,061,866
2006-07	2,173,109
2007-08	2,719,622

Until the end of 2005-06, contributions in respect of the national lottery distributors met 50 per cent. of NLPU's costs. With effect from 2006-07, the contributions in respect of the national lottery distributors have met 66.66 per cent. of NLPU's costs. The remainder is funded by Camelot. The Government do not contribute financially to NLPU.

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much the *(a)* National Lottery Distribution Fund and *(b)* Olympic Lottery Distribution Fund has paid to the National Lottery Promotions Unit in each year since its establishment. [223111]

Andy Burnham: The National Lottery Distribution Fund and the Olympic Lottery Distribution Fund have not made any direct payments to the National Lottery Promotions Unit (NLPU). Under the terms of the licence to operate the national lottery, the NLPU receives a contribution to its funding on behalf of distributors by means of deductions from the operator's payments into the lottery distribution funds. The amounts received by the NLPU in respect of the distribution funds in each year were as follows:

	Amount (£)
2003-04	194,860
2004-05	2,044,203
2005-06	1,530,933
2006-07	1,448,594
2007-08	1,812,900

National Lottery: Historic Buildings

Mr. Touhig: To ask the Secretary of State for Culture, Media and Sport what criteria are used to assess applications for Lottery funding for renovations to historical buildings. [223321]

Andy Burnham: The Heritage Lottery Fund assesses all applications against its strategic aims. In addition, the Heritage Lottery Fund considers project planning and delivery, project costs and partnership funding, long-term viability and value for money.

Mr. Touhig: To ask the Secretary of State for Culture, Media and Sport how much Lottery funding was awarded to preserve historical buildings built *(a)* before 1900 and *(b)* after 1900 in the last 12 months. [223322]

Andy Burnham: The information is not held in the format requested and could be provided only at disproportionate cost.

Sports

Mrs. Riordan: To ask the Secretary of State for Culture, Media and Sport what steps his Department has taken to encourage people to undertake sporting activity for at least 30 minutes a day. [223097]

Andy Burnham: As part of our policy to create a world leading sporting nation, the Government want to engage a million more people in regular sport participation—a 30 minute session of sport three times a week—which represents a crucial plank of our legacy commitment to get 2 million people more active by 2012. On 10 June 2008, Sport England launched its new strategy which will create a world leading community sports system across England.

Departmental and lottery funding to promote and invest in community and grassroots sports is allocated via Sport England. Since the creation of the lottery over £2 billion has been invested by Sport England into community sport. In addition over the last six financial years (ending 2007-08) Sport England has also invested over £338 million exchequer funding directly into community sport.

Swimming Pools: Repairs and Maintenance

Lynne Jones: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the cost of works associated with providing all municipal swimming pools with a 30-year life. [223366]

Andy Burnham: I have made no assessment of the cost of works associated with providing all municipal swimming pools with a 30-year life. Decisions on the provision and maintenance of local leisure services, including pool facilities, are primarily for local authorities.

As part of the recent free swimming initiative, capital funding will be available to help modernise pool infrastructure in support of the free swimming offer. Sport England published a prospectus for bids for funding from financial year 2009-10 which includes further information and can be found at:

www.sportengland.org/index/get_funding/swimming_capital_modernisation_programme.htm

<http://www.sportengland.org/index/get_funding/swimming_capital_modernisation_programme.htm>.

VisitBritain: Finance

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the effect of the recent funding decisions and levels of staffing at VisitBritain on his Department's progress towards the target of creating a £100 billion tourism industry by 2010. [223478]

Andy Burnham: The funding decisions which affected VisitBritain following last year's comprehensive spending review were intended to better focus the Government's investment in areas which impact on inbound and domestic tourism. This included funding from my Department to ensure continued free entry to national museums.

Following those decisions, my Department commissioned an ambitious framework review of public sector tourism support from VisitBritain. That review will report shortly. In advance of the end of that process, VisitBritain has made its own decisions about its future levels of staffing, and is now in discussion with representatives of its work force with a view to implementing them.

My Department is confident that the results of the framework review will produce significant improvements in the service which VisitBritain and its public sector partners provide to the British tourism industry. These improvements will assist greatly in work towards the £100 billion target, and in making the most of the opportunities of the 2012 Olympic Games and Paralympic Games for tourism.

World Heritage Sites

Mrs. Riordan: To ask the Secretary of State for Culture, Media and Sport what plans he has to put forward sites to UNESCO for designation as world heritage sites. [223105]

Andy Burnham: The Government have announced their intention to nominate the following sites to UNESCO for World Heritage Site status for the next two years: Darwin at Downe in 2009, and the twin Monastery of Wearmouth and Jarrow in 2010.

PRIME MINISTER

Banks

Harry Cohen: To ask the Prime Minister what matters were discussed at his meeting with bank representatives in April 2008; what undertakings were made by *(a)* him and *(b)* the bank representatives at the meeting; what decisions were made at the meeting; and if he will make a statement. [223488]

The Prime Minister: As set out in the press briefing given by my spokesman on 14 April 2008, this meeting was a wide-ranging breakfast with representatives from the City, prior to my trip to Wall Street later that week. It focused on the issues surrounding global finance and the financial services sector. A transcript of this press briefing is available on the No. 10 website at:

http://www.number10.gov.uk/Page15265

and a copy has been placed in the Library of the House.

Departmental Internet

Mr. Hoban: To ask the Prime Minister how much the most recent redesign of the No. 10 website cost. [223563]

The Prime Minister: The No. 10 website has been updated to include more news content, videos and in-depth features. The costs associated with the redesign will be included in the overall running costs of the website. Figures for the financial year 2008-09 will be available when the Cabinet Office annual resource accounts have been audited.

JUSTICE

Departmental Data Protection

Mr. Grieve: To ask the Secretary of State for Justice how many private contractors have been granted access to personal data held by his Department in the last 12 months; and if he will make a statement. [223604]

Mr. Wills: The Ministry of Justice has identified 77 contracts with external organisations which involve the processing of personal data.

These contracts involve 52 different organisations (private companies and public and other organisations).

The Ministry of Justice expects that all personal information handled on its behalf is managed in accordance with the Cabinet Office's Final Report on Data Handling Procedures in Government, the Data Protection Act 1998 and the Government's Manual of Protective Security.

Departmental Responsibilities

Mr. Hoban: To ask the Secretary of State for Justice which projects his Department has commissioned from *(a)* think-tanks and *(b)* charities in each of the last two years for which figures are available; what the aim of each project was; which think-tank or charity was commissioned; and how much was paid. [221612]

Mr. Wills: The information requested has been placed in the Libraries of the House.

Elections

Mr. Maude: To ask the Secretary of State for Justice what his policy is on the Electoral Commission's recommendation that changes to electoral law and regulation should not be introduced or commenced within the six months prior to an election. [223621]

Mr. Wills: The Electoral Commission's report "Electoral administration in the United Kingdom", published in August 2008, said (paragraph 6.34):

"Both the UK and Scottish governments should ensure that changes to legislation that has an impact on the administration of elections are not applied to any election or electoral registration event held within six months of the new provision coming into force, other than in limited circumstances in which changes may be beneficial, including instances where electors' interests are clearly at issue or where minor technical amendments are required."

This recommendation supports that made by Sir Ron Gould following his examination of the administration of the 2007 Scottish Parliament and local elections. The Government agree with the principle that legislation affecting the administration of elections should be in force in good time, but recognise the Commission's suggestion that there may be instances where legislation supporting the administration of elections may be necessary within the months preceding a poll.

Electoral Administration in the United Kingdom

Simon Hughes: To ask the Secretary of State for Justice what assessment he has made of the Electoral Commission's recent report "Electoral Administration in the United Kingdom". [223485]

Mr. Wills: We welcome the Electoral Commission's report and will give careful consideration to its recommendations.

Magistrates Courts: ICT

Mr. Bellingham: To ask the Secretary of State for Justice how many magistrates courts have access to full Libra functionality; and when he expects all magistrates courts to have such access. [220771]

Maria Eagle: 243 out of approximately 370 magistrates courts are now operating with full Libra functionality. Libra will be deployed to all magistrates courts in England and Wales by the end of December 2008.

Political Levy

Mr. Tyrie: To ask the Secretary of State for Justice if he will bring forward proposals to require trade unions to inform members and putative members of their right to opt out of the political levy prior to joining or renewing membership. [221419]

Mr. McFadden: I have been asked to reply.

The establishment and operation of trade union political funds are tightly regulated. We have no plans at present to extend the regulatory requirements further.

Political Parties and Elections Bill 2007-08

Mr. Maude: To ask the Secretary of State for Justice what timetable he proposes for the *(a)* parliamentary passage of the Political Parties and Elections Bill and *(b)* the (i) commencement and (ii) implementation of the Bill's provisions once enacted. [223622]

Mr. Wills: The Political Parties and Elections Bill, which the Justice Secretary introduced to this House on 17 July, will progress through Parliament in the usual way. The commencement arrangements for the provisions are set out in clause 19 of the Bill. The provisions listed in subsection (4) will come into force on Royal Assent; all other clauses will be commenced by order. The timetable for implementation will depend upon the nature of the clause.

Political Parties: Finance

Mr. Maude: To ask the Secretary of State for Justice if he will make it his policy to ensure that the proposed new trigger rules on election candidates spending will not come into force until final guidance on the application and operation of the rules has been issued by the Electoral Commission. [223623]

Mr. Wills: The Political Parties and Elections Bill (Bill 141), introduced to the House of Commons on 17 July 2008, includes provision for the reintroduction of triggering in relation to a candidate's expenditure limit at a parliamentary general election. The Bill provides that the rules on triggering will come into force on the date of Royal Assent.

Schedule 4A of the Representation of the People Act 1983 (RPA), as inserted by the Electoral Administration Act 2006 (EAA), sets out in detail the matters which are and are not to be regarded as counting towards a candidate's expenditure limit. The schedule also states that the Electoral Commission may issue a code of practice giving guidance on candidate spending. Such a code must be laid in draft before both Houses and is regarded as having been approved by Parliament provided that neither House resolves not to approve it within 40 days. It may then be published. Schedule 4A of the RPA has been in effect since 11 June 2006 without a code of practice having been produced (though the Commission has published other documents providing guidance for parties, candidates and agents on election spending).

The Bill provides that in addition to the existing power to issue a code of practice, the Commission may also include in any code of practice guidance on when expenditure will be for election purposes (i.e. the circumstances in which the candidate spending limits are triggered). This is not a prerequisite to the legislation coming into force.

Prison Service: Ethnic Groups

Keith Vaz: To ask the Secretary of State for Justice how many senior staff in the Prison Service are from an ethnic minority background. [220874]

Mr. Hanson: Information in the following table shows the total figures for public and contracted establishments.

Number and proportion of BME senior staff[1,2,3] public sector only

	Number/proportion
Number of senior BME staff	242
Proportion of senior staff recorded as BME (Percentage)	6.36

[1] Ethnic minority background has been classified as those staff from a black and ethnic minority background (BME).
[2] Senior staff has been classified as senior civil servants, senior managers, managers, medical officer and senior medical officers in operational and non-operational posts.
[3] Percentage as a proportion of those with known ethnicity.

As the 11 contracted prisons do not use the same grading structure as the public sector and as each individual provider has their own variations, it is not possible to provide an exact comparison. However, of the directors, deputy director and those on the senior management teams at eight of the eleven contracted establishments a total of five staff are from an ethnic minority background.

Information from one provider was not available at the time of the request.

Prisons: Crime

Mr. Garnier: To ask the Secretary of State for Justice how many incidents of *(a)* a sexual nature other than sexual assault, *(b)* sexual assault, *(c)* violence, *(d)* theft and *(e)* other offences occurred in prisons in England and Wales in each of the last 10 years for which figures are available; and how many of these incidents were (i) prisoner on prisoner, (ii) prisoner on staff and (iii) staff on prisoner. [223349]

Maria Eagle: The information requested is as follows:

Incidents of a sexual nature other than sexual assault

Data are only available centrally in the category 'sexual assaults'. No further breakdown is available.

Incidents of sexual assault

The following table summarises the numbers of sexual assault incidents. These will include some unproven allegations. A small number refer to incidents that may have occurred before prison custody.

	Prisoner on prisoner	*Prisoner on officer*	*Prisoner on other*	*Other*	*Total*
1998[1]	62	13	0	4	79
1999[1]	76	15	4	1	96
2000[1]	82	15	9	9	115
2001[1]	69	11	13	7	100
2002	112	14	10	6	142
2003	92	18	15	6	131
2004	102	20	15	6	143
2005	87	22	12	18	139
2006	93	27	9	18	147
2007	103	17	10	5	135

[1] Due to improved recording over the years, figures from 1998 to 2001 are not directly comparable with those from later years.

Notes:

1. The numbers supplied refer to the number of individual assault incidents. Assault information is recorded at establishment level in four categories: Prisoner on Prisoner, Prisoner on Officer, Prisoner on Other and Other (i.e. non-prisoner perpetrators).
2. The 'Prisoner on Officer' and 'Prisoner on Other' categories mostly refer to sexual assaults on staff; however the latter category may include some non staff victims for example visitors.
3. The 'Other' category includes assaults or allegations of assault by non prisoners including any by staff, visitors etc.

Incidents of violence

Central data do not use the collective term 'violence' therefore assault data have been provided. Assault data are complex and may include threatening behaviour, projection of bodily fluids, other non-contact incidents and allegations. Information on assault incidents may involve more than one assailant or more than one victim. In a proportion of incidents only the victim is known.

The information is set out as follows but is subject to important qualifications. The Prison Service Incident Reporting System processes high volumes of data which are constantly being updated. The numbers provide an indication of overall numbers but should not be interpreted as absolute. The numbers supplied refer to the number of individual assault incidents. Assault information is recorded at establishment level in four categories: Prisoner on Prisoner, Prisoner on Officer, Other (i.e. non-prisoner perpetrators) and Prisoner on Other. The recorded incidents of assaults on prison officers are not completely exclusive to officers; establishment recording sometimes includes assaults on other prison staff, i.e. non-uniform staff in this category.

	Prisoner on prisoner	*Prisoner on officer*	*Prisoner on other*	*Other*	*Total*
1998[1]	3,814	1,589	108	89	5,600
1999[1]	5,459	1,867	133	93	7,552
2000[1]	7,192	1,929	147	149	9,417
2001[1]	7,941	2,378	199	151	10,669
2002	8,701	2,503	170	133	11,507
2003	8,957	2,522	187	151	11,817
2004	9,417	2,763	215	149	12,544
2005	10,887	3,091	201	217	14,396
2006	11,526	3,125	197	199	15,047
2007	11,991	2,870	208	156	15,225

[1] Due to improved recording over the years, particularly for fighting, figures from 1998 to 2001 are not directly comparable with those from later years.

Note:

A small number of unclassified assault incidents have been excluded from this table.

Separate data on staff on prisoner assaults are not held centrally and can be obtained only at disproportionate cost.

Incidents of theft and other offences occurring in prisons in England and Wales

There is no disciplinary offence of "theft" under the Prison Rules, but the following table shows the number of offences by prisoners under Prison Rule 51(5) "takes improperly any article belonging to another person or to a prison" punished at adjudications in prisons in England and Wales from 1999 to 2006 (the latest year available).

These figures, based on adjudication data, have been extracted from Prison Statistics, England and Wales

1999-2002, and the Offender Management Caseload Statistics (OMCS) 2003-2006. The OMCS for 2006 and supplementary tables are available on the Ministry of Justice website at

www.justice.gov.uk/publications/prisonandprobation.htm

where links to earlier publications may also be found. The OMCS do not include information on whether articles were taken from other prisoners or from staff, nor on the number of cases that may have been dealt with by the police (which would normally include those where the theft was accompanied by the use or threat of serious violence, or a weapon), nor those where the disciplinary charge was not proven.

The table also shows the number of "other" offences punished at adjudication, which has been calculated by subtracting the total number of violent offences (including all assaults, detaining another person, and fighting) and offences of "taking improperly" from the total of all offences for each year.

	Taking improperly	*Other offences*
1999	942	88,214
2000	811	88,464
2001	903	90,559
2002	829	87,822
2003	633	88,470
2004	565	90,784
2005	604	91,913
2006	648	87,381
Total	5,935	713,607

Staff on prisoner

Information on theft and other offences committed by staff on prisoner is not collected centrally.

Prisons: Mental Health Services

Lynne Jones: To ask the Secretary of State for Justice pursuant to the answer of 21 July 2008, *Official Report*, column 1247W, on prisons: mental health services, what the weekly cost is of commissioning treatment for an individual through a therapeutic community at *(a)* HMP Blundeston, *(b)* HMP Dovegate, *(c)* HMP Gartree, *(d)* HMP Grendon and *(e)* HMP Send; and what discussions he has had with the Secretary of State for Health on the treatment of people in prisons with severe personality disorder. [223463]

Maria Eagle: Information on the weekly cost of commissioning treatment within therapeutic communities is not collected separately nor reported centrally. A number of factors affect the costs of prisons and so comparisons must be made with caution. These factors include: the size of prison, its age, design, the occupancy level, the prison security level, the type of prisoner and the activities carried out in the prison. All of the therapeutic communities operating within prisons are part of a larger establishment or grouping and although the accommodation of each community is separate and distinct, costs are reported as part of the whole. The establishment costs per prison place are listed as shown, alongside the number of therapeutic community places provided in each institution.

Establishment	*TC places*	*CNA of prison*	*Cost per place (£)*
HMP Blundeston	40	421	27,765
HMP Dovegate	200	860	30,850
HMP Gartree	23	666	25,495
HMP Grendon	235	587	25,910
HMP Send	40	221	36,085

The Ministry of Justice and the Department of Health have over the past seven years, worked together to establish a range of pilot services for dangerous offenders with severe personality disorder. As part of the Dangerous and Severe Personality Disorder Programme, a total of 150 places are available in prisons and 191 plus in secure hospitals. These treatment programmes are in the process of being independently evaluated, to help inform decisions about the future shape and direction of such services.

Secure Training Centres: Restraint Techniques

Harry Cohen: To ask the Secretary of State for Justice what steps his Department plans to take in response to the recent child restraint rules court judgment; and if he will make a statement. [223486]

Mr. Hanson: The Court of Appeal has reversed the earlier decision of the divisional court that the Secure Training Centre (Amendment) Rules 2007 should not be quashed.

The effect of the Court's decision is to remove the legal authority for custody officers to remove trainees at secure training centres from association with other trainees, or to use physical restraint, for the purpose of ensuring good order and discipline at the centre. The Youth Justice Board has advised secure training centres on the immediate implications of the Court's ruling.

Maintaining good order and discipline at a secure establishment is essential if those who live and work there are to be kept safe. The Ministry of Justice and Department for Children, Schools and Families, who share joint responsibility for youth justice, have examined the Court's judgment with great care. We are applying to the House of Lords for permission to appeal.

Witnesses: Pilot Schemes

James Brokenshire: To ask the Secretary of State for Justice what assessment he has made of the effectiveness of the operation of the Witness Charter pilots in the 10 beacon areas. [223554]

Mr. Wills: The Witness Charter is one of a number of criminal justice reform projects delivered by Local Criminal Justice Boards. The Office for Criminal Justice Reform (OCJR) is currently conducting an assessment of the benefits the charter will have for witnesses, drawing on the experience of areas in delivering it. In addition, OCJR has also collated good practice from these areas in implementing the charter.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Bromine

Mr. Heald: To ask the Secretary of State for Environment, Food and Rural Affairs when he plans to make a decision on the appeal relating to the Sandridge bromate contamination in Hertfordshire. [220456]

Jonathan Shaw: DEFRA is considering a Planning Inspector's report on this matter, which relates to appeals made under Part 2A of the Environmental Protection Act 1990. The Secretary of State expects to make a decision by October 2008.

Carbon

Mr. Tyrie: To ask the Secretary of State for Environment, Food and Rural Affairs whether the carbon price on page seven of the Financial Impact Assessment, if set at the optimal level, differs from the Shadow price of carbon set out on page 20. [221445]

Mr. Woolas: The Shadow Price of Carbon (SPC) set out on page 20 of the Climate Change Bill: Final Impact Assessment is taken from DEFRA's cross-departmental guidance (published December 2007) on how to value the impact of Government policies on greenhouse gas emissions. The SPC captures the costs of climate change that are associated with each additional tonne of emissions, and is consistent with the carbon price referred to on page 7—at the highest stabilisation level within the Stern Review's recommended range.

The guidance adopting the SPC as the basis for valuing these impacts was fully informed by the Stern Review's estimates of the cost of climate change. Under this approach, the SPC depends upon the expected costs of climate change, and consequently upon the emissions trajectory that the world is expected to move onto and the eventual stabilisation level that is expected. The value of the SPC used reflects the highest potential costs of climate change under the Stern Review's recommended stabilisation range of 450-550 parts per million carbon dioxide equivalent, in order to ensure that the UK is taking sufficient action to help us to achieve this stabilisation range.

DEFRA is currently reviewing the SPC, as committed to in the December 2007 publication. The scope of this review is to consider the case for moving to an SPC that is consistent with the marginal abatement cost that would be required to reach the UK's targets, rather than the current damage cost based approach. This review is ongoing.

Departmental Alcoholic Drinks

David Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs what purchasing process is used by his Department for the procurement of alcohol for hospitality purposes. [219952]

Jonathan Shaw: Hospitality is intended to cover occasions where there is a need to provide hospitality for others. Hospitality may therefore be provided only if it is in the public interest and necessary for the conduct of departmental business to do so. As a general rule, expenditure on alcohol for hospitality purposes is not allowed. The core-Department's catering services provider does not hold a licence to serve alcohol. Were alcohol to be purchased for hospitality purposes it should be acquired through formal purchase order, or through the Government Procurement Card, both of which methods are subject to formal authorisation procedures.

Departmental Buildings

Mr. Betts: To ask the Secretary of State for Environment, Food and Rural Affairs what his Department's policy is on improving the energy efficiency of the buildings which it *(a)* rents and *(b)* owns; what changes there have been in the energy efficiency of such buildings in the last (i) five and (ii) 10 years; and whether his Department has adopted targets on energy efficiency improvements in the buildings it occupies over the next (A) five and (B) 10 years. [221087]

Jonathan Shaw: The Department for Environment, Food and Rural Affairs is committed to improving the energy efficiency of all buildings that it owns and to work with landlords to improve the energy efficiency of those buildings which it rents.

The Department has signed up to the Carbon Trust's Carbon Management Programme and in 2007, became the first Department to gain the Energy Efficiency Accreditation Scheme award for its core Department and executive agencies. This standard measures improvement in energy efficiency in 19 specific areas and is widely recognised as an industry standard in measuring efficiency gains.

DEFRA is currently producing benchmarks for its sites using the CIBSE (Chartered Institution of Building Services Engineers) TM22 Energy Assessment and Reporting Methodology. This supports the roll out of display energy certificates which is required for all public buildings over 1000m^2.

Mr. Betts: To ask the Secretary of State for Environment, Food and Rural Affairs what account his Department takes of the level of energy efficiency of buildings before entering into agreements to *(a)* rent and *(b)* purchase those buildings. [221103]

Jonathan Shaw: Where the acquisition of new premises involves new build or substantial refurbishment the Department will insist on the building attaining the BREEAM Excellent construction standard or above. Design at this level seeks to optimise the energy efficiency performance the building can deliver.

The Department is also keen to support sustainability around the re-use of existing premises either forming part of its own estate or the wider Government estate. The Department will always seek to identify the property with the best overall sustainability score to minimise our environmental impact. In seeking re-use of existing premises, especially older premises on the civil estate, it is not always possible to secure the highest environmental or energy performance standards. As a consequence, where appropriate, planned investment will be employed to improve environmental and energy efficiency of older buildings acquired.

While the Department looks for sustainability and energy efficiency, the identification and acquisition of premises is often market dependent. The supply of

greener buildings can be limited outside the major towns and cities, especially for specialist buildings and locations. In such circumstances, the Department seeks the best sustainability performance available and encourages potential landlords to invest in sustainability and sustainable technologies.

This approach is employed whether the buildings are acquired freehold or leasehold.

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs which organisations have received *(a)* free and *(b)* discounted room hire from (i) his Department and (ii) its agencies in each of the last five years; and what the commercial value of the discount was in each case. [221584]

Jonathan Shaw: This information is not held centrally and could be provided only at disproportionate cost.

Departmental Compensation

Mr. Hayes: To ask the Secretary of State for Environment, Food and Rural Affairs what the 10 highest payments made by his Department were under property compensation cases brought against it over the last 12 months for which figures are available; which of the cases were *(a)* contested and *(b)* uncontested by his Department; and what the nature of each incident was. [216707]

Jonathan Shaw: The Department for Environment, Food and Rural Affairs had not made any payments under property compensation cases brought against it over the last 12 months.

Departmental ICT

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs what IT contracts his Departments and its agencies have entered into in the last two years. [215157]

Jonathan Shaw: The IT contracts entered into by DEFRA and its agencies in the last two years are listed as follows.

DEFRA

Atos (Application Development Services)

Vizuri Ltd. (Strategic Consultancy, and Security Testing and Verification Services)

Central Science Laboratory

2e2 UK Ltd. Server and Hardware (maintenance agreement).

Adept Scientific plc (software agreement—site licences).

Adept Scientific plc (software maintenance).

Anatune (Scientific software support contract).

Applied Network Solutions (Support for software).

AppSense (software support contract).

Armadillo Managed Services (Support contract).

Barclays Bank (BACS Software maintenance—supplier payments).

Becrypt Ltd. (Encryption software maintenance).

Big Fish Internet (domain name renewal).

CESG Commercial Services (supply of key material).

Cetus Solutions (technical support agreement).

Cetus Solutions (customer support Programme and Technical support) Cetus Solutions (Software Licences).

CMP Information Ltd (Health and Safety Software licence)
COA Solutions (support and maintenance for finance software)
COA Solutions P3E (support and maintenance for project software).

COA Solutions (support and maintenance for e-Marketplace to Finance system software).

COA Solutions (support and maintenance for finance software).

COA Solutions (support and maintenance for finance software).

COA Solutions (licences for Business Objects reporting—finance software).

Customer Focus Software (UK) Ltd. (Customer Relationship management software support and maintenance).

Eduserve—Subscription to Map Data to support science projects
Hearne Scientific Software (Scientific software—Suite Single user standalone licence).

Ideagen (annual support for Workbench Quality Assurance Software).

ItChannel International (Support for remote access to network PCs).

ItChannel International (hardware support).

Keystone Computer Group (Sun Server Hardware Support Agreement).

Lintel Software Consultancy Ltd. (Software Support).

Matrix Communications Group (Software Support).

Minitab (software support)

Network Disaster Recovery Ltd. (disaster recovery service).

Phoenix Software Ltd. (licences and software support).

S Store Ltd. (software support)

SAS Software Ltd. (software support).

Science Warehouse Ltd.—Membership Fee—Electronic Marketplace (price comparison site).

SirsiDynix—Software Support

Software Box Ltd.—(licence and support).

Software Box Ltd. (software support).

Software Box Ltd. (Encryption software support).

SPSS UK Ltd. (licences for continued use of Windows applications).

Systat Software (software support).

The Mathworks Ltd. (Statisics Software support).

Thermo Electron (system support for Laboratory Information Management System software).

Tower Software UK (software support for Electronic Records Management).

VSN International Ltd. (software maintenance and support).

Wolters Kluwer (Scientific Software, annual licence)

Centre for Environment, Fisheries and Aquaculture Science

ACT (maintenance and support).

Avanquest (Rightfax) (maintenance and support).

Boxing Orange (service, maintenance and support).

BT iNet/TNS (maintenance and support).

CSTL (maintenance and support).

Foursys (maintenance and support).

Gradian Systems Ltd. (maintenance and support).

Webroot (Softcat) (maintenance and support).

Westgate (maintenance and support).

Sapphire Systems (maintenance and support).

Requisoft (maintenance and support).

Rural Payments Agency

Xansa (UK) Ltd. (application support and maintenance).

SunGard Ltd. (development and maintenance of RADX applications).

DSGi Business, a trading division of DSG Retail Ltd. (supply of ICT Goods and Associated Services).

Software AG (UK) Ltd. (provision of e-channel goods and services).

Veterinary Medicines Directorate

Insight Consulting (support for ISO 27001 security accreditation).

SGS (ISO 27001 Auditors) (auditor).

VLA Security (maintenance).

Intercept (network support and maintenance).

Solutions 8 (annual clean of IT hardware).

MJM Solutions (document management support and maintenance).

Sunrise (helpdesk support and maintenance).

Veterinary Laboratories Agency

SfW Ltd.

The following were negotiated under the Scat/Catalist framework:

Amtec Consulting (security advice)

Business Objects (data analysis reporting systems)

Fujitsu Service (security advice)

NCC Group (security penetration testing)

OpenText (Document management systems)

IDBS (Laboratory notebook evaluation)

Hornbill (IT Helpdesk and asset systems).

Departmental Inquiries

Mrs. May: To ask the Secretary of State for Environment, Food and Rural Affairs what independent inquiries have been commissioned by his Department in the last five years; what the *(a)* purpose and *(b)* cost was of each; and what steps were taken following each. [211119]

Jonathan Shaw: My Department has commissioned a number of inquiries in the last five years. The information requested is not held centrally and could be obtained only at disproportionate cost.

Departmental Manpower

Mr. Redwood: To ask the Secretary of State for Environment, Food and Rural Affairs what the change in the number of employees in his Department and its agencies has been since July 2006. [217071]

Jonathan Shaw: The number of staff in DEFRA and its agencies (in full-time equivalents) has reduced from on 12,650 on 31 July 2006 to 10,375 on 31 May 2008.

During this period, 1,160 DEFRA staff transferred to the newly-created Natural England on 1 October 2006 and 175 staff in the Pesticide Safety Directorate transferred to the Health and Safety Executive on 1 April 2008.

Departmental Procurement

David Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs what his Department's policy is on requesting discounts from its suppliers in return for swift payment of invoices. [220436]

Jonathan Shaw: The Department's payment policy is to pay its suppliers within 30 days or less of receipt of a valid, undisputed invoice. Decisions on requesting discounts from its suppliers in return for earlier payment of valid and undisputed invoices would be taken on a case by case basis subject to value for money considerations and be consistent with HM Treasury Accounting Rules (Managing Public Money).

Departmental Public Participation

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* reviews and *(b)* public consultations have been initiated by his Department since 27 June 2007. [221378]

Jonathan Shaw: A full list of public consultations published by DEFRA since 27 June 2007 to 18 July 2008 (a total of 86) is set out as follows. All public consultations published by the Department since January 2006 are available on the DEFRA website:

www.defra.gov.uk/corporate/consult/default.asp.

My Department does not hold information centrally on the reviews that it undertakes. The information could be obtained only at disproportionate cost.

Date	*Consultation*
28 June 2007	Consultation on the interpretation of the definition of municipal waste used in the Landfill Allowance Trading scheme
3 July 2007	Consultation on implementation of part 1 of the Commons Act 2006
11 July 2007	Wildlife health strategy
18 July 2007	Consultation on the Fourth Environmental Permitting Programme
18 July 2007	Consultation on Salmonella in laying flocks
19 July 2007	Consultation on DEFRA's Contingency Plan for Exotic Animal Diseases
25 July 2007	Consultation on the implementation options for the transfer of private sewers to water and sewerage companies
27 July 2007	Consultation on the Soil Framework Directive
1 August 2007	Consultation on the implementation of the European Pollutant Release and Transfer Register, and the establishment of a UK Pollutant Release and Transfer Register
3 August 2007	Consultation on energy services directive
13 August 2007	Consultation on "Recycle on the GO"
15 August 2007	Consultation on UK report regarding plans and programmes to meet EU air quality limit values (reporting year 2005)
17 August 2007	Consultation on Commission Proposal to recast Directive 92/34 on the marketing of fruit plant propagating material and plants
21 August 2007	Consultation on Catchment Sensitive farming/nitrates and diffuse water pollution—three consultations to be launched
7 September 2007	Consultation on statutory measures to protect areas of Lyme Bay
10 September 2007	Consultation on a draft second edition of IPPC SG6 for A2 activities in the Solvents sector
19 September 2007	Consultation on a licensing scheme for the sale and purchase of non-compliant paints for use on historic buildings and vintage vehicles
5 October 2007	Consultation on LA Environmental Regulation of Industrial Plant: 2008-09 Fees and Charges

Date	*Consultation*
8 October 2007	Consultation on packaging targets
10 October 2007	Consultation on Home Energy Conservation Act 1995
7 November 2007	Consultation on double tagging of sheep and goat
8 November 2007	Consultations on amendment to Schedule 9 of the Wildlife and Countryside Act 1981, and Orders to ban the sale of certain non-native species
12 November 2007	Consultation on the implementation of the revised Bathing Water Directive
12 October 2007	Consultation on amendments to mutilations regulations (England) 2007
12 October 2007	Consultation on a system of Administrative penalties for fisheries offences
13 October 2007	Consultation on possible changes of use of personal data held on the GB Poultry register
16 October 2007	Consultation on Third Sector
19 November 2007	Consultation on the merger of PSD into HSE
6 December 2007	Consultation on recreational sea angling
11 December 2007	Consultation on Cost Sharing and Responsibility Sharing
13 December 2007	Consultation on energy services directive Article 5
19 December 2007	Consultation on Aquatic Animal Health Directive transposition
19 December 2007	Consultation on the recommendations of the Climate Change Simplification project
20 December 2007	Consultation on Options for Implementing the Batteries Directive
21 December 2007	Consultation on auction design for Phase II of the EU Emissions Trading Scheme
31 December 2007	Consultation on Spirits regulations
31 December 2007	Consultation on Scotch Whisky regulations
9 January 2008	Consultation on proposal of 2 per cent. milk quotas
14 January 2008	Consultation on national listing and plant breeders' Right fees
7 February 2008	Consultation on Surface Water Management
7 February 2008	Consultation on guidance to Ofwat
7 February 2008	Consultation on Phosphates in detergents—laundry
17 January 2008	Consultation on mining waste Directive (CLG led)
21 January 2008	Consultation on Sustainable products
4 February 2008	Consultation on charging for CITES licences
30 January 2008	Consultation on the future of the Aggregates Levy Sustainability fund April 2008 to March 2011
25 February 2008	Consultation on river basin planning (volume)
27 February 2008	Consultation on the transposition of Council Directive 2006/117/Euratom
29 February 2008	Consultation on Implementation of Fruit and Vegetable Reforms
29 February 2008	Consultation on Environmental Liability Directive: 2nd consultation
7 March 2008	Consultation on European Fisheries Fund: UK Operational programme (1st phase)
7 March 2008	Consultation on measures to protect the Fal and Helford Special Area of Conservation (SAC) from the impacts of fishing with dredges and other towed gear
7 March 2008	Consultation on Statutory Notification Requirements for Potatoes Introduced into England and Wales from other EU member states
17 March 2008	Consultation on joint Waste Authorities
18 March 2008	Consultation on Producer Responsibility Obligations (Packaging Waste) Regulations 2007; Directive 2004/12/EC (amending Directive 94/62/EC on packaging and packaging waste)
20 March 2008	Consultation on the remaking of the Drinking Milk Regulations
31 March 2008	Consultation on Soil Strategy for England
3 April 2008	Consultation on TSE Regulations 2007
3 April 2008	Consultation draft Marine Bill
8 April 2008	Consultation on the strategy of health of honey bees
2 May 2008	Consultation on European Fisheries Fund: UK Operational programme (2nd phase)
7 May 2008	Consultation on the EU Commission's proposals to amend the EU ETS from 2013
9 May 2008	Consultation on the remaking of Eggs and Chicks (England) Regulations 2008
14 May 2008	Consultation on draft AQEG report: Ozone in the United Kingdom
14 May 2008	Consultation on EPAQS report: guidelines for metals and metalloids in ambient air for the protection of human health
14 May 2008	Consultation on EPAQS report: Addendum to Guidelines for halogen and hydrogen halides in ambient air for protecting human health against acute irritancy effects
28 May 2008	Consultation on Groundwater Regulations
29 May 2008	Consultation on the European Commission's proposed Directive on Industrial Emissions (Integrated Pollution Prevention and Control) (Recast)—Intensive livestock
29 May 2008	Consultation on the European Commission's proposed Directive on Industrial Emissions (Integrated Pollution Prevention and Control) (Recast)
29 May 2008	Consultation on the European Commission's proposed Directive on Industrial Emissions (Integrated Pollution Prevention and Control) (Recast)—Combustion Plants
2 June 2008	Consultation on REACH Enforcement
2 June 2008	Consultation on Dangerous Wild Animals Act 1976—reform order
6 June 2008	Consultation on the European Commission's proposed Directive on Industrial Emissions (Integrated Pollution Prevention and Control)(Recast)—emissions
9 June 2008	Consultation on CAP Health checks
13 June 2008	Consultation on Wine SI 2008
16 June 2008	Consultation on Sector Guidance Note SG8: Rendering
12 June 2008	Consultation on White Paper—Radioactive waste

Date	Consultation
13 June 2008	Consultation on the 2nd consultation on Waste crime
18 June 2008	Consultation on revised UK Strategy for Radioactive waste discharge limits 2006-30
23 June 2008	Consultation on Revised Membership Arrangements for Northumberland National Park Authority
30 June 2008	Consultation on Wildlife Management strategy
30 June 2008	Consultation on Our Seas: A Shared Resource
1 July 2008	Consultation on Beef and Veal Labelling
4 July 2008	Consultation on Air Quality guidance
11 July 2008	Consultation on proposed Regulations—further implementation measures—fluorinated greenhouse gases and ozone depleting substances
15 July 2008	Consultation on Phytophthora Ramorum and Phytophthora kemoviae

Departmental Sick Leave

Jenny Willott: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many staff in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility have taken sick days due to (i) stress and (ii) mental health and behavioural disorders in each of the last 10 years; what proportion of staff of each body this represented in each year; and if he will make a statement; [216089]

(2) how many sick days were taken by employees in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility due to (i) stress and (ii) mental health and behavioural disorders in each of the last 10 years; what proportion of sick days taken this represented in each case; and if he will make a statement; [216152]

(3) what the average duration of single periods of sick leave taken by staff in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility who gave (i) stress and (ii) mental health and behavioural disorders as the reason for their absence was in each of the last 10 years; and if he will make a statement; [216154]

(4) what the average duration of single periods of sick leave taken by staff in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility was in each of the last five years; and if he will make a statement. [216155]

Jonathan Shaw: Information on sickness absences in 2004, 2005, 2006-07 for DEFRA and its agencies can be found on the civil service website:

http://www.civilservice.gov.uk/about/statistics/sickness.asp

All three illnesses are grouped together as 'Mental and Behavioural Disorders'.

Data for 2007-08 are not yet available but will be published later in the year.

Data for years prior to 2004 are not held electronically and could be provided only at disproportionate cost. Data on sickness absence in DEFRA's NDPBs are not held centrally and could be provided only at disproportionate cost.

David Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs how many and what percentage of staff in his Department have had more than two periods of sickness of less than five days in each of the last three years. [218724]

Jonathan Shaw: The following number of DEFRA staff took more than two periods of sickness of fewer than five days in 2006-07 and 2007-08. Information for 2005-06 could be provided only at disproportionate cost.

	Number	Percentage
2006-07	834	14
2007-08	821	21

The percentages are calculated from the number of staff in post at the beginning of the financial year, not the total number of staff employed over the financial year.

David Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff in his Department have had five or more periods of sickness absence of less than five days in two or more of the last five years. [218966]

Jonathan Shaw: This information could be provided only at disproportionate cost.

Energy Efficiency: Low Incomes

Helen Southworth: To ask the Secretary of State for Environment, Food and Rural Affairs if he will take steps to help domestic consumers on low and middle incomes to improve the energy efficiency of their homes; and if he will make a statement. [223668]

Mr. Woolas: The Government have announced a comprehensive Home Energy Saving Programme, worth £1 billion, to help domestic consumers cut their energy bills permanently.

Further details can be found on the DEFRA website at:

www.defra.gov.uk.

EU Emissions Trading Scheme

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department has taken to increase the proportion of allowances auctioned under Phase II of the Emissions Trading Scheme to 10 per cent.; and if he will make a statement. [223561]

Mr. Woolas: The Government have given careful consideration to whether the level of auctioned allowances in the current phase of the EU Emissions Trading Scheme should be raised from the 7 per cent. set out in

the UK's National Allocation Plan to the maximum 10 per cent. permitted under the Directive. They have concluded that it would be better to maintain certainty for business about the UK's previously published National Allocation Plan and not seek to reopen allocation issues consulted on and determined in 2006.

As part of the Government's climate change strategy, we are aiming in the longer term to move towards more auctioning of allowances, and Budget 2008 announced the Government's intention to auction 100 per cent. of all allowances in the large electricity producers' sector.

Flood Control: Fees and Charges

Mr. Spellar: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with OFWAT on the imposition of surface drainage charges on churches, schools and hospitals. [223536]

Mr. Woolas: While my right hon. Friend the Secretary of State holds regular meetings with Ofwat to discuss a range of issues, there have been no discussions about this issue specifically.

I have had a number of meetings with stakeholders but not with Ofwat.

Flood Control: Rural Areas

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what measures have been put in place to ensure that rural areas affected by floods in 2007 will receive resources and assistance to establish effective flood resilience. [223480]

Mr. Woolas: The Government take a risk based approach to the management of flood risk, prioritising investments on the basis of the risk faced by the community and not whether it has recently experienced a flooding event. This is an approach which was supported by Sir Michael Pitt's independent review of the 2007 summer floods.

DEFRA has been working continuously, in conjunction with other Government Departments and agencies, to reduce the risk of flooding throughout England.

Flood Control: Somerset

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs how much internal drainage boards in the Somerset Levels and Moors have spent on infrastructure projects for the maintenance and enhancement of sites of scientific interest and special protection areas since 1987. [219927]

Mr. Woolas: DEFRA does not hold the information requested.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what the risk of flooding in the Somerset Levels and Moors was assessed as *(a)* in 1987 and *(b)* at the latest date for which figures are available. [219929]

Mr. Woolas: In 1987 there was no flood map information for the Somerset Levels and Moors and dependent urban areas.

The Environment Agency has undertaken a number of flood management schemes since 1987 to improve flood risk on the Somerset Levels and Moors. This includes work undertaken in Bridgwater, where protection is currently to a 1:200 year event standard (tidal), and work undertaken at Taunton where the protection is approximately up to a 1:100 year event standard (fluvial).

Floods: River Derwent

Mr. Todd: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 7 January 2008, *Official Report*, columns 465-70W, on floods: River Derwent, what progress has been made on hydraulic modelling for Derby; and if he will make a statement. [221734]

Mr. Woolas: The hydraulic modelling is now complete. The public consultation for the Lower Derwent Strategy is planned to be launched on 10 September 2008 and will run for a period of three months.

The Environment Agency has been working closely with Derby city council, which has used some of the information to develop a Strategic Flood Risk Assessment hydraulic model to help guide decision making. No further modelling is planned to inform the strategy.

Home Information Packs

Robert Neill: To ask the Secretary of State for Environment, Food and Rural Affairs how many home information packs have been commissioned by *(a)* his Department and *(b)* its agencies to market a residential property; for which properties; at what cost; and whether a voluntary home condition report was purchased as part of the packs. [219009]

Jonathan Shaw: The Department, including its executive agencies, has commissioned four home information packs in respect of surplus residential property disposal. Of the principal property holding non-departmental public bodies, only one information pack has been procured in connection with a the Forestry Commission disposal.

In each case, on advice from our retained property advisors, home condition surveys were not purchased as part of the home information pack.

The details on commissioning body, location and cost are set out in the following table.

Home information packs procured by the Department, including executive agencies, and principal property holding non-departmental public bodies for surplus residential properties marketed by the Department and its significant property holding arms length bodies

Property holding body	*Property*	*Gross cost (£)*	*Home condition survey*
DEFRA	1 Sampsons Cottage Boxworth Cambridgeshire	293.75	No
DEFRA	3 Sampsons Cottage, Boxworth, Cambridgeshire	264.38	No
DEFRA	4 High Barns Cottages, Boxworth, Cambridgeshire	293.75	No
DEFRA	11 Rosemaund Drive, Rosemaund, Worcestershire	351.33	No

Home information packs procured by the Department, including executive agencies, and principal property holding non-departmental public bodies for surplus residential properties marketed by the Department and its significant property holding arms length bodies

Property holding body	Property	Gross cost (£)	Home condition survey
Forestry Commission	1 Forestry Houses, Dalton, Burton, Carnforth, Lancashire	339.99	No

Source:
DEFRA Estates Division

Morning Star

Mr. Maude: To ask the Secretary of State for Environment, Food and Rural Affairs how many copies of the *Morning Star* publication his Department and each of its agencies subscribes to each week; and at what cost. [215660]

Jonathan Shaw: Neither DEFRA or its agencies subscribe to the *Morning Star.*

Pets Travel Scheme

Andrew Stunell: To ask the Secretary of State for Environment, Food and Rural Affairs how many spot checks were carried out under the Pets Travel Scheme at ports of entry into the UK in each year since 2000; and in what proportion of such checks a problem was detected. [223640]

Jonathan Shaw: This information is not held centrally and could be obtained only at disproportionate cost.

Rural Areas: Motor Vehicles

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if he will develop policies to assist rural motorists who have no alternative to car transport in areas where petrol prices are particularly high. [219136]

Jonathan Shaw: I refer my hon. Friend to the answer given to him by my hon. Friend the Exchequer Secretary on 1 September 2008, *Official Report,* column 1478W.

Seas and Oceans: Nature Conservation

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what vessel monitoring systems data have been used in assessing the levels of fishing in proposed offshore Special Areas of Conservation sites; when that assessment took place; and if he will publish the data. [221636]

Jonathan Shaw: As part of public consultation the Joint Nature Conservation Committee in their draft Conservation Objectives and Advice on Operations considered the levels of fishing in possible offshore SACs using VMS data from 2004 for England and Wales published in:

Eastwood, P. D., Mills, C. M., Aldridge, J. N., Houghton, C. A., and Rogers, S. I. 2007. "Human activities in UK offshore waters: an assessment of direct, physical pressure on the seabed". ICES Journal of Marine Science, 64: 453-463

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs whether steps to prevent fishing activity in offshore sites designated as being of UK importance must be taken under the auspices of the Common Fisheries Policy or under environmental legislation. [221647]

Jonathan Shaw: In the offshore zone the European Commission has exclusive competence for fisheries management. Where a need is identified for controls to be placed on fisheries activities in order to protect an area, habitat or species of national importance, the UK will approach the Commission and other member states to seek adoption of appropriate measures through the common fisheries policy.

INNOVATION, UNIVERSITIES AND SKILLS

Adult Education: Yorkshire and the Humber

John Battle: To ask the Secretary of State for Innovation, Universities and Skills how many adults took part in publicly-financed education courses in *(a)* Leeds West constituency, *(b)* Leeds Metropolitan District and *(c)* Yorkshire and Humberside in each of the last five years. [218028]

Bill Rammell: Our planned and continuing strategy is to realign funding from a high number of very short and low quality courses to qualifications such as Skills for Life, full level 2 and full level 3 that offer the greatest opportunity for adults to gain the skills for employability and further progression in learning. But we understand that as well as increasing skills, education is also about meeting the basic human desire for intellectual stimulation. That is why we have safeguarded £210 million each year through to 2010/11 to support informal adult learning. Through our recent consultation we have led discussion on a new vision for informal adult learning for the 21st century.

The following table sets out the total number of LSC-funded adult learners aged 19 or over resident in Leeds, West constituency, Leeds metropolitan district and Yorkshire and Humberside from 2002/03. The figures cover learners enrolled in further education, work based learning and train to gain provision. These figures replace earlier information provided in response to PQ209210.

Number of LSC funded learners aged 19 or over 2002/03 to 2006/07

	2002/03	2003/04	2004/05	2005/06	2006/07
Leeds West constituency	5,870	6,570	6,350	6,360	6,210
Leeds metropolitan district	48,600	51,780	49,900	44,790	35,730
Yorkshire and Humberside	379,980	390,900	401,100	335,650	265,370

Notes:
1. Numbers have been rounded to the nearest 10.
2. Includes learners in FE, work-based learning and train to gain provision, but excludes adult safeguarded learning due to the reliability of the data.

Source:
Learning and Skills Council Individualised Learner Record.

Departmental Postal Services

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills what steps his Department has taken to monitor the cost of its mail services in the last 12 months. [221483]

Mr. Lammy: The Department for Innovation, Universities and Skills (DIUS) was established under machinery of government changes in June 2007 and currently monitors the cost of mail services according to the policies put in place by its predecessor Departments—the Department for Education and Skills (now the Department for Children, Schools and Families—DCSF) and Department for Trade and Industry (now the Department for Business, Enterprise and Regulatory Reform—BERR). DIUS is a relatively small volume sender of mail and sends second class unless there is a business need for first class delivery

Economic and Monetary Union

Mr. Maude: To ask the Secretary of State for Innovation, Universities and Skills on what date the euro changeover plan of *(a)* his Department and *(b)* each of its agencies was last updated; and if he will place in the Library a copy of the most recent version of each. [215687]

Mr. Lammy: The Department for Innovation, Universities and Skills was established under machinery of government changes in June 2007; it comprises higher and further education (from the former Department for Education and Skills, now the Department for Children Schools and Families-DCSF) and science and innovation (from the former Department for Trade and Industry, now the Department for Business, Enterprise and Regulatory Reform—BERR).

To date, DIUS has been split between BERR and DCSF. DIUS therefore currently rely on the Euro changeover plan of BERR and DCSF. The DCSF Euro changeover plan is currently being reviewed and updated to take account of the machinery of government change in June 2007 and changes in the delivery of corporate systems over the next nine to 12 months. A copy of the completed document will be placed in the Library when this work is completed.

DIUS agency, NWML provided information to the former DTI in October 2004 and this formed part of their Euro preparations, A more detailed plan was performed in March 2000 which formed part of HM Treasury Euro changeover plan.

DIUS agency, UK-IPO last updated its Euro conversion plan in September 2004 and it formed part of the DTI overall plan. The plan has not been published, given the time that has lapsed, while the principles are still relevant the legislation, IT systems and costs referred to are significantly out of date and publication would be of trifle value.

With the advent of a shared service arrangement, a single system will be in place.

Higher Education: Admissions

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the proportion of 16 year olds who achieved five GCSEs at grades A* to C including English and mathematics who did not apply to university within two years of receiving their results in the most recent period for which figures are available. [216895]

Bill Rammell: Comprehensive information on university applications including GCSE attainment is not available.

Information is available, from matched administrative datasets, about those who have entered HE courses. Around 41 per cent. of those in maintained schools achieving five or more GCSEs at grades A* to C including English and mathematics at age 15 to 16 in 2001/02 did not enter a higher level course in a UK Higher Education Institution at age 18 in 2004/05 nor at age 19 in 2005/06. Around 2 per cent. entered higher level courses at English Further Education Colleges in the same years.

Lip Reading: Education

Bob Spink: To ask the Secretary of State for Innovation, Universities and Skills what proportion of lip-reading classes were provided free to learners in each year since 2004-05; and if he will make a statement. [223242]

Mr. Lammy: In 2004-05, 473 adult learners undertook a further education (FE) lip-reading course funded by the Learning and Skills Council (LSC). 81 per cent. of these learners paid no fee due either to national policy or by having their fees waived at the discretion of the provider.

Information on the number of lip-reading learners receiving fee remission for 2005-06 and 2006-07 is not available centrally. I have therefore asked Mark Haysom, Chief Executive of the Learning and Skills Council to write with this information. A copy of his reply will be placed in the House Library.

Full fee remission is provided to learners on LSC funded FE courses where they are in receipt of income based benefits or are studying on a Skills for Life, full level 2 or full level 3 course (if they are aged 19-25). In addition to this some FE colleges and providers can use their discretion to waive fees. They may choose to do so where a learner is undertaking a lip-reading course and has declared themselves as having a learning difficulty and/or disabilities for example where a learner is hearing impaired.

HEALTH

Alcoholic Drinks: Health Education

Mr. Lansley: To ask the Secretary of State for Health what targeted information and advice his Department has given to people who drink at harmful levels, as referred to in paragraph 2.36 of his Department's Cancer Reform Strategy. [221150]

Dawn Primarolo: "Safe.Sensible.Social.—The next steps in the National Alcohol Strategy" committed the Government to developing a range of new kinds of

information and advice targeting people whose drinking places them at harmful levels, and their families/friends, from August 2008 onwards.

Since September 2006 a social marketing programme has been under way to meet this commitment and research has been undertaken to understand what motivates those drinking at increasing or higher risk levels and how their behaviour can be influenced. Key outputs of this programme formed part of the Units campaign launch in May 2008, including:

Reframing public-facing language on levels of drinking from "sensible", "hazardous" and "harmful" to the risk-based "lower", "increasing" and "higher";

Promoting delivery of "Identification and Brief Advice" (IBA) through front-line services including the provision of materials and support to general practitioners (GPs), such as a surgery wall-chart, fact sheets and fact cards to hand out to patients. From September 2008 an E-learning module on delivering IBA will be available for GPs and other primary care staff;

Launching DrinkCheck at nhs.uk/units where users are able to calculate what level of risk their drinking places them in and if necessary signpost them to information either on-line, by post or through the telephone helpline;

Publishing a printed self-help manual "Your drinking and you", available by post or download, which has been designed by alcohol health specialists to help people reduce their drinking. Approximately 2,000 copies have been ordered to date via DrinkCheck and the telephone helpline, even though the Units campaign did not include any call to action. We are expecting this to be boosted further by the national launch of print advertising focusing on health consequences between mid-July-August; and

Expanding the Drinkline telephone helpline to provide advice to drinkers and signpost them to the self-help material.

We are now ready to move on to the next, direct marketing phase, which will help us to begin "acquiring" drinkers to receive the "Your drinking and you" booklet and agree to participate in follow up research and testing.

This next "acquisition phase" is designed to drive responses to the website, helpline or to order the self-help booklet directly and is similar in structure to the smoking campaign which has a direct response campaign running alongside a more general awareness campaign.

The first phase of the campaign will be tested in the North West of England, which has the greatest concentration of our target group of higher risk drinkers, and will be rolled out from the beginning of September.

Drugs: Finance

Mr. Grieve: To ask the Secretary of State for Health what the Pooled Drug Treatment budget for England was in *(a)* 2003-04, *(b)* 2004-05, *(c)* 2005-06, *(d)* 2006-07 and *(e)* 2007-08. [223600]

Mr. Bradshaw: I refer to the hon. and learned Member to the written answer I gave the hon. Member for Hornchurch (James Brokenshire) on 18 March 2008, *Official Report*, columns 997-98W.

Eculizumab

Andrew Stunell: To ask the Secretary of State for Health what plans he has to refer the use of Eculizumab to the National Institute for Health and Clinical Excellence for assessment. [223638]

Dawn Primarolo: There are no plans for Ministers to refer the use of Eculizumab to treat the condition Paroxysmal Nocturnal Haemoglobinuria to the National Institute for Health and Clinical Excellence for appraisal.

Health Centres

Mr. Lansley: To ask the Secretary of State for Health how many additional *(a)* GPs and *(b)* other staff, broken down by type of staff, he estimates will be required to staff the new GP-led health centres. [220998]

Mr. Bradshaw: The exact staffing levels at each general practitioner-led health centre will vary depending on the range and extent of additional services each centre provides, to reflect local health needs.

Health Professions: Pay

Andrew Stunell: To ask the Secretary of State for Health what plans he has to require the strategic health authorities to reinstate the practice of awarding return to practice bursaries for midwifery, radiography and healthcare science. [223637]

Mr. Bradshaw: Strategic health authorities are responsible for allocating resources from education and training funding to support local initiatives such as return to practice programmes for professional staff. The Department is providing support and funding to strategic health authorities for a programme of work, to deliver expansion in midwifery capacity, as I announced in February. This includes supporting midwives through return to practice, where this is part of the local recruitment programme.

Health Services: Finance

Andrew Stunell: To ask the Secretary of State for Health what advice he has received on the appropriateness of the incremental cost effectiveness ratio; and if he will make a statement. [223639]

Dawn Primarolo: The methodology used by the National Institute for Health and Clinical Excellence (NICE) to calculate a technology's incremental cost effectiveness ratio is determined by NICE itself. NICE publishes details of its appraisal methodology in its "Guide to Methods of Technology Appraisal". NICE last updated this document in June 2008 following a public consultation, and the current version is available on NICE'S website at:

www.nice.org.uk/media/B52/A7/TAMethodsGuideUpdatedJune2008.pdf

Hospitals: Parking

Mr. Bone: To ask the Secretary of State for Health if he will bring forward proposals to abolish car parking charges at hospitals in England. [223627]

Mr. Bradshaw: There are no plans to abolish car parking charges at hospitals in England. These charges are decided locally by individual trusts to help cover the cost of running and maintaining a car park. If no charges were made for car parking then these funds

would have to be found from elsewhere within that trust's budget, thereby reducing the amount of funds available for patient care.

All trusts should have exemption and concessionary schemes in place to ensure that patients and carers who visit hospital regularly are not disadvantaged. They should also have sustainable public transport plans in place for staff and visitors.

Hypothermia: Elderly

Mr. Sanders: To ask the Secretary of State for Health what steps he plans to take to assist elderly people to avoid hypothermia during winter months. [223585]

Mr. Bradshaw: The Department runs an annual Keep Warm Keep Well (KWKW) campaign to reduce the harm to health associated by cold weather, including preventing hypothermia in elderly people. This year, the KWKW campaign has piloted and developed materials that specifically target high-risk groups, and includes a booklet designed for elderly people. This includes information on how to ensure elderly people are claiming all the benefits they are entitled to, how to access grants to help keep their homes warmer and advice about how to keep warm and reduce the risk to health during a cold period. This booklet will be distributed to a wide range of venues that elderly people frequent, including general practitioner surgeries and pharmacies. Last year over two million copies were distributed.

Additionally, the Department is working closely with Warmfront to ensure better targeting of older people with information to access grants to improve insulation and heating and to maximise benefits that they are entitled to.

Independent Reconfiguration Panel

Mr. Greg Knight: To ask the Secretary of State for Health how much funding his Department has given to the Independent Reconfiguration Panel in each of the last five years. [223597]

Mr. Bradshaw: Independent Reconfiguration Panel expenditure is not separately identified within departmental costs.

Mr. Greg Knight: To ask the Secretary of State for Health what estimate he has made of the percentage of his decisions on healthcare reconfiguration that have *(a)* reflected and *(b)* rejected the view of the Independent Reconfiguration Panel; and if he will make a statement. [223598]

Mr. Bradshaw: There have been no occasions where the Secretary of State has chosen to reject the Independent Reconfiguration Panel's recommendations.

Members: Correspondence

Sir John Stanley: To ask the Secretary of State for Health if he will issue a direction to the transport co-ordinator of the South West Thames Retrieval Service to reply to the letters sent to her by the right hon. Member for Tonbridge and Malling on *(a)* 19 May and *(b)* 1 August 2008 on the death of a child in his constituency. [223473]

Mr. Bradshaw: We are sorry to learn of the death of the child of the right hon. Member's constituents, and we offer our condolences to the family. The South Thames Retrieval Service is provided by Guy's and St. Thomas' NHS Foundation Trust, and this is therefore a matter for the Foundation Trust. We have written to Patricia Moberly, chair of Guy's and St. Thomas' NHS Foundation Trust, informing her of the right hon. Member's inquiry. She will reply shortly, and a copy of the letter will be placed in the Library.

NHS: Dental Services

Mr. Sanders: To ask the Secretary of State for Health how many dentists per head of population there were in *(a)* Torbay and *(b)* England at the latest date for which figures are available. [223583]

Mr. Bradshaw: The number of dentists with national health service activity in England, per 100,000 population, during the year ending 31 March 2008 is available in Table G1 of Annex 3 of the NHS Dental Statistics for England: 2007-08 report. Information is available by primary care trust and strategic health authority. This is the latest information available.

This report, published on 21 August 2008 by the NHS Information Centre for health and social care, has already been placed in the Library and is also on the NHS Information Centre website at:

www.ic.nhs.uk/pubs/dental0708

NHS: Personnel

Mr. Spellar: To ask the Secretary of State for Health what estimate he has made of the extent to which NHS trusts employ staff on short term contracts who have left other NHS employers with substantial severance packages; and if he will make a statement. [223499]

Mr. Bradshaw: Information relating to individual contracts of employment is not collected centrally.

The Department would expect NHS employers to adhere to relevant employment law and departmental guidance and to follow good human resources practice when dealing with contracts of employment.

Pharmacy: Rural Areas

Mr. Clifton-Brown: To ask the Secretary of State for Health what criteria are being used in reviewing the operation of dispensaries in doctors' surgeries in rural areas; and what safeguards are being put in place for the access of the elderly and vulnerable to such dispensing services. [223479]

Dawn Primarolo: The factors for consideration are set out in the consultation paper, "Pharmacy in England: Building on strengths—delivering the future, proposals for legislative change", published on 27 August 2008. The consultation has been placed in the Library and is available on the Department's website at:

www.dh.gov.uk/en/Consultations/Liveconsultations/DH_087324

As part of this consultation, we have put forward a range of options, including doing nothing in respect of general practitioner dispensing arrangements, on which

we are seeking views. The impact assessments, which have been published as part of the consultation, consider the likely effects of each of the options available.

Tobacco

David Taylor: To ask the Secretary of State for Health what consideration is being given to the role of track and trace systems for tobacco products in the current consultation on the future of tobacco controls; and if he will make a statement. [223590]

Mr. Bradshaw: The Department's consultation on the future of tobacco control closed for responses on 8 September 2008. Responses received are now under consideration.

TRANSPORT

Bus Services: Finance

Mr. Sanders: To ask the Secretary of State for Transport what sources of public funding bus operators can access to support their provision of services; and against what criteria applications for payments from such sources are determined. [223584]

Ms Rosie Winterton: All operators of local bus services are eligible to receive Bus Service Operators Grant from my Department. The main criterion, other than being a local service, is that the service is one which is normally available to, and regularly used by, members of the general public.

Bus operators are reimbursed by local authorities for provision of mandatory free travel on local buses for those aged 60 or over and disabled people.

Local authorities have powers to provide financial support for the provision of a bus service where transport needs would not otherwise be met. The criteria for deciding which services should be supported are a matter for the local authority concerned.

Departmental Cleaning Services

John McDonnell: To ask the Secretary of State for Transport which contractors her Department uses to undertake cleaning duties; and what the hourly rates of pay are for cleaners working in the Department. [223278]

Jim Fitzpatrick *[holding answer 10 September 2008]:* The requested information is provided in the following table:

	Contractor	*Hourly rate*
DfT Central—London HQ	Operon	[illegible]
DfT Central—Air Accident Investigation Branch	Network Cleaning Services	[illegible]
DfT Central—Marine Accident Investigation Branch	Alistair Donaldson & Co	[illegible]
DfT Central—Rail Accident Investigation Branch	Clean Slate (UK) Ltd.	[illegible]
	ClientCare Cleaning Ltd.	[illegible]
Driving Standards Agency—Axis Building, Nottingham	Sodexo	£7.50 (supervisor)
		£5.85 (cleaner)
Driving Standards Agency—Cardington Centre, Bedford	Sodexo	£8.97 (supervisor)
		£6.40 (cleaner)
Driving Standards Agency—Eastgate House, Newcastle	Consultant Cleaners	£8.11 (supervisor)
		£5.73 (cleaner)
Driving Standards Agency—Regional Test Centres	[illegible]	[illegible]
Driver and Vehicle Licensing Agency (DVLA)	DVLA entered into a private finance initiative contract with Land Securities Trillium (LST) in 2005 for the provision of cleaning and a wide range of facilities managed services. LST work with three cleaning service partners across the DVLA portfolio and these are: OCS—One Complete Solution; MITIE Managed Services; and ISS	[illegible]
Government Car and Despatch Agency	Lancaster Office Cleaning	£6.00

	Contractor	Hourly rate
Highways Agency	Strand Cleaning	[1]
	OCS	
	ICM	
	Shield Service Group	
	Wrightway Office Cleaners	
	Associated Cleaning Contractors	
	Initial	
Maritime and Coastguard Agency	[1]	[1]
Vehicle and Operator Services Agency	[1]	[1]
Vehicle Certification Agency	ISS/Medicare Ltd.	[2]

[1] The information requested is commercially confidential.
[2] Service is contracted out.
[3] The information requested can be provided only at disproportionate cost.

Departmental Motor Vehicles

Mr. Peter Ainsworth: To ask the Secretary of State for Transport what the *(a)* cost and *(b)* quantity of fuel used by her Department's road vehicles was in the last 12 months. [223450]

Jim Fitzpatrick *[holding answer 10 September 2008]:* The requested information where available is as follows:

	Cost (£)	Quantity (litres)
DfT Central—London HQ[1]	—	—
DfT Central—Air Accidents Investigation Branch[2]	11,450	9,954
DfT Central—Marine Accident Investigation Branch[3]	1,530	1,321
DfT Central—Rail Accident Investigation Branch[3]	1,511	1,461
Driving Standards Agency[4]	274,286	[5]272,000
Driver and Vehicle Licensing Agency	[6]	[6]
Government Car and Despatch Agency[3]	957,633	812,063
Highways Agency—Traffic Officer Fleet	2,585,308	2,273,599
Highways Agency—Winter Service Vehicles	[6]	[5]918,000
Maritime and Coastguard Agency	[6]	[6]
Vehicle and Operator Services Agency[3]	401,636	[6]
Vehicle Certification Agency	[6]	[6]

[1] Included within Government Car and Despatch Agency.
[2] Includes fuel purchased for hire cars, used when all Air Accidents Investigation Branch vehicles are committed. Hire cars were used heavily during late January and February this year during the major Heathrow accident.
[3] Data relate to financial year 2007-08.
[4] This includes fuel purchased using company fuel cards and hire car refills. Fuel purchased through employees' travel and subsistence claims cannot be identified separately. The Driving Standards Agency fleet of vehicles is comprised of cars, motorcycles, PCVs and LGVs.
[5] Per annum estimate.
[6] The information requested can only be provided at disproportionate cost.

Heavy Goods Vehicles

Dr. Ladyman: To ask the Secretary of State for Transport how many offences of vehicle overloading by *(a)* overseas and *(b)* UK hauliers have been detected by weigh in motion sensors each quarter since their initial deployment. [223387]

Jim Fitzpatrick *[holding answer 10 September 2008]:* The Vehicle and Operator Services Agency (VOSA) does not record the total number of overloading offences by overseas or UK hauliers detected by Weigh In Motion Sensors (WIMS). A new system is being investigated to enable VOSA to record this information nationally in future.

However, the following prohibition figures are from sites since WIMS has been installed and while they have been manned by enforcement officers:

Location: Dartford tunnel approach A282 Dartford Kent

Financial year	Nationality	Weighed	Weighing prohibitions	Prohibition rate (percentage)

Official Cars: Exhaust Emissions

Jo Swinson: To ask the Secretary of State for Transport what steps have been taken to reduce carbon dioxide emissions from the Government's fleet of ministerial cars; and what steps she plans to take in the future. [223492]

Jim Fitzpatrick: The Government Car and Despatch Agency is responsible for providing ministerial cars. Each year since 2005-06, the Agency have been set a target to reduce the average tailpipe emissions of CO_2 from its fleet. In April 2005, the ministerial fleet average was 204.92 grams per kilometre (g/km). In March 2008, the fleet average was 145.2 g/km, a reduction of over 29 per cent. The Agency is exploring ways of getting the whole of the ministerial fleet to an average of 130 g/km in line with the Government's target for the whole Government fleet of 130 g/km by 2012.

Official Cars: Taxation

Jo Swinson: To ask the Secretary of State for Transport whether the ministerial car fleet is subject to the standard road tax regime. [223491]

Jim Fitzpatrick: In line with all other Crown vehicles, the entire fleet of vehicles operated by the Government Car and Despatch Agency is exempt from paying vehicle and excise duty.

Public Transport: Access

Jon Trickett: To ask the Secretary of State for Transport what assessment she has made of the accessibility of public transport to people with macular degeneration; what steps her Department is taking to improve such accessibility; and if she will make a statement. [223552]

Ms Rosie Winterton: The Disability Discrimination Act (DDA) 1995 contains provisions which allow for regulations to be made setting out how the accessibility needs of disabled people must be met. This includes the needs of visually impaired people, such as those with macular degeneration.

The Public Service Vehicles Accessibility Regulations 2000 were introduced under powers granted to Government under part 5 of the DDA 1995. From 31 December 2000, the regulations have required that new full size buses used on scheduled or local services be accessible to disabled people. The regulations include facilities such as visual contrast on step edges for the visually impaired.

The Rail Vehicle Accessibility Regulations came into force on 1 November 1998 and applied to all new rail vehicles entering service after 31 December 1998. The regulations specify features including audible destination announcements, audible door closure warnings and control buttons identifiable by touch.

Railways: Contracts

Sir John Stanley: To ask the Secretary of State for Transport if she will place in the Library a copy of the response by Passenger Focus to her Department's South Central Franchise Consultation document of May 2008. [223610]

Ms Rosie Winterton: Copies of the Passenger Focus response to the South Central Franchise Consultation document have been placed in the Libraries of the House.

Railways: Electrification

Norman Baker: To ask the Secretary of State for Transport what estimate she has made of the cost of electrifying one mile of railway. [223649]

Ms Rosie Winterton: The cost of electrifying the railway network is currently estimated at around £800,000 per single track mile (£500,000 per single track kilometre) dependent on the complexity and constraints of the particular line.

Roads

Mr. Spellar: To ask the Secretary of State for Transport what assessment her Department has made of the likely effects of using lane space for *(a)* hard shoulder running, *(b)* car share lanes and *(c)* tolled lanes. [223497]

Ms Rosie Winterton: In March, a report was made to the Secretary of State on the feasibility, costs and benefits of extending advanced signalling and traffic management techniques more widely across the motorway network. This looked at hard shoulder running and also considered the potential that a more managed motorway environment would offer for other traffic management approaches, for example car share lanes and tolled lanes. Car share and tolled lanes have worked well in other countries and we are exploring how well they could work on our motorways.

The Feasibility Study can be found on the Department for Transport's website at:

http://www.dft.gov.uk/pgr/roads/network/policy/mtorsign trafmanagement/.

Following that the Secretary of State commissioned a more detailed study to appraise the various options for managing our motorways more effectively in locations identified across the network. This work is due to be complete by the end of the year.

Roads: Litter

Mr. Paice: To ask the Secretary of State for Transport how much was spent by the Highways Agency on litter collection from land for which it is the responsible authority in each of the last 10 years. [223665]

Ms Rosie Winterton: Section 89 of the Environmental Protection Act 1990 places a duty on the Highways Agency to remove litter from motorways in England. Responsibility for removing litter from the all purpose trunk road network, with the exception of DBFO managed roads, lies with local authorities.

Litter collection on motorways is one of the numerous duties carried out as part of the Highway's Agency's routine maintenance function and costs for individual activities are not recorded separately. It is therefore not possible to provide costs for litter collection.

Roads: Tolls

Mr. Crausby: To ask the Secretary of State for Transport what representations she has received on the proposed congestion charge in the Greater Manchester area from organisations and residents *(a)* in Bolton, *(b)* in Greater Manchester and *(c)* elsewhere. [223378]

Ms Rosie Winterton *[holding answer 10 September 2008]:* Greater Manchester's Transport Innovation Fund bid has been discussed in a number of meetings at which Ministers and officials of the Department for Transport have been present. We have also received correspondence on the subject from individuals and organisations within and outside Greater Manchester.

Speed Limits: Cameras

Mr. Spellar: To ask the Secretary of State for Transport what recent discussions her Department has had with the Derbyshire Road Safety Partnership on proposals to introduce unmarked speed cameras. [223498]

Jim Fitzpatrick: The Department understands that Derbyshire Road Safety Partnership has recently used an unmarked vehicle to deploy mobile speed camera enforcement to target speeding motorcyclists. The county has suffered from a high number of motorcyclists being killed and seriously injured, currently accounting for 30 per cent. of all people killed and seriously injured on the roads. The unmarked vehicle is used on some of Derbyshire's most dangerous roads and is one of the many tools the partnership use to try to reduce motorcycle casualties. Initial feedback suggests that there has been a considerable reduction in speeding as a result of this covert enforcement.

Since 1 April 2007, the deployment of safety cameras has been the responsibility of individual local partnerships. The Department's guidance provides best practice advice on the deployment of speed cameras and recommends highly visible enforcement. However, the guidance explicitly states that it does not restrict or fetter the police's discretion to enforce the speed limit covertly anywhere, at any time. A similar statement was previously included in the Handbook of Rules and Guidance for the National Safety Camera Programme for England and Wales.

Stations: Greater London

Norman Baker: To ask the Secretary of State for Transport if her Department will make an assessment of the effects on *(a)* the local community and *(b)* regeneration in the King's Cross area of Network Rail's plans to close permanently pedestrian access routes to King's Cross and St Pancras rail stations from the north-east of the station complex; and if she will make a statement. [223472]

Ms Rosie Winterton: Network Rail applied for and received planning consent from the local planning authority (London borough of Camden) for the redevelopment of King's Cross station. Consultation was undertaken as part of this process, which resulted in Network Rail commissioning a study to consider ways to maintain access to the station from York Way. Network Rail has advised me that the study concluded that from an operational safety perspective the access to York Way in this location could not be maintained.

Trains: York

Mr. Greg Knight: To ask the Secretary of State for Transport how many times trains have been forced to wait for platform availability at York station in each of the last 52 weeks; what steps she is taking to provide more platform capacity at York station; and what steps she is taking to provide more car parking capacity at York station. [223599]

Ms Rosie Winterton: Platform availability is an operational matter for Network Rail as the owner and operator of the national rail network. The right hon. Member should contact Network Rail's chief executive at the following address for a response to his question:

Iain Coucher
Chief Executive
Network Rail
Kings Place
90 York Way
London
N1 9AG

The Government and the rail industry are committed to improving the performance of the railways and have developed the concept of the Route Utilisation Strategy (RUS) to examine the appropriateness of train services and railway infrastructure to meet current and forecast demand. RUSs seek to balance capacity (including station capacity), passenger and freight demand, operational performance and cost, to address the requirements of funders and stakeholders. The East Coast Main Line RUS, published by Network Rail in February 2008, examined capacity at York station. It identified the need for improvements to the track layout at the southern end of the station. This proposal is being taken into account by the Office of Rail Regulation in its consideration of Network Rail's funding for the period 2009-14.

National Express East Coast is working with the Department for Transport to fulfil its obligation to provide additional car parking spaces at York station.

Transport: Exhaust Emissions

Norman Baker: To ask the Secretary of State for Transport what estimate she has made of the volume of carbon dioxide emissions from *(a)* road transport and *(b)* domestic aviation in each year since 1997. [223650]

Jim Fitzpatrick: The National Atmospheric Emissions Inventory (NAEI) compiles estimates of emissions to the atmosphere from UK sources. The most recent NAEI data published by DEFRA can be found at:

http://www.defra.gov.uk/environment/statistics/globatmos/download/xls/gatb04.xls

The following table contains the estimates of carbon dioxide emissions from road transport and domestic aviation for each year from 1997 until 2006 which is the latest year for which official figures have been published.

Mt CO_2

	Road transport	*Domestic aviation*
1997	116.6	1.4
1998	115.9	1.5
1999	116.8	1.7
2000	116.0	1.9
2001	116.0	2.0
2002	118.4	2.0
2003	118.2	2.1
2004	119.4	2.2
2005	119.9	2.4
2006	120.3	2.3

CHILDREN, SCHOOLS AND FAMILIES

Carbon Emissions

Dan Rogerson: To ask the Secretary of State for Children, Schools and Families wnat steps his Department plans to take to *(a)* measure and *(b)* offset the carbon dioxide emissions caused by producing departmental documents. [223596]

Kevin Brennan: The Department does not currently measure or offset the carbon dioxide emissions caused by producing departmental documents across the Department, although it does offset carbon dioxide

emissions from air travel. Some contracts have their own arrangements for carbon offsetting, e.g. documents produced in relation to the sustainable schools strategy.

The Department has always encouraged adoption of sustainable practices through its print and publications supply chains, for example using recycled paper and, where possible, environmentally friendly alternative products. However, the Department's new, broader, Publication, Production, Management and Delivery tender includes requirements to be measured against the Department's Sustainable Development Action Plan (SDAP) in its specification. This will rate suppliers' impacts against the SDAP, and provide measurements against it, specifically by encouraging greater use of e channels; encouraging supply chains to implement low carbon emission printing equipment; and minimising unnecessary transportation of materials through the supply chain. The tender will be completed next year and operational around early summer 2009.

Children in Care: Health

Annette Brooke: To ask the Secretary of State for Children, Schools and Families in what ways he expects revised statutory guidance on looked-after children to affect the provision of healthcare assessments and reviews. [223098]

Beverley Hughes *[holding answer 10 September 2008]:* The existing guidance on promoting the health of looked-after children published in 2002 sets out what health assessments should cover and the nature of the services which should be provided to meet the child's physical, emotional and mental health needs. The guidance is statutory for local authorities but not on health bodies. Revised guidance will be on a statutory footing for primary care trusts, strategic health authorities, NHS trusts, and NHS foundation trusts as well as local authorities. This will ensure the importance of the active co-operation of health services in the health assessments of looked-after children under the general duty in section 10 of the Children Act 2004, which requires primary care trusts and strategic health authorities to co-operate with local authorities and other agencies to improve the well-being of children in their area.

Annette Brooke: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the likely effects of new joint strategic needs assessments on the health and well-being of looked-after children; and what steps his Department plans to take to monitor those effects. [223100]

Beverley Hughes *[holding answer 10 September 2008]:* All local authorities, from 1 April 2008, are required to produce a Joint Strategic Needs Assessment (JSNA). This is the means by which primary care trusts (PCTs) and local authorities identify future health and well-being needs of local populations, including looked-after children, to inform the priorities and targets of Local Area Agreements and local commissioning priorities.

Improvements in the health of looked-after children will be monitored through existing data collections, in particular, the new indicator on the emotional health of looked-after children and through the Ofsted led programme of inspection of services and outcomes for looked-after children.

Children: Databases

Annette Brooke: To ask the Secretary of State for Children, Schools and Families when he plans to issue revised guidance on the implementation of sections 10 and 11 of the Children Act 2004; what plans he has to provide funding for implementation of such guidance; and what steps his Department will take to monitor health agencies' compliance with such guidance. [223099]

Beverley Hughes *[holding answer 10 September 2008]:* As set out in the Children's Plan launched by the Secretary of State in December 2007, the Government are committed to publishing revised statutory guidance under Section 10 of the Children Act 2004 on inter-agency co-operation to improve the well-being of children, young people and families later this year. A revised version of the statutory guidance under Section 11 on making arrangements to safeguard and promote the welfare of children, originally issued in 2005, was published in April 2007. The Government have no plans to issue further revised guidance at this stage.

The Government have no plans to provide specific additional funding for implementing these guidance documents, which are intended to clarify the statutory responsibilities of local authorities and other bodies, including health agencies, for which they receive mainstream funding. The Government have however commissioned an audit of the extent to which public organisations have been complying with their duties under Section 11. The results of the survey will be made public in spring 2009.

From April 2009, the performance of local authorities and their partners will be assessed under the new, multi-inspectorate Comprehensive Area Assessment (CAA). This will focus on the delivery of key outcomes in an area, and the contribution of statutory and non-statutory partners, including health agencies, will be in scope. Inspectorates are currently consulting on CAA, and intend to publish their framework in February 2009.

Children: Disabled

Mrs. Riordan: To ask the Secretary of State for Children, Schools and Families what plans he has for funding for disabled children in schools in the next three years. [223103]

Kevin Brennan *[holding answer 10 September 2008]:* Local authorities are responsible for the distribution of funding (including funding provided through the dedicated schools grant (DSG)) to schools in their area. Each local authority in consultation with their schools forum has a funding formula that they have designed and agreed to cater for the needs of their own area including children with disabilities. Local authorities planned expenditure on special educational needs—which includes but is not limited to disabled children—has increased by over £2.3 billion from £2.8 billion in 2000-01 to £5.1 billion in 2008-09. This represents a cash terms increase of 84 per cent. between the 2000-01 and the 2008-09 financial years.

The local authority is best placed to meet the need of its schools in their area and to work with schools to ensure that resources are applied and managed effectively to deliver the highest possible standards of education.

The Schools Access Initiative has £288 million over the three years 2008-11 (£96 million per year) as capital funding to assist local authorities in making schools accessible to disabled pupils and those with SEN.

The DCSF has committed £430 million in this CSR period through the joint DCSF—Department of Health "Aiming High for Disabled Children" programme to support transformation of services for disabled children, young people and their families. This will focus on improvements to services such as short breaks, transition to adulthood, accessible child care and support for parental engagement.

Children's Centres: Parents

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many and what proportion of Sure Start Children's Centres run positive parenting programmes. [223101]

Beverley Hughes *[holding answer 10 September 2008]:* All Sure Start Children's Centres are expected to offer parenting and family support services, including parenting programmes, based on consultation with families and identified local need. Information on exactly which services are provided in each Sure Start Children's Centre is not collected centrally.

Departmental Conferences

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families if he will list the conferences hosted by his Department in each of the last two years; and what the cost was of each conference. [211696]

Kevin Brennan: The information requested is not held centrally and could be obtained only at disproportionate cost.

Equality

Mr. Hancock: To ask the Secretary of State for Children, Schools and Families if he will take steps to establish a strategy to tackle age discrimination and promote age equality in the provision of goods and services *(a)* by his Department and *(b)* within the sectors for which he has policy responsibility; and if he will make a statement. [210461]

Kevin Brennan: The Department is committed to ensuring that children of all ages and stages of development receive the appropriate education and services. The Government recently published their response to the consultation on the proposals for the Equality Bill, "A Framework for Fairness". The response made clear that, after careful consideration, it has been decided not to extend legal protection from age discrimination to children. This is because a child's age is closely related to his or her levels of development and need, something which is not generally true of an adult's age. Children need to be treated in ways that are appropriate to their different ages, and age-related treatment of children in schools and in the delivery of children's services is not the same as age discrimination.

Head Teachers: Stress

Tim Farron: To ask the Secretary of State for Children, Schools and Families how many head teachers have left their post as a result of a stress-related illness in each of the last five years. [223520]

Jim Knight: The information requested is not collected centrally.

Personal Records: ContractPoint Database

Mr. Laws: To ask the Secretary of State for Children, Schools and Families whether police forces will have access to the ContactPoint database; and if he will make a statement. [223504]

Kevin Brennan: Members of police forces and authorities in England are named in The Children Act 2004 (Information Database) England Regulations 2007 as one of the groups of people who may be given access to the database by a local authority.

Youth justice services are an important part of the support provided to children and young people. Access to ContactPoint will help to inform their decisions about the most appropriate way to support a child and ensure that work is not duplicated.

Access will be granted only to those individuals who need to use it as part of their work supporting children and young people. For police forces this will include those who regularly work with young people in areas such as victim units, domestic violence, safeguarding, child abuse investigation, and youth offending teams. All users will have been through mandatory training and security clearance before being granted access to ContactPoint.

ContactPoint will hold basic information only. It will not hold details of arrest or criminal activity; it will not provide a record of whether or not a child or a member of their family is an offender; and it will not hold subjective observations or case information.

In addition to supporting children's services, the regulations permit the Secretary of State or a local authority to disclose data held on ContactPoint in very limited, prescribed circumstances, including where:

disclosure is required by court order or by law; or

disclosure is required for the purposes of:

the prevention or detection of crime or .

the prosecution of offenders

an investigation under section 47 of the Children Act 1989

a local safeguarding children board in exercising its functions under 5(1)(e) of the local safeguarding children board regulations 2006.

For these purposes, police would have to make a special request, on a case by case basis, directly to the Secretary of State or local authority and make a clear and exceptional case for disclosure. The Secretary of State or local authority will then consider each case on its merits when deciding whether to disclose the data.

Schools: Finance

Harry Cohen: To ask the Secretary of State for Children, Schools and Families what the real change in spending per school child has been *(a)* since 1997, *(b)* in the last 10 years and *(c)* in the last five years (i) in Waltham Forest, (ii) in Redbridge and (iii) nationally. [223659]

Jim Knight: The available information on spending per school child since 1997-98 to 2006-07 is contained within the following tables:

School based expenditure[1, 2, 3] per pupil[4] in cash terms since 1997-98

	£ per pupil in cash terms[5]									
	1997-98[6]	*1998-99*[6]	*1999-2000*[2,7]	*2000-01*	*2001-02*	*2002-03*[2,3,8]	*2003-04*	*2004-5*	*2005-06*	*2006-07*
Redbridge	2,260	2,320	2,530	2,780	3,230	3,080	3,340	3,530	3,790	4,030
Waltham Forest	2,510	2,580	2,970	3,130	3,740	3,590	3,940	4,100	4,360	4,610
England	2,080	2,190	2,390	2,620	2,940	2,950	3,230	3,450	3,720	3,960

School based expenditure[1, 2, 3] per pupil[4] in real terms since 1997-98

	£ per pupil in real terms[5]									
	1997-98[6]	*1998-99*[6]	*1999-2000*[2,7]	*2000-01*	*2001-02*	*2002-03*[2,3,8]	*2003-04*	*2004-05*	*2005-06*	*2006-07*
Redbridge	2,890	2,900	3,090	3,350	3,810	3,510	3,710	3,810	4,010	4,150
Waltham Forest	3,210	3,220	3,630	3,780	4,410	4,100	4,370	4,420	4,610	4,740
England	2,650	2,740	2,920	3,160	3,460	3,370	3,580	3,730	3,930	4,070

[1] School based expenditure includes only expenditure incurred directly by the schools. This includes the pay of teachers and school-based support staff, school premises costs, books and equipment, and certain other supplies and services, less any capital items funded from recurrent spending and income from sales, fees and charges and rents and rates. This excludes the central cost of support services such as home to school transport, local authority administration and the financing of capital expenditure.

[2] 1999-2000 saw a change in data source when the data collection moved from the R01 form collected by the ODPM to the Section 52 form from the DCSF (formally) DFES. 2002-03 saw a further break in the time series following the introduction of Consistent Financial Reporting (CFR) to schools and the associated restructuring of the outturn tables. The change in sources is shown by the dotted line. Comparable figures are not available prior to 1992-93.

[3]. The calculation for 2002-03 onwards is broadly similar to the calculation in previous years. However, 2001-02 and earlier years includes all premature retirement compensation (PRC) and Crombie payments, mandatory PRC payments and other indirect employee expenses. In 2001-02 this accounted for approximately £70 per pupil. From 2002-03 onwards only the schools element of these categories is included and this accounted for approximately £50 per pupil of the 2002-03 total. Also, for some LAs, expenditure that had previously been attributed to the school sectors was reported within the LA part of the form from 2002-03, though this is not quantifiable from existing sources.

[4] Pupil numbers include only those pupils attending maintained establishments within each sector and are drawn from the DCSF (formally DfES) Annual Schools Census adjusted to be on a financial year basis.

[5] Figures are as reported by local authorities as at 9th September 2008 and are rounded to the nearest £10.

[6] Spending in 1997-98 reflects the transfer of monies from local government to central government for the nursery vouchers scheme. These were returned to local government from 1998-99.

[7] The 1999-00 figures reflect the return of GM schools to local authority maintenance.

[8] School based expenditure in nursery schools was not recorded in 2002-03 and are therefore not included in the figures for that year.

Note:

Expenditure was not distinguished between the pre-primary and primary sectors until the inception of Section 52 for financial year 1999-2000.

Schools: Inspections

Tim Farron: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number of head teachers who have left their post within six months of the completion of an Ofsted inspection of their school in each of the last five years. [223519]

Jim Knight: The information is not collected centrally.

HOME DEPARTMENT

Biometrics: Fingerprints

Lynne Jones: To ask the Secretary of State for the Home Department what assessment she has made of the capability of external suppliers to provide for the secure collection of fingerprint biometrics; and if she will make a statement. [219754]

Meg Hillier: The Identity and Passport Service has appointed five suppliers to act as the 'Strategic Supplier Group' for the National Identity Scheme. This group (CSC, EDS, IBM, Fujitsu and Thales) signed framework agreements with IPS in June 2008 and will compete in procurement exercises for contracts to deliver National Identity Scheme capabilities.

As part of the framework procurement assessments were made of each firm's capability and capacity in a number of areas related to the scheme including those related to biometrics. As part of the process for awarding specific contracts assessments will be made of the proposed approaches and technology. In addition all technology deployed will be subject to thorough and robust testing and trialling prior to deployment.

Closed Circuit Television: Bolton

Mr. Crausby: To ask the Secretary of State for the Home Department how much public funding has been spent on CCTV security cameras in Bolton North East since 1997. [223671]

Mr. Coaker: Bolton metropolitan borough council (information is not available on a constituency-by-constituency basis) received a total of £729,441 as part of the Home Office Crime and Disorder Reduction Programme, between 1997 and 2003. No other central Government funding for CCTV has been provided since then.

Criminal Records: International Cooperation

Mr. Ruffley: To ask the Secretary of State for the Home Department when she expects the discussions between the Criminal Records Bureau and the Association of Chief Police Officers on seeking access to *(a)* European Union and *(b)* other foreign criminal conviction data to produce an outcome; and if she will make a statement. [219161]

Meg Hillier: The Criminal Records Bureau contacted all member states in 2007 to establish whether there was an opportunity to enter into agreements to exchange data for employment vetting purposes where national laws allowed. To date there have been positive responses from some member states—the Republic of Ireland, France, Estonia and Poland. Australia has also indicated a willingness to share information.

A Home Office chaired Steering Group has been established to oversee this project and representatives include the Association of Chief Police Officers and the Criminal Records Bureau.

Even when another jurisdiction is willing to exchange such information, detailed work will still be needed with each overseas jurisdiction on a range of issues, including any legislative and data protection considerations in each country, forming an understanding of offence descriptions which may differ from those used in UK jurisdictions and establishing exchange arrangements where criminal records data are not held centrally in the overseas jurisdiction, or are not held electronically.

Essex Police Authority: Data Protection

Mr. Amess: To ask the Secretary of State for the Home Department how many people employed by Essex Police Authority of each grade have *(a)* partial and *(b)* full access to data held by her Department; what guidance her Department issues to persons seeking access to this data; and if she will make a statement. [218500]

Mr. McNulty: Eight people employed by the Essex police authority have regular partial access to data held by the Home Office for performance management purposes. The access to those data is subject to terms and conditions of use. More general ad-hoc access to data would be subject to the Home Office Information Charter.

Genetics: Databases

Jenny Willott: To ask the Secretary of State for the Home Department what her latest estimate is of the number of DNA samples taken and loaded onto the national DNA database since the Criminal Justice and Police Act 2001 came into force, which would not previously have been taken; and if she will make a statement. [197315]

Meg Hillier: Before 2001, the police could take DNA samples from anyone charged but had to destroy them (and the profiles on the DNA database derived from them) if charges were dropped or the person was found not guilty. The Criminal Justice and Police Act 2001 changed this so that DNA could be kept from those who had been charged even if they were acquitted. The Criminal Justice Act 2003 (which came into force in 2004) extended the power further so that DNA could be kept from anyone arrested for a recordable offence and held in a police station.

This question therefore relates to the number of people with a record on the national DNA database now, who would not have had a record retained permanently on it under pre-2001 legislation, because they had not been convicted.

It is not possible to say how many people on the NDNAD have not been convicted. This is because the NDNAD itself does not contain any information about criminal records, as this is not necessary for its function of matching DNA from crime scenes with DNA from individuals. To determine whether someone on the NDNAD has been convicted, it is necessary to refer to their record on the police national computer (PNC) which holds criminal record information.

However, before the introduction of the ACPO Criminal Record Retention Guidelines in April 2006, police forces deleted PNC records from some of those convicted of lesser offences after five to 10 years. If the PNC record of someone on the NDNAD no longer exists, it is not possible to determine whether the person has or has not been convicted.

Data obtained from the PNC on 31 March 2008 indicate that 3,832,986 (of the 4,116,713) people had a record retained on the PNC. Of these, 3,259,347 had a conviction, caution, formal warning or reprimand recorded on the PNC.

Pete Wishart: To ask the Secretary of State for the Home Department how many of the estimated one million people whose records are held on the national DNA database who have not been convicted of any crime are domiciled in Scotland. [212898]

Meg Hillier: Information is not collected by my Department on the number of people domiciled Scotland who have not been convicted of any crime, with records on the national DNA database (NDNAD). Police powers to take and retain DNA are a devolved matter and differ between Scotland, and England and Wales. Also, the NDNAD does not hold information on where people with records on it live; information is categorised on the basis of the police force which added the record.

Mr. Evennett: To ask the Secretary of State for the Home Department how many *(a)* children and *(b)* adults resident in Bexley had their DNA recorded on police records in each of the last five years. [213813]

Meg Hillier: Information held on the national DNA database (NDNAD) is available on the basis of the police force which added the DNA profile, not the address of the person sampled. Information is not therefore available on the number of residents of Bexley who have had a DNA profile loaded. Information is

however available on the number of profiles loaded by the Metropolitan police in the last five years as shown in Table 1.

The number of profiles is not the same as the number of individuals. This is because a number of subject profiles on the NDNAD are replicates, i.e. a profile for a person has been loaded to the NDNAD on more than one occasion. This may arise for a number of reasons, such as a person giving a different name on different occasions they are arrested, or because of upgrading of profiles from the SGM to the SGM Plus profiling system. It is estimated that 13.3 per cent. of the subject profiles held on the entire NDNAD are replicates. However, this rate may vary between forces, so figures for the number of individuals are not given for particular forces.

Table 1: Metropolitan police

	Profiles loaded taken from:		
	All ages	*Aged under 18 at time profile loaded*	*Aged 18 and over at time profile loaded*
2003-04	59,810	10,663	49,147
2004-05	74,389	13,838	60,551
2005-06	111,575	18,644	92,931
2006-07	154,674	25,246	129,428
2007-08	86,032	15,299	70,733

National Identity Register

Lynne Jones: To ask the Secretary of State for the Home Department pursuant to the answer of 6 June 2008, *Official Report*, column 999W, on the national identity register, how many contacts for verification and amendment of records she estimates the Identity and Passport Service will receive in the identity card scheme's first 12 months of operation; and what estimate she has made of this cost. [219785]

Meg Hillier: Act from the second half of 2009, will involve cards issued in limited numbers and so there is likely to be only a small number of subsequent amendments to records required in the first year of operation the cost of which will be incorporated in the overall cost of the initial phase of the scheme.

Police: Finance

Mr. Ruffley: To ask the Secretary of State for the Home Department under activity-based costing analysis, what the average *(a)* total direct staff cost, *(b)* total operational support cost, *(c)* total business support cost and *(d)* total cost excluding sustaining overheads was for providing police assistance for a (i) road traffic accident, (ii) public disorder incident, (iii) missing person case, (iv) sudden or suspicious death incident and (v) other non crime incident in each financial year since 2004. [223521]

Mr. McNulty: I refer the hon. Member to the answer given on 25 April 2008, *Official Report*, column 2345W.

Police: Sirens

Kate Hoey: To ask the Secretary of State for the Home Department if she will review the guidance on police siren usage *(a)* in urban areas and *(b)* at night. [223496]

Mr. McNulty: The police use of sirens is governed by the Road Vehicles (Construction and Use) Regulations 1986. These permit the use of sirens only when an emergency service vehicle has to alert other road users that it is present and responding to an urgent incident. Subject to that requirement, the use of sirens is an operational matter for the police.

Sexual Offences

Mr. Ruffley: To ask the Secretary of State for the Home Department how many registered *(a)* sex offenders and *(b)* paedophiles were resident in each police authority area in each of the last five years. [223523]

Mr. Coaker: The information requested is as follows:

(a) This information is published in local multi-agency public protection arrangements (MAPPA) annual reports, which are available in the House Libraries and at:

http://www.probation.justice.gov.uk/output/page30.asp

These data were not collated before 2004-05.

(b) Information on the number of registered sex offenders within each police force area who have committed sexual offences against children is not centrally collated.

Stop and Search: Ethnic Groups

Dr. Kumar: To ask the Secretary of State for the Home Department what assessment she has made of the reasons for black people to be two and a half times more likely than white people to be stopped by police under stop and account powers. [219843]

Mr. McNulty: The police have been required to record the details of those people who have been stopped and required to account for their presence, behaviour or articles in their possession since April 2005. The first data sets relating to stop and account were formally released this year. The National Policing Improvement Agency is currently engaged in work to reduce disproportionality in both the 'Stop and Search' and 'Stop and Account' procedures.

UK Border Agency: Patrol Craft

Damian Green: To ask the Secretary of State for the Home Department how many *(a)* cutters, *(b)* inflatable craft and *(c)* other boats have been in use with (i) the UK Border Agency and (ii) other agencies undertaking border patrols in each year since 1997. [220118]

Mr. Byrne: As of April 2008, the maritime border patrols and operations became the responsibility of the UK Border Agency. These were previously undertaken by either (a) HM Revenue and Customs (HMRC) (from April 2005 until April 2008) or (b) HM Customs and Excise (HMC and E) (prior to April 2005).

Since 2001, a Cutter fleet comprised of five deep sea cutters has been available for operation. Each of the five cutters is further equipped to deploy one rigid hull inflatable boat (RIB).

Additionally, the UKBA has various craft which are on loan to other agencies which are involved in border activity. There are currently a total of 13 craft on loan to colleagues in other border agencies. This figure can be broken down as follows:

One inflatable craft with Dorset Police

One small craft with Isle of Man Customs

One small craft with the Maritime and Coastguard Agency

One small craft with Essex Police

One small craft with Dover Port Police.

Eight small craft with the Maritime Volunteer Service

Prior to 2001, these vessels were operated by HM Customs and Excise, and were not on loan. No vessels other than those listed above were operated. The main cutter fleet has consistently run with five operational vessels during the period 1997 to date.

UKBA Maritime assets work regularly in support of operations by both the Police and SOCA in order to provide the earliest possible interdiction of importation attempts and suspected attempts.

DEFENCE

Armed Forces: Cumbria

Mr. Jamie Reed: To ask the Secretary of State for Defence (1) how many members of the armed forces recruited in the last five years from *(a)* Cumbria and *(b)* Copeland were killed in service in (i) Iraq and (ii) Afghanistan; [223201]

(2) how many members of the armed forces recruited in the last five years from *(a)* Cumbria and *(b)* Copeland received debilitating wounds whilst on active service in (i) Iraq and (ii) Afghanistan. [223202]

Derek Twigg *[holding answer 10 September 2008]:* Officials are collating the information requested. When this work is complete, I will write to my hon. Friend and place a copy of my letter in the Library of the House.

Armed Forces: Housing

Willie Rennie: To ask the Secretary of State for Defence how much of receipts from assets sales his Department has allocated to expenditure on armed forces personnel accommodation in each of the last five years. [223181]

Derek Twigg *[holding answer 10 September 2008]:* As part of the periodic Spending Reviews, the Department agrees with HM Treasury annual targets for receipts from the disposal of surplus assets. Net expenditure budgets are agreed accordingly with receipts contributing to capital investment in infrastructure and the estate. While there is usually no direct link between the receipts from asset sales and expenditure on accommodation, HM Treasury agreed with the Department as part of the 2007 Comprehensive Spending Review, that the proceeds from the disposal of Chelsea should be ring-fenced to be invested in service accommodation.

Army: Foreigners

Bob Russell: To ask the Secretary of State for Defence what proportion of *(a)* all personnel and *(b)* officers in the army were nationals of overseas countries (A) in 1997, (B) in 2001, (C) in 2005 and (D) at the latest date for which information is available. [223300]

Derek Twigg *[holding answer 10 September 2008]:* The proportion of all personnel and officers in the regular Army whose nationality was that of an overseas country in 1997, 2001, 2005 and 1 July 2008 are given in the following table:

Proportion of (i) all regular Army personnel and (ii) Army officers by nationality

Percentage

	1 April 1997		*1 April 2001*		*1 April 2005*		*1 July 2008*[1, 2]	
Nationality	*All personnel*	*Officers*	*All personnel*	*Officers*	*All personnel*	*Officers*	*All Personnel*	*Officers*
UK	99.4	98.7	98.4	98.4	94.2	98.1	92.8[4]	98.1[4]
Foreign and Commonwealth[3]	0.6	1.3	1.6	1.6	5.8	1.9	7.2[4]	1.9[4]

[1] 2,450 personnel with no nationality marker on JPA have been excluded from 1 July 2008 figures.

[2] Due to ongoing validation of data from JPA, Army strength statistics at 1 July 2008 are provisional and subject to review.

[3] Foreign and Commonwealth personnel include personnel whose nationality was that of Republic of Ireland, Commonwealth (excluding UK), UK dependencies and other countries, as recorded on Record of Service/Joint Personnel Administration System (JPA).

[4] Denotes provisional.

Notes:

1. The figures are for regular Army only and therefore exclude Gurkhas, Home Service battalions of the Royal Irish Regiment, Full Time Reserve Service, Mobilised Reserves, TA and all other Reserves. It includes both trained and untrained personnel.
2. Nationality is that recorded on Record of Service/JPA as at the date of strength and is not necessarily the same as at birth or when recruited.

Bob Russell: To ask the Secretary of State for Defence how many non-UK citizens there were in *(a)* the Army excluding the Gurkhas and *(b)* the Gurkhas at the latest date for which figures are available; and how many personnel there were from each (i) overseas country and (ii) British overseas territory in each case. [223301]

Derek Twigg *[holding answer 10 September 2008]:* As at 1 July 2008, there were 7,350 Foreign and Commonwealth trained and untrained regular army officers and soldiers excluding Gurkhas. There were 3,830 trained and untrained Gurkhas as at 1 July 2008, all of whom are Nepalese.

A breakdown of the nationality of these personnel is given in the following table:

Regular army officers and soldiers by nationality as at 1 July 2008

		Officer and soldier		*Officer*		*Soldier*	
Category	*Nationality*	*Trained*	*Untrained*	*Trained*	*Untrained*	*Trained*	*Untrained*
	Total	[1]93,800	[1]10,190	[1]13,820	[1]820	[1]79,980	[1]9,370

[1] Provisional.
[2] Zero.
[3] Fewer than 5.
[4] Citizen of the Irish Republic.

Notes:
1. Prior to 1980 Zimbabwe was known as Rhodesia. Rhodesia was not a member of the Commonwealth. Zimbabwe was suspended from the Councils of the Commonwealth in February 2002. Zimbabwe withdrew from the Commonwealth on 7 December 2003 after the suspension was renewed at the Commonwealth Leaders' meeting. An Act of Parliament is required to affect the status of its citizens if a country withdraws from the Commonwealth.
2. Figures are for trained and untrained regular strengths only and therefore exclude FTRS, Gurkhas and mobilised reservists.
3. Figures have been rounded to 5; numbers ending in "5" have been rounded to the nearest multiple of 20 to prevent systematic bias. Totals have been rounded to 10. Totals and subtotals have been rounded separately and so may not appear to be the sum of their parts.
4. Due to the ongoing validation of the new Joint Personnel Administration System all Army data from 1 April 2007 are provisional and subject to review.

Army: Manpower

Bob Russell: To ask the Secretary of State for Defence how many personnel were enlisted in the Army at the latest date for which information is available. [223291]

Derek Twigg *[holding answer 10 September 2008]:* As at 1 July 2008 the current strength of the Army was 108,750. This figure includes all trained and untrained personnel, Ghurkhas and full-time Reserve personnel. It excludes Army Reservists mobilised for service.

Information on the strength of the Army is published by DASA in its monthly National Statistics release "TSP3: UK Armed Forces Strengths and Requirements" which can be found at:

http://www.dasa.mod.uk/applications/newWeb/www/apps/publications/pubViewFile.php?content=50&date=2008-05-28&type=pdf.

Due to ongoing validation of data from the Joint Personnel Administration System, Army strength statistics at 1 July 2008 are provisional and subject to review.

NATO

Mr. Hancock: To ask the Secretary of State for Defence what the agenda is for the NATO defence ministers' meeting in London on 18 September 2008; and if he will make a statement. [223655]

Des Browne: Following on from discussions at the Bucharest summit, the NATO Secretary-General called for a special meeting of NATO Defence Ministers to focus on the political challenges of NATO reform and to give ministerial direction and leadership to the transformation agenda. As a firm believer in the need for a fresh look at our international institutions, I offered to host the meeting which will be held at Lancaster House on 18 and 19 of September 2008. The Secretary-General has not issued any formal agenda, but has broadly outlined the issues facing the alliance—planning and delivering key capabilities; efficient use of human, financial and technical resources; and joint and proportionate burden-sharing. It is likely we will discuss also recent events in Georgia.

Nuclear Weapons

Mr. Hancock: To ask the Secretary of State for Defence what the UK's policy on nuclear first use is; and if he will publish the relevant guidelines. [223656]

Des Browne: The United Kingdom Government would be prepared to use nuclear weapons only in extreme circumstances of self-defence. We would not use our weapons, whether conventional or nuclear, contrary to international law.

The UK does not rule in or out the first use of nuclear weapons. A policy of no first use of nuclear weapons would be incompatible with our and NATO's doctrine of deterrence. We do not determine in advance how to react to aggression. This would be decided in the context of all circumstances prevailing at the time. Our overall strategy is to ensure uncertainty in the mind of any aggressor about the exact nature of our response, and thus to maintain effective deterrence.

Poland: Ballistic Missile Defence

Mr. Hancock: To ask the Secretary of State for Defence what the Government's policy is on Poland's hosting of US missile defence facilities and Russia's position on such hosting; and if he will make a statement. [223657]

Des Browne: The agreement between Poland and the US to establish a ballistic missile defence interceptor site on Polish territory is welcomed.

The US ballistic missile defence assets in Europe will provide a limited defensive capability against a small number of states of concern who are currently seeking to develop or acquire ballistic missiles with the capability of striking Europe. Russia is fully aware of the capabilities, and limitations, of the planned US system, and are aware that their security should not, and could not, be threatened by it.

COMMUNITIES AND LOCAL GOVERNMENT

Boilers: Natural Gas

Andrew Stunell: To ask the Secretary of State for Communities and Local Government how many gas boilers were installed in homes in England and Wales in each year since 2004; and how many were *(a)* A-rated, *(b)* B-rated condensing boilers and *(c)* D-rated boilers. [219678]

Mr. Woolas: I have been asked to reply.

The following table sets out how many gas boilers were installed in homes in the United Kingdom as a whole. It is not possible to break down these data for England and Wales only.

Number of units sold to the domestic sector

Energy efficiency class	*2005*	*2006*	*2007*
A	824,165	1,051,954	1,271,748
B	200,284	310,844	262,439
C	1,179	482	296
D	449,838	176,463	78,666
E	2,875	0	0
F	32	0	0
G	0	0	0
Unknown	336	8	1,418
Total	1,478,709	1,539,751	1,614,567

Councillors: Codes of Practice

Robert Neill: To ask the Secretary of State for Communities and Local Government whether councillors who are members of a joint committee with another council are required to *(a)* sign the code of conduct and *(b)* maintain a separate register of interests for both the council to which they were elected and the council also represented on the joint committee; and what guidance the Standards Board for England has issued on this matter. [223616]

John Healey: There are no such requirements or guidance.

When a councillor serves on a joint committee, they are acting as a representative of their authority and so must comply with their own council's code of conduct. The councillor's register of interests made to the council they were elected to is available to public scrutiny.

Departmental Cleaning Services

John McDonnell: To ask the Secretary of State for Communities and Local Government which companies her Department has contracts with for the provision of cleaning services; and what the hourly rate of pay is for cleaners in her Department. [223611]

John Healey: Cleaning services are provided as part of the Integrated Facilities Management Contract for CLG's HQ building with MITIE Group PLC. The current hourly rates of pay for cleaning grades are as follows:

	£
Part-time cleaners and full-time day janitors	5.52
Part-time cleaning supervisors	6.70
Full-time day cleaning supervisors	7.78

Departmental Overseas Visits

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 21 April 2008, *Official Report*, column 1392W, on departmental overseas visits, which overseas conferences her Department's representatives attended as part of the 388 overseas visits referred to. [223578]

Mr. Dhanda: Communities and Local Government does not hold central records about individual overseas visits. All overseas visits require the local approval of the appropriate deputy director who will ensure business need and value for money are justified.

Eco-Towns: Expenditure

Mr. Garnier: To ask the Secretary of State for Communities and Local Government how much her Department spent on the eco-town policy and its implementation in each of the last three years for which figures are available; how much it has spent on the policy and its implementation in relation to the Pennbury site in each such year; and what its planned expenditure on the eco-towns policy is *(a)* in relation to the Pennbury site and *(b)* in total in each financial year to 2012-13. [223512]

John Healey: The eco-towns policy was announced in February 2007 and it has been developed alongside our housing policies. The costs for developing the policy form part of the Department's running costs and are set out in the departmental annual report, "Community, opportunity, prosperity". Future allocations to support infrastructure and local authority expenditure in relation to any of the sites will be drawn from the growth funding made available in CSR07.

The Pennbury site was announced as a shortlisted location on 3 April 2008. Since then and to date we have spent or committed approximately £153,000 on publicity and local authority assessment work, in addition to our assessments of financial viability and sustainability for all the sites. We are currently consulting on Pennbury and all the shortlisted eco-town locations.

Energy Performance Certificates

Grant Shapps: To ask the Secretary of State for Communities and Local Government whether data gatherers for energy performance certificates, who are not domestic energy assessors, will need to be accredited and undertake a Criminal Records Bureau check. [223647]

John Healey: CLG has issued guidance setting out the circumstances in which data gatherers may be used. A Criminal Records Bureau check is needed for a data gatherer who visits dwellings unaccompanied by either a domestic energy assessor or the landlord where the dwellings have tenants. A data gatherer does not need to be accredited but cannot produce a certificate. The certificate is the responsibility of the domestic energy assessor (DEA).

English Regions Network

Mr. Pickles: To ask the Secretary of State for Communities and Local Government if she will abolish the English Regions Network. [223624]

John Healey: The English Regional Network is a voluntary body that represents regional assemblies at a national level; as such the Secretary of State does not have the power to abolish it. A consultation paper on the Review of Sub National Economic Development and Regeneration was published on 31 March which included proposals to remove regional planning powers from regional assemblies and a response to that consultation will be issued in due course.

Fire Services

John McDonnell: To ask the Secretary of State for Communities and Local Government (1) what representations she has received on the FiReControl Project from *(a)* Chief Fire Officers, *(b)* chairs of local fire authorities and *(c)* chairs of local authority companies since March 2008; and whether such representations have indicated opposition from fire authorities in their region to the move to regional control centres; [223612]

(2) what plans she has to introduce regional fire control centres in areas where the local fire authority opposes their introduction; under what authority such powers may be exercised; and what powers she has to enforce such action. [223613]

John Healey: We are working closely with all interested parties, including chief fire officers, fire and rescue authorities and local authority controlled companies, to deliver the FiReControl Project. There have been formal and informal representations and as with any project, a mixture of views have been submitted.

As the recently published Business Case Part 1: The Regional Cases show, FiReControl will significantly enhance national resilience and will provide a much greater functionality for the fire and rescue service in England. Communities and Local Government is

committed to delivering this project. The "Fire and Rescue Service National Framework 2008-11" reinforced this commitment.

Communities and Local Government have worked in partnership with other interested parties to deliver the FiReControl Project, and wishes to continue working in this way. But because of its importance we would consider, but only as a last resort, the use of powers under sections 22 and 29 of the Fire and Rescue Services Act 2004 to ensure a successful move to FiReControl Network.

John McDonnell: To ask the Secretary of State for Communities and Local Government what the timetable for the regional fire control centres in England to be fully operational as a national network is. [223614]

Mr. Dhanda: All Fire and Rescue Authorities should have transferred their calls to the regional control centre network by September 2011.

For further details on the schedule for each FRA I refer my hon. Friend to the answer I gave to the hon. Member for Bromley and Chislehurst (Robert Neill) on 2 June 2008, *Official Report*, column 541W.

John McDonnell: To ask the Secretary of State for Communities and Local Government when she plans to publish the full business case for the FiReControl Project. [223615]

John Healey: Part 1 of the Business Case: The Regional Case was published on 8 July 2008, a copy has been placed in the House Library. Part 2: The National Case, will be published later this year.

Fire Services: Equipment

Mr. Fallon: To ask the Secretary of State for Communities and Local Government how many fire appliances there are in service in each brigade; and how many in each brigade carry *(a)* defibrillators and *(b)* other first aid equipment. [223465]

John Healey: Information on the number of front-line pumping appliances and defibrillators in each fire and rescue service in England during 2007 is set out in the following table. Information on how many of these appliances carry a defibrillator or other first aid equipment is not centrally held and could be provided only at disproportionate cost.

Front-line appliances and defibrillators in the fire and rescue services—England 2007

Fire and rescue service	*Front line pumping appliances*	*Defibrillators*[1]

[1] Number of defibrillators held in each fire and rescue service, which are carried on pumps, other vehicles like vans or are located at fire stations.

Source:
Communities and Local Government

Heating

Andrew Stunell: To ask the Secretary of State for Communities and Local Government how many *(a)* domestic and *(b)* non-domestic ground source heat pump installations there are; and what percentage of dwellings have ground source heat pumps installed. [219665]

Malcolm Wicks: I have been asked to reply.

As part of a consortium of organisations including the microgeneration industry and energy NGOs, we commissioned research on the growth potential for microgeneration in England, Wales and Scotland, which included current levels of uptake. It found that there were an estimated 750-2,000 ground source heat pump

installations at the end of 2007. It did not estimate how many were domestic or non-domestic installations.

The research can be accessed at:

http://www.berr.gov.uk/energy/sources/sustainable/microgeneration/research/page38208.html

Heating: Solar Power

Andrew Stunell: To ask the Secretary of State for Communities and Local Government how many *(a)* domestic and *(b)* non-domestic solar thermal hot water installations to buildings there were in each year since 2004; and what percentage of all buildings this represents. [219670]

Malcolm Wicks: I have been asked to reply.

As part of a consortium of organisations including the microgeneration industry and energy NGOs, we commissioned research on the growth potential for microgeneration in England, Wales and Scotland, which included current levels of uptake. It found that there were an estimated 90,000 solar thermal installations at the end of 2007, up from 78,000 at the end of 2004. It did not estimate how many were domestic or non-domestic installations.

The research can be accessed at:

http://www.berr.gov.uk/energy/sources/sustainable/microgeneration/research/page38208.html

Home Information Packs

Grant Shapps: To ask the Secretary of State for Communities and Local Government what assessment she has made of the effects of home information packs on the incidence of *(a)* gazumping and *(b)* gazundering in the housing market. [223644]

John Healey: I refer the hon. Member to the answer my right hon. Friend the Housing Minister gave to the hon. Member for Winchester (Mr. Oaten) on 10 September 2008, *Official Report*, column 1989W.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the maximum shelf life of each element of a commissioned home information pack is. [223646]

Mr. Dhanda: The elements of a home information pack (HIP) have no shelf life under the regulations as there is no requirement for sellers to update any document in the HIP as long as the property remains on the market.

Housing: Low Incomes

Helen Southworth: To ask the Secretary of State for Communities and Local Government if she will take steps to ensure that building affordable family homes is a key component of delivery for development in *(a)* Warrington and *(b)* other housing growth point areas. [223641]

John Healey: Government do not set the levels and mix affordable housing in an area. This is set by local authorities through their local development frameworks as part of regional and local planning processes.

However, in order to emphasise the importance of delivering affordable housing, levels of affordable housing ambition were one of the criteria on which bids for new growth point status were appraised and is a key component of the assessment process for funding from the Growth Fund, which we have recently consulted on. The response to the consultation can be found on the Communities and Local Government website at www.communities.gsi.gov.uk. A copy has been placed in the Library.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many *(a)* councils and *(b)* housing associations are offering the Social HomeBuy scheme. [223648]

John Healey: There are currently *(a)* 10 local authorities and *(b)* 69 housing associations offering the voluntary Social HomeBuy scheme to their tenants.

Housing: Waiting Lists

Mr. Sanders: To ask the Secretary of State for Communities and Local Government how many people there are on housing waiting lists in each housing authority area in Cornwall and Devon; and what percentage of the population this represents in each housing authority area. [223586]

John Healey: Information on local authority waiting lists is collected in respect of households rather than individuals. Where local authorities and registered social landlords operate a common register, households registered with the registered social landlords will be included in the data. However, registered social landlords are independent bodies and can keep their own waiting lists.

Information on the number of households on local authorities' waiting lists broken down by Government office region and local authority and the percentage of households this represents is published on the Communities and Local Government website in Table 600 at:

http://www.communities.gov.uk/documents/housing/xls/144458.xls.

Copies of this table are available in the Library.

Local Government: Maladministration

Robert Neill: To ask the Secretary of State for Communities and Local Government how many complaints of maladministration upheld by the Local Government Ombudsman resulted in a formal ruling that was not implemented by the local authority in question in each year since 1997-98; and to which local authorities such rulings related. [223617]

John Healey: Where the Local Government Ombudsman finds maladministration that has caused injustice, a report is issued that includes recommendations for a remedy for the complainant, with around a 100 reports issued annually.

The following table lists local authorities who have failed to provide satisfactory remedies since 1997-98.

Authorities who have failed to provide satisfactory remedies

Year of issue of report	*Authority*
1997-98	Mid Suffolk DC
	Salford City C
	Walsall MBC
1998-99	None
1999-2000	Newark and Sherwood DC
	Basildon DC
	Sefton MBC
2000-01	Eden DC
	Rossendale BC
	North Warwickshire DC
2001-02	East Riding of Yorkshire
2002-03	Chichester DC
	Portsmouth City Council
2003-04	Dudley MBC
2004-05	None
2005-06	Blackpool BC
2006-07	East Riding of Yorkshire
2007-08	Trafford MBC

Property Information Questionnaires

Grant Shapps: To ask the Secretary of State for Communities and Local Government whether the information collected from property information questionnaires will be sorted in an electronic database. [223645]

Mr. Dhanda: There are no plans to do so. As set out in our consultation paper, the property information questionnaire would be completed by individual sellers and provided to prospective buyers as part of the HIP.

Property: Sales

Mr. Hoban: To ask the Secretary of State for Communities and Local Government what forecast she has made of the likely number of residential property sales in each of the next 12 months. [223564]

Caroline Flint: Communities and Local Government (CLG) does not make forecasts for the housing market and so has not made any forecasts of the number of residential property sales in each of the next 12 months. However, CLG does closely monitor the housing market and takes action to support it where necessary.

Supporting People Programme

Mr. Neil Turner: To ask the Secretary of State for Communities and Local Government how much was distributed via Supporting People grants to each relevant local authority in England in each of the financial years 2006-07 to 2008-09; what amount each local authority would have received had the formula been applied without damping in each such year; and what the equivalent figures are estimated to be for *(a)* 2009-10 and *(b)* 2010-11. [223500]

John Healey: I refer my hon. Friend to the answer of 9 January 2008, *Official Report*, column 553W, given to the hon. Member for Brentwood and Ongar (Mr. Pickles).

The formula used to calculate the funding allocations is available at:

http://www.spkweb.org.uk/Subjects/Distribution+Formula/.

It includes estimated undamped allocations for all authorities for the years 2008-09, 2009-10, and 2010-11, and can also be used to calculate estimated allocations for previous years.

Thermal Insulation

Andrew Stunell: To ask the Secretary of State for Communities and Local Government how many and what percentage of households with lofts installed loft insulation in each year since 2004; and what proportion of these were first-time installations. [219679]

Mr. Woolas: I have been asked to reply.

Virtually all loft insulation installed in existing homes since 2004 has been installed via Phase 1 and Phase 2 of Energy Efficiency Commitment (EEC). Both phases were administered by Ofgem and cover Great Britain, but not Northern Ireland.

An independent review of EEC1 (2002-05), Evaluation of the Energy Efficiency Commitment 2002-05 (Eoin Lees Energy), showed that there were 226,245 professional insulations of lofts which previously had no insulation during this period. An additional 528,496 lofts, which already had some insulation, were topped up professionally. The programme also subsidises loft insulation via DIY outlets, and it is estimated that around 335,000 lofts were insulated by the householders themselves during the EEC1 period.

Ofgem is due to report on EEC2 (2005-08) on 1 August 2008. Based on the second year report for EEC2, the average number of professional insulations during 2005 and 2006 was 380,000 per year[1]. However, it is not yet known how many of these were in previously uninsulated properties.

[1] *Source*:

A review of the second year of the Energy Efficiency Commitment 2005-08, Ofgem.

WORK AND PENSIONS

Bereavement Benefits

Helen Southworth: To ask the Secretary of State for Work and Pensions if he will revise the regulations determining bereavement benefit to ensure that *(a)* widows and widowers are informed in writing of entitlements to the benefit and *(b)* benefits are backdated to the date of entitlement for widows or widowers who do not receive such notification timeously. [223669]

Mr. Timms: The Department for Work and Pensions makes every effort to ensure that individuals who have been bereaved are aware of their possible entitlement to bereavement benefit.

As well as provision of information through traditional sources, such as leaflets, Jobcentre Plus continues to work in partnership with registrars and coroners to ensure that information is made available to bereaved people.

We have no plans to revise the regulations.

Care Homes: Winter Fuel Payments

Mr. Harper: To ask the Secretary of State for Work and Pensions, for what reasons those living in care homes are classified as ineligible for winter fuel payments by his Department; and if he will make a statement. [223161]

Mr. Mike O'Brien: Residents of care homes who are not in receipt of pension credit are entitled to a shared winter fuel payment of either £100 if they are aged 60 to 79 or £150 if they are aged 80 or over (this winter it will be £125 and £200 respectively). This is because they share the accommodation with other people who are also entitled to the payment and are responsible for a share of the heating costs.

Residents of care homes who are in receipt of Pension Credit are not entitled to a winter fuel payment. This is because historically people living in a care home and in receipt of an income-related benefit have received public funding for their care and accommodation costs including heating. Originally this was through the income-related benefit itself but for many years now has been through funding from the local authority. As this is still the case for the vast majority of people receiving Pension Credit, the winter fuel payment is not payable.

Note:

For winter 2008-09 the Winter Fuel Payment is increased to £250 for households with someone aged 60-79 and £400 for households with someone aged 80 or over.

Children: Maintenance

Mr. Hepburn: To ask the Secretary of State for Work and Pensions (1) how many *(a)* liability orders and *(b)* deduction of earnings orders have been issued by the Child Support Agency to non-resident parents in (i) Jarrow constituency, (ii) South Tyneside, (iii) the North East and (iv) the UK in each year since 1997; [217169]

(2) how many Child Support Agency cases have been passed to the bailiffs in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK in each year since 1997. [217170]

Mr. Mike O'Brien: The administration of the Child Support Agency is the matter for the Chief Executive. He will write to my hon. Friend with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many (a) Liability Orders and (b) Deductions of Earnings Orders have been issued by the Child Support Agency to non-resident parents in (i) Jarrow constituency, (ii) South Tyneside, (iii) the North East and (iv) the UK in each year since 1997. [217169]; and

How many Child Support Agency cases have been passed to the bailiffs in (a) Jarrow constituency (b) South Tyneside (c) the North East and (d) the UK in each year since 1997. [217170]

The Agency publishes information on the range of enforcement actions undertaken at national level, including the numbers of Liability Orders granted, new Deductions from Earnings Orders/Requests, and Distress Actions (where a case is passed to the bailiffs) in Table 21 of the Quarterly Summary of Statistics. The Quarterly Summary of Statistics can be found in the House of Commons library or online at the following address:

http://www.dwp.gov.uk/asd/csa.asp

Information on the number of enforcement actions undertaken prior to April 2004 is not available.

The Agency does not routinely collate enforcement information at constituency, county or regional level. The attached Table 1 provides an estimate of the information you have requested at regional level, however as this information is an estimate only, it is subject to revision. The method of estimating enforcement figures by matching postcodes to areas becomes increasingly less accurate as the geographical areas get smaller, therefore robust information below regional level is not available.

I hope you find this answer helpful.

Table 1: Estimate of Liability Orders applied for, Deduction from Earnings Orders/Requests issued by the Agency and Bailiff referrals in the North East

	North East		
	Liability orders	*Bailiffs*	*Deductions from earnings orders /requests*
2004-05	445	250	[1]2,055
2005-06	625	490	4,185
2006-07	690	780	3,955
2007-08	950	695	4,400

[1] September 2004-March 2005

Notes:

1. Figures are rounded to the nearest 5.
2. No robust management information on enforcement measures exists prior to April 2004.
3. Robust management information for Deduction from Earnings Orders/Requests is also not available for December 2004, January 2005 or January 2007. At national level, figures for 2006-07 are underestimated by around 6,000. Figures for the seven months to March 2005 are underestimated by around 12,000. This means that figures for the North East for these periods are also underestimated.
4. The information provided in Table 2 is an estimate only and is therefore subject to revision.
5. The information on Liability Orders in Table 2 is on those applied for by the Agency and not the total granted by the courts.
6. Information concerning the number of Liability Orders applied for, the number of cases referred to debt collection agencies and numbers of new Deduction from Earnings Orders/Requests has been allocated to the relevant geographical area by matching the postcode of the non-resident parent against the Office for National Statistics postcode directory.

Mr. Milburn: To ask the Secretary of State for Work and Pensions how many *(a)* liability orders and *(b)* deduction of earnings orders have been issued by the Child Support Agency to non-resident parents in (i) Darlington constituency, (ii) County Durham, (iii) the North East and (iv) the UK since 1997. [219624]

Mr. Mike O'Brien: The administration of the Child Support Agency is the matter for the Chief Executive. He will write to my right hon. Friend with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many (a) Liability Orders and (b) Deduction from Earnings Orders have been issued by the Child Support Agency to non-resident parents in (i) Darlington constituency (ii) County Durham (iii) the North East and (iv) the UK since 1997. [219624]

The Agency publishes information on the range of enforcement actions undertaken at national level, including the numbers of Liability Orders granted and new Deductions from Earnings Orders/Requests, in Table 21 of the Quarterly Summary of Statistics, a copy of which can be found in the House of Commons library or online at the following address:

http://www.dwp.gov.uk/asd/csa.asp.

Unfortunately information on the number of Deduction from Earnings Orders and Liability Orders applied for or granted prior to April 2004 is not available.

The Agency does not routinely collate enforcement information at constituency, county or regional level. The attached Table 1 provides an estimate of the information you have requested at regional level, however as this information is an estimate only, it is subject to revision. The method of estimating enforcement figures by matching postcodes to areas becomes increasingly less accurate as the geographical areas get smaller, therefore robust information below regional level is not available.

I hope you find this answer helpful.

Table 1: Estimate of Liability Orders Applied For and Deduction from Earnings Orders/Requests Issued by the Agency in the North East

	Liability orders	*Deductions from earnings orders/ requests*
2004-05	445	[1]2,055
2005-06	625	4,185
2006-07	690	3,955
2007-08	950	4,400

[1] September 2004-March 2005

Notes:

1. Figures are rounded to the nearest 5.
2. No robust management information on enforcement measures exists prior to April 2004.
3. Robust management information for Deduction from Earnings Orders/Requests is also not available for December 2004, January 2005 or January 2007. At national level, figures for 2006-07 are underestimated by around 6,000. Figures for the seven months to March 2005 are underestimated by around 12,000. This means that figures for the North East for these figures are also underestimated.
4. The information provided is an estimate only and is therefore subject to revision.
5. The information on Liability Orders is on those applied for by the Agency and not the total granted by the courts.
6. Information concerning the number of Liability Orders applied for and numbers of new Deduction from Earnings Orders/Requests has been allocated to the relevant geographical area by matching the postcode of the non-resident parent with the Office for National Statistics postcode directory.

Departmental Buildings

Mr. Hoban: To ask the Secretary of State for Work and Pensions which organisations have received *(a)* free and *(b)* discounted room hire from (i) his Department and (ii) its agencies in each of the last five years; and what the commercial value of the discount was in each case. [221588]

Mrs. McGuire: The information requested is not held centrally and could be provided only at disproportionate cost.

Departmental ICT

Pete Wishart: To ask the Secretary of State for Work and Pensions what the value of his Department's computer systems *(a)* was at the time of purchase and *(b)* is now. [214662]

Mrs. McGuire: These are the totals as held on the Department's fixed asset register:

	£
Cost	266,343,510
Accum Deprn	202,338,527
New Book Value	64,004,982.78

In addition to the assets held by the department IT services are provided by a third party supplier.

Departmental Paper

David Simpson: To ask the Secretary of State for Work and Pensions what percentage of paper used *(a)* for photocopying and *(b)* in printed publications by his Department was from recycled sources in each of the last two years. [220735]

Mrs. McGuire: In 2006-07, 97 per cent. by volume (94 per cent. by spend) of the paper used for photocopying by the Department was recycled paper. In 2007-08, the figures were 82 per cent. by volume and 80 per cent. by spend respectively.

Wherever possible the Department seeks to buy recycled paper in line with the mandatory "Buy Sustainable—Quick Wins" minimum environmental product standards as developed by DEFRA. All of the Department's forms and claim packs are printed on 100 per cent./re-cycled paper. Leaflets, marketing materials and magazines are printed on a variety of paper types, depending on the technical requirements of the individual product. The paper can be either 100 per cent. recycled, part re-cycled part virgin pulp or 100 per cent. virgin pulp. The Department does not hold information on the proportion of each type. Where virgin pulp is used it is purchased from FSC (Forest Stewardship Council) accredited sustainable sources.

Departmental Written Questions

David Simpson: To ask the Secretary of State for Work and Pensions how long on average his Department took to answer *(a)* ordinary written and *(b)* named day questions in each of the last three years. [215453]

Mrs. McGuire: The information requested is in the following table:

	Number of questions		*Average working days[1] to reply*	
	Ordinary	*Named day*	*Ordinary*	*Named day*
2005	2,394	553	13	7
2006	3,272	634	15	8
2007	2,692	657	12	8

[1] Working days excludes weekends and non-sitting days when PQ replies cannot be tabled.

Employment and Support Allowance

Mr. Laurence Robertson: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of income-based claimants who will be *(a)* better and *(b)* worse off following the introduction of Employment and Support Allowance; and if he will make a statement. [218917]

Mr. Timms *[holding answer 15 July 2008]:* No existing claimant of incapacity benefits will be made worse off in cash terms as a result of introducing the employment and support allowance.

Employment and support allowance will replace incapacity benefits (including income support on grounds of incapacity) for new claimants from October 2008. Existing claimants will remain on incapacity benefits and will be migrated to employment and support allowance over the three years from 2010 to 2013. After migration, those who are entitled to a higher rate under employment and support allowance than their previous rate under incapacity benefits will receive more money. All other claimants will have their cash level of benefit protected.

Employment and support allowance is an entirely new benefit with a new structure and new benefit rates. Under employment and support allowance, people will generally receive more money earlier in a claim. Over the next five years, spending on employment and support allowance is forecast to be £400 million higher than would have been spent on incapacity benefits.

Industrial Health and Safety: EU Action

Mr. Todd: To ask the Secretary of State for Work and Pensions, what consideration he has given to seeking an exemption for professional paint removers should the European Commission's proposals to prohibit the use of methylene chloride be implemented. [223374]

Mrs. McGuire: The European Commission's proposal, currently under negotiation, for restricting the marketing and use of methylene chloride-based paint strippers, already contains the possibility for individual member states to authorise the continued use of these products by licensed professional users.

Under the proposal, the only requirements for granting licences relate to training in safe use.

Jobcentre Plus: Manpower

Jenny Willott: To ask the Secretary of State for Work and Pensions how many jobseeker's allowance claimants there were per member of frontline staff in Jobcentre Plus and its predecessor agencies in each of the last 10 years *(a)* in total and *(b)* broken down by region; and if he will make a statement. [223435]

Mr. Timms *[holding answer 10 September 2008]:* The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie:

The Secretary of State has asked me to reply to your question asking how many Jobseeker's Allowance (JSA) claimants there were per member of frontline staff in Jobcentre Plus and its predecessor agencies in each of the last 10 years a) in total and b) broken down by region; and if he will make a statement. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Unfortunately we are unable to provide a functional breakdown of Jobcentre Plus staff prior to March 2004.

The table below shows the number of full-time equivalent staff employed as operational staff in Jobcentres, Jobcentre Plus offices, Social Security offices and Benefit Delivery Centres, Contact Centres and those who provide support for these services, for the period 2004 to 2008. It is not possible to differentiate between those who deal directly with the public and those who perform other supporting functions, and nor are we able to provide this information by region.

March	*JSA claimants*	*Full-time equivalent staff*	*JSA claimants per FTE*
2004	889,610	74,036.4	12.0
2005	853,142	66,808.6	12.8
2006	960,487	59,789.7	16.1
2007	930,094	57,939.5	16.1
2008	818,295	56,865.5	14.4

Notes:

1. Headcount figures are quoted in full-time equivalents using the Office for National Statistics criteria for counting headcount and details the position at March in each year.
2. The figures provided are for Great Britain.
3. Claimant information uses the seasonally adjusted figures. The term "frontline staff" is interpreted to mean all operational staff, including those in support roles, as we are unable to accurately identify, on a consistent basis throughout the time period, those who deal directly with the public. Figures exclude those people in National Directorates.

New Deal Schemes: Disqualification

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many sanctions have been applied to claimants on each New Deal scheme during their *(a)* first, *(b)* second, *(c)* third and *(d)* fourth or more time of involvement with the scheme for their (i) first, (ii) second and (iii) third or more offence. [223319]

Mr. Timms *[holding answer 10 September 2008]:* The information is not available.

Pension Credit

Tom Brake: To ask the Secretary of State for Work and Pensions how many people were granted backdated pension credits going back further than three months *(a)* in England, *(b)* in London and *(c)* in the London Borough of Sutton in the last year for which figures are available. [214373]

Mr. Mike O'Brien: All the information requested is not available; such information as is available is in the following table. Precise information on the time customers take to claim pension credit (known as backdating) is not routinely collected. The information in the following table estimates the possible maximum extent of backdating by examining the difference between the date of first payment and the date at which entitlement begins. In some cases where payment starts after entitlement the delay will be due to processing times, evidence gathering and verification work which routinely accompanies claims for pension credit.

Estimates of pension credit claims backdated for more than three months in England and London, 2006-07

	Number
England	90,000
London	10,000

Notes:
1. Estimates have been rounded to the nearest 10,000.
2. Estimates at local authority level are not sufficiently robust for publication.
3. Care should be taken when interpreting the table. The Department does not routinely collect information on backdating periods and these estimates have been produced by comparing information on the date entitlement starts and the date pension credit is put into payment. Estimated backdating periods therefore include unknown periods of time that are due to processing, evidence gathering and verification work which routinely accompany every claim for pension credit.
4. Estimates cover the 2006-07 financial year May 2006 to February 2007.

Source:
Experimental Statistics of Pension Credit on flows.

Jenny Willott: To ask the Secretary of State for Work and Pensions how much was spent by his Department on backdated payments of pension credit in each of the last five years; and if he will make a statement. [216060]

Mr. Mike O'Brien: Precise information on the time customers take to claim pension credit (known as backdating) is not routinely collected, nor therefore is expenditure on backdating. Expenditure on backdating has been estimated using information on average awards and backdating periods. Backdating periods have been estimated by comparing information on the date entitlement starts and (the date pension credit is put into payment. In some cases where payment starts after entitlement the delay will be due to processing times, evidence gathering and verification work which routinely accompanies claims for pension credit. In 2006-07 around 60 per cent. of all successful new claims were backdated for three months or less (this includes cases with zero backdating). The information that is available is in the following table.

Expenditure on pension credit backdating

	Total expenditure (£ million)
2003-04 (October to March)	80
2004-05	330
2005-06	190
2006-07	150

Notes:
1. Care should be taken when interpreting the table. The Department does not routinely collect information on expenditure on backdated payments and it has been estimated using information on average awards and backdating periods. Backdating periods have been estimated by comparing information on the date entitlement starts and the date pension credit is put into payment. Estimated backdating periods therefore include unknown periods of time that are due to processing, evidence gathering and verification work which routinely accompany every claim for pension credit.
2. All figures are consistent with the 2008 Budget Report.
3. Estimates are rounded to the nearest £10 million.
4. Pension credit was introduced in October 2003, so expenditure figures are only available from this date.

Source:
Experimental Statistics of Pension Credit on flows and DWP Accounting Systems

Jenny Willott: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of pension credit claimants who will be affected by the change in the limit on backdating claims for pension credit from 12 to three months; and if he will make a statement. [216061]

Mr. Mike O'Brien: I refer the hon. Member to the answer I gave on 15 May 2008, *Official Report*, column 1700W, to the hon. Member for Inverness, Nairn, Badenoch and Strathspey (Danny Alexander).

Jenny Willott: To ask the Secretary of State for Work and Pensions what estimate he has made of the savings to his Department from changes to the backdating of pension credit from 12 to three months in each of the next five years; and if he will make a statement. [216062]

Mr. Mike O'Brien: I refer the hon. Member to the answer I gave to the hon. Member for Hornsey and Wood Green (Lynne Featherstone) on 21 July 2008, *Official Report*, columns 862-63W.

Jenny Willott: To ask the Secretary of State for Work and Pensions how many and what proportion of pension credit recipients received backdated payments *(a)* in total and *(b)* for a period covering (i) up to three months, (ii) between three and six months and (iii) between six and 12 months, broken down by (A) guarantee credit and (B) savings credit in each of the last five financial years; and if he will make a statement. [219205]

Mr. Mike O'Brien: The information is not available in the format requested. Precise information on the time customers take to claim pension credit (known as backdating) is not routinely collected. The information in the following table estimates the possible maximum extent of backdating by examining the difference between the date of first payment and date at which entitlement begins. In some cases where payment starts after entitlement the delay will be due to processing times, evidence gathering and verification work which routinely accompanies claims for pension credit.

Estimates of the number of claims for pension credit guarantee credit (GC) and pension credit savings credit (SC) by backdating period between 2003 and 2006

Thousand

	2003		2004		2005		2006	
Months	*GC*	*SC*	*GC*	*SC*	*GC*	*SC*	*GC*	*SC*
0 to 3 months	1,890	1,610	150	70	130	60	140	50
3 to 6 months	70	140	60	120	10	10	20	10
6 to 12 months	—	—	130	270	60	110	40	70
Total inflows	1,960	1,750	340	450	200	180	200	140

Estimates of the proportion of claims for pension credit guarantee credit (GC) and pension credit savings credit (SC) by backdating period between 2003 and 2006

To the nearest 5 per cent.

	2003		2004		2005		2006	
Months	*GC*	*SC*	*GC*	*SC*	*GC*	*SC*	*GC*	*SC*
0 to 3 months	95	90	45	15	65	30	70	40
3 to 6 months	5	10	20	25	5	10	10	10
6 to 12 months	—	—	35	60	25	60	20	50

Notes:
1. Estimates of the number of guarantee credit and savings credit claims by length of backdating cannot be added together to obtain total pension credit claims by length of backdating because some households receive both guarantee credit and savings credit.
2. Estimates of the number of claims by length of backdating period have been rounded to the nearest 10,000 cases.
3. Estimates of the number of claims backdated as a percentage of annual onflows have been rounded to the nearest 5 percentage points.
4. Care should be taken when interpreting the table. The Department does not routinely collect information on backdating periods and these have been estimated by comparing information on the date entitlement starts and the date pension credit is put into payment. Estimated backdating periods therefore include unknown periods of time that are due to processing, evidence gathering and verification work which routinely accompany every claim for pension credit.
5. Pension credit was introduced in October 2003. About 1.8 million minimum income guarantee cases were transferred to pension credit at this time which explains the large number of on flows in 2003.
6. Estimates cover financial years for example April 2006 to March 2007, with the exception of 2003, which covers October 2003 to March 2004.
7. Estimates for 2007 have not been included as data are available only for the first quarter of that year.
8. Due to rounding the numbers of successful claims by period of backdating may not sum to the total number of successful claims.
9. Due to rounding the percentage of onflows by period of backdating may not sum to 100 per cent.
10. Onflows measure the total number of spells on benefit that commenced within a quarter. They do not include flows where people have moved out of one geographical area and into another while remaining on the benefit.
11. Estimates of the number of claims backdated 0 to 3 months include those with zero backdating.

Source:
Experimental Statistics of Pension Credit on flows.

Jenny Willott: To ask the Secretary of State for Work and Pensions what the average sum received in backdated pension credit was *(a)* in total and *(b)* per month for pension credit recipients who received backdated payments for a period covering (i) up to three months, (ii) between three and six months and (iii) between six and 12 months in each of the last five financial years; and if he will make a statement. [219206]

Mr. Mike O'Brien: Precise information on the time customers take to claim pension credit (known as backdating) is not routinely collected. Backdating periods have been estimated by comparing information on the date entitlement starts and the date pension credit is put into payment. In some cases where payment starts after entitlement the delay will be due to processing times, evidence gathering and verification work which routinely accompanies claims for pension credit. In 2006-07 around 60 per cent. of all successful new claims were backdated for three months or less (this includes cases with zero backdating).

The information that is available is in the following table.

Estimates of the average total amount of pension credit backdated by period of backdating, 2003-06

£

	2003-04	*2004-05*	*2005-06*	*2006-07*
0-3 months	100	200	200	200
3-6 months	300	500	650	700
6-12 months	—	850	1,150	1,350
All backdating	200	600	700	700

Notes:
1. Estimates of the average amount of backdated pension credit have been rounded to the nearest £50.
2. Care should be taken when interpreting the table. The Department only holds information on the date entitlement starts and the date pension credit is put into payment. The length of backdating period has been estimated by comparing these dates. Estimated backdated periods therefore include processing times, evidence gathering and verification work which routinely accompany every claim for pension credit.
3. Estimates exclude cases where pension credit was not backdated.
4. Pension credit was introduced in October 2003.
5. Estimates cover financial years, for example April 2006 to March 2007, with the exception of 2003, which covers October 2003 to March 2004.
6. Estimates for 2007 have not been included as data is available only for the first quarter of that year.
7. On-flows measure the total number of spells on benefit that commenced within a quarter. They do not include flows where people have moved out of one geographical area and into another while remaining on the benefit.

Source:
Experimental statistics of pension credit on flows.

Post Office Card Account

Sir John Stanley: To ask the Secretary of State for Work and Pensions with reference to his letter of 9 July to the right hon. Member for Tonbridge and Malling what *(a)* EU and *(b)* UK legislation creates a legal requirement for a competitive tender to be held for the successor to the current Post Office card account. [223287]

Mr. Timms *[holding answer 10 September 2008]:* The legislation that creates a legal requirement for a competitive tender to be held for the successor to the current Post Office card account is EU Directive 2004/18/EC, enacted in the UK as "The Public Contracts Regulations 2006".

Post Office Card Account: Sandwell

Mr. Spellar: To ask the Secretary of State for Work and Pensions how many and what percentage of state benefits were paid into Post Office card accounts in Sandwell Metropolitan Borough Council area in the last year for which figures are available. [223233]

Mr. Timms *[holding answer 10 September 2008]:* As at March 2008, around 32,000 state benefit and pension payments were being made into Post Office card accounts in Sandwell metropolitan borough council area. This represents around 27 per cent. of all state benefit and pension payments made.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Alcoholic Drinks: Prices

Philip Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what research his Department has undertaken into the relationship between alcohol pricing and problem drinking. [221312]

Mr. Thomas: None. The Department of Health has, however, commissioned a review of the relationship between alcohol pricing and alcohol consumption and harm. The findings of the first phase of that review were published alongside the Department of Health's consultation document on further action in respect of the national alcohol strategy. Both documents can be found on the Department of Health's website at:

http://www.dh.gov.uk/en/Publichealth/Healthimprovement/Alcoholmisuse/indexhtm.

Philip Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what advice he has received on the compliance with *(a)* UK and *(b)* EU competition law of minimum pricing for a unit of alcohol. [221313]

Mr. Thomas: In considering possible measures aimed at reducing alcohol related harms, the Government are taking account of the need to ensure any such measures are compatible with UK and EU law.

Philip Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what research his Department has undertaken into the effects that minimum pricing of alcohol would have on people on low incomes who drink responsibly. [221314]

Mr. Thomas: In considering possible measures aimed at tackling alcohol related harms, the Government are, of course, taking account of the likely impact of such measures and would consult publicly before taking decisions on any detailed proposals in this area.

Biofuels

Andrew Stunell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many *(a)* domestic and *(b)* non-domestic biomass installations there are. [219667]

Malcolm Wicks: There is no comprehensive listing of the number of installations due to the range and diversity of biomass use and applications. However the best data available for biomass power generation come from the renewables obligation certificate (ROC) database compiled by Ofgem and available from Ofgem's renewables obligation (RO) website at

http://www.ofgem.gov.uk/Sustainability/Environmnt/RenewablStat/Pages/RenewablStat.aspx

Biomass projects extracted from the ROC list are as follows. These tables do not, however, include sewage gas and landfill gas operations, nor those installations not claiming ROCs.

Power generation plants

Table 1: Electricity production from stand-alone conventional biomass combustion

Plant name	*Installed capacity (kW)*	*Generation in 2006 (MWh)*
Genny	8	0
Bioflame	600	0
Chestnut Bio Power Ltd (formerly: Ecoenergy Ltd)	980	0
Eccleshall Biomass	2,645	0
Elean Business Park	36,850	216,112
Eye Power Station(Fibropower)	14,316	82,999
Fawley Waste to Energy Plant[1]	8,600	32,926
Glanford Power Station (Fibrogen)	16,700	78,788
Knypersley Renewable Generator	7,200	0
Longma Thorn	400	119
LPL—Hockwold	400	0
Mossborough Hall Farm	300	0
Thetford Power Station	41,500	199,763
Wilton 10 Biomass Gen station	35,220	0
Total	165,719	610,707

Table2: Electricity production from biomass and waste using anaerobic digestion

Plant name	*Installed capacity (kW)*	*Generation in 2006 (MWh)*
Bedfordia Biogas Ltd (Twinwoods)	786	584
Biogas Engine, Mauri Products Ltd	850	728
Holsworthy Biogas Company Project	2,696	9,453
Little Woolden Hall Farm	85	19
South Shropshire Biowaste Digester	200	24
Twyford Power Station	250	0
Wanlip AD Plant	1.434	1,224
Total	6,301	12,032

Table 3: Electricity production from co-firing biomass with fossil fuel

Plant name	*Installed capacity (kW)*[2]	*Generation in 2006 (MWha)*
Aberthaw B Power Station, nr Cardiff	1,552,500	78,494
Alcan Lynmouth Power Station	420,000	2,026
Cottam Power Station[2]	2,000,000	97,765
Didcot 'A' Power Station	2,100,000	114,896
Drakelow Power Station	333,000	0
Drax Power Station*	4,065,000	63,582
Eggborough Power Limited	1,062,000	161,953
Ferrybridge C Power Station	200,000	343,048

Slough Electricity Contracts Ltd	35,000	166,148
Weston Industrial Estate	500	0
Buckland Down, Somerset	7,000	0
Total	87,755	296,699

Overall figures for the actual usage of bioenergy in the UK are available from the Digest of UK Energy Statistics on the website at

http://www.berr.gov.uk/energy/statistics/source/renewables/page18513.html.

Data for 2007 will be published on 31 July 2008.

The low carbon buildings programme also has information on the grants it has given (which include biomass) at

www.lowcarbonbuildings.org.uk/info/stats/

For further general information on biomass activity in the UK

British Wind Energy Association: Finance

Bob Spink: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much the British Wind Energy Association received from the public purse in each of the last five years. [220698]

Malcolm Wicks: The British Wind Energy Association (BWEA) is a non-governmental trade association funded by its membership.

The Department does not hold records of funding by other Government Departments of the BWEA's activities.

The BWEA has won several contracts for work tendered by this Department. The Department has also co-funded a number of projects undertaken by the BWEA.

The total funding in each financial year from 2003-04 onwards is set out in the following table.

Financial year[1]	*Contribution (£)*
2008-09	0
2007-08	35,000.00
2006-07	34,115.88
2005-06	51,000.00
2004-05	170,825.00
2003-04	25,215.00

[1] In some cases payments made in one financial year may relate to activities undertaken in another financial year.

Broadband

Mr. Carmichael: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent discussions he has had with telecommunication providers on the delivery of broadband services to remote parts of the UK; and if he will make a statement. [216983]

Malcolm Wicks: My right hon. Friend the Secretary of State has had meetings with telecoms companies including BT, Virgin Media and Sky in recent months, when the subject of broadband was discussed and where rural broadband supply was part, but not the exclusive subject of those discussions.

Bromine

Paddy Tipping: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he last met representatives of the bromine industry. [220667]

Malcolm Wicks *[holding answer 21 July 2008]:* There have been no recent meetings between the bromine industry and BERR Ministers.

Business: Females

Sarah Teather: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps he has taken to provide support for black and ethnic minority women entrepreneurs. [208439]

Mr. McFadden: The Enterprise Strategy, published in March 2008 as part of the Budget, recognises the important role that all women can play in driving up enterprise activity in the UK and has proposed a number of measures that will support women entrepreneurs, including those from black and other ethnic minority backgrounds, and provide them with the knowledge and skills that will allow them to see enterprise and business ownership as open to them. Those measures include provision for £12.5 million of Government capital through a women's investment fund; women's business centre pilots; enhanced mentoring support; a new national enterprise centre of expertise; and activity aimed at opening up procurement opportunities to women owned businesses.

In addition, in June 2007, the Government announced the launch of the Ethnic Minority Business Task Force. As well as making recommendations to Government on the further development of policy, the task force will help to foster growth among ethnic minority firms and boost economic participation by ethnic minority entrepreneurs.

Carbon Emissions: Energy

Mrs. James: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of progress made by UK energy companies in reducing their carbon dioxide emissions. [218206]

Malcolm Wicks: Information on carbon dioxide emissions from the UK energy supply sector are published annually by the Department for Environment, Food and Rural Affairs on their website at:

http://www.defra.gov.uk/environment/statistics/globatmos/gagccukem.htm.

The latest available data relate to the calendar year 2006, and they show that emissions from this sector were 220.835 million tonnes of carbon dioxide, which represents a reduction of 8.9 per cent. since 1990. The energy supply sector accounts for 39.7 per cent. of all carbon dioxide emissions in the UK.

Carbon Sequestration

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what discussions his Department has had with other EU Governments on development of carbon capture storage policy; and if he will make a statement. [208484]

Malcolm Wicks: My right hon. Friend the Secretary of State and I have had many discussions with other EU Governments on the development of carbon capture and storage (CCS) policy.

EU leaders have recognised the potential of CCS and at the Spring Council 2007 agreed to bring about the necessary technical, economic and regulatory framework to bring environmentally safe CCS to markets, by 2020 if possible. This included an ambition for up to 12 demonstration projects by 2015. The UK Government are strongly committed to working with the EU partners to support these aspirations.

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps his Department is *(a)* taking and *(b)* planning to take to encourage greater international collaboration in relation to carbon capture and storage technologies; what steps he plans to take to encourage other countries to establish carbon capture and storage initiatives; and if he will make a statement. [219400]

Malcolm Wicks: The Department undertakes a number of activities aimed at fostering greater international collaboration in relation to carbon capture and storage (CCS) technologies and encouraging other countries to establish carbon capture and storage initiatives. These include:

Active membership of multilateral organisations dedicated to making rapid progress towards deployment of CCS, including the International Energy Agency's Greenhouse Gas and Clean Coal programmes and their Working Party on Fossil Fuels, and the Carbon Sequestration Leadership Forum (CSLF).

Founder member, with Norway, of the North Sea Basin Task Force (now including Germany and the Netherlands) which aims to develop common principles that could form a basis for regulating the storage of CO_2 in the North sea.

Funding, in partnership with DEFRA, the Phase-I assessment of the wider EU-China Near-Zero Emissions Coal agreement signed in 2005, which has the objective of commercial demonstration of CCS for coal fired power generation in China by 2020.

Bilateral work with several countries (including the US, Australia, Canada, France, India) to undertake various activities to promote the deployment of CCS.

Specific actions undertaken by the Department, outside of the above activities, in recent months to promote CCS technologies internationally include:

A significant lobbying exercise to push for ambitious wording in the G8 Energy Ministers most recent statement, including supporting the recommendation from the International Energy Agency that 20 CCS demonstration projects should be launched globally by 2010.

Announcing our intention to host, in autumn 2009, the next CSLF ministerial conference—this conference will help to deliver renewed momentum in the move towards commercially deployable CCS technologies through the only international forum dedicated to promoting them.

Lobbying for agreement at the June European Council for the European Commission to be directed to bring forward as soon as possible a financial mechanism to incentivise the construction and operation of up to 12 demonstration projects by 2015.

Working closely with the European Commission and other member states to ensure the quick agreement of the draft directive on the geological storage of carbon dioxide.

Lobbying key countries in relation to the inclusion of CCS in the Clean Development Mechanism.

We will continue to build on this activity and our multi-lateral and bilateral links over the coming months to promote greater international collaboration on CCS, encouraging other countries to make strong commitments to CCS initiatives along the lines of those by the UK Government, including support for demonstration projects.

Mr. Tyrie: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will place in the public domain the report of the consulting engineers on the feasibility of a UK-based carbon capture and storage demonstration plant pre-Budget report of 2006. [221449]

Malcolm Wicks: The report announced in the 2006 pre-Budget report was commissioned to ensure that our understanding of the costs of a CCS plant based in the UK was robust before taking a decision on whether to support such a project. The evidence in the report is taken from several companies who were considering CCS projects, is commercially sensitive and subject to confidentiality agreements, which means that it would not be appropriate to publish the report.

Carers: Finance

Mr. Harper: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to paragraph 3.11 in the Carers at the Heart of 21st-century families and communities report, how much of the £150 million funding for breaks for carers of disabled children his Department will provide in each of the next two years. [220312]

Mr. McFadden: I refer the hon. Member to the answer given by my hon. Friend the Parliamentary Under-Secretary of State with responsibilty for care services on 22 July 2008, *Official Report*, column 1087W.

Climate Change: International Cooperation

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform, how the Government plan to take forward the commitment to work through the G8 on *(a)* climate change mitigation-related technology co-operation strategies, *(b)* the promotion of the exchange of mitigation information and analysis on sectoral efficiency and *(c)* the identification of national technology needs and voluntary, action-oriented international co-operation, as set out in the G8 declaration on Energy Security and Climate Change of 9 July; and what additional resources will be made available for these purposes. [218869]

Malcolm Wicks: We are working with Japan, other G8 countries and the International Energy Agency (IEA) to take forward the G8 commitments. These cover: (i) an international initiative on energy technology research and development; (ii) further IEA analysis of sectoral efficiency; and (iii) the first meeting of the International Partnership on Energy Efficiency Co-operation, which will look at increasing efficiency in key sectors. The International Energy Agency is currently drawing up a programme of work to support the G8 agreement. In addition, Japan will host a G8 Energy Forum in the autumn which will focus on energy efficiency and international co-operation on low carbon, energy technologies.

Coal

Mrs. Riordan: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what plans he has for expenditure on clean coal technology over the next 10 years. [220099]

Malcolm Wicks: In November 2007 the Government announced a competition for one of the world's first commercial-scale demonstrations of Carbon Capture and Storage (CCS) technology on a coal fired power plant. The project is scheduled to start operation in 2014. BERR is also committed to spending £2.2 million on the development of an Oxy-Fuel Combustion (CO_2 capture) demonstration system during 2008 to 2010, and a programme of support for CCS is under consideration by the Energy Technologies Institute.

The Government announced in the 2008 Budget that a new call for project proposals will be made shortly under the Environmental Transformation Fund. This will include support for the development of component parts of Carbon Capture and Storage and for other carbon abatement technologies.

In addition clean coal technology research and development continues to be supported under the Research Councils' Energy Programme and the Technology Strategy Board's Technology Programme. Public sector funding for the Research Councils and the Technology Strategy Board is provided by the Department for Innovation Universities and Skills.

Coal Fired Power Stations: Kingsnorth

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what fuel oil grade will be used to fire the two 50MW gas turbines at the proposed coal-fired power station at Kingsnorth; [189691]

(2) whether the proposed two 50MW oil-fired gas turbines proposed at the new coal-fired power station at Kingsnorth will be run as a high demand top-up for the grid. [189757]

Malcolm Wicks: The turbines would be for "black start" purposes only and would be fuelled by light fuel oil which is a blend of heavy fuel oil and gas oil to British Standard 2869 class D/DIN51603.

Companies

Ann McKechin: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many companies removed from *(a)* the Register of Companies in England and Wales and *(b)* the Register of Companies in Scotland by Companies House in 2007 had (i) not previously filed a set of accounts and (ii) accounts overdue at the time of their removal; and how many of those with accounts overdue had (A) one, (B) two and (C) three sets of accounts overdue. [221720]

Mr. Thomas: This information is not held centrally and could be obtained only at disproportionate cost.

Companies Investigation Branch

Paul Farrelly: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will ask his Department's Companies Investigation Branch to enquire of liquidators Moore Stephens of Stoke-on-Trent as to the reasons why no Statement of Affairs has been filed at Companies House in respect of the liquidation of Pubscene Limited. [206603]

Mr. McFadden *[holding answer 18 May 2008]:* Pubscene Limited went into compulsory liquidation on 23 September 2003, and the Official Receiver became liquidator of the company on the making of the winding-up order. From information currently available, it appears the Official Receiver exercised his discretion not to require a formal Statement of Affairs to be submitted by the directors of the company. In cases where the Official Receiver requires a formal Statement of Affairs, the legislation provides that the Statement be filed at Court and not at Companies House.

On 3 November 2003, the Secretary of State appointed an insolvency practitioner, Mr. Abdulali of Moore Stephens as liquidator of the company. There are no provisions in insolvency legislation providing for liquidators in compulsory liquidations, other than the Official Receiver, to obtain and file information by way of a formal Statement of Affairs.

Companies Investigations Branch

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many investigations the Companies Investigations Branch

(a) began and *(b)* completed in each of the last 10 years; and what proportion led to (i) prosecution and (ii) conviction. [215152]

Mr. McFadden: An investigation is a fact-finding exercise. It may show that there has been no irregularity or malpractice in which case the process ends. In many cases, however, information obtained during an inquiry is a basis for further action, either by BERR or by others. This may take the form of a winding-up of the company, prosecution, directors' disqualification or some form of regulatory action. In order to provide a more complete picture of the results of CIB investigations I have included the number of winding-up orders obtained and the number of directors disqualified.

Figures are not separately available in respect of prosecutions and convictions following a CIB investigation. Information from a CIB investigation which may lead to a criminal prosecution may be passed to BERR Legal Services for action; if successful the resulting prosecutions and convictions are included with the figures for the Insolvency Service. However, BERR is only one of a number of investigatory and enforcement bodies and the reports of CIB investigators may also lead to prosecutions by other prosecuting authorities for example the Serious Fraud Office.

I would add that the information that the hon. Member requests has been published on an annual basis in a report to Parliament entitled "Companies in (year)" until 2006-07 since when it has been published in the Annual Report and Accounts of the Insolvency Service.

Companies Investigation Branch investigations

	Investigations begun	*Investigations completed*	*Companies wound up*	*Directors disqualified*
1998-99	220	228	42	20
1999-2000	209	183	42	37
2000-01	175	183	46	17
2001-02	160	158	71	16
2002-03	419	[1]359	80	17
2003-04	200	197	[2]387	19
2004-05	171	174	107	38
2005-06	180	162	121	26
2006-07	219	174	95	21
2007-08	212	193	182	27

[1] The number of investigations in 2002-03 includes 289 companies linked to two specific investigations.
[2] The number of winding-up in 2003-04 includes 289 companies linked to two specific investigations.

Departmental Alcoholic Drinks

David Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what measures are in place in his Department to monitor expenditure on alcohol for hospitality purposes. [219607]

Mr. Thomas: There are therefore currently no extra, specific measures in place to monitor expenditure on alcohol for hospitality purposes. The Department operates within a set framework of rules governing official hospitality; these limit the occasions for which it is deemed appropriate to include alcohol.

David Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what purchasing process is used by his Department for the procurement of alcohol for hospitality purposes. [219946]

Mr. Thomas: The Department does not have a separate process for the purchase of alcohol for hospitality purposes. All BERR spending must comply with Departmental and wider Government guidance on public spending.

Departmental Buildings

Mr. Betts: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what account his Department takes of the level of energy efficiency of buildings before entering into agreements to *(a)* rent and *(b)* purchase those buildings. [221105]

Mr. Thomas: The Department would seek to acquire only buildings with an excellent BREEAM (building research establishment environmental assessment method) rating where it is unable to re-use vacant Government property.

Departmental Consultants

Mr. MacShane: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much was paid to outside consultants used by his Department or its predecessor in each year since 2000. [211008]

Mr. Thomas: Central records indicate that the cost to the Department of engaging outside consultants in each of the following financial years has been:

	£ million
2000-01	21
2001-02	36
2002-03	93
2003-04	112
2004-05	86
2005-06	53.6
2006-07	40.3
2007-08	26
2008-09	[1]

[1] To date.

The Department has a formalised business case approval process for proposed consultancy engagements. This has been in operation for two years. We have worked

closely with OGC in formulating the cross-Government Consultancy Value Programme (CVP) and look forward to furthering this important initiative.

Departmental Disciplinary Proceedings

Mr. Redwood: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many *(a)* officials in his Department and *(b)* employees of (i) agencies and (ii) other bodies reporting to his Department were (A) dismissed and (B) disciplined for matters related to their conduct in the last two years. [217601]

Mr. Thomas: The number of employees disciplined or dismissed within the Department or its predecessor during 2006 and 2007 are set out in table 1 as follows.

Table 1

	2006	*2007*
Disciplinary cases raised	42	42
Disciplinary dismissals	7	9
Other disciplinary penalties	22	26

Information regarding non-departmental public bodies is not held centrally and could be obtained only at disproportionate cost.

I have asked the Chief Executives of Companies House and Insolvency Service to write direct with information covering their Agencies.

Letter from Stephen Speed, dated 21 July 2008:

The Secretary of State for Business, Enterprise and Regulatory Reform has asked me to reply to you directly in respect of your question (2007/3400) asking how many staff have: (i) been dismissed and (ii) been disciplined for matters relating to their conduct in the last two years.

There have been a total of:

i. 5 members of staff dismissed and.

ii. 7 members of staff disciplined

for matters relating to their conduct.

Letter from Gareth Jones, dated 21 July 2008:

I am responding on behalf of Companies House to your recently tabled Parliamentary Question to the Secretary of State for Business Enterprise and Regulatory Reform.

In the last two years four employees were dismissed and twenty-two staff were disciplined for matters relating to their conduct.

Departmental Equality

Mrs. May: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what progress his Department has made towards its diversity targets for 2008. [204658]

Mr. Thomas: At 1 April 2008, the Department had made the following progress towards meeting diversity targets.

	Overall civil service target for April 2008 (percentage)	*BERR target for April 2008 (percentage)*	*Actual at April 2008 percentage*	*Difference to civil service target*
Women in senior civil service	37	37	37	0 (met)
Women in top management posts	30	35	30	0 (met)
Black and minority ethnic staff in senior civil service	4	8	4	0 (met)
Staff with disabilities in senior civil service	3.2	4.7	5	+2 (exceeded)
Band C ("feeder grades") women	No targets set	30	39	Exceeded BERR target
Band C ("feeder grades") BME	No targets set	7	7	Met BERR target
Band C ("feeder grades") disabled	No targets set	No targets set	6	

Departmental ICT

Bob Spink: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many of his Department's staff have access to the Department's IT infrastructure at home. [216372]

Mr. Thomas: There are 595 members of staff with laptops specially configured for access to the Departments infrastructure.

There are 800 with tokens that allow them access to the Department's infrastructure from their home PCs.

There are 320 with BlackBerrys that allow access to the Department's e-mail and calendar service.

All devices supplied by the Department that can hold departmental information are encrypted. All the services that access the Department's infrastructure are authenticated and utilise encrypted communications links.

Mr. Philip Hammond: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what information technology projects initiated by his Department and its predecessors have been cancelled prior to completion in the last five years; and what the cost of each such project was to the public purse. [221717]

Mr. Thomas: The Department and its predecessors have not cancelled any information technology projects prior to completion in the last five years.

Departmental Official Cars

Stephen Hammond: To ask the Secretary of State for Business, Enterprise and Regulatory Reform which make and model of car he has chosen as his ministerial car to be provided by the Government Car and Despatch Agency. [217768]

Mr. Thomas: I refer the hon. Member to the answer given on 16 July 2008 by the Parliamentary Under-Secretary of State for Department for Transport, *Official Report*, column 414W.

Departmental Official Hospitality

Mr. Philip Hammond: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much his Department and its agencies spent on entertainment in each financial year since its establishment. [219257]

Mr. Thomas: The Department for Business, Enterprise and Regulatory Reform and, prior to April 2007, its predecessor, the Department for Trade and Industry (DTI), ensures that all expenditure on entertainment and hospitality is incurred in accordance with the principles of Managing Public Money and the Treasury handbook on Regularity and Propriety.

The figures in the tables are from 2002-3 to 2007-8 (figures prior to 2002 are not readily available) and include both entertainment and official hospitality:

					£
	2002-03	*2003-04*	*2004-05*	*2005-06*	*2006-07*
Department of Trade and Industry	903,120	917,073	1,487,920	1,451,062	908,603
UK Trade and Investment	218,844	205,798	292,166	239,858	207,185
Insolvency Service	7,826	6,853	6,349	9,497	4,329
Arbitration and Conciliation Service	0	0	0	189,086	213,618
Total	1,137,031	1,144,144	1,797,197	1,895,225	1,333,735

	2007-08 (£)
Department for Business, Enterprise and Regulatory Reform	805,024
UK Trade and Investment	195,305
Insolvency Service	265
Arbitration and Conciliation Service	196,043
Total	1,196,637

Note:
Expenditure has reduced across the period. The reason for the apparently higher spend in 2004-05 and 2005-06 is that for those years all catering provided for events held in DTI's conference centre were booked to Entertainment rather than other more appropriate codes.

Letter to Mr. Philip Hammond from Stephen Speed dated 15 September:

The Secretary of State for Business, Enterprise and Regulatory Reform has asked me to reply to your question how much his Department and its agencies spent on entertainment in each financial year since its establishment.

The Insolvency Service Executive Agency of the Department for Business, Enterprise and Regulatory Reform reported in answer to PQ 2007-1522 that £4,328.55 was spent on Entertainment in the 2006-07 Financial Year. Expenditure on Entertainment in 2007-08 was £264.76. Spend on Entertainment in the first three months of 2008-09 was £901.62.

Letter to Mr. Philip Hammond from Tim Moss dated 15 September:

I am responding on behalf of Companies House to your recently tabled Parliamentary Question to the Secretary of State for Business Enterprise and Regulatory Reform.

The figures given below and overleaf are from 2002-3 to 2007-8 (figures prior to 2002 are not readily available) and include both entertainment and official hospitality:

	£
2002-3	1,756
2003-4	1,861
2004-5	1,963
2005-6	2,507
2006-7	2,218
2007-8	2,369

Departmental Overtime

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many hours of overtime were worked by staff in each pay grade in his Department in each of the last 12 months. [221238]

Mr. Thomas: Staff of the Department worked a total of 49,273.8 hours overtime in the 12 months to June 2008 inclusive. A breakdown by grade and month can be found in the following table.

	2007					
Grade	*July*	*August*	*September*	*October*	*November*	*December*
Range 2	20.50	28.00	0.00	26.50	60.50	81.50
Range 3	273.00	234.25	70.50	215.50	263.75	759.50
Range 4	179.00	242.50	88.25	230.00	322.00	739.75
Range 5	112.50	118.50	43.25	74.25	137.00	299.50
Range 6	390.75	439.50	181.28	286.75	564.75	954.92
Range 7	0.00	0.00	26.00	0.00	122.25	1,063.75

	2007

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the cost of overtime payments paid to staff in his Department was in each of the last 12 months, broken down by pay grade. [221304]

Mr. Thomas: Staff of the Department were paid a total of £670,836.08 in overtime in the 12 months to June 2008 inclusive. A breakdown by grade and month can be found in the following table.

	2007					
Range	*July*	*August*	*September*	*October*	*November*	*December*

Departmental Paper

David Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what percentage of paper used *(a)* for photocopying and *(b)* in printed publications by his Department and its predecessor was from recycled sources in each of the last two years. [220685]

Mr. Thomas: The percentage of paper used by BERR and its predecessor from recycled sources over the last two years is as follows:

(a) Central Reprographics Service—99 per cent.

(b) Printed publications produced through our Marketing Department—95 per cent.

(c) In the vast majority of cases, 100 per cent. recycled paper is used for any local copying undertaken by sections within BERR.

Departmental Pay

Lynne Featherstone: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many and what proportion of employees in his Department who received a performance-related bonus at their last appraisal were *(a)* male, *(b)* female, *(c)* from an ethnic minority, *(d)* disabled and *(e)* not heterosexual; and if he will make a statement. [208386]

Mr. Thomas: Reward arrangements below the senior civil service are delegated to individual Departments and agencies. For the senior civil service, Departments and agencies are responsible for their own reward arrangements within a framework set by Cabinet Office. The information available is set out in the following tables.

Table 1: Staff below SCS receiving performance related bonus payments in 2006-07 appraisal

	Number	Percentage
Male	435	27
Female	484	34
Disabled	55	24
Ethnic minority	87	24

Table 2: SCS staff receiving performance related bonus payments in 2007 appraisal

	Number	Percentage
Male	100	75
Female	36	25
Recorded disabled	6	4
Recorded ethnic minority	5	4

Data linking sexual orientation to bonus payments are not available and can be obtained only at disproportionate cost.

Mr. Philip Hammond: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much was claimed in reimbursable expenses by press officers in his Department and its agencies in each of the last three financial years. [221171]

Mr. Thomas: The information is as follows:

Press office travel and subsistence (T&S) plus losses or compensation

	T&S		£000
	UK	Overseas	Total
2005-06	9	40	49
2006-07	14	11	25
2007-08	13	27	40

	Losses or compensation[1] £
2005-06	n/k
2006-07	n/k
2007-08	110

[1] Information only available by named recipients for 2007-08

Conditions for Claiming T&S

When claims for travel expenses are made all staff members must:

complete the appropriate form

give full details of the journeys involved, including:

route taken

places visited

the form of transport

the time of travel

support all claims with the relevant receipts, unless the cost was small and receipts were not provided

include an explanatory note for any unusual expenditure

make the claim promptly.

Unreasonable claims and expenses that could have been avoided with better planning will not be reimbursed.

If a false claim is knowingly made the staff member may face disciplinary action and even criminal proceedings.

Claims for loss or damage

The Department may make a discretionary compensation payment if, in the course of official duty:

non-luxury items of personal property are lost, damaged or stolen;

items lost, stolen or damaged are not covered by insurance or subject to free replacement;

there is no evidence that actions to prevent the loss, theft or damage could have been taken.

Any compensation paid would be limited to the cost of replacing items stolen or lost, less an appropriate amount for depreciation, or the full cost of repair, where relevant, for items damaged.

The aforementioned conditions apply equally if overseas or on short term visits and during transit to and from the country being visited.

Letter from Graham Horne, dated 22 July 2008:

The Secretary of State for Business, Enterprise and Regulatory Reform has asked me to reply to your question how much was claimed in reimbursable expenses by press officers in his Department and its agencies in each of the last three financial years 2007/3583.

The Insolvency Service Executive Agency of the Department for Business, Enterprise and Regulatory Reform made no payments to press officers for reimbursable expenses in each of the last three financial years.

Letter from Gareth Jones, dated 22 July 2008:

I am responding on behalf of Companies House to your recently tabled Parliamentary Question to the Secretary of State for Business Enterprise and Regulatory Reform.

The amounts paid in reimbursable expenses to press office staff in the last three financial years is as follows:

	£
2005-06	0
2006-07	447
2007-08	367

Departmental Postal Services

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps his Department has taken to monitor the cost of its mail services in the last 12 months. [221492]

Mr. Thomas: The Department continuously monitors the costs of mail services on its HQ Estate to ensure value for money. Information is recorded on a monthly basis on volumes of mail sent/received and the costs involved. BERR is a relatively 'low volume' sender of small mail items and currently uses Royal Mail for its standard 1st and 2nd class mail deliveries. BERR policy is that all mail is sent 2nd class unless there is a business need for use of 1st class delivery.

Departmental Procurement

David Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what his Department's policy is on requesting discounts from its suppliers in return for swift payment of invoices. [220442]

Mr. Thomas: The Department follows OGC best practice guidance in making payments to its suppliers within 30 days of a correctly submitted invoice. This is reflected in the provisions of our standard form of contract. The Department does not have a practice of requesting discounts in return for swift payment of invoices.

The Department is subject to the provisions of the Late Payments of Commercial Debts (Interest) Act 1998 which provides suppliers with rights to claim interest on late payments of a commercial debt.

Departmental Public Buildings

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform which organisations have received *(a)* free and *(b)* discounted room hire from his Department's agencies in each of the last five years; and what the commercial value of the discount was in each case. [221573]

Mr. Thomas: I have asked the chief executives of the Insolvency Service and Companies House agencies to respond to the hon. Member directly.

Letter from Stephen Speed, dated 21 July 2008:

The Secretary of State for Business, Enterprise and Regulatory Reform has asked me to reply to you directly in respect of your question (2007/3592) asking which organisations have received (a) free and (b) discounted room hire from (i) his Department and (ii) its agencies in each of the last five years; and what the commercial value of the discount was in each case.

The Insolvency Service has no record of providing free or discounted room hire to any other organisations in the last five years.

Letter from Gareth Jones, dated 28 July 2008:

I am responding on behalf of Companies House to your recently tabled Parliamentary Question to the Secretary of State for Business Enterprise and Regulatory Reform.

A record of organisations using Companies House's meetings rooms is not kept. However, in the past five years, other government departments, and external organisations for the benefit of Companies House staff, have been allowed to use meeting rooms at no charge. These have included the Welsh Assembly Government, various BERR departments and Benendon Healthcare. As a commercial value is not placed on the meetings rooms there were no discounts identified.

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform which organisations have received *(a)* free and *(b)* discounted room hire from his Department since its inception; and what the commercial value of the discount was in each case. [221594]

Mr. Thomas: It is not BERR policy to offer free or discounted room hire for any of its conference facilities on the main BERR estate.

Departmental Public Participation

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what *(a)* listening exercises and *(b)* public forums his Department has held in each of the last two years; what the (i) purpose and (ii) cost was in each case; and who the private contractor was and how much it was paid in each case. [221359]

Mr. Thomas: Listening events, including public meetings are among the consultation methods that the Department uses in developing policy—the standard method for formal consultation exercises being a written consultation document made available on the BERR website. Listening events may or may not be organised by private contractors.

It would not be possible, except at disproportionate cost, to analyse all consultations by method used and extract costs relating specifically to listening events.

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what *(a)* reviews and *(b)* public consultations have been initiated by his Department since 27 June 2007. [221370]

Mr. Thomas: The Department's Better Regulation Simplification Plan published in December 2007 followed a detailed review of the administrative burdens imposed by all the regulations for which BERR and its agencies are responsible.

Our approach is to review regulation in line with the March 2008 White Paper "Post-legislative scrutiny: the Government's Approach" by the Office of the Leader of the House. In addition, the revised impact assessment process has increased the focus on post implementation reviews.

All the Department's consultations are listed in the consultation index of its website at:

http://www.berr.gov.uk/consultations/index.html

Departmental Responsibilities

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform which projects his Department has commissioned from *(a)* think tanks and *(b)* charities in each of the last two years for which figures are available; what the aim of each project was; which think tank or charity was commissioned; and how much was paid. [221607]

Mr. Thomas: The amount of expenditure made by the Department for projects commissioned from think tanks and charities in each of the last two years is not available without disproportionate cost.

Departmental Sick Leave

David Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many staff in his Department and its predecessor have had five or more periods of sickness absence of less than five days in two or more of the last five years. [218981]

Mr. Thomas: I refer the hon. Member to the answer I gave on 21 July 2008, *Official Report,* column 921W: departmental sick leave.

Departmental Written Questions

David Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how long on average his Department took to answer *(a)* ordinary written and *(b)* named day questions in each of the last three years. [215454]

Mr. Thomas: The information requested is not held centrally and could be obtained only at disproportionate cost. However of 2,369 questions, tabled between November 2007 and June 2008, 80 per cent. of questions were answered within 10 sitting days.

Named day figures for the same period show that of 529 tabled, 134 were answered on the date specified (25 per cent.). All other named day questions received a holding answer and 70 per cent. received a substantive reply within five sitting days.

Electricity Generation: Renewable Energy

Matthew Taylor: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what proportion of electricity generated in *(a)* Cornwall, *(b)* the South West region and *(c)* nationally comes from renewable sources. [221678]

Malcolm Wicks: The Department does not collect data at *(a)* the county level for renewable generation. The Department publishes the annual Digest of UK Energy Statistics (DUKES) covering *(b)* regional and *(c)* national level statistics. For 2006, the last year for which data has been published, 4.6 per cent. (18,133.3 GWh) of electricity generated in the UK was from renewable sources. Of this, 797.4 GWh were generated in the South West region.

Electronics Industry

Dr. Gibson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of *(a)* the number of semiconductor companies based in the UK and *(b)* the number of people employed in the semiconductor industry. [216148]

Malcolm Wicks *[holding answer 3 July 2008]:* The Department has made no such estimate. However, according to the National Microelectronics Institute (NMI), there are 13 semiconductor manufacturing plants in the UK employing a total of approximately 4,700 people.

Energy: Manpower

Steve Webb: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many of his Department's staff work on *(a)* nuclear energy and *(b)* combined heat and power issues. [220898]

Malcolm Wicks *[holding answer 22 July 2008]:* 62 of the Department's staff work on nuclear energy. This includes legacy nuclear, nuclear non-proliferation, and new nuclear. Three work on combined heat and power, where the policy lead rests with the Department for the Environment, Food and Rural Affairs.

Exports

Mr. Laurence Robertson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what his Department's budget will be for supporting UK companies in their exporting activities in each of the next five years, broken down by main category of expenditure. [218925]

Mr. Thomas *[holding answer 15 July 2008]:* The budgets for UK Trade and Investment (UKTI) are agreed with HM Treasury on a three year spending cycle. The budgets agreed in the Comprehensive Spending Review 2007 are drawn from three sources; UKTI's directly voted programme expenditure, and budgets delegated from UKTI's two parent departments—The Department for Business Enterprise and Regulatory Reform, and the Foreign and Commonwealth Office. The estimated budget for trade promotion/exporting across the sectors, from aerospace to water as bespoke support for individual companies and for groups of companies within particular sectors for 2008-09 is £242 million reducing to approximately £236 million by the end of the 2010-11 financial year, subject to UKTI's annual corporate planning and annual parliamentary approval.

UKTI has not allocated any formal budgets beyond this time frame.

Exports: Middle East

Mr. Breed: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the value of goods exported from the UK to illegal Israeli settlements in the occupied Palestinian territories in the latest period for which figures are available. [220064]

Mr. Thomas: HM Revenue and Customs maintains records of UK exports to Israel and to the occupied Palestinian territories. However, no records are kept by HM Revenue and Customs of the final destination of these exports.

Fair Trade Initiative

Mr. Moore: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 18 February 2008, *Official Report*, column 387W, on the Fairtrade initiative, what Fairtrade products are *(a)* available for purchase at his Department's staff catering facilities and *(b)* offered at official departmental meetings and engagements. [209015]

Mr. Thomas: Fair Trade products provided by the Department's contracted catering service provider from staff catering facilities include all coffee beans and filter coffee, standard tea bags, sugar sticks (brown and white), limited confectionery and a selection of biscuits. These are also supplied when ordered for meetings and other engagements.

Firearms: Exports

Mr. Laurence Robertson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what support his Department provides to UK companies who export sporting firearms. [218924]

Mr. Thomas *[holding answer 15 July 2008]:* UK Trade and Investment is the organisation within the FCO and BERR that provides UK businesses with access to a range of information, advice and support to assist their efforts in overseas markets. Support is tailored specifically to individual company needs.

However, there are no specific examples of UKTI helping exporters of sporting firearms.

Flexible Working

Mr. Jenkins: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) how many requests for flexible working by *(a)* (i) mothers and (ii) fathers were refused by employers in each year since 2003 and *(b)* carers were refused by employers in 2007; [216192]

(2) how many requests for flexible working by *(a)* (i) mothers and (ii) fathers were accepted by employers in each year since 2003 and *(b)* carers were accepted by employers in 2007. [216193]

Mr. McFadden: The following answer provides information on the number of requests for flexible working accepted or rejected by working parents by gender. The Department does not have the requested information for each year since 2003 and does not have evidence on the number of requests accepted or rejected by carers.

The Department does periodically conduct a Work-Life Balance Employees' Survey.

The last employee survey (Third Work Life Balance Employees' Survey) was conducted in 2006 (before the implementation of the extension of the right to request to carers therefore no evidence related to these requests is available).

Across the survey as a whole, 17 per cent. of employees had made such a request. 22 per cent. of mothers said that they had made a request to change the way that they work in the past two years as compared to 14 per cent. of fathers.

Data on acceptance and refusal rates are given in the following table; the numbers do not sum up to 100 per cent. because at the time of the survey some requests were awaiting decisions.

	Percentage making a request	*Percentage requests accepted by employer*	*Percentage requests refused by employer*
All	17	78	17
Mothers	22	83	13
Fathers	14	71	23

The Second Work-Life Balance Employees' Survey was carried in early 2003. Data on acceptance and refusal rates from requests made by mothers and fathers were not identified separately and so this information is not available.

Data on acceptance and refusal rates are given in the table below; the numbers do not sum up to 100 per cent. because at the time of the survey some requests were awaiting decisions.

	Percentage making a request	*Percentage requests accepted by employer*	*Percentage requests refused by employer*
All	17	77	20
Mothers	29	—	—
Fathers	12	—	—

Stephen Williams: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) how many working parents were *(a)* eligible to request, *(b)* asked for and *(c)* were refused flexible work in the most recent year for which figures are available; [216892]

(2) how many employers *(a)* were eligible to be asked to provide flexible working, *(b)* were asked by an employee for flexible working arrangements and *(c)* refused an employee's request to work flexibly in the most recent year for which figures are available. [216893]

Mr. McFadden: The following answer gives evidence on the number of parents eligible to request flexible working and the outcome of these requests, in addition we are also providing information related to employers receiving a request. We do not have information on the number of employers who are eligible to be asked to provide flexible working.

Three surveys carried out by the Department provide evidence on the information requested.

The Regulatory Impact Assessment carried out in 2002

http://www.berr.gov.uk/files/file11440.pdf

estimated that, prior to the introduction of the right to request flexible working for parents of young and disabled children, 3.7 million employees would be entitled to make a request to work flexibly.

Evidence on employees is provided by the Third Work-Life Balance Employees' Survey, conducted in 2006, which indicated that 17 per cent. of eligible working parents made requests to their employer for flexible working. Of these requests 78 per cent. were accepted, 17 per cent. were refused, while 5 per cent. were awaiting decisions at the time that the survey was conducted.

Evidence on employers comes from the Third Work-Life Balance Survey of Employers conducted in 2007, which found that 40 per cent. of workplaces had received a request from an employee within the previous 12 months to work flexibly. The survey also found that 90 per cent. of employers had accepted all requests and 9 per cent. reported they had turned down at least one request.

We do not have data on the number of employers who are eligible to be asked to provide flexible working.

Flexible Working: Tribunals

Mr. Jenkins: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many employment tribunal cases were brought successfully by *(a)* (i) mothers and (ii) fathers in each year since 2003 and *(b)* carers in 2007 against refusal of requests for flexible working; and what the average amount of compensation awarded was in each case. [216487]

Mr. McFadden: It is not possible to give a breakdown by mother, father or carer, of the numbers of claims on the grounds of refusal of request for flexible working as this would incur disproportionate cost.

The amount of compensation awarded in flexible working claims is not recorded; the only jurisdictions where this is recorded are unfair dismissal and discrimination.

Fluoride

Tom Levitt: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent assessment he has made of the national demand for fluorspar of UK origin; and if he will make a statement. [216737]

Malcolm Wicks: The Department for Business, Enterprise and Regulatory Reform has not undertaken any independent assessment of the national demand for fluorspar of UK origin. I refer my hon. Friend to the recently published British Geological Survey open report OR/08/27 "The Need for Indigenous Fluorspar Production in England", which is available online at

http://www.bgs.ac.uk/mineralsuk/downloads/fluorspar_need_for_indigenous.pdf.

Fuel Poverty: Scotland

Mr. Charles Kennedy: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the number of households in Scotland which were not in fuel poverty on 31 December 2007 but which will be by 31 December 2008. [218214]

Malcolm Wicks: Each country within the UK has separate reporting procedures for fuel poverty rates, as the question relates to Scotland only, the Scottish Executive would be wholly responsible for providing the information asked for.

Gambling: USA

Mr. Don Foster: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what discussions he has had with *(a)* his EU counterparts and *(b)* European Commissioners on the conclusion of negotiations between the EC and the US on the US withdrawal from its gambling commitments in the World Trade Organisation (WTO) and the consequent compensatory adjustments offered by the US in the WTO General Agreement on Trade in Services. [220606]

Mr. Thomas *[holding answer 21 July 2008]:* The UK remained in close contact with the US Administration, the European Commission, other EU member states and UK gambling interests throughout the negotiation of an agreed compensation package with the US.

A final compensation package was agreed, between the EC and the US, in December 2007.

Government Communications

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many staff in *(a)* his Department and (b) its agencies (i) are classified as Government communicators and (ii) have access to the Government Communication Network. [215096]

Mr. Thomas: As at July 31 2008 there were 60 staff working in the central communications directorate of BERR and there are 22 UK Trade and Investment staff in similar roles.

There were, as of June 2008, a further 55 staff members, in the wider department, carrying out primarily communications roles.

All civil servants who work in a communication role can access the GCN and the resource it provides.

I have approached the Chief Executives of the Insolvency Service and Companies House agencies and they will respond the hon. Member directly.

Letter from Stephen Speed, dated 22 July 2008:

The Secretary of State for Business, Enterprise and Regulatory Reform has asked me to reply to you directly on behalf of The Insolvency Services in respect of your question (2007/3218) asking how many staff in (a) his Department and (b) its agencies (i) are classified as Government communicators and (ii) have access to the Government Communication Network.

The Insolvency Service has two members of staff classified as Government communicators with access to the Government Communications network.

Letter from Gareth Jones, dated 21 July 2008:

I am responding on behalf of Companies House to your recently tabled Parliamentary Question to the Secretary of State for Business Enterprise and Regulatory Reform.

Five Companies House staff are members of the Government Communication Network, and therefore classed as Government communicators. As members, they are the only staff with full access to the network.

Hazardous Substances: Textiles

Lynne Featherstone: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the Government's policy is on the possibility of extending the scope of the revised restriction of hazardous substances directive to include textiles. [221185]

Malcolm Wicks: The restriction of hazardous substances (RoHS) directive is currently being reviewed by the European Commission, with a view to the tabling of proposals for a revised directive later in the year. There are, however, no plans or intention to broaden its scope beyond electrical and electronic equipment.

Homeworking

Mr. Drew: To ask the Secretary of State for Business, Enterprise and Regulatory Reform for what reasons the UK has not signed the International Labour Organisation Convention on Homework; if he will make it his policy to sign the Convention; and if he will make a statement. [214234]

Mr. McFadden: The Government have taken measures which bring the UK closer to the principles articulated in the convention. For example, we have taken specific action to ensure homeworkers doing piecework receive at least the National Minimum Wage. Only five countries (Albania, Argentina, Finland, Ireland and the Netherlands) have ratified the convention.

Hydroelectric Power

Andrew Stunell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many small hydro schemes supplying electricity to buildings there are. [219668]

Malcolm Wicks: As part of a consortium of organisations including the microgeneration industry and energy NGOs, we commissioned research on the growth potential for microgeneration in England, Wales and Scotland, which included current levels of uptake. It found that there were an estimated 65-75 small hydro installations at the end of 2007 (less than 100 kW), although it did not estimate how many of these were supplying electricity to buildings.

The research can be accessed at:

http://www.berr.gov.uk/energy/sources/sustainable/microgeneration/research/page38208.html

Imports: Israel

Mr. Carmichael: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the value of Israeli settlement produce entering the UK in the latest period for which figures are available; and if he will make a statement. [220028]

Mr. Thomas: No such records are kept by HM Revenue and Customs.

Mr. Carmichael: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether his Department maintains a record of produce from illegal Israeli settlements which is imported into the UK. [220460]

Mr. Thomas: No such records are kept by HM Revenue and Customs.

Mr. Carmichael: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will bring forward proposals to ban the sale of produce from illegal Israeli settlements in the UK. [220462]

Dr. Howells: I have been asked to reply.

The EU does not recognise settlements as part of Israel and does not accept goods from settlements as coming under the EU-Israel Association Agreement. The UK continues to work to ensure that settlement products are not imported as Israeli goods under the Preferential Trade Agreement.

The Government currently have no plan to ban the sale of produce from illegal Israeli settlements.

Industry

Mr. Ellwood: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the six industries which make the largest contribution to GDP are in the UK. [213143]

Mr. Thomas: According to the latest ONS fully balanced national accounts, industry, for 2004, the six industry divisions that made the largest contribution to whole economy gross value added (GVA) at current prices were:

Industry division	*Standard Industry Classification (SIC)*	*Percentage of total GVA in 2004*
Real estate activities	70	10.4
Other business services (legal services, accountancy, advertising, architecture and engineering activities, industrial cleaning etc.)	74	9.3
Health and social work	85	7.1
Construction	45	6.0
Education	80	5.8
Banking services	65	5.6

It should be noted that the economic output of the 'real estate activities' division is largely accounted for by 'imputed rent of owner occupiers', which covers housing services produced by owner-occupiers for which they are deemed to pay for themselves. If this was excluded, then real estate activities would not feature in the top six. The industry division which produced the next highest percentage of total GVA in 2004 was retail distribution (SIC 52), at 5.2 per cent.

The industries shown in the aforementioned table form a subset of industry divisions in the Standard Industrial Classification (SIC) system. The SIC is used to group businesses into industries for official statistical purposes, on the basis of the type of economic activity they undertake. It provides a framework for the collection, tabulation, presentation and analysis of data and its use promotes uniformity of definition. However, it is worth noting that while the SIC enables statistical comparison of industries, the details in this table, and comparisons of this nature in general, essentially reflect the degree of detail in which industries are defined for statistical purposes within the SIC system. Typically, there is less detail defined within the service sector than within manufacturing, for example, so service industries tend to look bigger for this somewhat artificial reason alone.

Members: Correspondence

Clare Short: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when the Minister of State for Employment Relations and Postal Affairs plans to respond to the letter from the right hon. Member for Birmingham, Ladywood of 8 May 2008 on the Post Office local pilot scheme. [214788]

Mr. McFadden: I apologise for the delay in responding to my right hon. Friend, this was due to an administrative error.

I replied to my right hon. Friend on 3 July 2008.

John Penrose: To ask the Secretary of State for Business, Enterprise and Regulatory Reform for what reasons he has not replied to the hon. Member for Weston-super-Mare's letters of 19 May and 18 June 2008 on behalf of his constituent Mr. Egbers. [223218]

Mr. Thomas: I apologise for the initial delay in responding to the hon. Member.

I replied on 19 June 2008.

Microgeneration

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of potential levels of microgeneration in the UK using *(a)* solar power and *(b)* wind power in (i) 2010, (ii) 2015 and (iii) 2020. [219881]

Malcolm Wicks: BERR, as part of a consortium with other organisations, commissioned some research on the growth potential for microgeneration in England, Wales and Scotland. The study modelled the expected uptake of microgeneration technologies based on a variety of policy options. It found there were approximately 1,130 micro-wind turbines and 92,900 solar (PV and thermal) installations at the end of 2007. It suggested that with no additional policy support, there could be 3,500 micro-wind and 148,600 solar installations by 2015; and 8,700 micro-wind and 272,700 solar installations by 2020.

The report can be viewed at:

http://www.berr.gov.uk/energy/sources/sustainable/microgeneration/index.html

Additional policy support, which we are consulting on as part of our Renewable Energy Strategy Consultation, could substantially raise these figures.

Minimum Wage

Robert Neill: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the cost of the national minimum wage information tour bus initiative is, broken down by main budget heading. [192170]

Mr. McFadden: The national minimum wage outreach bus campaign is costing around £250,000. This includes the cost of the nine week bus tour. We expect to have reached 800,000 people directly through the bus itself, and many others through the media coverage the awareness campaign has attracted.

Motor Sports: Finance

Mr. Wallace: To ask the Secretary of State for Business, Enterprise and Regulatory Reform which successful bids for the Spring 2007 technology programme were linked to motor sports. [220500]

Malcolm Wicks: One successful bid under the Spring 2007 Collaborative Research and Development call of the Technology Programme was linked to motor sports. However, the details are commercial in confidence.

National Grid: Standards

John Penrose: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he plans to publish national grid's full report into the sequence of events and causes of the drops in system frequency on 27 May 2008. [220557]

Malcolm Wicks: The national grid has published a report into the events of 27 May 2008. This can be found on the national grid website at

http://www.nationalgrid.com/NR/rdonlyres/D680C70A-F73D-4484-BA54-95656534B52D/26917/PublicReportIssue1.pdf.

Natural Gas: Prices

Miss McIntosh: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the average cost of gas to *(a)* domestic and *(b)* commercial consumers in each of the last five years. [206039]

Malcolm Wicks: Domestic retail prices for gas are published quarterly in section 2 of "Quarterly Energy Prices", the latest edition of which was published in June 2008 and is available online at:

http://www.berr.gov.uk/files/file46669.pdf.

Table 2.3.1 on page 21 holds average gas bills, back to 1990, split by payment method.

Table 3.4.1 on page 44 shows gas prices for non-domestic consumers split by consumption band. The Department does not hold any data on gas prices to commercial consumers.

Table 2.3.1 Average annual domestic gas bills by home and non-home supplier

£

	Standard credit			*Direct debit*[1]			*Prepayment*		
	Home suppliers	*Non-home suppliers*	*GB*	*Home suppliers*	*Non-home suppliers*	*GB*	*Home suppliers*	*Non-home suppliers*	*GB*

A copy of the 'Quarterly Energy Prices - June 2008' is available from both Libraries of the House.

Nuclear Decommissioning Authority

Mr. Drew: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what expenditure his Department incurred in retaining King Sturge to market the Berkeley Nuclear Decommissioning Authority Site; and whether the report on the work undertaken will be published. [223575]

Malcolm Wicks: I am advised that the Nuclear Decommissioning Authority initially instructed King Sturge to help market some office accommodation at the Berkeley site, but were subsequently stood down and no expenditure has been incurred.

Nuclear Power

Steve Webb: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what research his Department has commissioned on *(a)* nuclear energy and *(b)* combined heat and power in the last two years for which information is available; and what the budget was for each piece of research. [220585]

Malcolm Wicks *[holding answer 21 July 2008]:* This year the Department commissioned research from Ernst and Young into the UK's competitive global position as a site for new nuclear investment. The budget for this project was £50,000. This Department has not commissioned any research on combined heat and power, where the policy lead rests with the Department for Environment, Food and Rural Affairs.

Nuclear Power Stations

Mr. Morley: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the costs of providing additional electricity to make up for the loss from nuclear power stations closed for repairs since January 2007. [217581]

Malcolm Wicks: BERR does not seek to estimate the costs of generating electricity under hypothetical scenarios, to compare with actual costs. This would require speculation

as to the sources of generation that would not have been used under different scenarios, whereas many factors govern individual companies' decisions as to which plant should be used for generation at any given time.

BERR publishes a table of fuel used in electricity generation by major producers, which shows the contribution to overall generation from all sources including nuclear plant on an annual basis going back to 1995. This is available on the BERR website at

http://www.berr.gov.uk/energy/statistics/source/electricity/page18527.html

Nuclear Reactors

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the refuelling dates were of each nuclear reactor in the United Kingdom in the last 20 years. [221034]

Malcolm Wicks: The Government do not hold this information. Details of the timing of refuelling at nuclear plants is a commercial matter for the operators.

Nuclear Reactors: Decommissioning

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the time needed to decommission graphite cores of redundant nuclear reactors. [220889]

Malcolm Wicks: The Nuclear Decommissioning Authority and British Energy estimate that, following an extensive period during which radioactivity levels in the core have been allowed to decay away, it will take between two and three years to remove the graphite cores of redundant nuclear reactors.

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what mechanisms exist to retain those trained in the National Nuclear Skills Academy within the nuclear decommissioning, clean-up and waste management sector. [221033]

Malcolm Wicks: There are no specific mechanisms in place to retain staff, although individual employers and employees might negotiate their own arrangements. A blanket mechanism to restrict the movement of workers, once qualified, would be difficult to set up and open to legal challenge. The labour supply across energy will be tight and employers will have to be competitive to recruit and retain skills.

Nuclear-trained workers have a core set of technical skills that are transferable to other industries. The Academy and Cogent expect some leakage and have factored this into their planning. This is most likely to benefit related activities, such as new nuclear build, renewable energy and manufacturing. Thus there are positive benefits to the wider economy.

Overseas Trade: Israel

Mr. Amess: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will place in the Library a copy of the speech he made to the annual dinner of the British-Israel Chamber of Commerce; who drafted the speech; which Government Departments provided advice; and if he will make a statement. [219716]

Mr. Thomas: A copy of this speech will be deposited in the House of Commons Library.

The speech was drafted by UK Trade and Investment (UKTI) officials in London, with contributions from the UKTI team in the British Embassy in Tel Aviv.

Mr. Amess: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps *(a)* he has taken since January 2008 and *(b)* plans to take during the next 12 months to increase trade between the United Kingdom and Israel; how much his Department (i) has spent since January 2008 and (ii) plans to spend during the next 12 months on the promotion of trade between the United Kingdom and Israel; what recent representations he has received on increasing trade between the United Kingdom and Israel; what response he gave; and if he will make a statement. [219717]

Mr. Thomas: UK Trade and Investment (UKTI) provides a range of support services to British companies wishing to trade with or invest in Israel, through UKTI officials based in London and the British embassy in Tel Aviv. UKTI officials in Tel Aviv also work to encourage increased Israeli investment in the UK. Examples of UKTI-funded activity since January 2008 include the publication of a newsletter, highlighting the UK's strengths as a business partner, to coincide with the Lord Mayor's visit to Israel, from 21 to 24 January 2008; financial support for Israeli participation in the NanoForum 2008 conference and exhibition in the UK in October 2008; and continued support for the Israel-Britain Business Council (IBBC), most recently through hosting the IBBC's Full Council meeting in the UK on 8 July 2008.

My right hon. Friend the Prime Minister visited Israel and the Occupied Palestinian Territories from 19 to 21 July 2008, accompanied by my hon. Friend the Minister for Trade & Investment; the Chief Executive of UK Trade and Investment; and a delegation of 19 senior British businessmen. During the visit, my right hon. Friend the Prime Minister spoke at a UKTI sponsored UK-Israel Business Conference on 20 July; signed a new co-production treaty aimed at promoting more joint ventures between the Israeli and British film industries; and announced ambitious new targets both to secure 25 more inward investment projects from Israel by 2010, and to increase bilateral trade between Israel and the UK to at least £3 billion by 2012.

UK Trade and Investment spent £69,682 on the promotion of trade between Israel and the UK over the period January to July 2008, and is currently committed to spending a further £31,676 over the remainder of this financial year.

I have received no recent representations on expanding trade between the UK and Israel. However, Lord Jones set out his views on the importance of commercial and wider bilateral links between the UK and Israel in a speech at the British-Israel Chamber of Commerce's Gala Dinner on 30 June 2008. A copy of this speech has been deposited in the House of Commons Library.

Overseas Trade: Middle East

Mr. Breed: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what his Department's policy is on offering support to UK companies to gain or maintain contracts with illegal Israeli settlements in the occupied Palestinian territories. [220065]

Mr. Thomas: UK Trade and Investment provides a range of support services to companies wishing to trade with or invest in Israel and the occupied Palestinian territories. The Department is not involved in the negotiation or agreement of individual contracts following this support.

Parental Leave

Mr. Jenkins: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what his Department's estimate is of the number of *(a)* mothers and *(b)* fathers who were eligible for parental leave in each year since 1999. [216191]

Mr. McFadden: The Department does not have all the requested information for each year since 1999. However, there are four different sources that give information on eligibility, take-up and/or average length of parental leave for particular years.

The Regulatory Impact Assessment on the Parental Leave Regulations 1999

http://www.berr.gov.uk/files/file34183.pdf

estimated that there would be 2.7 million employees eligible for parental leave. Of those eligible, 60 per cent. were estimated to be fathers, because women with younger children are less likely to be in work.

The RIA also estimated that an additional 75,000 people would take parental leave each year as a result of the change in regulations.

The Second Work Life Balance Study: Results from the Employees' Survey published in March 2004

http://www.berr.gov.uk/files/file11499.pdf

which focuses on employees' responses, found that 12 per cent. of working parents who said that parental leave was available in their workplace had taken parental leave in the last year and with their current employer. This translates as 4 per cent. of all parents (regardless of whether parental leave was available in their workplace or not) with dependent children taking parental leave in the previous year. Sample sizes were too small for further analysis of take-up of parental leave by employee characteristics and for analysis of the average numbers of days parents took off.

The third Work-Life Balance Employer Survey published in 2007

http://www.berr.gov.uk/files/file42645.pdf

which draws on employers' rather than employees' responses, indicates that around 14 per cent. of employers had at least one employee who had taken parental leave in the 12 months prior to taking part in the survey. This was comparable to the incidence of parental leave in 2003 (also 14 per cent.).

The Maternity and Paternity Rights and Benefits: Survey of Parents 2005

http://www.berr.gov.uk/files/file27446.pdf

which looked at the first 17 months of a child's life, indicates that 11 per cent. of mothers had taken some parental leave since the end of maternity leave, an increase from 8 per cent. in 2002. Two-thirds of these had taken a week or less.

The survey also showed that 8 per cent. of fathers had taken some parental leave within 17 months of their child's birth, three-quarters for less than a week.

Photovoltaics

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many photovoltaic panels he estimates will be installed in the UK in *(a)* 2008, *(b)* 2009 and *(c)* 2010. [219349]

Malcolm Wicks: As part of a consortium of organisations including the microgeneration industry and energy NGOs, we commissioned research on the growth potential for microgeneration in England, Wales and Scotland, which included current levels of uptake. It found that there were an estimated 2900 microgeneration PV installations at the end of 2007, the majority of them being installed during 2007. Although the research did not estimate how many installations there would be each year it provides information on potential uptake given various potential incentives.

The research can be accessed at:

http://www.berr.gov.uk/energy/sources/sustainable/microgeneration/research/page38208.html

Andrew Stunell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many *(a)* domestic and *(b)* non-domestic photovoltaic installations to buildings there were in each year since 2004; and what percentage of all buildings this represents. [219671]

Malcolm Wicks: As part of a consortium of organisations including the microgeneration industry and energy NGOs, we commissioned research on the growth potential for microgeneration in England, Wales and Scotland, which included current levels of uptake. It found that there were an estimated 2,900 solar PV installations at the end of 2007. It did not estimate how many were domestic or non-domestic installations.

The research can be accessed at:

http://www.berr.gov.uk/energy/sources/sustainable/microgeneration/research/page38208.html

Post Office

Mr. Austin Mitchell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much profit *(a)* Post Office Ltd and *(b)* the Royal Mail made in each year since 1997; and how many companies were authorised to provide services previously reserved to the Post Office Corporation in each such year. [208625]

Mr. McFadden: Royal Mail Group Ltd and Post Office Ltd (POL) profits before exceptionals since 1997 are as follows:

£ million

Financial year	Post Office Limited	Royal Mail Group
1996-97	34	477
1997-98	33	528
1998-99	22	392
1999-2000	46	381
2000-01	(38)	22
2001-02	(144)	(67)
2002-03	(195)	19
2003-04	(133)	51
2004-05	(123)	302
2005-06	(111)	355
2006-07	[1](108)	233
2007-08	[1](34)	162

[1] When the additional impact of the social network payment is taken into account POL losses are £184 million for 2007-08 and £183 million for 2006-07.

The number of licensees authorised by Postcomm under section 11 of the Postal Services Act 2000 to convey letters within the UK were as follows:

Year (up to 31 December)	Newly licensed operators	Total number of licensees
2001	5	5
2002	8	12
2003	0	9
2004	2	9
2005	6	14
2006	4	18
2007	2	17
2008—at 4 June	4	20

Note:
The two columns do not tally because licensed operators exiting the market are not shown.

Bob Spink: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will place in the Library the minutes of the meeting of 12 September 2007 in Brussels between his Department, the European Commission and Post Office Ltd. [208928]

Mr. McFadden *[holding answer 5 June 2008]:* No minutes of the meeting were taken.

Post Offices

Mark Williams: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many Post Office branches subject to the Network Change programme have been submitted for further review by Postwatch; and how many decisions on Post Office branches that have been subject to the agreed review mechanism between Post Office Ltd and Postwatch have been altered as a result of this process. [221474]

Mr. McFadden: This is an operational matter for Post Office Ltd (POL). I have therefore asked Alan Cook, managing Director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Post Offices: Cash Dispensing

Mrs. James: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps his Department is taking to encourage the installation of free cash machines at post office branches. [223238]

Mr. McFadden: The Government support Post Office Ltd. (POL) in expanding the range of financial services offered to customers, including the introduction of up to 4,000 free-to-use ATMs across the network.

However, this is an operational matter for POL. I have therefore asked Alan Cook, Managing Director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Post Offices: Closures

Mr. Evennett: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what annual cash savings the Post Office expects to make from the closure of the post office branch at *(a)* 157 Broadway, Bexleyheath and *(b)* 301-303 Brampton Road, Bexleyheath. [214490]

Mr. McFadden: This is an operational matter for Post Office Limited (POL). I have therefore asked Alan Cook, Managing Director, of POL to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Post Offices: Competition

Mr. Steen: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will take steps to lift the restrictions on sub-post masters offering services which compete with Post Office Ltd. services. [213253]

Mr. McFadden *[holding answer 23 June 2008]:* No. This is a contractual matter between Post Office Ltd. (POL) and sub-postmasters. POL believes that retaining restrictions in the sub-postmaster contract are essential to the survival of the network. The National Federation of SubPostmasters supports the company's position. These restrictions cover only the key products and services that generate income for the network and preserve POL's ability to negotiate new business on behalf of the full network. Allowing potential suppliers to cherry-pick branches in which to sell their products, would make it impossible for POL to negotiate agreements for all branches across the network.

Post Offices: Cornwall

Dan Rogerson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will require Post Office Ltd to publish details of the objections raised to each of the proposed branch closures in Cornwall during the network change consultation process. [223395]

Mr. McFadden: The implementation of the Network Change Programme is an operational matter for Post Office Ltd. All of the Area Plan decision booklets published by Post Office Ltd. contain summaries of the key aspects of the responses received by Post Office Ltd. for each of the branches proposed for closure under the Area Plan proposals.

Due to the substantial response to each of the Area Plan proposals it is not feasible to set out in full all of the responses in the decision booklets. However, all such responses are reviewed, considered and taken into account by Post Office Ltd. when making its decisions on which branches should close.

Post Offices: Stoke on Trent

Mr. Flello: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate has been made of the likely financial savings which will arise from the closure of *(a)* Dresden post office branch and *(b)* Trentham post office branch in Stoke-on-Trent South constituency. [223325]

Mr. McFadden: This is an operational matter for Post Office Ltd. (POL). I have therefore asked Alan Cook, Managing Director of POL, to reply direct to the hon. Member. Copies of the letter will be placed in the Libraries of the House.

Public Houses

Mr. David Anderson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many *(a)* forfeitures, *(b)* involuntary surrenders and *(c)* voluntary surrenders of tied public houses there were in each year since 2004. [219908]

Mr. Thomas: The Department for Business, Enterprise and Regulatory Reform does not collate information on this matter.

Radioactive Wastes: Waste Management

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the length of time spent nuclear fuel discharged from the reactor cores of the new nuclear reactors planned would remain in store at the respective reactor site or sites prior to removal for long-term management. [220446]

Malcolm Wicks: The management of any spent fuel arising from the operation of new build reactors in the UK is a matter for the owners of that material, namely the operators. However, the current assumption is that any fuel would remain in storage at the reactor site through life pending disposal. We believe that interim storage provides an extendable, safe and secure means of containing waste for as long as it takes to site and construct a geological disposal facility.

Regional Development Agencies: Pay

Julia Goldsworthy: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what pay scales are used by regional development agencies; and what guidance is provided to regional development agencies about the salary levels of management and senior management staff. [210415]

Mr. McFadden *[holding answer 12 June 2008]:* The regional development agencies have determined their pay scales for staff up to chief executive level based on recognised evaluation systems which determine the level of responsibility for each job along with local market benchmarking. Any changes in their pay framework have to be included in their pay remits, following Treasury Pay Remit Guidance for approval each year by BERR.

Key Facts Sheet

Any proposed increase in salaries for staff in the regional development agencies is submitted through their Pay Remits which are forwarded to BERR, except for the chief executives.

Pay Remit Guidance is issued by the Treasury.

The Pay Remits are sent to BERR and once all of the information is received are submitted to the Pay Co-ordination Group and then Secretary of State for approval.

The pay scales for the chief executives of the RDAs are agreed by the Secretary of State and increases are in line with the recommendations of the Senior Salaries Review Body. Progression awards and bonuses are forwarded to the Secretary of State for consideration based on performance and to the structure detailed in the Financial Memorandum and Management Statement issued to the RDAs.

Regional Planning and Development: Finance

Robert Neill: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what funding each of the regional development agencies plans to provide to each of the regional equality and diversity partnerships in 2008-09. [215067]

Mr. McFadden: The following table shows RDAs' funding to regional equality and diversity partnerships in 2008-09.

RDA	*Funding in 2008-09 (£000)*	*Notes*
AWM	0	No plans to provide core funding for the respective regional equality and diversity partnerships in their regions in 2008-09.
ONE	80	ONE to provide £80,000 to the North East Equality and Diversity Partnership.
YF	0	No plans to provide core funding for the respective regional equality and diversity partnerships in their regions in 2008-09.

No such single, legally constituted equality and diversity partnership exists within the east of England, east midlands, London, the north west, south east or the south west.

Renewable Energy

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the evidential basis is for the Government's calculation that £100 billion is required for investment in renewables to meet its EU obligations by 2020; and if he will make a statement. [219390]

Malcolm Wicks: This calculation was based on the Renewables Advisory Board's report, "2020 Vision—how the UK can meet its target of 15 per cent. renewable energy", which is available at:

http://renewableconsultation.berr.gov.uk/related_documents

Mr. Tyrie: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the cost *(a)* on average to the consumer and *(b)* to the economy of the renewables obligation in each of the last five years. [221450]

Malcolm Wicks: The information is as follows.

(a) The annual cost of the renewables obligation to the consumer (based on an average domestic electricity consumption figure quoted by Energywatch) was:

	£
2002-03	2.97
2003-04	4.33
2004-05	5.11
2005-06	5.87
2006-07	7.35

(b) The cost to the economy of complying with the renewables obligation was:

	£
2002-03	277,847,040.00
2003-04	415,772,340.12
2004-05	497,892,106.53
2005-06	583,003,786.32
2006-07	718,970,430.24

Renewable Energy: Nuclear Power

Steve Webb: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of supply chain constraints in *(a)* the renewable energy sector and *(b)* the nuclear sector, what strategy his Department is pursuing to overcome such constraints; and if he will make a statement. [220160]

Malcolm Wicks *[holding answer 21 July 2008]:* There has never been a greater global demand for finance, equipment and skills to build and operate renewable energy and nuclear power stations.

BERR commissioned a report on the supply chain constraints in the renewable energy sector which was published on the BERR website last month. As we have stated in the UK Renewable Energy Strategy consultation document, we will be working with the regional development agencies, UK Trade and Investment and other relevant bodies to develop a co-ordinated strategy to address the supply chain barriers in this sector.

We have asked NAMTEC, the National Metals Technology Centre, to produce a preliminary study of our nuclear supply chain which will analyse the expertise developed through 50 years of nuclear power in the UK and our potential to compete with the best in the world. The new Office of Nuclear Development will work with industry and others to identify and manage potential supply chain issues.

Severn Barrage: Railways

Adam Price: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether the feasibility study on the Severn Barrage commissioned by his Department is examining the possibility of the inclusion of a rail link. [220076]

Malcolm Wicks *[holding answer 21 July 2008]:* I refer the hon. Member to the answer I gave on 22 July 2008, *Official Report*, column 1147W: Severn barrage: railways.

Shropshire

Daniel Kawczynski: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the value was of each grant provided by his Department, its associated agencies and non-departmental public bodies to *(a)* Shrewsbury and Atcham borough council, *(b)* Shropshire county council and *(c)* Telford and the Wrekin borough council in (i) 2006-07 and (ii) 2007-08; and what grants have been planned for 2008-09. [184107]

Mr. Thomas: The information is as follows.

Grants provided by BERR

The Department paid Shropshire county council a resource (revenue) grant of £136,375.20 in April 2007 and paid a similar grant of £91,244.40 to Telford and Wrekin council in August 2007. The grants were made under Section 31 of the Local Government Finance Act 2003 in respect of the cost of treating and disposing of household hazardous waste electrical and electronic equipment during the period 1 June 2006 to 30 June 2007.

The Department has not made available any other direct funding to Shropshire county council, Telford and Wrekin council or Shrewsbury and Atcham borough council in 2007-08 in respect of its current responsibilities following the machinery of government changes. No further grants to the councils are planned in 2008-09.

ERDF grants

Additionally, BERR and the previous Department of Trade and Industry provided PES cover to ERDF grant offers approved in the West Midlands Objective 2 Programme for 2000 to 2006. The amounts shown as follows relate to the ERDF grant offers where the PES cover is provided by BERR/DTI. ERDF is paid in calendar years not financial years.

Details of grants made to Telford and Wrekin council are detailed in the following table; no grants were approved for Shrewsbury and Atcham borough council or Shropshire county council during the years in question.

Other associated agencies and non-departmental public bodies

Information on grants provided by the Department's agencies and non-departmental public bodies is held by the bodies themselves. This information is not held centrally.

Grants payments by Advantage West Midlands. Period covered 2006-07 to 2008-09

Small Businesses: Video Games

Mr. Evans: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many small and medium enterprises were created in the UK games industry in each of the last three years. [218344]

Malcolm Wicks *[holding answer 14 July 2008]:* These figures are not available. BERR's published data on SMEs does not currently offer a sectoral breakdown at a level of detail sufficient to identify video games businesses specifically.

Accurate data on the video and computer games sector is generally not readily available to the Department, particularly as the sector has not had its own separate Standard Industrial Classification (SIC) code. A new SIC code for computer games has now been agreed though it will not be possible for this to deliver data until 2010 at the earliest.

Small Businesses: West Midlands

Mr. Jenkins: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many and what proportion of businesses in *(a)* West Midlands and *(b)* each parliamentary constituency in the West Midlands are small businesses. [215778]

Mr. McFadden: Estimates of the total number of businesses in the West Midlands are published by BERR. Latest published data (2005) are as follows. Data for the UK and the regions for 2007 will be published in late July 2008.

At the start of 2005, there were 353,400 businesses in the West Midlands Government office region, of which 99.2 per cent. (or 350,515) were small (with 0-49 employees).

Data for parliamentary constituencies are only available for VAT-registered enterprises. It is estimated that the majority (97.9 per cent.) of these will be small. Latest published data (2007) will be placed in the Library of the House of Commons. Data for 2008 will be published in November 2008.

Businesses are unlikely to be VAT-registered if they fall below the compulsory VAT threshold, which was £60,000 at the start of 2006. Only 1.9 million out of 4.5 million UK enterprises (43 per cent.) were registered for VAT at the start of 2006.

VAT-registered businesses in each parliamentary constituency in the West Midlands, start of 2007

Parliamentary constituency	*Number*
Aldridge-Brownhills	2,095
Birmingham, Edgbaston	1,855

Solar Power: Housing

Mrs. Riordan: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what plans he has to encourage the installation of solar panels on domestic properties. [220040]

Malcolm Wicks: Since 2002 the Government have spent £26 million on the Solar PV programme and £10 million on PV Field Trials. The Low Carbon Buildings Programme has allocated over £20 million to 6,398 projects of which almost £6,376,863 million has been allocated to 4,662 households for installations using solar photovoltaic and solar thermal technology.

The Renewables Obligation is the Government's main mechanism for encouraging new renewable electricity generation with all eligible renewable electricity generation installations able to receive Renewable Obligation Certificates (ROCs). We have proposed that all electricity generated by solar photovoltaic panels will be eligible to claim two ROCs for every 1 MWh of renewable electricity generated from April 2009.

In addition there are wider measures such as the 2016 Zero Carbon homes policy and we have also made it easier for homeowners to install microgeneration technologies through relaxed planning requirements which benefits solar technologies.

The Renewable Energy Strategy consultation that was published by the Department in June 2008 includes a set of potential measures to allow the UK to meet its share of the EU 2020 target. We believe that distributed energy technologies including microgeneration, have a

role to play and we are looking at a range of options to increase financial support to the small-scale generation of electricity and heat—including consideration of upfront payment, and whether a move to a feed-in tariff system might have advantages. We will publish our full Renewable Energy Strategy in spring 2009, setting out our action plan for meeting our targets in the most effective way.

Trade Fairs

Mr. Clifton-Brown: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the guidelines are for deciding which firms will be allocated funding to attend overseas trade shows. [216130]

Mr. Thomas: Guidance on company eligibility and the terms and conditions for support under the Tradeshow Access Programme (TAP) are given on the UK Trade and Investment website www.uktradeinvest.gov.uk under Our services: Making it happen. For 2008-09 UKTI has allocated indicative budgets to Accredited Trade Organisations for the support of eligible firms at each show in the programme.

Mr. Clifton-Brown: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much funding was made available through UK Trade and Investment to assist firms in attending overseas trade shows in the latest period for which figures are available; and how many firms received such assistance. [216138]

Mr. Thomas: In 2007-08 UK Trade and Investment provided financial assistance of £8.55 million under the Tradeshow Access Programme. 3,142 small and medium sized businesses were supported to participate in overseas fairs (some receiving more than one grant). The budget also provided for enhanced promotion of the UK group at 109 major sectoral exhibitions.

Trade Unions: Finance

Mr. Maude: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the planned expenditure on the Trade Union Modernisation Fund is in each of the next three years. [217363]

Mr. McFadden: The forecast accruals are as follows:

	£ million
2008-09	2.5[1]
2009-10	1.3
2010-11	1.8

[1] Including spend to date.

Trading Funds

Adam Afriyie: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many people there are in the shareholder executive team undertaking the trading fund assessment; and what the criteria for their selection were. [223239]

Mr. McFadden: There are currently four officials (equating to approximately 2.0 FTE) from the Shareholder Executive engaged directly in the Trading Funds Assessment and they are working closely with others in BERR, HMT and elsewhere in Whitehall. The Shareholder Executive officials were selected to give a balance of civil service and private sector financial expertise, as well as wider knowledge of certain of the trading funds included in the assessment.

Adam Afriyie: To ask the Secretary of State for Business, Enterprise and Regulatory Reform which public sector bodies the shareholder executive team *(a)* has met and *(b)* plans to meet as part of the trading fund assessment. [223241]

Mr. McFadden: As part of the trading funds assessment, representatives of the Shareholder Executive team have met and are continuing to work closely with representatives from BERR, OFT, OPSI, HMT, Cabinet Office, the trading funds themselves and their parent Departments and public sector customers.

UK Trade and Investment: Manpower

Jeremy Corbyn: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many staff worked for UK Trade and Investment (UKTI) in April 2008; and what UKTI's budget is for 2008-09. [215437]

Mr. Thomas *[holding answer 1 July 2008]:* The information requested is as follows.

Staff

At April 2008 just under 2,400 people (expressed as full time equivalents) were working for UK Trade and Investment (UKTI). Of the 2,400 just under 1,300, mainly Foreign and Commonwealth Office (FCO), staff were working in diplomatic posts in 99 markets overseas that are the highest priority in terms of the UK's economic interests. Just under 700 people, mostly Department for Business, Enterprise and Regulatory Reform (BERR) staff, were based mainly in London and Glasgow. These include operational, customer-facing staff as well as those in corporate support functions. Just under 400 people were based in International Trade Teams (ITTs) in the English regions. These are mainly International Trade Advisors (ITAs), either Government Office (GO) staff or people with business experience who are under contract to deliver UKTI services.

Budgets

UKTI's budgets consist of three different elements—a directly controllable and voted programme budget, and budgets delegated from BERR and FCO, both direct and indirect. For 2008-09, UKTI's budgets are:

A directly voted net UKTI programme budget of £91.5 million;

A net estimated FCO budget of some £170 million: the budget directly in UKTI's control is £19.1 million, and an additional estimated budget managed by the FCO of c£1 50.9 million;

A net BERR administration budget of some £55 million: the budget directly in UKTI's control is £45.6 million, and an additional budget managed by BERR of c£9.4 million.

Latest figures show that against an annual target to achieve at least 525 involved inward investment project successes, of which at least 125 should be high value; UKTI exceeded its target with 549 projects, of which 182 were high value.

In FY 2007-08 UKTI helped 15,900 companies to exploit opportunities in overseas markets. 57 per cent. of these customers reported an improvement in their business performance as a result of UKTI services. And we helped 2,799 companies to increase their R and D in the UK. Total additional bottom line profit reported by trade customers as a result of our help amounted to £3 billion over an annual period.

Mr. Clifton-Brown: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the Answer of 23 June 2008, *Official Report*, columns 147-50W, on UK Trade and Investment: manpower, how many staff are based in Cambridge. [215795]

Mr. Thomas: There are 19 people from the east regional team based at two locations in Cambridge. These are a mix of civil servants and people with business experience who are under contract to deliver UKTI services.

UK Trade and Investment: Public Appointments

Jeremy Corbyn: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when the head of the UK Trade and Investment's Defence and Security Organisation will be appointed. [215439]

Mr. Thomas *[holding answer 1 July 2008]:* The appointment of the Head of UK Trade and Investment, Defence and Security Organisation (UKTI DSO) was announced on 12 June 2008. His name is Richard Paniguian CBE. Further details about this appointment can be seen on the UKTI DSO website at:

http://www.dso.uktradeinvest.gov.uk

Unionlearn: Finance

Mr. Maude: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what funding has been allocated to Unionlearn by *(a)* his Department and *(b)* the European Social Fund for 2007-08. [198073]

Mr. McFadden: Neither the Department nor the European Social Fund has allocated funding to Unionlearn for the period 2007-08.

Video Games

Mr. Evans: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many *(a)* highly skilled and *(b)* other jobs were associated with the UK computer games industry in each of the last three years. [217931]

Malcolm Wicks *[holding answer 10 July 2008]:* Accurate data on the video and computer games sector are not readily available to the Department, particularly as the sector has not had its own separate Standard Industrial Classification (SIC) code. A new SIC code for computer games has now been agreed though it will not be possible for this to deliver data until 2010 at the earliest.

However, data recently published by independent industry consultants, Games Investor Consulting, suggests that in 2006 there were 9,150 highly skilled jobs in games development studios in the UK. This rose to 9,950 in 2007. A further 12,000 staff are estimated to be currently employed in games publishing and games retail.

Mr. Evans: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many highly skilled jobs were created by the UK computer games industry in each of the last three years. [217932]

Malcolm Wicks *[holding answer 10 July 2008]:* Accurate data on the video and computer games sector are not readily available to the Department, particularly as the sector has not had its own separate Standard Industrial Classification (SIC) code. A new SIC code for computer games has now been agreed though it will not be possible for this to deliver data until 2010 at the earliest.

However, data recently published by independent industry consultants Games Investor Consulting estimate that some 800 new highly skilled jobs were created in the UK computer games development industry between 2006 and 2007.

Mr. Evans: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what funding from the public purse was received by UK-based computer games studios in each of the last three years. [217933]

Malcolm Wicks *[holding answer 10 July 2008]:* Computer games studios, like other companies, receive support from a wide range of Government activities including for example business support, the R and D tax credit, the programmes of the Technology Strategy Board and UK Trade and Investment help with accessing overseas markets. Many of the regional development agencies also provide funding that benefits games studios. Figures showing the uptake specifically by computer games businesses of all of these sources of funding are not available.

Mr. Evans: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what revenue UK-made computer games generated globally in each of the last five years. [217934]

Malcolm Wicks *[holding answer 10 July 2008]:* Accurate data on the video and computer games sector are not readily available to the Department, particularly as the sector has not had its own separate Standard Industrial Classification (SIC) code. A new SIC code for computer games has now been agreed though it will not be possible for this to deliver data until 2010 at the earliest.

BERR has not made any estimates of revenue generated by UK-made computer games in each of the last five years. However, independent industry consultants Games Investor has recently published data which suggest that between 2006 and 2008 computer games made in the UK will generate nearly £4 billion globally.

Mr. Evans: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of potential revenues to UK companies of worldwide sales of UK-made computer games in 2008. [217935]

Malcolm Wicks *[holding answer 10 July 2008]*: Accurate data on the video and computer games sector are not readily available to the Department, particularly as the sector has not had its own separate Standard Industrial Classification (SIC) code. A new SIC code for computer games has now been agreed though it will not be possible for this to deliver data until 2010 at the earliest.

BERR has not made any estimates of potential revenues to UK companies of worldwide sales of UK-made computer games in 2008.

Welsh Language

Mr. Crabb: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent assessment he has made of the level of demand for the services provided by *(a)* his Department and *(b)* its agencies and non-departmental bodies to be provided in the Welsh language; and if he will make a statement. [210551]

Mr. Thomas: The Department has made no recent assessment of the level of demand for the services it provides in Welsh. I have contacted Companies House and the Insolvency Service, and asked their chief executives to respond directly to the hon. Member. However, their records indicate that, to date, none have been asked to provide any of their documents in the Welsh language.

Letter from Stephen Speed, dated 21 July 2008:

The Secretary of State for Business, Enterprise and Regulatory Reform, has asked me to reply to your question (2007/2933) on what recent assessment has been made of the level of demand for the services provided by his Department and its agencies and non-departmental bodies to be provided in the Welsh language.

The Insolvency Service is an executive agency of the Department for Business, Enterprise and Regulatory Reform. The Service has not made any recent assessment of the level of demand for services provided in the Welsh language, but requests for services in the Welsh language are dealt with on a case by case basis and The Service will continue to provide information and adapt its services in Welsh as and when required.

Letter from Gareth Jones, dated 21 July 2008:

I am responding on behalf of Companies House to your recently tabled Parliamentary Question to the Secretary of State for Business Enterprise and Regulatory Reform.

Companies House has not made recent assessments of the need for these services because we already have a good idea of the demand. This is because we provide a service which allows officers of all companies that are registered in Wales to receive all communications in bilingual form. At present some 400 companies have taken up this option. The Companies legislation under which we operate allows certain filings to be bilingual and details of these are attached as an annex. Under the provisions of the new Companies Act 2006, we plan to increase the number of documents that Welsh companies can file in the Welsh language, without them having to provide certified translations into English.

We provide electronic services to all our customers, including our Welsh speaking customers. Our latest development is a bilingual web-filing service for the annual return that provides online filing capabilities equivalent to services offered to companies filing in English. Bilingual webfiling also allows customers to file other document types. This delivered significant benefits to Welsh speaking customers in terms of cheaper, quicker, simpler and more secure filing. In addition all guidance material is provided bilingually and we operate a Welsh language version of the Companies House website. We have an established network of Welsh speakers across the organisation and provide dedicated telephone numbers for customers to communicate directly them.

I hope this information is helpful. I would be happy answer any further queries.

Annex—Companies House provision of Welsh filing services

Required by law:

1. Currently companies can file bilingual forms in order to:

Incorporate a company

Declare that a company is exempt from the requirement to use "Limited" or "Cyfyngedig"

File a return of allotment of shares

Change an accounting reference date

Change the situation or address of the registered office

Appoint a director or secretary

Change the particulars of a director or secretary

Terminate a director or secretary appointment

File the company's annual return

Apply for strike-off

Withdraw a strike-off application

2. Existing legislation allows the filing of various forms relating to Welsh companies in Welsh (with the registrar then obtaining an English translation for the public record):

Memorandum and articles of association

Annual accounts and reports (private companies only)

Auditors report (private company only)

From 1st October 2009 as part of the Companies Act 2006, Welsh companies will be able to file additional documents in Welsh only (without the need for a certified translation into English), these include:

Special resolutions to:

re-register

reduce the company's share capital

change the company's name

change the location of the company's registered office

alter the company's articles on conversion to a community interest company

amend a resolution or agreement by reason of an enactment or court order

Wind Power

Andrew Stunell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what percentage of buildings have small wind turbines installed. [219669]

Malcolm Wicks: As part of a consortium of organisations including the microgeneration industry and energy NGOs, we commissioned research on the growth potential for microgeneration in England, Wales and Scotland, which included current levels of uptake. It found that there were an estimated 1,100 micro-wind installations at the end of 2007.

The research can be accessed at:

http://www.berr.gov.uk/energy/sources/sustainable/microgeneration/research/page38208.html

Wind Power: Planning Permission

Chris Ruane: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the results of the planning application for each onshore and offshore wind farm in the UK have been in each of the last 10 years, broken down by planning authority. [174413]

Malcolm Wicks: The Department only has responsibility for the consenting of planning for England and Wales for onshore wind farms of 50 MW or more and offshore wind farms over 1 MW under section 36 of the Electricity Act 1989. A list of these projects can be found in the following tables.

For Scotland, Northern Ireland and, for those projects in England and Wales that are dealt with under the Town and Country Planning Act 1990 (less than 50 MW), projects are tracked through the planning database on the RESTATS website. This database and can be accessed though:

http://maps.restats.org.uk/run.irdh?request=public&&ird_id=O395gCC1793M3kyYQIUy.

Wind farms consented/refused by DTI/BERR under the Electricity Act or Transport and Works Act

Onshore—section 36—England and Wales

Windfarm	*Refused/Consented*	*Local authority*	*MW*	*Date of refusal/consent*

TREASURY

Crosby Report

Gordon Banks: To ask the Chancellor of the Exchequer what assessment he has made of the interim Crosby report on the mortgage market. [223438]

Kitty Ussher: On 9 April 2008, the Chancellor announced that Sir James Crosby would provide advice to the Government on options for improving the functioning of mortgage finance markets.

Sir James presented his interim analysis to the Chancellor on 29 July 2008. This interim analysis is available at:

http://www.hm-treasury.gov.uk/media/3/E/crosby290708.pdf

Sir James will present his final recommendations to the Chancellor in the autumn.

Departmental Official Hospitality

Mr. Philip Hammond: To ask the Chancellor of the Exchequer how much his Department and its agencies have spent on *(a)* alcohol and *(b)* entertainment in the last three months. [223542]

Angela Eagle: For information on alcohol spending I refer to the answer I gave to the hon. Member on 31 March 2008, *Official Report*, column 629W. The amounts spent on official entertainment for the period May to July 2008 were as follows: HM Treasury £5,832, Debt Management Office £9,000, Office of Government Commerce £529 and OGCbuying.solutions £330. All spending on official entertainment is made in accordance with published departmental guidance on financial procedures and propriety, based on principles set out in "Managing Public Money".

Economic Situation

Mr. Hoban: To ask the Chancellor of the Exchequer what the evidential basis is for his analysis of the state of the economy contained in his interview published in *The Guardian* newspaper on 30 August 2008. [223566]

Kitty Ussher: Updated assessments and forecasts for the UK and world economies will be published in the forthcoming pre-Budget as normal.

Emissions Trading Scheme

Mr. Peter Ainsworth: To ask the Chancellor of the Exchequer what estimate he has made of the revenue that would accrue to his Department annually as a result of auctioning *(a)* seven per cent. and *(b)* 10 per cent. of allowances under Phase II of the Emissions Trading Scheme; and if he will make a statement. [223562]

Angela Eagle: In Phase II of the EU Emissions Trading Scheme, which runs from 2008 to 2012, Government will auction 7 per cent. of allowances. This equates to approximately 85 million allowances, plus those allowances from installations that close during Phase II and any unused surplus from the New Entrant Reserve (NER). The total amount cannot exceed 10 per cent. of the number allocated during Phase II according to the terms of the EU ETS Directive 2003/87/EC. The amount of revenue will be influenced by the market price of carbon at the time of the auctions. The Government do not comment on carbon price, as it would be improper for Government to speculate on how the market will function in the future. Therefore, an estimate on the amount of revenue the auctions will raise cannot be given.

Equitable Life Assurance Society

Mr. Clifton-Brown: To ask the Chancellor of the Exchequer what mechanisms the Government are using to assess compensation payable to former Equitable Life policyholders. [223483]

Kitty Ussher: As I explained in my written statement to the House on 17 July, the ombudsman looked at matters of considerable factual and technical complexity. I am giving her 2,800-page report on Equitable Life very careful consideration and will give my response to the House in the autumn.

Excise Duties: Fuels

Norman Baker: To ask the Chancellor of the Exchequer what level of duty each EU member state imposes on fuel for trains. [223588]

Angela Eagle: Information is not held on duty charged in other EU countries on hydrocarbon oil used as fuel for trains.

Excise Duties: Imports

Mr. Hoban: To ask the Chancellor of the Exchequer (1) how many of his Department's staff work in support of the Minister of State with responsibility for revenue protection at the UK border; [223106]

(2) whether the Minister of State with responsibility for revenue protection at the UK border has an office in Treasury buildings. [223107]

Mr. Byrne *[holding answer 10 September 2008]:* In my capacity as a member of the ministerial team at the Treasury, I have access to office facilities whenever I require them at the Treasury, and support from a wide range of administrative and policy officials, from both HM Treasury and HM Revenue and Customs. The number of officials supporting me varies according to the nature of the work at any particular time.

Mr. Hoban: To ask the Chancellor of the Exchequer what events the hon. Member for Birmingham, Hodge Hill has attended in his capacity as Minister of State with responsibility for revenue protection at the UK border since his appointment to that post. [223108]

Mr. Byrne *[holding answer 10 September 2008]:* I have attended numerous events in connection with the UK Border Agency since I took up my Treasury post in January 2008. I attend these events in both my capacity as Minister of State for Borders and Immigration and my capacity as Minister of State with responsibility for revenue protection at the border.

Excise Duties: Motor Vehicles

Justine Greening: To ask the Chancellor of the Exchequer how many vehicles were exempted from vehicle excise duty in the disabled tax class as a result of *(a)* disability living allowance and *(b)* war pensioner's mobility supplement in each year from 2002; and how many were exempted because they fell within the disabled passenger vehicle taxation class in each such year. [223093]

Angela Eagle: The Treasury does not hold historical figures for the requested categories. At the end of March 2008, there were a total of 1,141,747 vehicles exempted from vehicle excise duty as a result of their owners being eligible for the higher rate of the mobility component of disability living allowance and the war pensioner's mobility supplement. At the same time, 17,105 vehicles were exempt from VED as a result of their falling within the disabled passenger carrying vehicle class.

Import Controls

David Taylor: To ask the Chancellor of the Exchequer what percentage of crates imported to the UK were screened or searched at UK ports by HM Revenue and Customs in 2006-07. [223591]

Angela Eagle: This information is not available. HMRC does not centrally record the number of crates imported into the UK.

Northern Rock: Repossession Orders

Mr. Pickles: To ask the Chancellor of the Exchequer how many homes Northern Rock has *(a)* repossessed and *(b)* initiated action to repossess in the last six months. [223626]

Kitty Ussher: I refer the hon. Gentleman to the answer given to the hon. Member for Carmarthen and Dinefwr (Adam Price) on 21 July 2008, *Official Report*, column 728W.

Public Buildings: Empty Property

Mr. Philip Hammond: To ask the Chancellor of the Exchequer what estimate he has made of the cost to the public purse of maintaining empty public buildings in the last 12 months; and what estimate he has made of the amount by which this figure will change following the removal of empty property rate relief. [223538]

Angela Eagle: Over the last 12 months the average actual vacancy rate on the Government civil estate was 1.6 per cent. of the total estate. In June 2008 this was 1.43 per cent. This compares well with the private sector, where vacant space can be four times greater.

The cost of maintaining empty buildings on the civil estate for 2007-08 is estimated to be approximately £39.5 million. The removal of empty rate relief is likely to increase this cost in the current financial year to approximately £47.2 million, on the assumption that a similar amount of property remains empty.

Public Expenditure

Mr. Sanders: To ask the Chancellor of the Exchequer if he will publish a table showing public expenditure per head of population for each year since 1997, broken down by parliamentary constituency and ranked from highest to lowest ratio. [223587]

Yvette Cooper: Public expenditure figures by parliamentary constituency are not available but we do publish figures on a regional basis in the Country and Regional Analysis (CRA) section of Public Expenditure Statistical Analyses (PESA). These can be obtained for the years 2002-03 up to 2007-08 from the following link:

http://www.hm-treasury.gov.uk./economic_data_and_tools/finance_spending_statistics/pes_cra/country_region.cfm

Figures for earlier years are not available on a comparable basis due to changes to the definition of expenditure that can be identified as benefiting a particular region, and changes to the methodology Departments use when allocating expenditure to regions.

Stamp Duty Land Tax

Simon Hughes: To ask the Chancellor of the Exchequer if he will make it his policy to extend the suspension of stamp duty announced on 2 September 2008 for all properties up to the value of £175,000 to cover the whole of the 1 per cent. stamp duty band. [223484]

Kitty Ussher: The stamp duty holiday is limited to transactions up to the value of £175,000 in order to provide support to those homebuyers who need it most.

Mr. Philip Hammond: To ask the Chancellor of the Exchequer (1) what the evidential basis is for his statement that the suspension of stamp duty on the purchase of residential properties costing £175,000 or less will cost more than £600 million; [223539]

(2) what his estimate is of the number of residential property sales at prices between £125,000 and £175,000 that will take place in the year commencing 3 September 2008 *(a)* with and *(b)* without the suspension of stamp duty, broken down by Government Office region. [223540]

Mr. Hoban: To ask the Chancellor of the Exchequer what estimate he has made of the *(a)* number and *(b)* proportion of residential properties that will be exempt from stamp duty as a result of the recent change in thresholds in each Government region in each of the next 12 months. [223565]

Kitty Ussher: The estimate of the cost of the suspension of stamp duty land tax on the purchase of residential property costing £175,000 or less is based on a number of factors, including estimates of future transactions, house prices and behavioural effects. The Treasury does not publish forecasts of house prices or transactions.

Stamp duty rates and thresholds apply uniformly throughout the UK. It is estimated that around half of all purchases in the UK are for properties worth £175,000 or less.

Tax Credits

Mr. Gauke: To ask the Chancellor of the Exchequer (1) how many recipients of tax credit renewal packs were subsequently found not to be eligible for tax credits in the latest period for which figures are available; [223207]

(2) what procedures are in place to discontinue the distribution of tax credit renewal packs to former tax credit claimants when they have ceased to be eligible for tax credits. [223208]

Jane Kennedy: The statistical information is not available in the format requested.

HMRC is statutorily obliged to send annual declaration and renewal notices requiring claimants to provide or confirm details of their income and circumstances, and any changes in their circumstances. That information is necessary to determine their entitlement in the tax year just ended.

HMRC does not send annual declaration and renewals packs to customers where they have not been in receipt of tax credits over the past year and when HMRC is certain that the customer is no longer eligible for tax credits.

Taxation

Mr. Philip Hammond: To ask the Chancellor of the Exchequer what his estimate is of the cost to the public purse arising from the introduction of credit card processing fees for tax bills paid by telephone by credit card. [223541]

Jane Kennedy: There is not expected to be any additional cost to the public purse for receiving telephone credit card payments in respect of amounts paid to HMRC.

Taxation: National Lottery

Mr. Don Foster: To ask the Chancellor of the Exchequer what recent estimate his Department has made of the effect on *(a)* prize levels, *(b)* good causes revenue and *(c)* taxation revenues of a change to the taxation regime for the National Lottery from lottery duty to gross profits taxation. [223477]

Angela Eagle: At Budget 2008, the Government announced that they would consider the case for moving lottery duty to a gross profits tax and would announce their plans at pre-Budget report 2008.

Officials from both HM Treasury and HM Revenue and Customs have been in discussions with the national lottery operator to help determine the impact of such a change.

Tobacco: Smuggling

David Taylor: To ask the Chancellor of the Exchequer what estimate he has made of the excise duty lost on tobacco products due to smuggling in tax year *(a)* 2003-04, *(b)* 2004-05, *(c)* 2005-06, *(d)* 2006-07 and *(e)* 2007-08. [223663]

Angela Eagle: Estimates for the revenue loss to the Exchequer (duty plus VAT) associated with illicitly supplied cigarettes and hand rolling tobacco are estimated separately for 2003-04 to 2005-06 and are reported in "Measuring Indirect Tax Losses - 2007" published by HMRC in October 2007, which is available in the House of Commons Library.

Estimates for 2006-07 are expected to be published alongside the 2008 pre-Budget report. Further, the 2007-08 estimates are expected to be published alongside the 2009 pre-Budget report.

David Taylor: To ask the Chancellor of the Exchequer what analysis has been undertaken of the potential cost to the Exchequer of introducing a track and trace system for tobacco products *(a)* exported to and *(b)* manufactured in the UK. [223664]

Angela Eagle: HM Revenue and Customs (HMRC) has not undertaken an analysis of the cost of introducing a track and trace system for tobacco products exported to the UK or manufactured in the UK. However, HMRC keeps abreast of developments in track and trace technology through its regular contacts with tobacco manufacturers and customs authorities in other EU member states.

INTERNATIONAL DEVELOPMENT

Afghanistan: Education

Mr. Moore: To ask the Secretary of State for International Development what funding his Department has allocated to support the training of accountants in Afghanistan; what support his Department has provided to the Afghanistan Society of Accounting Technicians; and if he will make a statement. [223582]

Mr. Douglas Alexander: The Department for International Development (DFID) does not provide financial support for the training of accountants nor for the Afghanistan Society of Accounting Technicians. The objective of our economic management programme is to support the Afghan Government's capacity to manage and expand the formal economy and promote wider reform of governmental systems.

In 2008-09 DFID will contribute £74 million towards this objective; over half the total Afghanistan programme. This support is aligned to Government of Afghanistan priorities and includes £60 million channelled through the Afghan Reconstruction Trust Fund (ARTF). The 2008 external review of the ARTF found that is has helped improve the Government's capacity to manage its finances.

DFID is helping the Government of Afghanistan to improve their public spending practices with a £9.8 million programme of support to the Budget Department in the Ministry of Finance. This has led to year on year improved use of resources in the delivery of basic services to the Afghan population.

Africa: Overseas Aid

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development on what projects his Department is collaborating with the African Development Fund; at what cost in 2008-09; and what programmes the African Development Fund is operating to financially stabilise fragile states. [220382]

Gillian Merron: During negotiations on the eleventh replenishment of the African Development Fund (AfDF 11), donors agreed to establish a Fragile States Facility and set aside 7.5 per cent., of AfDF 11 resources (about £330 million) for this. The new facility will provide countries emerging from conflict and crisis with additional resources to rebuild infrastructure and re-establish services for example, as well as helping them qualify for debt relief.

Department for International Development (DFID) country teams collaborate with the AfDB in the field. In Sierra Leone, Zambia, Ghana, Malawi and Mozambique AfDB and DFID provide budget support under a common framework with a number of other donors to enable the governments to implement their poverty reduction strategies. In Zambia, DFID will provide about £26 million in budget support and AfDB will provide £30 million. In Ghana, DFID will provide about £50 million in budget support and AfDB will provide £25 million. In Malawi, DFID will provide about £22 million in budget support and AfDB will provide £14 million. In Mozambique, DFID will provide about £42 million in budget support and AfDB will provide £15 million. Other donors will of course also contribute to budget support operations.

There is also strong collaboration between AfDB and DFID in Malawi and Mozambique on water and sanitation. In Malawi, AfDB plans to provide about £24 million towards the water sector over the next five years (and £6.5 million in 2008-09) and DFID is planning to match this with £25 million for the next three years through the Africa Catalytic Growth Fund. In Mozambique, DFID will provide about £500,000 in 2008 and 2009 for water, and the AfDB will contribute about £8 million.

Finally, DFID and the AfDB work closely on improving road infrastructure in Mozambique. In 2008 and 2009, DFID will contribute £4 million and AfDB will contribute just under £15 million.

African Development Bank

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what influence the UK has over the way the African Development Bank uses the UK's contribution of funding; and what assessment he has made of the key areas to which this aid should be directed. [213264]

Gillian Merron: The African Development Fund (AfDF) of the African Development Bank (AfDB) provides grants and concessional loans to around 40 African countries. The AfDF is replenished by donor countries every three years, and during the negotiations, AfDB management and donors agree how the resources will be spent. New approaches and policy changes are also agreed as part of the replenishment discussions. All donor contributions to the AfDF replenishment are governed by the agreements and resources are pooled; no donor can earmark their contribution to the AfDF for particular countries, sectors or projects.

The latest AfDF negotiations concluded in December 2007. It was agreed that the AfDF could make the best contribution to achieving the Millennium Development Goals in Africa by concentrating on supporting countries' efforts to accelerate economic growth. Building infrastructure is an important part of this, and around 60 per cent. of resources are likely to be used in this way. New approaches were agreed on how the AfDF would promote regional integration, which is important for growth in Africa, and assist fragile states, particularly those emerging from conflict. The agreed policy changes included how the Bank would adjust its approach to assist countries to tackle climate change and how it would ensure its assistance made a more effective contribution to improving the lives of African women and girls. The UK was instrumental in securing these agreements, and committed £417 million to the AfDF over the next three years. A copy of the replenishment agreement, known as the AfDF 11 Deputies Report, has been placed in the Library of the House.

The UK is also providing funding to assist the AfDB to build its capacity and improve the effectiveness of its assistance. These funds are focused in six areas: infrastructure, climate change, governance, water and sanitation, knowledge and statistics, and institutional strengthening.

Asylum

John Battle: To ask the Secretary of State for International Development what his latest estimate is of refugees flows to neighbouring countries in the last 12 months; and if he will make a statement. [215593]

Mr. Thomas: The UK Government continue to work with agencies such as United Nations High Commissioner for Refugees (UNHCR) to protect and resettle refugees. In 2007 DFID funding of £19 million helped UNHCR assist some 4.5 million refugees of whom 730,000 returned to their country of origin.

Current figures available from UNHCR indicate that there were an estimated 11.4 million refugees world-wide in 2007. We are unable to break down this figure into those that sought sanctuary in neighbouring countries and those that went beyond the initial border.

Burma: Overseas Aid

John Battle: To ask the Secretary of State for International Development what proportion of British aid to Burma in 2008-09 will *(a)* be used to enhance logistic capacity for aid delivery and *(b)* support early recovery and livelihood regeneration activities; and if he will make a statement. [220702]

Mr. Malik: The UK's current commitment for Burma in 2008-09 is £45 million towards the Cyclone Nargis relief effort, in addition to the £12 million regular programme through the Department for International Development (DFID) which had been planned before the cyclone struck.

So far £6.4 million (14 per cent. of the £45 million for cyclone relief) has been allocated for strengthening the logistical capacity for aid delivery. This funding has included grants to the World Food Programme (WFP) and the Red Cross, the secondment of staff to support WFP's air operations, and the direct provision of flights, flat-bottomed boats and other items of equipment.

DFID has allocated £5.6 million (12.4 per cent. of the £45 million for cyclone relief), so far, to early recovery and livelihoods work being undertaken by the UN Food and Agriculture Organisation, the UN Development Programme (UNDP), UN HABITAT and International Development Enterprises (IDE). This funding includes the provision of seeds and agricultural tools to enable farmers to resume rice planting. We are reviewing new proposals and expect to make further contributions towards early recovery and livelihoods, including disaster risk reduction, from the £45 million for cyclone relief.

DFID is also supporting rural livelihoods across Burma from our regular programme, primarily through projects carried out by UNDP and IDE. Spending on these projects is expected to comprise about 12 per cent. of the £12 million allocated this year.

Departmental Computers

Mr. Peter Ainsworth: To ask the Secretary of State for International Development what estimate he has made of *(a)* the number of computer devices left on overnight in his Department when not in use and *(b)* the cost of leaving computer devices on overnight when not in use in each of the last five years; and if he will make a statement. [217871]

Mr. Malik: Detailed records of PCs, screens, printers, copiers, etc., left on when not in use are not kept. However awareness-raising switch-off campaigns around the office have been carried out including using posters provided by the Carbon Trust, to reduce the proportion of equipment left on overnight, and security staff now regularly monitor and switch off unnecessary items. Exercises to reduce the overall number of devices such as printers used in the office have also been carried out.

It is estimated that the awareness campaigns and reduction in numbers of items have reduced the overall number of devices left on unnecessarily over the last five years from around 800 (20 per cent. of the total) to less than 200 (under 5 per cent. of the total). The approximate additional cost in terms of electricity would have been between £8,000 five years ago, to £2,000-3,000 last year.

Departmental Home Working

Bob Spink: To ask the Secretary of State for International Development how many staff in his Department are authorised to work from home. [212521]

Gillian Merron: I refer the hon. Member to the answer given on 22 July 2008, *Official Report*, column 990W.

Departmental Marketing

Pete Wishart: To ask the Secretary of State for International Development what the cost was of *(a)* internet and website design and hosting, *(b)* print media design and *(c)* broadcast media for each of his Department's public information campaigns since 1997. [214695]

Mr. Douglas Alexander: Since 1997, the total expenditure by the Department for International Development (DFID) on the following has been:

(a) Internet hosting

	£
2004-05	18,600
2005-06	18,600
2006-07	18,600
2007-08	18,600
Total cost	74,400

Web hosting figures are unavailable prior to 2004.

The Department's website design is managed by internal DFID staff.

(b) The "Aid works" campaign is the only public information campaign since 1997 that has involved print media. The cost of printed inserts was £6,122.

(c) The Department did not undertake paid-for broadcast media activity as part of any public information campaigns between 1997 and 2006.

In December 2007, broadcast (radio) media activity supporting a "caring consumer" message to UK public cost £2,500.

Departmental Pay

Bob Spink: To ask the Secretary of State for International Development what estimate he has made of the average pay per hour worked by *(a)* permanent and *(b)* temporary staff in his Department in the last period for which figures are available, broken down by pay band. [212501]

Mr. Douglas Alexander: Home Civil Servant staff at the Department for International Development (DFID) receive payment on either an annual salary or an hourly rate basis, depending on the terms of their contract.

Details of the average pay per hour worked by all staff on Home Civil Service pensionable terms (including fixed term contract staff) for June 2008, broken down by pay band, are provided in the following table:

Grade	*Average hourly rate (£)*
SCS	41.37
A1	30.66
A2	24.78
A2(L)	19.06
B1(D)	16.37
B1	14.96
B2	11.91
C1	9.70
C2	8.23

Note:
The above data represents basic salary rates and does not include overtime payments or other allowances.

DFID also appoints temporary staff through recruitment agencies to undertake both administrative and specialist roles, including IT and communications specialists. Administrative appointments are managed centrally, but individual departments within DFID have delegated authority to engage specialist staff. Records are not held centrally for this group and could be provided only at a disproportionate cost.

Under the terms of the contract with the agency suppliers, DFID is unable to make public information that may be of value to a competitor. This specifically precludes us releasing details of the hourly rates paid for each grade of staff.

Developing Countries: Health

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what methods his Department uses to fund disease prevention in developing countries besides the use of health budget support. [215634]

Gillian Merron: The Department for International Development (DFID) uses a range of aid instruments to fund disease prevention in developing countries. Through our bilateral programme we use programme and project instruments (as well as budget support)—for example to provide bednets to afford greater protection from malaria and condoms to help prevent HIV. DFID also provide substantial sums for health through the multilateral system, including the United Nations, the international financial institutions, the European Commission, the Global Fund to fight AIDS, Tuberculosis and malaria and the Global Alliance for Vaccines and Immunisation (GAVI) and UNITAID.

The mix of instruments chosen is determined at the country level, according to the local context and includes health systems strengthening through the International Health Partnership (IHP) launched in September 2007. Further information is available on the DFID website:

http://www.dfid.gov.uk/news/files/ihp/default.asp

DFID is a substantial donor in education, water and sanitation, nutrition and food security and social protection—which all impact on health outcomes.

Gaza: Food

Mr. Hague: To ask the Secretary of State for International Development whether his Department has made an assessment of the effect of rising food prices on the humanitarian situation in Gaza; and if he will make a statement. [204826]

Mr. Malik: At least 76 per cent. of the population of Gaza are now partly dependent upon food aid. The main issue affecting the supply of humanitarian aid, including food, is the partial closure of Gaza's crossings. This has significantly increased the time and costs involved in importing humanitarian supplies into Gaza. Although food aid is getting into Gaza, the size and frequency of these deliveries are insufficient to meet the broader needs of the population, who are dependent on such food items as are commercially available to make up the shortfall.

Rising food prices have exacerbated an already difficult situation. According to the Palestinian Central Bureau of Statistics, food prices in Gaza increased by 24 per cent. from March 2007 to March 2008 (compared to a general inflation level of 17 per cent. in the same period).

The World Food Programme (WFP), Food and Agriculture Organisation and the UN Relief and Works Agency (UNRWA) have recently conducted a survey of food security in the Occupied Palestinian Territories and will release the results soon. The Department for International Development (DFID) has not made a separate assessment of the impact of rising food prices.

Governance and Transparency Fund

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development which 10 countries have received the most funding from the Governance and Transparency Fund since its inception; and how much each received. [217226]

Mr. Thomas: A list of proposals offered support under our £130 million Governance and Transparency Fund (GTF) was published on the Department for International Development (DFID) website on 6 May 2008 at:

http://www.dfid.gov.uk/fundinq/gtf.asp

The GTF Fund managers are still finalising project budgets with the 38 successful applicants. It is therefore not yet possible to provide information on GTF funding by country. Information on allocations will be published on the DFID website once all budgets have been agreed.

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what programmes have been run through the Governance and Transparency Fund; how much money has been spent on each programme *(a)* in total and *(b)* on administrative costs; and which countries each programme relates to. [220451]

Gillian Merron: In April 2008, 38 proposals to the Governance and Transparency Fund (GTF) were provisionally offered support by the United Kingdom Government's Department for International Development (DFID). Details of these can be found on the DFID website at:

http://www.dfid.gov.uk/funding/gtf.asp.

These proposals are currently being checked and finalised. No money has yet been spent through these projects.

India: Floods

Mr. Clifton-Brown: To ask the Secretary of State for International Development what discussions he has had with *(a)* the government of India and *(b)* non-governmental organisations on (i) improving sanitation in relief camps and (ii) provision of emergency supplies in the Sepaul, Madhepura, Saharsa and Araria districts of India affected by flooding. [223482]

Mr. Douglas Alexander: The Department for International Development (DFID) office in India is holding regular discussions with the Government of India, the State Government of Bihar and international agencies involved in the relief effort.

Sanitation in the relief camps is a priority issue. UNICEF is implementing a $2.6 million humanitarian programme to address immediate needs with a special focus on the worst affected areas, including Sepaul, Madhepura, Saharsa and Araria districts. DFID has pledged £1.15 million to this programme which will provide nutrition, water and sanitation for 125,000 displaced people.

The Government of India recently announced that they were providing £125 million and 125,000 tonnes of food for those affected in Bihar, and food distribution is now under way. The Government of Bihar, international NGOs, and charitable giving in India are providing additional support. DFID will soon participate in a multi-donor assessment of recovery needs for the medium term. We are closely monitoring the level of immediate need.

Mr. Moore: To ask the Secretary of State for International Development what contribution his Department has made to humanitarian relief following the recent flooding in Bihar state, India; and if he will make a statement. [223579]

Mr. Douglas Alexander: The Department for International Development (DFID) has contributed £1.15 million to UNICEF to assist those affected by the Kosi river floods in India. These funds will be used to meet immediate relief needs in health, water and sanitation, nutrition and child protection.

DFID is in close contact with the relevant departments of the Government of India, the State Government of Bihar, UN agencies, other donors and the non-governmental organisation (NGO) community in order to monitor the situation as it evolves. We stand ready to respond further as necessary.

International Health Partnership

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development on what programmes his Department is working in partnership with the International Health Partnership. [215415]

Gillian Merron: The International Health Partnership (IHP) was launched a year ago, on 5 September 2007, to accelerate progress towards the health Millennium Development Goals. It is not a new institution, a new

Secretariat or a new fund. It is about donors working together to support developing country Governments as they try to improve the health of their people.

The IHP currently operates in a small set of countries—Burundi; Cambodia; Ethiopia; Kenya; Madagascar; Mali; Mozambique; Nepal; Nigeria; and Zambia—to build stronger and lasting health systems and to strengthen coordination of aid. At a global level, the Department for International Development (DFID) supports the World Health Organisation (WHO) and the World Bank in taking forward the IHP. At a country level, where DFID has a programme, we are working with partners to implement the IHP.

Iraq: Reconstruction

John Battle: To ask the Secretary of State for International Development how much aid his Department has allocated to Sadr City, Baghdad to improve *(a)* electricity, *(b)* sanitation and *(c)* medical facilities; what types of aid have been provided in each case; and if he will make a statement. [213365]

Mr. Malik: The Department for International Development (DFID) is providing support to the people of Sadr City through contributions to UNICEF and to the International Committee of the Red Cross (ICRC).

UNICEF has provided medical supplies both to the Directorate of Health and to medical facilities in Sadr City. They have provided safe water, hygiene materials and emergency health supplies to over 12,000 families and 3,000 individuals in Sadr City. Water tankering operations serve these families daily, as well as the three major hospitals and other health facilities in the city. UNICEF has also pre-positioned various supplies in medical facilities in the city—including basic health kits for up to 100,000 people—and distributed water purification tablets door-to-door.

In Sadr City, ICRC provides food parcels, rice, and hygiene kits to vulnerable families and medical supplies to the Imam Ali general hospital. ICRC transport nearly 10,000 litres of drinking water to the city every day, and in Sadr City have repaired the Urfali water treatment plant—which provides clean water for 10,000 people—and the Al-Rashad psychiatric hospital, the largest health centre in Iraq.

ICRC's humanitarian assistance to Sadr City is funded from their core Iraq budget, to which DFID has provided £7 million in 2008. Similarly, UNICEF's work in Sadr City is funded from the UN Consolidated Appeal for Iraq, to which DFID has provided £5 million in 2008.

In a wider sense, DFID is encouraging the Government of Iraq to take a lead in providing for the welfare of their own people. In line with this, the Government of Iraq have established an Inter-Ministerial Committee on the regeneration of Sadr City—with a budget of $100 million—which is responsible for both regeneration and delivery of essential services to Sadr City, including electricity.

Namibia: Territorial Waters

John Battle: To ask the Secretary of State for International Development what representations his Department has made on visits to Namibia about illegal fishing by other states in Namibian waters; and if he will make a statement. [220763]

Mr. Thomas: I visited Namibia on 9 July, immediately after Namibia hosted a Southern Africa Development Community (SADC) Ministerial Conference on illegal, unreported and unregulated fishing (IUU) from 2 to 4 July. This conference was funded by the Department for International Development (DFID) with strong support from DEFRA and the FCO. The conference generated a Statement of Commitment to be passed to SADC Heads of State later this year, calling for regional action to improve fisheries governance and trade, and in particular to combat illegal fishing. The lack of capacity within the region to deal effectively with illegal fishing was highlighted during a meeting I had with the Chief Executive Officer of Hangana Seafoods, the first Namibian seafood producer to receive British Retail Consortium certification.

DFID's programme with Namibia through SADC has been instrumental in influencing southern African regional policy development for sustainable fisheries. DFID has now approved further funds to help build on this commitment and extend it to other parts of sub-Saharan Africa. Namibia represents a relatively positive model for African fisheries and effort will continue to support Namibian interests in promoting best practice. Nambia has operated effective monitoring, control and surveillance of its fishing activities since Independence. Recent and relatively modest infractions during late 2007, involving Nambian flagged, foreign operated vessels in the horse mackerel fishery, have been effectively dealt with by the authorities.

Overseas Aid

Mr. Hoyle: To ask the Secretary of State for International Development what progress has been made towards meeting the Gleneagles pledge to double development assistance, from G8 countries by $15 billion by 2010. [213643]

Mr. Thomas: The Gleneagles summit communiqué estimated that annual official development assistance (ODA) from all donors would increase by $50 billion, and ODA to Africa would increase by $25 billion, between 2004 and 2010. So far, according to preliminary data for 2007, from the OECD Development Assistance Committee (DAC), ODA from DAC members only has increased from $79 billion in 2004 to $104 billion in 2007, and ODA to Africa has increased from $19 billion in 2004 to $24 billion in 2007.

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what steps his Department has taken with the Foreign and Commonwealth Office and the Ministry of Defence with the objective of increasing the timeliness and effectiveness of aid from international institutions to conflict-affected areas. [220375]

Gillian Merron: Improving the effectiveness of aid from international institutions to conflict-affected countries is a UK Government priority. The Department for International Development (DFID) has taken a leading role in supporting reform of the international response to humanitarian crises led by the United Nations. This

has led to an increase in the timeliness and effectiveness of humanitarian aid through the UN Central Emergency Response Fund and the country-level Emergency Response and Common Humanitarian Funds.

DFID is also supporting improvements to the effectiveness of international institutions' development assistance to conflict-affected countries. UK funding through the joint DFID-FCO-MOD Conflict Prevention Pool and DFID funding to the United Nations funds, agencies and programmes, including UNDP's Bureau for Crisis Prevention and Recovery and the UN Peace building Fund, is subject to improved timeliness and effectiveness. For the World Bank, DFID secured commitments on financing for fragile states during the fifteenth replenishment negotiations of the International Development Association (IDA 15) in 2007, including extending the period of extra assistance for post-conflict states.

Recently, the UK has launched a new initiative on improving the international community's support for post-conflict stabilisation and early recovery. We are working with the UN, the World Bank, regional organisations such as the European Union and the African Union, and other countries to address the lack of timely and effective development aid during the immediate post-conflict period.

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what his Department's objectives are for the outcome of the Accra High Level Forum on Aid Effectiveness to be held in September. [220383]

Mr. Malik: The High Level Forum (HLF) is an important opportunity to achieve further progress in the quality of aid. The Department for International Development's (DFID) objectives for Accra are to:

Internationally identify and agree on concrete actions to accelerate progress and unblock obstacles towards our 2010 Paris targets and commitments on aid effectiveness under the five broad principles of Ownership, Harmonisation, Alignment, Mutual Accountability and Managing for Development Results.

To ensure partner country ownership and that partner country priorities are addressed and civil society perspectives are inputted into the Accra Agenda for Action outcome document that will be endorsed internationally.

And particularly to:

Improve medium term predictability of aid so that governments can plan expenditures better and meet recurring costs, for example wages of nurses and teachers.

Improve the governance of aid so that there is better accountability of donors to partner countries as well as partner countries to donors to drive better performance and results.

Improve the transparency of aid delivery for better planning and accountability.

Rationalise aid delivery to reduce costs increase coherence and improve the efficiency of aid.

Improve incentives for agency effectiveness to really secure practical behavioural change in donor organisations.

To ensure more aid is untied to free up more resources for poor people.

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what programmes were funded by the £89 million contributed by his Department to the Partnership Programme Agreement; and what the administrative costs associated with each programme were. [220450]

Gillian Merron: Partnership Programme Arrangements (PPAs) provide unrestricted funding to non-governmental organisations in support of objectives they share with the Department for International Development (DFID). It is therefore not possible to provide figures for specific programmes or administrative costs.

The 26 organisations which receive PPA contributions and the objectives against which they are held to account are detailed on the Department for International Development's external website at:

http://www.dfid.gov.uk/aboutdfid/DFIDwork/ppas/partnerprogagreements.asp

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what private sector contracts are funded through the £86 million that his Department spends through its country programmes. [220452]

Mr. Thomas: Details of all contracts awarded centrally by the Department for International Development (DFID) are available on our website:

http://www.dfid.gov.uk/procurement/contractslet.asp

for the period January 2005 to March 2008. This includes the project/programme title, name of supplier, the related sector and contract award value. Low value contracts issued by our overseas offices are not recorded centrally and would incur disproportionate cost to collate.

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what programmes his Department operates to increase awareness of *(a)* black and minority ethnic groups, *(b)* faith groups and *(c)* young people on assistance to developing countries; and how much was spent on such programmes in 2007-08. [220453]

Gillian Merron: The Department for International Development (DFID) runs a comprehensive package of development awareness programmes aimed at reaching diverse audiences, including black and minority ethnic groups, faith groups and young people. The total budget for development awareness for 2007-08 was £14.4 million.

Information on the main programmes for the audiences mentioned is as follows:

Black and Minority Ethnic (BME) Groups:

A partnership arrangement with the BME network organisation, Connections for Development—approximately £250,000 in 2007-08 to support the engagement of more BME organisations in international development. A volunteering programme to support volunteering in developing countries by the UK's diaspora communities was launched on 17 July 2008. The budget for this is £3 million over three years. Special workshops have been run in order to make BME groups aware of funding streams that are available to support greater development awareness among their communities and to increase the number of good quality applications from these groups.

Faith groups:

DFID supports a number of faith groups, or projects which target faith groups, through the competitive Development Awareness Fund. Ministers have been undertaking outreach visits to faith groups, including a multi-faith gathering of leaders hosted in Glasgow on

7 March and a seminar hosted by the DFID Minister, (Shahid Malik), with Muslim groups to discuss DFID's my hon. Friend the Member for Dewsbury work.

DFID gives funding to faith based NGOs such as CAFOD, Aga Khan Foundation, Islamic Relief and Christian Aid some of which is allocated by them to development awareness activities.

Young people:

In 2007-08 DFID funded around £8 million of activities that targeted young people in schools through the formal education sector, working with colleagues in DCSF, the curriculum authorities and the devolved Administrations. In addition DFID launched a new Youth Volunteering Scheme that aims to fund 2,500 young volunteers to work in developing countries. The budget for this scheme is £10 million over three years. DFID also reaches out to young people through sponsorship of youth festivals, such as the recent Global Students' Forum, and through innovative tools such as the Race Against Poverty Game which is available at the DFID website (www.dfid.gov.uk).

John Battle: To ask the Secretary of State for International Development what proportion of new development aid committed at the G8 summit is planned to go to *(a)* Africa, *(b)* South America, *(c)* South East Asia, *(d)* the Middle East and *(e)* Eastern Europe; and if he will make a statement. [220757]

Gillian Merron: G8 leaders at the 2008 summit in Tokyo reaffirmed their commitment made at Gleneagles, to work towards an increase in global Official Development Assistance (ODA) of $50 billion per year by 2010, of which half, i.e. $25 billion, additional funding should go to Africa.

There are no specific G8 planning targets for other regions.

The UK Government believe it is important that this commitment to Africa should be met and we will work with our partners to ensure that it is.

Overseas Aid: International Cooperation

Mr. Moore: To ask the Secretary of State for International Development what the outcomes were of the Accra conference on aid effectiveness; and if he will make a statement. [223581]

Mr. Douglas Alexander: The third High Level Forum on Aid Effectiveness in Accra reached a groundbreaking agreement—the Accra Agenda for Action—to improve the quality of global aid and help ensure that every pound or dollar of global aid delivers the maximum benefit for poor people.

In adopting the Accra Agenda for Action donors and developing countries agreed a number of concrete, monitorable actions, including the following:

Donors committed to make greater use of country's own financial systems to deliver aid, helping to strengthen those systems and improve accountability to Parliaments and citizens;

Donors and developing countries agreed to develop stronger mechanisms to hold each other accountable for meeting their commitments, at both country and global level;

Donors committed to respect and support partner country-led efforts to agree a better division of labour between donors in-country and to start a dialogue on international division of labour between countries. This will help to reduce the burden on governments of dealing with multiple donors and address the issue of countries that receive insufficient aid;

Donors will better communicate with partner governments about the aid they can expect over the next three-five years, helping governments to plan more effectively.

Donors will improve the way they deliver aid in 'fragile states', including those suffering from conflict. They agreed ways to use aid better to support state-building and peace building.

The full text of the Accra Agenda for Action is available through:

http://www.accrahlf.net/.

Also at Accra, 14 donors endorsed the new UK-led International Aid Transparency Initiative to help ensure that information on aid flows is available to everyone. It will enable partner Governments and their citizens—those who ultimately benefit from aid—to plan for and make the best use of aid. It will also help citizens hold donors and governments to account for their promises.

Renewable Energy: Finance

Mr. Peter Ainsworth: To ask the Secretary of State for International Development what contribution his Department has made to the *(a)* Clean Technology Fund, *(b)* Strategic Climate Fund and *(c)* the DfID/Defra Environmental Transformation Fund to date; and what projects and initiatives have had allocations from each of those funds to date. [223558]

Mr. Thomas: In the 2007 Budget, HM Treasury allocated £800 million to the Environment Transformation Fund International Window (ETF-IW), which is shared equally between the Department for International Development (DFID) and the Department for the Environment, Food and Rural Affairs (DEFRA). The full £800 million will be used to capitalise the new Climate Investment Funds administered by the World Bank—the UK contribution will be made via the Strategic Climate Fund. Ministers have agreed that roughly two thirds will be allocated to mitigation (forestry and clean technology) and one third to adaptation.

To date, £50 million has been committed to the Congo Basin Fund and £15 million to the Forest Carbon Partnership Fund. These allocations will be made via the Strategic Climate Fund. A £50 million allocation to China will be made via the Clean Technology Fund.

United Nations Development Fund for Women

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what support his Department provides to the United Nations Development Fund for Women (UNDFW); at what cost in 2008-09; and what UNDFW programmes his Department's staff have been working on. [220377]

Gillian Merron: Since 2004-05 the Department for International Development (DFID) has provided financial support to UNDFW (or UNIFEM as it is also known) amounting to £14 million. During 2008-09 we will provide £3 million given as core funding and £725,000 to supporting women's engagement in peace building and preventing sexual violence in conflicts in six countries. Core funding supports the delivery of UNIFEM's overall strategic plan and, hence, the full range of UNIFEM's activities.

United Nations: Overseas Aid

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development how the £307 million provided by his Department through central contributions to the UN agencies was distributed in *(a)* 2002-03 and *(b)* 2003 to 2007. [217040]

Mr. Thomas: During the period 2002-03 to 2006-07, the Department for International Development provided the following central contributions to UN agencies.

UN agency	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*£000 2006-07*
Food and Agriculture Organisation	12,018	12,399	13,408	9,132	13,700
International Fund for Agricultural Development	3,000	5,299	7,899	12,130	4,686
International Labour Organisation	1,518	4,447	4,816	3,446	3,106
Office for the Co-ordination of Human Affairs	3413	4,507	4,511	47,500	53,745
United Agency for Palestinian Refugees	18,807	23,646	17,229	14,985	15,015
UNAIDS	3,052	3,000	8,069	16,002	10,000
UN Children's Fund (UNICEF)	19,366	18,303	22,221	31,928	24,712
UN Development Programme(UNDP)	44,934	42,791	43,039	52,768	52,919
UNESCO	13,293	11,440	10,841	11,765	549
UN High Commission for Refugees	14,432	14,484	19,916	20,193	20,040
UN Industrial Development Organisation	3,560	3,846	3,844	4,783	4,351
UN Population Fund	9,000	18,100	20,038	30,000	25,000
World Food Programme	8	1415	2,566	5,053	2,780
World Health Organisation	34,135	33,777	30,039	45,141	59,045
Other UN Agencies	4,115	5,885	5,985	7,203	18,305
Total	184,651	203,339	214,421	312,029	307,953

Zimbabwe: Overseas Aid

Mr. Clifton-Brown: To ask the Secretary of State for International Development what discussions he has had with Zimbabwean authorities on the provision of humanitarian assistance to that country. [223481]

Mr. Douglas Alexander: Providing humanitarian assistance in Zimbabwe has been extremely challenging in recent months due to Mugabe's callous suspension of most relief operations. Department for International Development (DFID) officials have been working closely with the UN, EC and NGOs, in Zimbabwe and internationally, to lobby for an immediate resumption of all humanitarian activities, including food aid for up to 2 million Zimbabweans. As a result of these efforts, the Zimbabwean Government have finally allowed humanitarian agencies to resume their essential support. We are now closely monitoring the situation on the ground to assess humanitarian needs and ensure our partners can access the most vulnerable Zimbabweans.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff his Department has based in Afghanistan, other than those engaged locally; and how many of those hold a qualification in Dari or Pashto. [215289]

David Miliband: The UK employs a broad range of staff in support of the Government of Afghanistan to help develop a stable and secure Afghanistan. More than 100 civilian staff in Kabul and more than 40 staff in Helmand are employed from across the Government, including the Stabilisation Unit, the Foreign and Commonwealth Office (FCO), the Department for International Development and the Afghanistan Drugs Inter-Departmental Unit. Their roles include work in governance, stabilisation, reconstruction and development, security sector reform and counter narcotics.

As at July 2008, seven members of staff from the FCO had qualifications in Dari or Pashto and a further seven members of staff were studying the languages.

Afghanistan: Drugs

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs how many pictures of Afghan poppy fields have been taken by the Surveillance, Monitoring, Targeting and Verification project in each year of its operation; how many of these pictures have been used by the Afghan authorities in the fight against narcotics in each year; and if he will make a statement. [220207]

David Miliband: The contract for the Survey, Monitoring, Targeting and Verification (SMTV) Project was signed in September 2006. Since its establishment, SMTV has delivered timely and accurate data on poppy cultivation and eradication in Afghanistan for use by HMG to support the Government of Afghanistan's implementation of their National Drug Control Strategy.

No digital aerial photographs or satellite images were taken during the period of September 2006 to December 2006 as the poppy harvest period was over. In 2007, 12,500 digital aerial photographs and 43 satellite images were taken. In 2008, 135 satellite images were taken. These photographs and images were used to measure poppy cultivation and to target and measure eradication. This data was used by the UK, in concert with the

Government of Afghanistan and key international partners, to formulate policy and monitor progress on counter narcotics in Afghanistan.

Afghan authorities in the Ministry of Counter Narcotics have used map products produced from the photographs. In addition, some photos and images have been used in training programmes for Afghan nationals.

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff the British Embassy Drug Team (BEDT) in Afghanistan has; and how often BEDT has met Afghan counter-narcotics officials in the last 12 months. [220283]

David Miliband: At present, there are eight staff working in the counter-narcotics team in Kabul (formerly known as the British Embassy Drugs Team) and two working in the counter-narcotics team in Lashkar Gar. However, both teams work closely with a number of other Government organisations, including the Serious Organised Crime Agency, HM Revenue and Customs, the Department for International Development, the Ministry of Defence, as well as a number of consultancy experts who work, in varying degrees, on counter-narcotics.

At least one member of the counter-narcotics team, and often more, meet Afghan counter-narcotics officials daily. This includes meetings with Ministers in the Ministry of Counter-Narcotics at least once a week.

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs what expenditure his Department has incurred in establishing and maintaining the British Embassy Drug Team in Afghanistan since its establishment. [220284]

David Miliband: The British Embassy Drugs Team was formed in 2003 as part of the established British embassy in Kabul. The salary expenditure incurred in maintaining the British Embassy Drugs Team in Afghanistan is shown below for each financial year since 2003:

Financial year	*Number of staff (not all staff were present for the full year)*	*Total of salaries paid (based on average salaries, excluding personal allowances) (£)*
2007-08	10	294,155
2006-07	10	362,031
2005-06	8	286,761
2004-05	7	257,937
2003-04	7	256,176

These figures do not include the embassy's overhead costs, such as accommodation, security/close protection and administration. These are pooled for the Government's overall efforts in Afghanistan.

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs what expenditure his Department has incurred in establishing and maintaining the Surveillance, Monitoring, Targeting and Verification project since its establishment; and if he will make a statement. [220285]

David Miliband: The Survey, Monitoring, Targeting and Verification Project commenced in September 2006. Since then the Government have paid £5,903,990 towards the provision of timely and accurate data on poppy cultivation and eradication in support of the Government of Afghanistan's National Drug Control Strategy.

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs what criteria his Department used to determine its support for the nomination of General Khodaidad to the post of Minister of Counter-Narcotics in the government of Afghanistan; and if he will make a statement. [220290]

David Miliband: The decision on the appointment of General Khodaidad as Minister of Counter Narcotics in Afghanistan was made by the President of Afghanistan in 2007. The UK played no part in this appointment.

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs which projects his Department sponsors as part of its counter-narcotics programme; what the objectives of each such project are; and how much funding his Department has provided for each such project in the last five years. [220291]

David Miliband: The UK has funded more than 500 counter-narcotics projects across the world, including capacity building for anti-narcotics forces in a number of partner countries and strengthening their law enforcement agencies' investigative skills. This also includes an integrated counter-narcotics programme in Afghanistan focussing on: interdiction and enforcement; justice; elimination; counter-narcotics governance; livelihoods and growth; regional activities; and Helmand counter-narcotics work. In total, the UK has spent £159.8 million on our counter-narcotics programme from 2004-08. A further £39.7 million has been earmarked for the current financial year 2008-09.

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will publish the Government's counter-narcotics strategy for Afghanistan together with the names of its authors and significant contributors. [220292]

David Miliband: The UK's policy is to support the Government of Afghanistan's National Drugs Control Strategy. Our strategy is available on the Foreign and Commonwealth Office's (FCO) website at:

www.fco.gov.uk/resources/en/pdf/pdf18/fco_nationaldrugcontrolstrategy.

It was produced by the Afghan Drugs Inter-Departmental Unit, which comprises staff from a variety of Whitehall Government Departments, including the FCO, the Department for International Development, the Home Office, the Ministry of Defence, the Serious Organised Crime Agency and HM Revenue and Customs.

Afghanistan: Peacekeeping Operations

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what publicity strategy his Department adopted in respect of the recent deployment of British police officers to Kabul. [219620]

Dr. Howells: The UK has a comprehensive communications strategy for Afghanistan, including our support for building the rule of law. We have offered

several broadcasters and newspapers the opportunity to interview UK police mentors in Kabul and Helmand. We intend to organise press briefings to provide further detail about recently deployed UK police, taking into account the security of the officers concerned.

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to consult the relevant Select Committees of the House on any future deployment of British police officers to Kabul; and if he will make a statement. [220319]

Dr. Howells: There are no plans to make it our policy to consult Select Committees on any future deployment of British police officers to Kabul. The International Development Committee was briefed on the EU Police Mission (EUPOL) in Afghanistan on 17 January 2008. The Government deposits Explanatory Memoranda on EUPOL's legal documents at the relevant times with the House of Commons Parliamentary European Select Committee.

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs how much the UK has contributed to the costs of deployment of British police officers in EUPOL Afghanistan. [220327]

Dr. Howells: In addition to our assessed contribution of £5,490,370 (financial year 200-08), the UK meets all personnel-related costs of seconding British officers to the EU Police mission in Afghanistan. As at July 2008, this amounted to a spend of £959,000 on seconded personnel.

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effectiveness of the EU police mission in Afghanistan; which states are contributing to the mission; and how much each state is contributing. [221338]

Dr. Howells *[holding answer 22 July 2008]:* As at July 2008, the EU Police Mission to Afghanistan (EUPOL) was making steady progress towards full deployment and had a presence in 14 provinces. The Mission is developing important working relationships with the US police teaming programme. Personnel from EUPOL are also working with the International Policing Co-ordination Board to develop a shared vision for the role of the Afghan police and with the US to strengthen the capability of the Afghan Ministry of Interior, both of which will be key to the success of police reform. In recognition of the importance of EUPOL and the role it plays in police reform in Afghanistan, the Government supported the ambition to significantly increase the size of the mission as agreed in May 2008. As at July, 18 states were seconding personnel to EUPOL. This breaks down as follows:

	Number
Canada	11
Croatia	1
Czech Republic	5
Denmark	8
Estonia	1
Finland	9
France	4
Germany	34
Hungary	3
Italy	17
Lithuania	3
Netherlands	5
Norway	2
Poland	3
Romania	3
Spain	11
Sweden	8
UK	10

Contributing states meet all personnel costs for seconded staff bilaterally and therefore we do not hold information on these costs.

Afghanistan: Police

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made in establishing the Afghan national police; and if he will make a statement. [221339]

Dr. Howells *[holding answer 22 July 2008]:* At 28 March 2008, according to figures provided by the US, total strength of the Afghan police was approximately 78,000 personnel and the force was deployed in every province in Afghanistan.

The International Policing Coordination Board (IPCB) is working to develop a vision for the Afghan police that will define its future role in both law enforcement and counter insurgency operations. The IPCB includes representatives from the Afghan Ministry of Interior, the US and the EU and other actors. The US is pursuing a police reform programme called Focused District Development which provides equipment, training and mentoring in law enforcement techniques to police officers at the tactical level. The EU, through the European Policing mission to Afghanistan, provides framing and mentoring for the Afghan police at the strategic and regional levels.

The Afghan police play a vital role in the counter insurgency campaign and regularly support the Afghan national army on operations.

While the force suffers from major problems such as low levels of literacy and corruption, its performance is improving.

China: Earthquakes

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of *(a)* Chinese and *(b)* Tibetans (i) killed and (ii) injured in the recent earthquake whose epicentre was on the borders of the Tibetan Ngaba Autonomous Prefecture. [220371]

Meg Munn: At the time, official Chinese estimates of the number of fatalities, as a result of the earthquake in Sichuan Province, was 69,197. The Chinese estimate for injuries was 374,176 and 18,340 estimated missing. We do not have figures broken down by ethnic group.

My right hon. Friend the Foreign Secretary discussed the relief effort with Chinese Foreign Minister Yang on 12 June. The Government provided around £2.55 million at the time in assistance as well as sending a medical team to participate in the relief effort.

China: Politics and Government

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Chinese Government to ensure that it uses the name Taiwan, in Chinese, Chinese Taipei, instead of Taipei, China, and that English and Chinese versions used are the same. [221424]

Meg Munn: This is a matter for the International Olympic Committee (IOC). But the name used by Taiwan in international sporting events has been agreed by the IOC, Taiwan and China and we would expect all parties involved to abide by this agreement. The Chinese authorities have stated that the form "Chinese Taipei", and the agreed equivalent in Chinese, will be used in all official venues and in official correspondence, as required.

Commonwealth Scholarships

Mr. Sheerman: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received from other Commonwealth countries on his decision to withdraw from the Commonwealth Scholarship Fund. [221415]

Mr. Jim Murphy: The Canadian Government expressed regret at the decision and asked us to reconsider it. We have explained the steps we are taking to identify additional funding for scholarships for Canada, in addition to the existing allocation of Chevening scholarships, once we stop funding new awards through the Commonwealth Scholarship and Fellowship Plan after the 2008-09 academic year. My right hon. Friend the Foreign Secretary has not received any representations from other Commonwealth Governments.

The Government's overall contribution to Commonwealth scholarships will increase over the next three years—from £16.9 million in 2007-08 to £17.9 million in 2008-09; about £18 million in 2009-10; and over £17.5 million in 2010-11—because the Department for International Development is increasing its contribution for scholars from developing Commonwealth countries.

Democratic Republic of Congo: Diplomatic Service

Sarah Teather: To ask the Secretary of State for Foreign and Commonwealth Affairs if the Government will make representations to seek to ensure that the salary arrears of former diplomats from Democratic Republic of Congo (DRC) who are now British citizens are paid by the Government of the DRC. [220595]

Meg Munn: We have raised the issue of the payment of outstanding debts, including salary arrears, owed by the embassy of the Democratic Republic of Congo (DRC), on a number of occasions and will continue to press the embassy to settle them. We have been advised by the embassy that the issue of salaries owed to former diplomats at the embassy should be pursued by the former diplomats themselves directly with the Government of the DRC.

Departmental Alcoholic Drinks

David Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what measures are in place in his Department to monitor expenditure on alcohol for hospitality purposes. [219600]

Meg Munn: I refer the hon. Member to the answer given by my right hon. Friend the Parliamentary Secretary to the Treasury (Mr. Hoon) on 1 May 2007, *Official Report*, column 1638W. Government Hospitality is part of the Protocol directorate in the Foreign and Commonwealth Office and, as such, is subjected to the same monitoring procedures as other Departments.

David Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what purchasing process is used by his Department for the procurement of alcohol for hospitality purposes. [219953]

Meg Munn: Government Hospitality in Protocol directorate, Foreign and Commonwealth Office (FCO), is advised in its wine purchasing by the Government Hospitality Advisory Committee for the Purchase of Wine (GHACPW). The GHACPW offers advice according to the requirements of the Government cellar, wine market prices, the availability of individual wines and vintages and their quality. The level of expenditure on wines and spirits is the responsibility of the Head of Government Hospitality. The GHACPW offers its advice based on 'blind' tastings of samples acquired from a range of British wine merchants.

The GHACPW does not provide advice on expenditure for the purchase of wine for other hospitality carried out by the FCO.

Departmental Computers

Mr. Peter Ainsworth: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of *(a)* the number of computer devices left on overnight in his Department when not in use and *(b)* the cost of leaving computer devices on overnight when not in use in each of the last five years; and if he will make a statement. [217868]

Meg Munn: The instruction to leave personal computers switched on, referred to in my reply to the hon. Member on 16 June 2008, *Official Report*, columns 665-66W, applies to all Foreign and Commonwealth Office (FCO) staff. There are approximately 12,000 personal computers in use in FCO offices around the world. Allowing for exceptions and shared use by shift workers, an estimate of 10,000 machines left on overnight is reasonable, but untested.

In 2007 power consumption tests based on the range of personal computers then in use suggested an average of 80 watts for each personal computer—(assuming 14 idle hours per day for each of the 10,000 personal computers gives an overall estimate of approximately four million kilowatts per hour per annum). This cannot readily be converted to a cash equivalent, as different tariffs apply in the countries around the world in which the FCO is represented. This level of consumption

would have been broadly constant during the past five years. It has been our assessment that the risk of lost productivity and the risk to national security that this policy avoids outweighed its cost.

As explained in my earlier answer, the consumption is expected to fall substantially as old equipment is replaced. To date, approximately 3,500 new machines have been installed in offices in the UK. Under current plans all 12,000 machines worldwide should have been replaced by 2009. In addition to this, we will be applying global policies to ensure a reduction in power consumption.

Departmental Furniture

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* chairs, *(b)* desks and *(c)* other office furnishings have been purchased by his Department and its agencies in each of the last five years; and at what cost in each case. [211767]

Meg Munn: Records for how many chairs, desks and other office furnishings purchased by the Foreign and Commonwealth Office and its agencies are not held centrally. It would not be possible to obtain this information without incurring a disproportionate cost.

Departmental Pay

Mr. Philip Hammond: To ask the Secretary of State for Foreign and Commonwealth Affairs how much was claimed in reimbursable expenses by press officers in his Department and its agencies in each of the last three financial years. [221179]

Meg Munn: The amount claimed in reimbursable expenses (travel, accommodation and official entertainment) by staff working in the press office at the Foreign and Commonwealth Office in London in each of the last three financial years is shown in the following table:

	£
2005-06	11,738
2006-07	5,832
2007-08	11,616

Departmental Postal Services

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department has taken to monitor the cost of its mail services in the last 12 months. [221481]

Meg Munn: Mail charges are checked monthly by managers of departments. These details are forwarded to the appropriate finance management unit who monitor usage.

Departmental Public Participation

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* listening exercises and *(b)* public forums his Department has held in each of the last two years; what the (i) purpose and (ii) cost was in each case; and who the private contractor was and how much it was paid in each case. [221351]

David Miliband: As part of the Foreign and Commonwealth Office's (FCO) Strategy Refresh, we invited members of the public to contribute their views on "three big questions": where should the UK concentrate its global effort; where are we most needed; and where can we most effect change. The replies to these questions, and other stakeholders' views, were fed into the deliberations of the FCO's Strategy Refresh exercise.

Engaging with stakeholders is an important part of FCO policy formulation and delivery and we are developing new methods of enhancing dialogue with the public in the UK and overseas.

We also use our FCO web platform

www.fco.gov.uk

to seek views from the public, for example on new forced marriage guidelines, on next year's human rights report and on the FCO's Engagement publication. In addition our web log (blog), available at

http://blogs.fco.gov.uk

offers an ongoing chance for members of the public to contribute to our thinking, sending their comments directly to the official or Minister responsible for the policy. All of these exercises are run using FCO resources.

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* reviews and *(b)* public consultations have been initiated by his Department since 27 June 2007. [221379]

David Miliband: I launched a refresh of the Foreign and Commonwealth Office's strategy on 19 July 2007 in my speech at Chatham House. This was not a formal review but an exercise undertaken internally, drawing on input from the general public and key stakeholders. The input from these groups did not constitute a formal consultation but a listening exercise (my answer to written parliamentary question 221351 refers). I announced the outcome of the strategy review to the House on 23 January 2008.

Departmental Research

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what proportion of his Department's budget was used for research within its areas of responsibility in each of the last 10 years. [218063]

Meg Munn: Research in the Foreign and Commonwealth Office (FCO) is primarily undertaken by FCO research analysts, who provide analysis and advice to Departments. The proportion of the FCO's budget spent on research analysts for the last four financial years is shown as follows:

	Percentage of the FCO budget
2004-05	0.002
2005-06	0.002
2006-07	0.002
2007-08	0.002

Data for years preceding 2004-05 is not held centrally and can be provided only at disproportionate cost.

Research is also conducted by individual directorates, Departments and posts and funded from devolved budgets. Information relating to the proportion of these budgets used for research is not held centrally and can therefore be provided only at disproportionate cost.

Departmental Responsibilities

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs which projects his Department has commissioned from *(a)* think tanks and *(b)* charities in each of the last two years for which figures are available; what the aim of each project was; which think tank or charity was commissioned; and how much was paid. [221608]

David Miliband: The Foreign and Commonwealth Office (FCO) has regular contacts with think tanks and charities and often works with them to deliver our objectives. The specific information requested is not held centrally and to gather it would incur disproportionate costs. However, figures for the total project spend on each of the Departmental Strategic Objectives are freely available in the FCO's Annual Report (pages 118-140).

Departmental Sick Leave

David Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many and what percentage of staff in his Department have had more than two periods of sickness absence of less than five days in each of the last three years. [218723]

Meg Munn: Thirty-nine UK civil servants employed by the Foreign and Commonwealth Office (FCO) and FCO services have had two or more periods of sickness absence of less than five days in each of the last three years up to 31 July 2008. This represents 0.7 per cent. of the FCO's UK-based work force.

David Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff in his Department have had five or more periods of sickness absence of less than five days in two or more of the last five years. [218967]

Meg Munn: In the period 1 January 2005 to 31 July 2008, 45 UK civil servants (0.75 per cent. of UK-based staff) employed by the Foreign and Commonwealth Office (FCO) or FCO services had five or more periods of sickness absence of less than five days in two or more of these years.

The FCO does not hold records of sickness absence before 1 January 2005.

We monitor sickness absence closely. Long periods of sick leave trigger a reduction in pay (of 50 per cent.) and eventually loss of salary altogether.

Developing Countries: Charities

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what guidance his Department provides to charitable organisations on the direction of their operations in third-world countries. [220699]

Meg Munn: Our diplomatic missions regularly provide specific advice to charitable organisations wishing to work in their host countries. We are most commonly consulted for general travel and security advice but also regularly advise on the general political conditions, including the most efficient and effective means of delivering aid to the country. Beyond this, we would also encourage non-governmental organisations to carry out their own independent checks in line with industry best practice.

This advice would normally be delivered by the Department for International Development, but where they are not represented, this role is played by our embassy or high commission. More general information is also accessible through our website on a range of issues that may affect them, including travel advice, political structure, security environment and economic conditions.

Non-governmental organisations are, of course, not obliged to seek this advice or to stay in close contact with our embassy or high commission and some choose not to do so. Although we maintain a good relationship with non-governmental organisations overseas, we are careful to respect their independence and are not in a position to dictate the way in which they deliver their aid.

Where projects are funded or part funded by the Government, however, we have considerable say in how aid is directed. In some cases the Government use non-governmental organisations as conduits for essential UK aid, particularly in countries where we lack confidence in the host Government's ability or willingness to distribute aid to the most needy. It is, in general, difficult for host Governments to divert aid administered through non-governmental organisations for political or military purposes.

Diego Garcia: Detainees

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 7 May 2008, *Official Report*, columns 932-33W, on Diego Garcia: detainees, what investigation his Department has carried out into the allegations relating to the USS Bataan and the USNS Stockholm. [220879]

Dr. Howells: Pursuant to my answer of 7 May 2008, *Official Report*, columns 932-33W, during the course of our most recent exchanges, the US have confirmed to us that they have not held any detainees on ships within the territorial waters of Diego Garcia since 11 September 2001. They have also informed us that they do not operate detention facilities for terrorist suspects onboard ships. US naval vessels were used in the early days of Operation Enduring Freedom in Afghanistan to screen and temporarily hold a very small number of individuals pending their transfer to land-based detention facilities. The US has informed us that these ships were not located within the territorial waters of Diego Garcia. We are not aware of any of these ships being supplied from the island.

In a matter unrelated to terrorist suspects, the US have informed us that they apprehended pirates on ships in the vicinity of the Horn of Africa and that

these individuals were detained on US Naval vessels pending their delivery to the land of a nation with jurisdiction to try them.

Diplomatic Service: Education

Chris Ruane: To ask the Secretary of State for Foreign and Commonwealth Affairs what percentage of British ambassadors and high commissioners were educated at *(a)* a private school, *(b)* a state school, *(c)* the universities of Oxford and Cambridge and *(d)* other universities. [218988]

Meg Munn: The Foreign and Commonwealth Office does not hold this data as a matter of course on its employees. The data have been collected in order to answer this question. As at July 2008, two Heads of Mission posts were vacant.

Educational background of serving Heads of Mission and Governors (by school)

School	*Total*	*Percentage*
Private	82	52
State	54	35
Data unavailable	19	12
Vacant	2	1

Educational background of serving Heads of Mission and Governors (by university)

University	*Total*	*Percentage*
Oxford and Cambridge	83	53
Other universities	41	26
Did not attend university	11	12
Data unavailable	20	8
Vacant	2	1

France: Embassies

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost was of maintaining the Embassy in Paris was in *(a)* 2005, *(b)* 2006 and *(c)* 2007. [218637]

Mr. Jim Murphy: The total cost of maintaining our embassy buildings in Paris between 2005 and 2007 was:

	£
2005-06	708,678
2006-07	819,002
2007-08	804,445

These figures relate to the cost of maintaining our embassy, consulate and the Organisation for Economic Co-operation and Development offices in Paris. Our embassy in Paris also undertook essential fire safety work in 2007-08 at a one-off cost of £231,000.

Gaza: Energy

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs how much the EU has provided to Israel for fuel and electricity for Gaza in the last 12 months; and whether such payments are made in advance of delivery. [220242]

Dr. Howells: The EU provided €89.5 million in fuel to the Gaza power station over the period 1 July 2007 to 30 June 2008. This funding was provided by the European Commission. All payments were made after the delivery of the fuel took place.

Iceland: Whales

Mrs. Riordan: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the issue of whaling was raised during his meeting with the Icelandic Foreign Minister on 12 May; and if he will make a statement. [220034]

Meg Munn: I refer the hon. Member to the answer my hon. Friend the Minister for Europe (Mr. Murphy), gave to the hon. Member for Moray (Angus Robertson) on 12 June 2008, *Official Report*, column 436W.

Mrs. Riordan: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations the Government have made to the Icelandic Government on the possible resumption of whaling in Iceland. [220035]

Meg Munn: When my right hon. Friend the Prime Minister met with Icelandic Prime Minister Geir H. Haarde on 24 April, he raised the whaling issue and explained our view that the whaling industry was doing significant damage to Iceland's international reputation. My right hon. Friend the Prime Minister also pointed to the significant economic and social benefits from Iceland's growing whale-watching industry and expressed the view that any decision to recommence whaling could seriously undermine those benefits.

I also refer the hon. Member to the answer my hon. Friend the Minister for Europe, (Mr. Murphy) gave to the hon. Member for Moray (Angus Robertson) on 12 June 2008, *Official Report*, column 436W. As the Minister for Europe's response made clear, he raised whaling with the Icelandic Minister for Foreign Affairs, Mrs Gísladóttir on 12 May.

On 25 June, our ambassador to Iceland published an article in the Icelandic press entitled 'What on earth is the point to whaling'. Although written from a personal view, the article makes clear the UK position on whaling: we strongly support the International Whaling Commission moratorium on commercial whaling and oppose all forms of whaling, other than limited whaling operations by indigenous people for subsistence purposes, to meet a defined and substantiated need. The article also makes clear the UK's position that neither a domestic nor international market exists for Icelandic whaling products.

Our new ambassador to Iceland also raised the whaling issue with the Prime Minister of Iceland at their meeting on 14 July.

Iran: Nuclear Weapons

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Answer of 24 June 2008, *Official Report*, columns 147-8W, on Iran (nuclear programme), what the evidential basis is for his statement that sanctions are having an effect on the Iranian economy; and what effect such sanctions are having. [217392]

David Miliband: There is much anecdotal evidence from sources inside Iran that the financial measures, including asset freezes imposed by UN Security Council resolutions and reinforced by the EU, have affected the Iranian business community's ability to function effectively in some areas. They have disrupted the international operations of a number of Iranian companies and those Iranian banks named in the sanctions. According to our sources, restrictions on dual use goods have led to difficulties in sourcing spare parts in the Iranian power sector.

Sanctions have also partly contributed to a slowdown in inward foreign investment in the Iranian oil and gas sector. There is now a growing debate inside Iran about the Iranian Government's policies, including on economic management. Internal discontent about the Iranian economy is increasing in the light of accelerating inflation rates (approximately 26 per cent. as at August 2008), unemployment and frequent power cuts. We believe further measures on Iran must remain part of the current twin track diplomatic approach to persuade the Iranian regime that its continued defiance of UN Security Council resolutions will not be cost free.

Iran: Politics and Government

Mr. Wallace: To ask the Secretary of State for Foreign and Commonwealth Affairs which members of the Iranian government *(a)* he and *(b)* his Ministers have met in the last year; and where each meeting took place. [220653]

Dr. Howells: My right hon. Friend the Foreign Secretary has had three meetings with his Iranian counterpart, Manouchehr Mottaki, in the last year—in the margins of the UN General Assembly in September 2007, in the margins of the World Economic Forum in Davos on 26 January 2008 and in the margins of the Iraq Neighbours Conference in Kuwait on 22 April 2008. My right hon. Friend the Foreign Secretary also spoke to Foreign Minister Mottaki by telephone on 26 February 2008. I have also met the Iranian Foreign Minister in the margins of various conferences and meet with the Iranian ambassador occasionally.

Iran: Sanctions

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what the efforts of Brigadier-General Mohammed Reza Naqdi to get round UN sanctions on Iran were, as referred to in Annex 1 of UN Security Council Resolution 1803 (2008). [217316]

David Miliband: Brigadier General Mohammed Reza Naqdi was sanctioned for his role as the head of state anti-smuggling headquarters, engaged in efforts to get round the sanctions imposed by UN Security Council Resolutions 1737 and 1747. *Iran Daily* quoted Naqdi on 23 April 2007 as saying,

"after the new round of pressures (that is, sanctions) on Iran we have decided to provide all needs by ourselves and kill the enemy's slightest hope of achieving its goals. We are going to take advantage of these opportunities against embargoes".

The Islamic Republic News Agency noted on 22 September 2007 that Naqdi admitted Iran exported arms without specifying the target destination, saying

"no seller unveils his customer".

Iraq: Asylum

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will ensure that the applications to enter the UK from the group of Iraqi interpreters, who arrived in Amman, Jordan on 21 April 2008, will be decided before their Jordanian visas expire on 20 July; and if he will make a statement. [219689]

Dr. Howells: Five former interpreters and their families who moved to Amman on 21 April have now arrived in the UK. The other cases are being processed as quickly as possible but clearance procedures have not yet been completed. We are working to secure assurances that the individuals will be granted permission to remain in Jordan until the processing of their cases is completed. The Government will reimburse the cost of extending their visas.

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 10 July 2008, *Official Report*, column 1826W, on Iraq: asylum, how many of the 422 applications received by the UK Border Agency from Iraqi nationals under the Gateway Protection Programme have been approved. [219739]

Dr. Howells: Applications received from former locally engaged staff for assistance under the Gateway Programme are being processed as quickly as possible. As at July 2008, applications from thirteen former staff and their families had been approved.

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 10 July 2008, *Official Report*, column 1826W, on Iraq: asylum, against which criterion of the Locally Employed Staff Assistance Scheme the most applications from former Iraqi staff have been rejected. [219740]

Dr. Howells: Not having completed 12 months employment as locally engaged (LE) members of staff was the most common reason why former LE staff who had applied for assistance were subsequently assessed as being ineligible.

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 10 July 2008, *Official Report*, column 1826W, on Iraq: asylum, how many applications for assistance under the Locally Employed Staff Assistance Scheme have been received from *(a)* Jordan, *(b)* Syria, *(c)* the United Arab Emirates, *(d)* Bahrain, *(e)* Kuwait, *(f)* Lebanon, *(g)* Canada, *(h)* Thailand, *(i)* Germany, *(j)* Denmark, *(k)* Sweden, *(l)* India and *(m)* the United Kingdom; and how many applications from each country have been approved. [219743]

Dr. Howells: The number of applications received from each of the countries, together with the number approved for assistance, is as follows:

	Total	Approved	Number Rejected
Jordan	4	2	2
Syria	28	13	15
United Arab Emirates	5	4	1
Bahrain	1	0	1
Kuwait	2	1	1
Lebanon	1	0	1
Canada	3	1	2
Thailand	1	0	1

[1] Decision pending

Israel: EU External Relations

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs what criteria are used to determine whether Israeli representation is relevant in particular working groups established by the EU-Israel Association Council; and in which working groups such representation is considered relevant. [220236]

Dr. Howells: Under the auspices of the EU/Israel Association Council, on 16 June, a broad range of areas for closer engagement was identified, as set out in the Association Council statement. Israel will be represented in working groups in the areas established by the Association Council.

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs at what stage in its development he expects hon. Members to have the opportunity to scrutinise the next European Neighbourhood Action Plan regarding the EU-Israel Association Council; and if he will take steps to ensure that such an opportunity is provided before the action plan is agreed at EU level. [220245]

Mr. Jim Murphy: The current EU-Israel Action Plan has been rolled over for a further year. The EU/Israel Association Council will seek to agree a successor to this action plan in early 2009.

The existing 12 European Neighbourhood Policy (ENP) country action plans have been agreed between the European Commission and ENP partner countries and are reviewed periodically by the EU through the publication of EU country progress reports prepared by the Commission, most recently in April 2008.

Hon. Members scrutinise the overarching Association Agreements between the EU and partner countries, as these cover areas of mixed competence. As ENP action plans, which are neither legal texts nor international agreements, are drawn up by the Commission on the mandate given to them by the member states, hon. Members do not have the opportunity to scrutinise the plans, although the progress reports are subject to scrutiny.

Israel: EU Trade

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the extent to which settlement products have benefited from the mutual trade concessions agreed between EU and Israel for agricultural products, processed agricultural products or fisheries. [220237]

Dr. Howells: It has been brought to our attention that goods from illegal Israeli settlements may be entering the UK under false pretences and without paying the correct customs duties. We have discussed this issue with Palestinian Prime Minister Salam Fayyad, the Palestinian General Delegation in London and non-governmental organisations. We take this issue seriously and have alerted HM Revenue and Customs to it so that it can take appropriate action.

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the extent to which products from the Palestinian Territories exported through Israel have benefited from the mutual trade concessions agreed between the EU and Israel for agricultural products, processed agricultural products or fisheries. [220238]

Dr. Howells: Palestinian goods from the Palestinian Territories benefit from preferential customs arrangements through the EU-Palestinian Interim Association Agreement. However, obstacles to movement are such that virtually no produce has been imported in this way.

We take seriously reports that agricultural products produced on illegal settlements in the West Bank are exported via Israel with the goods documented as Israeli, so benefiting from the EU-Israel agreement.

Israel: Human Rights

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of proposals for an EU-Israel Association Council Sub-Committee on Human Rights; what agreement has been reached on its *(a)* constitution, *(b)* membership, *(c)* powers, *(d)* remit and *(e)* proposed frequency of meetings; whether external organisations will be permitted to provide evidence of alleged human rights abuses to the Sub-Committee; whether the proceedings of the Sub-Committee will be published; whether its findings on human rights abuses will be reported to the Association Council; and in what ways the Sub-Committee will differ from the informal Working Group on Human Rights. [220235]

Dr. Howells: The EU proposed to upgrade the current Human Rights working group into a formal political sub-committee at the EU-Israel Association Council of 16 June. There has been no formal response from Israel.

The exact structure, operating procedures and reporting policy require the agreement of both parties.

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs what issues were discussed at the EU-Israel Association Council's informal working group on human rights on 30 April 2008; what the outcomes of the meeting were; and whether the group recommended specific actions on the Government of Israel's part. [220240]

Dr. Howells: The informal working group on human rights, on 30 April, discussed a wide range of the EU's concerns with Israel's human rights record. To encourage a full and frank discussion of the issues, a public record of the meeting and its outcomes is not released.

Israel: Law

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the compatibility of Israeli law with EU and international law in the areas of *(a)* torture and *(b)* the territorial boundaries of Israel in the context of the proposals made at the eighth meeting of the EU-Israel Association Council on EU-Israel relations. [220238]

Dr. Howells: The UK abides by its commitments under international law, including the UN Convention Against Torture, and expects all other countries to comply with their international obligations.

We have made it clear that we consider settlement building anywhere in the occupied Palestinian Territories, including East Jerusalem, as illegal under international law and that we are deeply concerned by recent announcements of plans and tenders for settlement building.

Israel: Overseas Students

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs of the 80 Israeli students who have received scholarships under the Erasmus Mundus exchange programme, how many were of *(a)* Jewish, *(b)* Arab and *(c)* Druze ethnicity; and how many were from institutions wholly or partly located in settlements in (i) East Jerusalem and (ii) the West Bank. [220239]

Dr. Howells: The Erasmus Mundus exchange programme is a scheme run by the European Commission. The Foreign and Commonwealth Office does not hold any information on the participants in this programme.

Kosovo

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's budget is for expenditure in Kosovo on *(a)* embassy staff and other operational costs, *(b)* support for the British Council, *(c)* technical assistance to the (i) government of Kosovo and (ii) non-governmental organisations working in Kosovo, *(d)* budgetary support for (A) the government of Kosovo and (B) non-governmental bodies working in Kosovo, *(e)* support for (1) UNMIK, (2) EULEX, (3) ICO, (4) OSCE and (5) other international bodies and *(f)* other costs in the 2008-09 financial year. [219648]

Mr. Jim Murphy: The Foreign and Commonwealth Office's (FCO) budget for expenditure is £1.1 million on embassy staff and other operational costs and around £200,000 on support for the British Council in the 2008-09 financial year. Technical assistance to the Kosovo Government is provided through a combination of FCO bilateral funding, project activities under the joint FCO/Department for International Development/Ministry of Defence Conflict Prevention Pool and the FCO's Strategic Programme Fund. The total budgets for expenditure for these three funds in the 2008-09 financial year are: £76,000; up to £3.8 million; and £110,000 respectively. Our work with non-governmental organisations in Kosovo is also funded from the Conflict Prevention Pool and the Strategic Programme Fund. The FCO does not provide budgetary support for the government of Kosovo and non-governmental bodies working in Kosovo.

The UN Mission in Kosovo's approved budget for the 2008-09 financial year is US$198 million, of which the UK's contribution is 7.9 per cent. or US$14.8 million (around £7.4 million). The EU Rule of Law Mission in Kosovo's (EULEX) approved commitment appropriation for calendar year 2008 is €140 million, of which the UK's contribution is 17 per cent. or €23.8 million (around £18.9 million). The actual amount spent on EULEX in 2008-09 will not be known until the end of the financial year. The Organisation for Security and Co-operation in Europe Mission in Kosovo's (OMIK) approved budget for calendar year 2008 is just over €30 million, of which the UK's contribution is 11.09 per cent. or €3.3 million (around £2.6 million). The budget for calendar year 2009 is yet to be approved but in UK financial year 2007-08, the UK contribution to OMIK was €3.7 million. We would not expect this level to be exceeded in 2008-09.

We have provisionally budgeted for a total of 76 UK secondees to EULEX in 2008-09 at an estimated cost of £5.3 million and for a total of five UK secondees to the International Civilian Organisation at an estimated cost of £377,000. We have one UK secondee to OMIK at a cost of around £70,000 per annum.

Kosovo: Diplomatic Service

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs how many officials are based at the UK Embassy in Kosovo; to which departments they are attached; and whether there are any posts unfilled. [219649]

Mr. Jim Murphy: Eleven UK-based officials are posted to our embassy in Pristina. All are Foreign and Commonwealth Office staff. There are currently no posts unfilled.

Kosovo: Overseas Aid

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs in which areas the government of the Republic of Kosovo has requested assistance from his Department in the last 12 months. [219656]

Mr. Jim Murphy: We are in regular contact with the government of Kosovo, both bilaterally through our embassy in Pristina and in appropriate multilateral

forums. We have provided extensive advice and assistance on a range of issues over the last 12 months including in areas such as Government accountability, international co-operation and co-ordination, rule of law, stability and conflict prevention, and jobs and growth. We continue to support the Government of Kosovo they build the strong institutions it will need to achieve the stability and prosperity all her people deserve.

Kosovo: Politics and Government

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs how many British personnel are seconded to or otherwise engaged with *(a)* UNMIK, *(b)* EULEX, *(c)* ICO and *(d)* each other international body in Kosovo; and what role each is undertaking. [219653]

Mr. Jim Murphy: As of July 2008,46 UK police officers were serving with the UN Mission in Kosovo (UNMIK). 24 contracted UK staff members were serving with UNMTK and performing the following roles:

2 international prosecutors;
senior legal officer;
legal officer;
court recorder;
Head of the Penal Management Division;
senior Civil Affairs officer;
2 Civil Affairs officers;
Chief telecommunications engineer;
Political Affairs officer;
Operations officer;
Public Information officer;
Outreach officer;
Five security officers;
Interpreter / Translator;
Chief of Administrative Services;
Acting Chief;
Support officer; and
Secretary.

27 UK police officers will transfer from UNMIK to the EU Rule of Law Mission in Kosovo (EULEX) where they will be joined by another six officers. As at July 2008,

there were 18 seconded and 33 contracted UK staff members serving with EULEX.

The seconded staff had the following roles:

Deputy Head of EULEX;
Chief Reporting officer;
Anti-Corruption expert;
Security, Economic Management / Penal Administration expert;
Customs Law Enforcement advisor;
Senior Security Information analyst;
Police Liaison officer (Brussels-based);
Legal Advisor, Legal Policy and Legislation Unit;
Criminal Judge, District Court;
Legal officer, District Court;
3 Court recorders;
Deputy Chief Programme manager;
Programme manager;
Public Outreach officer;
Policy officer; and
International secretary to the Head of EULEX.

We do not hold details of the roles performed by contracted UK staff.

There were three seconded and one contracted UK staff members serving with the International Civilian Office (ICO) and performing the roles below at the time:

Head of the ICO's Mitrovica office;
Head of the Press and Public Affairs Division;
EU Co-ordinator and Political Adviser to the EU Special Representative (Brussels-based); and
Human Resources officer.

As of July 2008, there was one seconded UK staff member serving with the Organisation for Security and Co-operation in Europe Mission in Kosovo (OMIK) as Head of the Regional Centre to OMIK in Mitrovica.

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what the legal basis is of the *(a)* UNMIK, *(b)* EULEX and (c) ICO missions in Kosovo; and how long each lasts. [219654]

Mr. Jim Murphy: UN Security Council Resolution (UNSCR) 1244 (1999) authorises the UN Secretary-General, with the assistance of relevant international organisations, to establish an international civilian presence in Kosovo and authorises that presence to maintain civil law and order, including through the deployment of international police personnel. The UN Mission in Kososvo (UNMIK) continues to operate under this legal basis. The provisions of UNSCR 1244 (1999) remain in place until the Security Council decides otherwise.

The EU Rule of Law Mission (EULEX) has deployed to Kosovo in response to an invitation from the Government in Kosovo for a police and rule of law mission in accordance with the UN Special Envoy's Comprehensive Settlement Proposal. EULEX is established under Title V of the Treaty on European Union. In co-operation with UNMIK, EULEX will take on part of the role envisaged in UNSCR 1244 (1999) for the international civilian presence and it accordingly also draws upon the authority of that resolution. The European Council's Joint Action 2008/124/CFSP of 4 February 2008, which established EULEX, states that the European Council shall evaluate, not later than six months after the start of the operational phase, whether EULEX should be extended.

The International Civilian Office (ICO) operates on the basis of an invitation from the Government of Kosovo in accordance with the UN Special Envoy's Comprehensive Settlement Proposal. The Proposal provides for a review of the ICO's operations after two years.

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's policy objectives are for its engagement with the Republic of Kosovo. [219655]

Mr. Jim Murphy: The Foreign and Commonwealth Office's overall policy objective is a stable, prosperous, multi-ethnic and democratic Kosovo committed to the rule of law, which has implemented the UN Special Envoy's Comprehensive Settlement Proposal and is making progress towards the EU and the North Atlantic Treaty Organisation.

Kosovo: Recognition of States

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs how many countries have recognised the Republic of Kosovo; and what steps he is taking to assist the Government of Kosovo to increase the number. [219650]

Mr. Jim Murphy: At the time of writing 43 countries have recognised the Republic of Kosovo, including 20 in the EU and seven of the Group of Eight leading industrialised nations (G8). The UK is taking opportunities as they arise in bilateral discussions and multilateral forums, working closely with like-minded international partners and alongside the Government of Kosovo, to encourage further recognition.

Languages

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what budget allocation his Department has made for language training for its staff in 2008-09. [215288]

David Miliband: The budget allocation for language training for staff in 2008-09 is £4,030,000.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Answer of 18 June 2008, *Official Report*, columns 924-5W, on languages, how many of those employed by his Department, other than those engaged locally, have *(a)* received training and *(b)* held a qualification in Dari or Pashto; and if he will make a statement. [215292]

David Miliband: Since April 2005, 34 members of staff of the Foreign and Commonwealth Office (FCO) have received language training in Dari or Pashto. As at July 2008, seven FCO staff were receiving language training in Dari or Pashto. This covers all job slots currently identified as requiring the need to speak Dari or Pashto. All other staff use locally engaged translators when required.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 18 June 2008, *Official Report*, columns 924-5W, on languages, how many of those employed by his Department, other than those engaged locally, are receiving language training in *(a)* Arabic, *(b)* Farsi, *(c)* Dari or Pashto, *(d)* Mandarin, *(e)* Swahili and *(f)* Japanese. [215293]

David Miliband: The following table shows the total number of Foreign and Commonwealth Office staff receiving language training in June 2008 in the specified languages:

Language	*Number of staff receiving language training*
Arabic	31
Farsi	8
Dari or Pashto	7
Mandarin	16
Swahili	2
Japanese	10

Middle East: Peace Negotiations

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent steps the Government have taken to assist the peace process between Israel and Palestine; and what recent discussions he has had with the Israeli and Palestinian Governments on the matter. [220628]

Dr. Howells *[holding answer 21 July 2008]:* The UK provides strong political support to the peace process urging both sides to negotiate towards a two-state solution and to put a stop to their actions which undermine it. In particular, we urge the parties to address the restrictions that Israel imposes on the movement and access of Palestinians and the ongoing violent attacks perpetrated by Palestinian militants against Israel.

My right hon. Friends the Prime Minister and the Foreign Secretary have visited the region recently and we are in frequent contact with both authorities in order to do what we can to encourage a robust peace resolution.

We also provide assistance to the Palestinian Authority to develop their governance structures, economy and security efforts. A viable economy and a reliable security force are the integral foundations of any future Palestinian state.

Nigeria: Armed Conflict

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has made proposals for the instigation of peace talks in the Niger Delta in Nigeria; and what representations he has received from human rights organisations on this matter. [221456]

Meg Munn: The Government stand ready to support the Government of Nigeria in their peace initiatives for the Niger Delta region. In a meeting with my right hon. Friend the Prime Minister on 16 July, President Yar'Adua confirmed his commitment to a peace process that will address the need for reconciliation between all parties and deliver improved development across the region. Addressing the underlying causes of the crisis in the Niger Delta, namely poor governance, instability and underdevelopment, will be vital to the success of the peace process. The UK encourages the Nigerian Government to address the situation in the Niger Delta as a priority and urges all parties to engage in peaceful dialogue towards the resolution of the crisis.

Officials from our high commission in Abuja regularly talk to Nigerian and international human rights organisations on a range of topics including the Niger Delta. The UK keeps a close watch on human rights abuses in Nigeria and regularly raises specific issues with the Nigerian Government.

Nigeria: Oil

John Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the effects of militant attacks in Nigeria on overall Nigerian oil output; and if he will make a statement. [220772]

Meg Munn: Following discussions with Nigerian authorities and oil companies, officials from our high commission in Abuja estimate that Nigerian short-term production capacity stands at 2.6 million barrels per day, with the potential to rise to 4 million barrels per day. However, production has recently dropped to approximately 1.5 million barrels per day. Not all of this shortfall can be attributed to security concerns. A proportion is due to under-investment by the Federal government in existing oil exploration and production projects. This shortfall in production has consequences for the international oil markets and for the Nigerian and global economies, particularly in the context of high oil prices.

My right hon. Friend the Prime Minister met President Yar'Adua on 16 July in Downing street. In a joint-statement, he expressed his support of the Nigerian Government in their peace initiatives. He committed to working with the Government of Nigeria to identify training and advisory support which would help to improve the Nigerian capability to provide security in the Niger Delta and to support longer-term development measures.

Occupied Territories: Housing

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs following the EU's calls to freeze all settlement activity and dismantle outposts erected since March 2001, how many such outposts have been dismantled; what deadline was given to Israel for compliance; and what steps will be taken in circumstances of continued settlement growth. [220241]

Dr. Howells: The deadline, as set out in phase 1 of the Roadmap, to freeze all settlement activity was May 2003. We do not hold figures on the number of outposts that have been dismantled. The Israeli withdrawal from Gaza involved the removal of the Israeli settlements and outposts there, but settlements continue to expand in the West Bank. We have repeatedly called on all parties to meet their Roadmap obligations and support the Annapolis negotiations as the best opportunity to move towards a two-state solution.

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of homes which have been built in settlements since the EU's initial call for a halt to Israeli settlement growth. [220243]

Dr. Howells: We do not keep a breakdown of the number of housing units which are built in settlements.

However, we are very concerned that there have been a number of new housing tenders issued for illegal Israeli settlements in East Jerusalem and the West Bank since the Annapolis Conference in November 2007. We continue to make clear to the Israeli Government that we view all Israeli settlements in the occupied Palestinian Territories, including the West Bank and East Jerusalem, as illegal under international law. My right hon. Friend the Prime Minister reiterated our policy on settlements when he addressed the Israeli Knesset on 21 July.

Mr. Breed: To ask the Secretary of State for Foreign and Commonwealth Affairs what public statements he has made on Israeli settlement expansion since the Annapolis peace conference; and which of these related to settlement growth on the Golan Heights. [221700]

Dr. Howells: The UK continues to make clear that all Israeli settlements in occupied territory are illegal under international law. On 24 June 2008, *Official Report*, column 140, my right hon. Friend the Foreign Secretary told the House that

> "I have made the Government's position clear from this Dispatch Box on many occasions: the requirement on all sides to live up to their Roadmap commitments does indeed apply to all sides. The Israeli commitment in respect of settlements needs to be honoured".

My right hon. Friend the Prime Minister spelt this out very clearly during his visit to the region and made clear, including in a speech to the Israeli Knesset on 21 July, that we want to see an immediate freeze of settlement activity and indeed withdrawal from them.

The Government support the resolution of the Golan Heights issue in the context of a peace deal between Syria and Israel. In this context, we are encouraged by reports of indirect talks between Syria and Israel. Syria still has more to do, however, to support the peace process, including ceasing its support for Palestinian terrorist groups.

Pakistan: Christianity

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the government of Pakistan on reports of the abduction of Christian women and their forced conversions to Islam. [221457]

Dr. Howells: The UK supports freedom of religion and condemns instances where individuals are persecuted or exploited because of their faith. With our EU partners, we raised our concerns over the situation of religious minorities in Pakistan in July.

Rendition

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the statement of 21 February 2008, *Official Report*, columns 547-48, on terrorist suspects (renditions), what status the two planes carrying the detainees had when they refuelled at the US facility in Diego Garcia. [215869]

David Miliband: As indicated in my written ministerial statement to the House on 3 July 2008, *Official Report*, columns 58-59WS, the US considers these to be intelligence flights.

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the statement of 21 February 2008, *Official Report*, columns 547-48, on terrorist suspects (renditions), what the *(a)* name, *(b)* nationality and *(c)* current status of each of the two detainees is. [215870]

David Miliband: As I set out in my statement to the House on 21 February 2008, *Official Report*, columns 547-48, the US Government have told us that neither of the individuals was a British national or a British resident. They have informed us that one of the individuals is currently detained in Guantanamo Bay and that the other has been released.

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the statement of 21 February 2008, *Official Report*, columns 547-48, on terrorist suspects (renditions), whether there is an official log of the landing times and take-off times of the two planes carrying detainees. [215871]

David Miliband: Records on flight departures and arrivals on Diego Garcia are generally held for a period of between three and five years by the Island authorities for administration purposes. There are no flight records still held by the Island authorities that cover the period when the two cases of rendition occurred.

Saudi Arabia: Prisoners

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Saudi Arabia on the case of Muhammad Geloo, detained without charge in Saudi Arabia; what progress has been made in securing Mr. Geloo's release; what contacts British consular officials have had with Mr. Geloo during his detention; what reports on the case he has received from HM Ambassador to Saudi Arabia; what steps he has taken in response to reports that Mr. Geloo has been tortured during his detention; when he expects Mr. Geloo's case to be heard before a court; and if he will visit Saudi Arabia to discuss Mr. Geloo's case with the Saudi Government. [220877]

Dr. Howells: We have made regular representations to the Government of Saudi Arabia, including by our ambassador in Riyadh, regarding the fact that Mr. Geloo has been held without charge. We will continue to do so. My right hon. Friend the Foreign Secretary raised this case during his trip to Saudi Arabia on 22 April. The Saudi authorities have told us that they intend to charge Mr. Geloo and that they are operating within Saudi law. We do not know when Mr. Geloo's case is expected to be heard before a court.

We are in regular contact with Mr. Geloo and his family and are providing them with appropriate consular assistance.

The Foreign and Commonwealth Office's role in cases of British nationals detained overseas is one of welfare. We cannot comment on the veracity of any charges brought against British nationals overseas and we are unable to interfere in the judicial processes of another country. Our own processes are similarly protected. We take allegations about torture very seriously. With the individual's permission, we can take up any justified complaint about ill treatment, personal safety or discrimination with the authorities in question.

Somalia: Armed Conflict

John Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs what meetings his Department has held with Somali officials on the recent military attacks on the parliament town of Baidoa; and if he will make a statement. [220778]

Meg Munn: The Foreign and Commonwealth Office (FCO) has not had contact with Somali officials specifically about the attacks on Baidoa.

The FCO is fully engaged with the Somali Transitional Federal Government on matters of political progress and welcomes the agreement reached in Djibouti on 9 June, between the Transitional Federal Government and the Alliance for the Re-Liberation of Somalia. The UK will make all efforts to support the Special Representative of the UN Secretary-General towards ensuring that the Djibouti Agreement is implemented. This stands the greatest chance of resulting in long-term security and stability and improving the lives of ordinary Somalis.

Somalia: Conflict Prevention

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what conflict resolution projects the UK is supporting in Somalia under the Africa Conflict Prevention Pool. [216301]

David Miliband: The Africa Programme of the Conflict Prevention Pool (CPP) has allocated £2 million to support conflict prevention and peace-building activities in Somalia in the current financial year 2008-09. This includes direct support to civil society organisations engaged in conflict resolution and peace-building and strengthening the political process facilitated by the UN. CPP funding has also been allocated to support a joint donor approach to building and reforming Somali security capacity.

South Africa: Chemical and Biological Warfare

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 12 May 2008, *Official Report*, column 1403W, on South Africa: chemical and biological welfare, for what reasons he is unable to confirm or deny details of evidence considered during his Department's investigations into South Africa's Project Coast; and if he will place in the Library the evidence considered in the course of the UK investigations. [220847]

Meg Munn: UK investigations carried out following allegations of assistance to South Africa's Project Coast were thorough and drew on a variety of sources, including evidence given to the Truth and Reconciliation Committee. The sensitivity of some of these sources precludes the provision of further details.

Sri Lanka: Politics and Government

John Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the causes of the escalation in violence between the Sri Lankan Government and the Tamil Tigers; and if he will make a statement. [220717]

Dr. Howells: In our view, the substantial threat which Sri Lanka faces from domestic terrorism and the Sri Lankan Government's abrogation of the 2002 Ceasefire Agreement, in favour of a policy of military suppression of terrorism, have been major contributory factors to the current levels of violence. The UK's view is that military action alone cannot resolve the conflict; the violence is too high a price for the people of Sri Lanka. Inclusive political negotiations need to take place for a just settlement that can satisfy the legitimate aspirations of all communities in Sri Lanka and promote democracy, stability and the observance of internationally accepted human rights principles.

During his visit to Sri Lanka, my noble Friend the Minister for Africa, Asia and the UN, Lord Malloch-Brown, reiterated the UK's concerns to the Sri Lankan Government.

Terrorism: Victim Support Schemes

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department has taken to inform the public that Exceptional Assistance Measures for terrorist incidents overseas will not be available to UK citizens travelling abroad without travel insurance. [209378]

David Miliband: The Foreign and Commonwealth Office (FCO) website has been updated and a new version of the publication 'Support for British Nationals Abroad: A Guide' will reflect these policy changes.

We will continue to work with our partners through the 'Know Before You Go' campaign. This is a joint venture with the travel industry aimed at ensuring British travellers are better prepared when they go overseas, to ensure that the public are fully aware of the need to take out comprehensive travel insurance.

For further information on Exceptional Assistance Measures, I refer the right hon. Member to my hon. Friend the Parliamentary Under-Secretary of State's written ministerial statement of 2 June 2008, *Official Report*, column 41WS.

The level of support that might be required if the Exceptional Assistance Measures are activated will be determined by the particular circumstances of the incident, and for this reason the measures remain flexible. Under the measures, the FCO can provide immediate support to British nationals in the country where the incident occurred and to assist their return to the UK, but often victims of major incidents overseas, or their families, need ongoing help after they return to the UK. To address this we have a working agreement with the Humanitarian Assistance Unit in the Department for Culture, Media and Sport, who will work with the relevant agencies and services to help victims and their families access the ongoing support they need.

Tibet: Politics and Government

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Chinese Government encouraging that government to participate fully in the eighth round of talks between its representatives and those of the Dalai Lama. [220602]

Meg Munn: We have consistently emphasised to the Chinese Government, both in Beijing and London, that the political difficulties in Tibet can best be resolved through dialogue between the Chinese Government and the representatives of the Dalai Lama. My right hon. Friend the Foreign Secretary did this when he met the Chinese Foreign Minister on 12 June. We are pleased that the two sides have restarted the process of dialogue, meeting in Shenzhen in May and again in Beijing from 1-2 July. We look forward to the eighth round of talks taking place as soon as possible and hope this will lead to substantive progress on the issues involved.

Turks and Caicos Islands: Politics and Government

Mr. Austin Mitchell: To ask the Secretary of State for Foreign and Commonwealth Affairs what fiduciary risk assessment he has undertaken of the debts and liabilities of the Government of the Turks and Caicos Islands. [220832]

Meg Munn: The Foreign and Commonwealth Office carries out an annual economic review of the Turks and Caicos Islands, along with a number of other overseas territories. This assesses the state of the public finances, including the ability of the government to service its debt. The most recent review expressed concerns about the public finances, which I have communicated to the government, saying that improvements need to be made. In addition, the Turks and Caicos Islands also has an independent chief auditor, appointed by the Governor. Accounts are audited in accordance with local ordinance and laid before the House of Assembly. Audit reports, some of which have been critical of the Government, are discussed by the Turks and Caicos Islands public accounts committee.

Mr. Austin Mitchell: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment has been made of *(a)* the budget of the Turks and Caicos Islands and *(b)* the sustainability of the (i) current debt, (ii) fiscal claims and (iii) contingent liabilities in respect of the Islands' administration. [220834]

Meg Munn: The Turks and Caicos Islands constitution allows its government to set its own annual budget. The 2008-09 budget was presented to the House of Assembly in April this year and was debated over a number of days before it was passed. The UK does not interfere in the budgetary process but has agreed borrowing guidelines with the Turks and Caicos Islands Government, which limit the level of debt that it can incur.

We do have concerns about the sustainability of the level of Government debt, including particularly the level of reserve funds, and I have made this clear to the Turks and Caicos Islands Government. I have stressed to the Government the importance of improving their public financial management and rebuilding its reserves before any additional borrowing can be permitted. We have also encouraged the Government to act on the findings of their own audit reports, which include recommendations on fiscal claims.

Venezuela: Drugs

Lady Hermon: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Government of Venezuela on international drug trafficking. [220054]

Dr. Howells: The former Minister of State for Latin America, my noble Friend Lord Triesman, held useful discussions with the Venezuelan Minister for Europe in June 2007 on the importance of tackling together the flow of cocaine through Venezuela. I held discussions on the issue during my visit to Venezuela in October 2006.

Officials from our embassy in Caracas, including our ambassador, continue to hold discussions with Venezuelan interlocutors to explore how our Governments can work together to reduce the harm caused to both countries by drug trafficking, along the lines of the informal UK-Venezuela bilateral action plan signed in June 2007.

Western Sahara: Politics and Government

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to oppose any further enhancement of Morocco's relationship with the EU until it complies with its obligations under UN Security Council resolutions in respect of the Western Sahara, with particular reference to the organisation of a referendum on the territory's status. [221601]

Dr. Howells: The UK welcomes closer co-operation between the EU and Morocco, including the proposal for an Advanced Status Agreement currently under discussion between EU member states, the EU Commission and Morocco. The Agreement will provide for enhanced dialogue and practical co-operation on economic and commercial issues, justice and security, regional co-operation, cultural and educational co-operation and human rights. The UK supports this and the prospect of greater co-operation on a range of human rights issues, including elections, access to justice, women's rights and the role of local human rights non-governmental organisations, as envisaged by the Agreement.

The UK continues to believe that progress towards a negotiated solution to the dispute in Western Sahara providing for the self-determination of the people of Western Sahara, is best achieved under the auspices of the UN. To this end and in accordance with UN Security Council Resolution (1813) of 30 April, the UK fully supports the efforts of the UN Secretary-General and his Personal Envoy to the Western Sahara, Peter van Walsum, and the negotiation process currently under way.

Zimbabwe: Embassies

Mr. Pickles: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 26 June 2008, *Official Report*, column 34WS, on diplomatic missions (non-domestic rates), what steps he is taking to ensure the payment of a business rates contribution by the Zimbabwean Government. [221272]

Meg Munn: The Valuation Agency (VOA) of HM Revenue and Customs is responsible for billing and collection of National Non Domestic Rates (NNDR). We continue to work with the VOA to press all diplomatic missions to pay their NNDR bills. The VOA issued an updated statement to the embassy of Zimbabwe on 8 July requesting that the embassy pay the sums due, which amounted to £79,883.28.

Zimbabwe: Foreign Relations

Dr. Kumar: To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's policy is on relations with Zimbabwe following the re-election of Robert Mugabe. [219852]

Meg Munn: We maintain diplomatic relations with the Government of Zimbabwe and use them to encourage positive policy change on the ground and to provide a consular service to the British community. The people of Zimbabwe clearly indicated on 29 March that they wish for a change of Government and President and we look forward to improved relations when that change comes.

Zimbabwe: Overseas Students

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs how many dependants of Zimbabwean officials subject to EU sanctions are *(a)* studying and *(b)* resident in the UK. [220681]

David Miliband *[holding answer 21 July 2008]:* We continue to gather information on those dependants who might be present in the UK. At the end of 2007 we had identified some 20 dependants, of which about half were believed to be studying. It is worth noting that some are British citizens and/or minors.

Written Answers to Questions

The following answers were received between Monday 15 September and Tuesday 16 September 2008

COMMUNITIES AND LOCAL GOVERNMENT

Antisocial Behaviour

James Brokenshire: To ask the Secretary of State for Communities and Local Government how many anti-social behaviour injunctions have been issued since April 2007. [224099]

Mr. Dhanda: Social landlords (including local authorities and registered social landlords) can apply for injunctions to tackle antisocial behaviour under the Housing Act 1996. These are commonly known as antisocial behaviour injunctions. Using their powers under the Local Government Act 1972, local authorities may also apply to the civil courts for injunctions to restrain antisocial behaviour that constitutes a public nuisance.

Large registered social landlords (those owning and/or managing 1,000 or more units/bedspaces) successfully applied for 1,319 antisocial behaviour injunctions from April 2007 to March 2008. These figures were collected by the Housing Corporation. Figures for smaller registered social landlords are not available.

The Department has asked local authorities to submit information for 2007-08 on antisocial behaviour injunctions and those injunctions available to them under the Local Government Act 1972. These figures are not yet available.

Departmental Expenditure

Mr. Timpson: To ask the Secretary of State for Communities and Local Government with reference to Annex B, Table 1 of her Department's annual report 2008, what proportion of the provision recorded as unallocated for *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11 has now been allocated. [224037]

Mr. Dhanda: None. Any changes involving proposed use of Departmental Unallocated Provision for 2008-09 will be included in the Department's Winter or Spring Supplementary Estimates and accompanying Ministerial Statements to the House. As yet, none of the 2009-10 and 2010-11 allocations have been allocated to a programme.

Housing: Floods

Mr. Peter Ainsworth: To ask the Secretary of State for Communities and Local Government what estimate her Department has made of *(a)* the number of households displaced and *(b)* the amount of uninsured losses caused by the recent flooding, broken down by local authority area. [224198]

John Healey: An assessment of the impact of the recent flooding is still being made and it is too early, at this stage, to assess how many households will be out of their homes for a significant period. Information by area is not available but in Morpeth, the worst affected area, it was estimated that around 500 residents attended the emergency rest centres. The information needed to assess the level of uninsured losses could only be gathered at disproportionate cost.

Local Authorities: Complaints

Dan Rogerson: To ask the Secretary of State for Communities and Local Government how many complaints the Standards Board for England has investigated in each of the last 10 years; and what the *(a)* outcome of the investigation and *(b)* consequent action taken was in each case. [224269]

Mr. Dhanda: The Standards Board for England came into existence in 2001 and its first full year of operation was 2002-03. The following tables show the number of investigations dealt with per financial year and the outcomes of those investigations, and the consequent action taken in each case.

Number of investigations and their outcome

Investigation findings	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
No evidence of breach	114	154	310	119	128	73
No further action	211	462	947	459	182	126
No further action taken as there was no power to refer a matter locally	30	n/a	n/a	n/a	n/a	n/a
Referred to local authority standards committee	n/a	58	78	66	12	15
Referred to Adjudication Panel for England	[1]109	87	111	94	9	8
Direction to monitoring officer for other action	n/a	n/a	0	12	46	71
Total cases	466	761	1,446	750	377	364

[1] One of which was an interim report

Consequent action

Sanctions	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
No breach	1	6	12	15	6	2
Censure	—	18	26	18	—	1
Suspension and training	—	—	—	—	1	2

	Consequent action					
Sanctions	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
Suspension	1	39	53	49	5	7
Suspension and censure	—	—	—	—	—	2
Censure and training	—	—	—	—	—	1
Suspension and apology	—	—	—	—	—	1
Suspension or apology/training	—	—	—	—	2	—
Suspension, training and apology	—	—	—	—	—	—
Censure, training and apology	—	—	—	—	—	—
No further action	1	7	15	29	5	—
Partial suspension	—	1	—	3	—	—
Partial suspension, training and apology	—	—	—	—	1	—
Partial suspension, training, apology and censure	—	—	—	—	1	—
Suspension, training and censure	—	—	—	—	—	—
Training	—	—	—	—	1	1
Apology	—	—	—	—	—	—
Apology and training	—	—	—	—	2	—
Withdrawn/other	—	1	—	1	—	—
Disqualified	27	97	25	31	6	7

This table reflects that in some cases the investigation and subsequent action were in different financial years, and that for some cases there were two or more consequent actions taken.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Communities and Local Government when she will answer the letter of 4 August 2008 from the right hon. Member for Manchester, Gorton, with regard to Rev David Gray. [224119]

Mr. Dhanda: The Secretary of State has now replied to my right hon. Friend.

Planning: South East

Anne Milton: To ask the Secretary of State for Communities and Local Government if she will make it her policy to ensure that responses to the current South East Plan consultation made in writing but not on an official Government Office for the South East response form will be fully considered as part of the consultation process. [224242]

Mr. Dhanda: We have set up a consultation portal

http://gose.limehouse.co.uk/portal

in order to make it easier for people to respond electronically. However, we will, of course, consider written representation whether using the comments form or not.

Repossession Orders

Ms Keeble: To ask the Secretary of State for Communities and Local Government how many homes were repossessed *(a)* in each local housing authority area and *(b)* nationwide in each of the last four quarters for which figures are available. [224110]

Mr. Dhanda: There are two independent sources of data on actual numbers of mortgage possessions, the Council of Mortgage Lenders and the Financial Services Authority. However, both are only available for the United Kingdom as a whole.

The Council of Mortgage Lenders data is available on its website at

http://www.cml.org.Uk/cml/filegrab/3AP4.xls?ref=2753

The Financial Services Authority data is available on its website at

http://www.fsa.gov.uk/pages/Doing/Regulated/Returns/IRR/statistics/

Respite Care

Mr. Harper: To ask the Secretary of State for Communities and Local Government what information is collected by local authorities on the number and percentage of disabled children in each locality accessing short breaks services; what analysis her Department has made of such data; and if she will make a statement. [224093]

Kevin Brennan: I have been asked to reply.

Although local authority data on disabled children's access to short break services is not currently available, the Department for Children, Schools and Families has asked authorities to begin to collect this data as part of the Children in Need (CIN) Census. The first CIN Census is a child-level data collection that will run from 1 October 2008 to 31 March 2009. Data will be submitted to the Department by the end of June 2009 and published in autumn 2009. Figures on the number of children accessing short breaks will then be provided through the CIN Census on an annual basis for each financial year from 2009-10 onwards.

For a limited period beginning in April 2009, the DCSF will also monitor local authority progress in growing short break services through complementary information collected as part of the Aiming High for Disabled Children delivery programme.

Standards Board for England: Finance

Dan Rogerson: To ask the Secretary of State for Communities and Local Government what the *(a)* administration costs and *(b)* average costs per case for the Standards Board for England were in each of the last 10 years. [224270]

Mr. Dhanda: Average costs per case are shown in the following table.

	£
2004-05	6,492
2005-06	6,380
2006-07	6,765
2007-08	11,817

The Standards Board does not disaggregate administration costs, which are included in the figures.

HEALTH

Allotments

Ben Chapman: To ask the Secretary of State for Health what assessment he has made of the public health effects of people maintaining allotments. [224034]

Mr. Bradshaw: No specific considerations have been given to the health benefits of maintaining an allotment, but cultivating an allotment represents a rewarding opportunity for building physical activity into everyday life for those seeking an alternative to sport or other structured exercise. There is also evidence that exercising in a natural environment can bring additional benefits for health and wellbeing.

There is also value in children growing their own food and recognising where food comes from as a real incentive to eating their Five a Day.

Colorectal Cancer: Screening

Mr. Baron: To ask the Secretary of State for Health in which areas of England bowel cancer screening has not yet commenced. [224206]

Mr. Bradshaw: We are continuing to roll out the National Health Service Bowel Cancer Screening Programme and expect it to be fully implemented by December 2009. The following table lists the remaining primary care trusts where bowel cancer screening will commence in the final roll out.

Strategic health authority	*Primary care trust*
East Midlands	Lincolnshire
East of England	Luton
East of England	South East Essex
East of England	Bedfordshire
East of England	Peterborough
East of England	West Essex
East of England	North East Essex
East of England	Mid Essex
East of England	South West Essex
London	Bromley
London	Bexley Care Trust
London	Havering
North West	Blackburn with Darwen
North West	Stockport
North West	Tameside and Glossop
North West	East Lancashire
North West	Trafford
South Central	Oxfordshire
South Central	Isle of Wight
South Central	Milton Keynes
South Central	Buckinghamshire
South East Coast	Brighton and Hove City
South East Coast	Surrey
South East Coast	East Sussex Downs and Weald
South East Coast	Hastings and Rother
South East Coast	Eastern and Coastal Kent
South East Coast	Medway
South East Coast	West Kent
South West	Bath and North East Somerset
South West	Swindon
South West	Wiltshire
South West	Cornwall and Isles of Scilly
South West	South Gloucestershire
South West	North Somerset
South West	Bristol
West Midlands	Telford and Wrekin
West Midlands	Herefordshire
West Midlands	South Birmingham
West Midlands	Shropshire County
West Midlands	Worcestershire
Yorkshire and the Humber	Wakefield District
Yorkshire and the Humber	Calderdale
Yorkshire and the Humber	Leeds
Yorkshire and the Humber	Kirklees

Dementia: Expenditure

Tim Farron: To ask the Secretary of State for Health how much expenditure his Department allocated to services for people with dementia-related illnesses resident in *(a)* Westmorland and Lonsdale, *(b)* Morecombe Bay Primary Care Trust area, *(c)* the North West region and *(d)* England in each of the last five years. [224038]

Mr. Bradshaw: This information is not held centrally.

Disabled Children

Mr. Harper: To ask the Secretary of State for Health what information is gathered by primary care trusts on the number and percentage of disabled children in each catchment area accessing universal and specialist services; what collation of such information his Department has undertaken; and if he will make a statement. [224092]

Mr. Bradshaw: This information is not available centrally. However, as part of the Public Service Agreement on the health and wellbeing of children, a disability indicator is being developed. This will be measured at local level from 2009-10.

Eyesight: Voucher Schemes

Mr. Baron: To ask the Secretary of State for Health for what reasons NHS optical vouchers cannot be issued following a private sight test. [224205]

Mr. Bradshaw: National health service optical vouchers provide access to public funds and can only be issued following an NHS funded sight test. Optometrists and ophthalmic medical practitioners who conduct NHS funded sight tests must be approved and included on a primary care trust (PCT) performers list. As part of that approved role, they will also issue NHS optical vouchers.

The issuing of an optical voucher, following an NHS sight test by practitioners on a PCT performers list, provides protection to ensure that public funds are properly spent and vouchers issued appropriately, and provides a system of accountability to the NHS. If there is evidence of malpractice, the NHS can take steps against the practitioner, including if necessary, removing them from the performers list, which would prevent them for carrying out NHS funded sight tests and issuing optical vouchers. PCTs do not have the same remedies available in the case of private practitioners.

Health Services: Finance

Jeremy Wright: To ask the Secretary of State for Health (1) what the average cost was of a visit to a patient by the out of hours service in the latest period for which figures are available; [223418]

(2) what the average cost was of a consultation by the out of hours service in the latest period for which figures are available; [223419]

(3) what the average cost of an out of hours service telephone call providing advice or guidance was in the latest period for which figures are available. [223420]

Mr. Bradshaw: The information requested is not held by the Department.

Primary care trusts (PCTs) now have a legal responsibility to ensure they provide, or secure provision of a high-quality, sustainable service for their local population. Therefore, it is the responsibility of PCTs to performance-manage the provision of out of hours service.

Measles: Vaccination

Harry Cohen: To ask the Secretary of State for Health what assessment he has made of the effects of the level of immunisation against measles in east London; whether he plans to promote a programme for greater immunisation amongst those deemed most vulnerable; whether a separate measles vaccination is provided in circumstances in which parents prefer that option; what recent representations his Department has received on the computer system used to manage immunisation records; and if he will make a statement. [223995]

Mr. Bradshaw: Information on vaccination uptake levels by primary care trusts is published annually by the Information Centre (a copy of the most recent report 'NHS Immunisation Statistics, England: 2006-07' has already been placed in the Library). The Department is concerned about the low levels of MMR immunisation generally, and London in particular. In order to reduce the risk of measles outbreaks, an MMR catch-up campaign for England was launched on 6 August 2008. The letter from the Chief Medical Officer to primary care trusts details the priority groups that are most in need of the MMR immunisation.

The NHS does not recommend single measles, mumps or rubella vaccines because there is no evidence to support the use of single vaccines or to suggest that they are in any way "safer" than MMR. Every independent expert group around the world (including the World Health Organisation) supports the use of MMR, and none support the use of single vaccines.

The Department is an observer on the Child Health Board which is managing the implementation of the IT system that will replace Child Health Interim Application (CHIA) or London. London primary care trusts are represented on the board and can make representations regarding CHIA at this forum.

Medical Treatments: Lasers

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether the deregulation of class 3B and 4 lasers and intense-pulsed light equipment will require *(a)* primary and *(b)* secondary legislation. [224243]

Mr. Bradshaw: The regulation or deregulation of class 3B and 4 lasers and intense pulsed light equipment could be achieved using secondary legislation.

NHS Direct

Jeremy Wright: To ask the Secretary of State for Health what the average cost to his Department is of a telephone call to the NHS Direct line, including the cost of staffing and other overheads. [223422]

Mr. Bradshaw: The average cost of a telephone call to NHS Direct was £15.35 in 2007-08.

The figure is based on an average cost of all calls to NHS Direct, including calls to the 0845 4647 number, the Appointments Line and other services.

NHS: Finance

Mr. Stephen O'Brien: To ask the Secretary of State for Health what is the maximum debt that can be taken on by each *(a)* NHS trust and *(b)* NHS foundation trusts; and what each such trust's assets were at the latest date for which figures are available. [224241]

Mr. Bradshaw: When it is necessary for a national health service trust to borrow for capital investment or working capital, the level of borrowing is primarily determined by its ability to service the debt. To inform its decision the Department calculates prudential borrowing limits for each NHS trust using a similar basis to that applied by Monitor to NHS foundation trusts (NHSFTs) under its prudential borrowing code. However, for NHS trusts, the Department ultimately makes the decision about how much capital or working capital is required and the source of finance.

The following information in respect of NHS trusts has been placed in the Library:

Prudential borrowing limits relating to 2008-09 for NHS trusts based on 2007-08 annual accounts data; and

Total value of assets held at 31 March 2008 for NHS trusts in existence on that date.

The information requested in relation to NHSFTs is not held centrally and is a matter for individual organisations. However, the annual reports and accounts of NHSFTs are publicly available on Monitor's website

www.monitor-nhsft.gov.uk

The amount that NHSFTs can borrow is calculated in accordance with the Prudential borrowing code which is also available from Monitor. Individual borrowing limits have also been published by Monitor (the statutory name of which is the Independent Regulator of NHS Foundation Trusts) in "NHS Foundation Trusts: Review and Consolidated Accounts 2006-07". As at 31 March 2007, the long term borrowing limit for 59 NHSFTs amounted to £2.2 billion which is in addition to working capital facilities of £884 million. As at 31 March 2008, for 89 NHSFTs these amounts had increased to£3.2 billion and £1.2 billion respectively.

NHS: Intimidation

Mr. Stephen O'Brien: To ask the Secretary of State for Health what incidences of bullying of *(a)* NHS and *(b)* his Department's staff have been reported in the last 12 months. [224240]

Mr. Bradshaw: The Department does not collect data on specific incidences of bullying within the national health service; these are investigated at a local level.

However, information from staff is available from the NHS Staff survey. The survey is a key source of information relating to a range of workforce issues in the NHS and is undertaken annually. The results of the survey are used locally to drive improvement.

The 2007 NHS Staff survey shows that 18 per cent. of staff indicated that they had experienced harassment, bullying or abuse from other staff in the previous 12 months, while 26 per cent. of staff indicated that they had experienced harassment, bullying or abuse from patients or their relatives in the previous 12 months.

Following the NHS Staff survey results, the issue of harassment, bullying and abuse is one of the five key priorities that the National Social Partnership Forum (SPF) is taking forward. The SPF (employers, NHS trade unions and Department of Health working together on workforce issues) has sponsored work with NHS staff and managers to educate and train them to recognise, prevent and deal with bullying and harassment.

Within the Department, there have been five incidences of bullying reported in the last 12 months. This represents at most 0.2 per cent. of staff.

NHS: Northampton

Ms Keeble: To ask the Secretary of State for Health how much NHS spending there was in Northampton in each year between 1998 and 2008. [224111]

Mr. Bradshaw: The information is not available in the format requested. However, expenditure reported by the Northampton Teaching Primary Care Trust between 2002-03 and 2005-06 is shown in the following table.

	Expenditure (£000)
2002-03	175,926
2003-04	215,924
2004-05	229,430
2005-06	254,423

Notes:
1. The Department holds no accounts figures by individual national health service organisations prior to 2000-01. In 2000-01 and 2001-02, the majority of the expenditure within Northampton was by the Northamptonshire Health Authority. Therefore, expenditure solely within Northampton cannot be separately identified.
2. Northampton Teaching PCT was established on 1 April 2002 and dissolved on 30 September 2006. Northamptonshire Teaching PCT included expenditure from the Northampton Teaching PCT in 2006-07 in its accounts and therefore cannot be separately identified.
3. Northampton Teaching PCT was merged with the Northamptonshire Heartlands PCT and the Daventry and South Northamptonshire PCT in October 2006 to form the Northamptonshire Teaching PCT.
4. This does not include all NHS spending within the Northampton area, as the element of spending by the East Midlands Strategic Health Authority within Northampton cannot be identified.
5. General dental services expenditure was accounted for by the Dental Practice Board and not by the PCT. Audited figures for Northampton cannot therefore be supplied.
6. The majority of pharmaceutical services expenditure was accounted for by the Prescription Pricing Authority and not by the PCT. Audited figures for Northampton cannot therefore be supplied.
7. Owing to lead commissioning arrangements where the lead PCT commissions on behalf of other consortium members, figures may not be consistent over time.

Source:
Audited summarisation schedules of Northampton Teaching PCT for 2002-03 to 2005-06.

NHS: Standards

Mr. Oaten: To ask the Secretary of State for Health (1) if he will publish the targets set under the NHS efficiency index; [224031]

(2) whether the NHS efficiency target index is in operation. [224032]

Mr. Bradshaw: There is not a national health service efficiency target index. As part of the last Comprehensive Spending Review settlement, the NHS is committed to delivering, over the period 2008-09-2010-11, 3 per cent. year-on-year efficiency improvements, which are cash-releasing, sustained and net of costs. This equates to annual savings of over £8 billion by 2010-11. The Department described its approach to delivering these savings in its "Value for Money Delivery Agreement", published in December 2007, and will report publicly on progress, including in its autumn performance report.

Nutrition

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) pursuant to the answer of 26 June 2008, *Official Report*, columns 519-22W, on NHS: Personal Records, how many nutrition-related adverse incidents were recorded in each month between January 2005 and December 2007 in each primary care trust area; [224245]

(2) pursuant to the answer of 3 June 2008, *Official Report*, column 911W, on NHS: Personal Records, if he will place in the Library a copy of each of the reports of nutrition-related adverse incidents made in the last 30-day period for which such reports are available. [224246]

Mr. Bradshaw: Information about nutrition-related adverse incidents in each primary care trust area is not held by the Department. The National Patient Safety Agency's National Reporting and Learning System does not capture the primary care trust area of residence of the patient involved in an adverse incident. The strategic health authority (SHA) analysis, provided in the reply to the earlier question, is based on the SHA that each NHS trust is aligned to, but those catchment areas do not map readily to primary care trust boundaries.

Reports of nutrition-related adverse incidents are not held centrally.

Slaughterhouses

Mr. Paice: To ask the Secretary of State for Health how many abattoirs there were in England in each of the last 20 years, broken down by *(a)* county and *(b)* size. [224217]

Mr. Bradshaw: The information requested is in the following tables.

Table 1: Number of abattoirs in England 1996—2008 by county

County	*1996*	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*
Avon	4	4	4	4	4	4	3	2	2	2	2	2
Bedfordshire	4	4	4	4	3	3	3	3	3	3	3	3
Berkshire	2	2	3	2	4	4	4	3	3	3	3	3
Buckinghamshire	2	2	2	1	2	2	2	1	1	1	1	1
Cambridgeshire	4	4	3	3	3	3	3	3	3	3	3	3
Cheshire	17	17	17	17	16	16	15	15	13	13	13	12
Cleveland	8	8	9	8	6	6	4	4	4	4	4	4
Cornwall	14	13	14	14	13	13	13	13	12	13	13	11
County Durham	7	6	6	6	3	3	3	3	3	2	2	2
Cumbria	11	11	10	10	10	10	10	10	10	9	10	11
Derbyshire	23	23	24	23	20	19	13	13	13	13	13	12

2.One livestock unit equals:
One bovine
Seven pigs
20 sheep (over 18 kg)
450 poultry (less than 2 kg)

Warwickshire Primary Care Trust

Jeremy Wright: To ask the Secretary of State for Health how much was spent by Warwickshire Primary Care Trust on *(a)* district nurses and *(b)* management costs in 2007-08. [223421]

Mr. Bradshaw: Information on management cost data will be available from the 2007-08 audited accounts. However, this information will not be available until later in the autumn. Information on district nursing spending is not held centrally.

Worthing and Southlands Hospital Trust

Peter Bottomley: To ask the Secretary of State for Health in relation to the NHS IT system Cerner release zero introduced to the Worthing and Southlands Hospital Trust, what benefits were expected as a result of the introduction of the system; who initiated its introduction; whether the expected benefits have been realised; what estimate he has made of the cost of the introduction; who is responsible for negotiating with contractors for the support and upgrading of the system; and if he will make a statement. [224272]

Mr. Bradshaw: Cerner was selected as a subcontractor for the provision of secondary care systems across the South of England by the then national programme for information technology (NPfIT) local service provider (LSP), Fujitsu. Contracts with LSPs under NPfIT are held and negotiated by NHS Connecting for Health on behalf of the Secretary of State.

The R0 version was the first software release in a programme of continuing releases, in accordance with the aims of the NPfIT. R0 is therefore the first step towards a clinically rich, integrated system whose benefits will include, over time, a patient administration system with integration with other systems and sophisticated reporting; order communications and diagnostics reporting, including all pathology and radiology tests and tests ordered in primary care; and scheduling for beds, tests and theatres.

The Cerner product was introduced as part of the normal system deployment process managed by a joint team from Fujitsu and the strategic health authorities with the support of NHS Connecting for Health.

The cost to Fujitsu of local deployments is covered within the overall LSP contract value. Information on any separate local costs incurred by Worthing and Southlands Hospital Trust arising from the deployment is not held centrally. This is normally part of the local financial planning process and the benefits are identified in the business case, although it is not expected that the full benefits will be realised until subsequent releases have been implemented.

Responsibility for system support and software upgrading over the lifetime of the system lies with the LSP, and the cost is provided for in the LSP contract. Any additional or bespoke services requested by the trust are a matter between the trust and the LSP.

WORK AND PENSIONS

Children: Maintenance

Jenny Willott: To ask the Secretary of State for Work and Pensions for how many cases the Child Support Agency has paid HM Revenue and Customs for referrals and income disclosure in each year since 1993; and if he will make a statement. [214916]

Mr. Plaskitt: The administration of the Child Support Agency is the matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 17 September 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, for how many cases the Child Support Agency has paid HM Revenue and Customs for referrals and income disclosure in each year since 1993; and if he will make a statement. [214916]

Under the Service Level Agreement between the Child Support Agency and Her Majesty's Revenue and Customs (HMRC), the Agency makes referrals to HMRC for non resident parent trace and earnings information. An agreed charge against the Agency is made for each referral to cover HMRC expenditure.

Such information as is available is set out in the attached table, which shows separately the number of requests dealt with by HMRC where the Agency has made a request for information on the non-resident parent's income, and those made to trace the non-resident parent.

Neither the Agency nor HMRC hold any details of referrals prior to 2002. Data is not available in either organisation concerning trace enquiries prior to 2005.

[1] To date.
[2] Not available.

I hope you find this answer helpful.

Departmental Manpower

Chris Grayling: To ask the Secretary of State for Work and Pensions if he will place in the Library a copy of a list of non-executive directors employed by his Department, including the business units or areas of expertise for which they provide oversight and brief biographical information for each individual. [219499]

Mrs. McGuire: The information requested has been placed in the Library.

Departmental Public Participation

Mr. Hoban: To ask the Secretary of State for Work and Pensions what *(a)* listening exercises and *(b)* public forums his Department has held in each of the last two years; what the (i) purpose and (ii) cost was in each case; and who the private contractor was and how much it was paid in each case. [221341]

Mrs. McGuire: In the last two financial years, the DWP has conducted a number of public forums or listening exercises targeted specifically at the general public. Event management services were provided by private contractors for some of these. The information that is available is set out in the following table. Amounts paid to the external contractors in each case could be provided only at disproportionate cost.

As well as the public forums or listening exercises listed, DWP has engaged with a wide range of the public through online consultation and correspondence, and with stakeholder organisations.

Date	*Event purpose*	*Venue*	*Contractor*
10 January 2007	Raise awareness of the work of Equality 2025 and encourage disabled people to apply for the Northern Ireland representative's post.	Belfast City Council	Not applicable

Fuel Direct Scheme

Jenny Willott: To ask the Secretary of State for Work and Pensions (1) how many times the Fuel Direct option has been used by benefit recipients to pay their utility bills in each year since it was established; and if he will make a statement; [216066]

(2) how many benefit recipients have used the Fuel Direct option to pay their utility bills in each quarter since it was established; and if he will make a statement. [214927]

Mr. Plaskitt: The Fuel Direct scheme has been in existence for over 30 years. Historical information is not available prior to 1994. The available information for the number of income support, pension credit and jobseeker's allowance claimants with deductions being made for gas and/or electricity is in the following table.

Quarter ending	*Number of claimants with deductions for gas and electricity*
February 1994	301,700
May 1994	306,700
August 1994	305,200

Quarter ending	Number of claimants with deductions for gas and electricity
November 1994	294,500

Jobseeker's Allowance

Jenny Willott: To ask the Secretary of State for Work and Pensions how many new applications for jobseeker's allowance there were in each region in each month since January 2005; and if he will make a statement. [214965]

Mr. Plaskitt: The information has been placed in the Library.

National Insurance: Immigrants

Mr. Clappison: To ask the Secretary of State for Work and Pensions pursuant to the answer of 15 July 2008, *Official Report*, column 325W, on National Insurance: Immigrants, how many of the 3,275 cases in which the names or national insurance numbers (NINOs) given to the Security Industry Authority appeared to be false were cases in which a NINO was issued after the introduction of the right to work test in July 2006; how many of the 3,275 cased involved *(a)* a false name and *(b)* a false NINO; and what steps have been taken to prevent the issuing of NINOs on the basis of a false name since July 2006. [221208]

Mr. Timms *[holding answer 22 July 2008]:* None of the national insurance numbers provided to the SIA had been issued by the Department for Work and Pensions to the 3,275 individuals concerned. In 1,873 cases the NINO provided did exist on the Department's Customer Information System (CIS) but was registered to a different name. In 1,402 cases the number did not exist on CIS at all. Where a potential criminal offence has been committed, details have been passed to the Department for Work and Pensions Fraud Investigation Service for investigation and, where appropriate, prosecution.

It remains the legal responsibility of the employer to check that all their employees have the right to work in the United Kingdom. Employers have clear guidance on the documents they can accept as evidence of the right to work, and this does not include SIA licences or, in the absence of other specified documents, a national insurance number.

Since 2001, the Department for Work and Pensions has had in place rigorous identity checking and verification procedures for all national insurance number applicants. In 2007-08, 759 applications were refused owing to suspect documentation and led to 181 successful prosecutions. Over the same period, a further 5,114 refusals were made on the basis of the applicant's failing to provide sufficient evidence of identity.

New Deal for Long-Term Unemployed

Chris Grayling: To ask the Secretary of State for Work and Pensions how many and what proportion of New Deal participants went into the 25 plus categories *(a)* employment, *(b)* employment and benefits, *(c)* benefits—jobseeker's allowance, *(d)* benefits—income support, *(e)* benefits—incapacity benefit, *(f)* benefits—income support and incapacity benefit, *(g)* benefits—other/unknown benefits, *(h)* other known destination and *(i)* off benefits unknown destination within (i) two weeks, (ii) three months, (iii) six months and (iv) one year of leaving the programme in each year since 1997, broken down by Jobcentre Plus district. [205475]

Mr. Timms: New deal has been a success helping nearly 2 million people in to work. However, the characteristics of job seekers and the labour market have changed since the introduction of the new deal 10 years ago. That is why we are introducing a new flexible new deal which will offer a personalised approach to its customers. It will tailor the support available to them to their particular needs and to that of the local labour market enabling them to increase their chances of gaining not only employment but sustainable employment in which they can progress.

The information has been placed in the Library.

New Deal for Young People

Chris Grayling: To ask the Secretary of State for Work and Pensions how many and what proportion of New Deal for Young People participants went into the categories *(a)* employment, *(b)* employment and benefits, *(c)* benefits—jobseeker's allowance, *(d)* benefits—income support, *(e)* benefits—incapacity benefit, *(f)* benefits—income support and incapacity benefit, *(g)* benefits—other/unknown benefits, *(h)* other known destination and *(i)* off benefits unknown destination within (i) two weeks, (ii) three months, (iii) six months and (iv) one year of leaving the programme in each year since 1997, broken down by Jobcentre Plus district. [205474]

Mr. Timms: New deal has been a success helping nearly two million people in to work. However, the characteristics of job seekers and the labour market have changed since the introduction of the new deal 10 years ago. That is why we are introducing a new flexible new deal which will offer a personalised approach to its customers. It will tailor the support available to them to their particular needs and to that of the local labour market enabling them to increase their chances of gaining not only employment but sustainable employment in which they can progress.

The information has been placed in the Library.

New Deal Schemes

Chris Grayling: To ask the Secretary of State for Work and Pensions (1) how many and what proportion of *(a)* New Deal for Young People leavers, *(b)* New Deal for 25 plus leavers and *(c)* leavers of all New Deals moved into sustained employment in each year since 1997, broken down by Jobcentre Plus district; [205472]

(2) how many and what proportion of leavers of all his Department's employment programmes moved into sustained employment in each year since 1997, broken down by Jobcentre Plus district. [205473]

Mr. Timms: New deal has been a success helping nearly 2 million people in to work. However, the characteristics of job seekers and the labour market have changed since the introduction of the new deal 10 years ago. That is why we are introducing a new flexible new deal which will offer a personalised approach to its customers. It will tailor the support available to them to their particular needs and to that of the local labour market enabling them to increase their chances of gaining not only employment but sustainable employment in which they can progress.

The information requested on all new deals and all employment programmes is not available.

The information on new deal for young people and new deal 25 plus has been placed in the Library.

Occupational Health: Waste Management

Robert Neill: To ask the Secretary of State for Work and Pensions if he will place in the Library a copy of the research report WR0217—Assessment of Occupational Health and Safety Risks of Waste Collection and Handling Systems, commissioned by the Health and Safety Executive. [219074]

Mrs. McGuire: This research report,

"Collecting, transfer, treatment and processing household waste and recyclables. Assessment of the occupational health and safety risks of systems to provide HSE, local authorities, waste/recycling companies and others with data that will assist in the selection of the most appropriate system whilst meeting environmental targets"

was published in January 2008 and is available via the Health and Safety Executives website:

www.hse.gov.uk/research/rrhtm/rr609.htm

where it is accompanied by an electronic database. A copy of the report has been forwarded to the House of Commons Library.

Pension Credit

Jenny Willott: To ask the Secretary of State for Work and Pensions how much was spent by his Department on backdated annual payments of pension credit *(a)* in total and *(b)* broken down by the smallest geographical area for which figures are available in each of the last five years; and if he will make a statement. [219212]

Mr. Mike O'Brien: Precise information on the time customers take to claim pension credit (known as backdating) is not routinely collected, nor therefore is expenditure on backdating. Expenditure on backdating has been estimated using information on average awards and backdating periods. Backdating periods have been estimated by comparing information on the date entitlement starts and the date pension credit is put into payment. In some cases where payment starts after entitlement the delay will be due to processing times, evidence gathering and verification work which routinely accompanies claims for pension credit. In 2006-07 around 60 per cent. of all successful new claims were backdated for three months or less (this includes cases with zero backdating). The information that is available is in the following table.

Expenditure on pension credit backdating, by Government Office region (£ million)

	2003-04 (October-March)	*2004-05*	*2005-06*	*2006-07*
Total	80	330	190	150
North East	[—]	10	10	10
North West	10	40	20	20
Yorkshire and the Humber	10	30	20	10
East Midlands	10	30	10	10
West Midlands	10	30	20	10

Expenditure on pension credit backdating, by Government Office region (£ million)

	2003-04 (October-March)	2004-05	2005-06	2006-07
East of England	10	30	20	10
London	10	40	30	20
South East	10	40	20	20
South West	10	30	20	10
Wales	[1]—	20	10	10
Scotland	10	30	20	10

[1] Estimates of less than £5 million.

Notes:

1. Care should be taken when interpreting the table. The Department does not routinely collect information on expenditure on backdated payments and it has been estimated using information on average awards and backdating periods. Backdating periods have been estimated by comparing information on the date entitlement starts and the date pension credit is put into payment. Estimated backdating periods therefore include unknown periods of time that are due to processing, evidence gathering and verification work which routinely accompany every claim for pension credit.
2. All figures are consistent with the 2008 Budget report.
3. Pension credit was introduced in October 2003, so expenditure figures are only available from this date.
4. Estimates of the expenditure on backdating have been rounded to the nearest £10 million.. Estimates at the local authority level are not sufficiently robust for publication.
5. Estimates for regions may not sum to totals due to rounding. The total also includes a small amount of expenditure where the region is not known.

Source:

Experimental statistics of pension credit on flows and DWP accounting systems

Pensioners: Personal Income

Chris Grayling: To ask the Secretary of State for Work and Pensions what the average income of the *(a)* top and *(b)* bottom quartile of (i) pensioners and (ii) pensioners over the age of 80 in each region was in each year since 1997. [205491]

Mr. Mike O'Brien: Information for those over the age of 80 is not available due to small sample sizes.

The information for all pensioners is shown in the following tables. Figures are based on survey data and as such are subject to a degree of sampling and non-sampling error. Figures are based on the average of three years' data as single-year estimates do not provide a robust guide to year-on-year changes. Users should not read too much into small differences between regions or between three-year averages, particularly for the top quartile, where estimates may be influenced by extreme values.

Average gross income of all pensioners in the bottom quartile of the income distribution of pensioner units in Great Britain by region

£ per week (2006-07 prices)

	1997-98 to 1999-2000	1998-99 to 2000-01	1999-2000 to 2001-02	2000-01 to 2002-03	2001-02 to 2003-04	2002-03 to 2004-05	2003-04 to 2005-06	2004-05 to 2006-07
Great Britain	114	118	123	128	132	137	140	141

Notes:
1. Gross income is income from all sources received by the pensioner unit including income from social security benefits, earnings from employment, any private pension, and tax credits.
2. Figures show average income for pensioner units in each region within relevant quartile of the income distribution for Great Britain.
3. Based on survey data and as such subject to a degree of sampling and non sampling error. Figures are based on the average of three years' data as single year estimates do not provide a robust guide to year-on-year changes. Estimates for the highest quartile may be influenced by extreme values. Users should not read too much into small differences between regions.
4. Great Britain figures are included on the same basis for comparison: further information for single years at a national level are available in the publication "Pensioners' Income Series 2006-07".
5. Figures have been rounded to the nearest £.
6. Pensioner units are either pensioner couples or single pensioners.
7. Pensioner couples are couples where one or more of the adults are state pension age or over.

Pensioners' Income Series 2006-07

Personal Accounts Delivery Authority: Consultants

Chris Grayling: To ask the Secretary of State for Work and Pensions how many consultants are employed by the Personal Accounts Delivery Authority; and how much the authority has spent on them. [205495]

Mr. Mike O'Brien: Setting up a pension scheme of the size and nature of the personal accounts scheme is a complex task and requires specialist skills. The Personal Accounts Delivery Authority needs to access a range of skills to support the development of the scheme, including skills most appropriately and efficiently provided through consultancy contracts.

The Delivery Authority took responsibility for accounting for its own expenditure from 1 March 2008.

The number of consultants employed by the Delivery Authority has varied over time in response to changing needs. During the period 1 March 2008 to 31 August 2008, PADA has engaged 21 consultants a month on average. These were recruited after a competitive tender exercise and in line with Office of Government Commerce procedures and best practice to secure value for money.

The amount spent on consultants for work for the Delivery Authority from 1 March 2008 to 31 August 2008 is estimated to be around £4.6 million.

From 1 August 2007 to 28 February 2008, the costs of the Delivery Authority were met directly from departmental budgets. The cost of consultancy in this period is estimated to be around £5.9 million.

Sight Impairment: Disability Living Allowance

Jon Trickett: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost of awarding disability living allowance for severe sight impairment at the higher band to all those with severe sight impairment who claim the benefit. [223551]

Mrs. McGuire: The cost of extending entitlement to the higher rate mobility component of disability living allowance to all people with severe sight impairments depends greatly on the precise definition used. One estimate made is that such a change would cost about £45 million in 2010-11, the earliest date at which such a change could be made.

WOMEN AND EQUALITY

Departmental ICT

Mr. Hoban: To ask the Minister for Women and Equality what IT contracts the Government Equalities Office has entered into since its inception. [215139]

Barbara Follett: Since its establishment on 12 October 2007, the Government Equalities Office has been based within premises, which house the Department of Communities and Local Government (CLG). As a result, the GEO has a rental agreement with CLG which allows it to use their IT systems. Aside from this, the GEO has not entered into any IT contracts since its inception.

Equality

Mr. Hancock: To ask the Minister for Women and Equality what discussions she has had with *(a)* Cabinet and *(b)* other ministerial colleagues on (i) departmental, (ii) sectoral and (iii) national strategies on age discrimination in the provision of goods and services and the promotion of age equality; and if she will make a statement. [210466]

Barbara Follett: During the development of proposals for the new Equality Bill I had discussions with Government colleagues at all levels in a number of key departments including the Department of Health, Department of Work and Pensions and the Treasury to discuss, amongst other things, our proposals to take a power in the Equality Bill to prohibit age discrimination in the provisions of goods, facilities and services and the exercise of public functions and to introduce a single public sector equality duty extended to cover age. Our proposals for the Bill were set out in the Government's response to the Discrimination Law Review consultation, which was published on July 21 this year.

Gender Discrimination

Mrs. May: To ask the Minister for Women and Equality what steps the Government have taken to act upon the recommendations of the United Nations Convention on the Elimination of All Forms of Discrimination Against Women since the 41st session of parties of 30 June to 18 July. [224211]

Barbara Follett: I will let the right hon. Member have such information as is available as soon as possible.

Rape: Victim Support Schemes

Mrs. May: To ask the Minister for Women and Equality what proportion of the £1 million emergency fund for rape crisis centres, announced in March, has been distributed; which organisations have received such funding; how much each organisation have received; and what plans the Government has to maintain the funding for the year starting April 2009. [224210]

Barbara Follett: I will let the right hon. Member have such information as is available as soon as possible.

TREASURY

Departmental Data Protection

Mr. Philip Hammond: To ask the Chancellor of the Exchequer how many data security breaches have been reported in his Department and its agencies in the last three months. [224259]

Angela Eagle: No data security breaches have been reported by the Treasury or its agencies.

Departmental Domestic Visits

John Howell: To ask the Chancellor of the Exchequer which parliamentary constituencies his predecessor visited between *(a)* 8 June 2000 and 8 June 2001, *(b)* 8 June 2001 and 8 June 2002, *(c)* 8 June 2002 and 8 June 2003, *(d)* 8 June 2003 and 8 June 2004 and *(e)* 8 June 2004 and 6 May 2005; on what date each such visit occurred; and what the purpose of each such visit was. [224003]

Angela Eagle: The information requested could be obtained only at disproportionate cost. Government Ministers regularly visit all parts of the country as part of the policy development process.

Mr. Scott: To ask the Chancellor of the Exchequer (1) how many times his predecessor visited *(a)* Cardiff, *(b)* Edinburgh, *(c)* Swansea, *(d)* Glasgow, *(e)* Aberdeen and *(f)* Dundee between 6 May 2005 and 6 May 2006; on what dates such visits occurred; and what the purpose of each visit was; [224024]

(2) how many times his predecessor visited *(a)* London, *(b)* Birmingham, *(c)* Manchester, *(d)* Newcastle, *(e)* Leeds, *(f)* Sheffield, *(g)* Liverpool and *(h)* Bristol between (i) 8 June 2001 and 6 May 2002, (ii) 6 May 2002 and 6 May 2003, (iii) 6 May 2003 and 6 May 2004 and (iv) 6 May 2004 and 6 May 2005; on what dates such visits occurred; and what the purpose of each visit was. [224025]

Angela Eagle: The information requested could be obtained only at disproportionate cost. Government Ministers regularly visit all parts of the country as part of the policy development process.

Angela Browning: To ask the Chancellor of the Exchequer (1) how many times his predecessor visited *(a)* London, *(b)* Birmingham, *(c)* Manchester, *(d)* Newcastle, *(e)* Leeds, *(f)* Sheffield, *(g)* Liverpool and *(h)* Bristol between 6 May 2006 and 27 June 2007; on what dates such visits took place; and what the purpose of each such visit was; [224236]

(2) how many times his predecessor visited *(a)* London, *(b)* Birmingham, *(c)* Manchester, *(d)* Newcastle, *(e)* Leeds, *(f)* Sheffield, *(g)* Liverpool and *(h)* Bristol between 6 May 2005 and 6 May 2006; on what dates such visits took place; and what the purpose of each such visit was; [224238]

(3) how many times his predecessor visited *(a)* Cardiff, *(b)* Edinburgh, *(c)* Swansea, *(d)* Glasgow, *(e)* Aberdeen and *(f)* Dundee between 6 May 2006 and 27 June 2007; on what dates such visits occurred; and what the purpose of each such visit was. [224239]

Angela Eagle: The information requested could be obtained only at disproportionate cost. Government Ministers regularly visit all parts of the country as part of the policy development process.

James Duddridge: To ask the Chancellor of the Exchequer (1) which parliamentary constituencies his predecessor visited between 8 June 1999 and 8 June 2000; on what date each such visit took place; and what the purpose of each such visit was; [224247]

(2) which parliamentary constituencies his predecessor visited between 2 May 1997 and 8 June 1998; on what dates each such visit took place; and what the purpose of each visit was; [224253]

(3) which parliamentary constituencies his predecessor visited between 8 June 1998 and 8 June 1999; on what dates each such visit took place; and what the purpose of each visit was. [224254]

Angela Eagle: The information requested could be obtained only at disproportionate cost. Government Ministers regularly visit all parts of the country as part of the policy development process.

Members: Correspondence

Sir Gerald Kaufman: To ask the Chancellor of the Exchequer when he will reply to the letters of *(a)* 23 July 2008 with regard to Mr I Laing and *(b)* 28 July 2008, transferred to him from the Home Office, with regard to Mr Sehir Hussain from the right hon. Member for Manchester, Gorton. [224120]

Angela Eagle: The Treasury could find no record of either correspondence being received and the right hon. Member's office has been informed.

Pensions

Mr. Drew: To ask the Chancellor of the Exchequer (1) what plans he has to allow the transfer of property and any respective debt secured on it from one provider to another as part of the self-invested pension plan where there are no tax implications; [224113]

(2) what plans he has to allow the switching of a pension scheme's assets and debt to a new self-invested pension plan or small self-administered scheme

without having to requalify under the borrowing rules providing the condition that the property is not sold is met; and what assessment he has made of the extent to which such switching meets the aim of simplification of the process according to Government objectives; [224114]

(3) what plans he has to relax the borrowing rules for pensions under self-invested pension plans and small self-administered schemes for smaller pension funds allowing the fund owner to own property as part of that scheme providing that an element of debt is included also permitting property transactions which may be for residential property as part of those schemes. [224115]

Kitty Ussher: A self-invested or small self-administered pension scheme can transfer assets and associated borrowing to another such scheme provided these are within the limits on scheme borrowing. These limits allow borrowing of up to 50 per cent. of the value of the sums and assets held for the purposes of the member's arrangement under the scheme. This provides a prudent limit on such borrowings.

The Government support the ability to choose a diverse range of assets, including commercial property to support pension saving in registered pension schemes. It also remains open to all schemes to invest indirectly in residential property so long as this is carried out through a genuinely diverse commercial vehicle.

PRIME MINISTER

Cabinet: Meetings

Peter Bottomley: To ask the Prime Minister on what occasions the Cabinet has met at times other than its regular meeting times since June 2007; which Cabinet Ministers did not attend the Cabinet meeting held in Birmingham in September 2008; when the media were first informed that the Cabinet would meet in Birmingham; and what costs arose from holding the meeting in Birmingham. [224271]

Dan Rogerson: To ask the Prime Minister what *(a)* security, *(b)* administration and *(c)* other costs were incurred as a result of holding the meeting of the Cabinet in Birmingham on 8 September 2008. [224266]

The Prime Minister: Cabinet is usually held on Tuesday mornings. My spokesman announced on 4 August that Cabinet alongside a series of visits and a public engagement events would be held outside London

(http://www.number10.gov.uk/Page16444).

All Cabinet Ministers and Ministers attending Cabinet were present. The costs will be published shortly.

Departmental Domestic Visits

Angela Browning: To ask the Prime Minister (1) how many official visits he has made to *(a)* Cardiff, *(b)* Edinburgh, *(c)* Swansea, *(d)* Glasgow, *(e)* Aberdeen and *(f)* Dundee since 27 June 2007; on what dates such visits occurred; and what the purpose of each such visit was; [224235]

(2) how many official visits he has made to *(a)* London, *(b)* Birmingham, *(c)* Manchester, *(d)* Newcastle, *(e)* Leeds, *(f)* Sheffield, *(g)* Liverpool and *(h)* Bristol since 27 June 2007; on what dates such visits occurred; and what the purpose was of each such visit. [224237]

The Prime Minister: I refer the hon. Member to the written statement I made on Tuesday 22 July 2008, *Official Report*, column 103-04WS.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Subsidies

Dan Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has had made of the effects of his Department's budget overspend in *(a)* 2006-07 and *(b)* 2007-08 on (i) cashflow for payments under the Single Payment Scheme and (ii) delivery of other frontline services. [223394]

Jonathan Shaw *[holding answer 10 September 2008]:* In 2006-07, the Department for Environment, Food and Rural Affairs exceeded its capital budget by a net £17.4 million. This amount was subsequently deducted from the 2007-08 capital budget. Through normal in-year financial management, the Department was able to live within its revised budget, including coping with the emergency costs of floods and animal disease outbreaks. The Department protected ministerial priorities and avoided any additional burden on taxpayers over the two years.

Payments under the Single Payment Scheme are funded in full from the European Union, so are not affected by budget changes. Delivery of frontline services in 2007-08 was not affected as their budgets had already been set by the time the capital budget reduction was known, and those frontline services budgets were not subsequently reduced.

Bovine Tuberculosis: Disease Control

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what the evidential basis is for the statement in his Department's 2008 annual report that the Government is on course to meet the 2008 target for limiting the spread of bovine tuberculosis. [223339]

Jonathan Shaw *[holding answer 10 September 2008]:* DEFRA's statement that we are on course to achieve

"a reduction in the spread of bovine tuberculosis (bTB) to new parishes to below the incremental trend of 17.5 confirmed new incidents per annum by the end of 2008"

was based on the latest statistics available at the time the report was written.

Our statistics show that in the 12 months up to September 2007, there were 236 confirmed new incidents of bTB in 'new' parishes i.e. those parishes where there had been no confirmed new bTB incidents during the previous four calendar years. The five-year average (mean) from October 2002 to September 2007 was 298.8 CNIs per year in new parishes compared to the previous five-year average (October 2001 to September 2006) of 316.6. So the PSA9 indicator at the end of September 2007 was 17.8 CNIs per annum. Bovine TB is cyclical in nature, with variations occurring both seasonally and

over longer time scales, so care should be taken not to read too much into such short to medium-term changes. However, taking variations into account, we would expect the projected PSA9 indicator for the end of 2008 to be below the target of +17.5 CNIs per annum.

Departmental Overtime

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost of overtime payments paid to staff in his Department was in each of the last 12 months, broken down by pay grade. [221295]

Jonathan Shaw: The following table shows the amount of overtime paid to staff in each of the last 12 months, broken down by pay grade. The data covers staff in core-DEFRA and agencies covered by core-DEFRA pay arrangements (i.e. Animal Health, Marine and Fisheries Agency, Veterinary Medicines Directorate, Government Decontamination Service and Pesticides Safety Directorate (which merged with the Health and Safety Executive on 1 April 2008)).

Departmental Public Participation

Robert Neill: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer to the right hon. Member for Maidenhead of 12 May 2008, *Official Report*, columns 1327-28W, on departmental public participation, if he will place in the Library copies of the *(a)* Navigator research study on Waste Infrastructure, *(b)* Scott Wilson research study on Public Understanding of Sustainable Transport and *(c)* Social Research and Consultancy study on Consumer attitudes to waste efficiency. [219039]

Joan Ruddock: I am arranging for copies of the Scott Wilson research study on Public Understanding of Sustainable Transport and the Social Research and Consultancy study on Consumer attitudes to water efficiency to be placed in the Library of the House. The Navigator Waste Infrastructure Research study has not yet been completed.

Departmental Sick Pay

Jenny Willott: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility have received sick pay for sick leave due to (i) stress and (ii) mental health and behavioural disorders in each of the last 10 years; what the average length of time was for which sick pay was paid in these cases; and if he will make a statement. [216156]

Jonathan Shaw: Tables showing the total number of staff who have received sick pay for sickness absence due to (i) stress and (ii) mental and behavioural disorders and the average length of time for which sick pay was paid in these cases, for the last four financial years is given as follows. Data prior to April 2004 is available only at disproportionate cost.

Stress

Financial year	Total number of staff	Average length of time sick pay paid (days)
1 April 2007—31 March 2008	133	25.1
1 April 2006—31 March 2007	167	25.8
1 April 2005—31 March 2006	200	22.5
1 April 2004—31 March 2005	101	32.7

Mental health and behavioural disorders

Financial year	*Total number of staff*	*Average length of time sick pay paid*
1 April 2007—31 March 2008	130	30
1 April 2006—31 March 2007	174	28.2
1 April 2005—31 March 2006	208	29.3
1 April 2004—31 March 2005	93	36.1

The data cover all staff in core-DEFRA and executive agencies covered by the core-Department's terms and conditions (i.e. Animal Health, Marine and Fisheries Agency, Veterinary Medicines Directorate, Government Decontamination Service and Pesticides Safety Directorate (which merged with the Health and Safety Executive on 1 April 2008)).

The data do not cover executive agencies or non-departmental public bodies which operate delegated pay arrangements, as this information could be provided, only at disproportionate cost.

Jenny Willott: To ask the Secretary of State for Environment, Food and Rural Affairs how much was paid in sick pay to staff in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility in each of the last five years; what proportion of the staffing expenditure of each body this represented in each year; and if he will make a statement. [216157]

Jonathan Shaw: A table showing the total cost of sick pay for staff in DEFRA for the last four financial years is as follows. Data prior to April 2004 are available only at disproportionate cost.

Financial Year (1 April to 31 March each year)	*Total cost of sick pay (£)*	*Proportion of staffing expenditure (%)*
2007-08	3,569,351	1.41
2006-07	4,146,313	1.40
2005-06	4,894,761	1.79
2004-05	3,524,208	1.40

The data cover all staff in Core-DEFRA and those Executive Agencies covered by the core-department's terms and conditions (i.e. Animal Health, Marine and Fisheries Agency, Veterinary Medicines Directorate, Government Decontamination Service and Pesticides Safety Directorate (which merged with the HSE on 1 Apr 08))

Further information on the Department's other agencies and non-departmental public bodies is available only at disproportionate cost.

Dogs: Animal Welfare

Susan Kramer: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effects of the Animal Welfare Act 2006 on the behaviour of breeders of dogs; and what plans he has to reduce the number of young dogs in animal sanctuaries. [223116]

Jonathan Shaw *[holding answer 10 September 2008]:* Under the Breeding of Dogs Act 1973 and the Breeding and Sale of Dogs (Welfare) Act 1999, anyone who is in the business of breeding and selling dogs requires a licence from their local authority. Under the legislation, local authorities have powers of entry and search and can decide whether a licence should be issued.

In addition, the Animal Welfare Act 2006 provides that any owner or keeper must provide for the welfare needs of their animals (this requirement applies to breeders of dogs). Failure to provide for an animal's needs can result in a penalty of £5,000 and/or six months' imprisonment. The 2006 Act, which came into force last year, placed for the first time a statutory responsibility on owners and keepers to provide for the welfare needs of their animals. Anyone considering owning or keeping a dog should ensure that they are familiar with what is required and are prepared to meet the associated costs.

I am satisfied that the existing legislation contains the necessary powers to enable enforcers to deal with any irresponsible dog breeders and owners.

My Department is working with devolved Administrations to produce a code of practice on the keeping of dogs. The code will explain the essential requirements of keeping a dog and will be approved by Parliament. We expect to consult widely on a draft code before the end of the year.

We hope this guidance will enable people to better understand the care that a dog requires and thus to reduce the number of dogs in animal sanctuaries.

Domestic Waste Management

Robert Neill: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment the Waste and Resources Action Programme has made of the scope for monthly collections of household residual rubbish. [223619]

Joan Ruddock *[holding answer 15 September 2008]:* The Waste and Resources Action Programme has made no such assessment.

Fertilisers: Subsidies

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to assist farmers in meeting fertiliser costs; and if he will make a statement. [223215]

Jonathan Shaw *[holding answer 10 September 2008]:* Current high energy prices are having a knock-on effect on the price of manufactured 'inorganic' fertilisers. Lord Rooker and my right hon. Friend the Secretary of State for Environment, Food and Rural Affairs have discussed this issue with the Agricultural Industries Confederation, which represents the UK fertiliser sector. We are alert to the potential impact that high fertiliser prices may have on farmers and we will continue to monitor the situation; the fundamental cause is the rise in the price of oil.

Farmers will want to do all they can to ensure efficient fertiliser use. Some farmers will also need to consider increased use of 'organic' fertilisers such as manures. Other options include the use of digestate from Anaerobic Digestion.

Pandas

Mr. Hollobone: To ask the Secretary of State for Environment, Food and Rural Affairs what the policy of the Government is on the loaning of giant pandas to UK zoos for commercial purposes. [224054]

Joan Ruddock: International trade in giant pandas is strictly controlled under the Convention on International Trade in Endangered Species (CITES), and trade in them is facilitated by means of an import/export certification system, which is administered by Animal Health.

Before granting a certificate to allow a captive-bred giant panda to be imported into this country, Animal Health would have to be satisfied that a number of strict conditions had first been met. For example, the UK's CITES Scientific Authority for fauna (the Joint Nature Conservation Committee) must assess whether the export would have a harmful effect on the conservation status of the species. The importer would also need to demonstrate that they had the housing and husbandry skills to conserve and care for the pandas adequately.

If the giant panda was wild-caught, Animal Health would have to be satisfied that the animal would not be used for primarily commercial purposes; it could only be imported for essential biomedical research, or for breeding, research or educational purposes of benefit to the conservation of the species. There is nothing to preclude the issuing of licences to allow the commercial use of captive bred giant pandas. Applications of this nature would be dealt with on a case by case basis.

Plastic Bags

Jo Swinson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) on what date a full life-cycle analysis of plastic carrier bags was first commissioned; and on what date it is expected to be published; [224104]

(2) what steps his Department has taken to produce a full life-cycle analysis of plastic carrier bags. [224105]

Joan Ruddock: The life cycle analysis of carrier bags is being carried out by the Environment Agency. It was commissioned in January 2006 and is expected to be published at the end of this year.

The Environment Agency is looking at a range of carrier bags, including disposable plastic carrier bags and bio-degradable alternatives. The study is looking at their entire life-cycle from raw material extraction, through manufacture and use, to reuse, recycling and emissions from final disposal.

Waste Disposal

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what tonnage of wet waste was collected from *(a)* households and *(b)* businesses in each local authority area in (i) 2006-07 and (ii) 2007-08; [223506]

(2) what tonnage of wet waste was anaerobically digested by local authorities or their contractors in *(a)* 2006-07 and *(b)* 2007-08; and what volume of biomethane was produced by these processes in each year. [223507]

Joan Ruddock *[holding answer 15 September 2008]:* DEFRA does not hold the information requested.

Waste Disposal: Offenders

Robert Neill: To ask the Secretary of State for Environment, Food and Rural Affairs how many fixed penalties for waste receptacle-related offences were issued in 2007-08. [223620]

Joan Ruddock *[holding answer 15 September 2008]:* All local authorities and any other bodies with fixed penalty notice issuing powers must submit a returns form to the Local Environmental Quality division at DEFRA each year, detailing all the fixed penalty notices issued for relevant offences for that period. Data on the number of fixed penalty notices issued in 2007-08 for 'waste receptacles offences' will be published later this year on the DEFRA website.

Waste Disposal: Waste Management

Robert Neill: To ask the Secretary of State for Environment, Food and Rural Affairs what records *(a)* his Department and *(b)* the Waste and Resources Action Programme holds on which waste collection authorities have adopted collection policies which prohibit side waste. [223618]

Joan Ruddock *[holding answer 15 September 2008]:* Neither my Department nor the Waste and Resources Action Programme hold records of which waste collection authorities prohibit side waste.

Waste Management

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what quantity of green list wastes was exported to non-OECD countries in the last five years; and to which companies this waste was exported in the receiving countries. [223448]

Joan Ruddock *[holding answer 10 September 2008]:* Where non-hazardous wastes (such as separated recyclables) are exported, they are generally subject only to commercial controls, and not to the prior notification and consent procedures which apply to exports of hazardous wastes. Precise data on the amounts and destinations of exported recyclables are not, therefore, available.

However, by using HM Revenue and Customs trade data it is possible to estimate that 8.4 million tonnes of green list waste was exported from the UK to countries outside the EU (including non-EU OECD countries) in 2006. This data are indicative, since the categories used to collect trade data are not identical to those used to collect data on waste.

Weed Control

Dan Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs how many enforcement notices he has served on landowners under the Weeds Act 1959 in relation to *(a)* ragwort, *(b)* spear thistle, *(c)* creeping field thistle, *(d)* broad leaved dock and *(e)* curled dock in each year since 2004. [223592]

Joan Ruddock *[holding answer 15 September 2008]:* Separate figures for the number of enforcement notices served for each of the five weeds covered by the Weeds Act 1959 are not available, however the majority of enforcement notices served relate to Common Ragwort (*senecio jacobaea*). The total number of enforcement notices served is set out in the following table.

	Number
2004	[1]22
2005	77
2006	19
2007	52
2008 (to end August)	14

[1] This is an approximate figure because the number of enforcement notices served in the period July to December in relation to weeds complaints handled at that time by DEFRA's Crewe office, are not available.

Note:
All figures relate to England.

Dan Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs what representations he has received in relation to ragwort in the last 12 months. [223593]

Joan Ruddock *[holding answer 15 September 2008]:* In the last 12 months, Natural England, the Agency responsible for investigating complaints relating to the Weeds Act 1959, received 330 forms of complaint, mostly about Common Ragwort. DEFRA have also received approximately 190 pieces of general correspondence about ragwort, but we cannot give details of the specific categories of that correspondence.

Dan Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs what consideration he has given to reviewing the regulations and legislation governing ragwort with a view to updating the provisions; and if he will make a statement. [223594]

Joan Ruddock *[holding answer 15 September 2008]:* The administrative procedures for investigating complaints about ragwort and the other weeds covered by the Weeds Act 1959 were reviewed and updated in 2004. We have no current plans to review the Weeds Act 1959.

Dan Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs when he plans to next review the code of practice on ragwort. [223595]

Joan Ruddock *[holding answer 15 September 2008]:* The "code of practice on how to prevent the spread of Ragwort" was published in July 2004 and we have no immediate plans to review it.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Carbon Capture: Operating Costs

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the *(a)* capital and *(b)* operating costs of the winning carbon capture and storage demonstration project proposal. [223505]

Malcolm Wicks *[holding answer 15 September 2008]:* Given the unique nature of this project it is difficult to provide a definitive assessment of costs. It is also the case that the final cost may vary significantly according to the design of the winning project. We expect to develop a much clearer picture of both capital and operating costs during the competition process as we undertake detailed negotiations with the four pre-qualified Bidders.

Departmental Pay

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much was claimed in reimbursable expenses by special advisers in his Department in each of the last 10 years. [215225]

Mr. Thomas: Since the formation of the Department for Business, Enterprise and Regulatory Reform on 28 June 2008, reimbursable expenses claimed by the Special Advisers have totalled £2,497.43.

Electricity: Meters

Mr. David Hamilton: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what progress has been made on reducing the tariffs for electricity on pre-payment meters. [223452]

Malcolm Wicks *[holding answer 10 September 2008]:* We announced in Budget 2008 that the Secretary of State was prepared, to use his statutory powers with a view to reducing the differential between prepayment and other forms of payment for both gas and electricity.

Ofgem is currently investigating tariff differentials as part of its probe into the energy market. Initial findings are expected shortly.

If Ofgem's analysis does show that prepayment meter customers are suffering disadvantage then we will in the first instance expect Ofgem and the energy suppliers to provide the solution. If sufficient progress is not made by this winter 2008/09, the Secretary of State is prepared to consult on legislation, with a view to reducing unjustified tariff differentials.

Energy: Conservation

Lembit Öpik: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimates his Department has made of the potential reduction in energy consumption by replacing D-rated and below energy circulator pumps with A-rated energy circulator pumps in *(a)* domestic and *(b)* non-domestic properties in the UK. [219190]

Malcolm Wicks: BERR has not made estimates for reduced energy consumption for these products. We of course welcome efficiency measures to reduce energy consumption and encourage companies to seek guidance on reducing energy use from bodies such as the Carbon Trust. BERR works closely with the Department for Environment, Food and Rural Affairs who, as Whitehall policy lead, is considering the energy efficiency of products particularly in relation to the Eco-design of Energy-using Products Directive.

Internet: Scottish Islands

Mr. Carmichael: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent steps his Department has taken to provide upgrades to internet services to the Scottish Islands; and if he will make a statement. [217158]

Malcolm Wicks: The Department for Business, Enterprise and Regulatory Reform has not been directly involved in any recent activity to upgrade internet services in the Scottish Islands.

The Scottish Government, however, announced on 26 June 2008 that it had signed a £3.3 million contract to deliver an affordable broadband service to those eligible households and businesses that registered as being "out of reach" of the technology. Avanti Caledonian Broadband Ltd, the selected supplier, aims to utilise a mix of technologies, including satellite and wireless, to deliver a broadband solution appropriate to the location and density of those that have made themselves known to the Scottish Government.

Iron and Steel: Prices

Steve Webb: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the effect of recent increases in steel prices on the Government's energy policy; and if he will make a statement. [220161]

Malcolm Wicks *[holding answer 21 July 2008]:* We have not made an assessment of the effect of recent increases in steel prices on the Government's energy policy. It is for energy companies to decide to what extent they take account of raw materials prices when making decisions on future investments. Strong demand for metals and the consequent rise in the price of steel is a global phenomenon and energy companies in other countries have been similarly affected.

However we are aware that the rising cost of raw materials including steel is one of the factors leading to a significant rise in the cost of wind turbines. Despite this price rise global demand for wind turbines is growing 30 per cent. year on year. The Government remain committed to achieving our contribution to the EU 2020 target and launched a consultation last month which will culminate in the publication of our renewable energy strategy early next year.

Motor Sports: Finance

Mr. Wallace: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much funding his Department has provided for motor sports technological development in each year since 2003. [220499]

Malcolm Wicks: Since 2003, BERR has allocated a total of £4 million towards motorsport development as part of its commitment to the work of Motorsport Development UK (MDUK). In addition, the motorsport industry has received £1.4 million from UK Trade and Investment Sectors Group. Expenditure is set out in the following table.

£000

	MDUK funding	*UKTI Sector Group funding*	*Total spend in financial year*
2003-04	0	0	0
2004-05	573	339	912
2005-06	1,122	395	1,517
2006-07	1,277	358	1,635
2007-08	982	322	1,304
Total	3,954	1,414	5,368

Motor Sports: Fuels

Mr. Boswell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent progress has been made on the Energy Efficient Motor Sport initiative, with particular reference to the development of a fuel-efficient sports car; and if he will make a statement. [218772]

Malcolm Wicks: Energy Efficient Motor Sport (EEMS) is an initiative of Motorsport Development UK, a partnership between BERR and four regional development agencies set up to sustain and grow the UK's world-leading motorsport sector. EEMS has received £1.8 million Government funding.

EEMS is actively involved in a new championship specifically designed to bring efficient sports cars into motorsport. It is working in partnership with enviroSportscar to develop the regulations for the new series that will see high-performance, fuel-efficient sports cars competing in a series of circuit, drag and endurance racing challenges. The new championship was officially launched on 21 July 2008 at the London Motor show. In addition, EEMS is working with one of the highest profile sports car championships in the UK—the British Touring Car Championship (BTCC)—to introduce regulation that will stimulate the more efficient use of fuels.

National Union of Mineworkers

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what meetings *(a)* he and *(b)* his Ministers have held with representatives of the National Union of Mineworkers in the last six months; what the date was of each such meeting; and if he will make a statement. [219411]

Malcolm Wicks: No bilateral meetings have taken place between Ministers from the Department and the NUM within the last six months. However, I attended a meeting at the TUC on 19 June 2008 and a representative of the NUM was present.

The NUM were also represented at the Coal Health Monitoring Group meeting on 25 June 2008 which I chaired. Also the NUM, BACM and TUC were represented at the Coal Forum which I attended on the 17 July 2008.

Power Stations: Wales

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what correspondence his Department has had with the Welsh Assembly Government on a freedom of information

request to the Welsh Assembly Government on communications between his Department and the Welsh Assembly Government over the responsibility for granting permission for the construction of power stations over 50 MW in Wales. [213081]

Malcolm Wicks: The Department has corresponded with the Welsh Assembly Government on this Freedom of Information Request request. The Welsh Assembly Government sought the views of BERR on records that fell within the scope of the request. BERR advised that as the information related to the Planning Bill which was currently before Parliament, information on interdepartmental policy discussions should be withheld.

River Severn: Tidal Power

John Penrose: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the likely effect on the Severn Tidal Power Feasibility Study of English Heritage's identification of Weston-Super-Mare as a conservation area. [223217]

Malcolm Wicks *[holding answer 10 September 2008]:* The Severn Tidal Power Feasibility Study, which was launched in January 2007, is currently at its scoping phase. The Historic Environment, which includes assessment of impacts on conservation areas, has been identified as a key topic for investigation under the Strategic Environmental Assessment (SEA) being carried out as part of the overall feasibility study. We will be consulting on the scope of the SEA around the turn of the year.

English Heritage is represented on the SEA Steering Group, which includes members from a wide range of stakeholders.

Telephone Systems

Mark Williams: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the number of telephone lines delivered through a digital access carrier system in each region of the UK. [214580]

Malcolm Wicks: Digital access carrier system equipment is used in a limited number of areas across the country as an acceptable method of delivering two independent telephone services over a single line in areas where there is a shortage of line capacity.

BERR has been informed by BT that there are currently around 400,000 DACS (digital access carrier system) lines in the UK and the vast majority of DACS systems are operated by BT. Following further investment in new network capacity by BT, there has been a reduction of around 20 per cent. in the number of DACS lines on BT's network in the last 12 months. This number is expected to continue to fall in the coming years as BT continues to invest to deliver broadband service. BT does not analyse DACS populations by region.

Zonal Transmission Losses

Willie Rennie: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what recent discussions his Department has had with Ofgem on the effects of zonal transmission losses on environmentally beneficial projects; and if he will make a statement; [224039]

(2) what recent discussions his Department has had with Ofgem on zonal transmission losses (P200); and if he will make a statement. [224040]

Malcolm Wicks: The Department has had no recent discussions with Ofgem, the independent regulator, on its proposals for zonal transmission losses (proposed modification P200).

TRANSPORT

Airports: Manpower

Chris Huhne: To ask the Secretary of State for Transport how many people cleared to work airside at UK airports are *(a)* UK citizens born in the UK, *(b)* UK citizens born abroad and *(c)* foreign nationals. [206492]

Jim Fitzpatrick: A survey of 29 airports to identify the number of UK and foreign nationals cleared to work in airside areas indicated that from a total of around 190,000 airside workers 78 per cent. were UK nationals and 14 per cent. were foreign nationals (including 8 per cent. from the EU). The nationality of the remainder was not recorded.

Aviation

Mr. Weir: To ask the Secretary of State for Transport (1) what steps her Department takes to promote compliance with the provisions of the Civil Aviation (Denied Boarding, Compensation and Assistance) Regulations 2005 and European regulations in respect of payment of compensation for *(a)* cancelled and *(b)* delayed flights; [223134]

(2) what steps her Department has taken following non-compliance on the part of airline operators with Council Regulation (EC) No. 261/2004 on duties to deliver compensation and assistance in respect of cancelled and delayed flights since the Regulation came into force. [223135]

Jim Fitzpatrick *[holding answer 10 September 2008]:* The Civil Aviation Authority (CAA) has been designated as the enforcement body under EC Regulation 261/2004 and the Air Transport Users Council (AUC) is the designated complaints handling body.

The CAA takes a proactive approach to the promotion of air carrier compliance by ensuring that all airlines that operate from the UK are aware of their obligations under this legislation. This is supported by active monitoring of the experiences of air passengers; including unannounced airport spot checks at airports. If an actual or potential breach of the regulation is identified, the CAA will offer guidance to the carrier concerned and if appropriate, undertake enforcement action.

The AUC manages individual passenger complaints and seeks to secure a satisfactory resolution in cases where the regulation is not being appropriately applied.

If the AUC identifies a trend of apparent non-compliance, then it may refer the matter to the CAA for enforcement action.

Upon referral the CAA will undertake a comprehensive investigation and, where there is evidence that the regulation has been breached, initiate enforcement action. The CAA seeks to enforce the regulation in a proportionate and balanced manner. The nature of the action taken will depend on individual circumstances, but will seek to prevent a recurrence of the breach and that an individual passenger's rights under the legislation are upheld. In parallel passengers also have the right to take their case to the Small Claims Court, which has proven to be an effective method of enabling passengers to obtain redress.

Aviation: Cancellation Rights

Mr. Weir: To ask the Secretary of State for Transport what procedures are in place to ensure that airlines operating out of each airport within the UK comply with European rules on compensation for the cancellation of flights. [223470]

Jim Fitzpatrick *[holding answer 15 September 2008]:* The, arrangements in the UK for promoting compliance with and enforcing regulation EC 261/2004 on compensation and assistance to air passengers in the event of denied boarding, cancellation or long delays are set out in the answer to the hon. Member's questions today (UIN 223134 and 223135).

Birmingham New Street Station

Stephen Hammond: To ask the Secretary of State for Transport what her most recent estimate is of growth per annum in footfall at Birmingham New Street Station. [224006]

Mr. Tom Harris: Birmingham New Street handles 1,350 trains and over 120,000 passengers daily; twice what it was originally designed for. Passenger growth of 30 per cent. has been experienced over the past 10 years, with similar levels forecast over the same period in future.

Longer trains and important improvements to the station's passenger handling capacity are set to deal with this growth.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Transport when she plans to answer the letter of 4 August 2008 from the right hon. Member for Manchester, Gorton, with regard to Ms J. Reed. [224118]

Jim Fitzpatrick: My right hon. Friend the Secretary of State for Transport replied on 11 September.

Motor Vehicles: Excise Duties

Norman Baker: To ask the Secretary of State for Transport (1) how many late licence penalty notices were issued by the Driver and Vehicle Licensing Agency in each year since 1997; [210697]

(2) how many late licence penalty notices were paid *(a)* within 28 days and *(b)* after 28 days in each year since 1997; [210698]

(3) how many convictions the Driver and Vehicle Licensing Agency has obtained for failing to pay a late licence penalty notice in each year since 1997; [210699]

(4) many late licence penalty notices were appealed against in each year since 1997; and how many appeals were successful. [210700]

Jim Fitzpatrick: The Agency began issuing late licensing penalty letter (LLP) with the introduction of Continuous Registration (CR) in 2004. The volumes of LLPs issued each financial year since the commencement of CR are as follows:

	Number
2004-05	1,183,544
2005-06	1,341,598
2006-07	1,272,384
2007-08	1,219,462

Over this period the volumes of penalty notices paid within 28 days are:

	Number
2004-05	233,712
2005-06	326,036
2006-07	308,897
2007-08	352,615

The volumes of penalty notices paid after 28 days are:

	Number
2004-05	61,699
2005-06	92,626
2006-07	84,027
2007-08	107,714

The number of county court judgements (CCJ's) issued since CR are:

	Number
2004-05	74,872
2005-06	114,713
2006-07	84,545
2007-08	5,626

Many offenders do not pay first time on receipt of the LLP or the reminder letter. Initially, the Agency used the Civil Court procedure to deal with non payment but this process gave poor results and costs were high.

The Agency had to have an effective and efficient mechanism for pursuing the offenders who did not pay their LLP's. Therefore, in June 2006 to August 2007, the Agency carried out a trial using debt collection agents to pursue the payment. The use of debt collectors was found to be far more efficient and effective and in February 2008, the Agency commenced external debt collection activity by passing CR cases for the period of June 2007 to its three appointed debt collection agencies.

The Agency does not hold statistics to readily identify the number of appeals received in cases for which an

LLP has been issued. These details could be provided only at disproportionate cost. However, the number of cases closed due to dispute and/or mitigating circumstances is:

	Number
2004-05	313,819
2005-06	397,543
2006-07	209,286
2007-08	134,746

These figures do not include other areas of closure e.g. the Agency was unable to trace the registered keeper.

During the above periods, in addition to CR, the Agency carried out other pro-active enforcement activities to tackle evaders. These included on road enforcement, wheelclamping and the use of Automated Number Plate Reader Systems (ANPR). The Agency also worked closely with other enforcement bodies such as the Police and VOSA.

Motor Vehicles: Testing

Mr. Greg Knight: To ask the Secretary of State for Transport pursuant to the answer of 23 May 2007, *Official Report*, column 1355W, on motor vehicles: testing, what consultations were conducted on options for the future conduct of the MOT scheme; what the findings of such consultations were; and if she will make a statement. [224208]

Jim Fitzpatrick: There has been no formal public consultation on changes to the MOT scheme. Officials have had informal discussions on various occasions with representatives from a number of sectors including vehicle manufacturers, testers and insurers.

Discussions with colleagues in other Government Departments have continued while we evaluate the very detailed evidence that has been gathered and we expect to make an announcement on this subject shortly.

Public Transport: Fees and Charges

Norman Baker: To ask the Secretary of State for Transport what recent estimate she has made of the impact of trends in fuel costs on the cost of providing *(a)* bus and *(b)* rail transport. [224068]

Mr. Tom Harris: No estimate of the impact of trends in fuel costs on the cost of providing rail transport has been made by the Department for Transport. The impact on public finances is uncertain as a change in fuel cost increases both the cost of operating the railway and rail patronage through modal shift. The increase in rail patronage leads to higher rail revenue, which is partially captured by the Department through lower subsidies.

The Department has not made direct estimates of the impact of fuel price trends on the cost of bus service provision. The impact on bus industry costs will depend on the rise in fuel costs and the extent to which the industry has fixed its fuel prices in advance. We have limited data on what proportion of fuel prices have been fixed in advance. However, on average around 9 per cent. of the bus operators' costs are fuel costs, so a 10 per cent. rise in fuel costs will only increase total costs by 1 per cent. The rises in labour costs are likely to have had a more significant impact on bus industry costs in recent years.

Railways

Stephen Hammond: To ask the Secretary of State for Transport pursuant to the answer of 21 July 2008, *Official Report*, column 889, on railways, and with reference to the answers of 21 June 2006, *Official Report*, column 1865W, on train usage, and 29 March 2007, *Official Report*, column 1694W, on railways, whether equivalent data were gathered for *(a)* 2006 and *(b)* 2007; and for what reasons such data are not being gathered in respect of 2008. [224000]

Mr. Tom Harris: The Department for Transport has never collected such information about the rolling stock fleet in the format requested in order to conduct departmental business. On request, the Department has collated and presented such information about rolling stock in the past. However, this exercise has been judged to be a poor use of departmental resources given that this information is freely available from other sources. This exercise was last carried out in reply to the hon. Member for Epsom and Ewell's (Chris Grayling) written question, answered on 29 March 2007, *Official Report*, column 1694W.

Stephen Hammond: To ask the Secretary of State for Transport pursuant to the answer of 21 July 2008, *Official Report*, column 891W, on railways: standards and with reference to the answers of 20 December 2005, *Official Report*, column 2914W, on C2C Line: Rail One, and 1 February 2006, *Official Report*, column 562W on train operating companies, whether equivalent data relating to *(a)* 2005 and *(b)* 2006 were gathered; and what the figures were in the most recent year in which the data were gathered. [224001]

Mr. Tom Harris: The most recent financial year for which the Department holds complete data is 2007-08. For this data I refer the hon. Member to my answer of 21 July 2008, *Official Report*, column 891W.

The information requested was gathered in relation to financial years 2005-06 and 2006-07. This information is shown in the following table.

Train operating company	*Number of cancellations*	
	2005-06	*2006-07*
ATW	2,837	2,214
c2c	1,343	1,152
Chiltern	1,366	938
Crosscountry[1]	1,435	1,382
East Midlands[1]	1,952	1,970
First Capital Connect	5,565	5,166
First Great Western	4,609	7,045
First Scotrail	7,546	8,532
Gatwick Express	579	535
London Midland[1]	6,203	6,198
London Overground[1]	2,753	2,301
Merseyrail	3,038	2,077
Northern	6,116	7,626
NXEA	7,261	9,207
NXEC	546	805

Train operating company	Number of cancellations 2005-06	2006-07
Southeastern	6,341	5,227
Southern	6,892	5,954
South Western	5,663	6,034
TransPennineExpress	856	981
Virgin West Coast	688	878
Network Total	73,589	76,222

[1] These train operating companies were established in their present form in 2007. Numbers shown relate to the services currently operated by these companies.

Railways: Energy

Norman Baker: To ask the Secretary of State for Transport what the average energy cost of operating a train along one mile of *(a)* electrified and *(b)* diesel rail is at September 2008 fuel prices. [224065]

Mr. Tom Harris: Information on traction electricity prices for rail is published by Network Rail as part of the Appendices to Network Rail's April 2008 Strategic Business Plan. The document is on the internet at the following address:

http://www.networkrail.co.uk/browse%20documents/StrategicBusinessPlan/Update/Structure%20of%20Charges%20Appendices.pdf.

No comparable information is available on the prices paid by train operators for diesel fuel.

Railways: Exhaust Emissions

Norman Baker: To ask the Secretary of State for Transport how many kilograms of carbon dioxide are emitted on average from operating a train along one mile of *(a)* electrified and *(b)* diesel, rail. [224066]

Mr. Tom Harris: The amount of CO_2 emitted by diesel and electric trains varies according to the type of train and its operating conditions. Figure 18 from Professor Roger Kemp's recent report on rail traction energy compares the carbon performance of a range of domestic diesel and electric train types. Professor Kemp's report can be found on the internet at the following address:

http://www.rssb.co.uk/pdf/reports/research/T618_traction-energy-tfmetrics_final.pdf

Railways: Overcrowding

Stephen Hammond: To ask the Secretary of State for Transport with reference to page 35 of the National Rail Trends Yearbook, what measure his Department will use to monitor overcrowding across train operating companies; how many train operating companies will be so monitored; and when the results of such monitoring will be collated. [224007]

Mr. Tom Harris: The July 2007 White Paper, Delivering a Sustainable Railway, sets out a capacity metric in a High Level Output Specification (HLOS). The Department for Transport is currently developing a process by which it will report levels of crowding and delivery of the HLOS capacity metric.

The White Paper is available in the House Library or from the Department for Transport website:

www.dft.gov.uk.

Railways: Signals

Norman Baker: To ask the Secretary of State for Transport how many times railway signals were passed at danger in each month of each year between 1997 and 2008. [224067]

Mr. Tom Harris: The number of times signals were passed at danger on Britain's mainline railway in each month of each year between 1997 and 2008 is shown in the following table. The information is taken from the SPAD reports published on the Office of Rail Regulation's website and copies of which are available from the House Library.

The number of signals passed at danger (SPADs) each month from January 1997 – June 2008

	January	February	March	April	May	June	July	August	September	October	November	December
1997	41	51	62	66	42	52	55	73	47	68	83	36
1998	49	45	45	51	64	45	63	58	64	80	77	36
1999	59	45	54	46	55	68	66	53	55	73	56	22
2000	36	38	52	31	35	47	31	44	46	53	52	29
2001	33	42	43	37	56	33	50	48	30	40	44	32
2002	21	28	23	21	35	41	37	40	24	60	39	27
2003	37	23	29	21	33	29	38	34	29	47	46	36
2004	25	21	26	39	31	25	44	32	37	38	30	18
2005	27	23	34	21	17	40	28	27	31	41	31	25
2006	21	24	29	25	23	30	42	24	28	41	36	32
2007	27	13	19	21	30	28	31	23	29	41	39	24
2008	21	34	38	26	23	30	—	—	—	—	—	—

Roads: Tolls

Mrs. Villiers: To ask the Secretary of State for Transport how many bids for road pricing demonstration projects she has received; and how many of the eight demonstration schemes will utilise satellite technology. [223305]

Ms Rosie Winterton *[holding answer 10 September 2008]:* On 15 September 2008 the Government confirmed the names of the companies that will run the demonstrations project on road pricing technology. Eight bids were received in response to the invitation to tender for the Road User Service Providers Framework, of which four were successful. They were T-Systems Ltd, Trafficmaster

Plc, Sanef Tolling Limited and Intelligent Mechatronic Systems (UK): Satellite technology is a feature of each of these.

As we announced in 2007 and then updated Parliament on in July this year, these trials will explore how time-distance-place charging can work accurately, reliably and affordably while safeguarding privacy. Designing an effective mechanism to achieve these aims presents a significant challenge. We believe that this project will help local authorities in the longer-term development of their plans for combining a local congestion charging scheme with major investment in public transport.

Tolls: Manchester

Mr. Brady: To ask the Secretary of State for Transport (1) whether it is her policy that Greater Manchester local authorities should begin to repay the £1.2 billion of loans proposed under the Transport Innovation Fund Scheme in 2013, whether or not a congestion charge has been implemented in Manchester by that date; [224044]

(2) if she will make it her policy to indemnify Greater Manchester local authorities for the cost of repayments of proposed loans under the Transport Innovation Fund in the event that any congestion charge revenues are insufficient to meet the liability; [224045]

(3) for which public transport schemes the Association of Greater Manchester authorities has undertaken to implement at least 80 per cent. of the scheme prior to the introduction of congestion charging; and what the estimated cost of each scheme is. [224046]

Mr. Tom Harris: The Government awarded Programme Entry to the Association of Greater Manchester Authorities' Transport Innovation Fund (TIF) proposals in June 2008. The £2.8 billion package that AGMA developed combined investment in public transport and a congestion charging scheme. It was produced on the basis that 80 per cent. of the public transport would be delivered by the time that the charging scheme went live in 2013. In considering whether to award Programme Entry to the Package, and commit in principle up to £1.5 billion of TIF grant, we made a thorough assessment of the financial plans that supported the package and the risks associated with its delivery. We concluded that although there was more work to do to further develop the Package, it could be awarded programme entry at this stage. Repayment of prudential borrowing associated with the Package is incorporated into Greater Manchester's financial plans and, as with any prudential borrowing, this will be a matter for the authorities that undertake the borrowing.

The grant of Programme Entry does not denote any final commitment to provide funding for the AGMA proposals. The terms of the Programme Entry decision, including financial arrangements, are set out on DfT's website.

DEFENCE

Afghanistan: Peacekeeping Operations

Mr. Moore: To ask the Secretary of State for Defence what estimate his Department has made of the number of civilian casualties resulting from the use of air power in Afghanistan; what discussions he has had on this issue with his counterparts in nations contributing to the International Security Assistance Force and Operation Enduring Freedom; and if he will make a statement. [223580]

Des Browne *[holding answer 15 September 2008]:* The UK Government do not collate figures for civilian casualties in Afghanistan. We are in regular contact, at all levels, with our International Security Assistance Force (ISAF) partners to continue to ensure that our procedures to minimise the risk to civilians from the employment of Close Air Support are as effective as possible. Every effort is made by ISAF forces, including those of the UK, to avoid civilian casualties, which are always a source of profound regret.

Armed Forces: Training

Mr. Wallace: To ask the Secretary of State for Defence (1) whether his Department includes military training in its definition of military co-operation in the context of the Madrid Declaration of 1989; [223532]

(2) on what date he was first informed of proposals for members of the Chinese People's Liberation Army to attend Sandhurst; [223533]

(3) what recent discussions he has had with representatives of *(a)* the UK's Permanent Representation to the European Union and *(b)* the European Commission on military co-operation with China and the Madrid Declaration 1989; [223534]

(4) when his Department first arranged for students from the People's Liberation Army of China to attend Sandhurst. [223535]

Mr. Bob Ainsworth *[holding answer 15 September 2008]:* The MOD's bilateral programme with the Chinese People's Liberation Army is entirely consistent with the Government's policy of seeking to influence, through positive engagement, China's emergence as a responsible global player and with key allies' policies. Any military training offered is limited in scale and content so that it will not affect the regional strategic balance or enhance the People's Liberation Army's capability for internal repression. We keep the use the People's Liberation Army makes of MOD-provided training under review and these limited engagements will stop if there is firm evidence that any skills or knowledge we provide have been misused.

The planning for a Chinese officer cadet to attend Sandhurst began in 2006 as part of the MOD's overall defence relations and security co-operation programme. China was offered the opportunity to send a cadet to Sandhurst on 13 April 2007 and the officer attended Sandhurst between 9 September 2007 and 8 August 2008. Because the cadet's attendance at Sandhurst was consistent with the pan-Whitehall China strategy, my right hon. Friend the Secretary of State was not made aware of this individual serial in a much wider programme, which was endorsed by officials. However, we have never sought to conceal such engagements. Indeed, I refer to the answers I gave to the right hon. Member for Richmond, Yorks (Mr. Hague) on 29 February 2008, *Official Report*, columns 2016-20W, and the hon. Member for Romford (Andrew Rosindell) on 6 May 2008,

Official Report, column 840W, which listed foreign students who have attended the Academy since 1997, including the one from China.

My right hon. Friend the Secretary of State for Defence has not had any recent discussions with representatives of the United Kingdom's Permanent Representation to the European Union or the European Commission about military co-operation with China and the Madrid Declaration 1989.

Military Aircraft

Mr. Walter: To ask the Secretary of State for Defence how many Boeing-built, designed or supported *(a)* airborne platforms, *(b)* aircraft, *(c)* helicopters and *(d)* other air systems are (i) in use, (ii) in the process of acquisition or appraisal and (iii) under consideration for use in the three services. [223406]

Derek Twigg *[holding answer 10 September 2008]:* The following table lists the major air assets which Boeing have either built, designed or currently support.

Asset	*In use*	*Acquisition/ Appraisal*	*Under consideration*
Airborne Platforms	—	—	—
Aircraft			
Sentry	7	—	—
C-17	6	—	—
Boeing RC-135[1]	—	—	3
Helicopters	—	—	—
Apache	67	—	—
Chinook Mk2/2A	40	—	—
Chinook Mk3[2]	—	8	—
Other Air Systems	[3]—	[3]—	[3]—

[1] Under consideration for the assessment phase of Project HELIX (replacement for Nimrod R1 capability.)
[2] These helicopters are being converted to a support helicopter configuration and will enter service from late 2009.
[3] I am withholding the information as its disclosure would prejudice commercial interests.

Mr. Walter: To ask the Secretary of State for Defence how many United States-built, designed or supported *(a)* airborne platforms, *(b)* aircraft, *(c)* helicopters and *(d)* other air systems are (i) in use and (ii) under contract for future delivery in the three services. [223407]

Derek Twigg *[holding answer 10 September 2008]:* The following table lists the major air assets which United States companies have either built, designed or currently support.

Asset	*In use*	*Future delivery*
Airborne platforms		
Reaper[1]	2	3
Desert Hawk III[1]	104	27
Aircraft		
Hercules C-130K/J	41	—
Sentry	7	—
C-17	6	—
TriStar	9	—
BAE 125	6	—
Beech King Air 200	9	—
Joint Combat Aircraft[2]	[2]—	[2]—
Sentinel	4	1
Beech King Air 350 ER	—	4
Helicopters		
Apache	67	—
Chinook Mk2/2A	40	—
Chinook Mk3[3]	—	8
Sea King[4]	95	—
Bell 212	7	—
Bell 412	15	—
Other air systems		
AMRAAM	[5]—	—
Maverick	[5]—	—
Sidewinder	[5]—	—
Hellfire	[5]—	—
Paveway II/III	[5]—	—

[1] Unmanned aerial vehicle.
[2] For joint combat aircraft, the MOD has contracted for long lead production materiel as an enabler for its plans to purchase, subject to internal MOD and wider Government approval, three aircraft in early 2009. This purchase is required now to enable participation in joint Operational Test with the United States.
[3] These helicopters are being converted to a support helicopter configuration and will enter service from late 2009.
[4] These were built in the UK by what is now Agusta Westland under licence from Sikorsky.
[5] I am withholding information on the number of weapons held as the disclosure would, or would be likely to prejudice the capability, effectiveness or security of the armed forces.
Note:
Further air assets are not included in the table. I am withholding this information as the disclosure would, or would be likely to prejudice the capability, effectiveness or security of the armed forces.

Military Police: Armoured Fighting Vehicles

Robert Key: To ask the Secretary of State for Defence (1) when the Royal Military Police first *(a)* reported to his Department concerns that Land Rovers were deficient vehicles for operational duty and *(b)* requested replacement armoured vehicles; [223170]

(2) when the Royal Military Police first submitted an urgent operational requirement for armoured replacements for Land Rovers. [223171]

Mr. Bob Ainsworth *[holding answer 10 September 2008]:* Records indicate that the possibility of Royal Military Police units being equipped with better protected vehicles, when required to deploy in advanced positions in operational theatres, was raised in both 1999 and 2003. We have no record of any earlier suggestions of this kind.

A large number of improvements have been introduced to the vehicle fleet in recent years, with the result that commanders now have a greater choice of better protected, more capable vehicles than at any time previously. Royal Military Police personnel have benefited from these improvements as have personnel from all arms and services. There are no current issues relating to better

protected vehicles specifically for the Royal Military Police and we do not have any record of the Royal Military Police submitting an urgent operational requirement for armoured replacements for Land Rovers.

P5 Technical Laboratories

Jeremy Corbyn: To ask the Secretary of State for Defence what the agenda is for the meeting of the P5 technical laboratories to be hosted by the UK; when the meeting will take place; and if he will make a statement. [224216]

Des Browne: In offering to host a P5 conference between the laboratories of the Nuclear Weapon States, I proposed that it should take place within the current Nuclear non-proliferation treaty review cycle ending in 2010. The UK preference would be to hold the conference in the second half of 2009. Nevertheless, it is important to emphasise that this will be a P5 conference hosted by the UK rather than a UK conference to which our P5 partners are simply invited. My officials are continuing to engage with our P5 partners to ensure the agenda for the conference meets each nation's requirements in terms of timing and content. I will keep the House informed of progress.

Royal Fleet Auxiliary: Tankers

Chris Huhne: To ask the Secretary of State for Defence how many single-skin tankers there are in the Royal Fleet Auxiliary; what plans there are to replace them; and what the cost to his Department of environmental liability insurance for such tankers was in the last 12 months for which figures are available. [223210]

Mr. Bob Ainsworth *[holding answer 10 September 2008]:* There are currently four single-hulled dedicated tankers in-service with the Royal Fleet Auxiliary (RFA) with a further two general replenishment ships that have a tanking capability.

As part of the Military Afloat Reach and Sustainability (MARS) programme, MOD is in the process of procuring up to six new double-hulled Fleet Tankers. The new Fleet Tankers will replace the dedicated tankers and, along with the two existing Wave class ships, will meet the Royal Navy's future tanking requirements, removing the need to utilise the two general replenishment ships for tanking purposes. We are working alongside four bidders in the next stage of the planned procurement process for the Fleet Tankers; the main investment decision is expected to be made during 2009.

In common with general Government policy, the MOD does not purchase insurance to cover claims arising from environmental accidents: rather, the Department bears the risk of any such claims. These arrangements apply to any incidents, including those that might arise through the use of single-hulled tankers.

HOME DEPARTMENT

Asylum: Zimbabwe

Jeremy Corbyn: To ask the Secretary of State for the Home Department how many Zimbabwean nationals *(a)* sought asylum in the UK, *(b)* were granted refugee status, *(c)* were allowed to remain in the UK and *(d)* were removed to Zimbabwe in each of the last five years. [214619]

Mr. Byrne *[holding answer 2 July 2008]:* The following tables show Zimbabwean principal asylum applications, initial decisions and removals, 2003-07, where available. Initial decisions do not necessarily relate to applications made in the same period. Removals do not necessarily relate to refused applications decided in the same period. Destination data for persons removed from the UK have only been collated since 2004, so this information is not available for earlier years. Removal figures only relate to those removed to Zimbabwe and not to other destinations.

Information on asylum is published annually and quarterly. Copies of asylum publications are available from the Library of the House and from the Home Office Research, Development and Statistics Directorate website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Asylum applications[1] received in the United Kingdom, excluding dependants, and initial decisions[2] on applications, 2003 to 2007, nationals of Zimbabwe

Principal applicants

	2003	*2004*	*2005*	*2006[3]*	*2007[3]*
Applications					
Total	3,295	2,065	1,075	1,650	1,755
Port	715	395	165	165	265
In country	2,580	1,665	910	1,480	1,490
Decisions					
Total decisions	4,190	2,560	1,040	1,680	1,425
Grants of asylum	875	220	80	140	250
Grants of ELR[4]	10	n/a	n/a	n/a	n/a
Grants of HP[4]	5	*	*	*	*
Grants of DL[4]	20	25	15	30	20
Total refusals	3,285	2,310	945	1,510	1,155
Certified refusals	45	*	5	5	10
Other refusals	2,810	2,130	870	1,430	1,125
Third country refusals[5]	10	10	5	—	*
Non-compliance refusals[6]	420	165	70	70	20

n/a = Not applicable.
[1] Figures rounded to nearest 5, ('—' = 0, * = 1 or 2).
[2] Information is of initial decisions, excluding the outcome of appeals or other subsequent decisions.
[3] Provisional figures.
[4] Humanitarian protection and discretionary leave replaced exceptional leave to remain from 1 April 2003.
[5] Refused on the grounds that the applicant had arrived from a safe third country.
[6] Paragraph 340 of Immigration Rules. For failure to provide evidence to support the asylum claim within a reasonable period, including failure to respond to invitation to interview.
Source:
Immigration Research and Statistics

Removals, voluntary departures and assisted returns[1,2] of Zimbabwean asylum applicants, excluding dependants removed to Zimbabwe, 2004-07[3]

Zimbabwean asylum applicants removed to Zimbabwe	*Number of removals*
2004	100
2005	245
2006[4]	215

Removals, voluntary departures and assisted returns[1,2] of Zimbabwean asylum applicants, excluding dependants removed to Zimbabwe, 2004-07[3]

Zimbabwean asylum applicants removed to Zimbabwe	*Number of removals*
2007[4]	165

[1] Includes persons refused entry at port and subsequently removed (including cases dealt with at juxtaposed controls), persons departing voluntarily after enforcement action had been initiated against them and persons leaving under Assisted Voluntary Return Programmes run by the International Organization for Migration.
[2] Removals since 2005 include those who it is established have left the UK without informing the immigration authorities.
[3] Persons who had sought asylum at some stage.
[4] Provisional figures
Note:
Figures are rounded to the nearest five.

Corporate Hospitality

David Simpson: To ask the Secretary of State for the Home Department on how many occasions she has accepted corporate hospitality in the last 12 months. [171300]

Mr. Byrne: Chapter 7 of the Ministerial Code sets out the rules on the registration of hospitality.

Departmental Buildings

Stewart Hosie: To ask the Secretary of State for the Home Department how much her Department spent on *(a)* new capital investment and *(b)* refurbishment of property in each of the last 10 years, broken down by project. [212866]

Mr. Byrne: The Department's accounts system does not hold the information at the requested level of detail. An answer could not be provided without incurring disproportionate cost.

Departmental Conferences

Mr. Hoban: To ask the Secretary of State for the Home Department if she will list the conferences hosted by her Department in each of the last two years; and what the cost was of each conference. [211698]

Mr. Byrne: The amount spent on conference activity in 2006-07 was £9,325,652. The main conferences were "Tackling Drugs—Changing Lives"; New Asylum Model; eBorders Industry events; Schools Pack and "Drugs, Alcohol and Social Work".

The amount spent on conference activity in 2007-08 was £4,020,987. The main conferences were "Victim Support—the changing landscape of crime"; "Tackling Drugs: Changing Lives"; National Identity Scheme Bidder; Young People Consultation and European Refugee Fund external stakeholder event.

Information on the cost of each conference could be obtained only at disproportionate cost, as the data are not recorded separately on the Department's accounting systems.

Departmental Data Protection

Mr. Hoban: To ask the Secretary of State for the Home Department whether personal data held by her Department are always encrypted prior to being transferred to compact discs for transmission. [180400]

Mr. Byrne: In line with current Cabinet Office guidance, the Home Office does not always encrypt personal data before transferring it by disc. Since 22 November 2007, the Home Office has been undertaking a review of its technical, process and procedural arrangements to ensure that the risk of data being compromised is managed and reduced to a minimum.

I also refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179:

"...I have asked the Cabinet Secretary and security experts to ensure that all Departments and all agencies check their procedures for the storage and use of data..."

An interim progress report on the review was published by the Cabinet Office through a written ministerial statement on 17 December 2007, *Official Report*, column 98WS. This included a recommendation to enhance the transparency with Parliament, and the public about the action taken to safeguard information and the results of that action, through publication of results Departmental annual reports and an annual report to Parliament.

Departmental ICT

Sarah Teather: To ask the Secretary of State for the Home Department how many *(a)* mobile telephones, *(b)* personal digital assistants and *(c)* laptop computers issued to departmental staff were reported (i) lost, (ii) missing and (iii) stolen since 2001. [184321]

Mr. Byrne: We only have accurate information for the last three years.

In 2005 26 mobiles were recorded as lost, seven as stolen and four as missing. No personal digital assistants (PDAs) were recorded as lost, stolen or missing, three laptops were reported as lost and 11 laptops were reported as stolen.

In 2006 seven mobiles were recorded as lost and three as missing. Five PDAs were reported as lost and two were reported as stolen. Additionally, three laptops were reported as lost, one as missing and 10 as stolen.

In 2007 43 mobile telephones were reported as lost and four were reported as stolen. Nine PDAs were reported as lost and three stolen. Additionally, three laptops were reported as lost and 12 reported as stolen.

Mr. Hoban: To ask the Secretary of State for the Home Department what IT contracts her Department and its agencies have entered into in the last two years. [215119]

Mr. Byrne: The Home Department and its agencies have awarded the following information technology (IT) contracts in the last two years.

Department/ Agency	*Contractor's name*	*Description of contract*
Home Department	Sawis	Hosting of applications on the GSI for access by various desktop networks
UKBA	Trusted Borders Consortium	Delivery of a modernised border control
UKBA	Finsoft Financial Systems	Provision of a collaborative Business Portal for 3 party accommodation providers software system and support.
IPS	Datacard	Public Card Reader

Departmentl Agency	Contractor's name	Description of contract
IPS	Kallidus	Learning Tool
IPS	nCipher	Develop Cardlink and Primelink EAC 672W
IPS	Saba Solutions	Virtual Classroom SW

Departmental Manpower

Mr. Redwood: To ask the Secretary of State for the Home Department what the change in the number of employees in her Department and its agencies has been since July 2006. [217064]

Mr. Byrne: The Home Office annual reports provide the staff numbers for each of the last two years.

2007-08 Annual Report, information is available on page 102, table reference 5.6

http://www.homeoffice.gov.uk/documents/ho-annual-report-08?view=Binary.

2006-07 Annual Report, information is available on page 112, table reference 5.6

http://www.homeoffice.gov.uk/documents/ho-annual-report-07?view=Binary.

In 2006-07 the Home Office HQ included the following departments: Communities Group, National Offender Management Service (NOMS) and Office for Criminal Justice Reform (OCJR). NOMS and OCJR left in May 2007 to join the new Ministry of Justice, and Communities Group transferred to Department for Communities and Local Government in May 2006.

Departmental Marketing

Mr. Philip Hammond: To ask the Secretary of State for the Home Department how much her Department and its agencies spent on branding and marketing activity in 2007-08. [212054]

Mr. Byrne: The Home Office and its agencies (the UK Border Agency, the Identity and Passport Service and the Criminal Records Bureau) spent a total of £10,208,700 on branding and marketing activity in 2007-08.

Departmental Overtime

Mr. Hoban: To ask the Secretary of State for the Home Department what the cost of overtime payment paid to staff in her Department was in each of the last 12 months, broken down by pay grade. [221303]

Mr. Byrne: Home Office policy is that overtime working is kept to a minimum and used only in periods of exceptional work pressure. However, because of the nature of immigration work, immigration staff in the UK Border Agency are routinely required to work shifts which attract overtime payments, including premium payments for all weekend working (whether or not it is overtime).

As immigration staff represent a significant proportion of total staff, over 75 per cent. of overtime cost is attributable to immigration staff duties, most of which will be due to the need to undertake routine shift work. Immigration staff are also required to stay beyond their usual shift working time to complete passenger casework and minimise disruption to the majority of the travelling public.

Table 1, placed in the House Library, summarises all gross overtime payments made to employees in the core Home Office, UK Border Agency, Identity and Passport Service and Criminal Records Bureau, for each of the last 12 months. The data are broken down by grade and also record, separately, immigration staff. It has not proved possible to include employer pension and employer national insurance costs without incurring disproportionate costs.

Departmental Pay

Mr. Hoban: To ask the Secretary of State for the Home Department how much was claimed in reimbursable expenses by special advisers in her Department in each of the last 10 years. [215224]

Mr. Byrne: Information on how much was claimed in reimbursable expenses by special advisers from 1998 to 2001 is not held centrally. Information from 2002 to 2008 is as follows:

	£
2002-03	323
2003-04	226
2004-05	1,817.94
2005-06	514.29
2006-07	538.61
2007-08	1,150.77

Procedures for reimbursing staff expenses are set out in the staff handbook and are in line with the provisions set out in the Civil Service Management Code. The code can be viewed at:

www.civilservice.gov.uk/iam/codes/csmc/index.asp.

Departmental Postal Services

Mr. Hoban: To ask the Secretary of State for the Home Department what steps her Department has taken to monitor the cost of its mail services in the last 12 months. [221491]

Mr. Byrne: For the last 12 month, the cost of mail services has been monitored at regular intervals to ensure that mail budgets are not exceeded and value for money is secured. The Department has liaised with the existing, as well as alternative, mail service providers in order to review efficiency and ensure best value.

Entry Clearances

Mr. Soames: To ask the Secretary of State for the Home Department which 80 immigration routes the Government are replacing; and how many entry clearances were granted under each route in the latest year for which figures are available. [212857]

Mr. Byrne *[holding answer 20 June 2008]:* Those routes scheduled to be replaced under the Government's points system include:

Fresh Talent: Working in Scotland scheme
Highly Skilled Migrant programme
Innovators
International Graduates scheme
Investors

Persons intending to establish themselves in business
Self-employed lawyers
Writers, composers and artists
Airport-based operational ground staff
Intra-company transfer
Jewish agency employees
Ministers of Religion, Missionaries and Members of Religious Orders
Named researchers
Overseas qualified nurse or midwife
Overseas representatives (news media)
Sabbatical posts
Seafarers
Training and work experience scheme (also tier 5)
Work permit employment (also tier 5)
Association of American Study Abroad programme
Bar students
Exchange students
Music students
Pestalozzi Childrens' Trust
Pupillage
Resit of Examinations
Riding schools
Sandwich students
St. George's University School of Medicine
Student nurses
Students
Welbeck college (Army recruits)
Writing up a thesis
Au Pair (non EEA)
British Universities North America Club
China Graduate Work Experience programme
EU Leonardo da Vinci programme
Exchange teachers and language assistants
Gap year entrants
General Agreement on Trade and Services
International Association for the Exchange of students of Technical Expertise
International Fire Fighter Fellowship programme
Japan Youth Exchange scheme
Medical Training Initiative
Non-pastoral religious workers
Overseas domestic workers in diplomatic households
Overseas Government employees
Research assistants to Members of Parliament
Rudolf Steiner
Sponsored researchers
Training and Work Experience scheme (also Tier 2)
Vander Elst
Visiting religious workers
Voluntary workers
Work permit employment (also Tier 2)
Working Holidaymaker scheme
Overseas domestic workers in private households
Retired persons of independent means
Sole representatives
Aircrew
Civilian personnel in foreign armed forces
Nurses in supervised practice
Postgraduate doctors and dentists
Turkish European Community Association Agreement
UK Ancestry
Offshore workers
Employees of firms under contract to NATO
Seasonal agricultural workers
Sector Based schemes
Entertainers' Concession (incl PFFs)
Sportspersons' Concession
Clinical attachment or dental observer
Film Crew on Location
PLAB Test
Prospective students

It is not possible to separately identify the entry clearance for each of these routes without incurring disproportionate cost, as many are currently covered by a single entry clearance process.

Entry Clearances: Working Holidays

Mr. Soames: To ask the Secretary of State for the Home Department how many entry clearances were granted under the working holidaymakers scheme in each of the last five years; and how many were granted to applicants from each of the top 10 source countries in those years. [212855]

Mr. Byrne *[holding answer 20 June 2008]:* The total number of entry clearances issued globally under the Working Holidaymaker (WHM) Scheme in each of the last four financial years (2004-08) is shown in the table. The number of such entry clearances issued in the top 10 WHM source countries in each of these years is also shown.

In FY 2003-04, a total of 59,822 WHM visas were issued globally. However, we are unable to provide accurate figures for the numbers issued in individual countries in this or previous financial years.

The data shown in the following tables are unpublished and should therefore be treated as provisional.

Working holidaymaker visas issued: FY 2004—FY 2008

	Country	*FY 2004-05 issued*
1	Australia	23,257
2	South Africa	21,781
3	Canada	5,258
4	New Zealand	4,833
5	Ghana	3,224
6	India	2,033
7	Malaysia	1,470
8	Namibia	1,101
9	United States	674
10	Sri Lanka	639
	Total (top 10)	64,270
	Total (all countries)	69,132

	Country	*FY 2005-06 issued*
1	Australia	19,197
2	South Africa	16,773
3	Canada	4,508
4	New Zealand	4,408

	Country	FY 2005-06 issued
5	Ghana	2,231
6	India	1,550
7	United States	479
8	Trinidad and Tobago	461
9	Singapore	315
10	Irish Republic	248
	Total (top 10)	50,170
	Total (all countries)	52,598

	Country	FY 2006-07 issued
1	Australia	20,588
2	South Africa	8,946
3	New Zealand	4,664
4	Canada	3,852
5	India	2,302
6	Ghana	1,406
7	Bangladesh	548
8	United States	362
9	Malaysia	313
10	Trinidad and Tobago	301
	Total (top 10)	43,282
	Total (all countries)	46,048

	Country	FY 2007-08 issued
1	Australia	14,948
2	South Africa	6,374
3	New Zealand	3,306
4	Canada	3,060
5	India	2,686
6	Malaysia	1,016
7	Ghana	855
8	Bangladesh	602
9	Trinidad and Tobago	285
10	United States	260
	Total (top 10)	33,392
	Total (all countries)	35,641

Immigration Controls

Damian Green: To ask the Secretary of State for the Home Department what estimate she has made of the average number of employees per sponsor likely to be applied for under tier 2 of the points-based system. [218909]

Mr. Byrne: We do not yet have projected figures for the average number of migrant employees per sponsor.

Our analysis of historic work permit data shows that an average annual figure for migrant employees per employer is not indicative of employer/migrant activity overall. It is skewed towards a very low average, and therefore we believe it is of limited use for planning or reporting purposes.

However, historical data relating to work permits show 81.6 per cent. of organisations over a four year period used less than five work permits each.

Immigration: Appeals

Jo Swinson: To ask the Secretary of State for the Home Department what the target processing time has been in relation to appeals to asylum and immigration tribunals in each of the last five years. [224107]

Mr. Wills: I have been asked to reply.

The Asylum and Immigration Tribunal (AIT) (prior to April 2005 the Immigration Appellate Authority) has joint target processing times with the Home Office and information covering each of the last five years is shown in the following table.

	Target	Performance
2007-08	Joint PSA target with the Home Office: To grant or remove 90 per cent. of asylum claimants within six months by the end of 2011 Milestone: 40 per cent. of new asylum claimants by December 2007	46 per cent. of new applications received in June 2007 were concluded within six months by the end of December 2007
2007-08[1]	Receipt in AIT to promulgation by Immigration Judge:	
	Asylum—75 per cent. in six weeks	Asylum—61 per cent. in six weeks
	Managed Migration (In Country Immigration)—75 per cent. in eight weeks	Managed Migration—66 per cent. in eight weeks
	Entry Clearance (Out of Country Immigration)—75 per cent. within 10 weeks of receipt of respondent's bundle	Entry Clearance—49 per cent. in 10 weeks of receipt of respondent's bundle
	Family Visit Visa—75 per cent. within 10 weeks of receipt of respondent's bundle	Family Visit Visas—66 per cent. in 10 weeks of receipt of respondent's bundle
2006-07	Joint PSA target with the Home Office: To grant or remove 90 per cent. of asylum claimants within six months by the end of 2011 Milestone: 35 per cent. of new asylum claimants by April 2007	38 per cent. of new applications received in September 2006 were concluded within six months
2005-06	Joint PSA target with the Home Office: 75 per cent. of substantive asylum applications including the final appeal decided within six months	74 per cent. of applications received in 2005-06 had a final decision up to and including appeal, within six months

	Target	Performance
2004-05	Joint PSA target with the Home Office: 65 per cent. of substantive asylum applications including the final appeal decided within six months	67 per cent. of substantive applications in 2004-05 had a final decision up to and including appeal at the Immigration Appeal Tribunal, within six months
2004-05	75 per cent. of asylum cases, covered by the PSA, to be decided by adjudicators within 12 weeks from receipt	77 per cent. decided within 12 weeks of receipt
2003-04	Joint PSA target with the Home Office: 60 per cent. of substantive asylum applications including final appeal decided within six months	64 per cent. of substantive applications in 2003-04 had a final decision up to and including appeals at the Immigration Appeal Tribunal, within six months

[1] Key Performance Indicators were introduced in April 2007 to measure the waiting times for all main AIT case types.

Jo Swinson: To ask the Secretary of State for the Home Department what the average processing time has been for appeals to asylum and immigration tribunals in each of the last five years. [224108]

Mr. Wills: I have been asked to reply.

The average processing times for appeals to the Asylum and Immigration Tribunal (prior to April 2005 the Immigration Appellate Authority) in each of the last five years is available and the information is shown as follows.

	Case type[1]	Average waiting time from receipt in the IAA/AIT to promulgation by an Adjudicator/Immigration Judge[2] (weeks)
2007-08	Asylum	8
	Managed Migration (In Country Immigration)	10
	Entry Clearance (Out of Country Immigration)	26
	Family Visit Visas	20
2006-07	Asylum	9
	Managed Migration (In Country Immigration)	10
	Entry Clearance (Out of Country Immigration)	30
	Family Visit Visas	30
2005-06[3]	Asylum	15
	Managed Migration (In Country Immigration)	10
	Entry Clearance (Out of Country Immigration)	17
	Family Visit Visas	22
2004-05	Asylum	17
	Immigration	12
	Family Visit Visas	10
2003-04	Asylum	17
	Immigration	13
	Family Visit Visas	8

[1] Separate information on In Country and Out of Country Immigration appeals is not available prior to April 2005.
[2] Average waiting time information is taken from reports produced for internal use by the IAA and AIT from their databases. It is not subject to the same quality checks as performance targets and other published data.
[3] Data for 2005-06 taken from the AIT database ARIA, and covers from commencement of AIT on 4April 2005.

Parking Offences: Fixed Penalties

Mr. Sanders: To ask the Secretary of State for the Home Department what research her Department has *(a)* commissioned and *(b)* evaluated on the relationship between the level of penalty imposed for parking offences and the incidence of such offences. [224056]

Mr. Tom Harris: I have been asked to reply.

Local authorities in England with the power to enforce parking on the street and in local authority owned car parks may issue penalty charge notices to vehicles parked in contravention of the regulations. The primary purpose of a penalty charge is to encourage compliance with parking regulations and authorities are advised to adopt the lowest charge level consistent with a high level of public acceptability and compliance. Authorities must set levels that comply with the guidelines of the Mayor (in London) and the Secretary of State (outside London). A range of factors may influence the incidence of parking contraventions in particular areas. The Department for Transport has not commissioned or evaluated specific research on this particular factor.

Police: Ethnic Groups

Mr. Ruffley: To ask the Secretary of State for the Home Department what percentage of *(a)* police community support officers and *(b)* regular police officers fall into each ethnic category in each police force area. [219157]

Mr. McNulty: The available data are given in the following tables.

Table 1: Police community support officer ethnicity[1] by police force area as at 31 March 2007

Percentage

Police force	White	Mixed	Black or Black British	Asian or Asian British	Chinese or Other ethnic group	Not stated
Avon and Somerset	96	1	1	1	1	1
Bedfordshire	89	4	1	6	0	0
Cambridgeshire	93	2	1	3	0	1
Cheshire	100	0	0	0	0	0
Cleveland	98	0	0	2	0	0

[1] This table is based on full-time equivalent figures that have been rounded to the nearest whole number. Because of rounding, there may be an apparent discrepancy between totals and the sums of the constituent items.
[2] Figures up to 31 March 2002 exclude staff on career breaks or maternity/paternity leave. The figures for 31 March 2003 onwards figures include those on career breaks or maternity/paternity leave.
[3] Boundary changes on 1 April 1996 transferred resources for the policing of the Rhymney Valley from South Wales Police to Gwent Police.
[4] Boundary changes on 1 April 2000 transferred some resources from the Metropolitan Police to Essex, Hertfordshire and Surrey police forces.
[5] Officers per 100,000 population for City of London and Metropolitan Police are combined.

Population estimates are provided by the Office for National Statistics (ONS).

Work Permits: Health Professions

Mr. Clappison: To ask the Secretary of State for the Home Department which 20 non-EU nationalities received the most work permits for *(a)* doctors and *(b)* nurses in each year since 1997; and how many such work permits were issued to non-EU nationals in each of those years. [210421]

Mr. Byrne: Tables placed in the House Library show the 20 non-EU nationalities (where applicable) with the highest number of work permits granted each year for doctors and nurses in the period 1 January 2000 to 31 December 2007.

CHILDREN, SCHOOLS AND FAMILIES

Adoption

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) how many *(a)* people and *(b)* couples had been assessed as suitable adoptive parents and were yet to adopt at the most recent date for which information is available; [223342]

(2) how many *(a)* people and *(b)* couples were assessed as suitable adoptive parents in each of the last 10 years; [223344]

(3) how many children who were adopted waited longer than *(a)* one month, *(b)* six months and *(c)* one year to be adopted following the decision that adoption was in their best interest in each of the last five years. [223345]

Kevin Brennan *[holding answer 10 September 2008]*: The information requested is as follows:

223342

Data on how many *(a)* people and *(b)* couples have been assessed as suitable adoptive parents and were yet to adopt are not collected centrally by the Department.

223344

Data on how many *(a)* people and *(b)* couples have been assessed as suitable adoptive parents in each of the last 10 years are not collected centrally by the Department.

223345

Information on how many children who were adopted waited longer than *(a)* one month, *(b)* six months and *(c)* one year to be adopted following the decision that adoption was in their best interest in each of the last five years is shown in the following table.

The table provides the information requested for looked after children who were adopted. The figures shown for the time between the decision that adoption was in the child's best interest and the date of adoption are cumulative.

Looked after children adopted during the years ending 31 March by the time between the decision that adoption was in their best interest and adoption, 2003 to 2007[1,2]

England	Year ending 31 March in which adopted				
	2003	2004	2005	2006	2007
All Children looked after adopted	3,500	3,800	3,800	3,700	3,300
Time between decision that adoption was in the best interest and adoption					
More than 1 month (30 days)	3,500	3,800	3,800	3,700	3,300
More than 6 months (182 days)	3,400	3,600	3,600	3,500	3,200
More than 1 year	2,500	2,700	2,600	2,500	2,400

[1] SSDA903 return on children looked after.
[2] Historical data may differ from older publications. This is mainly due to the implementation of amendments and corrections sent by some local authorities after the publication date of previous materials.

Children: Databases

Annette Brooke: To ask the Secretary of State for Children, Schools and Families how and by whom the new statutory guidance on sections 10 and 11 of the Children Act 2004 will be monitored and evaluated; and when he expects the first evaluation to be completed. [223353]

Beverley Hughes: As set out in the Children's Plan launched by the Secretary of State in December 2007, the Government are committed to publishing revised statutory guidance under Section 10 of the Children Act 2004 on inter-agency co-operation to improve the well-being of children, young people and families later this year. A revised version of the statutory guidance under Section 11 on making arrangements to safeguard and promote the welfare of children, originally issued in 2005, was published in April 2007. The Government have no plans to issue further revised guidance at this stage.

The Government have no plans to provide specific additional funding for implementing these guidance documents, which are intended to clarify the statutory responsibilities of local authorities and other bodies, including health agencies, for which they receive mainstream funding. The Government have however commissioned an audit of the extent to which public organisations have been complying with their duties under Section 11. The results of the survey will be made public in spring 2009.

From April 2009, the performance of local authorities and their partners will be assessed under the new, multi-inspectorate Comprehensive Area Assessment (CAA). This will focus on the delivery of key outcomes in an area, and the contribution of statutory and non-statutory partners, including health agencies, will be in scope. Inspectorates are currently consulting on CAA, and intend to publish their framework in February 2009. CAA will report annually, with the first reports in November 2009.

Departmental Pay

Mr. Philip Hammond: To ask the Secretary of State for Children, Schools and Families how much was claimed in reimbursable expenses by press officers in his Department and its agencies in each of the last three financial years. [221169]

Jim Knight: The total amount claimed as reimbursable expenses by press officers are as follows:

	£
2005-06	2,688
2006-07	4,981
2007-08	5,036

These figures include expenses claimed by press officers who transferred to DIUS in the machinery of government changes in 2007. We do not hold records of expenses claimed by any outside agencies.

Education and Inspection Act 2006: Parenting Orders

James Brokenshire: To ask the Secretary of State for Children, Schools and Families how many parenting orders under section 98 of the Education and Inspection Act 2006 have been issued since September 2007. [224101]

Jim Knight: To date, no local authority has applied to the courts for a parenting order following a pupil's exclusion from school or for serious misbehaviour. Use of parenting orders was always intended to be a last resort, after local authorities and schools had used a wide range of strategies to address poor behaviour in schools such as voluntary parenting contracts for behaviour. 86 local authorities have agreed over 6,500 parenting contracts for behaviour since September 2004.

Education: Assessments

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) what proportion of *(a)* English, *(b)* mathematics and *(c)* science key stage 3 tests he estimates will have been marked and entered into the computer system by 15 July 2008; and if he will make a statement; [217700]

(2) what estimate he has made of the number of *(a)* key stage 2 and *(b)* key stage 3 pupils who will not receive their national test results in (i) English, (ii) mathematics and (iii) science by 18 July 2008; and if he will make a statement; [218222]

(3) which schools will not receive their national test results by 18 July 2008; and if he will make a statement; [218223]

(4) what progress has been made in marking key stage 2 and 3 national test papers; and if he will make a statement. [218225]

Jim Knight: The administration and marking of national curriculum tests is a function of the Qualifications and Curriculum Authority (QCA) that is delivered independently of Government. The National Assessment Agency (NAA) manages the marking process within the QCA. NAA has advised that, to date, the proportion of Key Stage 2 and Key Stage 3 English, maths and science results available to schools are as follows:

	Percentage
Key Stage 2	
English	99.4
Mathematics	99.6
Science	99.7
Key Stage 3	
English	97.4
Mathematics	98.9
Science	99.9

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) by what date he expects all key stage 2 test results to have been delivered to schools; [220484]

(2) by what date he expects all key stage 3 test results to have been delivered to schools. [220485]

Jim Knight: The administration and marking of national curriculum tests is a function of the Qualifications and Curriculum Authority (QCA) that is delivered independently of Government. The National Assessment Agency (NAA) manages the marking process within the QCA. NAA has advised that, at present, over 99.5 per cent. of Key Stage 2 and over 98 per cent. of Key Stage 3 results have been made available to schools.

National Strategies: Finance

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what the budget is, including monies allocated through the Standards Fund and Area-Based Agreements, for the National Strategies in 2008-09. [224222]

Jim Knight: The budget allocated for the National Strategies programmes in 2008-09 is:

£86 million for the central support and challenge function to local authorities, schools and early years settings, including substantial free resources provided through the web and in hard copy form. This central resource supports a range of programmes, for example school improvement, behaviour and attendance and early years, whose local delivery is supported from other budgets.

£60 million for local authority delivery and support to schools which is now a component part of the area based grant paid to local authorities.

£218 million standards fund grant for schools to access the national strategies' core training and support.

Pre-School Education: Disadvantaged

Dr. Starkey: To ask the Secretary of State for Children, Schools and Families what steps his Department has taken to ensure that children from disadvantaged families have the same access to pre-school educational care as other children. [223557]

Beverley Hughes *[holding answer 15 September 2008]:* All three and four-year-olds are now guaranteed free, part time early education, so that they can receive two years high quality early learning before school starting age. Local authorities are required to reach out to particularly disadvantaged and hard to reach groups within their local community to maximise take up of this free entitlement. We are also piloting free early years provision to 13,000 disadvantaged two-year-olds across 32 local authorities. As set out in the Children's Plan, we are investing £100 million over three years to extend the offer of up to 15 hours of free early education and child care to a further 20,000 two-year-olds in the most disadvantaged communities.

Since April 2008, local authorities have been under a duty to secure sufficient child care for working parents in their area, paying particular attention to the needs of families from disadvantaged backgrounds as reported in their child care sufficiency assessments. We are also doing more than ever to make good quality child care affordable, particularly through spending some £3.5 million every day on tax credits for lower and middle income working families. The Department is running an 'Affordable Childcare' media campaign, aimed at disadvantaged families in particular, informing parents of the benefits of child care for children and the financial help available through tax credits. In addition, we are pursuing an initiative to improve the take-up of child care by hard-to-reach and black and minority ethnic families, as well as a scheme to help workless families with child care as they train for work.

Schools: Inspections

Tim Farron: To ask the Secretary of State for Children, Schools and Families what *(a)* formal and *(b)* informal support measures his Department provides to headteachers whose school is undergoing an Ofsted inspection. [224231]

Jim Knight: The Department does not provide specific support to head teachers during a school inspection. However, Ofsted provides a helpline which head teachers can access if they need advice or have concerns about an inspection.

Ofsted aims to make the school inspection process as transparent as possible. It publishes its inspection guidance so that headteachers can benefit from a clear understanding of how their school will be inspected. It also produces the Self-evaluation Form (SEF) and jointly with Department provides schools with RAISEonline, a performance data package which allows schools to analyse their own performance. Both these link to the framework used by inspectors in assessing a school, which is published.

All schools have School Improvement Partners tasked with providing regular professional challenge and support in the process of school improvement, including help with taking forward Ofsted's recommendations.

Schools: Standards

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what percentage of pupils who have taken part in the Making Good Progress pilot did not pass the single level test at the first attempt in *(a)* English, *(b)* mathematics and *(c)* science at key stage 2 (i) level 4 and (ii) level 5. [224223]

Jim Knight: National level results of the single level tests have not yet been published. They will be published as part of an independent evaluation of the Making Good Progress pilot which is being conducted by PricewaterhouseCoopers. Their interim report will be published in autumn 2008.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what percentage of pupils who have taken part in the Making Good Progress pilot to date reached key stage 2 level 4 in *(a)* English, *(b)* mathematics and *(c)* science by the end of year 6. [224224]

Jim Knight: We are not able to provide results from the 2008 Key Stage 2 National Curriculum assessments for schools involved in the Making Good Progress pilot. These results are currently provisional and have been published at national and local authority level only.

The percentage of pupils achieving level 4 in Key Stage 2 National Curriculum assessments in English, mathematics and science will be published at school level, including schools involved in the Making Good Progress pilot, in the 2008 Primary Achievement and Attainment Tables.

National level results of the single level tests have not yet been published. They will be published as part of an independent evaluation of the Making Good Progress pilot which is being conducted by PricewaterhouseCoopers. Their interim report will be published in autumn 2008.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) in how many schools *(a)* 75 per cent. or more and *(b)* 50 per cent. or more of pupils eligible to receive free school meals did not achieve a single GCSE above grade D in the latest academic year for which figures are available; [224226]

(2) in how many schools 50 per cent. or more of pupils did not achieve a single GCSE above grade D in the latest academic year for which figures are available. [224225]

Jim Knight: The information requested is as follows.

In 103 schools 75 per cent. or more of the pupils eligible to receive free school meals did not attain any GCSE and equivalent grades higher than a D in 2006/07.

In 754 schools 50 per cent. or more of the pupils eligible to receive free school meals did not attain any GCSE and equivalent grades higher than a D in 2006/07.

Of the 76,568 pupils eligible for FSM attending maintained secondary schools who took any GCSE and equivalent in 2006/07, 30,881 (40.3 per cent.) did not attain grades higher than a D.

In 483 schools 50 per cent. or more of the pupils did not attain any GCSE and equivalent grades higher than a D in 2006/07.

These figures relate to GCSE and equivalent and based on pupils at the end of KS4 in all maintained schools.

Only schools with 10 or more pupils are included in the answer.

Sure Start Programme: Manpower

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families (1) what the total *(a)* number and *(b)* cost was of health visitors, midwives and community nursery nurses employed by Sure Start local programmes and paid for by the Sure Start Local Programme Block in 2007-08; and what the allocations are for these services in each year from 2008-09 to 2010-11; [223642]

(2) what the total *(a)* number and *(b)* cost was of dedicated outreach workers employed by Sure Start local programmes and paid for by the Sure Start Local Programme Block in 2007-08; and what the allocations are for these services in each year from 2008-09 to 2010-11. [223643]

Beverley Hughes *[holding answer 15 September 2008]:* The Department does not collect information on the total number and cost of staff employed in Sure Start children's centres and paid for by the Sure Start children's centre revenue funding in 2007-08 (Sure Start local programmes have all become children's centres). That is a matter for local management by local authorities and their partner agencies. We allocate revenue funding to local authorities for Sure Start children's centres through the Sure Start, Early Years and Childcare Grant. Local authorities determine how much individual centres receive to meet the needs of the local community. We notified local authorities of their Sure Start children's centres funding allocations for each year from 2008-09 to 2010-11 in August 2007 and these are available on the Sure Start website at

http://www.surestart.gov.uk/publications/index.cfm?document=1925

The majority of health visitors, midwives and community nursery nurses who work from children's centres are employed by the local health service and would not be funded by the Sure Start, Early Years and Childcare Grant. We do not collect information on how many health visitors, midwives and community nursery nurses work from children's centres.

JUSTICE

Antisocial Behaviour: Fixed Penalties

James Brokenshire: To ask the Secretary of State for Justice whether he plans to increase the financial penalty arising from the issuance of a penalty notice for disorder. [223502]

Mr. Hanson: There are no plans to increase the financial penalty arising from the issue of a PND, at present.

Under the PND Scheme, the police can issue a fixed penalty of £50 or £80 for a specified range of anti-social behaviour offences including minor shoplifting and criminal damage. Penalty levels are kept under review.

Community Orders

Mr. Garnier: To ask the Secretary of State for Justice what the average time between the passing of a sentence for a community order and the defendant's becoming engaged in the activity or requirement ordered was in each criminal justice area in England and Wales in each of the last five years for which figures are available. [223516]

Mr. Hanson: National Standards for the Management of Offenders require that community orders begin in a timely manner and this is monitored by Probation Areas. Full year data are only available for 2006-07 and 2007-08 in relation to the start of unpaid work, drug rehabilitation and specific activity requirements are shown in tables 1 and 2. National Standards state that these requirements commence within 10 working days, two working days and 15 working days respectively.

In respect of all community orders, with the exception of stand alone curfew and attendance centre requirements, offender managers are required to initiate contact with offenders within five working days of sentence. The extent to which this was achieved by probation areas during 2007-08 and 2006-07[1] is shown in tables 3 and 4.

Figures relating to the start of community orders are not available for each criminal justice area, but are instead broken down by probation areas. The tables[2] provide a summary of National Standards monitoring in 2007-08 and 2006-07[1].

National Standard requirements may not be met in some occasions as a result of operational pressures within probation areas or as a result of offenders failing to report as instructed.

[1] Full year data is unavailable prior to this period.

[2] Figures are extracted from large scale administrative systems, which may be subject to data input errors.

Table 1: Unpaid work requirements, drug testing and treatment orders/drug rehabilitation requirements and specific activity requirements 2007-08

Crown Prosecution Service

Mr. Spellar: To ask the Secretary of State for Justice what steps he plans to take following the comments regarding the Crown Prosecution Service (CPS) made by the tribunal in the action brought by Halima Aziz against the CPS. [224203]

The Solicitor-General: I have been asked to reply.

The Crown Prosecution Service (CPS) has accepted the recommendations contained in the tribunal's judgment and is taking steps to implement them. The CPS does not accept certain elements of the judgment in relation to its conduct of the litigation and the internal investigation following the decision of the Court of Appeal. On those elements it is seeking a review and appeal. In light of this continued litigation, it is not appropriate to comment further until the matter is concluded.

Curfews: Monitoring

Willie Rennie: To ask the Secretary of State for Justice for what reasons his Department decided to put in place arrangements for the remote monitoring of compliance with curfew conditions of certain offenders who have transferred to England and Wales from Scotland, as determined by Schedule 2 of Statutory Instrument No. 1788. [223999]

Mr. Hanson: The Scotland Act 1998 (Agency Arrangements) (Specification) (No 2) Order 2008 is part of the legislative framework which will facilitate the cross border transfer of prisoners. It will allow prisoners serving a prison sentence in Scotland who would be released under the Home Detention Curfew (HDC) scheme there to be released, on a restricted transfer basis, to an address in England or Wales and vice versa.

Officials in my Department and the Scottish Executive are working together to put the contractual arrangements with the electronic monitoring contractors in place to enable full cross border arrangements to come into effect on 20 October 2008.

Departmental Appeals

Andrew Mackinlay: To ask the Secretary of State for Justice on how many occasions his Department and its predecessor instructed the Treasury Solicitor to seek leave to appeal to the House of Lords from *(a)* the Court of Appeal and *(b)* the House of Lords itself in each of the last 10 years; and on how many occasions the application was rejected. [220815]

Mr. Wills: Neither the Treasury Solicitor nor the Ministry keep central records and we have not been able to identify any cases to which the Minister of Justice, Secretary of State for Constitutional Affairs or the Lord Chancellor was a party, where the Treasury Solicitor applied for leave to appeal to the House of Lords and was refused. We cannot, therefore, say whether there were any such cases and, if so, how many.

We are aware that the Court of Appeal granted the Secretary of State for Constitutional Affairs leave to appeal to the House of Lords in two cases. In one of those cases, the House of Lords gave Secretary of State of Justice permission to appeal.

Departmental Data Protection

Mr. Garnier: To ask the Secretary of State for Justice what incidents of data loss by or from his Department there have been since 1 July 2007; and what instructions or protocols there are in his Department to prevent such losses. [224013]

Mr. Wills: The Ministry of Justice has published details of significant personal data related incidents in 2007-08 in its resource accounts laid before this House on 21 July 2008. For the year 2008-09 to date there has been one significant incident, involving the loss of an inadequately protected storage device from the premises of an IT contractor. Other data losses will be handled at local level and compiling information on these could be done only at disproportionate cost.

I refer the hon. Member to the statement made by my right hon. Friend the Chancellor of the Duchy of Lancaster on 25 June 2008, *Official Report*, column 26WS, providing the final report on measures for data handling procedures in Government.

The Ministry of Justice has procedures and guidance covering security, information security and data protection designed to identify and control the risk of the unauthorised release of personal data taking place. They include:

Ensuring our sites are physically secure and protected from unauthorised access

Ensuring our employees are reliable through checks on background

Providing guidance to staff on general security with separate guidance on IT security and data protection issues

Procedures for assessing IT systems

We also have systems, for monitoring and checking compliance

These policies and procedures extend to our contracted suppliers.

Departmental Sick Leave

David Simpson: To ask the Secretary of State for Justice (1) how many staff in his Department have had five or more periods of sickness absence of less than five days in two or more of the last five years; [218970]

(2) how many and what percentage of staff in his Department and its predecessor have had more than two periods of sickness absence of less than five days in each of the last three years. [218714]

Mr. Wills: The Ministry of Justice was created on 9 May 2007 bringing together the former Department for Constitutional Affairs and National Offender Management Service, including the Prison and Probation Services and the Office for Criminal Justice Reform.

Figures for the National Offender Management Service and HM Prison Service were the responsibility of the Home Office until the creation of the Ministry of Justice.

Information for HM Prison Service, the National Offender Management Service and the Office for Criminal Justice Reform are available separately for the year April 2007 to March 2008, however any previous figures are integrated within the Home Office data.

Sickness absence data as held by the former Department for Constitutional Affairs cannot be broken down to the level of detail requested. However, the general trend of sickness levels in the Ministry overall is downwards. Concerted management attention has been given to attendance across the Ministry over the last 18 months and the Q1/2008 average working days lost (AWDL) per employee was 10.4 days—with HMCS 11.3 days and Tribunal Services 8.2 days. The latest working records indicate the year to date sickness levels to July equate to an annualised AWDL of 9.9 days, reflecting the downward trend. It should be noted that 50 per cent. of the absence figure is made up of 'long-term' cases where absence is greater than 20 working days.

Within Her Majesty's Prison Service 361 staff have taken five or more periods of sickness absence of less than five days duration in two or more of the years between 2003-04 and 2007-08. An absence of less than five days is defined as an absence where the return to work is less than five days after the first day of absence.

The Ministry is currently developing a new Attendance Management Policy which, subject to remaining consultations with unions, is intended for launch before the end of this calendar year. The introduction of the new policy will upgrade and standardise the procedures for recording absence across the former DCA so that more detailed analysis of attendance trends and case management can be conducted in future.

Staff taking more than two periods of sick absence of less than five days duration

	Staff taking more than 2 periods of sick absence of less than 5 days duration	*Percentage of staff in post*

[1] See aforementioned note: data not available at this level of detail

Domestic Violence

Mrs. May: To ask the Secretary of State for Justice pursuant to the answer of 22 July, *Official Report*, column 1217W, on domestic violence, how many people have commenced, but not completed, the CDVP and IDAP programmes; and how many people ordered to attend a domestic violence programme have failed to *(a)* commence and *(b)* complete such a programme. [224209]

Mr. Hanson: Information on delivery of the CDVP (Community Domestic Violence Programme) and IDAP (Integrated Domestic Abuse Programme) is given in the following table. These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

	2007-08[1, 2, 3]
Number enrolled[3]	4,927
Number commenced	4,388
Failure to commence	539
Number of completion	2,800
Failure to complete (of enrolled)	1,588

[1] Data subject to occasional updating.
[2] Reassignment to programmes, leads to some multiple starts per offender.
[3] Equivalent to "ordered".

Legal Services Commission: Pay

Mr. Bellingham: To ask the Secretary of State for Justice what expenditure his Department incurred on bonuses for the Legal Services Commission's *(a)* Executive Team, *(b)* staff and (c) directors in the last two years. [224015]

Maria Eagle: As a non-departmental public body, the Legal Services Commission (LSC) is responsible for its own administrative budget which includes staff pay. The Ministry of Justice and HM Treasury approve the LSC's annual pay remit. The expenditure incurred by the LSC as bonuses is shown in the following table.

£000

	2007-08	*2006-07*
Executive team	137,000	95,000
Staff other than the executive team and directors	685,000	416,000
Directors	168,000	146,000

Bonuses paid relate to performance for the previous financial year. A breakdown of bonuses paid to individual executive team members in the past two years is shown in remuneration reports contained within the LSC's annual reports for 2007-08 and 2006-07, which can be found at:

www.legalservices.gov.uk.

Mr. Bellingham: To ask the Secretary of State for Justice if he will remove any bonuses paid to the staff at the Legal Services Commission involved with setting up community legal advice centres and community legal advice networks. [224016]

Maria Eagle: Bonus payments for senior LSC staff (Executive Directors and directors) are determined by the achievement of shared and individual objectives which are linked to the LSC's corporate priorities as set out in its corporate/strategic plans. This approach means that bonus payments are made only when a corporate target or priority is achieved. The LSC's performance against its targets is reported on its annual reports, (available at www.legalservices.gov.uk).

For staff below director level, the LSC operates a performance related non-consolidated bonus system. Non-consolidated bonuses are usually used to target one-off in-year contributions that are particularly significant but unlikely to be repeated and are therefore not something that the LSC would pay for year on year.

Any bonuses paid to staff at the LSC involved with setting up community legal advice centres and community legal advice networks would have been paid in accordance with the criteria set out above.

National Offender Management Information System: Expenditure

Mr. Garnier: To ask the Secretary of State for Justice how much his Department and its predecessors spent on the procurement, development and commissioning of the IT system, C-NOMIS, in each of the financial years 2004-05, 2005-06, 2006-07 and 2007-08. [224011]

Mr. Hanson: The expenditure on C-NOMIS was £56 million in 2005-06 (including a small proportion incurred in earlier years), £69 million in 2006-07 and £52 million in 2007-08.

Until December 2007, the active element of the NOMIS Programme was C-NOMIS. From January 2008, following a strategic review, C-NOMIS became Prison NOMIS, one of the projects in the revised NOMIS Programme.

National Offender Management Service: Buildings

Mr. Garnier: To ask the Secretary of State for Justice how much his Department has spent on the development of the National Offender Management Service's Headquarters to date. [224012]

Mr. Hanson: As at the end of July 2008, a total of £699,000 had been spent on the development of the National Offender Management Service headquarters. This is not additional expenditure but a re-allocation of existing resources to this very important programme of work. £232,000 relates to permanent staff which have been seconded to the programme in either project management or subject matter expert roles, but their substantive roles have not been filled. £467,000 covers the use of specialist IT and consultancy support, predominantly using resources from the agency IT provider.

The first phase of the programme covers the fundamental merger type aspects of transferring staff into the Headquarters, Areas and Regions of the NOMS agency and the associated issues around their terms and conditions, accommodation needs, IT requirements and the necessary transfer of data from Home Office to NOMS. The programme then consists mainly of an organisation design phase where the structures will be designed to be fit-for-purpose to meet the financial and operational challenges to March 2011.

PA Consulting

Mr. Drew: To ask the Secretary of State for Justice what contracts his Department has with PA Consulting; and what the *(a)* estimated value and *(b)* expected duration of each such contract is. [224008]

Mr. Wills: The information requested regarding the Ministry of Justice's current contracts with PA Consulting is shown in the following table.

Ministry of Justice: current PA contracts

Business group/details of contract	*Date*	*Cost (£)*
National Offender Management Service (NOMS)		
Workforce Reform Management Consulting	1. July to December 2008	[1]424,000
	2. September 2008 to March 2009	[1]—
NOMIS (a single interactive database underpinning the reform programme in NOMS by supporting end-to-end offender management)		
(a) Commercial advice to the NOMIS project	March to October 2008	(a) 338,000
(b) Consultancy on Probation Case Management System	August to October 2008	(b) 49,000

Corporate Performance Group		
MOJ Transition Strategy, Planning and Performance, Change Programme	April to September 2008	143,000
Democracy Constitution and Law		
Change Management framework	December 2007 to December 2008	499,500
OCJR		
Virtual Courts Evaluation Framework	July to September 2008	42,000

Political Parties: Finance

Mr. Maude: To ask the Secretary of State for Justice whether Electoral Commission guidance on trigger rules associated with the Political Parties and Elections Bill will be subject to delegated legislation procedures. [224081]

Mr. Wills: The Political Parties and Elections Bill provides that the Electoral Commission may give guidance on triggering (clause 11 of the Bill). This guidance would form part of the code of practice on candidate spending definitions which the Commission has been empowered to produce since the Electoral Administration Act 2006 inserted provision into paragraph 14 of schedule 4A of the Representation of the People Act 1983. Under that provision, any code of practice produced by the Commission must be submitted to the Secretary of State for approval. It must then be laid before Parliament by the Secretary of State (unmodified, or with his explanation of the modifications he has made to it). Parliament then has 40 days to annul the draft if it chooses to do so, and if no such resolution is made, the code shall be published by the Commission to take effect on a date appointed by the Secretary of State.

Mr. Maude: To ask the Secretary of State for Justice whether the provisions within the Political Parties and Elections Bill on the introduction of new trigger rules will apply to candidates for election to the *(a)* European Parliament, *(b)* London Assembly, *(c)* post of London Mayor, *(d)* Welsh Assembly *(e)* Scottish Parliament, *(f)* Northern Ireland Assembly and *(g)* posts of directly elected mayors in local authorities; and what plans he has to include mechanisms to apply such provisions to future elected assemblies in the UK. [224082]

Mr. Wills: No. The changes that re-introduce triggering will apply to candidates at general elections only, as described in the Explanatory Notes to the Political Parties and Elections Bill.

Mr. Maude: To ask the Secretary of State for Justice whether the provisions within the Political Parties and Elections Bill on the introduction of new trigger rules are intended to apply to local campaign expenditure by hon. Members who are reselected as candidates by their local association prior to the dissolution of Parliament; and whether the trigger rules will apply to Communications Allowance expenditure by hon. Members in their constituencies. [224083]

Mr. Wills: Incumbent Members of Parliament seeking re-election will be subject to the new regulations governing candidate expenditure in the same way as non-MPs. The date of Dissolution of Parliament, or adoption as a candidate (whichever is later) will no longer be the determining factor as to when the candidate spending limits contained in section 76 of the Representation of the People Act 1983 start to apply in a parliamentary general election.

Once the provisions in the Political Parties and Elections Bill take effect, those limits will apply to any spending for the purposes of the candidate's election on the matters set out in schedule 4A of the Representation of the People Act 1983, whenever it is incurred.

MPs receive parliamentary allowances to enable them to fulfil their duties as an MP. The Communications Allowance is provided to MPs to enable them to communicate proactively with their constituents and inform them about their parliamentary duties. The rules governing use of the Communications Allowance are very clear: the allowance must not be used for personal benefit or for party political campaigning. Provided the allowance is used in accordance with parliamentary rules, this means that expenditure of it would not trigger the candidate spending restrictions. Changes to the rules governing use of the Communications Allowance, further strengthening the prohibition on spending for political purposes, were approved by this House in July, and will come into force in spring 2009.

Prisoners

Peter Bottomley: To ask the Secretary of State for Justice what his most recent estimate is of the effect of the size of the prison population on levels of crime. [223443]

Mr. Straw: Since 1997, the prison population has increased by 35 per cent. (from 61,500 in June 1997 to 83,200 in June 2008). Crime as measured by the British crime survey has decreased by 39 per cent. (2007-08 compared to 1997). As I have said on a number of occasions it is highly probable there is a link between these two trends, but there are no reliable estimates of the precise connection. Crime levels are affected by a range of factors, including demographic, social economic, crime prevention measures (for example, 'target handling' of premises and vehicles), more effective policing, the use of modern techniques (including CCTV) and the area crime reduction approach adopted by local authorities and communities. There is no accepted methodology for disaggregating these factors, either here or abroad. Some further information is available in the "Managing Offenders, Reducing Crime" report December 2003 by Lord Carter, and in "Modelling Crime Reduction" (Home Office online report 38/04).

Prisoners: Females

John McDonnell: To ask the Secretary of State for Justice how many and what proportion of female prisoners he estimates have experienced *(a)* domestic violence, *(b)* sexual abuse and *(c)* mental illness in each of the last five years. [224098]

Mr. Hanson: The National Offender Management Service and the Department of Health do not routinely keep information on the number of female prisoners who have experienced domestic violence, sexual abuse and/or mental illness. The findings from research indicate that up to half of women in prison may have experienced domestic violence; that up to a third may have been victims of sexual abuse; and that four fifths have diagnosable mental health problems.

Reoffenders

Mr. Garnier: To ask the Secretary of State for Justice how many offenders *(a)* released from prisons and *(b)* who completed community sentences had already served one or more (i) custodial and (ii) community sentence, broken down by the number of previous sentences, in England and Wales in each of the last 10 years for which figures are available. [223515]

Mr. Hanson: The requested information is not available. However, published statistics on reoffending include information on offenders who have completed their prison sentence or began a community sentence for the 1st quarter of 2000, 2002, 2003, 2004, 2005 and 2006. These statistics show the number of previous custodial sentences and the number of previous convictions.

The following table shows how many offenders (released from prisons or commencing community sentences) had received at least one previous custodial sentence broken down by the number of previous custodial sentences

		Offenders released from prison	*Offenders commencing court orders*
Number previous custodial sentences	2000 Q1	5,662	18,607
	2002 Q1	5,140	18,318
	2003 Q1	4,616	18,621
	2004 Q1	4,779	19,272
	2005 Q1	4,511	18,222
	2006 Q1	4,647	22,687
One previous custodial sentence	2000 Q1	2,478	3,689
	2002 Q1	2,345	3,699
	2003 Q1	2,042	4,034
	2004 Q1	2,235	4,060
	2005 Q1	2,000	3,591
	2006 Q1	1,931	4,322
Between two and five previous custodial sentences	2000 Q1	4,614	4,696
	2002 Q1	4,742	4,874
	2003 Q1	4,340	5,369
	2004 Q1	4,763	5,500
	2005 Q1	4,320	5,038
	2006 Q1	4,017	6,137
Between six and 10 previous custodial sentences	2000 Q1	2,044	1,415
	2002 Q1	2,182	1,555
	2003 Q1	2,194	1,975
	2004 Q1	2,530	2,038
	2005 Q1	2,258	1,957

		Offenders released from prison	Offenders commencing court orders
	2006 Q1	2,201	2,377
More than 10 previous custodial sentences	2000 Q1	929	452
	2002 Q1	1,169	568
	2003 Q1	1,166	758
	2004 Q1	1,454	850
	2005 Q1	1,506	920
	2006 Q1	1,584	1,254

The following table shows how many offenders (released from prisons or commencing community sentences) had received at least one previous court conviction broken down by the number of previous convictions.

		Offenders released from prison	Offenders commencing court orders
Number previous convictions	2000 Q1	1,475	6,062
	2002 Q1	1,353	6,047
	2003 Q1	1,322	5,655
	2004 Q1	1,416	5,831
	2005 Q1	1,409	5,592
	2006 Q1	1,576	7,111
One previous conviction	2000 Q1	1,047	3,758
	2002 Q1	874	3,557
	2003 Q1	790	3,701
	2004 Q1	857	3,834
	2005 Q1	817	3,662
	2006 Q1	814	4,569
Between two and five previous convictions	2000 Q1	3,601	8,418
	2002 Q1	3,201	8,251
	2003 Q1	2,785	8,549
	2004 Q1	2,903	8,792
	2005 Q1	2,645	7,944
	2006 Q1	2,660	9,857
Between six and 10 previous convictions	2000 Q1	3,557	5,070
	2002 Q1	3,667	5,187
	2003 Q1	3,133	5,693
	2004 Q1	3,211	5,601
	2005 Q1	2,940	5,194
	2006 Q1	2,680	6,068
More than 10 previous convictions	2000 Q1	6,047	5,551
	2002 Q1	6,483	5,972
	2003 Q1	6,328	7,159
	2004 Q1	7,374	7,662
	2005 Q1	6,784	7,336
	2006 Q1	6,650	9,172

Shoplifting

James Brokenshire: To ask the Secretary of State for Justice (1) how many people *(a)* were cautioned for, *(b)* received a penalty notice for disorder relating to and *(c)* were convicted of shoplifting in 2007; [224102]

(2) how many penalty notices for disorder were issued in 2007, broken down by *(a)* offence committed and *(b)* police force area. [224103]

Maria Eagle: The information requested for 2007 will be available when it is published at the end of November 2008.

Women's Prisons: Crimes of Violence

John McDonnell: To ask the Secretary of State for Justice how many violent incidents have been recorded in women's prisons over the last five years; and how many assaults on staff have been recorded in women's prisons in that time. [224097]

Maria Eagle: The term 'violent incident' is not used in the National Offender Management Service (NOMS) data. The nearest equivalent to 'violent incidents' in NOMS data is incidents of assault. Information on incidents of assault is set out in the following table but is subject to important qualifications. Assault data cover a range of behaviour and may include threatening behaviour, projection of bodily fluids, other non-contact incidents and allegations. Information on assault incidents may involve more than one assailant or more than one victim. In a proportion of incidents only the victim is known.

The Prison Service incident reporting system processes high volumes of data which are constantly being updated. The numbers provide an indication of overall numbers but should not be interpreted as absolute.

Assaults in women's prisons over the past five years

	Number
2003	521
2004	566
2005	637
2006	697
2007	658

Note:
The numbers supplied refer to the number of individual assault incidents.

Assaults on staff in women's prisons over the past five years

Assault information is recorded at establishment level where it is categorised into one of four categories: prisoner on prisoner, prisoner on officer, prisoner on other and other (including assaults or allegations of assault by non prisoners). The recorded incidents of assaults on prison officers are not completely exclusive to officers; establishment recording sometimes includes assaults on other prison staff in this category. The category prisoner on other contains few entries but these may include prison staff as well as visitors, legal visitors etc. This reply combines prisoner on officer and prisoner on other data categories.

	Number
2003	214
2004	208
2005	257
2006	314
2007	270

Women's Prisons: Equipment

John McDonnell: To ask the Secretary of State for Justice what his policy is on the routine carrying of batons by prison officers in women's prisons. [224095]

Maria Eagle: Current Prison Service policy is that batons are not routinely carried by prison officers in the women's estate, the young people's estate or the open estate. However, they may be used in these areas as part of planned interventions by control and restraint teams in response to very serious incidents of disorder. The review into the use of batons in the women's and open estate is currently under way.

John McDonnell: To ask the Secretary of State for Justice what the recommendations were of the review on the use of batons in women's prisons; if he will place in the Library a copy of the conclusions of the review; and what alternatives are under examination to address violence in women's prisons other than equipping staff with batons. [224096]

Maria Eagle: The review into the use of batons in the women's and open estates is under way and due to report at the end of the year. A copy of the report of the review will be placed in the Library on its conclusion. A number of accredited programmes for women have been developed, or are in advanced stages of development, which are appropriate to violence reduction in the women's estate.

NORTHERN IRELAND

Departmental ICT

Mr. Philip Hammond: To ask the Secretary of State for Northern Ireland what information technology projects initiated by his Department have been cancelled prior to completion in the last five years; and what the cost of each such project was to the public purse. [221707]

Paul Goggins: In the last five years no information technology projects initiated by the Northern Ireland Office have been cancelled prior to completion.

Homicide

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many persons were killed by a current or former partner in *(a)* A District Command Unit area, *(b)* B District Command Unit area and *(c)* Northern Ireland in each of the last 10 years, broken down by (i) sex and (ii) age of victim. [207760]

Paul Goggins: The Chief Constable has provided the following answer:

The following tables detail the number of recorded murders with a domestic motivation as requested for the period 2004-05 to 2007-08. Figures prior to 2004 were counted and categorised according to Home Office Counting Rules, therefore any crime figures with domestic motivations from 2004-05 onwards are not comparable with those collected in previous years.

Recorded crimes with a domestic motivation: Offences of Murder[1] A and B Districts and Northern Ireland 2004-05 to 2007-08

2004-05

District	*Number of murders*	*Age/Gender of victim*	*Clearance Method*
A	1	One Female age 17 and over	One Charge/ summons
B	2	Two Female age 17 and over	One Charge/ summons; one died before proceedings
NI Total	7	Six Female age 17 and over; one Male age 17 and over	Five Charge/ summons; two died before proceedings

Central Statistics Unit, PSNI

Speed Limits: Cameras

Lady Hermon: To ask the Secretary of State for Northern Ireland how many Police Service of Northern Ireland speed camera operations were carried out in each District Command Unit area in each of the last 12 months; and how much accrued from fines arising from these operations in each area over the same period. [220388]

Paul Goggins: The Chief Constable has provided the following response:

Table 1: Number of speed camera operations and detections April 2007 to March 2008

	April 2007		May 2007		June 2007		July 2007	
District	Number of camera operations	Number of detections	Number of camera Operations	Number of detections	Number of camera operations	Number of detections	Number of camera operations	Number of detections
A	42	24	37	37	32	12	11	21
B	36	44	32	24	24	9	18	25

G	24	158	28	131	29	288	40	178
H	29	145	16	40	34	90	26	89

Table 2: Total detections and revenue in financial year 2007-08

District	Total number of camera operations	Total number of detections	Revenue total (£)
A	213	147	7,200
B	292	217	10,080
C	693	1,838	96,300
D	101	19	2,940
E	241	3,589	161,100
F	349	2,641	94,560
G	347	2,172	95,400
H	304	1,412	68,400
Total	2,540	12,035	535,980

Note:
Detections in any given year may not be directly related to revenue due to:
motorists having up to 4 months in which to pay from detection;
if case heard in court revenue not collected by PSNI; and
small number of cases may be cancelled.

Written Answers to Questions

The following answers were received between Wednesday 17 September and Friday 26 September 2008

WOMEN AND EQUALITY

Children

Lynne Featherstone: To ask the Minister for Women and Equality what discussions on age discrimination against children and young people in the provision of goods, facilities and services Ministers and officials in the Government Equalities Office have held with *(a)* non-governmental organisations and *(b)* UK children's commissioners since 2005. [221125]

Barbara Follett: The Government Equalities Office was established on 12 October 2007. Prior to this date the Discrimination Law Review Project was the responsibility of the women and equality unit in the Department of Communities and Local Government. Since 2005, Ministers for women and equality have met the Children's Rights Alliance for England on two occasions; one of those meetings was attended by a group of young people. In late 2006, the women and equality unit hosted a roundtable discussion on children and young people, which was attended by non-governmental organisations and the children's commissioners for England and Scotland. During the consultation period for the Equality Bill, the Children's Rights Alliance for England organised a consultation event on behalf of the women and equality unit. Officials also met the Children's Rights Alliance for England in August 2007 and the children's commissioners for England and Scotland in March 2008.

Lynne Featherstone: To ask the Minister for Women and Equality what written representations concerning age discrimination against children and young people in the provision of goods, facilities and services Ministers and officials in the Government Equalities Office have received from *(a)* non-governmental organisations, *(b)* UK Children's Commissioners and *(c)* members of the public since 2005. [221126]

Barbara Follett: The consultation paper on proposals for the Equality Bill, "A Framework for Fairness", signalled that the Government was considering the case for prohibiting age discrimination in the provision of goods, facilities and services and for a single public sector duty extended to cover age. Over 4,000 organisations and individuals responded to the consultation, of which over 700 addressed the issue of prohibiting age discrimination in the provision of goods, facilities and services and over 50 of these responded specifically on the issue of children. The list of organisations that responded to the consultation is available on the Government Equalities Office website.

Julie Morgan: To ask the Minister for Women and Equality how many refuges for women and children have a dedicated indoor play area for children. [221654]

Barbara Follett: The Government do not hold information centrally on the number of refuges for women and children which have a dedicated indoor play area for children.

Decisions about the provision of refuge spaces and what these should contain are a matter for local authorities, but we would expect them to build services based on the needs of their communities.

Commission for Racial Equality: Leave

Daniel Kawczynski: To ask the Minister for Women and Equality how many days leave the chair of the Commission for Racial Equality took in *(a)* 2005, *(b)* 2006 and *(c)* 2007. [220721]

Barbara Follett: The chair of the Commission for Racial Equality (CRE) was Trevor Phillips from February 2003 until November 2006 and Kay Hampton from November 2006 until the CRE became part of the Equality and Human Rights Commission on 1 October 2007. The Equality and Human Rights Commission has not inherited records from the CRE about leave taken but it is clear that the chair was entitled to 24 days annual leave, in addition to public holidays and two and half privilege days per annum.

Departmental Alcoholic Drinks

David Simpson: To ask the Minister for Women and Equality what measures are in place in the Government Equalities Office to monitor expenditure on alcohol for hospitality purposes. [219585]

Barbara Follett: Expenditure from the Government Equalities Office's official hospitality account is monitored internally by its finance team and externally by the National Audit Office. It is also subject to internal audit. The GEO's directors and deputy directors (six in total) can claim for alcohol purchased for official events and functions.

David Simpson: To ask the Minister for Women and Equality what purchasing process is used by the Government Equalities Office for the procurement of alcohol for hospitality purposes. [219935]

Barbara Follett: The directors and deputy directors (six in number) of the Government Equalities Office can claim expenses for alcohol purchased for hospitality at official working lunches and business gatherings. The reimbursement of these is dependent upon the provision and scrutiny of detailed receipts. Such reimbursement is subject to official departmental limits. Since the GEO was established on 12 October 2007 one such claim has been made.

Departmental Aviation

Mr. Maude: To ask the Minister for Women and Equality how many individual domestic air flights were undertaken within Great Britain by representatives of the Government Equalities Office since its creation; and at what cost. [215564]

Barbara Follett: Since its creation on 12 October 2007 the Government Equalities Office has paid for one domestic flight for a member of its staff. This was a return flight to Glasgow and cost £246.40.

Departmental Consultants

John McDonnell: To ask the Minister for Women and Equality how many contracts the offices now comprising the Government's Equalities Office awarded to consultants in 2006-07; how many contracts went out to tender in 2006-07; what the value of each was; and which contracts were not put out to tender. [219633]

Barbara Follett *[holding answer 17 July 2008]:* The Government Equalities Office was established on 12 October 2007. It has taken over responsibility for equality issues from a number of different teams and Departments, including: the Disability Rights Commission Sponsorship team, based in 2006-07 in the Department for Work and Pensions; the Commission for Racial Equality Sponsorship Team, based in the Home Office in the first part of 2006-07, then transferred to the Department of Communities and Local Government; the Women and Equality Unit, based in the Department for Trade and Industry until May 2006, then in Communities and Local Government; and lawyers from DTI and HO, who transferred to CLG in May 2006. To answer the question accurately would therefore require investigation of records that are widely dispersed in a number of different Departments and locations and this could be done only at disproportionate cost.

Departmental Domestic Visits

David Simpson: To ask the Minister for Women and Equality on how many occasions she visited *(a)* Scotland, *(b)* Wales and *(c)* Northern Ireland in an official capacity in the last 12 months. [204386]

Barbara Follett: The Minister for Women and Equality visited Scotland once in February 2008 and Wales once in March 2008

Departmental Paper

David Simpson: To ask the Minister for Women and Equality what percentage of paper used *(a)* for photocopying and *(b)* in printed publications by the Government Equalities Office has been from recycled sources. [220736]

Barbara Follett: In the Government Equalities Office (GEO) all of the paper used for photocopying contains 100 per cent. recycled content. All GEO's publications are printed on paper containing a minimum of 75 per cent. recycled fibre content. This is in line with the mandatory 'Buy Sustainable—Quick Wins' minimum environmental product standards developed by the Department for Environment, Food and Rural Affairs.

Departmental Pay

Dr. Cable: To ask the Minister for Women and Equality how many and what proportion of staff in the Government Equalities Office have received bonus payments since the office was established; what the total amount of bonuses paid has been; what the largest single payment has been; and if she will make a statement. [213280]

Barbara Follett: Since the establishment of the Government Equalities Office on 12 October 2007, 26 staff (32 per cent. of work force) have received special bonus payments. The total amount of special bonuses paid was £11,700, with the largest single payment being £1,000.

Departmental Postal Services

Mr. Hoban: To ask the Minister for Women and Equality what steps the Government Equalities Office has taken to monitor the cost of its mail services since its establishment. [221476]

Barbara Follett: The Government Equalities Office (GEO) was established on 12 October 2007. Since then it has been based in Department of Communities and Local Government (CLG) buildings and CLG have been providing mail services for GEO as part of wider rental agreements. CLG monitor these mail services and are concerned to minimise costs. For example, all post is sent second class.

Departmental Responsibilities

Mr. Maude: To ask the Minister for Women and Equality how many reviews of regulation the Government Equalities Office has conducted or commenced since its establishment, and in which areas. [215629]

Barbara Follett: The Government Equalities Office has carried out a far-reaching review of the entire discrimination legislative framework in the Discrimination Law Review. We announced the headline results last month, and published a comprehensive response on 21 July (The Equality Bill: Government Response to the consultation). The Equality Bill to streamline and strengthen discrimination law, decluttering the current complexity of legislation and guidance.

Departmental Retirement

Lynne Featherstone: To ask the Minister for Women and Equality what the standard retirement age in the Government Equalities Office is; and how many people worked beyond the standard retirement age since the Office's inception. [214136]

Barbara Follett: Until the Government Equalities Office agrees its own set of terms and conditions its staff are on loan from other Departments and they, therefore, work under the terms and conditions they agreed with in their parent Departments. However the majority of GEO staff are drawn from the Departments for Communities and Local Government and Work and Pensions both of which have removed the retirement age for all staff below senior civil servant (SCS) grade. At present the latter can continue to work until they reach the age of 65 but this age limit is due to be reviewed in 2011. To date, the GEO has not received any requests from SCS staff who want to work beyond the mandatory retirement age.

Departmental Written Questions

Richard Younger-Ross: To ask the Minister for Women and Equality how many and what proportion of Parliamentary questions for answer on a named day to the Government Equalities Office received a *(a)* holding and *(b)* substantive answer on the named day in each year since 2001. [190292]

Barbara Follett: The Government Equalities Office (GEO) was established in October 2007. However, it has been answering parliamentary written questions on issues relating to women and equality since July 2007. A total of 30 named day questions have been answered in that time, of which six (20 per cent.) received a substantive reply by the named day and 24 (80 per cent.) received a holding reply on the named day.

David Simpson: To ask the Minister for Women and Equality how long on average the Government Equalities Office took to answer *(a)* ordinary written and *(b)* named day questions since its creation. [215475]

Barbara Follett: The Government Equalities Office (GEO) was officially established in October 2007, but it has been answering parliamentary written questions since July 2007. Since then, it has taken an average of 12.6 working days (days when the House is sitting and when parliamentary questions can be tabled) and 9.5 working days to answer named day questions.

Equal Pay

David Simpson: To ask the Minister for Women and Equality what estimate she has made of the pay gap between men and women in each of the last three years. [219925]

Barbara Follett: The gender pay gap is calculated annually by the Office for National Statistics (ONS), using information from their Annual Survey of Hours and Earnings. The ONS recommends measuring the pay gap using the median value of hourly earnings.

The full-time gender pay gap is the percentage difference between men and women's median hourly pay (excluding overtime) for full-time jobs. The full-time gender pay gap over the last three years is in the following table:

	Percentage
2005	13.0
2006	[1]12.8
2007	12.6

The part-time pay gap is the percentage difference between women's median hourly part-time pay (excluding overtime) and men's median hourly full-time pay (excluding overtime. The part-time gender pay gap figures for the last three years is in the following table:

	Percentage
2005	40.4
2006	[1]39.8
2007	39.1

[1] The figures given for 2006 are a revision of the original figures for that year. The revised figures reflect a small number of methodological changes to the Annual Survey of Hours and Earnings, which improve the quality of its results.

Equality

Lynne Jones: To ask the Minister for Women and Equality pursuant to the answer of 26 February 2008, *Official Report*, column 283,1W, on equality, whether individual commissioners are required to give assurances that they support each of the objectives and statutory duties of the Equality and Human Rights Commission as a requirement of *(a)* appointment and *(b)* re-appointment. [220005]

Barbara Follett: Commissioners of the Equality and Human Rights Commission have a collective responsibility clause in their code of conduct and, when speaking as representatives of the Commission, are required to express the views of the Commission as a whole.

Single Equality Bill (Draft)

Mr. Drew: To ask the Minister for Women and Equality whether the draft single Equality Bill will be subject to pre-legislative scrutiny in the House. [201392]

Barbara Follett: No. The Government are committed to introducing an Equality Bill during this Parliament. The further policy consideration that our comprehensive consultation provoked, and our ongoing engagement with stakeholders, means that we have no plans to publish the Bill in draft.

TREASURY

Banks

Harry Cohen: To ask the Chancellor of the Exchequer what meetings he has had with representatives of the banking industry since the onset of the credit crunch; what agreements were reached at such meetings; what steps the *(a)* Government and *(b)* banking industry undertook to take at those meetings; whether proposals to (i) restructure the remuneration packages of banking industry employees and (ii) amend the accountability regime affecting banking activities were made at such meetings; and if he will make a statement. [223997]

Kitty Ussher: The Chancellor of the Exchequer and other Treasury Ministers regularly meet with representatives of the banking industry. As was the case with previous Administrations, it is not the Government's practice to provide details of all such meetings.

The Government support the April 2008 Financial Stability Forum report recommendation that the financial services industry should take steps, working with regulators and supervisors, to adjust compensation models so as to mitigate the risks arising from inappropriate incentive structures.

Council Tax

Mr. Pickles: To ask the Chancellor of the Exchequer with reference to the Valuation Office Agency's local authority liaison meeting of 23 July, what assessment *(a)* his Department and *(b)* the Valuation Office Agency has made of the effect of council tax backdating on budgeting by billing authorities. [224078]

Kitty Ussher: No such assessments have been made.

Gaming Machines

Mr. Hunt: To ask the Chancellor of the Exchequer what research *(a)* his Department and *(b)* the Gambling Commission has (i) commissioned and (ii) published since March 2008 on the effects of the availability of high-stake, high-prize gaming machines on problem gamblers. [224047]

Andy Burnham: I have been asked to reply.

On 14 March 2008 my hon. Friend the Minister for Sport wrote to the chair of the Gambling Commission, asking the Commission to prioritise its planned research into the impact of high-stake, high-prize gaming machines on problem gambling. The Gambling Commission replied on 31 July 2008, setting out the outcomes of some internal research which looked at the evidence surrounding this issue. A summary of the evidence reviewed will be published later in 2008. In the letter the Commission set out a programme of small projects that it would undertake to help establish a better understanding of the evidence. Among other things it will set up an expert panel and work with the gambling industry to explore player data, with a view to understanding how this data can be used in future research. The Commission will report to my Department again in June 2009 on progress with this programme of work.

National Insurance Contributions

Mr. Bone: To ask the Chancellor of the Exchequer how much was raised in national insurance contributions in *(a)* the UK, *(b)* England, *(c)* Wales, *(d)* Scotland and *(e)* Northern Ireland in each of the last 11 years. [224076]

Kitty Ussher: Information on UK receipts of national insurance contributions is published in National Statistics Table 1.2 on the Her Majesty's Revenue and Customs website.

Estimates of national insurance contribution receipts for Scotland are prepared by the Scottish Government.

No other estimates are available of national insurance contribution receipts in the separate countries of the UK.

National Minimum Wage: Agriculture

David Taylor: To ask the Chancellor of the Exchequer what his most recent estimate is of the level of compliance with national minimum wage requirements in the agricultural sector; and if he will make a statement. [224234]

Jonathan Shaw: I have been asked to reply.

The Statistics Digest for 2008 provides data on farm labour and wages. This includes data on workers paid below the statutory agricultural minimum wage rate. The table below shows the proportion of people according to the grades set out in the Agricultural Wages Order being paid below the set minima during the last full AWO year (October 2006-September 2006).

Grade	*AWB minimum (£)*	*Below minimum (percentage)*
Grade 1	5.35	6
Grade 2	5.74	18
Grade 3	6.31	19
Grade 4	6.77	8
Grade 5	7.18	10
Grade 6	7.75	13

These data are collected from the Department for Environment' Food and Rural Affairs's Earnings and Hours Survey and are based on a sample of 939 workers and only include people who are 20 years or over.

DEFRA is responsible for enforcing the Agricultural Wages Order and will investigate complaints about underpayment of the minimum wages rate.

Revenue and Customs: Correspondence

Mr. Winnick: To ask the Chancellor of the Exchequer if he will arrange for a substantive reply to be sent to the hon. Member for Walsall, North to his letter of 13 August to the tax credit office, Preston, concerning a constituent, ref JA121568A. [224017]

Kitty Ussher: I have arranged for the Tax Credit Office to send a substantive reply to my hon. Friend about his constituent by 19 September.

Revenue and Customs: Official Hospitality

Mr. Philip Hammond: To ask the Chancellor of the Exchequer how much each HM Revenue and Customs office spent on *(a)* alcohol and *(b)* entertainment in the last three months, broken down by region. [224260]

Kitty Ussher: Expenditure, including that on entertaining, is subject to audit and the principles of Managing Public Money and the Treasury handbook on Regularity and Propriety. £2,192 was spent within HMRC (excluding the Valuation Office Agency) on entertaining during the three months June 2008 to August 2008. Obtaining information on the amount spent on alcohol within this figure is available only at disproportionate cost.

Stamp Duty Land Tax

Mr. Greg Knight: To ask the Chancellor of the Exchequer what estimate he has made of the percentage of home purchase transactions that will benefit from the stamp duty exemption for properties between £175,000 and £125,000 in each of the next two years. [224207]

Kitty Ussher: I refer the right hon. Member to the answer given to the hon. Member for Runnymede and Weybridge (Mr. Hammond) on 15 September 2008, *Official Report*, columns 2155-56W.

Tax Incentives: Energy

Mr. Sanders: To ask the Chancellor of the Exchequer what plans he has to use tax incentives to encourage energy conservation. [224057]

Kitty Ussher: Government use a range of policy instruments to encourage energy efficiency, including spending, regulatory and voluntary approaches.

The Government keeps all taxes and reliefs under review.

Taxation: Energy

Jeremy Corbyn: To ask the Chancellor of the Exchequer what plans he has for the introduction of a tax on energy companies in relation to windfall profits. [224212]

Kitty Ussher: The Government keep all taxes under review.

Valuation Office: Geographical Information Systems

Robert Neill: To ask the Chancellor of the Exchequer whether an invitation to tender document has been published for the Valuation Office Agency's new geographic information system. [224085]

Kitty Ussher: No.

Mr. Pickles: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the specification for the Valuation Office Agency's new geographic information system, redacting any commercially sensitive information. [224079]

Kitty Ussher: The specification for the geographic information system is still being finalised.

Valuation Office: Rightmove

Mr. Pickles: To ask the Chancellor of the Exchequer with reference to the Valuation Office Agency's Management Board meeting minutes of 19 June 2008, what conclusion the Board reached in relation to *(a)* the renewal of the Rightmove contract and *(b)* the use of third party information to support the automated valuation model. [224080]

Kitty Ussher: The Valuation Office Agency Management Board approved further work to identify cost-effective approaches to gathering information to support its work.

Robert Neill: To ask the Chancellor of the Exchequer pursuant to the answer of 19 June 2008, *Official Report*, columns 1106-07W, on the Valuation Office Agency: Rightmove, what the contractual deadline and timetable are for the Agency to make a decision on whether to extend or continue with the contract. [224084]

Kitty Ussher: The initial term of the contract between Her Majesty's Revenue and Customs and Rightmove.co.uk Ltd. expired on 31 March 2008. On the question of a timetable for a decision on whether to extend or continue with the contract, I refer the hon. Member to the answer I gave him on 19 March 2008, *Official Report*, column 1225W.

Valuation Office: Travel

Robert Neill: To ask the Chancellor of the Exchequer what overseas countries and cities have been visited by representatives of the Valuation Office Agency during the last 12 months at public expense; and what the cost of such visits was. [224086]

Kitty Ussher: During the last 12 months Valuation Office Agency staff have visited the following overseas cities and countries at public expense:

Cities	*Purpose of visit*
Kutching, Malaysia	Speaker at international valuation conference
Dublin, Ireland	Annual meeting to discuss valuation practice and procedures across England, Wales, Scotland and Ireland
Toronto, Canada	Valuation Symposium
Warsaw, Poland	Attendance at valuation conference

The cost of these visits was £7,006.

VAT: Energy

Mr. Brady: To ask the Chancellor of the Exchequer what estimate his Department has made of the revenue that will be raised from VAT on domestic energy as a result of increases in fuel prices in 2008-09. [224043]

Kitty Ussher: No estimate has been made.

INTERNATIONAL DEVELOPMENT

Departmental Alcoholic Drinks

David Simpson: To ask the Secretary of State for International Development what purchasing process is used by his Department for the procurement of alcohol for hospitality purposes. [219944]

Mr. Malik: DFID does not encourage expenditure on or consumption of alcohol in relation to hospitality. Therefore there are no specific processes for the purchase of alcohol. All entertainment and hospitality expenditure is made in accordance with published departmental guidance on financial procedures and propriety, based on the principles of Managing Public Money and the Treasury Handbook on Regularity, Propriety and Value for Money.

Departmental Buildings

Mr. Betts: To ask the Secretary of State for International Development what account his Department takes of the level of energy efficiency of buildings before entering into agreements to *(a)* rent and *(b)* purchase those buildings. [221109]

Mr. Malik: The Department for International Development (DFID) has only two buildings in the United Kingdom, and has not taken on any properties in the last seven years. We have no plans to rent or purchase further properties.

Departmental ICT

Mr. Hoban: To ask the Secretary of State for International Development what IT contracts his Department has entered into in the last two years. [215137]

Mr. Malik: Copies of the document entitled "IT Contracts Awarded 2006-07 and 2007-08" which provides details of IT contracts entered into by the Department for International Development (DFID) in the last two years, have been placed in the Libraries of the House.

A limited number of low value IT purchases made by our overseas offices are not recorded centrally and would incur disproportionate cost to collate.

Departmental Postal Services

Mr. Hoban: To ask the Secretary of State for International Development what steps his Department has taken to monitor the cost of its mail services in the last 12 months. [221484]

Mr. Malik: All items sent through the UK post are through the Royal Mail, or in the case of items sent directly between our two offices, under a contract with TNT (Express) UK Ltd. Expenditure is monitored against budget in each location, and last year reduced overall by 12 per cent. over the preceding year.

Departmental Sick Leave

David Simpson: To ask the Secretary of State for International Development how many staff in his Department have had five or more periods of sickness absence of less than five days in two or more of the last five years. [218969]

Gillian Merron: There have been 90 home civil service staff in the Department for International Development (DFID) who have had five or more periods of sickness absence of less than five days in two or more years since 2003.

Departmental Visits Abroad

Mr. MacNeil: To ask the Secretary of State for International Development what the cost of overseas visits by each Minister in his Department has been since 1997. [214648]

Mr. Malik: Since 1999, the Government have published the total cost of all overseas travel by Ministers and a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007, *Official Report*, column 1112W. Details for the financial year 2007-08 will be published before the summer recess and will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the "Ministerial Code".

Information in respect of overseas visits by all Ministers for the period 1997-99 could be provided only at disproportionate cost.

Developing Countries: HIV Infection

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what steps his Department has taken to work in partnership on AIDS prevention with government bodies in those countries to which his Department provides aid to reduce the incidence of AIDS. [215414]

Gillian Merron: National Governments have responsibility for resourcing, coordinating and delivering effective AIDS responses, but they need support from a wide range of other stakeholders. The Department for International Development (DFID) supports countries to develop and implement evidence-informed HIV prevention strategies that promote and protect human rights; that are relevant to the local epidemic context; and that promote comprehensive approaches to HIV prevention based on the realities of people's lives.

There is strong evidence for the effectiveness of many approaches to HIV prevention, including condom use, family planning, methods to prevent mother-to-child transmission (PMTCT), and for people who inject drugs, comprehensive harm reduction services, particularly needle and syringe exchange and drug treatment programmes, including non-injectable substitutes.

In countries with strong commitments to development, we focus on supporting the implementation of comprehensive country-led HIV and AIDS strategies, directly funding governments and working with civil society partners and donor agencies. In more fragile states, where governments are less effective, we provide technical support to strengthen government capacity as well as direct support for service delivery by civil society organisations.

A copy of the updated strategy "Achieving Universal Access—the UK's strategy for halting and reversing the spread of HIV in developing world" and supporting evidence paper have been placed in the Libraries of both Houses. These are also available on the DFID website:

www.dfid.gov.uk

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what projects and programmes his Department funds *(a)* to address critical health worker shortages and *(b)* to secure long-term sustainable financing to strengthen health systems in countries where HIV positive and AIDS are endemic. [215485]

Gillian Merron: The Department for International Development (DFID) provides flexible funding to back national plans and priorities and to help strengthen health systems as a whole. UK Government health spend in developing countries was £750 million in 2006-07. Addressing the shortage of health workers in these countries is a high priority for DFID. For example, in Ethiopia DFID is contributing to the massive scale-up of community health workers—from fewer that 3,000 in 2004 to 24,000 now and 30,000 by 2009. In Malawi, DFID is contributing to the Emergency Human Resources Programme, which aims to double the number of nurses and triple the number of doctors. DFID has also provided £1 million to the Global Health Workforce Alliance from 2007-09.

In "Achieving Universal Access—the UK's Strategy for Halting and Reversing the Spread of HIV in the Developing World" the Government have committed £6 billion to strengthen health systems and services over seven years to 2015 in poor countries where HIV and AIDS are a major problem. We have also committed £1 billion to the Global Fund to Fight AIDS, TB and Malaria by 2015. A copy of the updated strategy 'Achieving Universal Access—the UK's strategy for Halting and

Reversing the Spread of HIV in the Developing World' and supporting evidence paper have been placed in the Libraries of both Houses. These are also available on the Department for International Development (DFID) website:

www.dfid.gov.uk

Food

Mr. Paice: To ask the Secretary of State for International Development how much was spent by his Department on *(a)* food and *(b)* food of British origin in each of the last five years. [214881]

Mr. Malik: The Department for International Development (DFID) has budgeted to spend £279,000 on food through our catering contracts for our two UK offices in the current year. Information on the breakdown of food based on country of origin is not collated, and could not be obtained without incurring disproportionate cost. Information for previous years is not available as DFID changed its catering contractors at the beginning of 2008.

Mr. Paice: To ask the Secretary of State for International Development from which five countries of origin the greatest amount of food was procured by his Department in the last year for which figures are available; and what the *(a)* cost and *(b)* quantity procured was in each case. [214882]

Mr. Malik: The Department for International Development is unable to answer this question as we do not require our catering contractors to maintain records of the country of origin of food procured, and to obtain this information would incur disproportionate cost.

Kenya: Asylum

John Battle: To ask the Secretary of State for International Development what assistance his Department has provided to enable Kenyan families displaced by post-election violence to return to their homes. [215410]

Gillian Merron: The UK Government's Department for International Development has committed £2.5 million in humanitarian assistance to Kenya for those displaced by the crisis.

In May, the Government of Kenya launched an operation to assist those who voluntarily wished to return home, providing transport, food, shelter and household items.

Although DFID has currently not committed funds to the resettlement of internally displaced people, we are working with the international community and the Government of Kenya to ensure resources are allocated to meeting the needs of those displaced and in finding ways of successful resettlement.

Overseas Aid

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development pursuant to paragraph 7.53 of his Department's 2008 Annual Report, which Millennium Development Goals his Department is not on track to meet by 2015. [217228]

Mr. Malik: The official assessment of progress towards the Millennium Development Goals (MDGs) is made by the United Nations (UN) each year. The last assessment was published last autumn in the UN's annual report "The Millennium Development Goal Report 2007", which is available at:

http://mdgs.un.org/unsd/mdg/Resources/Static/Products/Progress2007/UNSD_MDG_Report_2007e.pdf.

This assessment of progress was also reproduced in Annex 3 of the Department's 2008 annual report. The next update of global progress towards the MDGs is expected to be published later in September by the United Nations.

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what scenario and contingency planning his Department has employed in its country programmes relating to fragile states; what the cost of such planning was; and what dialogue it has promoted with other Government departments, with reference to paragraph 8.10 of his Department's Annual Report 2008. [220384]

Gillian Merron: Scenario and contingency planning has been carried out by Department for International Development (DFID) country offices in Afghanistan, Bangladesh, the Democratic Republic of Congo (DRC), Ethiopia, Kenya, Nigeria, Nepal, Pakistan, Somalia, Sudan and Yemen. DFID has also participated in joint UK Government scenario planning exercises in Kosovo and Iraq. Scenario and contingency planning has helped DFID develop a better, shared understanding of context within country offices and with other Government Departments, particularly the Foreign and Commonwealth Office (FCO) and Ministry of Defence (MOD). It has helped DFID think through the mix of aid instruments and partnerships we should use, improve risk assessment and management, and define and test options for country plans and HMG strategies.

Six DFID country offices have drawn on some support from external experts as part of the work (Bangladesh, Sudan, Somalia, Iraq, Pakistan, Afghanistan) and the estimated cost of this work has been £130,500. The majority of country offices have carried out the work in-house. A cross-Whitehall scenario planning group (comprising DFID, FCO, MOD, Stabilisation Unit and the Horizon Scanning Centre) has also been established centrally, and this group is sharing lessons and experiences of scenario planning work. DFID's new country planning guidance (issued on 14 July 2008) requires all country offices to include scenario and contingency planning as part of the process.

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what progress has been made in meeting the objectives of the Millennium Development Goals Call to Action; what steps have been taken to increase the number of countries supporting the Call to Action; how much his Department has spent on Call to Action; what administrative costs his Department has incurred; and what assessment he has made of the effectiveness of Call to Action. [220496]

Mr. Thomas: Progress to date against objectives on the Call to Action has included:

45 countries and the EC have signed up to the Call to Action, showing their dedication to achieving the MDGs. We expect the number of signatories will continue to grow.

The G8 and the EU in its Agenda for Action have reaffirmed their commitments on aid and agreed ways of accelerating progress on the MDGs.

Over 60 private sector leaders have signed up to the Business Call to Action. Some of these set out in the Business Call to Action event organised with UNDP in May how they will contribute through their core business to reaching the MDGs. Others will do the same at the UN meeting on the MDGs in September.

Civil society and faith groups are engaging in support of the Call to Action.

We have seen close co-operation by countries and others in co-ordinating partnership events that will help shape a common vision of how to accelerate action on the MDGs.

In order to help increase the number of signatory countries, UK Government representatives, working closely with our partners, have sought to raise the Call to Action with bilateral partners in a range of meetings over the past year.

The Department for International Development (DFID) has so far spent approximately £375,000 from its programme budget.

Based on salary costs, the administrative spend so far on the CtA, has been approximately £300,000 for the core team. In addition to this there are unquantified costs for the time of a range of other staff, who provide support as part of their wider responsibilities, and in-country costs incurred by the UK Mission in New York.

The CtA has been very effective in engaging a broad set of players to harness their potential to help achieve the MDGs. However there is still much to be done and we will continue to work closely with the UN and others.

HOME DEPARTMENT

Advisory Council on the Misuse of Drugs: Finance

James Brokenshire: To ask the Secretary of State for the Home Department how much her Department spent to support the Advisory Council on the Misuse of Drugs in each of the last five years. [223151]

Mr. Coaker *[holding answer 10 September 2008]:* The Home Office allocated the following sums of money in each of the last five years to support the Advisory Council on the Misuse of Drugs:

	Sum allocated to the ACMD (£)
2003-04	80,000
2004-05	135,000
2005-06	165,000
2006-07	152,000
2007-08	152,800

In addition the Advisory Council on the Misuse of Drugs secretariat staff and other civil servant costs have not been allocated as such costs are subsumed within normal salaried remuneration and within existing budgets.

Airwave Service

Tom Brake: To ask the Secretary of State for the Home Department on what date the Airwave system will be implemented for police forces in the London area. [223508]

Mr. McNulty *[holding answer 15 September 2008]:* The Airwave service is already being used operationally throughout both City of London Police and the Metropolitan Police Service. Migration to Airwave from the previous radio systems was completed by September 2007.

Tom Brake: To ask the Secretary of State for the Home Department what the guaranteed lifespan of the aerials used in the Airwave project is; and what preventative maintenance programme for these aerials has been put in place. [223509]

Mr. McNulty *[holding answer 15 September 2008]:* The Airwave service is provided by Airwave Solutions Ltd. (ASL) and is paid for by the National Policing Improvement Agency and police authorities by means of a service charge. The responsibility for aerials and any associated preventative maintenance rests with ASL. The Airwave contract does not make specific reference to either aerial life or aerial maintenance but ASL are obliged to maintain service levels as specified in the Airwave contract.

Tom Brake: To ask the Secretary of State for the Home Department what options her Department has considered for integrating talk groups within the Airwave system; and what estimate it has made of the cost of implementing the preferred option. [223510]

Mr. McNulty *[holding answer 15 September 2008]:* Talk groups are a basic component of the Airwave service and as such are included in the core charge for the service. They exist within every police force and have been implemented progressively ever since Lancashire Constabulary first started using Airwave in September 2001.

Tom Brake: To ask the Secretary of State for the Home Department what discussions her Department has had with construction industry representatives on the inclusion of Airwave technology in large construction projects. [223511]

Mr. McNulty *[holding answer 15 September 2008]:* There is no legal requirement for Airwave to be installed within large construction projects and the service is usually provided on a bespoke basis at the behest of the local force under a provision in the Airwave contract for Special Coverage Solutions. In such situations, the cost is borne by the appropriate police authority. We are not aware of any discussions that have been held on this issue with the construction industry.

Animal Experiments: Scotland

Ms Katy Clark: To ask the Secretary of State for the Home Department how many *(a)* supplying, *(b)* breeding and *(c)* scientific procedure establishments designated under the Animals (Scientific Procedures) Act 1986 there were in Scotland on 31 December 2007. [223096]

Meg Hillier *[holding answer 10 September 2008]:* As at the 31 December 2007 in Scotland there were 11 supplying, 18 breeding and 32 user establishments designated under the Animals (Scientific Procedures) Act 1986.

Ms Katy Clark: To ask the Secretary of State for the Home Department how many regulated procedures under the Animals (Scientific Procedures) Act 1986 were carried out in Scotland in 2007. [223196]

Meg Hillier *[holding answer 10 September 2008]:* During 2007, in Scotland there were 392,671 regulated procedures carried out under the Animals (Scientific Procedures) Act 1986.

Ms Katy Clark: To ask the Secretary of State for the Home Department how many project licences were *(a)* granted under the Animals (Scientific Procedures) Act 1986 in 2007 and *(b)* in force at the end of 2007 in respect of work to be carried out in Scotland. [223197]

Meg Hillier *[holding answer 10 September 2008]:* During 2007 102 project licences were granted under the Animals (Scientific Procedures) Act 1986 in Scotland. On 31 December 2007 there were 482 project licences in force in Scotland.

Ms Katy Clark: To ask the Secretary of State for the Home Department what proportion of the regulated procedures conducted in Scotland in 2007 under the Animals (Scientific Procedures) Act 1986 were performed in *(a)* public health laboratories, *(b)* universities and medical schools, *(c)* national health service hospitals, *(d)* Government Departments, *(e)* other public bodies, *(f)* non-profit making organisations and *(g)* commercial organisations. [223198]

Meg Hillier *[holding answer 10 September 2008]:* During 2007, in Scotland, based on the numbers of procedures, universities and medical schools carried out 68 per cent. of the regulated procedures under the Animals (Scientific Procedures) Act 1986, Government Departments 1 per cent., other public bodies 13 per cent. and commercial organisations 18 per cent.

Non-profit making organisations accounted for less than ½ per cent of procedures whilst public health laboratories and NHS hospitals did not carry out any regulated procedures.

Ms Katy Clark: To ask the Secretary of State for the Home Department what proportion of the regulated procedures conducted in Scotland in 2007 under the Animals (Scientific Procedures) Act 1986 were carried out for *(a)* fundamental and applied studies other than toxicology and *(b)* toxicity tests or other safety and efficacy evaluation. [223199]

Meg Hillier *[holding answer 10 September 2008]:* During 2007, in Scotland, 84 per cent. of the regulated procedures conducted under the Animals (Scientific Procedures) Act 1986 were carried out for fundamental and applied studies other than toxicology and 16 per cent. for toxicity tests or other safety or efficacy evaluation.

Antisocial Behaviour Orders

James Brokenshire: To ask the Secretary of State for the Home Department (1) how many individual support orders were issued in *(a)* 2006 and *(b)* 2007; and what proportion of all antisocial behaviour orders issued to 10 to 17 year olds individual support orders represented in each year; [223153]

(2) how many intervention orders have been made since 1 October 2006; and what proportion this represents of all antisocial behaviour orders issued in this period. [223154]

Mr. Coaker *[holding answer 19 September 2008]:* The available information on the number of Individual Support Orders (ISOs) issued is shown in the following table. ISO Data for 2007 will be available in 2009.

Intervention Orders became available in October 2006. The Office for Criminal Justice Reform started collecting data on the number of Intervention Orders from 1 October 2007. Data for 2007 are due to be published in early 2009.

Number of Individual Support Orders[1] given at the magistrates court, in addition to an antisocial behaviour order (ASBO), as reported to the Office for Criminal Justice Reform by the Court Service, from 1 January to 31 December 2006, England and Wales

All persons aged 10-17

Period	*Individual Support Orders*	*ASBOs issued on application*	*ASBOs issued on conviction*	*Percentage of ASBOs issued on application with an ISO attached*
Total 2006	75	423	631	18

[1] Available at magistrates courts only for juveniles (aged 10-17) with ASBOs issued on application. Commencement date 1 May 2004.

Notes:

1. Previously issued data have been revised.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Prepared by OCJR-Evidence & Analysis Unit.

Antisocial Behaviour: Blackpool

Mr. Marsden: To ask the Secretary of State for the Home Department what steps her Department has taken to reduce antisocial behaviour in Blackpool since 2005. [223128]

Mr. Coaker *[holding answer 10 September 2008]:* We are strongly committed to tackling, not tolerating, antisocial behaviour. That is why local crime and disorder reduction partnerships were introduced under the Crime and Disorder Act 1998. These enable the police, local authorities and other agencies representing the local community to work together to identify the crime and disorder problems in their area and take action to tackle them.

Blackpool was confirmed as one of 40 areas in January 2007 to lead the Respect Area programme by the strong track record in tackling antisocial behaviour and a willingness and capacity to do more.

As a Respect Area, Blackpool signed up to:

Family Intervention Projects

More Parenting Classes for parents struggling with troublesome children.

Face the People sessions where the police, local authorities and others can be accountable to their local public.

Keep up the relentless action to tackle anti-social behaviour by using the full range of tools and powers available.

Using the Respect Housing Standard to prevent and deal with any problems in social housing.

The work of the Respect Task Force is now being undertaken by the Youth Taskforce—established at the Department for Children, Schools and Families to focus on delivering positive outcomes for young.

Blackpool utilises the full range of the tools and powers available to tackle antisocial behaviour as set out in their ASB strategy.

Asylum

Damian Green: To ask the Secretary of State for the Home Department how many appeals against decisions made in legacy asylum claims had been heard by the Asylum and Immigration Tribunal as of 31st July 2008. [223994]

Mr. Byrne *[holding answer 17 September 2008]:* The reference to "legacy asylum claims" is taken to mean those which have not been processed through the new asylum model since the former Home Secretary John Reid's legacy announcement on 19 July 2006. Our records show that there have been 5,545 such appeals heard by the Asylum and Immigration Tribunal.

Note:

The information provided in this response is taken from local management data and is not a national statistic. It should therefore be treated as provisional and is subject to change.

Asylum: Finance

Damian Green: To ask the Secretary of State for the Home Department what estimate her Department has made of the number of asylum seekers who had been waiting more than two months to be paid section 4 support at 31 July 2008. [223328]

Mr. Byrne *[holding answer 10 September 2008]:* Provision for failed asylum seekers eligible for support under section 4 of the Immigration and Asylum Act 1999 is in the form of accommodation and vouchers. Cash payments are not made.

No decision was recorded on or before 31 July in respect of 101 applications made before 1 June 2008 for support under section 4.

This is based on management information which is subject to change.

Asylum: Zimbabwe

Chris Huhne: To ask the Secretary of State for the Home Department how many *(a)* Zimbabwean and *(b)* Darfuri asylum seekers of each (i) age group and (ii) sex are in each UK immigration removal centre; and how long each has been there. [219964]

Jacqui Smith *[holding answer 21 July 2008]:* The following table shows the number of Zimbabwean and Sudanese asylum seekers (including dependants) detained solely under Immigration Act powers as at 29 March 2008, broken down by centre and sex; all detainees were adults.

Following a change in the system in which information is collected, published statistics on all persons detained under sole Immigration Act powers by length of detention are not available.

The UK Border Agency does not electronically record the region from which asylum applicants originate; this information would only be available by examination of individual case files at disproportionate cost.

It is therefore not possible to say how many Darfuri asylum seekers are in immigration detention centres.

Further national statistics on persons detained solely under Immigration Act powers are available from the Library of the House and the Home Office's Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

The decision to detain is made on a case by case basis and may be appropriate in one or more of the following circumstances: to effect removal; to establish a person's identity and claim; where a person presents a risk of abscond or where the application is capable of being considered quickly.

Zimbabwean and Sudanese adult[1] asylum seekers[2] recorded as being detained in Immigration Service Removal Centres in the United Kingdom solely under Immigration Act powers as at 29 March 2008, by place of detention and sex[3]

Number of individuals

	Zimbabwean nationals detained			*Sudanese nationals detained*		
Place of detention	*Female*	*Male*	*Total*	*Female*	*Male*	*Total*
Immigration Service Removal Centres						
Campsfield House	—	*	*	—	*	*
Colnbrook Long Term	—	5	5	—	5	5
Dover Immigration Removal Centre	—	5	5	—	*	*
Dungavel	*	*	5	—	5	5
Harmondsworth	—	*	*	—	*	*
Haslar	—	5	5	—	*	*
Lindholme	—	*	*	—	—	—
Oakington Reception Centre	—	*	*	—	*	*
Tinsley House	—	*	*	—	*	*
Yarl's Wood	*	—	*	—	—	—
Total	5	25	30	—	20	20

[1] Persons recorded as being aged 18 or over as at 29 March 2008.
[2] Persons detained under Immigration Act powers who are recorded as having sought asylum at some stage, including dependants.
[3] Figures rounded to the nearest five, (— = 0, * = 1 or 2), may not sum to the totals shown because of independent rounding and exclude persons detained under both criminal and immigration powers.

Biometrics: Airports

Mark Pritchard: To ask the Secretary of State for the Home Department what use the UK Border Agency will make of data collected during biometric fingerprint checks at airports. [214145]

Mr. Byrne: A broad range of biometrically enabled measures have already been introduced or are planned for deployment by the UK Border Agency. These include:

The processing of 1st and 2nd generation e-travel documents (passports and ID cards) at the Border;

The recording of the biometrics of all individuals applying for a visa or entry clearance to travel to the UK;

The enrolment of biometrics of foreign nationals in the UK and issuance of biometric residence permits;

The verification of visa holders' identity by the scanning and checking of their fingerprints; and

The issuing of biometric identity documents to individuals recognised as refugees, granted humanitarian protection etc.

The enhanced use of biometrics will enable individuals to be locked down to a single identity, preventing the opportunity for multiple identities to be created and used, and helping to ensure that UKBA's strategic objectives to secure our border and tackle immigration crime are met.

Legal powers have extended our capability to capture fingerprints from other categories of passengers. This includes, among others, those who have been detained; those for whom removal directions have been set and those who have been granted temporary admission, and where there have been doubts about their compliance with such a grant.

The use of biometrics in border control processes supports UKBA's strategic objectives to strengthen our borders. Increasingly, biometrics are used to confirm a person's identity for law enforcement purposes.

British Nationality

Jo Swinson: To ask the Secretary of State for the Home Department whether there are any circumstances in which it makes a material difference to the inheritance of British citizenship by descent whether the citizenship is inherited from the maternal or the paternal side. [224106]

Mr. Byrne *[holding answer 17 September 2008]:* The British Nationality Act 1981 makes no distinction between men and women in terms of their ability to pass on the benefits of their status under the Act to their children. Nor does it distinguish, so far as British citizens by descent are concerned, between those whose ancestral connection with the United Kingdom is traced through the male line and those whose connection is traced through the female line.

Community Safety Accreditation Schemes

Mr. Clappison: To ask the Secretary of State for the Home Department what powers *(a)* private companies and *(b)* other organisations participating in community safety accreditation schemes have in each police force area. [223545]

Mr. McNulty *[holding answer 15 September 2008]:* It is for the Chief Constable of a police force to decide which of the powers available under the community safety accreditation scheme are given to individuals working for private companies and other organisations. The Home Office has carried out an audit of the powers accredited under CSAS in each police force which can be found on the Home Office website at:

http://police.homeoffice.gov.uk/communitypolicing/citizenfocusedpolicing/communitysafety-accredit-scheme/.

Mr. Clappison: To ask the Secretary of State for the Home Department which *(a)* private companies and *(b)* other organisations are in the community safety accreditation scheme in each police force area; and how many people have been accredited by each such scheme to date. [223546]

Mr. McNulty *[holding answer 15 September 2008]:* The Home Office does not collect data on which private companies and other organisations are in the community safety accreditation scheme (CSAS). However, a Home Office audit on the CSAS found there to be 1,406 people accredited under the scheme across England and Wales.

The audit shows, among other things, the number of accredited people per force and can be found on the Home Office website at:

http://police.homeoffice.gov.uk/communitypolicing/citizenfocusedpolicing/communitysafetyaccredit-scheme/.

Mr. Clappison: To ask the Secretary of State for the Home Department how many non-UK citizens have been accredited under community safety accreditation schemes since the inception of such schemes, broken down by nationality. [223548]

Mr. McNulty *[holding answer 15 September 2008]:* The Home Office does not collect information on the number of non-UK citizens accredited under community safety accreditation schemes.

Community Support Officers: Greater London

Lyn Brown: To ask the Secretary of State for the Home Department how many police community support officers there were in the London boroughs of *(a)* Newham, *(b)* Hackney and *(c)* Tower Hamlets in each of the last five years. [223531]

Mr. McNulty *[holding answer 15 September 2008]:* Information on the number of Police Community Support Officers has been collected since 2005 and the figures for Newham, Hackney and Tower Hamlets are set out in the following table.

Police community support officers[1]

London Borough Operational Command Unit	*31 March 2005*	*2006*	*2007*	*2008*[2]
Hackney	51	51	66	86
Newham	76	82	105	122
Tower Hamlets	59	79	86	94

[1] Full-time equivalent numbers.
[2] Provisional data provided by Metropolitan Police.

Crime

James Brokenshire: To ask the Secretary of State for the Home Department what her most recent estimate is of the annual cost to the British economy of crime. [223555]

Mr. Coaker *[holding answer 15 September 2008]:* I refer the hon. Member to the answer given on 9 July 2008, *Official Report,* column 1537W.

Crime: Business

James Brokenshire: To ask the Secretary of State for the Home Department what her most recent estimate is of the number of crimes committed against business in each of the last three years. [223152]

Mr. Coaker *[holding answer 10 September 2008]:* The term "business crime" is not specifically used within the recorded crime offence series. The offences that may be attributed to business crime are: robbery of business property, theft by an employee, shoplifting, and fraud by a company director. The available statistics are given in the following table.

Our strategy is to encourage business to work closely in partnership with the police and local authorities through the Crime and Disorder Reduction Partnerships (CDRPs) to inform local crime reduction strategies.

Partnership working is perhaps the single biggest success in tackling crime over the past 10 years. We funded the Action Against Business Crime Group to set up and maintain 200 business crime reduction partnerships in towns and cities across England and Wales. These partnerships have proved remarkably successful.

The Home Office is committed to working with our retail partners to ensure that we find effective solutions and responses to retail crime.

Shops and stores are at the heart of most of our communities and crime against those outlets affects us all.

A key strand of the work to address business crime is to ensure that partnerships and stakeholders have the right "tools" and knowledge to deal with retail crime effectively.

As an example of this, the Home Office has funded the Perpetuity Group, which is led by Professor Gill, to devise an audit tool which retailers can apply to their stores and significantly lower the opportunities for shop thieves to operate.

Recorded crime statistics: number of offences recorded for offence classifications that may be attributed to "business crime", 2005-06 to 2007-08

Offence	*2005-06*	*2006-07*	*2007-08*	*Percentage change 2005-06 to 2007-08*
Robbery of business property	8,760	9,454	9,141	4
Theft by an employee	17,048	16,323	15,858	-7
Shoplifting	295,999	294,282	290,625	-2
Fraud by company director[1]	626	101	197	-69

[1] The large increase in this offence in 2005-06 was due to one large-scale fraud recorded by Cambridgeshire Constabulary and the large rise in 2007-08 was due to fraud recorded by the North Yorkshire Constabulary.

Crime: Waste Disposal

Mr. Paice: To ask the Secretary of State for the Home Department how many waste disposal offences were recorded in England and Wales in each of the last 10 years, broken down by *(a)* type of offence and *(b)* police force area. [223666]

Mr. Coaker *[holding answer 15 September 2008]:* The information requested is not collected centrally. Offences prohibiting the unlicensed disposal of waste come under the Control of Pollution Act 1974 and are summary offences. As such they do not form part of the recorded crime statistics collected by the Home Office.

Criminal Records: International Cooperation

Chris Huhne: To ask the Secretary of State for the Home Department what proposals are under discussion at EU level to enable access to the criminal records of one EU member state by the authorities of another. [217321]

Jacqui Smith: We welcome EU-wide initiatives to exchange criminal record information for criminal investigation and vetting purposes.

The European Union is currently discussing a proposal for a Council decision on the establishment of the European Criminal Record Information System (ECRIS). The ECRIS proposal is designed to provide a standardised format for the electronic exchange of information extracted from criminal records, in particular information on the offence for which a person has been convicted and the sentence passed by the court. When adopted the ECRIS proposal will allow swifter exchange of criminal conviction information between member states than is the case now.

The ECRIS proposal will allow the application of Article 11 of Framework Decision 2008/xx/JHA on the organisation and content of the exchange of information extracted from criminal records between member states. The EU has agreed a general approach on this proposal and we expect it to be adopted by the end of 2008 with an implementation deadline of three years from the date of agreement. When the Framework Decision comes into force it will be mandatory to notify other EU countries of convictions of its nationals and it will also be mandatory to respond to requests for the criminal records of EU national being proceeded against in another member state.

The United Kingdom already can, in the context of criminal proceedings in the UK, request the criminal record of an EU National using Council Decision 2005/876/JHA of 21 November 2005. While the Council Decision is not mandatory a number of EU member states, including the UK, Germany and Poland are already using the Council Decision to obtain criminal record information from other member states.

Departmental Buildings

Mr. Betts: To ask the Secretary of State for the Home Department what her Department's policy is on improving the energy efficiency of the buildings which it *(a)* rents and *(b)* owns; what changes there have been in the energy efficiency of such buildings in the last (i) five and (ii) 10 years; and whether her Department has adopted targets on energy efficiency improvements in the buildings it occupies over the next (A) five and (B) 10 years. [221083]

Mr. Byrne: The Department is committed to the Sustainable Operations on the Government (SOGE) targets which include a requirement to improve energy efficiency per m^2 by 15 per cent. by 2010, and then

30 per cent. by 2020, based on 1999-2000 levels. Energy efficiency performance in 2006-07, the latest year for which data is available, compared to 1999-2000 is given in the following table. No earlier data is available. This shows a 12.9 per cent. improvement in energy efficiency over the period.

	1999-2000[1]	*2006-07*[1]
Energy per m^2 (kWh/m^2)	458	400

[1] Includes core Home Office, UK Borders Agency, Identity and Passport Service as well as the National Offender Management Service (NOMS), including the prison service, since transferred to the Ministry of Justice.

The reporting period 2007-08 is the first for which we will have performance data on the much reduced departmental estate, following the transfer of the National Offender Management Service, incorporating the probation and prisons estates, to the Ministry of Justice. Once this data is finalised we will use it to assess current performance and to identify what improvement activity may be required to enable us to achieve the SOGE energy efficiency targets by 2010 and then 2020, as well as actions required to reduce emissions from energy use in the same period.

Mr. Betts: To ask the Secretary of State for the Home Department what account her Department takes of the level of energy efficiency of buildings before entering into agreements to *(a)* rent and *(b)* purchase those buildings. [221099]

Mr. Byrne: The Department is committed to acquiring accommodation which minimises carbon emissions and provide lowest achievable energy costs. When purchasing or leasing buildings, the Department seeks to choose those that offer the best available certification under the BRE environmental assessment method which also meet operational needs and provide best value for money.

Departmental Data Protection

Mrs. Villiers: To ask the Secretary of State for the Home Department whether personal data for which her Department is responsible is *(a)* stored and *(b)* processed overseas; and if she will make a statement. [176019]

Mr. Byrne: Some personal data provided by individuals to the Criminal Records Bureau and to UK Visas is temporarily stored for processing purposes overseas.

The CRB data processed overseas is only stored for the duration of time taken to input it, determine that quality criteria are met and transfer it back to the United Kingdom. Thereafter, the data is destroyed. The overseas site in India is ISO27001 certified and is subject to CRB audit and accreditation reviews.

The processing of visa applicant data overseas is carried out either by Foreign and Commonwealth Office staff in diplomatic or consular premises or, in certain countries, by commercial partners. In these countries, commercial partners are only responsible for the basic collection of visa application data, under the supervision of UK-visas staff.

In all circumstances the Home Office seeks to handle personal data in a way that complies with our obligations under UK law.

Mr. Hoban: To ask the Secretary of State for the Home Department whether personal data held by her Department has been transferred to compact discs and sent to external agencies in the last 12 months. [180399]

Mr. Byrne: In line with current Cabinet Office guidance, the Home Office has used compact discs to transfer personal data to external agencies in the last year. Since 22 November 2007, the Home Office has been undertaking a review of its technical, process and procedural arrangements to ensure the risk of data being compromised is managed and reduced to a minimum.

I also refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179:

"...I have asked the Cabinet Secretary and security experts to ensure that all Departments and all agencies check their procedures for the storage and use of data.."

An interim progress report on the review was published by the Cabinet Office through a written ministerial statement on 17 December 2007, *Official Report*, column 98WS. This included a recommendation to enhance the transparency with Parliament and the public about the action taken to safeguard information, and the results of that action, through publication of results, departmental annual reports and an annual report to Parliament.

Mr. Grieve: To ask the Secretary of State for the Home Department what instructions are issued to staff in her Department on how to *(a)* collect, *(b)* use and *(c)* delete personal information on members of the public. [219354]

Jacqui Smith: The information is as follows:

(a) and (b)

Data collected by the Home Office are held on systems secured to Government standards and are managed according to the Data Protection Act (1998). Those managing these information assets are "trusted stewards" with an obligation to protect it. Any transmission of protected personal information is performed according to the Data Handling Review recommendations and with the security of the of the information in mind.

(c)

The Home Office disposal of personal information is governed by the Data Protection Act and the Home Office review and retention policies. These policies are based on the standards set by The National Archive, which specifies time limits for the retention of information. The Department's security policy governs the classification of information and the disposal policies that control the appropriate methods of destruction.

Departmental Databases

Adam Price: To ask the Secretary of State for the Home Department whether *(a)* companies based in the United States and *(b)* UK subsidiaries of US companies have been contracted by her Department and its agencies to provide services involving the use, storage, processing or analysis of databases of personal information held by the Government on UK citizens in the last five years. [188219]

Mr. Byrne: The Home Office including its agencies has engaged UK subsidiaries of US-registered service providers to manage aspects of storage, processing or analysis of personal information.

The Data Protection Act 1998 includes provisions to ensure that personal data benefits from adequate protection when it is transferred outside the European Economic Area by UK data controllers. Contracts are based on UK contract law with the applicable statutory safeguards.

Departmental Disciplinary Proceedings

Mr. Ruffley: To ask the Secretary of State for the Home Department how many staff in her Department were *(a)* dismissed, *(b)* made subject to disciplinary procedures short of dismissal, *(c)* moved to different duties as a result of a performance assessment and *(d)* offered early retirement in each of the last five years. [219182]

Mr. Byrne: The number of staff *(a)* dismissed and *(b)* subject to formal disciplinary procedures for poor performance within Home Office headquarters, the UK Border Agency, Identity and Passport Service, and the Criminal Records Bureau, is set out in the following table.

Table 1

	Dismissed	*Disciplined short of dismissal*	*Moved to different duties*
2003	—	—	—
2004	0	15	—
2005	—	13	—
2006	5	38	—
2007	12	40	—
2008 (to 30 June 2008)	8	37	—

The information contained in the table has been drawn from centrally held databases at this time.

Information prior to 2005, or on the number of staff moved to different duties as a result of poor performance, is not held centrally within Home Office HQ or the UK Border Agency and could be obtained only at disproportionate cost. Where fewer than five members of staff were dismissed, disciplined or moved to different duties, further information has been withheld on grounds of confidentiality.

The number of staff given early retirement within Home Office headquarters, the UK Border Agency, Identity and Passport Service, and the Criminal Records Bureau in each of the last five financial years is set out in the following table.

Table 2

	Number
2002-03	10
2003-04	18
2004-05	13
2005-06	141
2006-07	125
2007-08	84
2008-09 (to 11 July 2008)	112

The numbers are calculated on the basis of last day of service.

Departmental Early Retirement

Mr. Redwood: To ask the Secretary of State for the Home Department how many staff in *(a)* her Department and *(b)* her Department's agencies have taken early retirement in the last two years. [217381]

Mr. Byrne: The following table shows the numbers of staff in the Home Office and its agencies who have taken early retirement in the last two full financial years and the current year to date.

The numbers are calculated on the basis of last day of service.

A more detailed breakdown, including distinguishing between Home Office headquarters and the UK Border Agency and between different types of retirement, could be obtained only by running additional, tailored, reports and this would incur disproportionate cost.

The following table shows the number of staff taking early retirement from the Home Office and its agencies by financial year since 2006-07.

	2006-07	*2007-08*	*2008-09*[1]
HO headquarters and UK Border Agency	107	70	110
Criminal Records Bureau	0	1	1
Identity and Passport Service	18	13	1

[1] 1 April to 11 July 2008.

Departmental ICT

Dr. Cable: To ask the Secretary of State for the Home Department what the *(a)* start date, *(b)* original planned completion date, *(c)* current expected completion date, *(d)* planned cost and *(e)* current estimated cost is for each information technology project being undertaken by her Department and its agencies; and if she will make a statement. [180570]

Mr. Byrne: Following is a table of information technology projects currently being undertaken by the Home Office and its agencies. Please note that, due to the large number of IT projects run by the Home Office we have limited the scope of this response to projects valued at more than £5 million.

Business owner	*Programme*	*Start date*	*Original planned completion*	*Current expected completion*	*Planned cost (£)*	*Current estimated cost (£)*
UK Border Agency	eBorders	14 November 2007	1 March 2014	1 March 2014	849.5 million	827.3 million
IPS	National Identity Scheme—IPS element	24 October 2006	2012	2012	[1]5.43 billion	[2]4.74 billion

Business owner	Programme	Start date	Original planned completion	Current expected completion	Planned cost (£)	Current estimated cost (£)
UKBA	Identity Cards for Foreign Nationals (formerly BRP)	April 2007	March 2009	August 2010	[1]9.6	12.4 million
UK Border Agency	Immigration Casework (ICW)[4]	April 2008	June 2015	June 2015	370 million	370 million
UK Border Agency	Points Based System (PBS)	July 2008	March 2011	March 2011	33 million	33 million
Shared Services	SBS Programme	2005	2011	2011	[5] 32 million	[5]41 million
CRCSG/ Independent Safeguarding Authority	Vetting and Barring Scheme	January 2007	April 2009	October 2009	[6]84 million	[6]84 million

[1] 10 year period October 2007 to October 2017) consisting of: set up costs £0.24 billion, operational costs £5.19 billion (2007-08 prices).
[2] 10 year period April 2008 to April 2018) consisting of: set up costs £0.32 billion, operational costs £4 42 billion (2008-09 prices).
[3] For IT costs only high level estimate at start of project.
[4] These figures are estimates developed for the ICW OBC. They have not yet been baselined.
[5] Including costs of enhanced technology and Procurement Centre of Excellence.
[6] Set up £246 million operational costs over five years.

In addition to the above, the Home Office is also the lead department for the cross Government Interception Modernisation Programme, announced by the Prime Minister in February 2008

Mr. Hoban: To ask the Secretary of State for the Home Department how many of her Department's personal digital assistants were *(a)* lost and *(b)* stolen in each of the last five years; and what the value of those items was. [185283]

Mr. Byrne: Since 2005, Home Office IT Shared Services have enabled access to the Home Office IT infrastructure via the use of Personal Digital Assistants (PDAs) for personnel in Home Office HQ and UKBA.—the UK Border Agency.

Numbers reported lost and stolen are given in the following table.

The devices are provided by a third party supplier, to whom the Department pays a service charge. Hence, the value of any losses would be borne by the supplier.

The devices are security protected. Attempted use by unauthorised persons results in the device being locked or the data being completely erased after three failed-password attempts.

We do not have comprehensive central records for any devices issued prior to 2005.

	Lost	Stolen	Value (£)
2005	0	0	0
2006	6	1	[1]—
2007	10	2	[1]—
2008	8	3	[1]—

[1] Cost borne by third party.

James Brokenshire: To ask the Secretary of State for the Home Department what steps she has taken to ensure that counterfeit routers and other hardware are not utilised in her Department's computer networks. [203248]

Mr. Byrne: It is not in the interests of the UK's national security for departments to confirm whether they hold information about malicious attacks against their IT systems.

James Brokenshire: To ask the Secretary of State for the Home Department what recent estimate she has made of the cost of the PentiP computer system; and if she will make a statement on the timetable for its introduction. [223556]

Mr. McNulty *[holding answer 15 September 2008]:* The estimated cost of designing, developing and implementing the PentiP system is £19.3 million.

PentiP will introduce a number of improvements to the current working processes involved in dealing with penalty notices. The net effect of which will be a more efficient overall process for the police staff who input tickets to the system and for the courts' staff who process the payment of fines.

The first stage of PentiP, which supports the National Driver Improvement Scheme (NDORS), has now been delivered. It is planned that the contract for the delivery of the remainder of the PentiP system will be awarded in March 2009. Implementation of PentiP in all forces in England and Wales will be completed by May 2012.

Departmental Internet

Mr. Swire: To ask the Secretary of State for the Home Department if her Department will *(a)* follow the Internet Content Rating Association (ICRA) guidelines and *(b)* display ICRA's label on the websites for which it is responsible. [191772]

Mr. Byrne: The Government are committed to safety online for all users, including children. The Central Office for Information is preparing a new set of guidance for many aspects of the Government web estate and we will implement what they mandate.

Departmental Manpower

Stewart Hosie: To ask the Secretary of State for the Home Department how many jobs her Department expects to relocate under the policy of civil service job dispersal. [213413]

Mr. Byrne: The Home Office has a target to locate 2,200 full-time equivalent (FTE) posts in the regions, to contribute to the cross-Government target of 20,000 FTE posts by 2010. Progress is reported in my Department's annual report (Cm 7396).

Despite meeting this target in June 2007 we have still continued to relocate staff out of London and the south east. To date, the number of staff that we have relocated stands at 2,707. The policy of relocation makes use of diverse and valuable skills that can be found across all regions of the UK as well as in London and the South East.

Over the next 18 months we shall continue to relocate posts in the most cost effective manner. We currently have plans in place to relocate a further 250 posts, this figure may rise as and when we make further relocations, depending on the needs of the business.

Departmental Marketing

Pete Wishart: To ask the Secretary of State for the Home Department what the cost was of *(a)* internet and website design and hosting, *(b)* print media design and *(c)* broadcast media of each of her Department's public information campaigns since 1997. [214715]

Mr. Byrne: It is not possible for the Home Office to calculate the costs of print media design without incurring disproportionate costs.

Departmental Paper

David Simpson: To ask the Secretary of State for the Home Department what percentage of paper used *(a)* for photocopying and *(b)* in printed publications by her Department was from recycled sources in each of the last two years. [220724]

Mr. Byrne: 100 per cent. of the paper used by the core Home Office for photocopying is from recycled sources, and has been for the last two years. The Department also has a policy of using paper from recycled sources for its printed publications where practicable, although we do not have information on the percentage used.

Departmental Pay

Mr. Hayes: To ask the Secretary of State for the Home Department how many and what proportion of her Department's staff are employed within each salary band; what the title and role of each position within each salary band is; and for each salary band what the *(a)* bonus structure, *(b)* retirement provision, *(c)* expenses provision, *(d)* total expenses incurred in each of the last 10 years, *(e)* average age of employee, *(f)* number of (i) women and (ii) men and *(g)* ethnic composition is. [171403]

Mr. Byrne: The data is in presented (tables 1 and 2) by grade bands rather than by the requested salary bands. They provide average age, gender and ethnicity information. To provide the information by salary bands would incur a disproportionate cost due to the way the databases are organised.

The Home Office Headquarters (HOHQ) and the United Kingdom Border Agency (UKBA) do not centrally record the title and role of each employee; to provide this information would incur a disproportionate cost.

Bonuses[1]

Bonuses are funded from the existing pay bill. As part of the annual salary award, non-consolidated (cash) bonuses may be awarded to staff below SCS who have demonstrated exceptional performance. Special bonuses may also be awarded to recognise outstanding achievements.

Bonus arrangements for the SCS are set out in the Senior Salaries Review Body report which can be found at:

http://www.home.uk.com/downloads/30thpercent20Report percent20onpercent20Seniorpercent20Salariespercent20-percent202008.pdf

[1] Applies to UK Border Agency and Home Office Headquarters.

Retirement provision

Those eligible for a retirement provision are covered by the terms of the Principle Civil Service Scheme. This scheme is administered by the Civil Service Pensions Division of the Cabinet Office. The following link may be useful:

http://www.civilservice-pensions.gov.uk/publications.aspx

Reimbursement of expenses incurred in the course of official work Permanent Home Office staff and others (such as contractors (when specified in their contract) who are employed by the Home Office) are entitled to reimbursement for expenses that are necessarily incurred in the course of their duties including, for example travel and accommodation. When no extra expense is incurred, no reimbursement is due.

HO HQ and UKBA are unable to provide expenses paid to staff in civil service salary bands only, without incurring disproportionate cost.

Table 1: HO HQ staff breakdown by grade, gender, ethnicity and average age data as at 31 March 2008

Grade	Title	Full time equivalent	Headcount	Percentage headcount	Male	Female	BME	Prefer not to say	White	Unknown	Average age
AA	Administrative Assistant	113.51	119	3	68	51	7	1	24	87	39

[1] A small number of new or temporary staff were held on the date in question without a grade recorded, on the personnel information management system.

Departmental Pensions

David Simpson: To ask the Secretary of State for the Home Department how many and what percentage of staff in her Department were making additional voluntary contributions to their pensions in each of the last two years. [193562]

Mr. Byrne: In February 2007, 965 staff were contributing to recognised AVC schemes, partnership pension schemes and stakeholder pension schemes. This total represented 1.28 per cent. of employees. These figures are for staff in core Home Office, Prison Service, Borders and Immigration Agency, Identity and Passport Service and Criminal Records Bureau.

In February 2008, 398 staff were making contributions to recognised AVC schemes, partnership pension schemes and stakeholder pension schemes, which represents 1.40 per cent. of employees. The figures are for staff in core Home Office, Borders and Immigration Agency, Identity and Passport Service and Criminal Records Bureau. They do not include Prison Service, which became part of Ministry of Justice in May 2007.

Danny Alexander: To ask the Secretary of State for the Home Department what the cash equivalent transfer value is of the public sector pensions of the 10 highest paid members of staff in her Department and its executive agencies; and if she will make a statement. [200745]

Mr. Byrne: It is not appropriate to disclose values for staff, other than those whose details are reported on in Remuneration Reports in the Department's Resource Accounts. A copy of the Resource Accounts for the financial year 2007-08 can be found in the Library. The document can be accessed electronically by the following link.

Home Office Resource Accounts 2007-08 (pages 29 to 32 refer):

http://www.homeoffice.gov.uk/documents/resource-accounts-07-08?view=Binary

Departmental Retirement

Lynne Featherstone: To ask the Secretary of State for the Home Department what the mandatory retirement age in her Department is; and how many people were allowed to work beyond the mandatory retirement age in each of the last five years. [214126]

Mr. Byrne: The following table shows the number of staff who have worked beyond the mandatory retirement age in each of the last five years.

In 2005-06 and 2006-07, the Home Office HQ included the following Departments; Communities Group, National Offender Management Service (NOMS) and Office for Criminal Justice Reform (OCJR). NOMS and OCJR left in May 2007 to join the new Ministry of Justice, and Communities Group transferred to the Department for Communities and Local Government in May 2006.

From 1 October 2006—in line with the Employment Equality (Age) Regulations 2006—the retirement age for all staff became 65 (before that, it was 60). Staff still have the option to take their pension and retire from the age of 60 and can, exceptionally, work until the age of 70 subject to certain conditions.

	Retirement age				
	60			*65*	
	2003-04	*2004-05*	*2005-06*	*2006-07*	*2007-08*
Home Office Headquarters (HO HQ)[1]	n/a	n/a	91	4	23
United Kingdom Border Agency (UKBA)[1]	n/a	n/a	454	26	43
Identity and Passport Service (IPS)	1	0	1	2	6
Criminal Records Bureau (CRB)[2]	n/a	7	7	8	15
Total	1	7	553	40	87

[1] Data for HO HQ and UKBA is not available for 2003-05 without incurring a disproportionate cost.
[2] CRB is unable to provide 2003-04 data without incurring a disproportionate cost

Departmental Sick Leave

David Simpson: To ask the Secretary of State for the Home Department how many staff in her Department have had five or more periods of sickness absence of less than five days in two or more of the last five years. [218960]

Mr. Byrne: The Home Office headquarters and United Kingdom Border Agency are unable to provide the requested sickness data without incurring a disproportionate cost. The period concerned will require manual checks for each record. This is due to the move from the old personnel information manpower management system (PIMMS) database to the current Oracle (Adelphi) database in 2004-05.

55 staff in the Criminal Records Bureau and 326 in the Identity and Passport Service have taken five or more periods of sickness absence of less than five days in two or more of the last five years.

Departmental Sick Pay

Jenny Willott: To ask the Secretary of State for the Home Department how many staff in *(a)* her Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility have received sick pay for sick leave due to (i) stress and (ii) mental health and behavioural disorders in each of the last 10 years; what the average length of time was for which sick pay was paid in these cases; and if she will make a statement. [216107]

Mr. Byrne: Prior to 1 April 2007 annual sick absence reporting across Government Departments was published by the Cabinet Office. Data for Government Departments was not analysed and reported at the time against the criteria outlined in the question and it is not possible for the Home Office to do so now, retrospectively, without incurring disproportionate cost.

From 1 April 2007 sick absence reporting across Government Departments was standardised and reported via quarterly surveys to Cabinet Office. Figures are reported as paid days lost to sickness by length of sick absence (short and medium term) and by absence reason.

One category of absence reason is "Mental Disorders" which includes all mental health and behavioural disorders as well as stress, anxiety and depression. The Home Office currently does not analyse and report figures against the full criteria outlined in the question and is not possible now without incurring disproportionate cost.

The Home Office is currently piloting a new standardised data source for its HR reporting; the intention is to move to this new data source by the end of this financial year so that it will be in a position to answer future questions about its staff more fully than has been the case in the past.

Figures for the Home Office and its Agencies for the financial year 2006-07 for those receiving sick pay for Mental Disorders, and as reported to Cabinet Office, are as follows:

Summary	*Days lost (short term)*	*Days lost (long term)*	*Total days lost (12 month period)*
Home Office Headquarters	498	4,242.00	4,740.00
Home Office UKBA	7,395.70	40,325.60	47,721.30
Home Office IPS	1,696.50	9,279.00	10,975.50
Home Office CRB	861	1,113.00	1,947.00
Home Department Grand To	10,451.20	54,959.60	65,410.80[1]

[1] Grand totals vary due to rounding on Cabinet Office spreadsheets used by Departments for Quarterly Returns.

The Home Office does not analyse and report HR information on its non-departmental public bodies against the criteria outlined in the question and to do so now would incur disproportionate cost.

Departmental Vetting

Mr. Ruffley: To ask the Secretary of State for the Home Department what percentage of staff recruited to *(a)* her Department and *(b)* its agencies were

required to have a Criminal Records Bureau check before an offer of employment was made in each year since 2002. [219042]

Mr. Byrne: A Criminal Records Bureau (CRB) check is primarily a requirement for posts that involve working with children and/or vulnerable adults. Home Office headquarters and the Criminal Records Bureau do not require staff to undergo CRB checks prior to being offered employment. The UK Border Agency has carried out 1,449 CRB checks in total for staff since 2002. A breakdown by year could be obtained only at a disproportionate cost. The Identity and Passport Service (IPS) only require staff within the Interview Office Network to undergo CRB checks. The network has been in place for three years. Table 1 shows the percentage of IPS staff employed who had CRB checks before being made an offer of employment in each year was as follows:

Table 1

	Percentage of staff
2005-06	1.6
2006-07	13.5
2007-08	1.4

Detention Centres: Translation Services

Mr. Drew: To ask the Secretary of State for the Home Department what appointment procedures individuals, organisations or companies providing interpretation services in detention or immigration centres are subject to; what account is taken of the specific needs of those in detention and immigration centres in such appointment procedures; whether specific training is provided for those working as interpreters; and if she will make a statement. [223573]

Mr. Byrne *[holding answer 15 September 2008]:* Immigration Removal and Detained Fast Track Centres will either call on the services of an interpreter from the United Kingdom Border Agency panel of freelance interpreters for face to face interpretation or a commercial supplier for telephone interpretation. Detainee needs vary but are taken into account when arranging an interpreter as far as practicably possible.

Asylum seekers are offered the option of an interviewer and interpreter of a specific gender. Applicants are made aware of this during screening procedures and this is acted on as far as operationally possible.

Interpreters registered with the United Kingdom Border Agency panel of interpreters do receive training which is either one or two day in duration depending on the level of public service interpreting experience they hold.

Disabled Staff

Mr. Harper: To ask the Secretary of State for the Home Department how many and what proportion of staff in *(a)* her Department and *(b)* the executive agencies for which she is responsible are disabled; and what the average salary in her (i) Department and (ii) executive agencies is of (A) full-time disabled staff, (B) full-time non-disabled staff, (C) part-time disabled staff and (D) part-time non-disabled staff. [220176]

Mr. Byrne: The information requested is not available for all staff because the declaration of disability is not mandatory: 'prefer not to say responses are available to staff.

Home Office Headquarters and its agencies are unable to provide all of the information requested without incurring a disproportionate cost[1]; that which is available is presented in the following table.

We are unable to provide average salary information for disabled and non-disabled staff without incurring disproportionate cost.

[1] Information on the proportion of staff recorded as having a disability has been obtained from the personnel information systems as at 31 May 2008. Information is only available for the proportion of staff that have chosen to declare themselves as disabled.

Staff in the Home Office and its agencies who have declared themselves as disabled

	Percentage
Home Office Headquarters (HQ)	4
UK Border Agency	4.12
Criminal Records Bureau	3.10

Drugs: Misuse

Mr. Brady: To ask the Secretary of State for the Home Department what the cost of testing people committing trigger offences as defined in Schedule 6 of the Criminal Justice and Court Services Act 2000 for the presence of a specified class A drug was in the most recent year for which figures are available; and what estimate she has made of the annual cost of extending testing for class A drugs to those committing other public order offences. [223262]

Mr. Coaker *[holding answer 10 September 2008]:* Drug testing of people who have committed trigger offences as defined in Schedule 6 of the Criminal and Court Services Act 2000 for specified Class A drugs is conducted in authorised police stations across England and Wales as part of the Drug Interventions Programme (DIP).

This drug testing is funded directly by the Home Office to the 23 police force areas authorised to carry out DIP drug testing.

In 2007-08 the Government invested some £26.5 million in DIP drug testing. Over 80 per cent. of this investment funded the police to run DIP drug testing operations and the remaining 20 per cent. is spent on the provision of drug screening kits and confirmatory test analysis.

Around 224,000 tests were carried out in 2007-08 including 1,232 tests authorised by a police officer of inspector rank or above for public order offences.

The Home Office has not made any estimates on the annual cost of extending DIP drug testing to those committing public order offences.

Emergency Calls: Greater London

Lyn Brown: To ask the Secretary of State for the Home Department how many emergency calls were received by the police regarding incidents in *(a)* the London borough of Newham, *(b)* the London borough of Hackney, *(c)* the London borough of Tower Hamlets and *(d)* London in each of the last five years. [223528]

Mr. McNulty *[holding answer 15 September 2008]:* The information requested is not collected centrally.

Information on emergency call handling is available at the police force level only, and data for the Metropolitan Police Service are given in the table.

The requested data are collected on behalf of Her Majesty's Inspectorate of Constabulary and were published each year in their Annual Report up to 2004-05. The available data are given in the table.

Emergency calls received[1] by the Metropolitan Police service for 2003-04 to 2007-08

	2003-04	2004-05	2005-06[2]	2006-07[2]	2007-08[2]
Metropolitan Police	2,288,519	2,154,876	2,124,000	2,278,003	2,444,417

[1] Data on the number of emergency calls are collected on behalf of HMIC, who previously published this Information in their Annual Report, HMIC have advised that it will no longer release this data and that the data for 2004-05 Is the last series to be published.
[2] Provisional data that have not been validated by police forces.

Emergency Calls: Hoaxes and False Alarms

Mr. Crausby: To ask the Secretary of State for the Home Department how many hoax 999 calls to the police there were in each of the last three years in *(a)* Bolton, *(b)* the North West and *(c)* England and Wales. [223672]

Mr. McNulty *[holding answer 15 September 2008]:* The information requested is not collected centrally.

Entry Clearances: Foreign Workers

Damian Green: To ask the Secretary of State for the Home Department how many businesses had applied for licences to sponsor foreign migrants by *(a)* 31 July 2008 and *(b)* 31 August 2008. [223329]

Mr. Byrne *[holding answer 10 September 2008]:* The number of businesses which have applied for licences to sponsor foreign migrants by *(a)* 31 July 2008 is 469 and *(b)* 1 August 2008 is 799.

The figures quoted are not provided under national statistics and have been derived from local management information and are therefore provisional and subject to change.

Entry Clearances: Iraq

Jo Swinson: To ask the Secretary of State for the Home Department what the percentage refusal rate was for UK visas applied for by Iraqi citizens *(a)* at the British Embassy in Jordan and *(b)* overall in the latest period for which figures are available. [223493]

Mr. Byrne *[holding answer 15 September 2008]:* The refusal rate for visa applications submitted by Iraqi nationals in the FY—financial year—2007-08 at the British embassy in Amman and globally was 51 per cent. and 43 per cent. respectively.

Please note that these figures have not been previously published and should therefore be treated as provisional.

Genetics: Databases

Mr. Ruffley: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females aged (i) under 15, (ii) 15 to 24, (iii) 25 to 34, (iv) 35 to 44, (v) 45 to 54, (iv) 55 to 64 and (viii) over 65 years in each ethnic appearance category were registered on the national DNA database in each of the last five years. [200244]

Meg Hillier: Data on the number of males whose profiles have been added to the National DNA Database (NDNAD) by English and Welsh police forces, as at 16 July 2008, broken down by sex and the age groups requested, is shown in table 1. Equivalent data for females is given in table 2. Age is defined as the person's age at the time DNA was taken from them, not their current age. This data could only be further broken down to show which profiles were added in each of the last five years at disproportionate cost.

The number of profiles is not the same as the number of individuals. This is because a number of subject profiles on the NDNAD are replicates, that is, a profile for a person has been loaded to the NDNAD on more than one occasion. This may arise for a number of reasons, such as a person giving a different name on different occasions they are arrested, or because of upgrading of profiles. It is estimated that 13.3 per cent. of the subject profiles held on the entire NDNAD are replicates.

Ethnic appearance is based on the judgment of the police officer taking the sample as to which of six broad ethnic appearance categories the person is considered to belong to. 'Unknown' means that no ethnic appearance information was recorded by the officer taking the sample.

Table 1: Male

Ethnic appearance	*Age range*	*Number of subject profiles*	*Number of individuals using 13.3 per cent. estimated replication rate*
Unknown	Under 15	11,340	9,832

Lynne Featherstone: To ask the Secretary of State for the Home Department with reference to the answer of 18 April 2006, *Official Report*, column 290W, on DNA database, what the projected growth is for the number of individuals with a DNA profile on the national DNA database over the next five years. [212354]

Meg Hillier: Updated figures for the projected growth in the number of individuals on the National DNA Database are not yet available.

Work on revising the figures is in progress. It will also take account of the judgment in the S and Marper case before the European Court of Human Rights (ECtHR) on the proportionality of retaining biometric data for those charged but not convicted of an offence. The ECtHR judgment is expected later this year. Revised projections should be available in early 2009.

John Battle: To ask the Secretary of State for the Home Department what proportion of people with DNA profiles held on the national DNA database living in *(a)* Leeds West constituency, *(b)* Leeds Metropolitan District and *(c)* the UK are of (i) Asian, (ii) Black and (iii) Eastern European ethnic origin and are under 18 years old. [213352]

Meg Hillier: Information held on the National DNA Database (NDNAD) is available on the basis of the police force which added the DNA profile, not the residence of the person sampled. Information is, therefore, not available on the number of residents of Leeds, West constituency or Leeds metropolitan district who have had a DNA profile added to the NDNAD, but is available on the number of profiles loaded by West Yorkshire police. The people from whom these profiles were taken may not be resident in the area where they were sampled.

The NDNAD holds records on the ethnic appearance of persons who have DNA taken, based on the judgment of the police officer completing the record about which of six broad ethnic categories the person belongs to. These categories are white—north European; white—south European; middle eastern; Asian; black; and Chinese, Japanese or other south east Asian. There is no separate category for eastern Europeans. If the police officer does not make an entry for ethnic appearance, this is recorded as 'unknown'.

It is not, therefore, possible to provide the information requested. However, it is possible to provide information on the number of profiles added to the NDNAD by West Yorkshire police, and by all English and Welsh police forces, broken down by age and the ethnic appearance categories used. The age shown is the person's current age, not the age they were when the DNA sample was taken. This is shown in the following table.

The number of profiles held on the NDNAD is not the same as the number of individuals. As it is possible for a profile to be loaded onto the NDNAD on more than one occasion, some profiles held on the NDNAD are replicates. This can occur, for example, if the person provided different names, or different versions of their name, on separate arrests, or because profiles are upgraded.

At present, the national replication rate is 13.3 per cent., that is, the number of people whose details are loaded is 13.3 per cent. fewer than the number of profiles. However, this rate may vary between police forces, so figures for the number of individuals whose profiles have been loaded are not given for specific forces.

End August 2008	Subject Profiles under 18s				Subject Profiles all ages			
Ethnic appearance	English and Welsh forces	Per cent. in each ethnic appearance group	West Yorkshire	Per cent. in each ethnic appearance group	English and Welsh forces	Per cent. in each ethnic appearance group	West Yorkshire	Per cent. in each ethnic appearance group
Unknown	18,323	5.3	406	2.2	299,141	6.0	5,087	2.3

Middle Eastern	1,306	0.4	28	0.1	36,947	0.7	1,293	0.6
White-North European	279,031	81.0	15,264	80.9	3,870,526	77.7	179,358	79.8
White-South European	4,341	1.3	155	0.8	93,098	1.9	2,003	0.9
Total, profiles	344,326	—	18,876	—	4,983,859	—	224,832	—
Total individuals	298,531	—	—	—	4,321,006	—	—	—

John Battle: To ask the Secretary of State for the Home Department (1) how many DNA profiles on the national DNA database are of people resident in *(a)* the UK, *(b)* Leeds West constituency, *(c)* Leeds Metropolitan District and *(d)* Yorkshire and Humberside; [213353]

(2) what proportion of the population in *(a)* Leeds West constituency and *(b)* Leeds Metropolitan District has a profile on the national DNA database. [220709]

Meg Hillier: Information held on the National DNA Database (NDNAD) is available on the basis of the police force which added the DNA profile, not the residence of the person sampled. Information is, therefore, not available on the number of residents of Leeds, West constituency or Leeds metropolitan district, or the proportion of the population of those areas, who have had a DNA profile added to the NDNAD. Information is, however, available on the number of profiles loaded by the Yorkshire and Humberside police forces, as shown in the following table.

The people from whom these profiles were taken may not be resident in the area where they were sampled.

The number of profiles held on the NDNAD is not the same as the number of individuals. As it is possible for a profile to be loaded onto the NDNAD on more than one occasion, some profiles held on the NDNAD are replicates. This can occur, for example, if the person provided different names, or different versions of their name, on separate arrests, or because profiles are upgraded.

At present, the national replication rate is 13.3 per cent., that is, the number of people whose details are loaded is 13.3 per cent. fewer than the number of profiles. However, this rate may vary between police forces, so figures for the number of individuals whose profiles have been loaded are not given for specific police forces.

The total number of subject profiles held on the NDNAD for all police forces at 30 June 2008 was 5,193,986. Allowing for replication, this equates to approximately 4,503,186 individuals. The corresponding figures for English and Welsh police forces are 4,872,376 profiles and approximately 4,224,350 individuals.

Force	Number of subject profiles
Humberside	84,014
North Yorkshire	57,799
South Yorkshire	121,007
West Yorkshire	220,649

Tim Loughton: To ask the Secretary of State for the Home Department (1) how many individuals' data were held on the National DNA Database in each financial year for which records are available; [214979]

(2) how many social profiles were held on the National DNA Database in each financial year for which records are available. [214980]

Meg Hillier: The National DNA Database (NDNAD) is a continually changing database, so it is not possible to give the total number of profiles held on it at the end of each year retrospectively. However, the number of profiles added to it by English and Welsh police forces in each year since its inception is available. I refer the hon. Member to the answer given to the right hon. Member for Haltemprice and Howden (David Davis) on 2 June 2008, *Official Report*, column 733W.

As it is possible for a person's profile to be loaded onto the NDNAD on more than one occasion, some profiles held on the NDNAD are replicates. This can occur, for example, if the person provided different names, or different versions of their name, on separate arrests, or because profiles are upgraded.

Therefore, the number of individuals on the NDNAD is the number of subject profiles reduced by the replication rate. At present, the replication rate is 13.3 per cent., so the 541,920 subject profiles added to the NDNAD in 2007-08 equates to an estimated 469,845 individuals. However, the replication rate has varied over time, so it is not possible to provide a figure for the number of individuals added to the NDNAD for all years since 1995.

Mr. Grieve: To ask the Secretary of State for the Home Department how many requests she has received from other European member states for a crosscheck of a DNA sample against profiles on the national DNA database in the last five years. [219322]

Jacqui Smith: The number of requests received from all other countries to check profiles from unsolved serious crimes, or for the identification of an unknown deceased person believed to be a United Kingdom national, carried out by the National DNA Database (NDNAD) Custodian in each year since 2004-05, is shown in the table.

	Number of searches
2004-05	149
2005-06	249
2006-07	498
2007-08	727

Before 2004, requests were rare, so no data was collated. The figures do not include the country of origin of the request, so it is not possible to tell which were from EU member states and which from other countries.

The figures do not include requests which were received but not approved and processed.

Most requests for the exchange of DNA information between the United Kingdom and other countries are routed through the United Kingdom National Central Bureau for Interpol (UK NCB) based at the Serious Organised Crime Agency (SOCA). Other channels may include bilateral direct liaison between law enforcement authorities and formal mutual legal assistance channels. Exchanges of DNA information via these channels will almost always be a response to the needs of a specific criminal investigation.

Requests from international law enforcement agencies for a search of the NDNAD are only processed where it is clear that the request is in the interest of prevention and detection of crime, national security or the data subject. They are also subject to a risk assessment, taking into account the justification for and proportionality of disclosure of the information in line with human rights. If cleared for processing, a one-off speculative search of NDNAD is made by the Custodian and information fed back to UK NCB.

Mr. Grieve: To ask the Secretary of State for the Home Department (1) what assessment she has made of the probability of an adventitious match between DNA profiles submitted by law enforcement agencies of other member states and DNA profiles held on the national DNA database arising from the use of the six loci standard; [219480]

(2) what assessment she has made of the accuracy of the Interpol Standard Set of Loci (ISSOL) in comparing DNA profiles; and what assessment she has made of the differences between ISSOL and the standard in use in the UK; [219481]

(3) what assessment her Department has made of the accuracy of the six loci DNA comparison standard for sharing of DNA data. [219487]

Jacqui Smith: The greater the number of different areas of DNA (loci) examined by a DNA profiling system, the higher the level of accuracy.

When the United Kingdom National DNA Database (NDNAD) was set up in 1995, the SGM system was used, which looked at six loci plus amelogenin (the area showing the person's gender). In 1999, SGM was replaced by SGM Plus, which looks at 10 loci plus the gender area. The probability of an adventitious (chance) match between full SGM DNA profiles of unrelated individuals is of the order of one in 50 million. The quoted probability of a match between full SGM Plus DNA profiles of unrelated individuals is one in one billion (i.e. one in a thousand million). The NDNAD Custodian carefully monitors replicate DNA profiles loaded to the NDNAD, and a key reason for doing this is to identify potential adventitious matches between SGM Plus DNA profiles derived from unrelated individuals. To date, no such adventitious match has been found. This indicates the SGM Plus match probability to be significantly lower than the figure quoted—it is probably better than one in one trillion (that is, one in a million million).

It was decided when SGM Plus was introduced that it was not value for money to reanalyse all the samples taken between 1995 and 1999 to upgrade them from SGM to SGM Plus. However, if a match occurs involving an SGM profile, or a partial crime scene profile, the original samples are routinely reanalysed using SGM Plus to provide the best possible match.

The Interpol Standard Set of Loci include seven loci plus amelogenin. Six of the seven loci are the same as in the SGM system. In order to carry out an Interpol search, six out of these seven loci plus amelogenin should be present. The Interpol Standard Set of Loci is therefore equivalent to SGM, with a discriminating power of approximately one in 50 million for full profiles from unrelated individuals.

If a DNA profile submitted by an overseas police force matches a profile on the NDNAD, the information supplied to that force is limited to notification that a match has occurred. The match is only followed up by the requesting member state using existing mutual legal assistance arrangements where additional DNA profiling and scientific expertise are used to exclude the possibility of an adventitious match prior to any criminal proceedings.

Government Departments: Personal Records

Mr. Redwood: To ask the Secretary of State for the Home Department how many Government services require individuals to provide personal information to Government departments and agencies. [203703]

Mr. Byrne: The information requested is not held centrally and could be obtained only at disproportionate cost.

Human Trafficking

Damian Green: To ask the Secretary of State for the Home Department how many suspected *(a)* people traffickers and *(b)* trafficking victims have been intercepted in maritime operations by (i) the UK Border Agency and (ii) other agencies engaged in border patrol in each of the last three years. [220114]

Mr. Byrne: The information requested can be obtained only by the detailed examination of individual records at disproportionate cost.

Identity Cards: Aviation

Lynne Jones: To ask the Secretary of State for the Home Department what assessment she has made of the potential advantages and disadvantages of the use of identity cards in the airline industry against existing security arrangements. [223368]

Meg Hillier *[holding answer 10 September 2008]:* Stephen Boys Smith's report on personnel security in the transport sector considered the use of identity cards

in the aviation industry and concluded that identity cards are a useful addition to identity assurance, which is a key factor in personnel security regimes.

The Government are working closely with the aviation industries and trade unions to ensure that the identity card complements the existing pre-employment checking arrangements and we will be publishing an Impact Assessment in the next few months.

Identity Cards: Foreigners

Damian Green: To ask the Secretary of State for the Home Department what estimate she has made of the number of foreign nationals in the UK who will hold a biometric registration document by June 2010. [218887]

Mr. Byrne: The exact numbers of cards held by foreign nationals in June 2010 will depend on individual applications, the categories included in the scheme and the speed of implementation.

Illegal Immigrants

Damian Green: To ask the Secretary of State for the Home Department how many suspected illegal immigrants have been apprehended in British waters as a result of boarding inspections carried out by boats used by *(a)* the UK Border Agency and *(b)* other agencies in each year since 1997. [220117]

Mr. Byrne: The information requested could be obtained only by the detailed examination of individual records at disproportionate cost.

Martin Linton: To ask the Secretary of State for the Home Department how many known overstayers *(a)* were deported, *(b)* were removed, *(c)* left of their own accord and *(d)* had no action taken against them in the last 12 months. [223415]

Mr. Byrne *[holding answer 10 September 2008]:* The information requested on known overstayers could be obtained only by the detailed examination of individual case records at disproportionate cost. No Government have ever been able to produce an accurate figure for the number of people who are in the country illegally. By its very nature it is impossible to quantify accurately and that remains the case.

As part of the Government's 10-point plan for delivery, by December.2008 the majority of foreign nationals will be counted in and out of the country. This is part of a sweeping programme of border protection which also includes the global roll out of fingerprint visas, compulsory watch-list checks for all travellers from high-risk countries before they land in Britain and ID cards for foreign nationals.

On 19 June 2008, the Government set out its plans to more robustly enforce the immigration rules including the removal of those not entitled to be here. Copies of the document are placed in the Library of the House. It is also available to view at:

http://www.ind.homeoffice.gov.uk/?requestType=form&view=Search+results&simpleOrAdvanced=simple&page=1&contentType=All&searchTerm=enforcing+the+deal&Submit=Go

Illegal Immigrants: Aviation

Damian Green: To ask the Secretary of State for the Home Department how many fines her Department issued to airlines for carrying illegal immigrants into the UK in the last 12 months; and which airlines were fined. [223331]

Mr. Byrne *[holding answer 10 September 2008]:* Under Section 40 of the Immigration and Asylum Act 1999 (as amended by the Nationality, Immigration and Asylum Act 2002), air and sea carriers are liable to a fixed charge of £2,000 for each inadequately documented passenger brought to the UK.

Between 31 August 2007 and 1 September 2008 a total of 2,767 charges were imposed on 163 different carriers. I am unable to disclose details of individual carriers for reasons of commercial confidentiality.

Immigration

Mr. Grieve: To ask the Secretary of State for the Home Department what service standards for the processing of leave to remain applications are in place. [219430]

Jacqui Smith: The information requested is as follows:

General Casework Leave to Remain and Employment Leave to Remain

Our current published service standards for deciding charged applications are:

Applications made by post: we aim to decide 70 per cent. of applications within four weeks (20 working days) and 90 per cent. within 14 weeks (70 working days).

Applications made in person: we aim to decide 90 per cent. within 24 hours.

Immigration Officers: Pay

Damian Green: To ask the Secretary of State for the Home Department how much sick pay was paid to immigration officers in each of the last five years; and what proportion of the immigration officer staffing budget this amount represented in each of those years. [218893]

Mr. Byrne: The figures cannot be obtained without incurring disproportionate cost.

Immigration Rules

Mr. Clappison: To ask the Secretary of State for the Home Department what criteria she used to determine which of the 19,000 foreign nationals, dealt with as old cases, have been granted leave to remain; how many of these have previous convictions either in the UK or another country; what checks were made in the UK, or sought in other countries, in respect of such convictions; how many of these foreign nationals have dependants who are eligible for, or have received, leave to remain; if she will break down the 19,000 foreign nationals by *(a)* nationality and *(b)* type of case; and if she will make a statement. [176053]

Mr. Byrne *[holding answer 7 January 2008]:* Individuals' entitlement to stay in the UK is considered in accordance with the immigration rules. Before entitlement to stay is

confirmed, including for any dependants aged 10 or over, details are checked against the Police National Computer to establish whether there is a criminal record. The checking process may also indicate if an individual is wanted for crimes outside the UK.

The cases of any individuals with a serious criminal conviction are considered as a high priority. Any outstanding applications may be refused and consideration will be given to deportation.

Obtaining figures on the number of applicants and dependants with criminal convictions would be possible only by examination of individual files and this would incur disproportionate cost.

The original figure of 19,000 has now been updated and the breakdown of the figures you have requested is contained in the UK Border Agency Chief Executive's letter, dated 23 July 2008, updating the Home Affairs Select Committee, copies of which are in the House Library.

Immigration: Armed Forces

Dr. Murrison: To ask the Secretary of State for the Home Department what account is taken of gallantry awards for service in the armed forces in determining applications for settlement in the UK. [206167]

Mr. Byrne *[holding answer 16 May 2008]:* Discretion may be exercised to waive certain requirements of the immigration rules applicable to former members of the armed forces, including the requirement for an application for indefinite leave to be made within two years of the date of discharge. Discretion may be exercised in individual cases if there are strong reasons why settlement in the UK is appropriate and account is taken of all relevant factors. Gallantry awards may be one factor in whether discretion is exercised.

Internet: Security

Philip Davies: To ask the Secretary of State for the Home Department what her Department's budget for cyber-security measures is. [201676]

Mr. Byrne: The Home Office takes cyber-security very seriously. It is an integral part of every Home Office IT system but is not costed separately, hence it is not feasible to give a total budget figure.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when she plans to answer the letter to her dated 29 May 2008 from the right hon. Member for Manchester, Gorton with regard to Viviea Duhaned. [218873]

Jacqui Smith: I wrote to my right hon. Friend on 21 July 2008.

Mr. Winnick: To ask the Secretary of State for the Home Department when she will reply to the hon. Member for Walsall, North's letter of 8 July 2008 on a constituent, reference M12920/8; and what the reasons are for the time taken to reply. [223189]

Mr. Byrne *[holding answer 10 September 2008]:* I have asked for further details on the case to be obtained by visa staff in New Delhi, and will reply to the letter by 30 September. I apologise for the delay.

Sir John Stanley: To ask the Secretary of State for the Home Department when she plans to reply to the letters of 26 February, 4 March and 4 June from the hon. Member for Tonbridge and Malling regarding Mr. and Mrs. Peter Kelly. [224005]

Mr. Byrne *[holding answer 17 September 2008]:* I wrote to the right hon. Member on 16 September 2008.

National Security: Entry Clearances

Mr. Clappison: To ask the Secretary of State for the Home Department how many persons have been *(a)* deported and *(b)* excluded from the UK on national security grounds since August 2005, broken down by quarter. [224123]

Mr. McNulty *[holding answer 17 September 2008]:* The figures are as follows:

	Number
(a) Deportations	
2006	
2nd quarter	2
3rd quarter	1
2007	
1st quarter	4
2nd quarter	1
3rd quarter	1
No deportations in other quarters	
Total	9
(b) Exclusions	
2005	
3rd quarter	12
4th quarter	5
2006	
1st quarter	4
2nd quarter	5
3rd quarter	5
4th quarter	26
2007	
1st quarter	1
2nd quarter	73
3rd quarter	4
4th quarter	2
Total	127

[1] From August 2005

Neighbourhood Wardens: Foreign Workers

Mr. Clappison: To ask the Secretary of State for the Home Department how many of the non-UK citizens who do not have a right to work in the UK but are licensed to work in the security industry by the Security Industry Authority have been accredited to perform community safety functions under the Police Reform Act 2002. [223146]

Mr. Coaker *[holding answer 10 September 2008]:* The Home Office does not collect data centrally on individual accreditations made under the Police Reform Act 2002.

Mr. Clappison: To ask the Secretary of State for the Home Department what guidance her Department has issued on the accreditation of *(a)* EU and *(b)* non-EU citizens under the Community Safety Accreditation Scheme; what checks her Department performs to establish whether applicants from overseas have criminal records in countries other than the UK; and what estimate she has made of the number of foreign nationals accredited under the scheme to date. [223147]

Mr. McNulty *[holding answer 10 September 2008]:* The Home Office and the Association of Chief Police Officers (ACPO) have both produced guidance on Community Safety Accreditation Schemes (CSAS). The guidance is available on the Home Office website at:

http://police.homeoffice.gov.uk/community-policing/citizen-focused-policing/community-safety-accredit-scheme/.

Community Safety Accreditation Schemes are established at the discretion of chief constables and, as the ACPO guidance makes clear, it is the chief constable who decides on the checks required of a person seeking accreditation. The Home Office does not collect data centrally on individual accreditations made under the Police Reform Act 2002.

Offenders: Deportation

Mr. Clappison: To ask the Secretary of State for the Home Department how many of the 1,013 foreign nationals released from prison without being considered for deportation originally identified as *(a)* the more serious and *(b)* the most serious cases (i) have been deported, (ii) have been granted leave to remain in the UK, (iii) are outstanding cases and (iv) have yet to be located. [206264]

Mr. Byrne: The chief executive of the UK Border Agency has regularly written to the Home Affairs Committee in order to provide the most robust and accurate information available on the deportation of foreign national prisoners. Her letter of 23 July has been placed in the House Library.

Passports: China

Mr. Steen: To ask the Secretary of State for the Home Department if she will introduce measures to ensure that all passport details of unaccompanied children travelling on flights from China and Vietnam are sent to the Immigration Office of the UK airport prior to the aircraft's arrival; and if she will make a statement. [182075]

Mr. Byrne *[holding answer 28 January 2008]:* The majority of passengers travelling on flights from China and Vietnam to the United Kingdom are likely to be visa nationals. Biometrics are taken from all visa nationals over the age of five as part of the entry clearance process. The passport details and biometric information is available to immigration staff working at ports of entry.

In addition to this UKBA—the Uk Border Agency—has a network of airline liaison officers (ALOs) based in key source and transit locations which are targeted by those who may seek to abuse the UK's immigration controls. ALOs provide a comprehensive programme of formal training for carriers in UK passport and visa requirements and forgery awareness. This training incorporates a session about the smuggling and trafficking of children and adults, and the means of identifying vulnerable children and their traffickers by their demeanour and the documents they may present.

Finally, the e-Borders Programme will check and screen against watchlists 60 per cent. of all passenger and crew movements, including children, in and out of the UK by December 2009, 95 per cent. by December 2010 and 100 per cent. by 2014.

Police Patrolling

Mr. Bone: To ask the Secretary of State for the Home Department what the average time spent by a police officer on street patrol in *(a)* Northamptonshire and *(b)* England and Wales was in each of the last 10 years. [224072]

Mr. McNulty *[holding answer 17 September 2008]:* Information on time spent on patrol by police officers has only been collected since 2003-04. Values for Northamptonshire are set out in table A and values for England and Wales in table B.

Time spent on patrol refers only to time when an officer is patrolling, but engaged in no other duty. Activity (such as advice to a member of the public) carried out while on patrol is recorded separately. The percentage of time spent on patrol needs to be considered alongside other activities. We use the front-line policing measure to provide a fuller picture of police officer activity, and figures for this measure for England and Wales are also given in the tables.

The measure assesses time spent by police officers on core policing duties such as patrol, responding to 999 calls, as well as activities of CID and specialist officers. While these officers are not always visible to the public, they are none the less carrying out core policing duties.

I am told by Northamptonshire police that they have invested significantly in proactive crime fighting activities to address serious and organised crime, major crime and terrorism. This focused activity has contributed to a reduction in crime for the people of Northamptonshire, but is not included in time on patrol.

I am also told that in Northamptonshire, police responses to incidents requiring a rapid emergency response have risen by 20 per cent. This represents almost 9,000 more prioritised emergency responses to the public in 2007-08 compared to 2004-05. Public satisfaction at police response to incidents in Northamptonshire is also rising, and public confidence in policing in

Northamptonshire (as measured by the British crime survey) has risen by almost 10 per cent. in the past 18 months.

Table A: Time spent on patrol and front-line policing measure, Northamptonshire, 2003-04 to 2007-08

	Time spent on patrol[1, 2]	*Percentage Front-line policing measure*[3]
2003-04	13.9	66.7
2004-05	15.0	59.7
2005-06	13.1	65.4
2006-07	11.5	64.3
2007-08	10.2	—

Table B: Time spent on patrol and front-line policing measure, England and Wales, 2003-04 to 2007-08

	Time spent on patrol[1, 2]	*Percentage Front-line policing measure*[3]
2003-04	14.2	63.6
2004-05	15.3	62.3
2005-06	14.0	63.6
2006-07	13.6	64.2
2007-08	[4]13.8	—

[1] Data was not collected before 2003. The information is taken from activity analysis, which is collected by all forces over a two-week period in each year and provides a snapshot of how officers are deployed.

[2] Includes only officers on foot/car/beat patrol, CID and traffic officers. These values exclude PCSOs.

[3] Data was not collected before 2003. 2007-08 data not yet available.

[4] Data does not include Derbyshire and Staffordshire.

Police: Greater London

Lyn Brown: To ask the Secretary of State for the Home Department how much on average it costs to employ a police constable in the London borough of *(a)* Newham, *(b)* Hackney and *(c)* Tower Hamlets annually. [223527]

Mr. McNulty *[holding answer 15 September 2008]:* Average pay and pay-related cost of employing a full-time police officer (of rank sergeant or below) are calculated based on the 2006-07 Annual Survey of Hours and Earnings (ASHE) at regional level. This information is not available at police force area level.

It has been estimated that the average pay and pay related cost of employing a full-time police officer in 2006-07 was approximately £45,830 in England and Wales.

The cost of training and non-pay related costs such as premises, supplies and transport are not included in this estimate.

Lyn Brown: To ask the Secretary of State for the Home Department what the capital spend on the police service in the London boroughs of *(a)* Newham, *(b)* Hackney and *(c)* Tower Hamlets was in each of the last five years. [223530]

Mr. McNulty *[holding answer 15 September 2008]:* The information requested is not held centrally.

The management of the police estate and allocation of resources are matters for the Metropolitan Police Authority and the Commissioner, who are responsible for assessing local needs.

Police: International Co-operation

Mr. Grieve: To ask the Secretary of State for the Home Department pursuant to the written ministerial statement of 25 April 2008, *Official Report*, columns 119-21WS, on the Justice and Home Affairs Council, (1) how many times UK officers have been part of joint investigation teams performing operations in other member states in the last five years; [219490]

(2) how many times joint investigation teams have performed operations in the UK in the last five years; [219491]

(3) what powers European police officers acting as part of the joint investigation teams have on UK territory. [219492]

Jacqui Smith: We are aware of just one joint investigation team operation having been established under the provisions of the Convention on Mutual Assistance in Criminal Matters 2000 involving United Kingdom law enforcement. This was a joint United Kingdom and Netherlands drugs investigation which took place in 2005, to which there was a successful outcome.

All members of a joint investigation team would be subject to the laws of the country in which the team is operating. Law enforcement officials from another member state act in a support and advisory capacity and would not have police powers when the team is operating in the United Kingdom. Teams operating in the United Kingdom would be under the strict control of a United Kingdom team leader.

Police: Labour Turnover

Mr. Crausby: To ask the Secretary of State for the Home Department what the percentage change in the number of full-time police officers in Bolton North East has been since 1997. [223670]

Mr. McNulty *[holding answer 15 September 2008]:* The information requested is not collected centrally.

Data on police personnel strength are collected by police force area, and have additionally been collected by Basic Command Unit (BCU) level from 2003 onwards.

The number of full-time equivalent (FTE) police officers in Greater Manchester police has increased by 14.6 per cent., between 31 March 1997 and 31 March 2008.

The number of FTE police officers in the Bolton BCU has increased by 3.0 per cent., between 31 March 2003 and 31 March 2008.

Police: Manpower

Mr. Bone: To ask the Secretary of State for the Home Department how many police officers there were in each police force in each of the last 10 years; and how many police officers there were per 1,000 population in each police force area in each year. [223630]

Mr. McNulty *[holding answer 15 September 2008]:* The information requested is published in the annual Home Office Statistical Bulletin series "Police Service Strength, England and Wales", copies of which are available online and in the Library of the House.

The latest bulletin contains data correct as at 31 March 2008, and can be downloaded from:

http://www.homeoffice.gov.uk/rds/pdfs08/hosb0808.pdf

Table 4 shows police officer strength by force and the number of police officers per 100,000 population.

Police: Public Participation

James Brokenshire: To ask the Secretary of State for the Home Department to what extent she plans to implement the recommendations contained in the report by Louise Casey, "Engaging Communities in Fighting Crime". [223503]

Mr. Coaker *[holding answer 15 September 2008]:* Following the Casey review, the Home Secretary announced that we will immediately take forward Community Champions, and the Policing Green Paper "From the Neighbourhood to the National: Policing Our Communities Together" sets out our response in more detail. This includes the police service commitment to implement crime maps for every area and the new standard for the police service—The Policing Pledge—by the end of the year. The Government have appointed Louise Casey to a new role of Neighbourhood Crime and Justice Adviser based in the Home Office to help implement her proposals.

Racially Aggravated Offences

Mr. Ruffley: To ask the Secretary of State for the Home Department how many racially-motivated crimes were recorded in each police force area in each of the last five years. [223522]

Mr. Coaker *[holding answer 15 September 2008]:* The available statistics relate to racially or religiously aggravated offences recorded by the police and are given in the following table. It is not possible to separately identify those of a racial nature from those of a religious nature.

Total racially or religiously aggravated offences[1] recorded by the police in England and Wales, 2003-04 to 2007-08

Number

Police force area	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*

England and Wales total	35,674	38,114	42,547	43,742	39,643

[1] There are currently seven racially or religiously aggravated offence classifications within the recorded crime series. They are as follows: less serious wounding, harassment, assault without injury, criminal damage to a dwelling, criminal damage to a building other than a dwelling, criminal damage to a vehicle and other criminal damage.

Revenue and Customs: Manpower

Mr. Hoban: To ask the Secretary of State for the Home Department how many HM Revenue and Customs staff were based at each *(a)* port of entry and *(b)* airport as at 31 December 2007. [223109]

Mr. Byrne *[holding answer 10 September 2008]:* As at 31 December 2007, HM Revenue and Customs had approximately 4,500 frontline operational staff deployed at entry points across the UK. Officers are deployed to tackle smuggling at the frontier on an intelligence-led basis where risk is greatest.

HM Revenue and Customs does not disclose the numbers of staff deployed to specific locations, as to do so could provide information of value to those seeking to circumvent HM Revenue and Customs controls, thereby prejudicing the prevention and detection of crime.

Security: European Union

Mr. Grieve: To ask the Secretary of State for the Home Department what discussions she has had with Council of Europe member states on the development of a European Union Standing Committee on Internal Security; and what powers are proposed for the committee. [219488]

Jacqui Smith: There have been no ministerial discussions on the development of a Standing Committee on Internal Security (COSI) with European Union member states.

COSI would be created under Article 61D of the Lisbon Treaty which specifies that 'a standing committee shall be set up within the Council to ensure that operational cooperation on internal security is promoted and strengthened within the Union'. Under the Lisbon Treaty the exact role and remit of COSI would have to be agreed by the member states. The Government believe that the Committee should ensure that work to promote EU law enforcement co-operation, judicial cooperation in criminal matters and border management cooperation is coherent and effective in supporting the delivery of member states' public protection priorities.

Surveillance

David Davis: To ask the Secretary of State for the Home Department how many unauthorised surveillances were discovered by the Office of Surveillance Commissioners in each of the last five years. [223294]

Mr. McNulty *[holding answer 10 September 2008]:* Covert surveillance activities which are unlikely to result in the obtaining of private information about a person do not require authorisation under the Regulation of Investigatory Powers Act 2000 and figures for these operations are not obtained by the OSC.

Since 2004-05, law enforcement agencies have been required to report to the Chief Surveillance Commissioner "all covert operations in which statutory requirements have not been observed and also cases which fail in court on account of defects in covert surveillance". Figures for these have been published in the last two annual reports, covering 2006-07 and 2007-08, and are 67 and 56 respectively.

Surveillance: Local Authorities

Mr. Pickles: To ask the Secretary of State for the Home Department if she will make it her policy to require local authorities to publish their inspection reports from the Office of Surveillance Commissioners. [223625]

Mr. McNulty *[holding answer 15 September 2008]:* We have no plans to do so. The Office of Surveillance Commissioners is independent of Government. The disclosure of inspection reports, including those relating to local authorities, is a matter for the Chief Surveillance Commissioner.

Terrorism: Asylum

Mr. Clappison: To ask the Secretary of State for the Home Department how many persons have been denied asylum on the grounds of participation in terrorism since the announcement of the then Prime Minister's 12 point plan in August 2005. [224125]

Mr. Byrne *[holding answer 17 September 2008]:* The UK Border Agency achieves this by excluding those who have participated in terrorism from asylum under article 1F of the UN Convention Relating to the Status of Refugees. The statistics relating to exclusion from the 1951 Convention under article 1F do not differentiate between those who are refused asylum on grounds of participation in terrorism or for other grounds which are covered within article 1F. It is therefore not possible to give a precise figure in answer to the hon. Gentleman's question, except at disproportionate cost.

Terrorism: British Nationality

Mr. Clappison: To ask the Secretary of State for the Home Department how many persons have been stripped of UK citizenship under the provisions of the Immigration, Asylum and Nationality Act 2005 as outlined in the 12-point plan announced by the then Prime Minister in August 2005. [224124]

Mr. Byrne *[holding answer 17 September 2008]:* Orders depriving individuals of their British citizenship have been issued in two cases under section 40 of the British Nationality Act 1981, since its amendment by section 56 of the Immigration, Asylum and Nationality Act 2006.

Terrorism: Entry Clearances

Mr. Clappison: To ask the Secretary of State for the Home Department how many persons have been *(a)* deported and *(b)* excluded from the UK on the grounds of fomenting extremism under the 12-point plan announced by the then Prime Minister in August 2005, broken down by quarter. [224121]

Mr. McNulty *[holding answer 17 September 2008]:* We have taken the term "fomenting extremism" as equating to unacceptable behaviour under the policy announced by my right hon. Friend, the then Home Secretary on 24 August 2005. On this basis, the figures are:

	Number
(a) Deportations	
2006	
4th quarter	1
(b) Exclusions	
2005	
3rd quarter	14
4th quarter	18
2006	
1st quarter	8
2nd quarter	10
3rd quarter	3
4th quarter	11
2007	
1st quarter	0
2nd quarter	7
3rd quarter	5
4th quarter	9
2008	
1st quarter	4

	Number
2nd quarter	0
3rd quarter	[2]0
Total	79

[1] From August 2005
[2] To 16 September 2008

Terrorism: Extradition

Mr. Clappison: To ask the Secretary of State for the Home Department how many persons have been extradited for terrorism-related offences since the announcement of the then Prime Minister's 12-point plan in August 2005, broken down by quarter; and how many requests for extradition for terrorism-related offences *(a)* are outstanding and *(b)* have been made since August 2005. [224122]

Meg Hillier *[holding answer 17 September 2008]:* As a matter of policy and practice, the Home Office will neither confirm nor deny the existence of any extradition request ahead of a person's arrest.

Since August 2005, 13 people have been extradited by the UK for terrorism-related offences; five people have been discharged by UK courts; five cases are ongoing and one case was withdrawn by the Requesting State. The following table gives a breakdown of these figures.

The UK has not issued any extradition requests for people suspected of terrorist-related offences in this time.

Extradition requests for terrorist-related offences since August 2005

	Number	Arrested	Status as at 17 September 2008
2005	1	Pre-August 2005	Withdrawn by Requesting State
	1	3rd quarter	Ongoing
	2	Pre-August 2005	Extradited
2006	1	Pre-August 2005	Discharged
	3	Pre-August 2005	Extradited
	1	1st quarter	Discharged
	1	2nd quarter	Extradited
	1	3rd quarter	Extradited
	1	3rd quarter	Ongoing
2007	1	Pre-August 2005	Extradited
	3	2nd quarter	Extradited
	1	2nd quarter	Ongoing
	2	4th quarter	Ongoing
	2	4th quarter	Discharged
2008	1	Pre-August 2005	Extradited
	1	1st quarter	Extradited

Note:
There are currently four other cases before the courts which were received before August 2005.

UK Border Agency: Correspondence

Mr. Winnick: To ask the Secretary of State for the Home Department if she will instruct the UK Border Agency to provide a substantive response to the hon. Member for Walsall, North's letter of 11 August concerning a constituent, ref. B27195/8. [224018]

Mr. Byrne *[holding answer 17 September 2008]:* The UK Border Agency wrote to my hon. Friend on 12 September.

UK Border Agency: Drug Seizures

Mr. Holloway: To ask the Secretary of State for the Home Department what drug seizures have been made by or with the operational involvement of the revenue cutters operating in the Maritime Section of the UK Border Agency and its predecessors in each year since 1996-97; and what the *(a)* date of seizure, *(b)* type of drug seized, *(c)* quantity of drug seized, *(d)* location of operation, *(e)* vessel intercepted and *(f)* designation of cutter was in each case. [223113]

Mr. Byrne *[holding answer 10 September 2008]:* UK Border Agency cutters are deployed on an intelligence-led basis to areas of highest identified risk. It is longstanding HM Revenue and Customs policy not to divulge details of operational deployments, locations and seizures as these could provide information of value to those seeking to circumvent relevant controls, thereby prejudicing the prevention of crime.

UK Border Agency: Standards

Mr. Hoban: To ask the Secretary of State for the Home Department what revenue protection targets have been set for the UK Border Agency. [223102]

Mr. Byrne *[holding answer 10 September 2008]:* Revenue protection targets for the UK Border Agency were published on the 3 April 2008 as part of the UK Border Agency Business Plan, April 2008 to March 2011.

The targets are to:

1. Seize in the range of 1.4 to 1.9 billion illicit cigarettes targeted on the UK.

2. Seize in the range of 175 to 375 tonnes of illicit hand rolling tobacco targeted on the UK.

3. Increase by 5 per cent. over 2007-08 totals the number of frontier interceptions of high risk alcohol consignments which are referred for sanctions.

4. Increase by 10 per cent. over 2007-08 totals the number of seizures of commercial consignments of spirits referred for additional sanctions.

Video Games: Young People

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences of retailers selling video games or DVDs to underage customers were recorded in each police force area in England and Wales in each year since 1997; how many *(a)* cautions and *(b)* fines were issued to such retailers in each year; and what the average fine imposed was in each year. [223525]

Mr. Coaker *[holding answer 15 September 2008]:* Information on the number of recorded offences of retailers selling video games or DVDs to underage customers is not collected centrally. This is a summary offence and is not included in the police recorded crime statistics.

Statistics on the number of police cautions issued, the number of fines imposed and the average fine have been provided by the Ministry of Justice and are given in the following table for 1997-2006.

Offenders[1] cautioned[2] and fined for supplying video recording of classified work in breach of classification[3], England and Wales

	Number of police cautions issued	*Number of fines imposed*	*Average fine amount (£)*
1997	1	15	519
1998	—	18	440
1999	—	33	798
2000	—	16	1,028
2001	—	9	1,378
2002	—	12	1,079
2003	1	14	921
2004	—	6	775
2005	—	8	489
2006	—	8	1,244

[1] Companies, public bodies, etc.
[2] These data are on a principal offence basis.
[3] Video Recording Act 1984 S.11 as amended by the Criminal Justice and Public Order Act 1994 S.88 (4).
Note:
These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

Written Questions

Mr. Clappison: To ask the Secretary of State for the Home Department when she expects to answer Question 162680, tabled by the hon. Member for Hertsmere on 6 November, on English language requirements. [171146]

Mr. Byrne: I refer the hon. Member to the answer given on 1 September 2008, *Official Report*, column 1562W.

WORK AND PENSIONS

Car Allowances

Sir Nicholas Winterton: To ask the Secretary of State for Work and Pensions what mileage allowance is provided to each category of entitled worker by his Department; and if he will make a statement. [218480]

Mrs. McGuire: The Department ensures that staff use the most efficient and economic means of travel and that they are reimbursed only for expenses which they actually and necessarily incur in the course of their official business. All members of staff in the Department for Work and Pensions are entitled to the same rates of mileage allowance, regardless of grade.

The rates differ according to the type of journey and type of vehicle used.

Staff driving their own vehicles are entitled to the following rates:

	Rate per mile (pence)
Standard rate higher (up to 6,000 miles per annum[1])	40
Standard rate lower (over 6,000 miles per annum[1])	25
Motor cycle	24
Pedal cycle	20

[1] Reimbursement of expenses incurred on mileage in excess of 1,000 miles per annum is subject to approval of a satisfactory business case.

Staff driving private user scheme vehicles are entitled to the following rates:

	Rate per mile (pence)
Petrol vehicles	15
Diesel vehicles	13
Liquid petroleum gas vehicles	9

Child Support Agency: Manpower

Andrew Selous: To ask the Secretary of State for Work and Pensions how many staff worked for the Child Support Agency *(a)* at the latest date for which figures are available and *(b)* in 1997. [220621]

Mr. Plaskitt: The administration of the Child Support Agency is the matter for the chief executive. He will write to the hon. Member with the information requested.

Children: Maintenance

James Duddridge: To ask the Secretary of State for Work and Pensions how many individuals' postal addresses have been disclosed by the Child Support Agency to their former partners; and if he will make a statement. [213819]

Mr. Plaskitt *[holding answer 30 June 2008]:* The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many individuals' postal addresses have been disclosed by the Child Support Agency to their former partners; and if he will make a statement. [213819]

It is not the practice of the Child Support Agency to provide details of an individual's postal address to former partners. However, on occasion errors do occur and the Agency investigates each incident thoroughly and considers financial redress where appropriate. The Agency does not centrally collate records of these investigations.

The Agency's records do show however that since January 2007, of the 1.3 million open child maintenance cases, the Information Commissioner's Office have informed the Agency of just three complaints from our clients alleging unlawful disclosure. These complaints were investigated by the Child Support Agency and, where appropriate, consolatory payments were made by way of an apology for the inconvenience, worry and distress caused.

It is worth noting that there are also occasions where, with the consent of both parents, it may be in the interests of the child for the Agency to pass on contact details to either parent. The Agency is currently looking at how it can facilitate this transfer of information within the framework of the Data Protection Act.

The Agency takes the protection of personal information very seriously. If you have any concerns relating to a particular case, I would be happy to investigate and respond accordingly.

I hope you find this answer helpful.

Jon Trickett: To ask the Secretary of State for Work and Pensions (1) what steps are taken when child support payments are wrongly awarded because of faults in computer systems; and if he will make a statement; [221194]

(2) how many child support overpayments there have been due to computer errors in *(a)* England, *(b)* Wakefield District and *(c)* Hemsworth constituency; [221214]

(3) what account is taken of the financial situation of the families involved when Child Support Agency overpayments are collected. [221215]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, 29 September 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what steps are taken when child support payments are wrongly awarded because of faults in computer systems; and if he will make a statement [221194]; and

How many child support overpayments there have been due to computer errors in *(a)* England *(b)* Wakefield District and *(c)* Hemsworth constituency [221214]; and

What account is taken of the financial situation of the families involved when Child Support Agency overpayments are collected. [221215]

Section 41B of the Child Support Act 1991 enables the Secretary of State to recover payments of child maintenance from the parent with care, where those payments are not validly made due to a computer fault or any other error, or where the non-resident parent has overpaid. In these circumstances, the Secretary of State will provide the parent with care with a written demand for repayment. In some cases, it may be possible to recover overpayments by temporarily reducing any ongoing maintenance due to the parent with care.

In the event that a parent with care is required to repay any overpaid child maintenance in accordance with Section 41B, the Secretary of State must have first considered the impact on any child affected by the decision. The Secretary of State may decide not to pursue recovery in the event that taking such action would have a seriously adverse impact on any child within the parent with care's household.

Information on the number of child support overpayments made due to computer error is not available.

I hope you find this answer helpful.

Commercial Directorate

Chris Grayling: To ask the Secretary of State for Work and Pensions if he will place in the Library a copy of *(a)* organisational charts for the structure of the Commercial Directorate below divisional level, *(b)* organisational charts showing the relationships between the Commercial Directorate and the Provision Delivery and Performance Division (WWEG—Work, Welfare and Equality Group—Delivery Directorate) and *(c)* a sample role description of a (i) Field Financial Appraisal and Monitoring (FAM) team member, (ii) Third Party Provision Manager, as referred to in chapter 2, paragraph 37 of DWP Provider Guidance and (iii) Contract Manager, as referred to in q.206, Flexible New Deal Question and Answer Log. [219495]

Mrs. McGuire: An organisational chart for the structure of the Commercial Directorate has been placed in the Library.

The relationships between the Commercial Directorate and the Provision Delivery and Performance Division (Work, Welfare and Equality Group Delivery Directorate) cannot be explained through an organisational chart. However, the Provision Delivery and Performance Division is the primary link to the Commercial Directorate for the sourcing and management of commercially delivered employment programmes.

The Provision Delivery and Performance Division has responsibility for:

development of the Work, Welfare and Equality Group's commissioning and market strategy for employment programmes;

financial allocations for third party programme provision;

monitoring contracted employment programmes;

Department for Work and Pensions' input to the European Social Fund programme; and

delivering ongoing product support to existing programmes.

Within the Commercial Directorate, the relationship with the Work, Welfare and Equality Group is led by the Commercial Employment Provision team. This has the role of:

providing commercial advice on the development of new welfare to work initiatives that involve commercial delivery;

developing and leading sourcing approaches for individual programmes;

managing performance by suppliers throughout the life of contracts; and

managing the development of the supplier market in line with the Commissioning Strategy, published in February 2008 (Cmnd 7330).

Sample role descriptions for the following posts have been placed in the Library:

Field Financial Appraisal and Monitoring (FAM) team member;

Third Party Provision Manager; and

Contract Manager.

Council Tax Benefit

Jenny Willott: To ask the Secretary of State for Work and Pensions how much was received in council tax benefit on average by claimant families with a child *(a)* claiming and *(b)* not claiming disability living allowance in the most recent period for which figures are available; and if he will make a statement. [216549]

Mr. Plaskitt: As at May 2004, the most recent available information, the average amount of council tax benefit paid to families with one or more children, where disability living allowance was in payment to a member of the family was £15.23. For families with one or more children where nobody in the family received disability living allowance, the average amount of council tax benefit was £13.27.

Notes:

1. Council tax benefit excludes any second adult rebate cases.
2. Average weekly amounts are rounded to the nearest penny.

3. A family refers to a lone claimant or couple with responsibility for at least one child.

Source:

Housing benefit and council tax benefit management information system, annual 1 per cent sample, taken in May 2004.

Robert Neill: To ask the Secretary of State for Work and Pensions what proportion and number of council tax benefit recipients receive less than 100 per cent. council tax benefit. [224088]

Mr. Plaskitt *[holding answer 16 September 2008]:* The available information is in the table.

Number and proportion of council tax benefit recipients in receipt of less than 100 per cent. benefit: Great Britain May 2004

	Number/proportion
All recipients	4,759,000
In receipt of 100 per cent. benefit	3,826,000
In receipt of less than 100 per cent. benefit	933,000
Proportion of those receiving less than 100 per cent. benefit	19.61

Notes:
1. The figures are based on a 1 per cent. sample and are therefore subject to a degree of sampling variation.
2. The data refers to benefit units, which may be a single person or a couple.
3. The figures have been rounded to the nearest thousand and may not sum due to rounding.
4. Council tax benefit figures exclude any single adult rebate cases.
5. This is the latest available data containing the necessary breakdown.

Source:

Housing Benefit and Council Tax Benefit Management Information System Annual 1 per cent. sample taken in May 2004.

Departmental Alcoholic Drinks

David Simpson: To ask the Secretary of State for Work and Pensions what measures are in place in his Department to monitor expenditure on alcohol for hospitality purposes. [219584]

Mrs. McGuire: The purchase of alcohol for hospitality purposes is provided as an exception only and then with the specific written authority only of a small number of designated senior civil servants. The Department for Work and Pensions does not currently monitor expenditure on alcohol for hospitality purposes. Such expenditure is included within the hospitality account.

All expenditure on alcohol and entertaining falls within the classification "Hospitality" and is made in accordance with published departmental guidance on financial procedures and propriety, based on the principles set out in Managing Public Money and the Treasury handbook on Regularity and Propriety.

David Simpson: To ask the Secretary of State for Work and Pensions what purchasing process is used by his Department for the procurement of alcohol for hospitality purposes. [219934]

Mrs. McGuire: There is no purchasing process in use by the Department for Work and Pensions for the purchase of alcohol for hospitality purposes due to the fact that alcohol is provided as an exception only and then with the specific written authority only of a small number of designated senior civil servants.

All expenditure on alcohol and entertaining falls within the classification "Hospitality" and is made in accordance with published departmental guidance on financial procedures and propriety, based on the principles set out in Managing Public Money and the Treasury handbook on Regularity and Propriety.

Departmental Appeals

Andrew Mackinlay: To ask the Secretary of State for Work and Pensions on how many occasions his Department and its predecessor instructed the Treasury Solicitor to seek leave to appeal to the House of Lords from *(a)* the Court of Appeal and *(b)* the House of Lords itself in each of the last 10 years; and on how many occasions the application was rejected. [220813]

Mrs. McGuire: The information requested is not held centrally and could be obtained only at disproportionate cost.

Departmental Aviation

Mr. Maude: To ask the Secretary of State for Work and Pensions how many individual domestic air flights were undertaken within Great Britain by representatives of *(a)* his Department and *(b)* its agencies in the most recent year for which figures are available; and at what cost. [215561]

Mrs. McGuire: The number of UK domestic flights undertaken by representatives of the Department and its agencies from April 2007 to March 2008 is provided in the following table. Information in relation to flights undertaken within Great Britain only is not held by the Department.

Travel by Ministers and civil servants is undertaken in accordance with the Ministerial Code and the Civil Service Management Code respectively.

Agency/Department	*Number of flights*	*Cost (£)*
Central Services/ Headquarters	3,290	576,440
Disability and Carers Service	183	27,404
Child Support Agency	4,809	798,004
Pension Service	5,617	1,134,032
Jobcentre Plus	4,338	779,446
Total	18,237	3,315,326

Departmental Buildings

Mr. Betts: To ask the Secretary of State for Work and Pensions (1) what his Department's policy is on improving the energy efficiency of the buildings which it *(a)* rents and *(b)* owns; what changes there have been in the energy efficiency of such buildings in the last (i) five and (ii) 10 years; and whether his Department has adopted targets on energy efficiency improvements in the buildings it occupies over the next (A) five and (B) 10 years; [221090]

(2) what account his Department takes of the level of energy efficiency of buildings before entering into agreements to *(a)* rent and *(b)* purchase those buildings. [221106]

Mrs. McGuire: The Department is working to meet the energy efficiency targets within the targets for Sustainable Operations on the Government Estate (SOGE) and that is to increase energy efficiency per m^2 by 15 per cent. by 2010 relative to 1999-2000 levels. In the Department's case this would equate to 260.1 kWh/m^2.

The following table provides the performance of the Department against the energy efficiency target:

	kWh/m²
1998-99	300
1999-2000	306
2000-01	274
2001-02	289
2002-03	297
2003-04	286
2004-05	303
2005-06	288
2006-07	322
2007-08	312

Note:
The figures from 1998 to 2002 are compiled from data for the former Department for Social Security and Employment Service. Figures for 2007-08 are subject to confirmation.

The Department acquires fully serviced accommodation from Land Securities Trillium (LST) under PFI—private finance initiative—arrangements. Any new space the Department requires is identified, acquired, managed and operated by LST to meet the Department's needs. The improved energy efficiency of our total operations is one of a range of issues that is considered in the acquisition of new space. Ease of access for customers and the requirements for highly efficient office space (both existing and new build) are among other criteria.

Energy efficiency is incentivised within the PFI arrangement and is incorporated also within the Department's Estate Strategy. Specific measures to improve efficiency are detailed within the Department's three year Sustainable Development Action Plan, which is incorporated within its Sustainable Development Annual Report for 2007.

While the Department's increased use of IT and extended opening hours, to provide a better service to customers and improved facilities for staff, has impacted on our energy efficiency, a planned programme of work is in place to meet the carbon from offices and energy efficiency targets. The Department has secured investment for 41,000 'spend-to-save' measures through its PFI arrangements and is installing Smart Meters in its largest 700 buildings to improve reporting and energy management. These measures, together with an intensive energy efficiency and communications campaign, have resulted in absolute carbon emission reductions of 10.8 per cent. in 2007-08. Their ongoing implementation, together with improved governance and a review of site plant and equipment, mean that the Department predicts a further reduction of 15 per cent. by 2011, meeting the Sustainable Operations target.

Departmental ICT

Mr. Stephen O'Brien: To ask the Secretary of State for Work and Pensions whether his Department's IT *(a)* systems and *(b)* services conform to the ISO 27001 standard. [216057]

Mr. Timms: In-service IT systems and managed services take full account of the Department's policies and procedures for information security management, which conform to the principles and controls in ISO 27001. Systems that were implemented before the ISO standard was introduced are currently being reviewed for conformance with the Department's policies and procedures.

Jenny Willott: To ask the Secretary of State for Work and Pensions (1) what the *(a)* start date, *(b)* original planned completion date and *(c)* actual completion date was of each IT project completed by his Department and its agencies since 1997; and if he will make a statement; [221502]

(2) what the *(a)* original planned cost and *(b)* actual cost was for each information technology project completed by his Department and its agencies since 1997; and if he will make a statement. [221503]

Mrs. McGuire *[holding answer 22 July 2008]:* We would refer to our previous responses:

PQ/08/200070 (answered 25 April 2008, *Official Report*, columns 2354-56W):

"To ask the Secretary of State for Work and Pensions, how much his Department has spent on IT projects since 2005; and what estimate he has made of its total expenditure on IT projects between 2005 and 2010"

and

PQ/08/180577 (answered 5 March 2008, *Official Report*, columns 2591-96W):

"To ask the Secretary of State for Work and Pensions, what the *(a)* start date *(b)* original planned completion date *(c)* current expected completion date *(d)* planned cost and *(e)* current estimated cost is for each information technology project being undertaken by his Department and its agencies; and if he will make a statement"

The costs of answering the above question would be available only at a disproportionate cost.

Departmental Manpower

Chris Grayling: To ask the Secretary of State for Work and Pensions if he will provide a table showing the profile of the Department's staff by grade in *(a)* total and *(b)* each business unit. [219497]

Mrs. McGuire: The following tables show the profile of the Department's staff by grade in *(a)* total and *(b)* each business unit as at 30 June 2008.

Table 1: Individual employees

Number

Grade	*Jobcentre Plus*	*Child Support Agency*	*Pension and Disability Carers Service*	*The Rent Service*	*Rest of DWP*	*Total*

Note: Totals may not sum due to FTE rounding.

Departmental Marketing

Pete Wishart: To ask the Secretary of State for Work and Pensions what the cost was of *(a)* internet and website design and hosting, *(b)* print media design and *(c)* broadcast media of each of his Department's public information campaigns since 1997. [214663]

Mrs. McGuire: The extent of information requested could be provided only at disproportionate cost.

Departmental Overtime

Mr. Hoban: To ask the Secretary of State for Work and Pensions what the cost of overtime payments paid to staff in his Department was in each of the last 12 months, broken down by pay grade. [221288]

Mrs. McGuire: The following table details the cost of overtime payments in the Department for Work and Pensions by grade and month for the last complete financial year. The total cost from April 2007 to March 2008 is £64,528 representing some 2.3 per cent. of DWP's total pay bill in this period.

DWP overtime payments 2007-08 (by grade)

£000

Includes travel time, ERNIC and superannuation.

Departmental Press

Mr. Hoban: To ask the Secretary of State for Work and Pensions how much was spent by his Department on subscriptions for magazines, newspapers and other publications in each of the last 24 months. [215205]

Mrs. McGuire: The information is as follows.

DWP library expenditure April 2006 to May 2008

	Newspapers	Journals	Books	£ Total
June 2006	6,966.26	2,337.26	71,685.18	80,988.70

Apr 2008	3,864.56	2,383.54	44,695.12	50,943.22
May 2008	3,956.36	5,416.49	47,168.66	56,541.51
Total	130,609.10	255,141.79	2,198,030.82	2,583,781.71

All figures have been centrally gathered by the Department for Work and Pensions Library Services team who manage all publications purchases for the Communications Directorate.

In addition, other teams across the Department may incur incidental expenditure relating to publications. These costs are recorded on a number of different financial systems and this detail is not consolidated by the central team, or included in the figures quoted in the table. The costs of undertaking such an exercise are considered to be disproportionate.

Departmental Procurement

David Simpson: To ask the Secretary of State for Work and Pensions what his Department's policy is on requesting discounts from its suppliers in return for swift payment of invoices. [220419]

Mrs. McGuire: It is both Government and departmental policy to make payment to suppliers in arrears after goods or services have been satisfactorily provided and to pay promptly in accordance with the terms of the contract, which normally would be within 30 days of receipt of a valid invoice.

Suppliers will sometimes offer a discount for prompt payment. The conditions attached to these discounts must be stated on the tender or if not they must be obtained. If a tenderer offers a discount, commercial representatives will evaluate whether the discount offered represents value for money.

Consideration is made of the value of the loss of interest that early payment will incur. The prevailing Bank of England base rate is used to calculate this and a comparison of the cost of paying early, with the monetary value of the discount offered, is made.

Payment terms of less than 30 days are never accepted unless there is some advantage to the Department. Payment terms in excess of 30 days are not acceptable.

Departmental Public Expenditure

Mr. Harper: To ask the Secretary of State for Work and Pensions what the *(a)* forecast cost in (i) real and (ii) net present value terms and *(b)* most recent estimated cost was of (1) the pension transformation programme, (2) the customer information system, (3) the employment and support allowance computer system and (4) the central payment system. [211146]

Mrs. McGuire: The information is as follows:

£ million

		Originally planned costs		
Project	Purpose	Real	NPV	Latest estimated costs
Pensions Project Transformation[1]	The programme will transform the Pension Service, bringing together business and IT change in ways that improve customer service and deliver efficiencies.	429	350	598
Customer Information System[2]	This project will deliver a database of key citizen information to be shared across DWP. The database will complement information currently available in the Department's key customer information systems, i.e. Personal Details Computer System and Departmental Central Index, and become their replacement. Consideration is being given for wider use of CIS by other Government Departments.	40	42	89
Employment and Support Allowance	The project delivers the system and processes to implement the new ESA allowance.	295	282	295
Central Payments System (formerly part of Payment Modernisation)[3]	A modern integrated central payment engine and accounts payable system to improve accounting for benefit/ pension payments, reduce risks of service failure, increased speed and efficiency, and information for improved customer service and reduced fraud and error.	90	154	169

[1] *Pension Transformation Project (PTP):*
The apparent increase over the original stated costs can be attributed to a fundamental change in delivery approach.
When PTP started in April 2002, costs were early high level estimates based on delivery via a private supplier (who would recover development costs of the system through an operating contract).
Policy later changed and it was decided DWP would fund the capital costs of PTP itself.
As a result, development costs went up but operating costs went down.
Overall, this actually means an improved return* on the total investment, although development costs appear higher than the very early estimate provided in 2002.
* Net present value of the programme has increased by 40 per cent. to £585 million, compared to £350 million in the initial business case. HM Treasury guidance states the NPV is the primary criteria for deciding whether government action can be taken. This is arrived at by converting all costs and benefits to present values so that they can be compared.
[2] *Customer Information System (CIS):*
The original cost estimate of £40 million was based on the original scope of the project. There has subsequently been significant extension of the scope as the CIS Programme has responded to changes in the Departmental Modernisation Programme.
The costs originally submitted for CIS in July 2003 assumed that CIS would be developed as a back-end system supporting the Customer Account Managements (CAM) systems intended for deployment in each of the Client Groups. It also assumed that the Standard Enquiry Function (SEF) would be developed to support a very small number of users who would not have access to CAM.
Plans evolved with the result that the only Client Group to deliver a CAM system in line with this earlier specification was the Pension Service.
The additional costs result from requirements to service both the 'old' Legacy applications and the 'new' PTP CAM, as well as developing and implementing architectural changes in a seamless way. In addition, the absence of CAM functionality meant that the SEF has been rolled out to in excess of 124,000 users.
CIS scope was increased to deliver desktop access to approximately 19,000 staff in 408 local authorities for the administration of housing benefit and council tax benefit replacing remote access terminals, which were provided to only a very limited number of users in each of these local authorities.
The increased investment together with the delivery of enhanced requirements has resulted in CIS benefits increasing from £155 million to £533 million which includes direct benefits of £130 million and enabled benefits of £403 million. During this period, the introduction of CIS has led to the decommissioning of two major benefit systems (the Departmental Central Index and Personal Details Computer System) as CIS is now the master of personal details across all of DWP.
Additional work has also been carried out with other Government Departments and further work is planned in this area.
[1] *Central Payments System (CPS):*
The figure of £90 million relates to the outline business case produced during the feasibility phase in 2004. This related to a scope that is significantly smaller than the current programme. The original scope was for the replacement of existing payment processing software and excluded an integrated accounting solution. Furthermore, the integration scope of CPS has increased from four entitlement management systems to nine.
The NPV figure of £154 million relates to the full business case approved in March 2006. The figure of £169 million relates to the latest outline business case approved in May 2008.
Note:
The costs in the table represent the investment costs of implementing the particular project and programme. Costs of running the solutions implemented by the projects and programmes are not included in the table as in the vast majority of cases, they are more than compensated for by the financial and non-financial benefits they generate. These savings are demonstrated in the NAO report "The Efficiency programme: A Second Review of Progress".

Departmental Responsibilities

Mr. Hoban: To ask the Secretary of State for Work and Pensions which projects his Department has commissioned from *(a)* think tanks and *(b)* charities in each of the last two years for which figures are available; what the aim of each project was; which think tank or charity was commissioned; and how much was paid. [221619]

Mrs. McGuire: The information could be provided only at disproportionate cost.

Departmental Sick Leave

Jenny Willott: To ask the Secretary of State for Work and Pensions (1) what the average duration of single periods of sick leave taken by staff in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility who gave (i) stress and (ii) mental health and behavioural disorders as the reason for their absence was in each of the last 10 years; and if he will make a statement; [216165]

(2) how many staff in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility have taken sick days due to (i) stress and (ii) mental health and behavioural disorders in each of the last 10 years; what proportion of staff of each body this represented in each year; and if he will make a statement; [216164]

(3) how many sick days were taken by employees in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility due to (i) stress and (ii) mental health and behavioural disorders in each of the last 10 years; what proportion of sick days taken this represented in each case; and if he will make a statement. [216163]

Mrs. McGuire: The information is not available or held centrally, and could only be provided incompletely and at a disproportionate cost. Information on sickness absence for the years 2004, 2005 and 2006-07 has been published and can be obtained from the civil service website:

http://www.civilservice.gov.uk/about/statistics/sickness.asp

Jenny Willott: To ask the Secretary of State for Work and Pensions what the average duration of single periods of sick leave taken by staff in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility was in each of the last five years; and if he will make a statement. [216166]

Mrs. McGuire: The information is not available or held centrally, and could be provided incompletely and only at a disproportionate cost. Information on sickness absence for the years 2004, 2005 and 2006-07 has been published and can be obtained from the civil service website:

http://www.civilservice.gov.uk/about/statistics/sickness.asp

David Simpson: To ask the Secretary of State for Work and Pensions how many and what percentage of staff in his Department have had more than two periods of sickness absence of less than five days in each of the last three years. [218699]

Mrs. McGuire: The information currently recorded on the Department's personnel computer system is provided in the following table.

	2005-06	*2006-07*	*2007-08*
Number of staff	17,924	18,939	19,381
Percentage of total workforce	12.1	13.5	14.9

David Simpson: To ask the Secretary of State for Work and Pensions how many staff in his Department have had five or more periods of sickness absence of less than five days in two or more of the last five years. [218959]

Mrs. McGuire: The number of staff currently recorded on the Department's personnel computer system as having had five or more periods of sickness absence of less than five days in two or more of the last five years is 4,851. DWP currently employs more than 114,000 full and part time staff.

Departmental Sick Pay

Jenny Willott: To ask the Secretary of State for Work and Pensions how many staff in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility have received sick pay for sick leave due to (i) stress and (ii) mental health and behavioural disorders in each of the last 10 years; what the average length of time was for which sick pay was paid in these cases; and if he will make a statement. [216167]

Mrs. McGuire: The information requested is not available because the Department for Work and Pensions does not attribute sick pay to causes of illness.

Jenny Willott: To ask the Secretary of State for Work and Pensions how much was paid in sick pay to staff in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility in each of the last five years; what proportion of the staffing expenditure of each body this represented in each year; and if he will make a statement. [216168]

Mrs. McGuire: The information is not available or held centrally, and could be provided only incompletely and at a disproportionate cost. Information on sickness absence for the years 2004, 2005 and 2006-07 has been published and can be obtained from the civil service website:

http://www.civilservice.gov.uk/about/statistics/sickness.asp

Disability Living Allowance

Paul Rowen: To ask the Secretary of State for Work and Pensions (1) how many claims there were for disability living allowance by *(a)* children and *(b)* adults with Asperger's syndrome in each of the last five years; [171065]

(2) how many claims there were from *(a)* children and *(b)* adults with autism spectrum disorders for disability living allowance in each of the last five years; and what proportion these constituted of all claims for that allowance; [171463]

(3) how many claims there were for disability living allowance on behalf of *(a)* children and *(b)* adults with Asperger's syndrome in each of the last five years. [171465]

Mrs. McGuire *[holding answer 4 December 2007]:* The information is not available.

Entitlement to disability living allowance is not linked to particular disabling conditions, but on the extent to which a severely disabled person has personal care needs and/or walking difficulties as a result of their disability. Parents can claim disability living allowance for children, including those with autism spectrum disorder, as long as their disability meets the aforementioned criteria.

Mr. MacDougall: To ask the Secretary of State for Work and Pensions what progress has been made in his Department's discussions on granting blind people entitlement to the higher rate mobility component of disability living allowance; and if he will make a statement. [220803]

Mrs. McGuire *[holding answer 21 July 2008]:* We have been in long-term discussions with the Royal National Institute of Blind People and others on whether there is scope to extend the higher rate mobility component of disability living allowance to people with severe visual impairments. While we understand the force of the arguments put forward by the Royal National Institute of Blind People, and are sympathetic to their aims, including providing greater financial assistance to allow visually impaired people to return to or remain in work, we cannot, at this time, commit to amending the existing arrangements for the mobility component of disability living allowance.

The Green Paper, "No One Written Off: Reforming Welfare to Reward Responsibility" Cm 7363, published on 21 July, sets out our strategy to help greater numbers of sick and disabled people who want to work, fulfil their aspirations. Part of this strategy is the proposal to increase the Access to Work budget to help greater numbers of disabled people return to, and remain in, work. Currently, around one in four customers of Access to Work are people with a visual impairment.

Employment and Support Allowance

Mr. Harper: To ask the Secretary of State for Work and Pensions how much has been spent on *(a)* employment and support allowance and *(b)* incapacity benefit in the latest year for which figures are available; and how much is expected to be spent on each in each of the next five years. [220203]

Mrs. McGuire: In 2006-07, nominal expenditure on incapacity benefit was £6,566 million. For the available information about future incapacity benefit expenditure, I refer the hon. Member to the answer I gave him on 16 July 2008, *Official Report*, column 472W.

For the available information about employment and support allowance expenditure, I refer the hon. Member to the answer I gave him on 13 June 2008, *Official Report*, column 617W.

Employment: Learning Disability

Rosie Cooper: To ask the Secretary of State for Work and Pensions what steps his Department is taking to help those with acute learning disabilities find sustainable employment. [221675]

Mrs. McGuire: People with moderate and severe learning disabilities encounter particular difficulties in finding paid work. They are therefore now one of four

groups of disadvantaged people selected for special attention in the Government's Socially Excluded Adults Public Service Agreement (PSA16).

As a direct consequence of PSA 16, we will support and engage with the Project Search initiatives in Leicester and Norwich and learn from their experiences in testing this approach. Project Search is an initiative through which a college tutor and support worker (job coach) are based within a host employer with the objective of placing people with moderate and severe learning disabilities into sustainable work.

We also have a range of specialist disability employment programmes aimed at helping greater numbers of disabled people, including those with learning disabilities, take up and retain paid work. 37 per cent of people helped by the WORKSTEP programme of supported employment have a learning disability.

Our Welfare Reform Green Paper, "No-one written off—reforming the welfare state to reward responsibility", Cm 7363 launched on 21 July, made clear that following strong support for the proposals to improve the specialist programmes, set out at the end of last year, we would now press ahead with these reforms. A more flexible approach will enable us to help greater numbers of people with learning disabilities. The Green Paper also made clear our intention to substantially expand the funding for the specialist programmes.

The 'Getting a Life' project is specifically aimed at getting the employment, education and local authority day services functions for people with learning disabilities to work together in an integrated manner. This enables a seamless progression from school, through college or training into employment or, where appropriate, other activities. The project is being tested in seven demonstration sites.

Fish

Mr. Peter Ainsworth: To ask the Secretary of State for Work and Pensions how much fish was procured by his Department and at what cost in each of the last five years, broken down by species; and what amount and value of such fish met the Marine Stewardship Council standard in each such year, broken down by species. [217888]

Mrs. McGuire: The Department's expenditure on fish by species and the value of fish that met the Marine Stewardship Council Standard (MSCS) for the two years, 2006 and 2007, is provided in the following table.

		£000
Species of fish	*2006*	*2007*
Salmon	9	11
Prawn[1]	11	13
Tuna	2	2
Total	22	26
Value of fish that met the MSCS	7	8

[1] Financial figures have been included for prawns because although it is recognised that they are crustaceans and not fish, prawns are included as a species in the MSCS.

Information prior to 2006 and about the actual quantity of fish purchased, and the quantity of each species that met the MSCS, is not held centrally and could be provided only at disproportionate cost. Additionally, the details of expenditure on fish is solely that required to provide hospitality for meetings and does not reflect local expenditure on food, as that information is not held centrally and could be provided only at disproportionate cost.

Fuel Poverty

Danny Alexander: To ask the Secretary of State for Work and Pensions how much his Department spent tackling fuel poverty in each the last 10 years; and how much it expects to spend in the next 12 months. [217599]

Mr. Mike O'Brien: The Department for Work and Pensions is responsible for paying winter fuel payments and cold weather payments which help to improve incomes and in turn help to take people out of fuel poverty.

The available expenditure on winter fuel payments and cold weather payments is shown in the following tables, in nominal and real terms.

Great Britain, nominal terms

		£ million
Status	*Winter fuel payments, including over 80 payments*	*Cold weather payments*
Outturn		
1998-99	194	0.2
1999-2000	759	1.0
2000-01	1,749	30.0
2001-02	1,681	15.3
2002-03	1,705	14.2
2003-04	1,916	3.5
2004-05	1,962	1.8
2005-06	1,982	8.4
2006-07	2,015	3.4

Great Britain, 2008-09 prices

£ million

Status	Winter fuel payments, including over 80 payments	Cold weather payments
Plans		
2008-09	2,664	—

Notes:
1. All figures are consistent with Budget 2008, as well as expenditure information published on the internet at:
www.dwp.gov.uk/asd/asd4/expenditure.asp
2. Winter fuel payments are rounded to the nearest million pounds, but cold weather payments have been rounded to the nearest hundred thousand pounds.
3. The winter fuel payment was introduced in 1997. Annual payments are made to most people aged 60 or over. The current rate is £200 per household with someone eligible and aged between 60 and 79 and £300 per household containing someone eligible and aged 80 or over. At present over 8 million households benefit each year.
4. From 2000-01, winter fuel payments were extended to include people aged 60 to 64 years and also include the over 80 payments.
5. Winter fuel payment expenditure is forecast to increase significantly in 2008-09 following the announcement at Budget 2008 of an additional payment for winter 2008-09 of £50 for eligible households with someone aged between 60 and 79 and £100 for households with someone aged 80 or over.
6. Customers eligible for cold weather payments are those awarded pension credit or those awarded income support or income-based jobseeker's allowance who have a pensioner or disability premium or have a child who is disabled or under the age of five. Following the introduction of employment and support allowance in October of this year eligible customers will also include those in receipt of income related employment and support allowance that includes a work or support component, any disability premium, or who have a child who is disabled or under the age of five. A payment is made when the average temperature has been recorded as, or is forecast to be, 0°C or below over seven consecutive days at the weather station linked to the eligible customer's postcode.
7. Up to and including the winter of 2007-08, a cold weather payment was £8.50 for each week of very cold weather. The Prime Minister has announced that for the winter 2008-09 a cold weather payment will be increased to £25 for each week of very cold weather.
8. Cold weather payment expenditure for 2008-09 cannot be forecast because the number of payments will be dependent on the severity of the winter. However, a notional figure of £24 million is included in the forecasts for the Social Fund, provided to HM Treasury.

Departmental Accounting and statistical data

Health and Safety Executive: Inspections

Mr. Heald: To ask the Secretary of State for Work and Pensions how many Health and Safety Executive inspectors he expects to *(a)* retire, *(b)* leave the service and *(c)* join the service in (i) 2008, (ii) 2009 and (iii) 2010. [219333]

Mrs. McGuire: Recent trends and the age profile of inspectors indicate that about 70 inspectors will retire and another 60 inspectors will leave for other reasons each year. The HSE is committed to having not less than 1,283 inspectors in 2008-09 to 2010-11 but this is not a ceiling. The precise numbers who join in each of these years will vary with individual recruitment campaigns.

Health and Safety Executive: Manpower

Andrew Selous: To ask the Secretary of State for Work and Pensions how many staff worked for the Health and Safety Executive *(a)* at the most recent date for which figures are available and *(b)* in 1997. [220620]

Mrs. McGuire *[holding answer 21 July 2008]:* The number of staff working for the Health and Safety Executive (HSE) at 1 May 2008, including those employed by the Health and Safety Laboratory was 3,583 full-time equivalent staff (FTEs). On 1 April 1997, the figure was 4,077 FTEs. These figures are not, however, comparable as the functions of HSE have changed over the period.

Housing Benefit

Jenny Willott: To ask the Secretary of State for Work and Pensions (1) how much of the money allocated to each local authority to pay discretionary housing payments was unspent in each year since it was introduced; and if he will make a statement; [220088]

(2) how the amount allocated to each local authority for the payment of discretionary housing payments is calculated; and if he will make a statement; [220089]

(3) how much his Department allocated to each local authority for the payment of discretionary housing payments in each year since 2001; and if he will make a statement. [220090]

Mr. Plaskitt: The discretionary housing payment fund is allocated to each local authority based on the mid-point between the amount they were allocated and the amount they actually spent in the previous full financial year (e.g. the 2008-09 allocation was calculated using 2006-07 data, as those were the most recent full financial year data that were available at the time of calculation).

Any remaining funding is then distributed across local authorities based on their annually managed expenditure, and their average rent restrictions. 50 per cent. of the remaining funding is allocated based on each local authority's proportion of overall annually managed expenditure, and the remaining 50 per cent. of the funding is allocated based on each local authority's average rent restrictions.

The available information on the amount of money allocated to each local authority for discretionary housing payments and the amount of such payments unspent for each local authority has been placed in the Library.

Housing Benefit: Antisocial Behaviour

James Brokenshire: To ask the Secretary of State for Work and Pensions how many people in each of the eight housing benefit anti-social behaviour local authority pilot areas have *(a)* received written warnings of housing benefit sanctions and *(b)* had their housing benefit withdrawn because of anti-social behaviour. [224100]

Mr. Timms *[holding answer 17 September 2008]:* At present no one has had their housing benefit withdrawn as a result of this pilot. Some of the pilot areas have identified cases where possession orders have been sought on the grounds of anti social behaviour and some have introduced details about the sanction into their literature and warning letters.

Incapacity Benefit

Mr. Harper: To ask the Secretary of State for Work and Pensions how many claimants he expects there to be on incapacity benefit in each of the next five years, broken down by type of incapacity benefit. [209692]

Mrs. McGuire *[holding answer 9 June 2008]:* The latest available information is in the following table. The figures assume the introduction of employment and

support allowance in October 2008 and announced policies at the time forecasts were produced—they do not include future proposals yet to be agreed; The figures cover the period of the Government's spending plans to 2010-11.

Incapacity benefits: Estimated benefit case loads

Thousand

	2007-08 estimated outturn	*2008-09*	*2009-10*	*2010-11*
Incapacity Benefit	2,400	2,220	1,930	1,670
Of which:				
Short-Term Lower rate	90	50	0	0
Short-Term Higher rate	90	70	10	0
Long-Term Ordinary rate	910	890	850	730
Ex-Invalidity Benefit	320	280	260	230
Credits only	1,000	940	820	710
Severe Disablement Allowance	220	200	190	180

Notes:
1. Figures aggregated with the Employment and Support Allowance are also available on the DWP website through the following link: http://www.dwp.gov.uk/asd/asd4/expenditure.asp
2. Incapacity benefits claimants can receive short-term lower, short-term higher, long-term ordinary rates and credits only. Cases who were claimants of Invalidity Benefit, the predecessor to Incapacity Benefit, are also separately identified in the table.
3. Figures for Severe Disablement Allowance are also included in the table. This benefit was closed to new claimants in April 2001.
4. Claimants of Incapacity Benefit and Severe Disablement Allowance may also receive Income Support: figures for Income Support claimants are not shown in the table to avoid double-counting.
5. Incapacity Benefit is replaced for new claimants by Employment and Support Allowance in October 2008.
6. Figures are rounded to the nearest 10,000. Components may not sum to totals due to rounding.
7. All figures relate to individuals of working age.

Mr. Milburn: To ask the Secretary of State for Work and Pensions what proportion of the working-age population in each parliamentary constituency received incapacity benefit in each of the last five years. [220655]

Mrs. McGuire: The available information has been placed in the Library.

Jon Trickett: To ask the Secretary of State for Work and Pensions how many claimants of incapacity benefits are aged 60 years and over in each parliamentary constituency. [221738]

Mrs. McGuire: The available information has been placed in the Library.

Jon Trickett: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost to the public purse of regulation of private sector contracted welfare services for incapacity benefit claimants at a typical investment rate of £62,000 per claimant. [221739]

Mrs. McGuire: The information is not available.

Incapacity Benefit: Wakefield

Jon Trickett: To ask the Secretary of State for Work and Pensions how many children in *(a)* Hemsworth constituency and *(b)* Wakefield district are dependent on parents or guardians whose main income source is incapacity benefit. [220923]

Mrs. McGuire: The available information is in the following table.

Number of children aged 0-15 dependent on a parent/guardian claiming one or more of incapacity benefit or severe disablement: April 2007

	Number of children
Hemsworth parliamentary constituency	1,365
Wakefield local authority	4,025

Notes:
1. Data represent a snapshot in time of claimants on the computer system, and therefore excludes a very small number of cases that are held clerically.
2. The Department does not hold complete information on child dependents on its benefit computer systems and, therefore, children have been merged onto incapacity benefit and severe disablement allowance claims from child benefit records with permission from HMRC.

Source:
DWP Information Directorate

Income Support

Mr. Harper: To ask the Secretary of State for Work and Pensions how many claimants he expects there to be of income support in each of the next five years, broken down by type of income support. [209690]

Mr. Timms *[holding answer 9 June 2008]:* The available information is in the table. The information is available for the period up to the end of the Government's spending plans, 2010-11.

Income support: Estimated numbers of claimants

Thousand

	2007-08[1]	*2008-09*	*2009-10*	*2010-11*
Income support	2,120	2,050	1,730	1,510
Of which:				
Sick or disabled	1,250	1,200	990	860
Lone parents	760	730	610	520
Others	120	120	130	130

[1] Estimated outturn

Notes:
1. Figures are rounded to the nearest 10,000. Components may not sum due to rounding.
2. Income support on the grounds of incapacity will no longer be payable to new claimants after the introduction of employment and support allowance in October 2008.
3. Figures for 'Others' include income support for carers, pregnant women and ex-minimum income guarantee claimants.
4. Figures are consistent with benefit expenditure tables available on the DWP website through the following link: http://www.dwp.gov.uk/asd/asd4/expenditure.asp

Jenny Willott: To ask the Secretary of State for Work and Pensions how much families with a child *(a)* claiming and *(b)* not claiming disability living allowance received on average in (i) income support and (ii) housing benefit in the latest period for which figures are available; and if he will make a statement. [216580]

Mrs. McGuire: The information is not available.

Income Support: Disabled

Chris Grayling: To ask the Secretary of State for Work and Pensions how many new claims for income support on the grounds of incapacity for work for which the claimant qualified for the disability premium from the start of the claim were awarded to *(a)* single persons aged under 35, *(b)* single persons aged 35 to 44, *(c)* single persons aged 35 to 65, *(d)* couples with claimant aged under 35, *(e)* couples with claimant aged 35 to 44 and *(f)* couples with claimant aged 35 to 65 years in the most recent 12 month period for which figures are available. [223245]

Mr. Timms *[holding answer 10 September 2008]:* The information requested would be available only at disproportionate cost.

Income Support: Lone Parents

Chris Grayling: To ask the Secretary of State for Work and Pensions how many lone parents whose youngest child is aged 11 years or over are in receipt of income support, broken down by parliamentary constituency. [223246]

Mr. Timms: The information requested has been placed in the Library.

Industrial Health and Safety: Construction

Mr. Heald: To ask the Secretary of State for Work and Pensions what plans he has to increase the number of Health and Safety Executive inspectors covering the construction industry. [219337]

Mrs. McGuire: I have asked the Health and Safety Executive (HSE) to maintain the number of inspectors including those covering the construction industry at not less than 1,283, taking account of the fluctuations as retirements and natural turnover occur. The precise number of inspectors for construction is being kept under review.

HSE can act as a stimulus—promoting best practice, influencing major contractors, architects and designers, and inspecting, investigating and, where necessary, enforcing the law on site. The main responsibility, however, for bringing about improvements in health and safety within the construction industry lies with the industry itself.

Jobcentre Plus: Security Guards

Chris Grayling: To ask the Secretary of State for Work and Pensions pursuant to the answer of 21 April 2008, *Official Report*, column 1842W, on Jobcentre Plus: security guards, if he will place in the Library a copy of the objectives and job description of *(a)* security guards and *(b)* customer care officers. [221727]

Mr. Timms: Copies of the objectives and job descriptions of security guards and customer care officers have been placed in the Library.

Lone Parents: Income Support

Jenny Willott: To ask the Secretary of State for Work and Pensions how many and what proportion of lone parent families he estimates will be affected by the changes to the eligibility criteria for income support taking effect in *(a)* October 2008, *(b)* October 2009 and (c) October 2010 are living on less than 60 per cent. of median income in each region; and if he will make a statement. [215751]

Mr. Timms: The information requested is not available broken down by region.

Low Incomes: Children

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what the median income was in each region in the UK in the last 12 months for which figures are available; and what estimate he has made of the number of children who lived in households with incomes of less than *(a)* 60 per cent. and *(b)* 40 per cent. of the regional median, in each region, during that period. [221163]

Mr. Timms: Specific information regarding low income for Great Britain is available in "Households Below Average Income 1994/95 to 2006/07". This annual report, which is a National Statistics publication, includes the numbers and proportions of individuals, children, working age adults and pensioners with incomes below 50 per cent. 60 per cent. and 70 per cent. of the national median income, and the proportions in persistent poverty.

Information covering 40 per cent. of median income is not presented in the Households Below Average Income series as it is an unreliable measure of poverty. Households stating the lowest incomes to the Family Resources Survey may not actually have the lowest living standards. Many people who report very low incomes appear to have high spending. Hence any statistics on numbers in this group may be misleading.

The available information is in the following tables.

Median income in each region in the UK for the years 2004-05 to 2006-07

£ per week equivalised

Region	*Before Housing Costs*	*After Housing Costs*
North East	338	291
North West	350	301
Yorkshire and the Humber	349	299
East Midlands	356	310
West Midlands	343	293
East of England	401	340
London	421	335
South East	435	361
South West	378	323
Scotland	371	323
Wales	346	304
Northern Ireland	342	302

Number of children below 60 per cent. of each regional median income in the UK for the years 2004-05 to 2006-07

Million

Region	Before Housing Costs	After Housing Costs
North East	0.1	0.1
North West	0.3	0.4
Yorkshire and the Humber	0.2	0.3
East Midlands	0.2	0.2
West Midlands	0.2	0.3
East of England	0.2	0.3
London	0.5	0.7
South East	0.4	0.6
South West	0.2	0.3
Scotland	0.2	0.3
Wales	0.1	0.2
Northern Ireland	0.1	0.1

Number of children below 40 per cent. of each regional median income in the UK for the years 2004-05 to 2006-07

Million

Region	Before Housing Costs	After Housing Costs
North East	—	—
North West	0.1	0.1
Yorkshire and the Humber	—	0.1
East Midlands	—	0.1
West Midlands	0.1	0.1
East of England	0.1	0.1
London	0.2	0.3
South East	0.1	0.2
South West	0.1	0.1
Scotland	—	0.1
Wales	—	0.1
Northern Ireland	—	—

Notes:

1. These statistics are based on Households Below Average Income data.
2. Small differences should be treated with caution as these will be affected by sampling error and variability in non-response.
3. '—' denotes less than 50,000 children.
4. The reference period for Households Below Average Income figures is single financial years. Three sample years have been combined as regional single year estimates are subject to volatility.
5. The income measures used to derive the estimates shown employ the same methodology as the Department for Work and Pensions publication 'Households Below Average Income' series, which uses disposable household income, adjusted (or "equivalised") for household size and composition, as an income measure as a proxy for standard of living.
6. The figures are based on OECD equivalisation factors.
7. Regional median incomes are presented in 2006-07 prices.
8. Figures have been presented on both a Before Housing Cost and After Housing Cost basis. For Before Housing Cost, housing costs (such as rent, water rates, mortgage interest payments, structural insurance payments and ground rent and service charges) are not deducted from income, while for After Housing Cost they are.
9. This response includes a lower income threshold of 40 per cent. of the contemporary median income. The data for households with an income lower than 50 per cent. of median are not considered to be accurate as an indicator of living standards. Many of these households whilst having very low incomes would not be considered poor, but do genuinely have few sources of income in the short-run. These figures are not National Statistics and caution must be applied because those people stating the lowest incomes in the Family Resources Survey may not actually have the lowest living standards.
10. Regional median incomes have been rounded to the nearest pound sterling, while numbers of children in low-income households have been rounded to the nearest 100,000 children.

Maternity Benefits

Jo Swinson: To ask the Secretary of State for Work and Pensions for what reasons maternity allowance work has been centralised into four benefit delivery centres. [223489]

Mr. Timms *[holding answer 15 September 2008]:* The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie:

The Secretary of State has asked me to reply to your question about the reasons that Maternity Allowance work has been centralised into four Benefit Delivery Centres. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The decision to centralise Maternity Allowance (MA) formed part of the wider agenda to centralise processing of all benefits in order to improve their delivery and realise efficiencies.

For the benefits with larger caseloads, Incapacity Benefit, Jobseeker's Allowance, and Income Support, it was possible to centralise this work in 78 sites across Great Britain. But because of smaller number of recipients we needed fewer sites if the benefits of economies of scale and consistency were to be realised in the centralisation of MA. We also decided that in order to avoid the need for redundancies we would use the centralisation of MA and other benefits to locate work in potential redundancy hotspots.

This resulted in the centralisation of MA into the four Benefit Delivery Centres of Yeovil, Wrexham, Hanley and Bury St Edmunds in the spring.

I hope this is helpful.

National Insurance

Mr. Clappison: To ask the Secretary of State for Work and Pensions pursuant to the Written Ministerial Statement of 9 May 2008, *Official Report*, column 44WS, on national insurance numbers, what estimate he has made of *(a)* the number of national insurance numbers held by partners of legitimate benefit claimants who do not have a right to be in the UK and *(b)* how many such partners have obtained benefits themselves; and what steps he is taking to revoke the national insurance numbers held by such partners. [206331]

Mr. Timms *[holding answer 16 May 2008]:* The information needed to make an estimate of the number of national insurance numbers held by partners of legitimate benefit claimants who do not have a right to be in the UK is not available.

The Immigration and Asylum Act 1999 excludes persons subject to immigration control from income-related and other non-contributory social security benefits. Foreign nationals who do not have a right to be in the UK are subject to immigration control and therefore do not qualify for those benefits in their own right.

A national insurance number does not itself confer any rights to benefits or access to services and the current practice is for a national insurance number, once allocated, not to be revoked except in specified circumstances.

Mr. Evennett: To ask the Secretary of State for Work and Pensions how many national insurance numbers were incorrectly issued in each of the last 10 years. [213444]

Mr. Plaskitt: The Department undertakes rigorous checks on the identity of all adult national insurance number applicants and only when it is satisfied with the identity of an individual will a number be allocated.

There are limited occasions where it is identified that an individual has been issued two national insurance numbers. In this situation one of the numbers will be cancelled.

Figures are only available from 2001.

Occasions when an individual has initially been issued more than one national insurance number

	Number of cases
2001	586
2002	447
2003	303
2004	513
2005	497
2006	534
2007	1,517
2008 (part)	324

Notes:
1. Source data is Management Information.
2. Figures relate to calendar years.
3. Figures for 2008 relate to the period 1 January to 30 June 2008.
4. Figures relate to the year the NINO was cancelled from the DWP IT records.
5. The figure for 2007 is disproportionately high as it reflects an IT problem which occurred during the transfer of NINO accounts from the former Departmental Central Index (DCI) to the improved Customer Information System (CIS). The problem was immediately rectified. The figure for 2007 (excluding these IT problem cases) is 562.

As mentioned in PQ/08/206330, we also identified earlier this year as part of the Security Industry Authority NINO checks that a small number of NINOs (25) had been incorrectly issued to individuals who did not have the right to work. However, this was due to a temporary misunderstanding and quickly rectified.

New Deal for Disabled People

Rosie Cooper: To ask the Secretary of State for Work and Pensions how many people have been enrolled on the New Deal for Disabled People since its inception *(a)* nationally and *(b)* in West Lancashire. [221740]

Mr. Timms: Since the inception of new deal for disabled people in July 2001, 293,770 individuals have started it nationally and 550 people have started it in West Lancashire parliamentary constituency.

Notes:

1. Figures are rounded to the nearest 10.
2. The latest data are to February 2008.

Source:

Department for Work and Pensions, Information Directorate.

New Deal for Lone Parents

Rosie Cooper: To ask the Secretary of State for Work and Pensions what steps his Department is taking to develop skills training for parents participating in the New Deal for Lone Parents; and if he will make a statement. [221745]

Mr. Timms: Lone parents who participate in new deal for lone parents can voluntarily access work-related training which is tailored to their individual requirements and takes into account their previous experiences, skills and the type of work they are looking for.

In our Green Paper "No one written off: reforming welfare to reward responsibility" (Cm 7363), published on 21 July 2008, we set out options to support more lone parents to develop their skills and move into employment. These included requiring lone parents to take part in a skills health check when their youngest child turns five, pilots to evaluate mandating them to relevant skills training to address any identified skills gaps as well as encouraging lone parents with younger children to voluntarily develop the skills they need to find work.

From late 2010, lone parents with a youngest child aged seven or more will no longer be eligible for income support. They will instead be able to apply for jobseeker's allowance (JSA) or employment and support allowance if they have a disability or health condition. Those who receive JSA for six months or more will be able to take part in full-time employment-related training for up to eight weeks while receiving a training allowance. Lone parents will still be able to access new deal for lone parents for the first 12 months of their JSA claim.

New Deal Schemes

Mr. Frank Field: To ask the Secretary of State for Work and Pensions with reference to the answer of 24 April 2007, *Official Report*, columns 1095-6W, on New Deal schemes, if he will provide equivalent figures for *(a)* the New Deal for Disabled People and *(b)* each other New Deal programme for each month since August 2006. [213848]

Mr. Timms *[holding answer 25 June 2008]:* Since its launch in 1998 the New Deal has led a major transformation in employment support for people in Britain. Since its introduction New Deal has helped 1.97 million people into work. Benefit recipients participating in New Deal more than once are more likely to enter employment from their second spell on the programme than their first, and from their third spell than their second. Each period on New Deal moves participants closer to the labour market.

Information on the number of current participants on New Deal 50 plus and New Deal for Disabled People is not currently available. These statistics have been suspended while a review of the method for compiling current participant figures is carried out.

Current participant figures for New Deal for Lone Parents are available to March 2007. Figures for the period from April 2007 are not currently available as a result of the identification of a problem with the data which are used to compile the statistics. Figures for the period after April 2007 will be released as soon as possible.

The available information is in the following tables.

New Deal Participants (individuals)[1]

Month	New Deal for Young People	New Deal 25 Plus	New Deal for Lone Parents[2]	New Deal for Partners
2006				
August	98,940	51,630	54,800	3,130
September	94,350	52,090	54,910	3,180

Information Directorate, Department for Work and Pensions.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions with reference to the answer of 25 June 2007, *Official Report*, columns 484-88W, on the New Deal for Young People, if he will provide equivalent figures for *(a)* the New Deal for Young People and *(b)* each other New Deal programme for each month since November 2006. [213849]

Mr. Timms *[holding answer 25 June 2008]:* People entering new deal for young people receive intensive help to support them into work. The new deal has been successful in placing jobseekers into sustainable work, with around 80 per cent. of employment outcomes being into jobs lasting 13 weeks or more. The flexible new deal will build on this success.

The Department will be basing its payment strategy increasingly on sustainable job outcomes; six months in the first instance, but as the Government move towards an integrated employment and skills progression model, it will look to build longer-term incentives into the welfare and skills systems.

Information on the number of people who move into sustained employment is only collected for new deal for young people, new deal 25-plus and new deal for lone parents. The available information has been placed in the Library.

Pension Credit

Dr. Ladyman: To ask the Secretary of State for Work and Pensions what steps his Department is taking to ensure that Pension Credit rules concerning service charges for people living in sheltered and extra care sheltered housing are *(a)* understood by staff at the Pension Service and *(b)* available to the public. [215426]

Mr. Mike O'Brien: Any action concerning service charges-entitlement or providing additional advice and guidance for people living in sheltered and extra care sheltered housing is a function of specially trained staff based in every pension centre.

There is a checking regime in place designed to identify any procedural errors.

All rules and regulations are published and held in the public domain and can be accessed via the links provided as follows:

http://www.dwp.gov.uk/publications/dwp/dmg/pdf/ch78.pdf

http://www.dwp.gov.uk/publications/dwp/dmg/memletrs/memspc53.pdf

Pensioners: Poverty

Chris Grayling: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of pensioner households living in poverty *(a)* before housing costs and *(b)* after housing costs in each of the last 10 years, broken down by (i) region, (ii) local authority and (iii) constituency. [185892]

Mr. Mike O'Brien: Specific information regarding low income for the United Kingdom is available in "Households Below Average Income 1994/95-2005/06".

The data source does not allow us to provide robust numbers for estimates below the level of Government office region. Information on the numbers and percentages of pensioners below 60 per cent. of contemporary median income is set out in the following tables.

Pensioners living in households with less than 60 per cent. of contemporary median household income, by region or country: 1995-96 to 2005-06, three-year averages

Number (million)

[1] Not available.

Notes:

1. Three-survey year averages are given for each of the regions as robust single-year estimates cannot be produced because of the sample sizes for individual regions.
2. The income measures used to derive the estimates shown employ the same methodology as the Department for Work and Pensions publication "Households Below Average Income" (HBAI) series, which uses disposable household income, adjusted (or "equivalised") for household size and composition, as an income measure as a proxy for standard of living.
3. The figures are based on OECD equivalisation factors.
4. Figures are based on survey data and as such are subject to a degree of sampling and non-sampling error.
5. The government's preferred measures of low income for pensioners are based on incomes measured after housing costs. As part of PSA Delivery Agreement 17 three indicators of low income poverty will be monitored: the percentage of pensioners below 60 per cent. contemporary median income, 50 per cent. median income and 60 per cent. of 1998-99 median income uprated in line with prices.

Source:

Family Resources Survey

Mr. Amess: To ask the Secretary of State for Work and Pensions what steps he is taking to reduce levels of poverty in persons aged over 65 years; what research has been *(a)* commissioned and *(b)* evaluated by his Department on the causes of poverty in persons aged over 65 years in the last five years; and if he will make a statement. [223426]

Mr. Mike O'Brien *[holding answer 10 September 2008]:* In 1997 the poorest pensioners lived on £68.80. Today no pensioner need live on less than £124.05. The Government have introduced a number of measures to reduce the levels of poverty in older people. The number of pensioners in poverty in the UK has fallen from 2.9 million in 1998-99 to 2.1 million in 2006-07 (as measured by 60 per cent. of contemporary median income after housing costs). Once housing costs are accounted for, pensioners are less likely to be in poverty than the population as a whole.

Measures taken include the introduction of the minimum income guarantee and its successor pension credit. The value of the safety-net we provide for the poorest pensioners has increased by over a third in real terms since 1997. We have successively raised the standard minimum guarantee in pension credit by earnings in every year since its introduction. Our commitments in the Pensions Act 2007 to continue to uprate the pension credit standard minimum guarantee in line with earnings over the long

term, and to reintroduce the earnings link to basic state pension from 2012, or by the end of the next parliament, will help secure these gains into the future.

In addition we have introduced winter fuel payments for those aged 60 or over, with a higher amount for those 80 or over. For winter 2008-09 we will make an additional payment of £50 for households with someone aged 60-79 and £100 for those with someone aged 80 or over. We have also introduced free television licences for people aged 75 or over and made above inflation increases in the basic state pension.

The Department for Work and Pensions has undertaken a range of research over the last five years to investigate the nature of poverty in older people. For example, research has been commissioned to better understand older people's experiences of poverty and the link between income poverty, deprivation and age. In working to ensure all pensioners take up their entitlements to pension credit, the Department has also undertaken research to explore the barriers and triggers to claiming pension credit.

Pensioners: Social Security Benefits

Jenny Willott: To ask the Secretary of State for Work and Pensions (1) what estimate the Department has made of the average amount unclaimed by single pensioners aged 75 to 85 years old who are entitled to, but not claiming *(a)* guarantee credit and council tax benefit, *(b)* guarantee credit and housing benefit/local housing allowance and *(c)* guarantee credit, housing benefit/local housing allowance and council tax benefit, broken down by sex in each of the last five years; and if he will make a statement; [215988]

(2) what estimate his Department has made of the average amount unclaimed by single pensioners aged 85 years or over of each sex entitled to but not claiming *(a)* guarantee credit and council tax benefit, *(b)* guarantee credit and housing benefit or local housing allowance and *(c)* guarantee credit, housing benefit or local housing allowance and council tax benefit in each of the last five years; and if he will make a statement. [214960]

Mr. Mike O'Brien: I refer the hon. Member to the answer I gave on 15 July 2008, *Official Report*, columns 326-27W.

Post Office Card Account

Bob Spink: To ask the Secretary of State for Work and Pensions what progress has been made in the decision-making process for the selection of an operator for the Post Office card account; and if he will make a statement. [224036]

Kate Hoey: To ask the Secretary of State for Work and Pensions when he plans to announce the result of the award of the contract for the Post Office Card Account for 2010 onwards. [223494]

Mr. Plaskitt *[holding answer 15 September 2008]:* The contracting process remains under way. An announcement of the outcome will be made as soon as possible.

Regulation of Investigatory Powers Act 2000

Mr. Pickles: To ask the Secretary of State for Work and Pensions what guidance his Department and its agencies have given to local authorities on the use of the Regulation of Investigatory Powers Act 2000 for tackling benefit fraud. [221274]

Mr. Plaskitt: Specific guidance in the form of a fraud guidance circular was first issued to local authorities in September 2000, when the Act came into force. It has since been updated twice with further fraud guidance circulars issued in 2001 and 2003.

The Department's own Fraud Procedures and Instructions manual now has a specific section that details how both Department for Work and Pensions and local authority benefit fraud investigators should use the Regulation of Investigatory Powers Act 2000. This guidance is made available for all local authority benefit fraud investigators through a secure website on the National Anti-Fraud Network.

Remploy

Mrs. Riordan: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of former Remploy workers who have found alternative employment. [220015]

Mrs. McGuire: Remploy has advised that of the 241 employees who opted to remain with Remploy, 161 are in work placements. The remaining 80 employees are involved in pre-employment activities, for example job search and preparation.

A further 1,772 employees opted to take voluntary redundancy or early retirement with a voluntary redundancy payment. Remploy is aware that around 200 have found alternative work, and is currently working with a further 360 former employees to find alternative work. The remainder have either advised the company that they do not require assistance from the company to seek further work or have not yet responded to Remploy's offers of help.

Social Security (Miscellaneous Amendments) Regulations 2008

David Taylor: To ask the Secretary of State for Work and Pensions when he plans to publish the Social Security Advisory Committee's report on the proposals contained in the Social Security (Miscellaneous Amendments) Regulations 2008 relating to the backdating period for pension credit, housing benefit and council tax benefit claimants; and if he will make a statement. [223662]

Mr. Mike O'Brien *[holding answer 15 September 2008]:* The Social Security Advisory Committee's report on the proposals contained in the Social Security (Miscellaneous Amendments) Regulations 2008 and the Secretary of State's response to the report were published as a Command Paper on 15 September 2008 and laid in Parliament, along with the Regulations, on that date.

Social Security Benefits

Mr. Sanders: To ask the Secretary of State for Work and Pensions if he will make it his policy to reduce by at least half the time it takes benefits offices to deal with a reconsideration request; and if he will make a statement. [219537]

Mr. Plaskitt: There are no plans to specifically reduce the time taken to deal with reconsideration requests. By their very nature, reconsiderations may take some time, particularly where further evidence requires investigation or corroboration. We believe the present arrangements strike a fair balance between speed and accuracy.

Sarah Teather: To ask the Secretary of State for Work and Pensions (1) how many complaints his Department has received in respect of the Belfast benefit delivery centre in the last 12 months, broken down by category of complaint; [220603]

(2) what steps he is taking to improve communications between the Belfast benefit delivery centre and *(a)* members of the public and *(b)* local Jobcentre Plus branches. [220605]

Mr. Timms: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 20 September 2008:

The Secretary of State has asked me to reply to your questions asking how many complaints his department has received in respect of Belfast Benefit Delivery Centre in the last 12 months, broken down into category and what steps he is taking to improve communications between the Belfast Benefit Delivery Centre and (a) members of the public (b) local Jobcentre Plus branches. This is something that falls within responsibilities delegated to me as Chief Executive of Jobcentre Plus.

In total, 472 complaints were received in respect of Belfast Benefit Delivery Centre (BDC) in the last 12 months. They are broken down by category in the following table:

Type of complaint	*Number received*
General benefit queries	7
Customer service	9
Data protection	2
Incapacity benefit	73
Income support	172
Information and advice	8
Jobseeker's allowance	196
Maternity allowance	1
Telephony	4

Jobcentre Plus recognises the importance of good communications between the various parts of its business in providing a good service to its customers. Consequently we are always looking for new ways to improve communications, both internally and with members of the public.

For example, Belfast BDC has introduced the following improvements:

customers can now contact the centre by email via the Jobcentre Plus website;

an improved telephony system goes live on 19 August which it is hoped will improve communication with our customers;

post room procedures are being reviewed in an effort to speed up the process of post reaching its destination;

members of the public are informed of our services through our website, leaflets, telephone and by face to face contact; and

regular meetings are held between Belfast BDC and the jobcentres it serves to discuss ways in which to improve the service delivered to our customers.

Feedback from these meetings is cascaded to all staff to raise awareness of any issues.

Jon Trickett: To ask the Secretary of State for Work and Pensions how many children lived in households that had been in receipt of *(a)* jobseeker's allowance, *(b)* incapacity benefit and *(c)* income support for more than two years at the latest date for which figures are available. [221736]

Mr. Plaskitt: The requested information is not available.

Jon Trickett: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of work-focused interviews which will be conducted in *(a)* 2009, *(b)* 2010, *(c)* 2011, *(d)* 2012 and *(e)* 2013, broken down by benefit sought. [221737]

Mr. Timms: No such estimate has been made.

Social Security Benefits: Cost of Living

Tom Brake: To ask the Secretary of State for Work and Pensions what recent assessment his Department has made of the effect of increases in the cost of living on people on benefits. [223236]

Mr. Mike O'Brien *[holding answer 10 September 2008]:* There is a statutory requirement to review all social security benefits each year and to increase certain benefits from April each year. The increase applied to most contributory and non-contributory benefits is calculated using the increase in the Retail Prices Index for the 12 months ending in the preceding September. This ensures that benefits keep their value in broad terms.

The inflation figures are based on a year-on-year comparison of prices. Therefore any recent fluctuations in inflation will be taken into account in the benefit increases that will take effect from the following April.

In addition to the annual uprating, the Chancellor also announced in his Budget 2008 speech that for winter 2008-09 an additional payment will be made alongside the winter fuel payment. Households with someone aged 60 to 79 will receive an additional £50 and households with someone aged 80 or over will receive an additional £100.

On 11 September 2008, the Government also announced a new £1 billion package of measures to help people cut their energy bills. Measures on offer deliver significant energy savings—e.g. cavity wall and loft insulation—and 11 million lower income and pensioner households are eligible for these free of charge. Also for winter 2008-09 cold weather payments will increase in value from £8.50 to £25.00. Cold weather payments are made to vulnerable people in receipt of qualifying benefits, including pension credit, if there is a period of very cold weather in their area.

Social Security Benefits: Fraud

Chris Grayling: To ask the Secretary of State for Work and Pensions (1) what estimate he has made of the number of people who committed benefit fraud in each of the last 10 years; [185883]

(2) what estimate he has made of *(a)* the value of benefit fraud and *(b)* the amount recoverable from such fraud in each of the last 10 years; [185884]

(3) what estimate he has made of *(a)* the number of people involved in benefit fraud and *(b)* the value of such fraud in each (i) region, (ii) local authority and (iii) constituency in the latest period for which figures are available. [185920]

Mr. Plaskitt: While the Department produces estimates of the amount of money lost through fraud, estimates are not available as to how many individuals might commit benefit fraud in any given period.

The following table shows the Department's estimates of fraud across all benefits. This information is not available broken down by region, local authority and constituency.

Global estimate of fraud across all benefits

	Value of benefit fraud (£ billion)
2000-01	2.2
2001-02	2.0
2002-03	2.0
2003-04	1.0
2004-05	0.9
2005-06	0.8
2006-07	0.8

Notes:
1. Comparable information is not available prior to 2000-01
2. There have been methodological changes, and new measurement exercises at various times.

In order for an overpayment to be recoverable it must be demonstrated that the customer failed to report a material fact. This means that all overpayments resulting from fraud are recoverable.

The following table shows the amount of recoverable overpayments identified during fraud investigations since 1997-98. However, it should be noted that the information provided does not include fraud overpayments for local authority administered benefits, for which information is not available.

Amount of recoverable fraud overpayments in DWP administered benefits

	£ million
1997-98	129
1998-99	149
1999-2000	105
2000-01	128
2001-02	123
2002-03	124
2003-04	134
2004-05	137
2005-06	144
2006-07	106

Note:
Figures rounded to the nearest £1 million.
Source:
Fraud information by Sector.

The reduction in the amount recorded as recovered in 2006-07 was largely as a result of the introduction of customer compliance in April 2006. Customer compliance deals with low level fraud and customer error allowing the criminal compliance teams to focus on the more serious and complex fraud cases which are likely to result in a criminal sanction. The focus of customer compliance on low level fraud allows for earlier intervention resulting in a shorter period of overpayment and smaller cash value.

Social Security Benefits: Pensioners

Mr. Willetts: To ask the Secretary of State for Work and Pensions how much was spent on each state benefit for pensioners in *(a)* Scotland and *(b)* England in the last year for which figures are available; and how much was spent on average per pensioner in each year. [199971]

Mr. Mike O'Brien: The information requested is in the following table.

Benefits paid to pensioners in Scotland and in England in 2006-07

	Scotland	*£ million, nominal England*
State Pension	4,837	46,023
Pension Credit	686	5,771
Housing Benefit	452	4,093
Attendance Allowance	398	3,429
Disability Living Allowance	355	2,405
Council Tax Benefit	193	1,649
Winter Fuel Payments	178	1,720
Over 75 TV Licences	41	420
Industrial Injuries Disablement Benefit	39	287
Severe Disablement Allowance	15	111
Christmas Bonus	11	103
Bereavement Benefits	11	90
Carer's Allowance	3	103
Total expenditure	7,218	66,135
Average per pensioner per year (£)	7,588	7,249

Notes:
1. All figures are consistent with Budget 2008, as well as expenditure information published on the internet at www.dwp.gov.uk/asd/asd4/expenditure.asp
2. Figures are rounded to the nearest £ million.
3. Expenditure on State Pension, Disability Living Allowance, Attendance Allowance and Christmas Bonus are defined as benefits paid to women over 60 and men over 65.
4. Pension Credit, Housing Benefit, Council Tax Benefit and Winter Fuel Payments expenditure refers to benefit units or households where at least one person is aged 60 or over.
5. The average per pensioner is estimated by dividing the total pensioner benefits by the state pension caseload. Those claiming Pension Credit, Housing Benefit, Council Tax Benefit or Winter Fuel Payments between the ages of 60-64 are not included in this caseload, but are included in expenditure. This small inconsistency is unlikely to materially affect the relative spending per head between England and Scotland.

Source:
Departmental Accounting and statistical data

Jenny Willott: To ask the Secretary of State for Work and Pensions how much *(a)* single pensioners and *(b)* pensioner couples (i) claiming and (ii) not claiming

disability living allowance received on average from claims for (A) council tax benefit, (B) housing benefit and (C) pension credits in the most recent period for which figures are available; and if he will make a statement. [216547]

Mr. Mike O'Brien: The information requested is not available in the format requested.

Social Security Benefits: Polygamy

Tim Loughton: To ask the Secretary of State for Work and Pensions what consideration has been given to the legality of benefit payments to polygamous families for each additional wife in line with current guidelines from the Department for Work and Pensions on income support. [218686]

Mr. Plaskitt: The rules governing entitlement for polygamously married claimants are set out in legislation. The policy governing benefit entitlement for polygamously married claimants has not changed since 1988.

Students: Mentally Ill

Lynne Featherstone: To ask the Secretary of State for Work and Pensions what benefits are available to *(a)* undergraduate and *(b)* postgraduate students who have been released into the community under section 117 of the Mental Health Act 1983, have been certified as unfit for work or study for a specified period, and are unable immediately to continue their studies or receive funding contingent on further study; and if he will make a statement. [219099]

Mrs. McGuire: There are no benefits specifically aimed at this group of individuals. Entitlement to any benefits will be dependent on the individual's circumstance and their meeting the normal qualifying conditions for the benefit.

For anybody being provided with care under section 117 of the Mental Health Act 1993, entitlement to some benefits will be dependent on the exact nature of the care being provided by the relevant authorities.

Voice Verification

Hywel Williams: To ask the Secretary of State for Work and Pensions (1) what pilot schemes on the use of voice recognition technology are *(a)* being undertaken and *(b)* planned by his Department in Wales; [217646]

(2) what work is being undertaken through pilot schemes on voice recognition technology to make provision for those who contact his Department in the Welsh language. [217647]

Mr. Plaskitt *[holding answer 10 July 2008]:* Voice recognition technology allows the customer to respond to automated questions to ensure they are correctly routed to the service they require depending on the response.

We are planning a four-day trial of voice recognition technology (interactive voice response wizard) on an automated line to request claim forms for attendance allowance and disability living allowance later this year. There are currently no plans for any voice recognition technology pilot schemes in Wales.

For the interactive voice response wizard trial, the automated service will provide the customer with the option to obtain disability living allowance and attendance allowance claim forms in the Welsh language. As the trial is for a very limited period, Welsh speakers who contact the helpline will be routed to an adviser to arrange the issue of the Welsh language claim form.

Welfare to Work

Mr. Harper: To ask the Secretary of State for Work and Pensions what assessment he has made of the effects of the economic situation on the *(a)* rate of progress in obtaining the goals, *(b)* timing of implementation and *(c)* costs of his Department's Welfare to Work strategy. [223160]

Mr. Timms *[holding answer 10 September 2008]:* The UK labour market continues to be highly flexible and dynamic with new jobs becoming available all the time. Around 10,000 new vacancies are placed with Jobcentres every day, representing only some of the job opportunities available within the economy. Job-centre Plus receives over 200,000 new Jobseeker's Allowance (JSA) claims every month, but the majority of people on JSA leave it within three months, with our active labour market programmes providing effective support to help people back into work.

We set out the principles underpinning our welfare to work strategy, and our key goals for improving employment opportunities, in "No one written off: reforming welfare to reward responsibility" (Cm 7363, July 2008). We are consulting on these proposals and remain committed to those goals. Details of the measures to be introduced and our plans for their implementation will be published after completion of the consultation period. These will build on the measures we are already implementing such as the employment and support allowance being introduced from this October.

The Department regularly reviews its financial position as part of the planning process. The effects of the economy on the Department's costs will continue to be considered as part of this.

Winter Fuel Payments

Robert Neill: To ask the Secretary of State for Work and Pensions what the level of the winter fuel payment was in *(a)* cash terms, *(b)* real terms expressed in 2003 prices and *(c)* as a percentage of the average energy and gas bill in each year since 2003. [218901]

Mr. Mike O'Brien: The winter fuel payment is intended to provide a contribution towards winter heating bills which account for around 60 per cent. of the total annual fuel bill. The payment provides a significant contribution to these higher winter costs. Winter fuel payments have increased from £20 in 1997-98 to the current value of £200 for households with someone aged 60 to 79 years of age, and £300 for households with someone aged 80 or over.

This coming winter an additional payment will be made of £50 for households with someone aged 60-79 and £100 for households with someone aged 80 or over increasing the Winter Fuel Payment to £250 and £400 respectively for winter 2008-09.

The information requested is in the following table:

	2003-04		2004-05		2005-06		2006-07[1]		2007-08		2008-09	
	WFP	*80+*	*WFP*	*80+*	*WFP*	*80+*	*WFP*	*80+*	*WFP*	*80+*	*WFP*	*80+*
(a) Cash value of WFP (£)	200	300	200	300	200	300	200	300	200	3000	250	400
(b) Real value[2] (£)	200	300	194	291	189	283	182	273	175	262	212	340
(c) (i) WFP as a percentage of average annual energy bill	30	50	30	45	30	40	25	35	n/a	n/a	n/a	n/a
(c) (ii) WFP as a percentage of average annual gas bill	75	110	70	105	60	95	55	80	n/a	n/a	n/a	n/a

[1] From 2006, the Family Spending Survey reports on a calendar year basis. 2006 is the latest available data on household energy (including gas) expenditure and is applied here.
[2] 2003-04 prices.

Notes:
1. The real value of the winter fuel payment is calculated by indexing RPI = 100 in 2003-04.
2. The RPI index applied is taken from Table RP02, produced by the Office for National Statistics.
3. The average annual energy and gas bill for all households is estimated using data from the Family Spending Survey, produced by the Office for National Statistics. The average energy bill includes all household expenditure on electricity, gas and 'other fuels'.
4. All percentages rounded to the nearest five per cent.

Xansa

Mr. Hoban: To ask the Secretary of State for Work and Pensions (1) what contracts his Department has signed with Xansa plc in the last five years; [215126]

(2) what payments have been made by his Department to Xansa plc in each of the last five years. [215130]

Mrs. McGuire: Although the Department has not awarded contracts direct to Xansa plc in the past five years, it has awarded contracts to Xansa UK Ltd. for external consultancy and IT services and to Xansa Recruitment Ltd. for external interim personnel in the last five years. These two companies are former subsidiaries of Xansa plc. Xansa plc was acquired by Steria in November 2007 and rebranded as Steria in March 2008.

A summary of payments for the last five years is provided in the following table:

£

	Organisation	
	Xansa UK Ltd.	*Xansa Recruitment Ltd.*
2003-04	808,794	2,042,507
2004-05	2,413,910	895,328
2005-06	1,913,257	2,412,559
2006-07	3,005,667	2,602,692
2007-08	1,468,001	1,570,353

A summary of contracts signed over the last four years is provided in the following table. Specific details of the contracts with both suppliers for 2003-04 is not available.

CHILDREN, SCHOOLS AND FAMILIES

Departmental Expert Groups

Angus Robertson: To ask the Secretary of State for Children, Schools and Families what expert groups his Department has set up since it was established. [213194]

Beverley Hughes: Details of formal, standing bodies set up by Government to provide independent, expert advice to Departments and Ministers are published annually by the Cabinet Office. These bodies, known as advisory non-departmental public bodies (NDPBs), are listed in the annual "Public Bodies" publication. "Public Bodies" also contains some details on short-term advisory groups and task forces. Copies of "Public Bodies" from 1999 to 2006 can be viewed and downloaded from:

http://www.civilservice.gov.uk/about/public/bodies.asp

listed under the Department's former name Department for Education and Skills. Copies are also available in the Library for the reference of Members.

Information on the Department's "Public Bodies" from 2003 to 2008 can be downloaded from:

http://www.dcsf.gov.uk/aboutus/reports/

Copies are also available in the Library for the reference of Members.

Departmental Information Communications Technology

Mr. Philip Hammond: To ask the Secretary of State for Children, Schools and Families what information technology projects initiated by his Department and its predecessors have been cancelled prior to completion in the last five years; and what the cost of each such project was to the public purse. [221716]

Beverley Hughes: The information requested is not readily available centrally within the Department for Children, Schools and Families. To respond fully would involve an extensive internal information collection exercise which would exceed the recommended disproportionate cost threshold.

JUSTICE

Offenders: Armed Forces

Mr. Garnier: To ask the Secretary of State for Justice how many *(a)* serving and *(b)* former armed forces personnel were (i) given custodial sentences following a plea or a finding of guilty and (ii) given a community penalty by civilian courts in England and Wales in each of last five years for which figures are available. [224014]

Derek Twigg *[holding answer 17 September 2008]:* I have been asked to reply.

The following table shows the number of serving personnel in the Royal Air Force (RAF) and Royal Navy (RN) who were given custodial sentences or community penalty by civilian courts in England and Wales.

	Imprisonment		*Suspended imprisonment*		*Community sentence*		*In-year total*	
	RN	*RAF*	*RN*	*RAF*	*RN*	*RAF*	*RN*	*RAF*
2003	4	n/a	0	n/a	2	n/a	6	n/a
2004	7	n/a	0	n/a	10	n/a	17	n/a
2005	5	n/a	1	n/a	4	n/a	10	n/a
2006	0	2	2	2	2	24	4	28
2007	0	4	1	3	4	7	5	14
2008 (to 12 September 2008	0	6	0	3	3	6	3	15

n/a = Not available.

Note:

This information is based on offences captured either through the individual complying with their obligation to inform their chain of command or via notification by Home Office police.

Only the requested sentence type has been extracted for the aforementioned table. Therefore these figures do not include fines, conditional discharge, disqualification from driving etc.

No records pertaining to the criminal activity of ex-RN or ex-RAF personnel is held.

The Army does not hold centrally the information requested and could provide information on the number of serving personnel who were given custodial sentences or community penalty by civilian courts in England and Wales only at disproportionate cost. No records pertaining to the criminal activity of ex-Army personnel are held.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Minimum Wage

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with the Gangmasters Licensing Authority on enforcement of the minimum wage in the agricultural sector. [224233]

Jonathan Shaw *[holding answer 17 September 2008]:* DEFRA is responsible for enforcing the Agricultural Wages Order (AWO) in England and Wales. The AWO sets minimum wage rates and certain other minimum terms and conditions of employment which apply to workers in agriculture. Compliance with minimum wage legislation is one of the criteria which a labour provider must meet to be issued with a licence by the Gangmasters Licensing Authority (GLA). DEFRA Ministers have regular discussions with the GLA, but there have been no specific discussions about the enforcement of the Agricultural Wages Order.

Agriculture: Subsidies

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs how many single farm payment scheme claims from *(a)* North Yorkshire, *(b)* Yorkshire and the Humber and *(c)* England from 2005 have not been paid in full. [223211]

Jonathan Shaw *[holding answer 10 September 2008]:* There are currently eight cases outstanding from the 2005 Single Payment Scheme who have not been paid in full. These cases awaiting payment are held up on probate/legal grounds. None of the holdings concerned are based in North Yorkshire and Yorkshire and the Humber.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs how many single farm payment scheme claims for each of the last three years have not been paid in full. [223212]

Jonathan Shaw *[holding answer 10 September 2008]:* Current records show that the number of valid single payment scheme claims which have not been paid in full is as follows:

Scheme year	*Number of claims*
2005	8
2006	13
2007	[1]134

[1] In addition there are 100 claims which have been paid manually where a further payment may be necessary.

An on-going exercise at the Rural Payments Agency to verify the calculation of the entitlements allocated to some farmers could result in additional payments being made where appropriate.

Mr. Harper: To ask the Secretary of State for Environment, Food and Rural Affairs what recent estimate he has made of the number of farmers who have received none of the single farm payment they were due since the start of the scheme; and if he will make a statement. [223605]

Jonathan Shaw *[holding answer 15 September 2008]:* The Rural Payments Agency's most recent estimate is that four farmers have received none of the single farm payment they were due since the scheme started. These case are held up on probate/legal grounds.

Mr. Harper: To ask the Secretary of State for Environment, Food and Rural Affairs how much *(a)* fines and *(b)* interest payments for late payments of the single farm payment cost in each of the years that the scheme has been running; and if he will make a statement. [223607]

Jonathan Shaw *[holding answer 15 September 2008]:* The information requested is as follows:

(a) Financial corrections relating to reductions for failure to meet payment deadlines for single payment scheme (SPS) 2005 payments are approximately £58.67 million. No late payment penalties have been incurred for SPS 2006 or SPS 2007.

(b) The current value of interest payments made to claimants who received their full SPS payment after the closing of the regulatory payment window are approximately £2.5 million for the 2005 SPS, £500,000 for the 2006 SPS and £31,000 for the 2007 SPS.

Mr. Harper: To ask the Secretary of State for Environment, Food and Rural Affairs on what occasions computer system failure has resulted in the inability of the Rural Payments Agency to *(a)* access historical records and *(b)* make payments in the last 12 months; and if he will make a statement. [223608]

Jonathan Shaw *[holding answer 15 September 2008]:* The IT systems used by RPA staff to access historical records and/or make payments have been available for use for 99.73 per cent. of the planned hours of service during the last 12 months. The short periods of system downtime amounted to an average of only one hour per month and none of these outages have affected the RPA payment schedules, nor access to historic records or other critical information.

Mr. Harper: To ask the Secretary of State for Environment, Food and Rural Affairs what systems are in place to create and safely store historical records relating to single farm payments. [223609]

Jonathan Shaw *[holding answer 15 September 2008]:* The Rural Payments Agency maintains numerous systems and controls to safeguard customer records throughout their lifecycle. These systems and controls conform with the latest Cabinet Office requirements and with European Union requirements for handling CAP data. They are kept under constant review and regularly audited by the European Union and National Audit Office.

Allotments

Ben Chapman: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the environmental effects which may arise from the maintenance of allotments. [224033]

Jonathan Shaw *[holding answer 17 September 2008]:* Although allotments will always be mainly used for growing food, they have other values that are now

gaining greater recognition. As well as being places for healthy exercise, allotments are also an increasingly important resource for wildlife. Many of the plants and animals that struggle to survive on intensively managed farmland find a refuge on allotment sites. Natural England published the 'Wildlife on allotments' document in 2007.

Animal Welfare: Prosecutions

Mr. Truswell: To ask the Secretary of State for Environment, Food and Rural Affairs how many prosecutions for offences under the Animal Welfare Act 2006 have been brought *(a)* in Leeds and *(b)* in total since the Act came into force, broken down by prosecuting agency. [223526]

Jonathan Shaw: *[holding answer 15 September 2008]:* The Animal Welfare Act came into force on 6 April 2007 in England and 27 March 2007 in Wales. The first published data will be available in the autumn of 2009.

Animals: Diseases

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* sheep and *(b)* cattle were infected by coccidiosis in each of the last five years. [223214]

Jonathan Shaw *[holding answer 10 September 2008]:* Coccidiosis is not a notifiable disease hence reporting of coccidia diagnoses is voluntary. The levels of endemic diseases, such as coccidiosis, in the cattle and sheep population of Great Britain (GB) are monitored through the Veterinary Laboratories Agency's (VLA) Endemic Disease Surveillance Programme. This is performed by analysis of test results from clinical diagnostic samples submitted by veterinary surgeons to the VLA regional laboratories and to the Scottish Agricultural College (SAC) disease surveillance centres for investigation. The figures shown in Table 1 correspond to the number of coccidiosis incidents recorded by the VLA's Veterinary Investigation Diagnosis Analysis (VIDA) database for the years 2003 to 2008. Incidents in this setting are defined as farm holdings reporting a case of coccidiosis, affecting one or more animals, either for the first time or after a four-week period from the last reported incident of coccidiosis diagnosed on that farm. Note therefore that holdings can be recorded as having cases more than once within the same year.

All incidents of coccidiosis in cattle in Great Britain recorded on VIDA. 2003 to August 2008

	2003	2004	2005	2006	2007	2008 (January to August only)
January	37	33	35	19	30	28
February	21	19	20	30	21	31
March	21	31	20	34	37	23
April	22	38	26	26	28	41
May	60	47	55	70	66	65
June	70	80	47	76	52	68
July	60	57	56	48	72	64
August	47	41	52	59	49	51
September	65	52	46	59	53	—
October	68	46	46	47	65	—
November	53	33	43	59	67	—
December	27	36	28	27	33	—
Total	551	513	474	554	573	371

All incidents of coccidiosis in sheep in Great Britain recorded on VIDA. 2003 to August 2008

	2003	2004	2005	2006	2007	2008 (January to August only)
January	7	7	8	9	6	3
February	27	27	14	19	22	5
March	50	67	27	43	26	20
April	34	99	51	97	33	45
May	62	67	64	127	38	51
June	57	36	41	71	31	45
July	17	18	18	14	27	17
August	10	17	11	7	9	5
September	5	5	8	2	3	—
October	4	1	4	5	3	—
November	3	1	3	3	1	—
December	1	1	1	2	0	—
Total	277	346	250	399	199	191

Note:
England and Wales data were last updated on 4 September 2008, Scotland (and therefore GB) data were last updated on 14 August 2008.

These figures show only the incidents diagnosed as a result of veterinarians submitting samples to these Government laboratories and therefore do not provide an unbiased or comprehensive estimate of the occurrence of the condition in GB. Many factors may influence the likelihood of a farmer/his veterinarian submitting a clinical sample for diagnosis: general economic situation within the sheep and cattle industry, awareness of the disease and its perceived importance, other concurrent priorities, the particular clinical presentation of the suspected disease etc.

All these factors need to be taken into account when interpreting the figures. Changes over time of any of these factors will impact on the observed trends, so caution needs to be exercised when comparing annual figures. Furthermore, and within these limitations, figures in Table 1 only represent incidents where clinical disease was present and could be confirmed with the current testing procedures. The figures therefore are likely to represent a fraction of the total number of animals and farm-holdings infected with coccidiosis in GB.

Bovine Tuberculosis: Vaccination

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs when he plans to publish an evaluation of the fieldwork being undertaken as part of the vaccine trials for bovine TB taking place at Aston Down. [224009]

Jonathan Shaw *[holding answer 17 September 2008]:* The badger vaccine study, which is designed to collect data on the safety and efficacy of Bacille Calmette-Guerin (BCG) as an injectable vaccine against bovine TB, is due to be completed by March 2010. The field work

finishes in autumn 2009. An evaluation of the work will be published once the results have been analysed and findings have been peer reviewed.

Carbon Emissions

Sir John Stanley: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the percentage of the contribution to global carbon dioxide emissions from *(a)* power generation, *(b)* deforestation, *(c)* aviation, *(d)* shipping, *(e)* motor vehicles and *(f)* all sources in the UK. [224071]

Mr. Woolas *[holding answer 17 September 2008]:* The Fourth Assessment Report of the Intergovernmental Panel on Climate Change (IPCC) gives a best estimate of around 6 billion tonnes for the annual global carbon dioxide emissions caused by land-use change (which is dominated by deforestation).

Using data from the IEA and the IPCC (including an estimate of the emissions from industrial processes such as cement manufacture), the percentage contributions of the different sectors in 2005 to the global total were as follows:

	Percentage contribution to global total
(a) Power generation	32
(b) Land-use change (chiefly deforestation)	17
(c) Aviation	2
(d) Shipping	2
(e) Road vehicles	13
(f) All sources in the UK	2

Carbon Emissions: Rural Areas

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department has taken to implement the CERT 40 per cent. carbon dioxide emission reduction obligation among rural priority groups in remote areas. [223340]

Joan Ruddock *[holding answer 10 September 2008]:* Rural priority groups in remote areas have the same access to the offers under the carbon emissions reduction target (CERT) as others. With CERT aiming some £1.5 billion energy supplier investment in carbon reduction measures at a priority group of low income and age 70-plus households, we expect to see rural priority group households see significant benefits. CERT also includes measures which deliver specific benefits to rural households. For example, we expect some 90,000 priority group households to benefit from fuel switching, e.g. moving to gas central heating from electric or oil heating. We have also established a 'flexibility' option under CERT, whereby suppliers get a significant uplift in carbon credits for installing more expensive measures, such as solid wall insulation and heat pumps in off gas grid properties. They can utilise this flexibility option for up to 5 per cent. of their 40 per cent. priority group target.

Cattle

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the number of cows born annually in the UK prior to 1996; what estimate he has made of the number of cows which will have been culled by the Government by the end of 2008; and how many of these he expects will not meet the deadline for compensation. [223517]

Jonathan Shaw *[holding answer 15 September 2008]:* Before 1996 detailed data of calves and cattle on UK agriculture holdings were compiled through the MAFF annual agriculture survey, and are available in the form of historical datasets through the Defra statistical website (data for years before 1983 available upon request).

Data supplied by the British Cattle Movement Service (BCMS) and the Rural Payments Agency (RPA) show that there are (as of end of June 2008) 230,757 cattle born before 1 August 1996 still remaining on farm, and it is expected that at least 362,000 cattle will have entered the Older Cattle Disposal Scheme (OCDS) from its inception by its closure on 31 December 2008; the predicted throughput indicates some 85,000 cattle remaining once the OCDS closes.

All animals culled under this scheme, up to 31 December 2008, providing they meet the eligibility criteria, will meet the deadline for compensation.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the number of records relating to cows born in the UK before 1996 that have been lost; and if he will make a statement. [223537]

Jonathan Shaw *[holding answer 15 September 2008]:* There are 207,461 animals registered onto the Cattle Tracing System (CTS) born before 1996. Of these 20,979 are reported lost or at present not traced for reasons such as alleged theft. In addition to these there are 1,039 animals whose final destination is presently unreported.

Departmental Alcoholic Drinks

David Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs what measures are in place in his Department to monitor expenditure on alcohol for hospitality purposes. [219601]

Jonathan Shaw: Hospitality is intended to cover occasions where there is a need to provide hospitality for others. Hospitality may therefore be provided if it is in the public interest only and necessary for the conduct of departmental business to do so. As a general rule, expenditure on alcohol for hospitality purposes is not allowed. The core-Department's catering services provider does not hold a licence to serve alcohol. Were alcohol to be purchased for hospitality purposes it should be acquired through formal purchase order, or through the Government Procurement Card, both of which methods are subject to formal authorisation procedures.

Departmental Appeals

Andrew Mackinlay: To ask the Secretary of State for Environment, Food and Rural Affairs on how many occasions his Department and its predecessor instructed the Treasury Solicitor to seek leave to appeal to the House of Lords from *(a)* the Court of Appeal and *(b)* the House of Lords itself in each of the last 10 years; and on how many occasions the application was rejected. [220816]

Jonathan Shaw: The Department for Environment, Food and Rural Affairs does not maintain a record of cases in which it instructed the Treasury Solicitor to seek leave to appeal to the House of Lords from *(a)* the Court of Appeal, and *(b)* the House of Lords itself in each of the last 10 years. The cost of obtaining this information would be disproportionate.

Departmental Carbon Emissions

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs if he will provide a breakdown by source of the level of carbon dioxide emissions from his Department's *(a)* agencies and *(b)* arm's length bodies in each of the last five years. [223449]

Jonathan Shaw *[holding answer 10 September 2008]:* A breakdown of the Department for Environment Food and Rural Affairs (collation of the core department and its Executive agencies) level of carbon dioxide emissions has been provided through the annual Sustainable Development in Government report, published annually by the Sustainable Development Commission.

The Department does not collect this information for its arms length bodies.

Departmental Conferences

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs if he will list the conferences hosted by his Department in each of the last two years; and what the cost was of each conference. [211690]

Jonathan Shaw: This information is not collated centrally and could be obtained only at disproportionate cost.

Departmental Manpower

Mr. Maude: To ask the Secretary of State for Environment, Food and Rural Affairs how many permanent staff in *(a)* his Department and *(b)* its agencies are classed as (i) staff without posts and (ii) part of a people action team. [215573]

Jonathan Shaw: DEFRA currently has 50 people without jobs within the core Department who are part of a people action team. There are a further 39 staff without jobs in its agencies who are not part of a people action team.

Departmental Marketing

Pete Wishart: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost was of *(a)* internet and website design and hosting, *(b)* print media design and *(c)* broadcast media of each of his Department's public information campaigns since 1997. [214687]

Jonathan Shaw: DEFRA was formed in June 2001 therefore information following has been largely derived from financial year 2001-02 through till 2007-08.

Departmental Official Hospitality

Mr. Philip Hammond: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department spent on entertainment in each of the last five years. [219253]

Jonathan Shaw: The core-Department holds no information centrally on the expenditure category of entertainment.

Departmental Overtime

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs how many hours of overtime were worked by staff in each pay grade in his Department in each of the last 12 months. [221246]

Jonathan Shaw: The following table shows the total number of hours overtime worked in each of the last 12 months, broken down by pay grade. The data cover staff in core-DEFRA and those agencies covered by core-DEFRA pay arrangements (i.e. Animal Health, Marine and Fisheries Agency, Veterinary Medicines Directorate, Government Decontamination Service and Pesticides Safety Directorate (who merged with the Health and Safety Executive on 1 April 2008).

	AA	*AO*	*EO*	*HEO*	*FS*	*SEO*	*VO*	*G7*	*G6*
2007									
September	3,340	6,676	12,019	6,701	185	1,609	6,304	1,430	1,377
October	3,254	6,104	10,502	6,096	167	1,536	6,072	1,315	2,184
November	2,923	5,306	15,175	6,658	35	689	7,339	1,167	1,349
December	1,619	3,656	9,464	4,296	307	1,377	3,935	1,652	809
2008									
January	2,063	2,052	2,409	2,115	90	1,262	787	569	1,109
February	1,432	1,937	3,184	2,375	115	739	1,107	596	249
March	919	1,546	2,734	936	169	524	576	221	168
April	655	1,989	2,848	1,758	75	819	799	792	418
May	420	1,220	2,305	1,672	116	550	434	829	131
June	436	1,307	2,072	1,584	38	300	672	386	186
July	599	2,318	4,278	2,591	97	1,256	1,515	797	382
August	594	1,065	2,319	1,439	71	616	719	1,599	222

Grade equivalent:
AA: Administration Assistant
AO: Administration Officer
EO: Executive Officer
HEO: Higher Executive Officer
FS: Fast Stream
SEO: Senior Executive Officer
VO: Veterinary Officer
G7: Grade 7
G6: Grade 6

The higher levels of hours overtime worked apparent in the period of September 2007 to December 2007 correspond to pressures on the Department in relation to foot and mouth disease and avian influenza. This is especially pronounced in veterinary grades and those grades that would provide administrative and policy support in these areas.

Departmental Pay

Mr. Philip Hammond: To ask the Secretary of State for Environment, Food and Rural Affairs how much was claimed in reimbursable expenses by press officers in his Department and its agencies in each of the last three financial years. [221180]

Jonathan Shaw: The following table sets out how much was claimed in reimbursable expenses by press officers in core DEFRA in each of the last three financial years.

	£
2005-06	11,209.38
2006-07	7,435.06
2007-08	2,839.63

Information for DEFRA's agencies is not held centrally and could be provided only at disproportionate cost.

Departmental Responsibilities

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs which projects his Department has commissioned from *(a)* think tanks and *(b)* charities in each of the last two years for which figures are available; what the aim of each project was; which think tank or charity was commissioned; and how much was paid. [221609]

Jonathan Shaw: This information is not held centrally and could be provided only at disproportionate cost.

Domestic Wastes: Waste Management

Mr. Spellar: To ask the Secretary of State for Environment, Food and Rural Affairs what his policy is on the frequency of bin collections; and if he will make a statement. [224204]

Joan Ruddock *[holding answer 17 September 2008]:* DEFRA does not have a policy on the frequency of bin collections. It is the local authority's duty to collect household waste and to reduce the amount of household waste being sent to landfill. They are best placed to make decisions on how they fulfil their duties, including the frequency of collections.

Environment Agency: Finance

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs how the Environment Agency's planned £17 million savings from the flood risk management budget in 2007-08 break down among spending areas. [224199]

Mr. Woolas *[holding answer 17 September 2008]:* The £16.7 million of savings made by the Environment Agency in 2007-08 on flood risk management as reported in the Annual Report and Accounts in 2007-08 were as follows:

Efficiency gained	*Saving (£ million)*
Manpower and other savings as a result of Implementation of Integrated Flood Risk Management organisational change project	2.4
Procurement and cost avoidance savings through National Capital Programme Management Service	8.2
Improved techniques and technology for asset management programme	2.0
Automisation and centralisation of systems and processes for Flood Warnings Direct project	2.0
Contractual and other savings	2.1
Total	16.7

The savings are efficiency and productivity savings and therefore will not adversely affect delivery.

Environment Protection: Offenders

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs how many fixed penalty notices for environmental offences were issued in each of the last 10 years, broken down by *(a)* type of offence and *(b)* issuing authority. [223560]

Jonathan Shaw *[holding answer 15 September 2008]:* Data on the number of fixed penalty notices issued for environmental offences by, or on behalf of, each local authority in England and Wales are available on the DEFRA website from the reporting year 1997-98 onwards.

Flood Control

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs how many local resilience forums have received information on critical infrastructure at risk or areas at risk of flooding since the summer 2007 floods. [224200]

Mr. Woolas *[holding answer 17 September 2008]:* Following the recommendation in Sir Michael Pitt's interim report of December 2007 into last summer's floods—that Category 1 responders should be urgently provided with a detailed assessment of critical infrastructure in their areas—information has been provided to 35 local resilience forums in England and to the London resilience team on behalf of the six local resilience forums in London. Briefing for the remaining two local resilience forums, due to take place in July, was postponed until later this month because of changes in key personnel.

In addition, since last summer's floods the Environment Agency has met with local resilience forums to discuss the vulnerability of critical infrastructure to flood risk to assist in emergency response planning. This has included providing information on areas susceptible to surface water flooding.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what timetable has been set for the implementation of a national floods exercise. [224202]

Mr. Woolas *[holding answer 17 September 2008]:* Firm dates for the next scheduled national flood exercise have yet to be fixed.

Food

Bob Russell: To ask the Secretary of State for Environment, Food and Rural Affairs if he will bring forward proposals to increase food production through *(a)* agriculture, *(b)* horticulture, *(c)* allotments and *(d)* residential gardens; and if he will make a statement. [224064]

Jonathan Shaw *[holding answer 17 September 2008]:* Promoting a strong domestic farming sector is central to Defra's work, which is why one of its departmental strategic objectives is "a thriving farming and food sector with an improving net environmental impact".

Defra is spending half its research budget on supporting the farming and food sectors. £27.5 million is aimed at resource management in farming and food industries, including energy and water use, and on climate change mitigation and adaptation.

The Government are working with food producers and processors to help prevent animal and plant disease, and with the farming industry to ensure there are enough workers with the right skills through the Skills for Farming project.

The Prime Minister's Strategy Unit's recent study entitled "Food Matters: Towards a Strategy for the 21st century" published in July this year, identified a number of areas requiring further examination by the Government. Defra is taking forward the report's recommendation on the need for a sustainable vision to guide future food policy in conjunction with the Department of Health and the Food Standards Agency.

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the extent to which the UK was

self-sufficient in food production in each year since 1997, broken down by *(a)* type of food and *(b)* indigenous types of food. [224218]

Jonathan Shaw *[holding answer 17 September 2008]:* The UK self-sufficiency ratio for all food and indigenous type food is given in the following table.

	UK self-sufficiency in:	
	All food	*Indigenous-type food*
1997	68	82
1998	67	82
1999	68	82
2000	67	80
2001	63	75
2002	62	76
2003	63	77
2004	62	75
2005	60	73
2006	59	72
2007[1]	61	74

[1] Provisional.

Information on production as a percentage of total supply for selected commodities is given in the following table. These estimates are not directly comparable with the headline measures of self-sufficiency since they are volume rather than unprocessed value based, are not adjusted for feed, seed and livestock and do not include processed food.

UK production as a percentage of total new supply for use in the UK

	Cereals	*Fresh vegetables*	*Potatoes*	*Fresh fruit*	*Beef and veal*	*Pork*	*Bacon and ham*	*Mutton and lamb*	*Poultry meat*	*Eggs*
1997	113	70	91	10	77	118	51	95	96	95
1998	115	71	88	9	83	122	52	98	93	97
1999	109	72	90	12	80	108	52	101	91	95
2000	113	71	87	10	79	99	46	98	89	91
2001	97	67	81	11	72	79	44	78	91	89
2002	99	64	83	9	71	81	43	85	91	87
2003	113	63	82	8	70	71	43	86	91	84
2004	103	62	81	9	70	73	42	85	88	85
2005	103	60	85	10	74	70	44	90	88	86
2006	102	59	88	11	80	68	45	88	87	83
2007[1]	100	58	79	11	82	69	42	82	90	81

[1] Provisional.

Food: Genetically Modified Organisms

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of publicly-procured food exceeded the 0.9 per cent., genetically-modified labelling threshold in each of the last three years. [223451]

Jonathan Shaw *[holding answer 10 September 2008]:* This information is not available and could be collected only at disproportionate cost. In practice, there are no wholly GM foods on sale in the UK, and very few processed food products with GM labelled ingredients.

Greyhounds: Animal Welfare

Mr. Hollobone: To ask the Secretary of State for Environment, Food and Rural Affairs what meetings have taken place between representatives of the greyhound industry and Ministers and officials from his Department to discuss proposed regulations on welfare of greyhounds under the Animal Welfare Act 2006. [224055]

Jonathan Shaw *[holding answer 17 September 2008]:* There have been a number of meetings already between officials and representatives of the greyhound industry, animal welfare organisations and local authorities to discuss proposals for regulations to promote the welfare of racing greyhounds, and further discussions are planned in the future.

Inland Waterways

Charlotte Atkins: To ask the Secretary of State for Environment, Food and Rural Affairs how many vacant moorings British Waterways recorded in *(a)* 2005, *(b)* 2006, *(c) 2007* and *(d)* the first half of 2008. [224021]

Jonathan Shaw *[holding answer 17 September 2008]:* The information is not available in the form requested. The precise number of moorings (residential and non-residential) depends on the lengths of the canals (which can be split into a higher or lower number of berths) and the lengths of the boats which moor alongside the canal. British Waterways estimate that they have around 4,600 moorings of which approximately 7 per cent. will become available for tender by the end of this year's trail.

Charlotte Atkins: To ask the Secretary of State for Environment, Food and Rural Affairs what expenditure his Department incurred on the British Waterways Mooring Trial, including set-up costs and the cost of computer systems, between 1 March 2007 and 31 August 2008. [224022]

Jonathan Shaw *[holding answer 17 September 2008]:* My Department has not incurred any expenditure on the mooring trial which is an operational matter for British Waterways.

Inland Waterways: Fees and Charges

Charlotte Atkins: To ask the Secretary of State for Environment, Food and Rural Affairs what income British Waterways accrued from mooring fees in *(a)* 2005, *(b)* 2006 and *(c)* 2007; and what the projected income from this source is for 2008. [224019]

Jonathan Shaw *[holding answer 17 September 2008]:* The income earned by British Waterways from mooring fees in each year is as follows:

	£000
2005	4,378
2006	4,885
2007	5,196
2008[1]	5,666

[1] Full year forecast income

Charlotte Atkins: To ask the Secretary of State for Environment, Food and Rural Affairs how many boat owners paid mooring fees to British Waterways in (a) 2005, (b) 2006 and (c) 2007; and how many have paid such fees in 2008 to date. [224020]

Jonathan Shaw *[holding answer 17 September 2008]:* The number of boat owners who have paid mooring fees to British Waterways (including short term mooring fees) are:

	Number
2005	7,490
2006	7,837
2007	7,777
2008[1]	6,457

1 To date

Non-Departmental Public Bodies

Mr. Harper: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 1 July 2008, *Official Report*, column 766W, on the Commission for Rural Communities, how much funding each of his Department's *(a)* executive agencies and *(b)* sponsored bodies will receive for the 2009-10 financial year. [223606]

Jonathan Shaw *[holding answer 15 September 2008]:* Budgets for 2009-10 for Defra's delivery bodies are shown as follows:

(a) Executive Agencies: 2009-10 budgets

£ million

	2009-10		
	Prog	Cap	Total
Rural Payments Agency (operational costs only)	182.7	19.5	202.2
Marine and Fisheries Agency	20.5	3.0	23.5
Animal Health	115.5	10.7	127.1
Government Decontamination Service	3.0	—	3.0

Defra's other Executive Agencies: the Central Science Laboratory (CSL), the Veterinary Laboratories Agency (VLA), the Veterinary Medicines Directorate (VMD) and the Centre for Environment, Fisheries and Aquaculture Science (CEFAS) recover their full economic costs through charges made to customers for services provided.

(b) Key sponsored bodies: budgets

£ million

	2009-10		
	Prog	Cap	Total
Environment Agency	473.8	357.5	831.3
Natural England	165.9	6.1	172.0
Carbon Trust	58.7	27.0	85.7
British Waterways	33.8	24.6	58.3
National Parks	51.0	—	51.0
Waste and Resources Action Programme	37.0	3.0	40.0
Energy Savings Trust	39.5	1.0	40.5
Royal Botanical Gardens Kew	17.6	10.9	28.5
Committee for Rural Communities	6.4	—	6.4
ENCAMS	5.0	—	5.0
National Forest Co.	3.6	—	3.6
Joint Nature Conservation Committee	1.9	—	1.9
Gangmasters Licensing Authority	1.5	—	1.5

Oil Palm: Biodiversity

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what funding he has allocated for evaluation of the biodiversity value of areas of rainforest left within oil palm plantations; and if he will make a statement. [223543]

Mr. Woolas *[holding answer 15 September 2008]:* We have not allocated funding specifically for an evaluation of the biodiversity value of areas of rainforest within oil palm plantations. However, biodiversity issues have been covered within broader studies such as the 'Review of Work on the Environmental Sustainability of International Biofuels Production and Use', funded by Defra and published in April this year as well as Defra's September 2007 report on Sustainable Commodities (Defra research project EV02019) which examined the environmental and social impacts of eight commodity groups, including palm oil.

Defra is also contributing towards the Economics of Ecosystems and Biodiversity (TEEB) study which will examine, among other things, the costs of biodiversity loss in the main biomes. This study is due to be published in 2010.

Slaughterhouses

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how many slaughterhouses available to cull cows born before 1996 there will be by the end of 2008; and if he will make a statement. [223518]

Jonathan Shaw *[holding answer 15 September 2008]:* There are currently nine slaughterhouses in the UK licensed and available to handle pre August 1996 cattle: five in England; two in Scotland; one in Wales and in Northern Ireland. In order to manage the seasonal fluctuations in cattle presented under the Older Cattle

Disposal Scheme (OCDS), Government and industry colleagues worked together to provide a booking system, the purpose of which is to be able to predict the demand for the scheme and to match slaughter capacity. At present the abattoir capacity is undersubscribed.

South West Water Authority

Dan Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what *(a)* assets and *(b)* funds are available to the residual South West Water Authority; [224267]

(2) what consideration he has given to winding up the residual South West Water Authority. [224268]

Mr. Woolas: *[holding answer 17 September 2008]:* There are no assets or funds available to the South West Water Authority even though it continues to exist as a public body.

There are no current plans to wind up the residual South West Water Authority. It is to be retained until the Government are satisfied that all residual matters relating to it have been resolved.

Warm Front Scheme

Sir John Stanley: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he is taking to improve the speed of performance, technical competence and overall efficiency of Warm Front and Warm Front contractors; and if he will make a statement. [224070]

Mr. Woolas *[holding answer 17 September 2008]:* DEFRA works very closely with eaga plc regarding the delivery of the scheme to ensure that clients receive an efficient and effective service. In addition, the Department has a contract with independent quality assessors who monitor quality issues and report on a regular basis to the Department.

Janet Anderson: To ask the Secretary of State for Environment, Food and Rural Affairs if he will direct the White Young Green review team and representatives of his Department to meet representatives of J and L National Energy Saver Ltd to discuss the evidence submitted by that company relating to its suspension from the Warm Front 2 scheme and to produce a supplementary report; if he will place in the Library a copy of the White Young Green report on the suspension of J and L National Energy Saver Ltd from the Warm Front 2 scheme; and if he will make a statement. [224261]

Mr. Woolas *[holding answer 17 September 2008]:* Owing to the ongoing legal proceedings, I am unable to comment on J and L National Energy Saver Ltd's suspension from the Warm Front Scheme.

I can confirm that I have no plans to place a copy of the original White Young Green report in the Library, although it is available from DEFRA upon request.

Janet Anderson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the *(a)* effectiveness, *(b)* value for money and *(c)* compliance with open tender requirements of the establishment by Eaga of a co-venture with Ideal Boilers to undertake annual service visits on behalf of Eaga and the Warm Front 2 scheme; and if he will make a statement. [224263]

Mr. Woolas *[holding answer 17 September 2008]:* As part of the open, audited and fully competitive tendering process for Warm Front, DEFRA ensured that the management of the scheme, including provision of aftercare services, provided value for money and complied with tender requirements.

All aspects of management of the Scheme, including provision of aftercare services, is subject to regular audits by DEFRA's independent quality assessors to ensure it is providing an effective service.

Janet Anderson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the *(a)* effectiveness and *(b)* accordance with the principles of natural justice of the procedures for terminating contracts of Warm Front 2 scheme sub-contractors; what the procedures are; and what notice is required to be given. [224264]

Mr. Woolas *[holding answer 17 September 2008]:* The terms of termination are defined in the contract between eaga plc and Warm Front contracted installers, which are agreed prior to their acceptance to work on the scheme.

These terms are a private agreement between eaga plc and potential Warm Front sub-contractors.

Janet Anderson: To ask the Secretary of State for Environment, Food and Rural Affairs what procedures were followed by *(a)* his Department, *(b)* White Young Green and *(c)* Eaga in (i) the suspension of J and L National Energy Saver Ltd from the Warm Front 2 scheme and (ii) the investigation and review of that suspension, with particular reference to consideration of representations from that company; what the reasons were for that suspension; and if he will make a statement. [224265]

Mr. Woolas *[holding answer 17 September 2008]:* DEFRA has looked into the dispute between eaga plc and J and L heating, both in terms of the reasons for the action taken and the procedures followed by the scheme manager, eaga plc. This report has been provided to J and L National Energy Saver Ltd and is available from DEFRA upon request.

DEFRA commissioned a further review, in light of additional information provided by the company. However, it was found that this information did not alter the conclusions of the original report.

Waste Disposal: Fees and Charges

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs further to his Department's press release of 2 June 2008, on recycling in public places, whether waste collection authorities may issue fines to members of the public who place the wrong sort of rubbish into a public *(a)* residual waste or *(b)* recycling bin. [217818]

Joan Ruddock: Certain offences exist on incorrect disposal of rubbish for which a fine can be issued, either in the form of a fixed penalty notice or a fine imposed by the Courts. Examples of offences include incorrect disposal of household, commercial or industrial waste, fly tipping and littering. Deliberate disposal of rubbish in the wrong place could constitute an offence, depending on the circumstances of the case.

Recycle on the Go, which was launched on 2 June 2008, does not introduce any new offences relating to litter bins nor recycle bins. Instead, it saw the publication of a Voluntary Code of Practice and guidance to make it easier for people to recycle when out and about, for example through the use of consistent signage so that people know what they can recycle, wherever they might be.

TRANSPORT

Departmental Consultants

Norman Baker: To ask the Secretary of State for Transport how much her Department has spent on consultancy fees in each year since the Department was created. [224069]

Jim Fitzpatrick *[holding answer 17 September 2008]:* Total expenditure by the Department on consultants in each financial year since it was formed in May 2002 is shown in the following table:

	£ million
2002-03	227.5
2003-04	239.5
2004-05	193.3
2005-06	72.1
2006-07	82.9
2007-08	80.3

These figures are calculated in accordance with Office of Government Commerce guidance.

Departmental ICT

Mr. Philip Hammond: To ask the Secretary of State for Transport what information technology projects initiated by her Department and its predecessors have been cancelled prior to completion in the last five years; and what the cost of each such project was to the public purse. [221749]

Jim Fitzpatrick: The Department for Transport does not hold centrally collected records on all IT projects carried out by the central department and its seven executive agencies. Available information shows that the following four IT projects were cancelled during the last five years.

In general such projects are cancelled if it becomes clear that the costs of completing the project are not justified by the benefits to be obtained. For example, in relation to the DVLA Tracking vehicles through the trade project, IT developments in the vehicle trade presented a lower cost solution. This is now being explored by DVLA, informed by the specification that was developed during the original project.

Highways Agency: CEO and Correspondence Unit Document Management System. Cost at cancellation: £227,574.

DFT (central): Electronic Documents and Records Management System. Cost at cancellation: £853,899.

DVLA: Tracking Vehicles Through the Trade. Cost at cancellation: £7,867,000.

DVLA: Electronic Licensing for Fleets. Cost at cancellation: £270,000.

Departmental Travel

Stephen Hammond: To ask the Secretary of State for Transport pursuant to the answer of 17 July 2008, *Official Report*, column 612W, on departmental travel, if she will place in the Library the figures for staff travel costs for her central Department. [224002]

Jim Fitzpatrick *[holding answer 17 September 2008]:* The travel expenditure for the central Department for financial year 2007-08 is £3,509,114.44.

East Coast Railway Line

Mr. Sheerman: To ask the Secretary of State for Transport when she next plans to meet the management of National Express to discuss the punctuality of East Coast Main Line rail services. [217277]

Mr. Tom Harris: Under the Franchise Agreement a franchise performance meeting must be held once in each reporting period (every four weeks). At the next meeting with National Express, the parties present will review the financial, operational and contractual performance of the franchisee.

Mr. Sheerman: To ask the Secretary of State for Transport if she will meet a delegation of passengers to discuss the provision of rail services on the East Coast Main Line. [217279]

Mr. Tom Harris: Yes. My hon. Friend should make appropriate arrangements through my private office.

Roads: Repairs and Maintenance

Mr. Grogan: To ask the Secretary of State for Transport with reference to the answers of 12 July 2007, *Official Report*, columns 1579-80W, on A69, Greenhead, if she will publish the letter dated 1 December 1982 sent by her Department to the Northumberland county council headed notes for the guidance of engineers employed in connection with trunk road schemes, together with all the said guidance notes. [223126]

Mr. Tom Harris *[holding answer 10 September 2008]:* I refer my hon. Friend to the answer of 26 November 2007, *Official Report*, column 23W, on Roads: Construction. The guidance notes that were placed in the Libraries of the House in November 2007 were incomplete, but they were all that could be found on file within the Highways Agency and the Treasury Solicitor's Department at that time. The cost of searching for the missing guidance notes now would be disproportionate.

Tamworth to London Euston Railway Line

Mr. Jenkins: To ask the Secretary of State for Transport if she will take steps to facilitate an increase in the number of trains travelling between Tamworth and London Euston, with particular regard to direct trains without intermediary stops. [215774]

Mr. Tom Harris: The service planned by London Midland (LM) and Virgin West Coast (VWC) to operate from 14 December 2008 complies with the Department for Transport's specification for services on this route.

From this date, London Midland will provide an hourly service between Tamworth and London Euston, which will be a significant improvement on the existing sporadic frequency. These trains will not run non-stop to Euston as they will also form an integral part of the London service from Nuneaton, Rugby and Northampton.

Virgin West Coast will be providing some limited-stop trains between Tamworth and Euston (two up in the morning and four back in the evening) to serve the commuting peaks.

FOREIGN AND COMMONWEALTH OFFICE

China: Earthquakes

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Chinese government on ensuring the Tibetan areas affected by the recent earthquake whose epicentre was on the border of the Tibetan Ngaba Autonomous Prefecture are accessible to overseas aid agencies and that all Tibetan victims are receiving the necessary treatment and support. [220372]

Mr. Malik: I have been asked to reply.

The worst affected areas have a population which is 54 per cent. Tibetan. The UK assistance and the Chinese response generally has covered all the victims of the earthquake, including the Tibetan and Qiang communities.

We have been in close contact with the Chinese authorities since the earthquake. They have been dealing very competently with all the victims. The UK provided funds for the immediate relief effort. On 16 May, three days after the earthquake struck, we provided £1 million to the Chinese Association for NGO co-operation. The money was used to buy food, water, blankets and 2,400 tents. Between 22 and 30 May, four flights arrived in Chengdu from Dubai carrying a further 5,332 tents. The total value of the tents, including transport costs, was £1.2 million. On 18 June, we agreed a contribution of £350,000 to the International Labour Organisation for training to help survivors of the earthquake re-launch or start their own businesses for the first time. The programme aims to re-establish 1000 businesses and start 700 new ones in the next year. The Department for International Development (DFID) total contribution to date is therefore £2.55 million.

We have also established a facility to provide technical assistance for the reconstruction effort. It will have an initial ceiling of £1 million. The main focus will be on areas where we already have a comparative advantage, such as health, education, water and sanitation, participatory, socially inclusive planning and community based poverty reduction in remote villages.

Members: Correspondence

Sir John Stanley: To ask the Secretary of State for Foreign and Commonwealth Affairs when he plans to reply to the letters dated 2 July and 3 September from the hon. Member for Tonbridge and Malling regarding Mr. and Mrs. Peter Kelly. [224004]

David Miliband *[holding answer 17 September 2008]:* The letters of 2 July 2008 and 2 September 2008 were forwarded to the UK Border Agency (UKBA) on 8 July 2008 and 4 September 2008 respectively. UKBA will be replying to the hon. Member for Tonbridge and Malling (Sir John Stanley).

Ukraine: NATO

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his NATO counterparts on the progress of Ukraine's Membership Action Plan to join the Alliance; and if he will make a statement. [223653]

Mr. Jim Murphy *[holding answer 15 September 2008]:* At present Ukraine does not have a Membership Action Plan with the North Atlantic Treaty Organisation (NATO), but a process of Intensified Dialogue is under way on Ukraine's membership aspirations and related reforms.

The UK supports Ukraine's desire for NATO membership. At the Bucharest NATO Summit in April, all allies agreed that Ukraine and Georgia will become members of the Alliance. NATO Foreign Ministers reaffirmed the Bucharest commitment in their statement of 19 August and my right hon. Friend the Foreign Secretary reiterated the UK position in Kiev on 27 August. The UK remains in close contact with allies to discuss the implementation of the Bucharest commitment. The NATO Foreign Ministers' meeting in December will provide the first review of the progress Ukraine has made on its path to membership.

In the meantime, the NATO-Ukraine Commission will continue to help strengthen NATO's relationship with Ukraine and assist in their progress towards membership. The Commission last met on 27 August and allies reiterated once more their support for Ukraine's Euro-Atlantic aspirations.

UN Convention on Elimination of all Forms of Discrimination against Women

Lynne Featherstone: To ask the Secretary of State for Foreign and Commonwealth Affairs what his most recent assessment is of the UK's compliance with the Convention on the Elimination of All Forms of Discrimination against Women; and if he will make a statement. [204964]

Barbara Follett: I have been asked to reply

The UK signed the United Nations Convention on the Elimination of all Forms of Discrimination Against Women (CEDAW) in 1981 and ratified it in 1986. In accordance with Article 18 of the Convention, the UK undertakes to submit reports every four years on measures adopted to implement the Convention to the United Nations Committee on the Elimination of Discrimination Against Women.

In May 2007, the UK submitted its sixth periodic report to the UN, which summarises the main legislative, judicial and administrative measures undertaken by the Government since 2003. Countries are called to account on their performance on the Convention and the UK is being examined by the United Nations Committee on its five and six Periodic Reports on 10 July 2008.

The UK's decision to accede to the CEDAW Optional Protocol enables women in the UK, or their representatives, to appeal to the Committee if they believe there has been an infringement of the Convention. There have been two communications in respect of the United Kingdom to date. Both have been inadmissible.

CULTURE, MEDIA AND SPORT

Alcoholic Drinks: Licensing

Bob Russell: To ask the Secretary of State for Culture, Media and Sport if he will bring forward amendments to the Licensing Act 2003 to *(a)* limit the number of licensed premises to which any one person can be appointed as the designated premises supervisor and *(b)* ensure that there must always be at least one personal licence holder present at each licensed premises when sales of alcohol take place; and if he will make a statement. [224063]

Andy Burnham: We have no plans to amend the Act in this manner. Local licensing authorities are already able to attach conditions to individual premises licences in support of the four main licensing objectives. Such conditions can relate to appropriate levels of supervision at individual premises, and it is entirely correct that such decisions are taken at local level, flexibly responding to local licensing needs.

Arts Council: ICT

Mr. Vaizey: To ask the Secretary of State for Culture, Media and Sport (1) what the cost to date of the Arts Council's Arena IT system has been; [223310]

(2) what the tender process was for the procurement of the Arts Council's Arena IT system; [223311]

(3) what consultants were engaged by the Arts Council for the procurement of the Arena IT system; [223312]

(4) what the support costs for the Arts Council's Arena IT system are expected to be in 2008-09; [223313]

(5) who owns the intellectual property rights for the Arts Council's Arena IT system. [223314]

Andy Burnham: This is an operational matter for Arts Council England. I have asked the chief executive to reply direct to the hon. Member, and copies of the response will be placed in the Libraries of the House.

Culture: Olympic Games 2012

Harry Cohen: To ask the Secretary of State for Culture, Media and Sport what funds his Department and its agencies *(a)* have allocated and *(b)* plan to allocate to the Cultural Olympiad; and from what source such funds will be drawn. [223996]

Andy Burnham: DCMS's contribution to the Cultural Olympiad comes via its non-departmental public bodies according to the arm's length principle.

DCMS itself contributes £400,000 to support a network of Creative Programmers to take forward plans for the Cultural Olympiad in the eight English regions. This funding has been drawn from DCMS internal budgets. Future funding decisions will be made at a later date.

The Royal Parks Agency has not allocated any funds to the Cultural Olympiad and future funding is yet to be determined.

Film: Finance

Mr. Sanders: To ask the Secretary of State for Culture, Media and Sport what film production supported by public *(a)* funding and *(b)* other assistance took place in the South West of England in each of the last five years. [224059]

Andy Burnham: The information requested could be provided only at disproportionate cost.

However, South West Screen gave non-funding assistance to 448 productions (including feature films, short films, television and commercials) between 2003 and 2005. This excludes Bristol and Bath.

In addition, South West Screen have put the following funding into mainly short films in the last five years.

£

Public funding in SW	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
Lottery funding for film production in SW			88,227		
Digital Shorts	68,800	53,050	60,000	59,500	64,500
Digital Shorts plus	—	—	20,000	20,000	10,000
Other public sector funding in film production			335,921		

These figures do not include funding for feature films from the UKFC lottery funds as this information is available only at disproportionate cost.

Lacrosse

Mr. Brady: To ask the Secretary of State for Culture, Media and Sport what public funding *(a)* his Department and *(b)* bodies for which his Department is responsible is providing for teams representing (A) England, (B) Scotland, (C) Wales and (D) Northern Ireland at lacrosse in 2008-09. [224042]

Andy Burnham: Funding for sport in Scotland, Wales and Northern Ireland is a devolved matter.

DCMS does not fund individual sports directly. Exchequer funding for sport in England is distributed by Sport England who have advised that the English Lacrosse Association (ELA) has received over £1.6 million. Of this, £1.26 million is to support the delivery of the lacrosse Whole Sport Plan during 2005 to 2009. The ELA has utilised some of this funding to support its England teams.

Awards to the ELA for 2008-09 are:

Sport England core funding £316,667

This funding is used by the ELA to support delivery of its Whole Sport Plan for 2005 to 2009. Club Links award: £10,000—this award supports delivery of the Club Links work strand of the PE and School Sport for Young People programme.

Step into Sport: £15,000

This award supports delivery of the Step into Sport work strand of the PE and School Sport for Young People programme.

Club and Coach funding

The ELA is also in receipt of an award for £357,000 over three years 2007 to 2010. Payments to ELA in the current financial year will be subject to the submission of claims and satisfactory delivery of award outcomes. The award supports the creation of a talent development programme in Lacrosse at the grass roots level.

Sport England

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport (1) what assessment *(a)* his Department and *(b)* Sport England has made of the performance of the 12 trailblazer projects that piloted Sport England's £36 million Sport Unlimited programme; and if he will publish those assessments; [224050]

(2) how many children were offered five hours of quality sport a week in each of the 12 trailblazer projects that piloted Sport England's £36 million Sport Unlimited programme. [224051]

Andy Burnham: DCMS has not made a formal assessment of the 12 trailblazer projects.

However, Sport England has advised that it is currently collating a full report on the delivery of sport unlimited activities by the trailblazers during the summer term 2008. This will be published on the Sport England website in October 2008.

Early highlights include:

Almost 10,000 children took part in activities organised by the 12 Trailblazer County Sport Partnerships in term 1. Of these, 6,747 met the 'retain' target of attending at least 60 per cent. of sessions.

The average retention rate across all the Trailblazer CSPs was 69 per cent.

Sports: Children

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much it will cost to provide coaching and competition in sport for all school children by 2012. [224048]

Andy Burnham: Funding for the PE and Sport Strategy for Young People (PESSYP) will total more than £783 million over the next three years. This will bring Government and lottery investment in young people's PE and sport since 2003 to £2.4 billion by 2011.

Coaching and competition in sport is central to our ambitions to offer all 5 to 16- year-olds two hours of high quality PE and sport a week at school, and all 5 to 19-year-olds an additional three hours of sport outside the curriculum. Through the PESSYP we will increase the quality and quantity of coaches available to work with young people both inside and beyond school hours. We will also create a world-class system for competitive sport, supported by a new network of 225 competition managers in England.

Swimming

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport which local authorities have expressed their intention to take part in his Department's scheme for free swimming for *(a)* over 60 and *(b)* under 16 year olds. [224049]

Andy Burnham: A full list of participating authorities will be available on the DCMS website (www.culture.gov.uk) in due course.

DEFENCE

Afghanistan: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence pursuant to the answer of 22 July 2008, *Official Report*, column 1052W, on Afghanistan: peacekeeping operations, (1) what the details were of each confirmed report of theft; [224126]

(2) how many cases of theft are being investigated; and on what date each investigation began. [224127]

Mr. Bob Ainsworth *[holding answer 17 September 2008]:* I will write to the hon. Member with the information requested.

Dr. Fox: To ask the Secretary of State for Defence if he will list the *(a)* operational control, *(b)* administrative control, *(c)* technical control, *(d)* tactical control and *(e)* other command relationships between British armed forces and non-British armed forces operating in (i) Iraq and (ii) Afghanistan broken down by unit to the lowest level for which information is available; and what the nationality of each such unit is in each case. [224129]

Des Browne *[holding answer 17 September 2008]:* In Iraq, the UK has tactical control of a number of US force elements in the MND(SE) area of operations. These include: 21 Military Police Company; a Military Transition Team embedded with 26 Brigade of the Iraqi Army; a Transition Team embedded with an Iraqi National Police Battalion; a Civil Military Operations Cell; an Explosive Ordnance Detachment; and a Biometrics Team.

A number of other US elements, including the Coalition Air Force Training Team and the 14th US Engineer Battalion, operate within MND(SE). The UK works to co-ordinate effort and influence with these organisations but there is no requirement for a formal command relationship.

There are no formal command relationships between the Iraqi armed forces and UK armed forces although their activities are very closely co-ordinated, primarily through key leader engagement at the senior military level and by the UK's embedded military transition teams.

Other non-UK units may, on occasion, temporarily deploy into the MND(SE) area of operations for specific missions. The precise command relationship with these units will vary depending on the nature of their operational tasking.

In Afghanistan the UK has operational control of a Danish battle group and an Estonian company operating in Helmand.

The Afghan National Army (ANA) currently deploys five units of battalion size or greater in Helmand province. Their operations are closely coordinated with ISAF operations, including through the use of Operational Mentoring, Liaison and Training Teams, although there is no formal command relationship between ISAF and ANA units.

As in Iraq, other non-UK units may, on occasion, temporarily deploy into Helmand province for specific missions: the precise command relationships with these units will vary dependent on the precise nature of their operational tasking.

Armed Forces: Deployment

Nick Harvey: To ask the Secretary of State for Defence on what operations British forces have been deployed in each year since 1997; and what the scale of each operation was according to the terms set out in the defence planning assumptions. [218448]

Des Browne: There have been over 100 deployments by UK forces since 1997. These vary in size, for example the current support to the UN Mission in Sudan with only two people up to the deployment of a whole division to Iraq in 2003.

Defence planners use the terms large, medium and small to distinguish the scale of putative or generic operations. These are the building blocks which guide the size and shape of our armed forces, rather than a blueprint for actual operations. Force packages will ultimately be determined by the requirements of each operation.

Nonetheless, in very general terms, of our major recent operations, the size of our commitments in Afghanistan and Iraq both roughly align to the planning assumptions for a medium scale operation with our commitment in the Balkans more closely representing a small scale commitment since the withdrawal of the majority of UK troops from Bosnia in March 2007. The deployment of a division to Iraq in 2003 could be categorised a large scale operation.

The level of concurrent operations sustained by the MOD and the armed forces since 2001 is detailed in Figure 4, Page 44 of the Ministry of Defence's Annual Report and Accounts 2007-2008 Volume I: Annual Performance Report and illustrates our relative commitment to each operation over the last seven years. This can be found at:

http://www.mod.uk/DefenceInternet/AboutDefence/CorporatePublications/AnnualReports/MODAnnualReports0708/

Armed Forces: Food

Mr. Crausby: To ask the Secretary of State for Defence what assessment he has made of the effectiveness of the pay as you dine scheme. [223380]

Derek Twigg *[holding answer 10 September 2008]:* Pay as You Dine was introduced in response to a strong belief, particularly amongst Junior Ranks, that the previous system, which raised monthly food charges irrespective of how many meals were taken, should be replaced with a more flexible scheme that offered longer opening hours and only charged for meals or other services consumed. Pay as You Dine is still being rolled out across all three Services and where it has been introduced, the single Services are monitoring the delivery of the scheme with the contractor. While feedback from Service personnel has been gathered through the various Continuous Attitude Surveys, implementation across the Services is ongoing and it is too early to make an overall assessment of the effectiveness of the Pay as You Dine scheme.

Mr. Crausby: To ask the Secretary of State for Defence how many service personnel have registered for the Hungry Soldier scheme. [223495]

Derek Twigg *[holding answer 15 September 2008]:* Pay as You Dine was introduced in response to a strong belief, particularly amongst Junior Ranks, that the previous system, which raised monthly food charges irrespective of how many meals were taken, should be replaced with a more flexible scheme that offered longer opening hours and only charged for meals or other services consumed.

There is no "Hungry Soldier" scheme, but an administrative procedure within units that recognises that some individuals, on occasions, are unable to manage their budgets effectively. Our policy for dealing with this is to place such individuals on the "Food Charge" and to provide the standard "core" meals until they are able to resolve their financial difficulties. The cost of these meals is then deducted from the following month's pay.

Armed Forces: Housing

Dr. Fox: To ask the Secretary of State for Defence what the target number of *(a)* single living accommodation and *(b)* service family accommodation in the UK to be upgraded to each standard of condition grade in 2007-08 was; and how many of each were upgraded to each standard of condition category in that year. [199471]

Derek Twigg: The Department only has targets to upgrade Service Family Accommodation (SFA) and Single Living Accommodation (SLA) to the highest standard.

Against a target of a minimum of 600 SFA properties, a total of 637 were upgraded to the top standard in Financial Year 2007-08.

Against a target of 7,650 in 2007-08, we have delivered some 6,816 SLA bed-spaces to the top standard. However, since 2003-04, the Department has upgraded some 26,707 bed-spaces against a target of some 25,705.

Willie Rennie: To ask the Secretary of State for Defence what steps his Department is taking to assist armed services personnel to meet housing costs; and if he will make a statement. [223182]

Derek Twigg *[holding answer 10 September 2008]:* It is a condition of service that Regular Service personnel are provided with accommodation. The charges for this accommodation are set by the independent Armed Forces Pay Review Body, with a discount that reflects the

disadvantages of living in such accommodation e.g. lack of choice and lack of security of tenure on leaving the armed forces. These charges are deliberately set lower than those readily available in the private sector.

The Ministry of Defence (MOD) encourages service personnel to prepare for their return to civilian life during their careers by purchasing their own homes. To help in this area, a Long Service Advance of Pay (LSAP) is available which currently consists of an interest-free loan of up to £8,500.

In July 2008 MOD published 'The Nation's Commitment: Cross-Government Support to our Armed Forces, their Families and Veterans' (Command Paper Cm 7424). Paragraph 2.13 in particular explains more about the Prime Minister's announcement on 19 March 2008 about plans to launch a new initiative on home ownership for service personnel, which will be a pilot scheme tailored to their particular needs.

Army: Manpower

Bob Russell: To ask the Secretary of State for Defence what the *(a)* authorised establishment and *(b)* number of vacancies of each (i) battalion and (ii) other definition of army unit is; and what the comparative figures were on the same date in each of the calendar years (i) 2005, (ii) 2006 and (iii) 2007. [223466]

Mr. Bob Ainsworth *[holding answer 15 November 2008]:* The figures requested are shown as follows. The data are shown by cap badge since this information is not collated at battalion level.

	Liability	*Deficit (-)/ Surplus(+)*

[1] The explanation for a 'Not Known' category appearing in 2008 is that a very few personnel have not yet been categorised by the Joint Personnel Administration system.

China: Armed Forces

Mr. Wallace: To ask the Secretary of State for Defence what discussions he has had with EU counterparts on the military training of Chinese nationals within EU member states. [224109]

Mr. Bob Ainsworth *[holding answer 17 September 2008]:* My right hon. Friend the Secretary of State for Defence has had no discussions with his EU counterparts on the military training of Chinese nationals within EU member states.

Departmental Furniture

Mr. Hoban: To ask the Secretary of State for Defence how many *(a)* chairs, *(b)* desks and *(c)* other office furnishings have been purchased by his Department and its agencies in each of the last five years; and at what cost in each case. [211769]

Derek Twigg: The information requested is as follows:

	2003		2004		2005		2006		2007	
	Quantity	Cost £ million	Quantity	Cost £ million	Quantity	Cost £ million	Quantity	Cost £ million	Quantity	Cost £ million
Chairs	29,247	2.340	40,602	3.248	36,520	2.922	29,982	2.398	26,667	2.133
Desks	10,900	2.834	21,414	5.568	10,108	2.628	10,940	2.844	9,379	2.439
Other office furniture	78,575	4.715	86,483	5.189	67,733	4.064	59,216	3.553	52,721	3.163

These figures include furniture provided for major barracks and Single Living Accommodation investment programmes, but exclude PFI/PPP projects where the furniture is supplied by the Industrial Partner and forms a part of the overall project costs.

Departmental Sick Leave

David Simpson: To ask the Secretary of State for Defence how many and what percentage of staff in his Department have had more than two periods of sickness absence of less than five days in each of the last three years. [218691]

Derek Twigg: The following table shows how many and what percentage of civilian MOD staff have had more than two periods of sickness absence of less than five days for the 12 months ending 31 December 2005,2006, 2007 and 31 March 2008.

Information prior to calendar year 2005 is compiled on a previous definition for monitoring sickness absence which is not consistent with figures for calendar year 2005 onwards.

The number and percentage of civilian personnel with more than two periods of sickness absence of less than five days in each of the last three years.

	Non Industrial	(%)	Industrial	(%)	Total	(%)
1 January to 31 December 2005	11,660	18.2	2,310	15.6	13,970	17.7
1 January to 31 December 2006	10,840	17.9	2,330	16.4	13,170	17.6
1 January to 31 December 2007	10,310	18.0	1,940	14.8	12,250	17.4
1 April 2007 to 31 March 2008	10,050	17.8	1,880	14.7	11,920	17.2

Notes:

1. Data exclude staff in Trading Funds, the Royal Fleet Auxiliary, and Locally Engaged Civilians for whom sickness absence data are not readily available.
2. Data presented reflect the current Cabinet Office definition, and excludes absence days that occurred on weekends, annual leave and bank holidays.
3. Totals have been rounded to the nearest 10, totals and sub totals have been rounded separately and so may not equal the sums of their rounded parts.

MOD is committed to reducing sickness absence. Employees included in the table may only have accumulated three working days absence so the figures may appear artificially high. MOD offers guidance and training to line managers on managing absence. It actively encourages the use of Return to Work Interviews and has trigger points in place for the commencement of formal management action.

EU Battlegroups

Dr. Fox: To ask the Secretary of State for Defence whether the EU Battlegroup roster continues up to 2015. [224128]

Des Browne *[holding answer 17 September 2008]:* Offers have currently been made to fill six-monthly slots on the EU Battlegroup roster until 2013, although there are a number of gaps from 2010 onwards.

Trident Missiles

Mr. Hancock: To ask the Secretary of State for Defence how many Trident warheads were operationally available at the latest date for which figures are available; and when that number fell below 160. [224230]

Des Browne *[holding answer 17 September 2008]:* The UK has fewer than 160 operationally available Trident warheads. I refer the hon. Member to the answer I gave on 15 November 2007, *Official Report*, column 366W. I am withholding further information as its release would, or would be likely to, prejudice national security.

Ministerial Correction

Tuesday 15 July 2008

HEALTH

NHS

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many *(a)* hospitals and *(b)* NHS organisations Ministers in his Department have visited since taking up their posts. [185561]

[Official Report, 25 February 2008, Vol. 472, c. 1209W.]

Letter of correction from Ben Bradshaw:

Some errors have been identified in the written answer given to the hon. Member for Eddisbury (Mr. O'Brien) on 25 February 2008. With the exception of the figures given for Dawn Primarolo, some of the other figures given for Ministers' visits were incorrect and the figures should have read as follows:

Mr. Bradshaw: The information is as follows:

Minister	*Hospitals*	*NHS organisations*
Secretary of State for Health (Alan Johnson)[1]	24	12
Minister of State for Health Services (Ben Bradshaw)[1]	14	16
Minister of State for Public Health (Dawn Primarolo)[1]	0	9
Parliamentary Under-Secretary of State for Health Services (Ann Keen)[1]	10	7
Parliamentary Under-Secretary of State for Care Services (Ivan Lewis)[2]	12	3
Parliamentary Under Secretary of State (Lord Darzi)[1]	13	12

[1] Between taking up post in June 2007 and February 2008
[2] Between taking up post in June 2006 and February 2008

Ministerial Corrections

Monday 21 July 2008

HEALTH

X Rays: Maladministration

Dr. Kumar: To ask the Secretary of State for Health what estimate his Department has made of the number of people who have been mistakenly sent for x-rays or CT scans in each English region in each of the last five years. [195563]

[Official Report, 3 April 2008, Vol. 474, c. 1309-10W.]

Letter of correction from Dawn Primarolo:

An error has been identified in the written answer given to the hon. Member for Middlesbrough, South and East Cleveland (Dr. Kumar) on 3 April 2008. The second table did not divide Data between East Midlands and West Midlands SHAs; all other figures and the totals are correct.

The correct table is as follows:

Breakdown by SHA area of diagnostic patient ID error

SHA	*Diagnostic Patient ID Error*
Independent Healthcare	1
East Midlands Strategic Health Authority	15
East of England Strategic Health Authority	8
London Strategic Health Authority	12
North East Strategic Health Authority	4
North West Strategic Health Authority	8
South Central Strategic Health Authority	9
South East Coast Strategic Health Authority	11
South West Strategic Health Authority	8
West Midlands Strategic Health Authority	15
Yorkshire and the Humber Strategic Health Authority	14
Total	105

Breakdown by SHA area of diagnostic patient ID error

SHA	*Diagnostic Patient ID Error*
Total	105

INTERNATIONAL DEVELOPMENT

Zimbabwe

4. **James Duddridge** (Rochford and Southend, East) (Con): What recent assessment he has made of the humanitarian situation in Zimbabwe; and if he will make a statement. [218947]

5. **Sir Nicholas Winterton** (Macclesfield) (Con): What recent assessment he has made of the humanitarian situation in Zimbabwe; and if he will make a statement. [218948]

[Official Report, 16 July 2008, Vol. 479, c. 237-39.]

Letter of correction from Gillian Merron:

An error has been identified in the oral response given to the hon. Member for Sutton Coldfield (Mr. Mitchell) on 16 July 2008. This was in response to DFID questions 4 and 5. The full answer given was as follows:

Mr. Andrew Mitchell (Sutton Coldfield) (Con): Will the Government consider the possibility of publishing details of the specific support that Britain will provide for Zimbabwe once the criminal and illegitimate Mugabe regime is over? Would not that set a good example to other prospective donor nations and encourage the surrounding countries to look to the future while offering some hope to the long-suffering people of Zimbabwe for an end to their nightmare?

Gillian Merron: Our job is to get help to the poorest people in Zimbabwe to see them through this extremely difficult time. As part of that, we are using sanctions to bring people to the table, but in terms of recovery, as I said earlier, we need to work with a reforming Government. That will include full humanitarian access, the rule of law, human rights and democracy. The principles for re-engagement will be agreed by donors, and we estimate that, when it comes to it, there will be about £1 billion a year for five years. The UK stands ready to play its role, but will work with its international partners to do so.

The figure provided by the Minister for the estimated costs of recovery should have been US$1 billion and not £1 billion as stated. This appears in the second to last sentence of the Minister's response.

Ministerial Corrections

Tuesday 22 July 2008

TRANSPORT

Departmental Public Participation

Mrs. May: To ask the Secretary of State for Transport pursuant to the Answer of 8 May 2008, *Official Report*, columns 1062-6W, on departmental public participation, how much each *(a)* survey and *(b)* piece of qualitative research cost; and how many participants there were in each. [206030]

[Official Report, 10 June 2008, Vol. 477, c. 157-162W.]

Letter of correction from Jim Fitzpatrick:

An error has been identified in a written answer given to the right hon. Member for Maidenhead (Mrs. May) on 10 June 2008 on Public Participation.

In my answer there is an omission in the number of participants for the Simpson Carpenter research.

Table B: Ad-hoc surveys 2007-08

Division/ Agency	*Survey/opinion poll*	*(i) Firm*	*Cost (£)*	*Number of participants*
DfT	Commercial customers' channel choice	Simpson Carpenter	55,000	*

In the table above the number of participants for the DfT research into Commercial Customers' Channel Choice carried out by Simpson Carpenter should have been included as 600.

JUSTICE

Drugs (Prisons)

5. **Chris Mole** (Ipswich) (Lab): What steps he is taking to reduce the availability of drugs in prisons; and if he will make a statement. [218562]

[Official Report, 15 July 2008, Vol. 479, c. 122-124.]

Letter of correction from Jack Straw:

In my response to the hon. Member for Ipswich (Chris Mole) during Justice Questions on 15 July 2008 I said:

'There are now 141 intensive drug treatment programmes in 99 prisons.'

It has since come to my attention that this is incorrect. There are currently 114 intensive drug treatment programmes in 99 prisons.

Ministerial Correction

Monday 1 September 2008

JUSTICE

Prisoners Release

Mr. Garnier: To ask the Secretary of State for Justice how many prisoners who were released under the End of Custody Licence on 29 June 2007 and 2 July 2007 had previously been refused parole or release on home detention curfew. [149328]

[Official Report, 16 July 2007, Vol. 463, c. 146W.]

Letter of correction from Mr. Hanson to Mr. Garnier:

I am writing to you regarding a Parliamentary Question that I responded to on 16 July 2007, concerning the number of prisoners released under the End of Custody Licence scheme who had previously been refused parole or release on Home Detention Curfew, during the initial implementation of the scheme. Unfortunately officials have recently identified that the number given in the original answer was overstated as 951 due to a calculation error (copy of Hansard extract below). The correct figure was 366. I apologise for the error in the answer originally provided, and have arranged for a correction to appear in the *Official Report* as soon as possible.

Mr. Garnier: To ask the Secretary of State for Justice how many prisoners who were released under the End of Custody Licence on 29 June 2007 and 2 July 2007 had previously been refused parole or release on home detention curfew. [149328]

Mr. Hanson: Parole applies to prisoners serving sentences of four years or more. Prisoners are eligible for consideration for End of Custody Licence if they have been sentenced to less than four years. No prisoner released under End of Custody Licence would have previously been refused parole during their current sentence.

Of the 1,390 prisoners release under End of Custody Licence on 29 June 2007 and 2 July 2007, 951 have previously been refused release on home detention curfew.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

For your information I enclose a copy of the answer provided on 7 July 2008 to a similar PQ (216953) asked by the hon. Member for Meirionnydd Nant Conwy (Mr. Llwyd).

Mr. Llwyd: To ask the Secretary of State for Justice, how many people have been released on end of custody licence who had previously been refused a home detention curfew. [216953]

Mr. Straw: Of the 28,879 prisoners release under End of Custody Licence between 29 June 2007 and 31 May 2008, the latest date for which this figure is available, around 5,300 had previously been refused release on home detention curfew.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Ministerial Corrections

The following corrections were received between Monday 1 September and Tuesday 9 September 2008

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Drugs

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs how much the UK has spent on the Afghan Drug Programme in each year since 2003; what drug programmes his Department has funded in Afghanistan since 2003; and if he will make a statement. [197784]

[Official Report, 3 April 2008, Vol. 474, c. 1215W.]

Letter of correction from David Miliband:

An error has been identified in the table given in the written answer to the hon. Member for Kingston and Surbiton (Mr. Davey) on 3 April 2008 detailing the sums the Government have spent on developing a single, integrated counter narcotics programme for Afghanistan, The original table was as follows:

	£ million
2005-06	46.8
2006-07	46.8
2007-08	43.8

The correct answer should have been:

David Miliband: In 2004-05 the UK spent £6.1 million on a counter narcotics programme in Afghanistan. In 2005 the Afghan Drugs Inter-Departmental Unit was created to manage the UK's increased counter narcotics effort in Afghanistan. Since that time, the Government have developed a single, integrated counter narcotics programme for Afghanistan and spent the following sums:

	£ million
2005-06	46.8
2006-07	45.8
2007-08	43.8

UK spend has been directed towards supporting the Afghan National Drugs Control Strategy, which has eight pillars of activity: (1) raising public awareness. (2) promoting international and regional co-operation, (3) promoting alternative livelihoods, (4) reducing demand for drugs, (5) law enforcement, (6) establishing an effective criminal justice system, (7) targeted eradication of opium and (8) building effective Afghan government institutions.

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs how much the Government spent on programmes to reduce opium production in Afghanistan in each year since 2001. [198016]

[Official Report, 3 April 2008, Vol. 474, c. 1216W.]

Letter of correction from David Miliband:

The same error has been identified in the table given in the written answer given to the hon. Member for Kingston and Surbiton (Mr. Davey) on 3 April 2008. The original table was as follows:

	£ million
2005-06	46.8
2006-07	46.8
2007-08	43.8

The correct answer should have been:

David Miliband: Before 2004, the UK did not have a dedicated counter narcotics programme in Afghanistan. In 2004-05, the UK spent £6.1 million on counter narcotics work in Afghanistan.

In 2005 the Afghan Drugs Inter-Departmental Unit was created to manage the UK's increased counter narcotics effort. Since that time, the Government has directly spent the following on counter narcotics programmes in Afghanistan:

	£ million
2005-06	46.8
2006-07	45.8
2007-08	43.8

DUCHY OF LANCASTER

Departmental Sick Leave

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster how many days sick leave were taken on average by staff in his Department in each of the last five years. [198954]

[Official Report, 21 April 2008, Vol. 474, c. 1695W.]

Letter of correction from Phil Hope:

An error has been identified in the written answer given to the hon. Member for Fareham (Mr. Hoban) on 21 April 2008. The answer given was as follows:

The average number of working days lost per person is only available from 2004 and is published on the civil service website at:

http://www.civilservice.gov.uk/about/statistics/sickness.asp

The answer should have been as follows:

Phil Hope: The average number of working days lost per person from 2003 is published on the civil service website at:

http://www.civilservice.gov.uk/about/statistics/sickness.asp

CULTURE, MEDIA AND SPORT

English Sports Council: Finance

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how much Sport England has received in *(a)* grant-in-aid and *(b)* lottery funding in each year since 1999. [213783]

[Official Report, 7 July 2008, Vol. 478, c. 1208W.]

Letter of correction from Mr. Sutcliffe :

Errors have been identified in the third column of the table provided in the written answer to the hon. Member for Bath (Mr. Foster) on 7 July 2008. The original figures in the column headed "SE lottery funding" were as follows:

		Sport England grant in aid	*£000 SE lottery funding*
Outturn	1999-2000	37,523	251,000
Outturn	2000-01	38,323	232,000
Outturn	2001-02	43,162	309,000
Outturn	2002-03	80,324	313,000
Outturn	2003-04	44,572	261,000
Outturn	2004-05	74,456	232,000
Outturn	2005-06	80,971	400,000
Outturn	2006-07	104,245	296,000
Provisional Outturn[1]	2007-08	113,296	227,000

[1] The accounts for Sport England have not yet been audited.

The correct answer should have been:

		Sport England grant in aid	*£000 SE Lottery funding*
Outturn	1999-00	37,523	251,000
Outturn	2000-01	38,323	232,000
Outturn	2001-02	43,162	298,000
Outturn	2002-03	80,324	308,000
Outturn	2003-04	44,572	237,000
Outturn	2004-05	74,456	171,000
Outturn	2005-06	80,971	202,000
Outturn	2006-07	104,245	121,000
Provisional outturn	2007-08	113,296	128,000

The Lottery funding figures detailed represent drawdown by Sport England from the National Lottery Distribution Fund. The figures for 2007-08 are subject to audit.

JUSTICE

Departmental Freedom of Information

Mrs. Laing: To ask the Secretary of State for Justice how many unanswered freedom of information requests there have been by his Department in the last 12 months. [220474]

[Official Report, 22 July 2008, Vol. 479, c. 1213W.]

Letter of correction from Mr. Wills:

I am writing to correct a written response I provided to a parliamentary question you asked before recess.

On the 17 July you asked the Secretary of State for Justice: '...how many unanswered freedom of information requests there were by his department in the last 12 months.'

I responded that of the 1,427 non-routine requests the department had received in 2007, 88 (6 per cent.) had not received a substantive response within the 20 day time limit. It would have been more accurate to say that

'statistics published in the latest annual report on Freedom of Information in Central Government show that of a total of 1,427 non-routine requests received by the Ministry of Justice in 2007, 88 (6 per cent.) had not received a response at the time of the end of year data collection. The annual report can be found on the Ministry of Justice website at:

http://www.justice.gov.uk/publications/freedomofinformationquarterly.htm

http://www.justice.gov.uk/publications/freedomofinformationquarterly.htm>'

Ministerial Correction

The following correction was received between Monday 15 September and Tuesday 16 September 2008

WORK AND PENSIONS

Pension Credit

Mr. Touhig: To ask the Secretary of State for Work and Pensions (1) what estimate his Department has made of the amount of pension credit unclaimed in *(a)* Islwyn constituency, *(b)* England and *(c)* Wales in each year since its introduction; [212800]

(2) how many pensioners in Islwyn constituency are *(a)* eligible for and *(b)* receive a pension credit. [212801]

[Official Report, 24 June 2008, Vol. 478, c. 188W.]

Letter of correction from Mr. O'Brien

An error has been identified in the written answer given to the right hon. Member for Islwyn (Mr. Touhig) on 24 June 2008. The original answer referred to the number of households in Islwyn in receipt of pension credit and stated:

"As at February 2008 there were 3,910 pensioner households—4,860 individuals—receiving pension credit in Islwyn constituency."

The correct answer should have been:

"As at February 2008 there were 3,900 pensioner households—4,850 individuals—receiving pension credit in Islwyn constituency."

Ministerial Corrections

The following Ministerial Corrections were received between Wednesday 17 September and Friday 26 September 2008

WORK AND PENSIONS

State Retirement Pensions

Mr. Gordon Prentice: To ask the Secretary of State for Work and Pensions how many people receive the UK state pension in a form which *(a)* is and *(b)* is not frozen, broken down by country of residence. [216748]

[Official Report, 17 July 2008, Vol. 479, c. 656W.]

Letter of correction from Mr. O'Brien:

An error has been identified in the written answer given to the hon. Member for Pendle on 17 July 2008. Alderney was inadvertently included in the table of frozen rate countries and territories but should have been included in table 1, which listed the countries and territories where the state pension is uprated. In the original answer, table 2, headed "Number of State Pension recipients living overseas in frozen rate countries and territories", included the following:

Table 2: Number of state pension recipients living overseas in frozen rate countries and territories

Country	Number of recipients
Albania	10
Alderney	550
Algeria	10

The correct answer should have been:

Table 1: Number of state pension recipients living overseas in countries and territories where the state pension is up-rated (EEA and Switzerland and countries and territories covered by a reciprocal agreement which allows for up-ratings)

Country	Number of recipients
Alderney	550
Austria	4,930
Barbados	5,120

INTERNATIONAL DEVELOPMENT

Park for Women: Lashkar Gah

13. **Mr. Ellwood:** To ask the Secretary of State for International Development, what plans he has for the funding and operation of the Park for Women in Lashkar Gah, Helmand province in the next 12 months. [210005]

[Official Report, 11 June 2008, Vol. 477, c. 359W.]

Letter of correction from Mr. Douglas Alexander.

An error has been identified in the written answer given to the hon. Member for Bournemouth, East on 11 June 2008. The full answer given was as follows:

Mr. Douglas Alexander: The Government of Iraq has responsibility for the funding and operation of the Bolan Park in Lashkar Gah. To that end, the Department for International Development has no plans for further support to the park.

The correct answer should have been:

Mr. Douglas Alexander: The Government of Afghanistan has responsibility for the funding and operation of the Bolan Park in Lashkar Gah. To that end, the Department for International Development has no plans for further support to the park.

INDEX TO THE

PARLIAMENTARY DEBATES

OFFICIAL REPORT

SIXTH SERIES **VOLUME 479**

SESSION 2007–2008

14 July 2008—29 September 2008

Printed indexes to Hansard

This index is produced from the House of Commons Library's Parliamentary Information Management Services (PIMS). It contains references to all material in the bound volume of Hansard.

- At the end of the session a sessional index is produced containing references to material in the bound volumes for the whole session.

Indexes on the Parliamentary website

Volume indexes covering material from the beginning of the 1999/2000 session will also appear on the Parliamentary website at http://www.parliament.uk with links to the full text of Hansard.

SCOPE

The indexes include entries covering:

- The content of all material recorded in Hansard, including debates, procedural motions and questions.
- The names of all Members contributing to the Parliamentary business recorded in Hansard.
- The names of some types of Parliamentary business whenever they occur in Hansard. These are 'Ministerial statements', 'Business statements', 'Opposition days' and 'Estimates days'.

ARRANGEMENT

- All headings are in one word-by-word alphabetical sequence, with Members' contribution entries distinguished from other entries by italics.
- Where a Member contributes to Parliamentary business and is the subject of Parliamentary business there are separate contribution and subject entries, the subject entry coming first.
- Entries beginning 'Mac' and 'Mc' are sorted in one sequence as 'Mac'.
- 'St', when abbreviated for Saint, is filed as 'Saint'.
- Numbers are filed as if spelt out, e.g. '10 Downing Street' as if 'Ten Downing Street'.

HEADINGS

Choice of headings

- *Specificity*—Entries summarise the overall content of a debate or question as specifically as the various PIMS thesauruses allow. For example, Education, Higher education, Universities or the name of a particular university is used depending on the breadth of the item.
- *Name headings*—Specific entries are included for the names of people, places, institutions, organisations, committees, programmes, initiatives, publications and legislation when these constitute the overall subject of an item.
- *Organisations and subjects*—Organisation entries are preferred for material about the general performance, administration and staffing of an organisation (for example, United Kingdom Passports Agency, Standards). Subject entries are preferred for what organisations do as part of their duties (for example, Passports, Fees and charges).

Geographical coverage

- *Subject headings*—Subject headings are assumed to refer to the whole of England, Great Britain or the United Kingdom unless otherwise stated.
- *Scotland, Northern Ireland and Wales*—Material relating to the whole of Scotland, Northern Ireland and Wales is indexed under these headings.
- *Places within the UK*—Material about specific towns, areas and institutions is entered under the name of the specific town, area or institution.
- *Foreign countries*—Most material relating to foreign countries is collected under the name of that country. Some additional material may be found under the names of—groups of countries, areas within countries, geographical features, place names associated with particular issues, politicians and heads of state, international bodies, and institutions and companies operating in those countries.
- *EC/EU material*—General material about the European Union and European institutions as bodies is entered under 'European Union' and the named individual institutions. Material about what the Union and institutions are doing or propose to do is entered under various subject headings beginning 'EC' such as 'EC environmental policy'.

Parliamentary material and business

- *Material about Parliament*—This is indexed under 'Parliament', the names of the two Houses, the 'Palace of Westminster' and parts of the Parliamentary estate (such as 'Portcullis House').
- *Committees*—Material about committees is indexed under 'Committees', types of committee (such as 'Select committees') and the names of individual committees (such as 'Home Affairs Select Committee').
- *Parliamentary proceedings/procedures*—Material discussing these is indexed under the specific type of proceeding (such as 'Parliamentary questions' or 'Oral questions'), procedure (such as 'Calling of Members') or issue (such as 'Unparliamentary expressions').
- *Legislation*—Entries for Parliamentary proceedings on bills and statutory instruments are entered under their titles. Where the lead word of the bill or statutory instrument does not provide a full or clear indication of the subject there are additional subject entries when the bill or instrument is debated. For example, debates on the 'Child Support Pensions and Social Security Bill' have entries under 'Pensions' and 'Social security benefits' as well as under the title of the Bill.
- *Members' names*—These are given in the form by which the Member prefers to be known.
- *Speaker and Chair*—Contributions by the Speaker and deputies are brought together under the heading 'Speaker and deputies'. Contributions from the chair during Committees of the Whole House are brought together under 'Chairman of Committee of the Whole House'. Significant rulings and statements (as opposed to routine comments) are indicated by the sub-heading 'Rulings and statements' in both cases.

Cross references

- *See* references indicate that all the material has been entered under another heading.
- *See also* references indicate that additional information may be found under another heading.

REFERENCES

- References in the indexes are to columns rather than pages.
- References to debates, but not questions, are accompanied by the date of the item.
- There are separate sequences in Hansard for the material taken on the floor of the House, Westminster Hall sittings, written statements, written questions and ministerial corrections:
  - References consisting of a number by itself indicate material taken on the floor of the House.
  - References ending in 'wh' indicate Westminster Hall sittings.
  - References ending in 'ws' indicate written statements.
  - References ending in 'w' indicate written questions.
  - References ending in 'p' indicate written petitions.
  - References ending in 'mc' indicate ministerial corrections. (Where a volume number is given, the correction appears in a later volume).
- References under all headings except the names of Members contributing to Parliamentary business and the titles of legislation are listed in one numerical sequence irrespective of whether the material is taken on the floor of the House, is discussed at a Westminster Hall sitting, is a written statement or is a written question.
- References under the names of Members contributing to Parliamentary business and the titles of legislation are listed in numerical sequence under the following headings:
  - *Chamber Debates* (which includes interventions and points of order as well as significant contributions to debates);
  - *Westminster Hall Debates* (covering all debates held as part of the Westminster Hall sittings);
  - *Written Statements* (consisting of ministerial statements issued in writing); and
  - *Questions* (which includes all written, oral and urgent questions).

ABBREVIATIONS

The following abbreviations are used in connection with the progress of bills:

- 1R = First reading
- 2R = Second reading
- Com = Committee stage
- Rep = Report stage
- 3R = Third reading
- res = resolution
- amendt(s) = amendment(s)
- * = matter taken formally without debate or division
- (HL) = Bill starting in House of Lords
- (SP) = Bill in Scottish Parliament.

Parliamentary background

- The Parliamentary website at http://www.parliament.uk contains a range of information about Parliament and the full text of some Parliamentary papers and proceedings including Hansard.
- Information on current Parliamentary business is provided in the House of Commons Information Office *Weekly Information Bulletin*, available on the website and from The Stationery Office (020 7873 8499).
- Further information on Parliamentary proceedings and procedures is available from the House of Commons Information Office (020 7219 4272).
